No. MC 119383 (Sub-No. 6), filed December 1, 1972. Applicant: PORTLAND MOTOR TRANSPORT, a corporation, Post Office Box 217, North Portland, OR 97043. Applicant's representative: David C. White, 2400 Southwest Fourth Avenue, Portland, OR 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum fuel oil*, in bulk, in tank vehicles, from Manchester, Wash., to points in the Willamette National Forest in Marion, Linn, and Lane Counties, Oreg. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 119632 (Sub-No. 56), filed December 4, 1972. Applicant: REED LINES, INC., 634 Ralston Avenue, Defiance, OH 43512. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor

vehicle, over irregular routes, transporting: *Food and food products*, from Fremont, Rockford, and Ohio City, Ohio, Jonesville, Mich., and Clay, N.Y., to points in Illinois, Indiana, Kentucky, Michigan, New York, Ohio, Pennsylvania, and West Virginia, and *materials, supplies, and equipment* used in the processing, production, packaging, and distribution of food and food products, from points in Illinois, Indiana, Kentucky, Michigan, New York, Ohio, Pennsylvania, and West Virginia to Fremont, Rockford, and Ohio City, Ohio, Jonesville, Mich., and Clay, N.Y. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states it seeks no duplicating authority and is willing to accept any appropriate restriction concerning same. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 119656 (Sub-No. 11), filed November 21, 1972. Applicant: NORTH EXPRESS, INC., 219 East Main Street, Winamac, IN 46996. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Toolboxes*, from Rochester, Ind., to points in the United States (except Alaska and Hawaii), and on return *hardware and paint*, from Chicago, Ill., to the plantsite of Utrail Co., Inc., at Rochester, Ind. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Indianapolis, Ind.

No. MC 123233 (Sub-No. 40), filed September 11, 1972. Applicant: PROVOST CARTAGE, INC., 7887 Second Avenue, Ville d'Anjou 437, PQ, Canada. Applicant's representative: J. P. Vermette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid asphalt*, in bulk, in tank vehicles, from ports of entry on the international boundary line between the United States and Canada located at or near Derby Line and Highgate Springs, Vt., to points in Vermont, restricted to shipments originating in Canada. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Albany, N.Y., or Washington, D.C.

No. MC 123383 (Sub-No. 64), filed November 22, 1972. Applicant: BOYLE BROTHERS, INC., 941 South Second Street, Camden, NJ 08103. Applicant's representative: Chandler L. van Orman, 704 Southern Building, 15th and H Streets NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board and particleboard*, from Chesapeake, Va., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 123407 (Sub-No. 113), filed December 18, 1972. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass, glass glazing units, automotive glass, and boat glass*, from the plantsites of PPG Industries, Inc., located at Ford City and South Greensburg, Pa., to points in the United States in and east of Montana, Wyoming, Colorado, and New Mexico. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 123407 (Sub-No. 114), filed December, 18, 1972. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and roofing materials*, from Oregon, Ohio, to points in the United States in and east of Montana, Wyoming, Colorado, and New Mexico. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio, or Washington, D.C.

No MC 123407 (Sub-No. 115), filed December 26, 1972. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass and glass glazing units*, from Carleton, Mich., to points in the United States in and east of Montana, Wyoming, Colorado, and New Mexico. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Washington, D.C.

No. MC 123744 (Sub-No. 8), filed December 1, 1972. Applicant: BUTLER TRUCKING COMPANY, a corporation, Post Office Box 88, Woodland, PA 16881. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractory products, and materials and supplies* used in the installation of refractory products, (1) from points in Pennsylvania to points in Florida, Georgia, South Carolina, and Texas and (2) from the plantsite and facilities of Kaiser Refractories at Frostburg, Md., and Columbiana, Ohio, to points in Pennsylvania, New York, New Jersey, Maryland, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, and Maine. NOTE: Applicant states that the requested authority can be tacked with its existing authority at Clearfield, Pa., so as to permit service from Columbiana, Ohio, to points in Virginia, West Virginia, and the District of Columbia (Sub-No. 4) without undue circuity. Also at Sub-No. 4, tacking would be possible on traffic originating at Columbiana, Ohio, over either Clearfield or Mount Union, Pa., to points in Alabama, Louisiana, Mississippi, Missouri, North Carolina, and Tennessee. Other tacking would involve excess circuity. Applicant intends to provide through service to points in the Canadian Provinces of Ontario and Quebec. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 123936 (Sub-No. 5), filed December 4, 1972. Applicant: RETAIL STORES DELIVERY OF RHODE ISLAND, INC., 208 Kinsley Avenue, Providence, RI 02903. Applicant's representative: Russell B. Curnett, Post Office Box 135A, Harwich, MA 02645. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities*, as are dealt in by retail department stores in retail delivery service, between Boston, Mass., and points in Rhode Island, points in Fairfield, Hartford, Litchfield, Middlesex, New London, New Haven, Tolland, and Windham Counties, Conn., and those in Barnstable, Bristol, Essex, Franklin, Hampden, Hampshire, Middlesex, Norfolk, Plymouth, and Worcester Counties, Mass. NOTE: Common control may be involved. Applicant states that the requested authority will be tacked with its existing authority wherein it provides service between Boston, Mass., and points in

V 38 17 JAN 26 73 XUM

Rhode Island, points in Hartford, Middlesex, New London, Tolland, and Windham Counties, Conn., and those in Barnstable, Bristol, Hampden, Norfolk, Plymouth, and Worcester Counties, Mass. If a hearing is deemed necessary, applicant requests it be held at Providence, R.I., or New York, N.Y.

No. MC 124692 (Sub-No. 98), filed November 29, 1972. Applicant: SAMMONS TRUCKING, a corporation, Post Office Box 1447, Missoula, MT 59801. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Duluth, Minn., to points in Montana, Oregon, Washington, Wyoming, and Colorado. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn., or Washington, D.C.

No. MC 125521 (Sub-No. 20) (Correction), filed August 28, 1972, published in the FEDERAL REGISTER issues of October 27, 1972, and December 28, 1972, and republished as corrected this issue. Applicant: FUNK MOTOR TRANSPORTATION, INC., Box 75, Bridge Street, Grand Rapids, OH 43522. Applicant's representative: Arthur R. Cline, 420 Security Building, Toledo, Ohio 43604. NOTE: The purpose of this republication is to show the correct docket number as shown above in lieu of No. MC 12551 (Sub-No. 20), which was in error. The rest of the notice remains as previously published.

No. MC 125521 (Sub-No. 23), filed December 1, 1972. Applicant: FUNK MOTOR TRANSPORTATION, INC., Box 75, Bridge Street, Grand Rapids, OH 43522. Applicant's representative: Arthur R. Cline, 420 Security Building, Toledo, OH 43604. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a

V 38 17 JAN 26 73 XUM

hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 129325 (Sub-No. 4), filed December 7, 1972. Applicant: DIAZ MOTOR FREIGHT, INC., 2829 Frenchman Street, New Orleans, LA 70100. Applicant's representative: J. G. Dail, Jr., 1111 E Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from New Orleans, La., to points in Florida east of a line beginning at the Florida-Alabama State line and extending along U.S. Highway 231 to Panama City, Fla.; thence along U.S. Highway 98 to San Blas, Fla., thence in a straight line south of San Blas to the Gulf of Mexico. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 129510 (Sub-No. 5) (Amendment), filed July 5, 1972, published in the FEDERAL REGISTER issues of August 3, 1972, and November 23, 1972, and republished in part, as amended, this issue. Applicant: CHESTER W. ENGLUND, doing business as C. W. ENGLUND CO., Salinas, Calif. 93901. Applicant's representative: John Paul Fisher, 140 Montgomery Street, San Francisco, CA 94104. By letter dated November 2, 1972, applicant amended the application to add an additional part (10) as previously published in the FEDERAL REGISTER issue of November 23, 1972. By a second letter also dated November 2, 1972, applicant again amends the application to include the said part (10), and also an additional part (11) which reads as follows: "(11) *Sheet steel*, in coils, from Port Carbon, Pa., to the plantsite of Industrial Building Materials, Inc., at Los Angeles, Calif." NOTE: The sole purpose of this partial republication is to reflect the additional authority sought in part (11). The rest of the application remains as previously published on August 3, 1972, and November 23, 1972.

No. MC 129588 (Sub-No. 6) (Correction), filed August 28, 1972, amended and published in the FEDERAL REGISTER issue of December 14, 1972, and republished, as corrected, this issue. Applicant: R. J. ANDREWS, doing business as R. J. (RED) ANDREWS TRUCK LINE, Post Office Box 4, Corsicana, TX 75110. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Building, Dallas, Tex. 75224. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture, furniture parts, and plastic shutters, and equipment, materials, and supplies* used in or in connection with the manufacture and distribution of these commodities, between Avon Park, Fla., Butler, Pa., Canton and Jackson, Miss., Coal City, Ill., Conyers, Ga., Dover, N.H., Fort Smith, Ark., Gainesville and Yoakum, Tex., Roland, Iowa, and Tennent, N.J., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, West Virginia, Wisconsin, Wyoming, and the District of Columbia; (2) *lighting fixtures, lamps and shades, electric heaters, wall decors, and fireplace accessories, and equipment, materials, and supplies* used in or in connection with the manufacture and distribution of these commodities, between Brooklyn, N.Y., Chattanooga, Tenn., Fall River, Mass., Kansas City, Mo., Nesquehoning, Pottsville, and Schuylkill Haven, Pa., on the one hand, and, on the other, points in those States named in (1) above; (3) *cleaning compounds, paint and paint material, furniture polish, wax and wax remover, and sealants* moving in mixed shipments with cleaning compounds and or paint and paint material, and *equipment, materials, and supplies* used in or in connection with manufacture and distribution of these commodities, between Garland, Tex., on the one hand, and, on the other, points in those States named in (1) above; and (4) *cleaning compounds, paint and paint material, furniture polish, wax and wax remover, and sealants* moving in mixed shipments with cleaning compounds and/or paint and paint material, between Chicago, Chicago Heights, Elgin, and Joliet, Ill., Greensboro, N.C., Pennsauken, N.J., and Columbus, Ohio. Restriction: Restricted in (1), (2), (3), and (4), against the transportation of commodities in bulk and further restricted to operations performed under a continuing contract with De Soto, Inc. NOTE: The purpose of this republication is to delete section (1) of the previous published amended request for authority and indicate the applicant's requests for authority as published herein. Applicant states that the requested authority cannot be tacked with its existing authority, and that no duplicating authority is sought.

No. MC 133796 (Sub-No. 14), filed December 8, 1972. Applicant: GEORGE APPEL, 249 Carverton Road, Trucksville, PA. Applicant's representative: Kenneth R. Davis, 999 Union Street, Taylor, PA 18517. NOTE: Applicant also holds broker license passenger authority under its No. MC 12668. If a hearing is deemed necessary, applicant requests it be held at Newark, N.J.

APPLICATIONS FOR FREIGHT FORWARDERS

No. FF-326 (Sub-No. 1) (ATLAS VAN LINES INTERNATIONAL CORP. extension—Domestic traffic), filed January 8, 1973. Applicant: ATLAS VAN LINES INTERNATIONAL CORP., 1212 St. George Road, Post Office Box 509, Evansville, IN 47701. Applicant's representative: Herbert Burstein, 1 World Trade Center, New York, NY 10048. Authority sought under Section 410, Part IV of the Interstate Commerce Act, for a permit authorizing applicant to extend operation as a freight forwarder, in interstate or foreign commerce, through use of the facilities of common carriers by railroad, motor vehicle, water in the transportation of: *Household goods*, as defined by the Commission, *unaccompanied baggage* and *used automobiles* between points in the United States (including Alaska, Hawaii and the District of Columbia).

No. FF-432 (TUCOR SERVICES, INC. Freight forwarder application), filed January 15, 1973. Applicant: TUCOR SERVICES, INC., 640 Sacramento Street, San Francisco, CA 94111. Applicant's representatives: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006, and Mr. A. A. Von Sabo (same address as applicant). Authority sought under Section 410, Part IV of the Interstate Commerce Act, for a permit authorizing operations as a freight forwarder, in interstate or foreign commerce, in the forwarding of: *Used household goods, unaccompanied baggage, and used automobiles*, between points in the United States (including Hawaii but excluding Alaska), restricted to the transportation of export and import traffic.

APPLICATIONS FOR BROKERAGE LICENSE

No. MC 130186 filed December 11, 1972. Applicant: VERGIL M. WEBB, MARIAN H. WEBB and LARRY H. WEBB, a partnership, doing business as HOLIDAY WORLD TOURS, 2364 Evergreen Avenue, Salt Lake City, UT 84109. Applicant's representative: Marian Webb, (same address as applicant). For a license (BMC-5) to engage in operations as a *broker* at Salt Lake City, Utah, in arranging for transportation, by motor vehicle, in interstate or foreign commerce of *passengers and their baggage*, in group tours only, in special and charter operations, beginning and ending at points in California, Nevada, Utah, Arizona, Idaho, Washington, and Oregon, and extending to points in the United States including Alaska and Hawaii.

No. MC 130187, filed December 15, 1972. Applicant: YOUR MAN TOURS, INC., 8348 Lincoln Boulevard, Los Angeles, CA. Applicant's representative: Frank J. Dupuis (same address as applicant). For a license (BMC-5) to engage in operation as a *broker* at Los Angeles, Calif., in arranging for transportation, by motor vehicle, in interstate or foreign commerce of *passengers and their baggage*, in group tours only, in special and charter operations, beginning and ending at Los Angeles, Calif., and extending to points in California and Nevada.

No. MC 130188, filed December 11, 1972. Applicant: NORTH AMERICAN TOURS, INC., 712 Cherry Street, Wheaton, IL 60187. Applicant's representative: Bruce R. Johnson, 321 James tSreet, Geneva, IL 60134. For a license (BMC-5) to engage in operations as a *broker* at Wheaton, Ill., in arranging for transportation, by motor vehicle, in interstate or foreign commerce of *passengers and their baggage*, in special and charter operations, accompanied by tour directors and/or chaperones, beginning and ending within a 50-mile radius of Wheaton, Ill., and extending to points in the United States including Alaska and Hawaii.

APPLICATION IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 43587 (Sub-No. 5), filed December 12, 1972. Applicant: UNITED HAULAGE CO., INC., 11-22 Welling Court, Long Island City, NY 11102. Applicant's representative: A. David Millner, 744 Broad Street, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular

routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between New York, N.Y., on the one hand, and, on the other, points in Nassau and Westchester Counties, N.Y., restricted to the interlining of freight and trailers. NOTE: The requested authority seeks only to substitute an interchance point with the applicant's presently authorized operations in No. MC 43587 and Subs thereunder. Applicant states that the requested authority cannot be tacked with its existing authority.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

No. 17—Pt. II——1

V38-17 JAN 26 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modifications and Supersedeas Decisions to Area Wage Determination Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volumes causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

SET FORTH BELOW IN THIS DOCUMENT ARE THE FOLLOWING

A new Area Wage Determination Decision number AP–618 for Illinois.

Modifications to Area Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

Alaska	AM–2,506; AM–2,507, Aug. 5, 1972. AM–6,726; AM–6,727, May 5, 1972.
Illinois	AP–68, Dec. 8, 1972. AP–79, Dec. 22, 1972.
Louisiana	AP–363, Dec. 1, 1972.
Pennsylvania	AP–454, Jan. 5, 1973.
Texas	AP–353; AP–354, Nov. 3, 1972.

Supersedeas Decisions to Area Wage Determination Decisions for the following States (the numbers of the decisions being superseded and their dates of publication in the FEDERAL REGISTER are listed with each State; the Supersedeas Decision numbers are in parentheses following the numbers of the decisions being superseded):

Illinois	AM–336(AP–616); AM–340 (AP–603), Aug. 13, 1971. AM–8,828(AP–621); AM–8,629(AP–615); AM–8,630(AP–604), June 30, 1972. AP–5(AP–617), Aug. 4, 1972.
Louisiana	AP–311(AP–397) Aug. 18, 1972. AP–318(AP–398), Aug. 25, 1972.
Pennsylvania	AM–1,855(AP–462); AM–1,861(AP–463), Aug. 20, 1971. AM–5,967(AP–465); AM–5,972(AP–467); AM–5,973(AP–464), Dec. 17, 1971. AM–5,969(AP–466), Jan. 7, 1972.
Texas	AP–343(AP–393); AP–344 (AP–391); AP–345(AP–390), Sept. 29, 1972. AP–355(AP–394), Nov. 3, 1972. AP–357(AP–396); AP–358 (AP–388), Nov. 10, 1972. AP–368(AP–395), Dec. 8, 1972. AP–370(AP–389), Dec. 15, 1972. AP–371(AP–392), Dec. 22, 1972.

Signed at Washington, D.C., this 19th day of January 1973.

BEN P. ROBERTSON,
Acting Administrator,
Wage and Hour Division.

Welders- receive rate prescribed for craft performing operation to which welding is incidental.						

BUILDING CONSTRUCTION

Paid Holidays (Where Applicable):
A-New Years' Day; B-Memorial Day; C-Independence Day;
D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

Footnotes:

a. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. Six paid holidays: A through F.

c. 9 paid holidays, A through F and Washington's Birthday, Good Friday and Christmas Eve, provided the employee has worked 45 full days for the employer during the 120 days prior to the holiday, and is available for work the days preceding and following the holiday.

HEAVY EQUIPMENT:						
Utility operator	$6.15	.30	.35		.05	
Blade grader, self-propelled; Clam shells; Cable ways; Cranes, power operated, all types; Derricks, power operated, all types; Draglines; Elevating graders, self-propelled; Hoist, 2 drums or more; Locomotive; Mixmobiles; Paving mixers, all types; Pile Drivers; Scrapers, Bulldozers, Side boom; Cherry pickers; Shovels; Heavy duty mechanic; All welders; All tractors with power attachments (crawler type); Ditching machine; Farm type tractor (loader, 1 yd. & over) with backhoe	6.01	.30	.35		.05	
All other equipment of similar nature coming within the heavy class, when power operated.						
LIGHT EQUIPMENT:						
Farm type tractor (loader, under 1 yd.) with backhoe; Go-devil; Mixers, 14 cu. ft. or over; Rollers, over 10 tons; 2 pumps operated by one man; Air compressor and one tugger	5.83	.30	.35		.05	
Winch trucks	5.73	.30	.35		.05	
2 air compressors; 1 air compressor and 1 pump; Front end scoopmobile loader & payloader	5.70	.30	.35		.05	
Blade grader, towed; Elevators, building; Fork lifts; Hoists, single drum or 1 line hoisting (1 tugger); Mixers less than 14 cu. ft.; Rollers; Screening plants; Welding machines (gas or diesel) min. 2 max. 7; Crushing plants; Tractors wheel type except when hauling material; Truck crane driver and/or oiler front end crane	5.59	.30	.35		.05	
Pulsometer; 1 pump; 1 air compressor; mechanic helper; Welders helpers; fireman	5.41	.30	.35		.05	
Greasers	5.22	.30	.35		.05	
Oilers	5.12	.30	.35		.05	
All other equipment of similar nature coming within the light class, when power operated

LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

Implementation Regulations

No. 17—Pt. III——1

V 38 - 17 JAN 26 73 XUM

Title 20—EMPLOYEES' BENEFITS

Chapter I—Bureau of Employees' Compensation, Department of Labor

DELETION OF REGULATIONS IMPLEMENTING LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT

As set forth in 20 CFR, Part 01 (37 FR 22980), organizational changes have been made by which the former Bureau of Employees' Compensation and its functions were divided between two offices. Administration of the Federal Employees' Compensation Act (FECA) and related statutes was transferred to the Office of Federal Employees' Compensation (OFEC), and administration of the Longshoremen's and Harbor Workers' Compensation Act (LHWCA) and related statutes was transferred to the Office of Workmen's Compensation Programs (OWCP). In view of the different office titles, and the addition of extensive new responsibility delegated to OWCP under the black lung benefits program (see 37 FR 25440) and amendments made to the LHWCA by Public Law 92–576, 86 Stat. 1261, it was determined that the regulations relating to the LHWCA and its extensions should, upon revision, be transferred to Chapter VI of Title 20, Code of Federal Regulations.

By separate document in the FEDERAL REGISTER this date p. 2650, amending Subchapter A of Chapter VI of Title 20, Code of Federal Regulations, there are published the revised regulations promulgated under the LHWCA and its extensions. Accordingly, the pending revision and recodification mentioned in 20 CFR 01.3 has been accomplished, and the regulations in Subchapters C, D, E, H, and I of Chapter I of Title 20, CFR, are superseded. Those subchapters are, therefore, hereby vacated and 20 CFR 01.3 is revoked.

Inasmuch as the new regulations in chapter VI, as published this date, are effective January 26, 1973, this deletion shall also be effective January 26, 1973.

Signed at Washington, D.C., this 18th day of January 1973.

JAMES D. HODGSON,
Secretary of Labor.

Chapter VI—Employment Standards Administration, Department of Labor

SUBCHAPTER A—LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

IMPLEMENTATION REGULATIONS

Pursuant to the authority contained in § 39 of the Longshoremen's and Harbor Workers' Compensation Act (LHWCA), as amended by Public Law 92–576, approved October 27, 1972, subchapter A of chapter VI of title 20, CFR, is amended by revising Part 701, entitled Functions of Office of Workmen's Compensation Programs, and by adding a new part 702, entitled Administration and Procedures, a new part 703, entitled "Insurance Regulations," and a new part 704, entitled "Special Provisions for LHWCA Extensions." Subchapter A of chapter VI, as amended, restates with extensive revisions and the addition of new subject matter, the rules formerly set forth in subchapters, C, D, E, H, and I of chapter I of this title 20 which, by a separate document published this date in the FEDERAL REGISTER, p. 2650, are accordingly being deleted from chapter I of this title.

Part 701 provides brief descriptions of the organizational component in the Department of Labor administering the LHWCA and its extensions and of the organization of subchapter A of chapter VI. Part 702 contains the administrative regulations describing how and where to file claims for workmen's compensation benefits, and setting forth the procedures in the various stages of handling such claims, from informal disposition through formal hearings, and further, how and when to file an appeal. Part 703 contains the technical regulations affecting insurance carriers or self-insured employers, i.e., describing how they become, and remain authorized to write or provide insurance coverage under the act. Part 704 contains special provisions for administration of the LHWCA extensions in those very few instances wherein the general Longshoremen's Act regulations are inappropriate or inapplicable.

The provisions of 5 U.S.C. 553 for notice, public procedure, and delayed effective date are not applicable to the interpretation rules, general statements of policy, and rules of agency organization, procedure, and practice set forth in these amendments. In addition, in view of the 1972 amendments to the LHWCA by Public Law 92–576, which became effective on November 26, 1972, it is necessary that the regulations applicable under the act and its extensions be revised and placed in effect as expeditiously as possible, both to accede to a congressional mandate that the regulations be promptly revised and to process and adjudicate the numerous claims awaiting action pending this revision. Under these circumstances, I find that notice of proposed rule making and opportunity for public comments thereon would be impracticable and contrary to the public interest. I further find that delay in the effective date of these regulations, for those same reasons, is also impracticable and contrary to the public interest. Accordingly, these regulations shall become effective January 26, 1973.

However, notwithstanding this promulgation of rules in final form, it is the policy of this Department to obtain and consider comments, arguments, and suggestions from all interested persons. Accordingly, the Employment Standards Administration will receive written comments, data, and arguments until March 5, 1973, at which time these comments will be considered as if this document were a proposal. Until this document is further amended, these regulations shall remain in full force and effect.

Interested persons are invited to submit such data, views, or arguments to the Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210, on or before March 5, 1973.

As amended, subchapter A of chapter VI reads as follows:

PART 701—FUNCTIONS OF OFFICE OF WORKMEN'S COMPENSATION PROGRAMS

Sec.
701.101 Establishment of Office of Workmen's Compensation Programs.
701.102 Transfer of functions.
701.103 Historical background.
701.201 Scope of this subchapter.
701.202 Organization of this subchapter.

AUTHORITY: 5 U.S.C. 301; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 939; 36 D.C. Code 501; 42 U.S.C. 1651; 43 U.S.C. 1331; 5 U.S.C. 6171; Secretary's Order No. 13–71, 36 FR 8755.

§ 701.101 Establishment of Office of Workmen's Compensation Programs.

The Assistant Secretary of Labor for Employment Standards, by authority vested in him by the Secretary of Labor in Secretary's Order No. 13–71, 36 FR 8755, has established in the Employment Standards Administration (ESA) an Office of Workmen's Compensation Programs (OWCP). The Assistant Secretary has further designated as the head thereof a Director who, under the general supervision of the Deputy Assistant Secretary for Employment Standards/Wage-Hour Administrator and the Deputy Administrator, shall administer the programs assigned to that office by the Assistant Secretary.

§ 701.102 Transfer of functions.

Pursuant to the authority vested in him by the Secretary of Labor, the Assistant Secretary for Employment Standards has transferred from the Bureau of Employees' Compensation to the Office of Workmen's Compensation Programs all functions of the Department of Labor with respect to the administration of benefits programs under the following statutes:

(a) The Longshoremen's and Harbor Worker's Compensation Act, as amended and extended, 33 U.S.C. 901 et seq.;

(b) Defense Base Act, 42 U.S.C. 1651 et seq.;

(c) District of Columbia Workmen's Compensation Act, 36 D.C. Code 501 et seq.;

(d) Outer Continental Shelf Lands Act, 43 U.S.C. 1331;

(e) Nonappropriated Fund Instrumentalities Act, 5 U.S.C. 8171 et seq.;

(f) Title IV of the Federal Coal Mine Health and Safety Act, 83 Stat 742, as amended by the Black Lung Benefits Act of 1972, 86 Stat. 150.

§ 701.103 Historical background.

Administration of the Longshoremen's and Harbor Workers' Compensation Act (and the Federal Employees' Compensation Act, formerly known as the U.S. Employees' Compensation Act), was initially vested in an independent establishment known as the U.S. Employees' Compensation Commission. By Reorganization Plan No. 2 of 1946 (3 CFR 1943–1949 Comp., p. 1064; 60 Stat. 1095, effective July 16, 1946), the Commission was abolished and its functions were transferred to the Federal Security Agency to be performed by a newly created Bureau of Employees' Compensation within such Agency. By Reorganization Plan No. 19 of 1950 (15 FR 3178, 64 Stat. 1263) said Bureau was transferred to the Department of Labor, and the authority formerly vested in the Administrator, Federal Security Agency, was vested in the Secretary of Labor. By Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263, the Secretary of labor was authorized to make from time to time such provisions as he shall deem appropriate authorizing the performance of any of his functions by any other officer, agency or employee of the Department of Labor.

§ 701.201 Scope of this subchapter.

This subchapter contains the regulations governing the administration of the Longshoremen's and Harbor Workers' Compensation Act (LHWCA) and its direct extensions, the Defense Base Act (DBA), the District of Columbia Workmen's Compensation Act (DCCA), the Outer Continental Shelf Lands Act (OCSLA), and the Nonappropriated Fund Instrumentalities Act (NFIA), and such other amendments and extensions as may hereinafter be enacted. The regulations governing administration of the Black Lung Benefits Program are in Subchapter B of this chapter.

§ 701.202 Organization of this subchapter.

This part 701 is intended to provide a brief description of the organization, jurisdiction and method of operation of the Office of Workmen's Compensation Programs (also referred to in this subchapter as "the Office" or "OWCP"). Part 702 contains the general administrative regulations governing claims filed under the LHWCA, and part 703 contains the regulations governing authorization of insurance carriers, authorization of self-insurers, and issuance of certificates of compliance with said insurance regulations, as required by sections 32 and 37 of the LHWCA, 33 U.S.C. 932, 937. Inasmuch as the extensions of the LHWCA (see § 701.201) incorporate by reference nearly all of the provisions of the LHWCA, such that the regulations governing the latter apply to the extensions with very few exceptions, it has been determined that no useful purpose would be served by repeating the same provisions for each of the extensions. Accordingly, the regulations in parts 702 and 703 shall apply to the administration of the extensions (DBA, DCCA, OCSLA, and NFIA), unless otherwise noted. The exceptions to the general applicability of parts 702 and 703 are set forth in succeeding parts in this subchapter. Part 704 contains the exceptions for the DBA, the DCCA, the OCSLA, and the NFIA.

PART 702—ADMINISTRATION AND PROCEDURES

Subpart A—General Provisions

ADMINISTRATION

Sec.
702.101 Establishment of compensation districts.
702.102 Establishment of suboffices and jurisdictional areas.
702.103 Effect of establishment of suboffices and jurisdictional areas.
702.104 Transfer of individual cases.

RECORDS

702.111 Employer's records.
702.112 Records of the OWCP.
702.113 Inspection of records of the OWCP.
702.114 Copying of records of OWCP.

FORMS

702.121 Forms.

REPRESENTATION

702.131 Representation of parties in interest.
702.132 Fees for services.
702.133 Unapproved fees; solicitation of claimants; penalties.
702.134 Payment of claimant's attorneys' fees in disputed claims.
702.135 Payment of claimant's witness fees and mileage in disputed claims.

COMMUTATION OF PAYMENTS AND SPECIAL FUND

702.141 Commutation of payments; generally.
702.142 Commutation of payments; aliens not residents or about to become nonresidents.
702.143 Establishment of special fund.
702.144 Purpose of the special fund.
702.145 Use of the special fund.
702.146 Sources of the special fund.
702.147 Enforcement of special fund provisions.
702.148 Insurance carriers and self-insured employers responsibility.

Subpart B—Claims Procedures

EMPLOYER'S REPORTS

702.201 Reports from employers of employee's injury or death.
702.202 Employer's report; form and contents.
702.203 Employer's report; how given.
702.204 Employer's report; penalty for failure to furnish.
702.205 Employer's report; effect of failure to report upon time limitations.

NOTICE

702.206 Notice of employee's injury or death.
702.207 Notice; when given.
702.208 Notice; by whom given.
702.209 Notice; form and contents.
702.210 Notice; how given.
702.211 Effect of failure to give notice.

CLAIMS

702.212 Claims for compensation; time limitations.
702.213 Claims; time limitations; exceptions.
702.214 Claims; time limitations; time to object.
702.215 Claims; notification of employer of filing by employee.
702.216 Withdrawal of a claim.

NONCONTROVERTED CLAIMS

702.231 Noncontroverted claims; payment of compensation without an award.
702.232 Payments without an award; when; how paid.
702.233 Penalty for failure to pay without an award.
702.234 Report by employer of commencement and suspension of payments.
702.235 Report by employer of termination of payments.
702.236 Penalty for failure to report termination of payments.

AGREED SETTLEMENTS

702.241 Agreed settlements; monetary benefits.
702.242 Agreed settlements; medical benefits.

CONTROVERTED CLAIMS

702.251 Employer's controversion of the right to compensation.
702.252 Action by deputy commissioner upon receipt of notice of controversion.

Subpart C—Adjudication Procedures

GENERAL

702.301 Scope of this subpart.

ACTION BY DEPUTY COMMISSIONERS

702.311 Prehearing conferences; purpose.
702.312 Prehearing conferences; called by whom; held before whom.
702.313 Prehearing conferences; how called; when called.
702.314 Prehearing conferences; how conducted.
702.315 Prehearing conferences; conclusion; agreement on all issues.
702.316 Prehearing conferences; conclusion; no agreement on all issues.

FORMAL HEARINGS

702.331 Formal hearings; procedure initiating.
702.332 Formal hearings; how conducted.
702.333 Formal hearings; parties.
702.334 Formal hearings; representatives of parties.
702.335 Formal hearings; notice.
702.336 Formal hearings; new issues.
702.337 Formal hearings; changes of time or place for hearings; postponements.
702.338 Formal hearings; general procedures.
702.339 Formal hearings; evidence.
702.340 Formal hearings; witnesses.
702.341 Formal hearings; depositions; interrogatories.
702.342 Formal hearings; witness fees.
702.343 Formal hearings; oral argument and written allegations.
702.344 Formal hearings; waiver of right to appear.
702.345 Formal hearings; consolidated issues.
702.346 Formal hearings; record of hearing.
702.347 Formal hearings; termination.
702.348 Formal hearings; preparation of final decision and order; content.
702.349 Formal hearings; filing and mailing of compensation orders; disposition of transcripts.
702.350 Finality of compensation order.
702.351 Withdrawal of controversion of issues set for formal hearing; effect.

V 38 - 17 JAN 26 73 XUM

INTERLOCUTORY MATTERS, SUPPLEMENTARY ORDERS AND MODIFICATIONS

Sec.
702.371 Interlocutory matters.
702.372 Supplementary compensation orders.
702.373 Modification of awards.

APPEALS

702.391 Appeals; where.
702.392 Appeals; what may be appealed.
702.393 Appeals; time limitations.
702.394 Appeals; procedure.

Subpart D—Medical Care and Supervision

702.401 Medical care defined.
702.402 Employer's duty to furnish; duration.
702.403 Employee's right to choose physician; limitation.
702.404 Physician defined.
702.405 Selection of physician; emergencies.
702.406 Change of physicians; non-emergencies.
702.407 Supervision of medical care.
702.408 Evaluation of medical questions; impartial specialists.
702.409 Evaluation of medical questions; results disputed.
702.410 Duties of employees with respect to special examinations.
702.411 Special examination; nature of impartiality of specialists.
702.412 Special examinations; costs chargeable to employer or carrier.
702.413 Fees for medical services; prevailing community charges.
702.414 Fees for medical services; disputes on prevailing charges.
702.415 Fees for medical services; unresolved disputes on charges; procedure.
702.416 Fees for medical services; disputes; hearings; necessary parties.
702.417 Fees for medical services; disputes; effect of adverse decision.

MEDICAL PROCEDURES

702.418 Procedure for requesting medical care; employee's duty to notify employer.
702.419 Action by employer upon acquiring knowledge or being given notice of injury.
702.420 Issuance of authorization; binding effect upon insurance carrier.
702.421 Effect of failure to obtain initial authorization.
702.422 Effect of failure to report on medical care after initial authorization.

Subpart E—Vocational Rehabilitation

702.501 Vocational rehabilitation; objective.
702.502 Vocational rehabilitation; action by deputy commissioners.
702.503 Vocational rehabilitation; action by adviser.
702.504 Vocational rehabilitation; referrals to State Employment Agencies.
702.505 Vocattional rehabilitation; referrals to other public and private agencies.
702.506 Vocational rehabilitation; training.
702.507 Vocational rehabilitation; maintenance allowance.
702.508 Vocational rehabilitation; confidentiality of information.

AUTHORITY: 5 U.S.C. 301; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 939; 42 U.S.C. 1651 et seq.; 36 D.C. Code 501 et seq.; 43 U.S.C. 1331; 5 U.S.C. 8171 et seq.; Secretary of Labor's Order No. 13–71, 36 FR 8755.

ADMINISTRATION

§ 702.101 Establishment of compensation districts.

Pursuant to section 39(b) of the Longshoremen's and Harbor Workers' Compensation Act, the following compensation districts have been established:

District No. 1. Comprises the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut; with headquarters at Boston, Massachusetts.

District No. 2. Comprises the States of New York and New Jersey; with headquarters at New York, N.Y.

District No. 3. Comprises the States of Pennsylvania, Delaware, and West Virginia; with headquarters at Philadelphia, Pennsylvania.

District No. 4. Comprises the State of Maryland and the District of Columbia; with headquarters at Baltimore, Maryland.

District No. 5. Comprises the State of Virginia; with headquarters at Norfolk, Virginia.

District No. 6. Comprises the States of North Carolina, Kentucky, Tennessee, South Carolina, Georgia, Florida; Alabama, except that part of the State south of 31° north latitude; and Mississippi, except that part of the State south of 31° north latitude; with headquarters at Jacksonville, Florida.

District No. 7. Comprises the States of Arkansas, Louisiana, that part of the State of Alabama south of 31° north latitude, and that part of the State of Mississippi south of 31° north latitude; with headquarters at New Orleans, La.

District No. 8. Comprises the States of Texas, Oklahoma, and New Mexico; with headquarters at Galveston, Tex.

District No. 9. Comprises the States of Ohio, Indiana, and Michigan; with headquarters at Cleveland, Ohio.

District No. 10. Comprises the States of Illinois, Missouri, Kansas, Nebraska, Iowa, Minnesota, and Wisconsin; with headquarters at Chicago, Ill.

District No. 13. Comprises the States of California, Arizona, and Nevada; with headquarters at San Francisco, Calif.

District No. 14. Comprises the States of Washington, Oregon, Alaska, Idaho, Montana, Wyoming, Utah, Colorado, North Dakota, and South Dakota; with headquarters at Seattle, Wash.

District No. 15. Comprises the State of Hawaii; with headquarters at Honolulu, Hawaii.

§ 702.102 Establishment of suboffices and jurisdictional areas.

(a) As administrative exigencies from time to time may require, the Director may, by administrative order, establish special areas outside the continental United States, Alaska, and Hawaii, or change or modify any areas so established, notwithstanding their inclusion within an established compensation district. Such areas shall be designated "jurisdictional areas." The Director shall also designate which of his deputy commissioners shall be in charge thereof.

(b) To further aid in the efficient administration of the OWCP, the Director may from time to time establish suboffices within compensation districts or jurisdictional areas, and shall designate a person to be in charge thereof.

§ 702.103 Effect of establishment of suboffices and jurisdictional areas.

Whenever the Director establishes a suboffice or jurisdictional area, those reports, records, or other documents with respect to processing of claims that are required to be filed with the deputy commissioner of the compensation district in which the injury or death occurred, may instead be required to be filed at the suboffice, or office established for the jurisdictional area.

§ 702.104 Transfer of individual cases.

At any time after a claim is filed, the deputy commissioner having jurisdiction thereof may, with the approval of the Director, transfer such case to the deputy commissioner in another compensation district for the purpose of taking such action as may be necessary or appropriate to further develop the claim. The deputy commissioner making the transfer shall by letter to the deputy commissioner to whom the case is transferred give such advice, comments, suggestions, or directions as may be appropriate to the particular case. The transfer of cases shall be by registered or certified mail.

RECORDS

§ 702.111 Employer's records.

Every employer shall maintain adequate records of injury sustained by employees while in his employ, and which shall also contain information of disease, other impairments or disabilities, or death relating to said injury. Such records shall be available for inspection by the OWCP or by any State authority.

§ 702.112 Records of the OWCP.

All reports, records, or other documents filed with the OWCP with respect to claims are the records of the OWCP. The Director shall be the official custodian of those records maintained by the OWCP at its national office, and the deputy commissioner shall be the official custodian of those records maintained at the headquarters office in each compensation district.

§ 702.113 Inspection of records of the OWCP.

Any party in interest may be permitted to examine the record of the case in which he is interested. The official custodian of the record sought to be inspected shall permit or deny inspection in accordance with the Department of Labor's regulations pertaining thereto (see 29 CFR Part 70). The original record in any such case shall not be removed from the office of the custodian for such inspection. The custodian may, in his discretion, deny inspection of any record or part thereof which is of a character specified in 5 U.S.C. 552(b) if in his opinion such inspection may result in damage, harm, or harassment to the beneficiary or to any other person, or may be inimical to the interests of the OWCP or of the United States. For special provisions concerning release of information regarding injured employees undergoing vocational rehabilitation (see § 702.508).

§ 702.114 Copying of records of OWCP.

Any party in interest may request copies of records he has been permitted to inspect. Such requests shall be addressed to the official custodian of the records sought to be copied. The official custodian shall provide the requested copies under the terms and conditions specified in the Department of Labor's regulations relating thereto (see 29 CFR Part 70).

FORMS

§ 702.121 Forms.

The Director may from time to time prescribe, and require the use of, forms for the reporting of any information required to be reported by the regulations in this subchapter, or by the Act or any of its extensions.

REPRESENTATION

§ 702.131 Representation of parties in interest.

Claimants, employers, and insurance carriers may be represented in any proceeding under the Act by an attorney or other person previously authorized to so act in writing.

§ 702.132 Fees for services.

An attorney or other representative seeking a fee for services performed with respect to claims filed under the Act shall make application therefor to the persons, administrative body, or court before whom the services were performed (see 33 U.S.C. 928(c)). The application shall be supported by a complete statement of the extent and character of the necessary work done. Any fee approved shall be reasonably commensurate with the actual necessary work performed, and shall take into account the capacity in which the representative has appeared, the amount of benefits involved and the financial circumstances of the claimant. No contract for a stipulated fee or for a fee on a contingent basis shall be recognized.

§ 702.133 Unapproved fees; solicitation of claimants; penalties.

Under the provisions of section 28(e) of the Act, 33 U.S.C. 928(e), any person who receives any fees, other consideration, or any gratuity on account of services rendered as a representative of a claimant, unless such consideration or gratuity is approved under § 702.132, or who makes it a business to solicit employment for an attorney, or for himself in respect of any claim under the Act, shall upon conviction thereof, for each offense be punished by a fine of not more than $1,000 or by imprisonment for not more than 1 year, or by both fine and imprisonment.

§ 702.134 Payment of claimant's attorney's fees in disputed claims.

(a) If the employer or carrier declines to pay any compensation on or before the 30th day after receiving written notice of a claim for compensation having been filed from the deputy commissioner, on the ground that there is no liability for compensation within the provisions of this Act, and the person seeking benefits shall thereafter have utilized the services of an attorney at law in the successful prosecution of his claim, there shall be awarded, in addition to the award of compensation, in a compensation order, a reasonable attorney's fee against the employer or carrier in an amount approved by the person, administrative body or court before whom the service was performed, which shall be paid directly by the employer or carrier to the attorney for the claimant in a lump sum after the compensation order becomes final (Act, section 28(a)).

(b) If the employer or carrier pays or tenders payment of compensation without an award pursuant to § 702.231 and section 14 (a) and (b) of this Act, and thereafter a controversy develops over the amount of additional compensation, if any, to which the employee may be entitled, the deputy commissioner, administrative law judge, or Board shall set the matter for an informal conference and following such conference the deputy commissioner, administrative law judge, or Board shall recommend in writing a deposition of the controversy. If the employer or carrier refuses to accept such written recommendation, within 14 days after its receipt by them, they shall pay or tender to the employee in writing the additional compensation, if any, to which they believe the employee is entitled. If the employee refuses to accept such payment or tender of compensation, and thereafter utilizes the services of an attorney at law, and if the compensation thereafter awarded is greater than the amount paid or tendered by the employer or carrier, a reasonable attorney's fee based solely upon the difference between the amount awarded and the amount tendered or paid shall be awarded in addition to the amount of compensation. The foregoing sentence shall not apply if the controversy relates to degree or length of disability, and if the employer or carrier offers to submit the case for evaluation by physicians employed or selected by the deputy commissioner, as authorized in section 7(e) and offers to tender an amount of compensation based upon the degree or length of disability found by the independent medical report at such time as an evaluation of disability can be made. If the claimant is successful in review proceedings before the Board or court in any such case an award may be made in favor of the claimant and against the employer or carrier for a reasonable attorney's fee for claimant's counsel in accord with the above provisions. In all other cases any claim for legal services shall not be assessed against the employer or carrier (Act, section 28(b)).

§ 702.135 Payment of claimant's witness fees and mileage in disputed claims.

In cases where an attorney's fee is awarded against an employer or carrier there may be further assessed against such employer or carrier as costs, fees and mileage for necessary witnesses attending the hearing at the instance of claimant. Both the necessity for the witness and the reasonableness of the fees of expert witnesses must be approved by the hearing officer, the Board, or the court, as the case may be. The amounts awarded against an employer or carrier as attorney's fees, costs, fees and mileage for witnesses shall not in any respect affect or diminish the compensation payable under this Act. (Act, section 28(d).)

COMMUTATION OF PAYMENTS AND SPECIAL FUND

§ 702.141 Commutation of payments; generally.

(a) Pursuant to section 14(j) of the Act, 33 U.S.C. 914(j), the deputy commissioner may determine that, in the interest of justice, the liability of the employer for compensation, or any part thereof, may be discharged by the payment of a lump sum equal to the present value of future payments commuted, computed at 4 per centum true discount compounded annually.

(b) Applications for commutation of future benefits shall be made to the deputy commissioner, on a form prescribed by the Director, OWCP, for that purpose. Applications shall be supported with a statement of the reasons for such application, together with such pertinent data as may lend support thereto.

(c) Applications for commutation of payments in disability cases will be accepted only when a compensation order has been filed in which the quality of the disability is found to be permanent and the duration of such disability is fixed by said order. Applications for commutation of payments in death cases will be approved only when it is shown that the rights of all probable and potential beneficiaries have been determined and after a compensation order has been filed fixing the rights of the beneficiary making the application or on whose behalf such commutation is sought.

(d) Commutations of payments shall be considered by the deputy commissioner, but no final action shall be taken in any case without the prior approval of the Director, OWCP.

(e) The probability of the happening of any contingency of any nature whatsoever affecting the amount or duration of compensation to be commuted shall not be considered excepting:

(1) The probability of the death of the injured employee or other person entitled to compensation before the expiration of the period during which he

V 38 - 17 JAN 26 73 XUM

is entitled to compensation shall be determined in accordance with the American Experience Table of Mortality and considered; and

(2) The probability of the remarriage of the surviving wife shall be determined in accordance with the remarriage tables of the Dutch Royal Insurance Institution.

§ 702.142 Commutation of payments; aliens not residents or about to become nonresidents.

(a) Pursuant to section 9(g) of the Act, 33 U.S.C. 909(g), compensation paid to aliens not residents, or about to become nonresidents, of the United States or Canada shall be in the same amount as provided for residents except that dependents in any foreign country shall be limited to surviving wife and child or children, or if there be no surviving wife or child or children, to surviving father or mother whom the employee has supported, either wholly or in part, for the period of 1 year prior to the date of injury, and except that the Director, OWCP, may, at his option, or if upon the application of the insurance carrier he shall, commute all future installments of compensation to be paid to such aliens by paying or causing to be paid to them one-half of the commuted amount of such future installments of compensation as determined by the Director.

(b) Applications for commutation under this section shall be made in writing to the deputy commissioner having jurisdiction, and forwarded by the deputy commissioner to the Director, for final action.

(c) Applications for commutations shall be made effective, if approved by the Director, on the date received by the deputy commissioner, or on a later date if shown to be appropriate on the application.

(d) Commutations shall not be made with respect to a person journeying abroad for a visit who has previously declared an intention to return and has stated a time for returning, nor shall any commutation be made except upon the basis of a compensation order fixing the right of the beneficiary to compensation.

§ 702.143 Establishment of special fund.

Congress, by section 44 of the Act, 33 U.S.C. 944, established in the U.S. Treasury a special fund, to be administered by the Secretary. The Treasurer of the United States is the custodian of such fund, and all moneys and securities in such fund shall be held in trust by the Treasurer and shall not be money or property of the United States. The Treasurer shall make disbursements from such fund only upon the order of the Director, OWCP, as delegee of the Secretary. The Act requires that the Director give bond, in an amount to be fixed and with securities to be approved by the Secretary of the Treasury and the Comptroller General of the United States, conditioned upon the faithful performance of his duty as custodian of such fund.

§ 702.144 Purpose of the special fund.

This special fund was established to give effect to a congressional policy determination that, under certain circumstances, the employer of a particular employee should not be required to bear the entire burden of paying for the compensation benefits due that employee under the Act. Instead, a substantial portion of such burden should be borne by the industry generally. Section 702.145 describes this special circumstance under which the particular employer is relieved of some of his burden. Section 702.146 describes the manner and circumstances of the input into the Fund.

§ 702.145 Use of the special fund.

(a) *Under section 10 of the Act.* This section provides for initial and subsequent annual adjustments in compensation and continuing payments to beneficiaries in cases of permanent total disability or death which commenced or occurred prior to enactment of the 1972 Amendments to this Act. (Public Law 92-576, approved Oct. 27, 1972.) At the discretion of the Director, such payments may be paid directly by him to eligible beneficiaries as the obligation accrues, one-half from the special fund and one-half from appropriations, or he may require insurance carriers or self-insured employers already making payments to such beneficiaries to pay such additional compensation as the amended Act requires. In the latter case such carriers and self-insurers shall be reimbursed by the Director for such additional amounts paid, in the proportion of one-half the amount from the special fund and one-half the amount from appropriations. To obtain reimbursement, the carriers and self-insurers shall submit claims for payments made by them during previous periods at intervals of not less than 6 months. A form has been prescribed for such purpose and shall be used. No administrative claims service expense incurred by the carrier or self-insurer shall be included in the claim and no such expense shall be allowed. The amounts reimbursed to such carrier or self-insurer shall be limited to amounts actually due and previously paid to beneficiaries.

(b) *Under section 8(f) of the Act (Second Injuries).* In any case in which an employee having an existing permanent partial disability suffers injury, the employer shall provide compensation for such disability as is found to be attributable to that injury, based upon the average weekly wages of the employee at the time of injury. If, following an injury falling within the provisions of section 8(c)(1)-(20), the employee with the preexisting permanent partial disability becomes permanently and totally disabled after the second injury, but such total disability is found not to be due solely to his second injury, the employer (or carrier) shall be liable for compensation as provided by the provisions of section 8(c)(1)-(20) of the Act, 33 U.S.C. 908(c)(1)-(20), or for 104 weeks, whichever is greater. In all other cases of a second injury causing permanent total disability (or death), wherein it is found that such disability (or death) is not due solely to the second injury, and wherein the employee had a preexisting permanent partial disability, the employer (or carrier) shall first pay compensation under section 8(b) or (e) of the Act, 33 U.S.C. 908(b) or (e), if any is payable thereunder, and shall then pay 104 weeks compensation for such total disability or death, and none otherwise. If the second injury results in permanent partial disability, and if such disability is compensable under section 8(c)(1)-(20) of the Act, 33 U.S.C. 908(c)(1)-(20), but the disability so compensable did not result solely from such second injury, and the disability so compensable is materially and substantially greater than that which would have resulted from the second injury alone, then the employer (or carrier) shall only be liable for the amount of compensation provided for in section 8(c)(1)-(20) that is attributable to such second injury, or for 104 weeks, whichever is greater. In all other cases wherein the employee is permanently and partially disabled following a second injury, and wherein such disability is not attributable solely to that second injury, and wherein such disability is materially and substantially greater than that which would have resulted from the second injury alone, and wherein such disability following the second injury is not compensable under section 8(c)(1)-(20) of the Act, then the employer (or carrier) shall be liable for such compensation as may be appropriate under section 8 (b) or (e) of the Act, 33 U.S.C. 908 (b) or (e), if any, to be followed by a payment of compensation for 104 weeks, and none other. The term "compensation" herein means money benefits only, and does not include medical benefits. The procedure for determining the extent of the employer's (or carrier's) liability under this paragraph shall be as provided for in the adjudication of claims in subpart C of Part 702 of these regulations, except that in lieu of the stipulation provided for in § 702.315, the deputy commissioner shall upon the consent of the parties, formalize the stipulation in the form of a compensation order, which shall be dated, filed, and mailed as provided for in § 702.349. Thereafter, upon cessation of payments which the employer is required to make under this paragraph, if any additional compensation is payable in the case, the deputy commissioner shall forward such case to the Director for consideration of an award to the person or persons entitled thereto out of the special fund. Any such award from the special fund shall be by order of the Director or Acting Director.

(c) *Under sections 8(g) and 39(c)(2) of the Act.* These sections, 33 U.S.C. 908 (g) and 939(c)(2), respectively, provide for vocational rehabilitation of disabled employees, and authorize, under appropriate circumstances, a maintenance allowance for the employee (not to exceed $25 a week) in addition to other compensation benefits otherwise payable for his injury-related disability. Awards under these sections are made from the special fund upon order of the Director or his designee. The deputy commissioners may be required to make investigations with respect to any case and forward to the Director their recommendations as to the propriety and need for such maintenance.

(d) *Under section 39(c)(2) of the Act.* In addition to the maintenance allowance for the employee discussed in paragraph (c), the Director is further authorized to use the fund in such amounts as may be necessary to procure the vocational training services.

(e) *Under section 7(e) of the Act.* This provision, 33 U.S.C. 907, authorizes payment by the Director from the special fund for special medical examinations, i.e., those obtained from impartial specialists to resolve disputes, when such special examinations are deemed necessary under that statutory provision. The Director has the discretionary power, however, to charge the cost of such examination to the insurance carrier or self-insured employer.

(f) *Under section 18(b) of the Act.* This section, 33 U.S.C. 918(b), provides a source for payment of compensation benefits in cases where the employer is insolvent, or other circumstances preclude the payment of benefits due in any case. In such situations, the deputy commissioner shall forward the case to the Director for consideration of an award from the special fund, together with evidence with respect to the employer's insolvency or other reasons for nonpayment of benefits due. Benefits, as herein used, means medical care or supplies within the meaning of section 7 of the Act, 33 U.S.C. 907, and Subpart D of Part 702 of these regulations, as well as monetary benefits. Upon receipt of the case, the Director shall promptly determine whether an award from the special fund is appropriate and advisable in the case, having due regard for all other current commitments from the special fund. If such an award is made, the employer shall be liable for the repayment into the fund of the amounts paid therefrom, as provided in 33 U.S.C. 918(b).

§ 702.146 Sources of the special fund.

(a) All amounts collected as fines and penalties under the several provisions of the Act shall be paid into the special fund. (Act, section 44(c)(3).) Civil penalties provided for in the Act shall be collected by civil suits brought by, and in the name of, the Secretary of Labor.

(b) Whenever an employee dies under circumstances creating a liability on an employer to pay death benefits to the employee's beneficiaries, and whenever there are no such beneficiaries entitled to such payments, the employer shall pay $5,000 into the special fund. (Act, section 44(c)(1).) In such cases, the compensation order entered in the case shall specifically find that there is such liability and that there are no beneficiaries entitled to death benefits, and shall order payment by the employer into the fund. Compensation orders shall be made and filed in accordance with the regulations in Subpart C of this Part 702, except that for this purpose the deputy commissioner settling the case under § 702.315 shall formalize the stipulation of the parties in a compensation order, and shall file such order as provided for in § 702.349.

(c) The Director annually shall assess an amount against every insurance carrier and self-insured employer authorized under the Act and Part 703 of this subchapter to replenish the fund. The total amount to be charged all carriers and self-insurers shall be based upon his estimate of the probable expenses of the fund during the calendar year. The assessment against each carrier and self-insurer shall be based upon the amount each paid during the prior calendar year, for compensation and medical benefits, in relation to the amount all such authorized carriers or self-insurers paid during that period for compensation and medical benefits. The resulting percentage each paid out for such benefits the prior year shall be the percentage each shall pay into the fund under the current assessment. (Act, section 44(c)(2).) The Director may, in his discretion, condition continued authorization under Part 703 of these regulations upon prompt payment of the assessment. However, no action suspending or revoking such authorization shall be taken without affording such carrier or self-insurer a hearing before the Director or his designee.

§ 702.147 Enforcement of special fund provisions.

(a) As provided in section 44(d)(1) of the Act, 33 U.S.C. 944(d)(1), for the purpose of making rules, regulations, and determinations under the special fund provisions in section 44 and for providing enforcement thereof, the Director may investigate and gather appropriate data from each carrier and self-insured employer, and may enter and inspect such places and records (and make such transcriptions of records), question such employees, and investigate such facts, conditions, practices, or other matters as he may deem necessary or appropriate.

(b) Pursuant to section 44(d)(3) of the Act, 33 U.S.C. 944(d)(3), for the purpose of any hearing or investigation related to determinations or the enforcement of the provisions of section 44 with respect to the special fund, the provisions of 15 U.S.C. 49 and 50 as amended (the Federal Trade Commission Act provisions relating to attendance of witnesses and the production of books, papers, and documents) are made applicable to the jurisdiction, powers, and duties of the Director, OWCP, as the Secretary's delegatee.

§ 702.148 Insurance carriers and self-insured employers responsibility.

Each carrier and self-insured employer shall make, keep, and preserve such records, and make such reports and provide such additional information as the Director prescribes or orders, which he considers necessary or appropriate to effectively carry out his responsibilities.

Subpart B—Claims Procedures

Employer's Reports

§ 702.201 Reports from employers of employee's injury or death.

Within 10 days from the date of an employee's injury or death, or 10 days from the date an employer has knowledge of an employee's injury or death, including any disease or death proximately caused by the employment, the employer shall furnish a report thereof to the deputy commissioner for the compensation district in which the injury or death occurred, and shall thereafter furnish such additional or supplemental reports as the deputy commissioner may request.

§ 702.202 Employer's report; form and contents.

The employer's report of an employee's injury or death shall be in writing and on a form prescribed by the Director for this purpose, and shall contain:

(a) The name, address, and business of the employer;

(b) The name, address and occupation of the employee;

(c) The cause, nature and other relevant circumstances of the injury or death;

(d) The year, month, day and hour when, and the particular locality where, the injury or death occurred;

(e) Such other information as the deputy commissioner may require.

§ 702.203 Employer's report; how given.

The employer's report, an original and one copy, may be furnished by delivering it to the appropriate office of the deputy commissioner, or by mailing it to said office.

§ 702.204 Employer's report; penalty for failure to furnish.

Any employer who fails or refuses to furnish any report required by § 702.201 shall be subject to a civil penalty not to exceed $500 for each such failure or refusal, 33 U.S.C. 930(e).

§ 702.205 Employer's report; effect of failure to report upon time limitations.

Where the employer, or agent in charge of the business, or carrier has been given notice or has knowledge of an employee's injury or death, and fails, neglects, or refuses to file a report thereof as required by § 702.201, the time limitations provisions with respect to the filing of claims for compensation for disability or death (33 U.S.C. 913(a), and see § 702.212) shall not begin to run until such report shall have been furnished as required herein.

Notice

§ 702.206 Notice of employee's injury or death.

Every person claiming compensation under this Act shall first notify the deputy commissioner for the compensation district in which the injury or death occurred, and the injured or deceased employee's employer, of the fact of such injury or death. If the employer is a partnership, notice may be given to any partner, or if a corporation, to any authorized agent or officer thereof, or to the person in charge of the business at the place where the injury occurred.

§ 702.207 Notice; when given.

Notice shall be given within 30 days after the date of the injury or death, or

V 38 17 JAN 26 73 XUM

within 30 days after the date the employee or beneficiary is aware, or in the exercise of reasonable diligence should have been aware, of a relationship between the injury or death and the employee's employment.

§ 702.208 Notice; by whom given.

Notice shall be given by the injured employee or someone in his behalf, or in the case of death, by the deceased employee's beneficiary or someone in his behalf.

§ 702.209 Notice; form and contents.

Notice shall be in writing and signed by the person authorized to give notice, and shall contain the name and address of the employee and a statement of the time, place, nature and cause of the injury or death. A form has been prescribed by the Director for this purpose and shall be made available to the employee or beneficiary by the employer.

§ 702.210 Notice; how given.

Notice shall be given by delivering it to the deputy commissioner and the employer, or by sending it by mail.

§ 702.211 Effect of failure to give notice.

Failure to give timely notice shall not bar any claim for compensation if: (a) the employer or carrier had knowledge of the injury or death and the deputy commissioner determines that the employer or carrier was not prejudiced thereby; or (b) the deputy commissioner excuses such failure on the ground that for some satisfactory reason such notice could not be given. The employer or carrier may not raise as a defense to a claim the failure to file a timely notice unless such defense is raised at the first hearing held on the claim.

CLAIMS

§ 702.212 Claims for compensation; time limitations.

Claims for compensation for disability or death shall be in writing and shall be filed with the deputy commissioner in the compensation district in which the injury or death occurred. Such claims may be filed anytime after the first 7 days of disability following an injury, or at anytime after death. However, the right to such compensation shall be barred unless a claim therefor is filed within 1 year of such injury or death.

§ 702.213 Claims; time limitations; exceptions.

(a) Where the claim is founded on a casual relationship between the disease or death and the employment, the 1-year time limitation specified in § 702.212 shall not begin to run until the employee or beneficiary is aware, or in the exercise of reasonable diligence should have been aware, of such relationship.

(b) Where payments of compensation have been made without an award on account of such injury or death, a claim shall be timely if filed within 1 year after the date of the last payment.

(c) Where a person entitled to compensation under the Act is mentally incompetent or a minor, the time limitation provision of § 702.212 shall not apply to a mentally incompetent person so long as such person has no guardian or other authorized representative, but § 702.212 shall be applicable from the date of appointment of such guardian or other representative. In the case of a minor who has no guardian before he becomes of age, time begins to run from the date he becomes of age.

(d) Where a person brings a suit at law or in admiralty to recover damages in respect of an injury or death, and recovery is denied plaintiff because he was an employee and defendant was an employer within the meaning of the Act, such employer had secured compensation to such employee under the Act, the 1-year time limitation in § 702.212 shall not begin to run until the date of termination of such suit.

§ 702.214 Claims; time limitations; time to object.

Notwithstanding the requirements of § 702.212, failure to file a claim within the period prescribed in such section shall not be a bar to such right unless objection to such failure is made at the first hearing of such claim in which all parties in interest are given reasonable notice and opportunity to be heard.

§ 702.215 Claims; notification of employer of filing by employee.

Within 10 days after the filing of a claim for compensation for injury or death under the Act, the deputy commissioner shall give written notice thereof to the employer or carrier, served personally or by certified mail.

§ 702.216 Withdrawal of a claim.

(a) *Before adjudication of claim.* A claimant (or an individual who is authorized to execute a claim on his behalf), may withdraw his previously filed claim provided that:

(1) He files with the deputy commissioner with whom the claim was filed a written request stating the reasons for withdrawal;

(2) The claimant is alive at the time his request for withdrawal is filed;

(3) The deputy commissioner approves the request for withdrawal as being for a proper purpose and in the claimant's best interest; and

(4) The request for withdrawal is filed on or before the date the OWCP makes a determination on the claim.

(b) *After adjudication of claim.* A claim for benefits may be withdrawn by a written request filed after the date the OWCP makes a determination on the claim, provided that:

(1) The conditions enumerated in paragraph (a) (1) through (3) of this section are met; and

(2) There is repayment of the amount of benefits previously paid because of the claim that is being withdrawn or it can be established to the satisfaction of the Office that repayment of any such amount is assured.

(c) *Effect of withdrawal of claim.* Where a request for withdrawal of a claim is filed and such request for withdrawal is approved, such withdrawal shall be without prejudice to the filing of another claim, subject to the time limitation provisions of section 13 of the Act and of the regulations in this part.

NONCONTROVERTED CLAIMS

§ 702.231 Noncontroverted claims; payment of compensation without an award.

Unless the employer controverts his liability to pay compensation under the Act, he shall pay periodically, promptly, and directly to the person entitled thereto the benefits prescribed by the Act.

§ 702.232 Payments without an award; when; how paid.

The first installment of compensation shall become due on the 14th day after the employer has knowledge of the injury or death, on which date all compensation then due shall be paid. Compensation shall thereafter be paid in semimonthly installments, unless the deputy commissioner determines otherwise.

§ 702.233 Penalty for failure to pay without an award.

If any installment of compensation payable without an award is not paid within 14 days after it becomes due, there shall be added to such unpaid installment an amount equal to 10 per centum thereof which shall be paid at the same time as, but in addition to, such installment unless the employer files notice of controversion in accordance with § 702.251, or unless such nonpayment is excused by the deputy commissioner after a showing by the employer that owing to conditions over which he had no control such installment could not be paid within the period prescribed for the payment.

§ 702.234 Report by employer of commencement and suspension of payments.

Immediately upon making the first payment of compensation, and upon the suspension of payments once begun, the employer shall notify the deputy commissioner having jurisdiction over the place where the injury or death occurred of the commencement or suspension of payments, as the case may be.

§ 702.235 Report by employer of termination of payments.

Within 16 days after the final payment of compensation has been made, the employer shall notify the deputy commissioner in writing thereof, stating that such final payment has been made, the total amount of compensation paid, the name and address of the person to whom payments were made, the date of the injury or death and the name of the injured or deceased employee, and the dates during which compensation was paid.

§ 702.236 Penalty for failure to report termination of payments.

Any employer failing to notify the deputy commissioner of termination of payments in accordance with § 702.235 shall be assessed a civil penalty in the amount of $100.

AGREED SETTLEMENTS

§ 702.241 Agreed settlements; monetary benefits.

(a) Whenever the deputy commissioner determines that it is for the best interests of an injured employee entitled to compensation he may approve agreed settlements of the interested parties discharging the liability of the employer for such compensation notwithstanding the provisions of section 15(b) and section 16 of the Act, 33 U.S.C. 915(b) and 916. If the employee should die from causes other than the injury after the deputy commissioner has approved an agreed settlement, the sum so approved shall be payable in the manner herein prescribed, to and for the benefit of the persons enumerated in section 8(d) of the Act, 33 U.S.C. 908(d).

(b) Application for approval of an agreed settlement under section 8(i) of the Act, 33 U.S.C. 908(i), shall be made in writing to the deputy commissioner by the parties in interest. The application shall set forth fully all facts necessary to disclose the status of the case and the reason for seeking approval of an agreed settlement under said section of the Act as well as the specific terms of such agreed settlement, and shall be accompanied by a medical report of examination of the employee, if a recent report is not of record in the office of the deputy commissioner.

(c) If the deputy commissioner determines that the injured employee is entitled to compensation and that the proposed agreed settlement according to such application is for the best interests of such employee he shall file a compensation order making necessary findings of fact relative to the character and quality of disability and the effect of same with respect to the employee's wage-earning capacity prior to approving such settlement and discharging the employee's liability for compensation payments. If such course is not practical the deputy commissioner shall determine the probable character and quality of disability according to the most recent evidence received. With such determination the deputy commissioner shall consider such other information as he may hear upon the advisability of approving the agreed settlement and thereupon make his decision.

(d) This section is not intended to furnish generally a basis for the settlement of claims or as a mere convenience in disposing of cases.

§ 702.242 Agreed settlements; medical benefits.

(a) Whenever the Director or his designee determines that it is for the best interests of an injured employee entitled to medical benefits he may approve agreed settlements of the interested parties discharging the liability of the employer for such medical benefits, notwithstanding the provisions of section 16 of the Act, 33 U.S.C. 916. If the employee should die from causes other than the injury after an agreed settlement has been approved, the sum so approved shall be payable in the manner herein prescribed to, and for the benefit of, the persons enumerated in section 8(d) of the Act, 33 U.S.C. 908(d).

(b) Applications for approval of an agreed settlement with respect to medical benefits shall be made in writing and shall be submitted to the deputy commissioner by the parties in interest. The application shall set forth fully all facts necessary to disclose the status of the case and the reason for seeking approval of an agreed settlement, as well as the specific terms of the agreed settlement. Such application shall be accompanied by a report of a recent medical examination pertaining to the employee's condition and to his future need for medical attention relating to the injury. Applications, including all supporting papers, shall be submitted in duplicate.

(c) Upon receipt of such application, the deputy commissioner, after appropriate consultation with the interested parties, shall forward such application, together with his comments and recommendations, as to the character and quality of disability and such other information as may be pertinent to the appropriateness of approving the agreed settlement, to the Director, OWCP, for such action as the Director considers appropriate including the entry of a compensation order if it is deemed to be in the best interest of the injured employee.

CONTROVERTED CLAIMS

§ 702.251 Employer's controversion of the right to compensation.

Where the employer controverts the right to compensation after notice or knowledge of the injury or death, or after receipt of a written claim, he shall give notice thereof, stating the reasons for controverting the right to compensation, using the form prescribed by the Director. Such notice, or answer to the claim, shall be filed with the deputy commissioner within 14 days from the date the employer receives notice or has knowledge of the injury or death. The original notice shall be sent to the deputy commissioner having jurisdiction, and a copy thereof shall be given or mailed to the claimant.

§ 702.252 Action by deputy commissioner upon receipt of notice of controversion.

Upon receiving the employer's notice of controversion, the deputy commissioner shall forthwith commence proceedings for the adjudication of the claim in accordance with the procedures set forth in subpart C of this part.

Subpart C—Adjudication Procedures

GENERAL

§ 702.301 Scope of this subpart.

The regulations in this subpart govern the adjudication of claims in which the employer has filed a notice of controversion under § 702.251 or there are unresolved issues of fact or law. The disputed issues of fact or law are first submitted to the deputy commissioner or his designee for informal resolution at a prehearing conference. If all issues are resolved at the conference, the parties shall file a stipulation to that effect and appropriate action shall then be taken as warranted (§ 702.311 et seq.). If the issues cannot be resolved by the deputy commissioner or his designee at the prehearing conference, the case is transferred to an administrative law judge for formal hearing. (§ 720.331 et seq.) Supplementary compensation orders, modifications and interlocutory matters are governed by regulations beginning with § 702.371. Decisions of the administrative law judges may be appealed to the Benefits Review Board (§ 702.391).

ACTION BY DEPUTY COMMISSIONERS

§ 702.311 Prehearing conferences; purpose.

Among the purposes of a prehearing conference are:

(a) To amicably dispose of the case by resolving the issues in dispute;

(b) To narrow and simplify the controverted issues;

(c) To simplify the subsequent methods of proof.

§ 702.312 Prehearing conferences; called by whom; held before whom.

Prehearing conferences shall be called by the deputy commissioner, or his designee assigned the case, and shall be held before that same person unless such person is absent, deceased, or otherwise unable to handle the cases assigned him.

§ 702.313 Prehearing conferences; how called; when called.

Prehearing conferences shall be called upon 10 days' notice to the claimant and to the employer or carrier, unless the parties agree to less than 10 days' notice, or unless the interests of justice require more than 10 days' notice. The notice shall be on a form prescribed by the Director, and shall indicate the date, time and place of the conference, and shall also specify the issues to be discussed. For good cause shown, the deputy commissioner may reschedule a conference.

§ 702.314 Prehearing conferences; how conducted.

Prehearing conferences shall be informal. No stenographic report shall be taken and no witnesses shall be called. The deputy commissioner shall guide the discussion toward the achievement of the purpose for such conference, giving the parties the benefit of his specialized knowledge and experience.

§ 702.315 Prehearing conferences; conclusion; agreement on all issues.

(a) The deputy commissioner shall prepare a memorandum at the termination of the conference and shall mail a copy thereof to each party in interest within 30 days of the date on which the conference was held. The memorandum shall contain the date, time and place

V 38 I 17 JAN 26 73 XUM

of the conference; the names and addresses of the parties, and their representatives, if any; the facts pertinent to the claim under consideration; the aspects of the claim initially controverted by the employer or carrier; the aspects of the claim unresolved at the start of the prehearing conference; and a statement of the recommendations of the deputy commissioner with respect to the matters in dispute and his proposed resolution thereof. Upon receiving said memorandum, the parties shall signify their agreement therewith by signing the memorandum and forthwith returning it to the office of the deputy commissioner. When returned to the office of the deputy commissioner by all parties, the signed memorandum shall be filed in the office of the deputy commissioner. The parties shall then be notified of such filing by certified mail and thereafter the employer or carrier shall immediately institute payments of compensation, if the order was in favor of the claimant, or such other action as the parties agreed to take.

(b) Nothing in the preceding paragraph shall be construed to preclude holding additional conferences to resolve an issue or issues not resolved at the conclusion of the initial conference if in the opinion of the deputy commissioner such additional conferences appear likely to resolve such issue or issues.

§ 702.316 Prehearing conferences; conclusion; no agreement on all issues.

(a) When it becomes apparent that the parties cannot reach agreement upon one or more issues, and one or both parties request a formal hearing, the deputy commissioner shall terminate the prehearing conference. Upon termination, the deputy commissioner shall immediately prepare a memorandum succinctly summarizing what transpired at the prehearing conference. This shall include a recitation of those matters pertinent to the claim upon which the parties have stipulated, a statement that the parties have so stipulated, and a listing of the issue or issues upon which agreement was not reached. A copy of this memorandum shall then be mailed to all parties and their representatives. Upon receipt thereof the parties shall, within 10 days of the receipt thereof, signify their agreement therewith by signing said memorandum and returning it to the deputy commissioner. If a party dissents to any portion of the memorandum, such dissention shall be noted thereon. Failure to return the memorandum within 10 days of its receipt shall be construed as acceptance thereof by such party.

(b) Upon return of the signed copies of the memorandum, the deputy commissioner shall prepare copies of each signed memorandum, or in the absence of a signed copy, note of such fact shall be made on the copy to be sent to the Office of the Chief Administrative Law Judge, and the requisite copies shall be forwarded to that office for appropriate action.

Formal Hearings

§ 702.331 Formal hearings; procedure initiating.

Formal hearings are initiated by transmitting to the Office of the Chief Administrative Law Judge the memorandum from the deputy commissioner as provided for in § 702.316.

§ 702.332 Formal hearings; how conducted.

Formal hearings shall be conducted by the administrative law judge assigned the case by the Office of the Chief Administrative Law Judge in accordance with the provisions of the Administrative Procedure Act, 5 U.S.C. 554 et seq. All hearings shall be transcribed.

§ 702.333 Formal hearings; parties.

The necessary parties for a formal hearing are the claimant and the employer or insurance carrier, and the administrative law judge assigned the case.

§ 702.334 Formal hearings; representatives of parties.

The claimant and the employer or carrier may be represented by persons of their choice. However, if the administrative law judge determines that either party may not be sufficiently able to protect his rights under the Act, he may forbid such party to plead his own case and instead require that such party obtain the services of a qualified representative.

§ 702.335 Formal hearings; notice.

The Office of the Chief Administrative Law Judge shall notify, on a form prescribed for this purpose, the parties in interest of the scheduling of a formal hearing not less than 10 days in advance thereof. The notice shall specify the time and place at which the hearing is to be conducted. Attached thereto shall be a copy of the deputy commissioner's memorandum listing the issues to be resolved.

§ 702.336 Formal hearings; new issues.

(a) If, during the course of the formal hearing, the evidence presented warrants consideration of an issue not previously considered, the hearing shall be expanded to include such new issue. The parties shall, however, be given a reasonable time in which to prepare for such new issue.

(b) At any time prior to the filing of the compensation order in the case, the administrative law judge may in his discretion, upon the application of a party or upon his own motion, give notice that he will consider any new issue. The parties shall be given not less than 10 days' notice of the hearing on such new issue. The parties may stipulate that the issue may be heard at an earlier time and shall proceed to a hearing on the new issue in the same manner as on an issue initially considered.

§ 702.337 Formal hearings; change of time or place for hearings; postponements.

The Chief Administrative Law Judge or the administrative law judge assigned the case may change the time and place for the hearing, or postpone or temporarily adjourn a hearing, on his own motion or for good cause shown by a party. The parties shall be given not less than 10 days' notice of changes in the time and place of the hearing, unless the parties agree to such change without such notice. The Chief Administrative Law Judge may also reassign a case to another administrative law judge by reason of changes of time and place for the hearing, or by reason of postponements, or for other good cause.

§ 702.338 Formal hearings; general procedures.

All hearings shall be attended by the parties or their representatives and such other persons as the administrative law judge deems necessary and proper. The administrative law judge shall inquire fully into the matters at issue and shall receive in evidence the testimony of witnesses and any documents which are relevant and material to such matters. If the administrative law judge believes that there is relevant and material evidence available which has not been presented at the hearing, he may adjourn the hearing or, at any time, prior to the filing of the compensation order, reopen the hearing for the receipt of such evidence. The order in which evidence and allegations shall be presented and the procedures at the hearing generally, except as these regulations otherwise expressly provide, shall be in the discretion of the administrative law judge and of such nature as to afford the parties a reasonable opportunity for a fair hearing.

§ 702.339 Formal hearings; evidence.

In making an investigation or inquiry, or conducting a hearing, the administrative law judge shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, except as provided by 5 U.S.C. 554 and these regulations; but may make such investigation or inquiry or conduct such hearing in such a manner as to best ascertain the rights of the parties.

§ 702.340 Formal hearings; witnesses.

(a) Witnesses at the hearing shall testify under oath or affirmation, or as directed by the administrative law judge, unless they are excused by the administrative law judge for cause. The administrative law judge may examine the witnesses and shall allow the parties or their representatives to do so. If the administrative law judge conducts the examination of a witness, he may allow the parties to suggest matters as to which they desire the witness to be questioned, and the administrative law judge shall question the witness with respect to such matters if they are relevant and material to any issue pending for decision before him.

(b) No person shall be required to attend as a witness in any proceeding before an administrative law judge at a place more than 100 miles from his place of residence, unless his lawful mileage and fees for such attendance shall be

paid or tendered to him in advance of the hearing date.

§ 702.341 Formal hearings; depositions; interrogatories.

The testimony of any witness may be taken by deposition or interrogatory according to the Federal Rules of Civil Procedure.

§ 702.342 Formal hearings; witness fees.

Witnesses summoned in a formal hearing before an administrative law judge or whose depositions are taken shall receive the same fees and mileage as witnesses in courts of the United States (33 U.S.C. 925). Before any witness fees are incurred the Chief Administrative Law Judge or administrative law judge shall determine, in his discretion, that the presence of any witness was necessary. If it is determined that the presence of a witness is not necessary then that witness shall not be entitled to witness fees pursuant to this section.

§ 702.343 Formal hearings; oral argument and written allegations.

The parties, upon their request, shall be allowed a reasonable time for the presentation of oral argument or for the filing of briefs or other written statements of allegations as to facts or law. Copies of any brief or other written statement shall be filed with the administrative law judge and served on all parties in interest by the party submitting the statement.

§ 702.344 Formal hearings; waiver of right to appear.

If all parties waive their right to appear before the administrative law judge or to present evidence or argument personally or by representative, it shall not be necessary for the administrative law judge to give notice of and conduct an oral hearing. A waiver of the right to appear and present evidence and allegations as to facts and law shall be made in writing and filed with the Chief Administrative Law Judge or the administrative law judge. Where such a waiver has been filed by all parties, and they do not appear before the administrative law judge personally or by representative, the administrative law judge shall make a record of the relevant written evidence submitted by the parties, together with any pleadings they may submit with respect to the issues in the case. Such documents shall be considered as all of the evidence in the case and the decision shall be based on them.

§ 702.345 Formal hearings; consolidated issues.

When one or more additional issues are raised by the administrative law judge pursuant to § 702.336, such issues may, in the discretion of the administrative law judge, be consolidated for hearing and decision with other issues pending before him.

§ 702.346 Formal hearings; record of hearing.

All formal hearings shall be open to the public and shall be stenographically reported. All evidence upon which the administrative law judge relies for his final decision shall be contained in the transcript of testimony either directly or by appropriate reference. All medical reports, exhibits, and any other pertinent document or record, in whole or in material part, shall be incorporated into the record either by reference or as an appendix.

§ 702.347 Formal hearings; termination.

Formal hearings are officially terminated when all the evidence has been received, witnesses heard, pleadings and briefs submitted to the administrative law judge, and the transcript of the proceedings has been printed and delivered to the administrative law judge.

§ 702.348 Formal hearings; preparation of final decision and order; content.

Within 20 days after the official termination of the hearing as defined by § 702.347, the administrative law judge shall have prepared a final decision and order, in the form of a compensation order, with respect to the claim, making an award to the claimant or rejecting the claim. The compensation order shall contain appropriate findings of facts and conclusions of law with respect thereto, and shall be concluded with one or more paragraphs containing the order of the administrative law judge, his signature, and the date of issuance.

§ 702.349 Formal hearings; filing and mailing of compensation orders; disposition of transcripts.

The administrative law judge shall, within 20 days after the official termination of the hearing, deliver by mail, or otherwise, to the office of the deputy commissioner having original jurisdiction, the transcript of the hearing, other documents or pleadings filed with him with respect to the claim, together with his signed compensation order. Upon receipt thereof, the deputy commissioner, being the official custodian of all records with respect to such claims within his jurisdiction, shall formally date and file the transcript, pleadings, and compensation order (original) in his office. Such filing shall be accomplished as expeditiously as possible, and the deputy commissioner shall, on the same day as the filing was accomplished, send by certified mail a copy of the compensation order to the parties and to representatives of the parties, if any. Appended to each such copy shall be a paragraph entitled "proof of service," containing the certification of the deputy commissioner that the copies were mailed on the date stated, to each of the parties and their representatives, as shown in said paragraph.

§ 702.350 Finality of compensation order.

Compensation orders shall become effective when filed in the office of the deputy commissioner, and unless proceedings for suspension or setting aside of such orders are instituted within 30 days of such filing, shall become final at the expiration of the 30th day after such filing, as provided in section 21 of the act. If any compensation payable under the terms of such order is not paid within 10 days after it becomes due, § 14(f) of the act requires that there be added to such unpaid compensation an amount equal to 20 percent thereof which shall be paid at the same time as, but in addition to, such compensation unless review of the compensation order is had as provided in such § 21 and an order staying payment has been issued by the Benefits Review Board or the reviewing court.

§ 702.351 Withdrawal of controversion of issues set for formal hearing; effect.

Whenever a party withdraws his controversion of the issues set for a formal hearing, the administrative law judge shall halt the proceedings upon receipt from said party of a signed statement to that effect and forthwith notify the deputy commissioner who shall then proceed to dispose of the case as provided for in § 702.315.

Interlocutory Matters, Supplementary Orders, and Modifications

§ 702.371 Interlocutory matters.

Compensation orders shall not be made or filed with respect to interlocutory matters of a procedural nature arising during the pendency of a compensation case.

§ 702.372 Supplementary compensation orders.

(a) In any case in which the employer or insurance carrier is in default in the payment of compensation, due under any award of compensation, for a period of 30 days after the compensation is due and payable, the person to whom such compensation is payable may, within 1 year after such default, apply in writing to the deputy commissioner, for a supplementary compensation order declaring the amount of the default. Upon receipt of such application, the deputy commissioner shall institute proceedings with respect to such application as if such application were an original claim for compensation, and the matter shall be disposed of as provided for in § 702.315, or if agreement on the issue is not reached, then as in § 702.316 et seq.

(b) If, after disposition of the application as provided for in paragraph (a) of this section, a supplementary compensation order is entered declaring the amount of the default, which amount may be the whole of the award notwithstanding that only one or more installments is in default, a copy of such supplementary order shall be forthwith sent by certified mail to each of the parties and their representatives. Thereafter, the applicant may obtain and file with the clerk of the Federal district court for the judicial district where the injury occurred or the district in which the employer has his principal place of business or maintains an office, a certified

V 38 - 17 JAN 26 73 XUM

copy of said order and may seek enforcement thereof as provided for by section 18 of the act, 33 U.S.C. 918.

§ 702.373 Modification of awards.

(a) Upon his own initiative, or upon application of any party in interest, the deputy commissioner may review any compensation case in accordance with the procedure in subpart C of this part, and after such review of the case under § 702.315, or review at formal hearings under the regulations governing formal hearings in subpart C of this part, file a new compensation order terminating, continuing, reinstating, increasing or decreasing such compensation, or awarding compensation. Such new order shall not affect any compensation previously paid, except that an award increasing the compensation rate may be made retroactive from the date of injury, and if any part of the compensation due or to become due is unpaid, an award decreasing the compensation rate may be made effective from the date of the injury, and any payment made prior thereto in excess of such decreased rate shall be deducted from any unpaid compensation, in such manner and by such method as may be determined by the deputy commissioner or the administrative law judge.

(b) Review of a compensation case under this section may be made at any time prior to 1 year after the date of the last payment of compensation, whether or not a compensation order has been issued, or at any time prior to 1 year after the rejection of a claim.

(c) Review of a compensation case may be had had only for the reason that there is a change in conditions or that there was a mistake in the determination of facts.

APPEALS

§ 702.391 Appeals; where.

Appeals may be taken to the Benefits Review Board, U.S. Department of Labor, Washington, D.C. 20210.

§ 702.392 Appeals; what may be appealed.

Appeals may only be taken from compensation orders filed as provided for in subpart C of this part.

§ 702.393 Appeals; time limitations.

Appeals shall be filed with the Benefits Review Board, as provided for by their regulations, within 30 days of the filing of the compensation order complained of.

§ 702.394 Appeals; procedure.

The procedure for appeals to the Benefits Review Board shall be as provided for said Board upon issuance of its own rules and regulations.

Subpart D—Medical Care and Supervision

§ 702.401 Medical care defined.

Medical care shall include medical, surgical, and other attendance or treatment, nursing and hospital services, laboratory, X-ray and other technical services, medicines, crutches, or other apparatus and prosthetic devices, and any other medical service or supply, including the reasonable and necessary cost of travel incident thereto, which is recognized as appropriate by the medical profession for the care and treatment of the injury or disease.

§ 702.402 Employer's duty to furnish; duration.

It is the duty of the employer to furnish appropriate medical care for the employee's injury, and for such period as the nature of the injury or the process of recovery may require.

§ 702.403 Employee's right to choose physician; limitation.

The employee shall have the right to choose his attending physician from among those authorized by the Director, OWCP, to furnish such care and treatment. However, unless authorized by the deputy commissioner having jurisdiction, the employee's choice shall be limited to those physicians having offices within 25 miles of the employee's home or principal place of work. This exception shall not apply when the employee is hospitalized and the physician is on the staff of, or has privileges at, such hospital.

§ 702.404 Physician defined.

The term physician shall mean all duly qualified physicians, to include surgeons and osteopaths within the scope of their practice as defined by State law. Chiropractors, naturopaths, podiatrists (chiropodists), psychologists, optometrists, faith healers, and other practitioners of the healing arts are not recognized as physicians as that term is used in this part.

§ 702.405 Selection of physician; emergencies.

Whenever the nature of the injury is such that immediate medical care is required and the injured employee is unable to select a physician, the employer shall select a physician. Thereafter the employee may change physicians when he is able to make a selection. Such changes shall be made upon obtaining written authorization from the employer or, if consent is withheld, from the deputy commissioner.

§ 702.406 Change of physicians; nonemergencies.

Whenever the employee has made his initial, free choice of an attending physician, he may not thereafter change physicians without the prior written consent of the employer (or carrier) or the deputy commissioner. Such consent shall be given in cases where an employee's initial choice was not of a specialist whose services are necessary for, and appropriate to, the proper care and treatment of the compensable injury or disease. In all other cases, consent may be given upon a showing of good cause for change.

§ 702.407 Supervision of medical care.

The Director, OWCP, through the deputy commissioners and their designees, shall actively supervise the medical care of an injured employee covered by the Act. Such supervision shall include:

(a) The requirement that periodic reports on the medical care being rendered be filed in the office of the deputy commissioner, the frequency thereof being determined by order of the deputy commissioner or sound judgment of the attending physician as the nature of the injury may dictate;

(b) The determination of the necessity, character and sufficiency of any medical care furnished or to be furnished the employee;

(c) The determination of whether a change of physicians, hospitals or other persons or locales providing treatment should be made or is necessary;

(d) The further evaluation of medical questions arising in any case under the Act, with respect to the nature and extent of the covered injury, and the medical care required therefor.

§ 702.408 Evaluation of medical questions; impartial specialists.

In any case in which medical questions arise with respect to the appropriate diagnosis, extent, effect of, appropriate treatment, and the duration of any such care or treatment, for an injury covered by the Act, the Director, OWCP, through the deputy commissioners having jurisdiction, shall have the power to evaluate such questions by appointing one or more especially qualified physicians to examine the employee, or in the case of death to make such inquiry as may be appropriate to the facts and circumstances of the case. The physician or physicians, including appropriate consultants, should report their findings with respect to the questions raised as expeditiously as possible. Upon receipt of such report, action appropriate therewith shall be taken.

§ 702.409 Evaluation of medical questions; results disputed.

Any party who is dissatisfied with such report may request a review or reexamination of the employee by one or more different physicians employed by or selected by the Director, and such review or reexamination shall be granted unless it is found that it is clearly unwarranted. Such review shall be completed within 2 weeks from the date ordered unless it is impossible to complete the review, and render a report thereon, within such time period. Upon receipt of the report of this additional review and reexamination, such action as may be appropriate shall forthwith be taken.

§ 702.410 Duties of employees with respect to special examinations.

For any special examination required of an employee by §§ 702.408 and 702.409, the employee shall submit to such examination at such place as is designated in the order to report, but the place so selected shall be reasonably convenient for the employee. Failure to submit to such lawfully ordered examinations shall result in the suspension of proceedings, and no compensation otherwise payable shall be paid for any period during which the

employee may refuse to submit to such examination.

§ 702.411 Special examination; nature of impartiality of specialists.

(a) The special examinations required by § 702.408 shall be accomplished in a manner designed to preclude prejudgment by the impartial examiner. No physician previously connected with the case shall be present, nor may any other physician selected by the employer, carrier or employee. The special examining physician shall not have been made aware of, by any party or by the OWCP, of the opinions, reports or conclusions of any prior examining physician with respect to the nature and extent of the impairment, its cause, or its effect upon the wage earning capacity of the injured employee.

(b) No physician selected to perform impartial examinations shall be, or shall have been for a period of 2 years prior to the examination, an employee of an insurance carrier or self-insured employer, or who has accepted or participated in any fee from an insurance carrier or self-insured employer, unless the parties in interest agree thereto.

§ 702.412 Special examinations; costs chargeable to employer or carrier.

The Director or his designee ordering the special examination shall have the power, in the exercise of his discretion, to charge the cost of the examination or review to the employer, to the insurance carrier, or to the special fund established by section 44 of the Act, 33 U.S.C. 944.

§ 702.413 Fees for medical services; prevailing community charges.

All fees charged by physicians for the care of persons covered by this Act, or any other charges for medical treatment or supplies within the purview of this Act, shall be limited to such charges for similar treatment, services or supplies as prevail in the community. Except for good cause shown, the Director or his designee having charge of the case shall construe the term "community" to mean municipality or other local political entity.

§ 702.414 Fees for medical services; disputes on prevailing charges.

The Director or his designee may, or upon the written complaint of an employer or carrier shall, investigate any fee for medical treatment, services or supplies that appears to be not in line with prevailing community charges for similar treatment, services or supplies. If, upon appropriate investigation, the Director or his designee determines that the fee or cost of service or supplies does not conform to prevailing community charges, the person claiming the fee or cost charges shall be informed of the discrepancy and given the opportunity to adjust the fee or cost charge to within permissible limits.

§ 702.415 Fees for medical services; unresolved disputes on charges; procedure.

If, after investigation and ascertainment under § 702.414 that a fee or charge is not in accordance with prevailing community charges and the person claiming the fee or cost charge refuses to make the necessary adjustment, the matter shall then be referred by the Director to the Office of the Chief Administrative Law Judge for formal hearing in accordance with the procedures in subpart C of this part.

§ 702.416 Fees for medical services; disputes; hearings; necessary parties.

At formal hearings held pursuant to § 702.415, the necessary parties shall be the person whose fee or cost charge is in question and the Director, or their representatives. The employer or carrier may also be represented, and other parties, or associations having an interest in the proceedings, may be heard, in the discretion of the administrative law judge.

§ 702.417 Fees for medical services; disputes; effect of adverse decision.

If the final decision and order of the administrative law judge upholds the finding of the Director that the fee or charge in dispute was not in accordance with prevailing community charges, the person claiming such fee or cost charge shall be given 30 days after filing of such decision and order to make the necessary adjustment. If such person still refuses to make the required readjustment, such person shall not be authorized to conduct treatments or examinations, if a physician, or to provide any other services or supplies (if by other than a physician), notwithstanding that they are necessary and appropriate medical expenses within the purview of § 702.401, and any such fee or cost charge subsequently incurred for services performed or supplies furnished, whether for the benefit of the particular claimant in whose claim the dispute arose or for the benefit of any other claimant in any other case subsequently considered, shall not be a reimbursable medical expense under this subpart. Such debarred person shall remain debarred until such time as there is demonstrated to the satisfaction of the Director that fees will be charged in accordance with the prevailing community standards.

MEDICAL PROCEDURES

§ 702.418 Procedure for requesting medical care; employee's duty to notify employer.

As soon as practicable, but within 30 days after occurrence of an injury covered by the Act, or within 30 days after an employee becomes aware, or in the exercise of reasonable diligence should be aware, of the relationship between an injury or disease and his employment, the injured employee or someone on his behalf shall give written notice thereof to the deputy commissioner having jurisdiction over the place where the injury occurred and to the employer. If a form has been prescribed for such purpose it shall be used, if available and practicable under the circumstances. Notices filed under subpart B of this part, if on the form prescribed by the Director for such purpose, satisfy the written notice requirements of this subpart.

§ 702.419 Action by employer upon acquiring knowledge or being given notice of injury.

Whenever an employer acquires knowledge of an employee's injury, through receipt of a written notice or otherwise, said employer shall forthwith authorize, in writing, appropriate medical care. If a form is prescribed for this purpose it shall be used whenever practicable.

§ 702.420 Issuance of authorization; binding effect upon insurance carrier.

The issuance of an authorization for treatment by the employer shall bind his insurance carrier to furnish and pay for such care and services.

§ 702.421 Effect of failure to obtain initial authorization.

An employee shall not be entitled to recover for medical services and supplies unless he shall have first requested authorization from his employer therefor. This prohibition shall not apply in emergency situations, nor shall it apply in cases where the employer (including the superintendent, foreman, or other person having charge of the work and having knowledge of the injury) refuses or neglects to authorize such care when requested by the employee.

§ 702.422 Effect of failure to report on medical care after initial authorization.

(a) Notwithstanding that medical care is properly obtained in accordance with § 702.421, the employer and his insurance carrier shall not be liable for the expense thereof unless the physician rendering such initial care or services furnishes a report thereon to the employer and to the deputy commissioner having jurisdiction. The report required by this section shall be furnished within 10 days following the date of first treatment. The report shall be upon a form prescribed by the Director for such purpose.

(b) For good cause shown, the deputy commissioner or administrative law judge may excuse the failure to file the report within 10 days, and further, may make an award for the reasonable value of such medical care.

Subpart E—Vocational Rehabilitation

§ 702.501 Vocational rehabilitation; objective.

The objective of vocational rehabilitation is the return of permanently disabled persons to gainful employment commensurate with their physical or mental impairments, or both, through a program of reevaluation or redirection of their abilities, or retraining in another occupation, or selective job placement assistance.

§ 702.502 Vocational rehabilitation; action by deputy commissioners.

All injury cases which are likely to result in, or have resulted in, permanent disability, and which are of a character

V 38 - 17 JAN 26 73 XUM

likely to require review by a vocational rehabilitation adviser on the staff of the Director, shall promptly be referred to such adviser by the deputy commissioner or his designee having charge of the case. A form has been prescribed for such purpose and shall be used. Medical data and other pertinent information shall accompany the referral.

§ 702.503 Vocational rehabilitation; action by adviser.

The vocational rehabilitation adviser, upon receipt of the referral, shall promptly consider the feasibility of a vocational referral or request for cooperative services from available resources or facilities, to include counseling, vocational survey, selective job placement assistance, and retraining. Public or private agencies may be utilized in arranging necessary vocational rehabilitation services under the Federal Vocational Rehabilitation Act, 29 U.S.C. 31 et seq.

§ 702.504 Vocational rehabilitation; referrals to State Employment Agencies.

Vocational rehabilitation advisers will arrange referral procedures with State Employment Service units within their assigned geographical districts for the purpose of securing employment counseling, job classification, and selective placement assistance. Referrals shall be made to State Employment Offices based upon the following:

(a) Vocational rehabilitation advisers will screen cases so as to refer only those disabled employees who are considered to have employment potential;

(b) Only employees will be referred who have permanent, compensable disabilities resulting in a significant vocational handicap and loss of wage earning capacity;

(c) Disabled employees, whose initial referral to former private employers did not result in a job reassignment or in a job retention, shall be referred for employment counseling and/or selective placement unless retraining services consideration is requested;

(d) The vocational rehabilitation advisers shall arrange for employees' referrals if it is ascertained that they may benefit from registering with the State Employment Service;

(e) Referrals will be made to appropriate State employment offices by letter, including all necessary information and a request for a report on the services provided the employee when he registers;

(f) The injured employee shall be advised of available job counseling services and informed that he is being referred for employment and selective placement;

(g) A followup shall be made within 60 days on all referrals to assure uniform reporting by State agencies on cases referred for a vocational survey.

§ 702.505 Vocational rehabilitation; referrals to other public and private agencies.

Referrals to such other public and private agencies providing assistance to disabled persons such as public welfare agencies, Public Health Services facilities, social services units of the Veterans Administration, the Social Security Administration, and other such agencies, shall be made by the vocational rehabilitation adviser, where appropriate, on an individual basis when requested by disabled employees. Such referrals do not provide for a service cost reimbursement by the Department of Labor.

§ 702.506 Vocational rehabilitation; training.

Vocational rehabilitation training shall be planned in anticipation of a short, realistic, attainable vocational objective terminating in remunerable employment, and in restoring wage-earning capacity or increasing it materially. The following procedures shall apply in arranging for or providing training:

(a) The vocational rehabilitation adviser shall arrange for and develop all vocational training programs;

(b) Training programs shall be developed to meet the varying needs of eligible beneficiaries, and may include courses at colleges, technical schools, training at rehabilitation centers, on-the-job training, or tutorial courses. The course shall be pertinent to the occupation for which the employee is being trained.

(c) Training may be terminated if the injured employee fails to cooperate with the Department of Labor or with the agency supervising his course of training. The employee shall be counseled before training is terminated.

(d) Reports shall be required at periodic intervals on all persons in approved training programs.

§ 702.507 Vocational rehabilitation: maintenance allowance.

(a) An injured employee who, as a result of injury, is or may be expected to be totally or partially incapacitated for a remunerative occupation and who, under the direction of the Director is being rendered fit to engage in a remunerative occupation, shall be paid additional compensation necessary for his maintenance, not exceeding $25 a week. The expense shall be paid out of the special fund established in section 44 of the Act, 33 U.S.C. 944. The maximum maintenance allowance shall not be provided on an automatic basis, but shall be based on the recommendation of a State agency that a claimant is unable to meet additional costs by reason of being in training.

(b) When required by reason of personal illness or hardship, limited periods of absence from training may be allowed without terminating the maintenance allowance. A maintenance allowance shall be terminated when it is shown to the satisfaction of the Director that a trainee is not complying reasonably with the terms of the training plan or is absenting himself without good cause from training so as to materially interfere with the accomplishment of the training objective.

§ 702.508 Vocational rehabilitation; confidentiality of information.

The following safeguards will be observed to protect the confidential character of information released regarding an individual undergoing rehabilitation:

(a) Information will be released to other agencies from which an injured employee has requested services only if such agencies have established regulations assuring that such information will be considered confidential and will be used only for the purpose for which it is provided;

(b) Interested persons and agencies have been advised that any information concerning rehabilitation program employees is to be held confidential;

(c) A rehabilitation employee's written consent is secured for release of information regarding disability to a person, agency, or establishment seeking the information for purposes other than the approved rehabilitation planning with such employee.

PART 703—INSURANCE REGULATIONS

Sec.
703.001 Scope of part.
703.002 Forms.

AUTHORIZATION OF INSURANCE CARRIERS

703.101 Types of companies which may be authorized by the office.
703.102 Applications for authority to write insurance; how filed; evidence to be submitted; other requirements.
703.103 Stock companies holding Treasury certificates of authority.
703.104 Applicants currently authorized to write insurance under the extensions of the LHWCA.

ISSUANCE OF CERTIFICATES OF COMPLIANCE

703.501 Issuance of certificates of compliance.
703.502 Same; employer operating temporarily in another compensation district.
703.503 Return of certificates of compliance.

AUTHORITY: 5 U.S.C. 301; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 932, 937, 939; 42 U.S.C. 1651 et seq.; 36 D.C. Code 501 et seq.; 43 U.S.C. 1331; 5 U.S.C. 8171 et seq.; Secretary of Labor's Order No. 13–71, 36 FR 8755.

§ 703.001 Scope of part.

This Part 703 contains the regulations of the OWCP governing the authorization of insurance carriers, the authorization of self-insurers, and the issuance of certificates of compliance. Such provisions are required by the LHWCA, but in almost every instance apply, and hereby are applied, to the extensions of the LHWCA. In those few instances where a separate provision is required, tailored to meet the specific requirements of one of the extended acts, note thereof is made in the regulations in this part together with instruction to see the appropriate succeeding parts of this subchapter A, wherein the specific requirements of each extended act are set forth.

§ 703.002 Forms.

Any information required by the regulations in this part to be submitted to the OWCP shall be submitted on such forms as the Director may deem appropriate and may authorize from time to time for such purpose.

AUTHORIZATION OF INSURANCE CARRIERS

§ 703.101 Types of companies which may be authorized by the Office.

The Office will consider for the granting of authority to write insurance under the Longshoremen's and Harbor Workers' Compensation Act and its extensions the application of any stock company, mutual company or association, or any other person or fund, while authorized under the laws of the United States or of any State to insure workmen's compensation. The term "carrier" as used in this part means any person or fund duly authorized to insure workmen's compensation benefits under said Act, or its extensions.

§ 703.102 Applications for authority to write insurance; how filed; evidence to be submitted; other requirements.

An application for authority to write insurance under this act shall be made in writing, signed by the principal officer of the applicant duly authorized to make such application, and transmitted to the Office of Workmen's Compensation Programs, U.S. Department of Labor, Washington, D.C. 20211. Such application shall be accompanied by full and complete information regarding the history and experience of such applicant in the writing of workmen's compensation insurance, together with evidence that it has authority in its charter or form of organization to write such insurance, and evidence that the applicant is currently authorized to insure workmen's compensation liability under the laws of the United States or of any State. The statements of fact in each application and in the supporting evidence shall be verified by the oath of the officer of the applicant who signs such application. Each applicant shall state in its application the area or areas in which it intends to do business. In connection with any such application the following shall be submitted, the Office reserving the right to call for such additional information as it may deem necessary in any particular case:

(a) A copy of the last annual report made by the applicant to the insurance department or other authority of the State in which it is incorporated, or the State in which its principal business is done.

(b) A certified copy from the proper State authorities of the paper purporting to show the action taken upon such report, or such other evidence as the applicant desires to submit in respect of such report, which may obviate delay caused by an inquiry of the Office of the State authorities relative to the standing and responsibility of the applicant.

(c) A full and complete statement of its financial condition, if not otherwise shown, and, if a stock company, shall show specifically its capital stock and surplus.

(d) A copy of its charter or other formal outline of its organization, its rules, its bylaws, and other documents, writings, or agreements by and under which it does business, and such other evidence as it may deem proper to make a full exposition of its affairs and financial condition.

§ 703.103 Stock companies holding Treasury certificates of authority.

A stock company furnishing evidence that it is authorized to write workmen's compensation insurance under the laws of the United States or of any State, which holds a certificate of authority from the Secretary of the Treasury as an acceptable surety on Federal bonds, unless requested to do so, need not transmit to the Office with its application copies of such financial reports as are on file in the Department of the Treasury. The acceptance by that Department of such a company will be considered by the Office in conjunction with the application of such company, provided there has been compliance with the other requirements of the regulation in this part.

§ 703.104 Applicants currently authorized to write insurance under the extensions of the LHWCA.

Any applicant currently authorized by the Office to write insurance under any extension of the LHWCA need not support its application under the LHWCA or any other LHWCA extension with the evidence required by the regulations in this part, except the form of policy and endorsement which it proposes to use, unless specifically requested by the Office, but instead its application may refer to the fact that it has been so authorized.

§ 703.105 Copies of forms of policies to be submitted with application.

With each application for authority to write insurance there shall be submitted for the approval of the Office copies of the forms of policies which the applicant proposes to issue in writing insurance under the Longshoremen's Act, or its extensions, to which shall be attached the appropriate endorsement to be used in connection therewith.

§ 703.106 Certificate of authority to write insurance.

No corporation, company, association, person, or fund shall write insurance under this act without first having received from the Office a certificate of authority to write such insurance. Any such certificate issued by the Office, after application therefor in accordance with these regulations, may authorize the applicant to write such insurance in a limited territory as determined by the Office. The Office may suspend or revoke any such certificate prior to its expiration for good cause shown, but no suspension or revocation shall effect the liability of any carrier already incurred. Good cause shall include the failure to maintain in such limited territory a regular business office with full authority to act on all matters falling within the act. A hearing may be requested by the aggrieved party and held before Director or his designee prior to the taking of any action under this section.

§ 703.107 Period of certificate of authority.

No certificate of authority to write insurance under said act and the regulations in this part shall be issued by the Office for a period in excess of 18 months. The expiration date which shall be stated in the certificate of authority, shall fall on the 30th day of June.

§ 703.108 Applications for reauthorization.

Any carrier holding an unexpired certificate of authority and desiring reauthorization to write insurance for the

V 38 - 17 JAN 26 73 XUM

period of a year from the expiration of such certificate shall apply to the Office by letter over the signature of its principal officer for such a certificate of authority. No evidence of the financial condition of such carrier need be furnished unless requested by the Office after the application is received. The Office may require such carrier to submit, for Office consideration in connection with such reauthorization, evidence or explanation relating to the experience and practice of such carrier in the conduct of its affairs with respect to the said act, or with reference to the fidelity and punctuality of the performance by such carrier of its past or current obligations under the law. Such application, to avoid a break in the period of authorization of the carrier to write such insurance, should be filed with the Office not later than June 1 of each year.

§ 703.109 Longshoremen's endorsement; see succeeding parts for endorsements for extensions.

(a) The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy, shall be used with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. -------

The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 901 et seq., and all laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of this act, and all lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, U.S. Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said act.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancelation has been sent to the Deputy Commissioner and to this employer.

All terms, conditions, requirements, and obligations, expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

§ 703.110 Other forms of endorsements and policies.

Where the form of endorsement prescribed by § 703.109 is not appropriate when used in conjunction with a form of policy approved for use by the Office, no modification thereof shall be used unless specifically approved by the Office. Where the form of policy is designed to include therein the obligations of the insurer under said Act without the use of the appropriate endorsements, the policy shall contain the provisions required to be included in any of the endorsements. Such a policy, however, shall not be used until expressly approved by the Office.

§ 703.111 Submission of new forms of policies for approval; other endorsements.

No new forms of policies or modification of existing forms of policies shall be used by an insurer authorized by the Office under the regulations in this part to write insurance under said Act except after submission to and approval by the Office. No endorsement altering any provisions of a policy approved by the Office shall be used except after submission to and approval by the Office.

§ 703.112 Terms of policies.

A policy or contract of insurance shall be issued for the term of not less than 1 year from the date that it becomes effective, but if such insurance be not needed except for a particular contract or operation, the term of the policy may be limited to the period of such contract or operation.

§ 703.113 Marine insurance contracts.

A longshoremen's policy, or the longshoremen's endorsement provided for by § 703.109 for attachment to a marine policy, may specify the particular vessel or vessels in respect of which the policy applies and the address of the employer at the home port thereof. The report of the issuance of a policy or endorsement required by § 703.116 to be made by the carrier shall be made to the deputy commissioner for the compensation district in which the home port of such vessel or vessels is located, and such report shall show the name and address of the owner as well as the name or names of such vessel or vessels.

§ 703.114 Notice of cancellation.

Cancellation of a contract or policy of insurance issued under authority of said Act shall not become effective otherwise than as provided by 33 U.S.C. 936 (b); and notice of a proposed cancellation shall be given to the deputy commissioner and to the employer in accordance with the provisions of 33 U.S.C. 912(c), 30 days before such cancellation is intended to be effective.

§ 703.115 Discharge by the carrier of obligations and duties of employer.

Every obligation and duty in respect of payment of compensation, the providing of medical and other treatment and care, the payment or furnishing of any other benefit required by said Act and in respect of the carrying out of the administrative procedure required or imposed by said Act or the regulations in this part upon an employer shall be discharged and carried out by the carrier except that the prescribed report of injury or death shall be sent by the employer to the deputy commissioner and to the insurance carrier as required by 33 U.S.C. 930. Such carrier shall be jointly responsible with the employer for the submission of all reports, notices, forms, and other administrative papers required by the deputy commissioner or the Office in the administration of said Act to be submitted by the employer, but any form or paper so submitted where required therein shall contain in addition to the name and address of the carrier, the full name and address of the employer on whose behalf it is submitted. Notice to or knowledge of an employer of the occurrence of the injury or death shall be notice to or knowledge of such carrier. Jurisdiction of the employer by a deputy commissioner, the Office, or appropriate appellate authority under said Act shall be jurisdiction of such carrier. Any requirement under any compensation order, finding, or decision shall be binding upon such carrier in the same manner and to the same extent as upon the employer.

§ 703.116 Report by carrier of issuance of policy or endorsement.

Each carrier shall report to the deputy commissioner assigned to a compensation district each policy and endorsement issued by it to an employer who carries on operations in such compensation district. The report shall be made in such manner and on such form as the district or the Office may require.

§ 703.117 Report; by whom sent.

The report of issuance of a policy and endorsement provided for in § 703.116 shall be sent by the home office of the carrier, except that any carrier may authorize its agency or agencies in any compensation district to make such reports to the deputy commissioner, provided the carrier shall notify the deputy commissioner in such district of the agencies so duly authorized.

§ 703.118 Agreement to be bound by report.

Every applicant for authority to write insurance under the provisions of this Act, or for the renewal of that authority, shall be deemed to have included in its application an agreement that the acceptance by the deputy commissioner of a report of the issuance of a policy of insurance, as provided for by § 703.116, shall bind the carrier to full liability for the obligations under this Act of the employer named in said report, and every certificate of authority to write insurance under this Act shall be deemed to have been issued by the Office upon consideration of the carrier's agreement to become so bound. It shall be no defense to this agreement that the carrier failed or delayed to issue the policy to the employer covered by this report.

§ 703.119 Report by employer operating temporarily in another compensation district.

Where an employer having operations in one compensation district contemplates engaging in work subject to the Act in another compensation district, his carrier may submit to the deputy commissioner of such latter district a report pursuant to § 703.116 containing the address of the employer in the first mentioned district with the additional notation "No present address in ------ compensation district. Certificate requested when address given."

§ 703.120 Name of one employer only shall be given in each report.

A separate report of the issuance of a policy and endorsement, provided for by § 703.116, shall be made for each employer covered by a policy. If a policy is issued insuring more than one employer, a separate report for each employer so covered shall be sent to the deputy commissioner concerned, with the name of only one employer on each such report.

AUTHORIZATION OF SELF-INSURERS

§ 703.301 Employers who may be authorized as self-insurers.

The Office will consider for the granting of authority to secure by self-insurance the payment of compensation under the Longshoremen's and Harbor Workers' Compensation Act, or its extensions, any employer who, pursuant to the regulations in this part, furnishes to the Office satisfactory proof of such employer's ability to pay compensation directly. The succeeding regulations relating to self-insurers require the deposit of security in the form either of an indemnity bond or negotiable securities (at the option of the employer) of a kind and in an amount determined by the Office, and prescribe the conditions under which such deposit shall be made. The term "self-insurer" as used in these regulations means any employer securing compensation in accordance with the provisions of 33 U.S.C. 932(a)(2) and with these regulations.

§ 703.302 Application for authority to become a self-insurer; how filed; information to be submitted; other requirements.

Application for authority to become a self-insurer may be made by any employer desiring such privilege and shall be addressed to the Office and be made on a form provided by the Office. Such application shall contain: (a) A statement of the employer's payroll report for the preceding 12 months; (b) A statement of the average number of employees engaged in employment within the purview of the LHWCA or any of its extensions for the preceding 12 months; (c) A statement of the number of injuries to such employees resulting in disability of more than 7 days duration, or in death, during each of 3 years next preceding the date of the application; (d) An itemized statement of the assets and liabilities of the employer; (e) A description of the facilities maintained or the arrangements made for the medical and hospital care of injured employees. The Office may in its discretion require the applicant to submit such further information or such evidence as the Office may deem necessary to have in order to enable it to give adequate consideration to such application. Such application shall be signed by the applicant over his typewritten name and if the applicant is not an individual, by the principal officer of the applicant duly authorized to make such application over his typewritten name and official designation and shall be sworn to by him. If the applicant is a corporation, the corporate seal shall be affixed. The application shall be filed with the national office in Washington, D.C. The regulations in this part shall be binding upon each applicant hereunder and the applicant's consent to be bound by all requirements of the said regulations shall be deemed to be included in and a part of the application, as fully as though written therein.

§ 703.303 Decision upon application of employer; deposit of negotiable securities or indemnity bond.

The decision of the Office to grant an application of an employer for authority to pay compensation under said Act as a self-insurer will be transmitted to the applicant on a form prescribed by the Office. Such grant shall be conditioned upon a deposit of security in the form of an indemnity bond or of negotiable securities in an amount fixed by the Office, and the execution and filing of an agreement and undertaking in the form prescribed by the Office, as required by § 703.304.

§ 703.304 Filing of agreement and undertaking.

The applicant for the privilege of self-insurance shall as a condition precedent to receiving authorization to act as a self-insurer, execute and file with the Office an agreement and undertaking in a form prescribed and provided by the Office in which the applicant shall agree: (a) To pay when due, as required by the provisions of said Act, all compensation payable on account of injury or death of any of its employees injured within the purview of said Act; (b) in such cases to furnish medical, surgical, hospital, and other attendance, treatment and care as required by the provisions of said Act; (c) to deposit with the Office an indemnity bond in the amount which the Office shall fix, or to deposit negotiable securities as provided for by the regulations in this part in the amount which the Office shall fix, accordingly as elected in the application; (d) to authorize the Office to sell such negotiable securities so deposited or any part thereof and from the proceeds thereof to pay such compensation, medical, and other expenses and any accrued penalties imposed by law as it may find to be due and payable.

§ 703.305 Decision upon application of employer; furnishing of indemnity bond or deposit of negotiable securities required.

The applicant for the privilege of self-insurance, as a condition precedent to receiving authorization to act as a self-insurer, shall give security for the payment of compensation and the discharge of all other obligations under the said Act, in the amount fixed by the Office, which may be in the form of an indemnity bond with sureties satisfactory to the Office, or of a deposit of negotiable securities as provided in the regulations in this part. The amount of such security so to be fixed and required by the Office shall be such as the Office shall deem to be necessary and sufficient to secure the performance by the applicant of all obligations imposed upon him as an employer by the Act. In fixing the amount of such security the Office will take into account the financial standing of the employer, the nature of the work in which he is engaged, the hazard of the work in which the employees are employed, the payroll exposure, and the accident experience as shown in the application and the Office's records, and any other facts which the Office may deem pertinent. Additional security may be required at any time in the discretion of the Office. The indemnity bond which is required by these regulations shall be in such form, and shall contain such provisions, as the Office may prescribe: *Provided*, That only corporations may act as sureties on such indemnity bonds. In each case in which the surety on any such bond is a surety company, such company must be one approved by the U.S. Treasury Department under the laws of the United States and the applicable rules and regulations governing bonding companies.

§ 703.306 Kinds of negotiable securities which may be deposited; conditions of deposit; acceptance of deposits.

An applicant for the privilege of self-insurance electing to deposit negotiable securities to secure his obligations under said Act in the amount fixed by the Office under the regulations in this part shall deposit any negotiable securities acceptable as security for the deposit of public monies of the United States under regulations issued by the Secretary of the Treasury. (See 31 CFR 203.7 and 203.8.) The approval, valuation, acceptance, and custody of such securities is hereby committed to the several Federal Reserve Banks and the Treasurer of the United States when authorized under the regulations in this part to receive deposits of such securities.

§ 703.307 Deposits of negotiable securities with Federal Reserve banks or the Treasurer of the United States; authority to sell such securities; interest thereon.

Deposits of securities provided for by the regulations in this part shall be made with any Federal Reserve bank or any branch of a Federal Reserve bank designated by the Office, or the Treasurer of the United States, and shall be held subject to the order of the Office with power in the Office, in its discretion in the event of default by the said self-insurer, to collect the interest and the principal as they may become due, to sell the securities or any of them as may be required to discharge the obligations of the self-insurer under said Act and to apply the proceeds to the payment of any compensation or medical expense for which the self-insurer may be liable. The Office may, however, whenever it deems it unnecessary to resort to such securities for the payment of compensation, authorize

V 38 - 17 JAN 26 73 XUM

the self-insurer to collect interest on the securities deposited by him.

§ 703.308 Substitution and withdrawal of negotiable securities.

No substitution or withdrawal of negotiable securities deposited by a self-insurer shall be made except upon authorization by the Office. A self-insurer discontinuing business, or discontinuing operations within the purview of said Act, or providing security for the payment of compensation by insurance under the provisions of said Act may apply to the Office for the withdrawal of securities deposited under the regulations in this part. With such application shall be filed a sworn statement setting forth: (a) A list of all outstanding cases in each compensation district in which compensation is being paid, with the names of the employees and other beneficiaries, giving a description of causes of injury or death, and a statement of the amount of compensation paid; (b) a similar list of all pending cases in which no compensation has as yet been paid; and (c) a similar list of all cases in which injury or death has occurred within 1 year prior to such application or in which the last payment of compensation was made within 1 year prior to such application. In such cases withdrawals may be authorized by the Office of such securities as in the opinion of the Office may not be necessary to provide adequate security for the payment of outstanding and potential liabilities of such self-insurer under said Act.

§ 703.309 Increase or reduction in the amount of indemnity bond or negotiable securities.

Whenever in the opinion of the Office the principal sum of the indemnity bond filed or the amount of negotiable securities deposited by a self-insurer is insufficient to afford adequate security for the payment of compensation and medical expenses under said Act, the self-insurer shall, upon demand by the Office, file such additional indemnity bond or deposit under the regulations in this part such additional amount of negotiable securities as the Office may require. At any time upon application of a self-insurer, or on the initiative of the Office, when in its opinion the facts warrant, the principal sum of an indemnity bond required to be given or the amount of negotiable securities required to be deposited may be reduced. A self-insurer seeking such reduction shall furnish such information as the Office may request relative to his current affairs, the nature and hazard of the work of his employees, the amount of the payroll of his employees engaged in maritime employment within the purview of the said Act, his financial condition, his accident experience, and such other evidence as may be deemed material, including a record of payments of compensation made by him.

§ 703.310 Reports required of self-insurers; examination of accounts of self-insurer.

At such times as the Office may require or prescribe, each self-insurer shall submit such of the following reports as may be requested:

(a) A sworn itemized statement of the self-insurer's assets and liabilities, or a balance sheet.

(b) A sworn statement showing by classifications the payroll of employees of the self-insurer who are engaged in employment within the purview of the LHWCA or any of its extensions.

(c) A sworn statement covering the 6 months' period preceding the date of such report, listing by compensation districts all death and injury cases which have occurred during such period, together with a report of the status of all outstanding claims, showing the particulars of each case.

Whenever it deems it to be necessary, the Office may inspect or examine the books of account, records, and other papers of a self-insurer for the purpose of verifying any financial statement submitted to the Office by self-insurer or verifying any information furnished to the Office in any report required by this section, or any other section of the regulations in this part, and such self-insurer shall permit the Office or its duly authorized representative to make such an inspection or examination as the Office shall require. In lieu of this requirement the Office may in its discretion accept an adequate report of a certified public accountant.

§ 703.311 Period of authorization as self-insurer; renewals.

No initial authorization as a self-insurer shall be granted for a period in excess of 18 months, and the expiration date thereof shall fall on the 30th day of June. A self-insurer who has made an adequate deposit of negotiable securities as required by the Office under the regulations in this part will be reauthorized for the ensuing fiscal year without additional security if the Office finds that his experience as a self-insurer warrants such action. A self-insurer who currently has on file an indemnity bond, will receive from the Office on or about May 10 of each year a bond form for execution in contemplation of reauthorization, and the submission of such bond duly executed in the amount indicated by the Office will be deemed and treated as such self-insurer's application for reauthorization for the ensuing fiscal year; the privilege of such self-insurer will, however, terminate with the termination of his current authorization unless such duly executed indemnity bond be submitted not later than June 30.

§ 703.312 Revocation of privilege of self-insurance.

The Office may for good cause shown suspend or revoke the authorization of any self-insurer. Failure by a self-insurer to comply with any provision or requirement of law or of the regulations in this part, or with any lawful order or communication of the Office, or the failure or insolvency of the surety on his indemnity bond, or impairment of financial responsibility of such self-insurer, shall be deemed good cause for such suspension or revocation.

ISSUANCE OF CERTIFICATES OF COMPLIANCE

§ 703.501 Issuance of certificates of compliance.

Every employer who has secured the payment of compensation as required by 33 U.S.C. 932 and by the regulations in this part may request a certificate from the deputy commissioner in the compensation district in which he has operations, and for which a certificate is required by 33 U.S.C. 937, showing that such employer has secured the payment of compensation. Only one such certificate will be issued to an employer in a compensation district, and it will be valid only during the period for which such employer has secured such payment. An employer so desiring may have photocopies of such a certificate made for use in different places within the compensation district. Two forms of such certificates have been provided by the Office, one form for use where the employer has obtained insurance generally under these regulations, and one for use where the employer has been authorized as a selfinsurer.

§ 703.502 Same; employer operating temporarily in another compensation district.

A deputy commissioner receiving a report of the issuance of a policy of insurance with the notation authorized by § 703.119, will file such report until he receives from the insured employer named therein a request for certificate of compliance, giving the address of the employer within the compensation district of such deputy commissioner. Upon receipt of such a request the deputy commissioner will send the proper certificate of compliance to such employer at such address.

§ 703.503 Return of certificates of compliance.

Upon the termination by expiration, cancellation or otherwise, of a policy of insurance issued under the provisions of law and these regulations, or the revocation or termination of the privilege of self-insurance granted by the Office, all certificates of compliance issued on the basis of such insurance or self-insurance shall be void and shall be returned by the employer to the deputy commissioner issuing them with a statement of the reason for such return. An employer holding certificate of compliance under an insurance policy which has expired, pending renewal of such insurance need not return such certificate of compliance if such expired insurance is promptly replaced. An employer who has secured renewal of insurance upon the expiration of policy under said Act or whose self-insurance thereunder is reauthorized without a break in the continuity thereof need not return an expired certificate of compliance.

PART 704—SPECIAL PROVISIONS FOR LHWCA EXTENSIONS

Sec.
704.001 Extensions covered by this part.
704.002 Scope of part.

(b) District of Columbia Workmen's Compensation Act (DCCA).

(c) Outer Continental Shelf Lands Act (OCSLA).

(d) Nonappropriated Fund Instrumentalities Act (NFIA).

§ 704.002 Scope of part.

The regulations governing the administration of the LHWCA as set forth in Parts 702 and 703 of this subchapter govern the administration of the LHWCA extensions (see § 704.001) in nearly every respect, and are not repeated in this Part 704. Such special provisions as are necessary to the proper administration of each of the extensions are set forth in this Part 704. To the extent of any inconsistency between regulations in Parts 702 and 703 of this subchapter and those in this Part 704, the latter supersedes those in Parts 702 and 703 of this subchapter.

DEFENSE BASE ACT

§ 704.101 Administration; compensation districts.

For the purpose of administration of this Act areas assigned to the compensation districts established for administration of the Longshoremen's and Harbor Workers' Compensation Act as set forth in Part 702 of this subchapter shall be extended in the following manner to include:

(a) Canada, east of the 75th degree west longitude, Newfoundland, and Greenland are assigned to District No. 1.

(b) Canada, west of the 75th degree and east of the 110th degree west longitude, is assigned to District No. 10.

(c) Canada, west of the 110th degree west longitude, and all areas in the Pacific Ocean north of the 45th degree north latitude are assigned to District No. 14.

(d) All areas west of the continents of North and South America (except coastal islands) to the 60th degree east longitude, except for Iran, are assigned to District No. 15.

(e) Mexico, Central and South America (including coastal islands); areas east of the continents of North and South America to the 60th degree east longitude, including Iran, and any other areas or locations not covered under any other district office, are assigned to District No. 2.

§ 704.102 Commutation of payments to aliens and nonresidents.

Authority to commute payments to aliens and nonnationals who are not residents of the United States and Canada, section 2(b) of the Defense Base Act, 42 U.S.C. 1652(b), though separately stated in this Act, is identical in language to section 9(g) of the Longshoremen's Act. Thus, except for the different statutory citation, the LHWCA Act regulation at § 702.142 shall apply.

§ 704.103 Removal of certain minimums when computing or paying compensation.

The minimum limitation on weekly compensation for disability established by section 6 of the LHWCA, 33 U.S.C. 906, and the minimum limit on the average weekly wages on which death benefits are to be computed under section 9 of the LHWCA, 33 U.S.C. 909, shall not apply in computing compensation and death benefits under this Act; section 2(a), 42 U.S.C. 1652(a).

§ 704.151 DBA endorsement.

The following form of endorsement applicable to the standard workmen's compensation and employers' liability policy shall be used with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ----------

The obligations of the policy include the Longshoremen's and Harbor Worker's Compensation Act, as extended by the provisions of the Defense Base Act, and all laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The Company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the Company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The Company agrees to abide by all the provisions of said Acts and all lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said Acts.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Office, to the Deputy Commissioner, and to this employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

DISTRICT OF COLUMBIA WORKMEN'S COMPENSATION ACT

§ 704.201 Administration; compensation districts.

For the purpose of administration of this Act, the District of Columbia shall be the compensation district and is designated as District No. 40.

§ 704.251 DCCA endorsement.

The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy, used with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ----------

The obligations of the policy include the District of Columbia Workmen's Compensation Act, and the applicable provisions of the Longshoremen's and Harbor Workers' Compensation Act, and all laws amendatory of either of said Acts or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of said District of Columbia Workmen's Compensation Act and all lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said act.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Deputy Commissioner for the District of Columbia, and to this employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

OUTER CONTINENTAL SHELF LANDS ACT

§ 704.301 Administration; compensation districts.

For the purpose of administration of this act, the compensation districts established under the Longshoremen's and Harbor Workers' Compensation Act as set forth in part 702 of this subchapter shall administer this act, and their jurisdiction for this purpose is extended, where appropriate, to include those parts of the Outer Continental Shelf adjacent

V38-17 JAN 26 73 XUM

to the State or States in such districts having adjacent shelf areas.

§ 704.351 OCSLA endorsement.

The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy shall be used with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. -------.

The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, as extended by the Outer Continental Shelf Lands Act, and all the laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of said laws and all the lawful rules, regulations, orders and decisions of the Office of Workmen's Compensation Programs, Department of Labor, until set aside, modified, or reversed by appropriate appellate authority as provided for by said acts.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Office, to the Deputy Commissioner, and to this employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

NONAPPROPRIATED FUND INSTRUMENTALITIES ACT

§ 704.401 Administration; compensation districts.

For the purpose of administration of this act within the continental United States, Hawaii, and Alaska, the compensation districts established for administration of the Longshoremen's and Harbor Workers' Compensation Act as set forth in part 702 are established as the administrative districts under this act. For the purpose of administration of this act outside the continental United States, Alaska, and Hawaii, the compensation districts established for such overseas administration of the Defense Base Act as set forth in § 704.101 are established as the administrative districts under this act.

§ 704.451 NFIA endorsement.

The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy shall be used with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. -------.

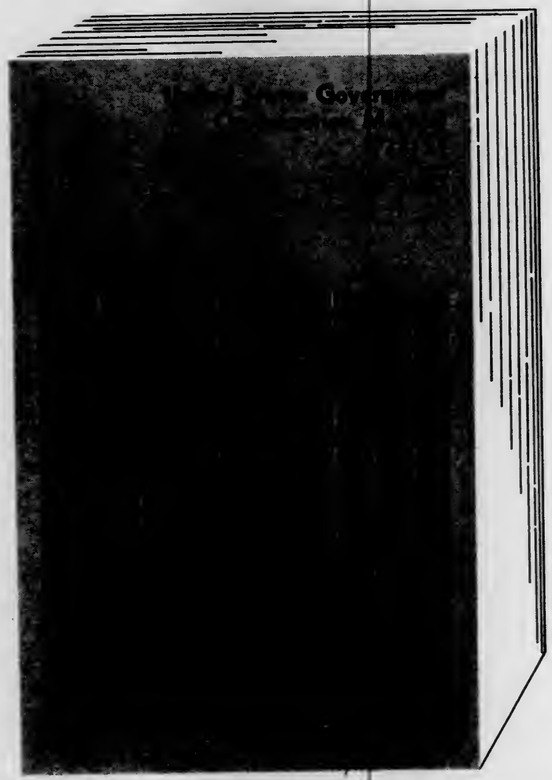
The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, as extended by the Nonappropriated Fund Instrumentalities Act, and all the laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of said acts and all the lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said acts.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Office, to the Deputy Commissioner, and to the within named employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.



Signed at Washington, D.C., this 18th day of January 1973.

JAMES D. HODGSON,
Secretary of Labor.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

Title 3—The President

EXECUTIVE ORDER 11701

Employment of Veterans by Federal Agencies and Government Contractors and Subcontractors

On June 16, 1971, I issued Executive Order No. 11598 to facilitate the employment of returning veterans by requiring Federal agencies and Federal contractors and their subcontractors to list employment openings with the employment service systems. Section 503 of the Vietnam Era Veterans' Readjustment Assistance Act of 1972 (Public Law 92–540; 86 Stat. 1097) added a new section 2012 to Title 38 of the United States Code which, in effect, provides statutory authority to extend the program developed under that order with respect to Government contractors and their subcontractors.

NOW, THEREFORE, by virtue of the authority vested in me by section 301 of Title 3 of the United States Code and as President of the United States, it is hereby ordered as follows:

SECTION 1. The Secretary of Labor shall issue rules and regulations requiring each department and agency of the executive branch of the Federal Government to list suitable employment openings with the appropriate office of the State Employment Service or the United States Employment Service. This section shall not be construed as requiring the employment of individuals referred by such office or as superseding any requirements of the Civil Service Laws. Rules, regulations, and orders to implement this section shall be developed in consultation with the Civil Service Commission.

SEC. 2. The Secretary of Labor is hereby designated and empowered to exercise, without the approval, ratification, or other action of the President, the authority of the President under Section 2012 of Title 38 of the United States Code.

SEC. 3. The Secretary of Labor shall gather information on the effectiveness of the program established under this order and Section 2012 of Title 38 of the United States Code and of the extent to which the employment service system is fulfilling the employment needs of veterans. The Secretary of Labor shall, from time to time, report to the President concerning his evaluation of the effectiveness of this order along with his recommendations for further action which the Secretary believes to be appropriate.

SEC. 4. Appropriate departments and agencies shall, in consultation with the Secretary of Labor, issue such amendments or additions to

V 38 - 18 JAN 29 73 XUM

procurement rules and regulations as may be necessary to carry out the purposes of this order and Section 2012 of Title 38 of the United States Code. Except as otherwise provided by law, all executive departments and agencies are directed to cooperate with the Secretary of Labor, to furnish the Secretary of Labor with such information and assistance as he may require in the performance of his functions under this order, and to comply with rules, regulations, and orders of the Secretary.

SEC. 5. Executive Order No. 11598 of June 16, 1971, is hereby superseded.

Richard Nixon

THE WHITE HOUSE,
January 24, 1973.

[FR Doc.73-1716 Filed 1-24-73;3:06 pm]

LETTER OF JANUARY 22, 1973

[Authority to Issue Reports on Impounded Funds]

THE WHITE HOUSE,
Washington, January 22, 1973.

DEAR MR. WEINBERGER:

By virtue of the authority vested in me by section 301 of title 3 of the United States Code, I hereby designate and empower the Director of the Office of Management and Budget to exercise the authority conferred upon the President by section 203 of the Budget and Accounting Act of 1950, as added by section 402 of the Federal Impoundment and Information Act, to prepare, transmit, and publish the reports required by section 203.

This document shall be published in the FEDERAL REGISTER.

Sincerely,

Richard Nixon

Honorable Caspar W. Weinberger,
Director,
Office of Management and Budget,
Washington, D.C. 20503.

[FR Doc.73-1695 Filed 1-24-73;3:06 pm]

V 38 - 18 JAN 29 73 XUM

Rules and Regulations

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 73—SCABIES IN CATTLE

Areas Quarantined

The purpose of this amendment is to quarantine Curry, De Baca, and Roosevelt Counties in New Mexico because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the areas quarantined.

Therefore, pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f), Part 73, Title 9, Code of Federal Regulations, restricting the interstate movement of cattle because of scabies, is hereby amended in the following respects:

In § 73.1a, paragraph (c) relating to the State of New Mexico is revised to read:

§ 73.1a Notice of quarantine.

• • • • •

(c) Notice is hereby given that cattle in certain portions of the State of New Mexico are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following areas in such State are hereby quarantined because of said disease:

NEW MEXICO

(1) Curry County.
(2) De Baca County.
(3) Guadalupe County.
(4) Harding County.
(5) Lincoln County.
(6) Roosevelt County.
(7) Torrance County.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective January 23, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 23d day of January 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 10—Atomic Energy

CHAPTER 1—ATOMIC ENERGY COMMISSION

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Interim Policy Statement on Implementation, Federal Water Pollution Control Act Amendments of 1972

On October 18, 1972, the Federal Water Pollution Control Act Amendments of 1972, Public Law 92–500, 86 Stat. 816 (hereinafter FWPCA), became law. These amendments completely restructured the Federal Water Pollution Control Act previously in effect and also modified Federal agencies' responsibilities and authorities under the National Environmental Policy Act of 1969 (hereinafter NEPA). Section 511 of the Federal Water Pollution Control Act as restructured provides in pertinent part as follows:

SEC. 511. (a) This Act shall not be construed as (1) limiting the authority or functions of any officer or agency of the United States under any other law or regulation not inconsistent with this Act * * *

• • • • •

SEC. 511. (c)

(2) Nothing in the National Environmental Policy Act of 1969 (83 Stat. 852) shall be deemed to—

(A) Authorize any Federal agency authorized to license or permit the conduct of any activity which may result in the discharge of a pollutant into the navigable waters to review any effluent limitation or other requirement established pursuant to this Act or the adequacy of any certification under section 401 of this Act; or

(B) Authorize any such agency to impose, as a condition precedent to the issuance of any license or permit, any effluent limitation other than any such limitation established pursuant to this Act.

Set forth below is a Commission interim statement of policy concerning the effect of section 511 of the FWPCA upon the Commission's regulatory responsibility and authority under NEPA in licensing actions covered by 10 CFR Part 50, Appendix D. In developing this interim statement of policy the Commission has viewed the provisions of the FWPCA in conjunction with the mandate of NEPA, as construed in Calvert Cliffs' Coordinating Committee v. AEC, 449 F. 2d 1109 (D.C. Cir. 1971), and embodied in 10 CFR Part 50, Appendix D, i. e., that in regard to major Federal actions having a significant effect on the environment, environmental costs be evaluated and balanced along with benefits and that alternatives be considered that could affect this balancing. The Commission has paid particular attention to the interrelationship between sections 511(a)(1) and 511(c)(2) and the interim statement of policy has as its central premise that AEC's authority and responsibility under NEPA (as implemented by Appendix D to 10 CFR Part 50) remain unaffected except to the extent that there is a conflict with implementing actions taken under the FWPCA. In general, the Commission would continue to exercise its NEPA authority and responsibility in the interim period before various implementing actions are taken under the FWPCA, so that there would be no hiatus in Federal responsibility and authority respecting environmental matters embraced by both NEPA and FWPCA. In addition, the Commission has been mindful of section 101(f) of the FWPCA and has endeavored to avoid to the maximum extent possible needless duplication of regulatory effort.

In summary, the interim statement of policy provides as follows:

(1) If and to the extent that there are applicable limitations or other requirements imposed pursuant to the FWPCA, the Commission will not (with certain exceptions relating to matters of State law) impose different limitations or requirements pursuant to NEPA as a condition to any license or permit. The Commission will itself determine compliance with limitations or requirements promulgated pursuant to FWPCA where no prior compliance determination has been made under FWPCA or where a certain type of interim certification under section 401 of FWPCA has been provided.

(2) The Commission will not consider various alternatives where such action would constitute a review of similar consideration of alternatives under FWPCA and upset a limitation or requirement imposed as a result thereof or where a particular alternative has been required to be adopted pursuant to FWPCA.

(3) In considering the costs and benefits of a proposed action pursuant to NEPA, the Commission will continue to evaluate and give full consideration to environmental impact: *Provided* That, with certain exceptions relating to matters of State law, such evaluation and consideration will be conducted on the basis of discharges or other activities which are at the level of limitations or

V 38 - 18 JAN 29 73 XUM

requirements promulgated or imposed pursuant to FWPCA.

To the extent that there is a conflict between any of the provisions of the interim statement of policy and the provisions of 10 CFR Part 50, Appendix D, the provisions of the statement will govern.

Because these modifications to the Commission's regulations implementing NEPA are necessary to comply with the FWPCA, the Commission has found that good cause exists for omitting notice of proposed rule making and public procedure thereon as unnecessary and impracticable and for making the interim statement of policy effective upon publication in the FEDERAL REGISTER without the customary 30-day notice.

Accordingly, pursuant to NEPA, FWPCA, the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following interim statement of policy is published as a document subject to codification, to be effective on January 29, 1973.

The Commission invites all interested persons who desire to submit written comments or suggestions for consideration in connection with the statement to send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, on or before March 15, 1973. Consideration will be given to such submissions with the view to possible further amendments. The Commission expects in any event to make conforming changes to the language in 10 CFR Part 50, Appendix D, in the near future after March 15, 1973. Copies of comments received by the Commission may be examined at the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

INTERIM POLICY STATEMENT ON IMPLEMENTATION OF SECTION 511 OF THE FEDERAL WATER POLLUTION CONTROL ACT AMENDMENTS OF 1972 (FWPCA)

1. *Applicability.* This statement is effective immediately and shall apply to all licensing proceedings subject to 10 CFR Part 50, Appendix D, involving facilities or activities which may result in the discharge of a pollutant into the navigable waters, as defined in section 502(12)(A) of the FWPCA, and as to which no final Commission action had been taken prior to enactment of the FWPCA.

2. *Definition of terms.* As used in this statement:

a. Limitations or other requirements promulgated or imposed pursuant to the FWPCA means effluent limitations or other requirements promulgated or imposed pursuant to sections 208(e), 301, 302, 303(e), 304(b), 306, 307, 316, 318, 401, 402, 403, or 404 of the FWPCA. It also includes (i) Water quality standards continued in effect or promulgated pursuant to sections 303(a), 303(b), or 303(c) of the FWPCA; (ii) maximum daily loads for pollutants and maximum daily thermal loads, promulgated pursuant to section 303(d) of the FWPCA; and (iii) limitations or other requirements of State law under authority preserved by section 510 of the FWPCA, but only if and to the extent that such limitations or other requirements covered by this subpart (iii) are imposed and set forth in a certification pursuant to section 401(d) of the FWPCA or are imposed and set forth as a condition in a permit issued pursuant to section 402 of the FWPCA. It does not include (i) effluent limitations or other requirements regarding source, byproduct or special nuclear materials, which are subject to regulation by the Commission pursuant to the Atomic Energy Act of 1954, as amended, or (ii) limitations or other requirements promulgated or imposed pursuant to any other Federal law.

b. Pollutant discharge system means equipment or a mode of operation or procedure designed or intended for the control of discharge of pollutants, as that last phrase is defined in section 502(12) of the FWPCA. It does not include equipment or mode of operation or procedure designed or intended for the control of source, byproduct or special nuclear materials, which are subject to regulation by the Commission pursuant to the Atomic Energy Act of 1954, as amended.

c. Cooling water intake structure location, design, construction, and capacity means cooling water intake structure location, design, construction, and capacity within the meaning of section 316(b) of the FWPCA.

3. *Authority to impose requirements or limitations pursuant to National Environmental Policy Act of 1969 (NEPA).* If and to the extent that there are applicable limitations or other requirements promulgated or imposed pursuant to the FWPCA, different limitations or requirements will not be imposed by the Commission pursuant to NEPA as a condition to any permit or license, provided however, that limitations or other requirements of State law under authority preserved by section 510 of the FWPCA which are imposed and set forth in a certification pursuant to section 401(d) of the FWPCA or imposed and set forth as a condition in a permit issued pursuant to section 402 of the FWPCA, shall be regarded as only minimum limitations or requirements and the Commission shall retain any authority under NEPA to impose more stringent limitations or requirements.

4. *Alternatives.* a. Neither alternative cooling water intake structure location, design, construction, and capacity, nor alternative pollutant discharge systems will be considered by the Commission pursuant to NEPA (i) if a permit has been received for the facility or activity pursuant to section 402 of the FWPCA and a detailed statement with respect to issuance of that permit has been prepared pursuant to section 102(2)(C) of NEPA, or (ii) if and to the extent that conditions imposed as a part of the license or permit for the facility or activity pursuant to section 401(d) of the FWPCA require that a particular alternative be adopted, or (iii) if and to the extent that a permit or determination with a condition requiring the adoption of a particular alternative has been issued for the facility or activity pursuant to sections 208(b)(2)(C)(ii) and 303(e)(3)(B), 318, 402 or 404 of the FWPCA.

b. Alternative pollutant discharge systems will not be considered by the Commission pursuant to NEPA where effluent limitations have been imposed on the facility or activity under sections 301(c) or 302 of the FWPCA.

c. Neither alternative sites, facilities, or activities, nor alternative systems will be considered by the Commission pursuant to NEPA if and to the extent that a determination made with respect to the facility or activity under sections 208(b)(2)(C)(ii) and 303(e)(3)(B) of the FWPCA requires as a condition that a particular site, facility, or activity, or system be adopted.

d. To the maximum extent practicable any alternatives considered by the Commission pursuant to NEPA shall be considered by following procedures similar to those described in paragraph 5.

5. *Cost-benefit balances.* a. Except as provided in paragraphs b. and c., if and to the extent that there are applicable limitations or other requirements promulgated or imposed pursuant to the FWPCA, in considering the costs and benefits of a proposed action pursuant to NEPA, the Commission will determine whether the facility or activity that is the subject of the licensing action will comply with such limitations or other requirements.

(1) If it is determined that the facility or activity, or any part thereof, will not comply with such limitations or other requirements, then the facility or activity, or particular part in question, shall not be approved in the AEC license or permit.

(2) If it is determined that the facility or activity will comply with such limitations or other requirements, then the Commission will evaluate environmental impact on the basis of discharges or other activities associated with the facility or activity to be licensed which are at the level of such limitations or other requirements.

In making a determination in regard to compliance, as provided hereinabove, AEC will give due regard to the views on this matter of the Environmental Protection Agency and, where appropriate, of cognizant State and interstate agencies which exercise authority derived from the FWPCA.

b. Where limitations or other requirements of State law under authority preserved by section 510 of the FWPCA are imposed and set forth in a certification under section 401(d) of the FWPCA or are imposed and set forth as a condition in a permit issued pursuant to section 402 of the FWPCA, the Commission will, in considering costs and benefits of a proposed action pursuant to NEPA, evaluate environmental impact on the basis of discharges or other activities associated with the facility or activity which are in compliance with said limitations or other requirements. In considering the costs and benefits of a proposed action pursuant to NEPA the Commission will accord due consideration to the fact that the facility or activity, or part thereof, will meet limitations or other requirements more stringent than such limitations or other requirements of State law by evaluating and giving consideration to environmental impact of the facility or activity accordingly.

c. (1) The Commission will not determine whether applicable limitations or other requirements promulgated or imposed pursuant to the FWPCA will be complied with if and to the extent that such a determination has been made (i) under sections 208(b)(2)(C)(ii) and 303(c)(3)(B), or (ii) sections 301(c), 302, 318, 401, or 402, or (iii) section 404 of the FWPCA. In such cases, the Commission will accept the determination made under these provisions, *Provided, however,* That the Commission will determine whether applicable limitations or other requirements promulgated or imposed pursuant to the FWPCA will be complied with notwithstanding that a determination has been made under section 401 of the FWPCA where there has been provided a certification that there is not an applicable limitation under sections 301(b) and 302 of the FWPCA and there is not an applicable standard under sections 306 and 307 of the FWPCA.

6. *Effect on Appendix D.* To the extent that there is a conflict between any of the provisions of this interim statement of policy and the provisions of 10 CFR Part 50, Appendix D, the provisions of this statement shall govern.

(Sec. 102, 83 Stat. 853; secs. 101, 401, 511, 86 Stat. 817, 877, 893; sec. 161, 68 Stat. 948, as amended; 42 U.S.C. 2013, 2201)

Dated at Germantown, Md., this 12th day of January 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

O,O-DIMETHYL 2,2,2-TRICHLORO-1-HYDROXYETHYL PHOSPHONATE

A petition (FAP 2H5012) was filed by Chemagro Corp., Post Office Box 4913, Kansas City, MO 64120, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of a food additive tolerance (21 CFR Part 121) for residues of the insecticide *O,O*-dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate in dried citrus pulp at 25 parts per million resulting from application of the insecticide to growing citrus fruit.

Subsequently, the petitioner amended the petition by reducing the requested tolerance to 2.5 parts per million. (For a related document, see this issue of the FEDERAL REGISTER, page 2688).

When present in processed food or feed, the subject insecticide is a food additive, as defined by the Federal Food, Drug, and Cosmetic Act (sec. 201(s), 72 Stat. 1784; 21 U.S.C. 321(s)). Pesticide tolerances for the insecticide have been previously established.

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346, 346a, and 348).

Having evaluated the data in the petition and other relevant material, it is concluded that the tolerance should be established.

Therefore, pursuant to provisions of the Act (sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), Part 121 is amended by adding the following new section to Subpart D:

§ 121.1247 *O,O*-Dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate.

A tolerance of 2.5 parts per million is established for residues of the insecticide *O,O*-dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate in dried citrus pulp when present therein as a result of application of the insecticide to growing citrus fruit.

Any person who will be adversely affected by the foregoing order may at any time on or before February 28, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th and M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 29, 1973.

(Sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4))

Dated: January 22, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.73-1622 Filed 1-26-73;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1977—DISCRIMINATION AGAINST EMPLOYEES EXERCISING RIGHTS UNDER THE WILLIAMS-STEIGER OCCUPATIONAL SAFETY AND HEALTH ACT OF 1970

Pursuant to section 8(g)(2) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 657(g)(2)) and Secretary of Labor's Order No. 12-71 (36 FR 8754), Title 29 of the Code of Federal Regulations is hereby amended by adding thereto a new part, designated Part 1977. The new Part 1977 contains a statement of policy, interpretations, and procedures concerning the Department of Labor's application of section 11(c) of the Act. Section 11(c) provides in effect that no person shall discharge or discriminate in any manner against any employee because the employee has: (1) Filed a complaint under or related to the Act; (2) instituted or caused to be instituted any proceeding under the Act or related to the Act, or (3) has testified or is about to testify in any proceeding under the Act or related to the Act, or (4) exercised on his own behalf or others any right afforded by the Act.

The new Part 1977 reads as follows:

GENERAL

Sec.
1977.1 Introductory statement.
1977.2 Purpose of this part.
1977.3 General requirements of section 11(c) of the Act.
1977.4 Persons prohibited from discriminating.
1977.5 Persons protected by section 11(c).
1977.6 Unprotected activities distinguished.

SPECIFIC PROTECTIONS

1977.9 Complaints under or related to the Act.
1977.10 Proceedings under or related to the Act.
1977.11 Testimony.
1977.12 Exercise of any right afforded by the Act.

PROCEDURES

1977.15 Filing of complaint for discrimination.
1977.16 Notification of Secretary of Labor's determination.
1977.17 Withdrawal of complaint.
1977.18 Arbitration or other agency proceedings.

SOME SPECIFIC SUBJECTS

1977.21 Walkaround pay disputes.
1977.22 Employee refusal to comply with safety rules.
1977.23 State plans.

AUTHORITY: Sec. 8(g)(2), Public Law 91-596, 84 Stat. 1600 (26 U.S.C. 657). Interpret or apply sec. 11(c), Public Law 91-596, 84 Stat. 1603 (29 U.S.C. 660).

GENERAL

§ 1977.1 Introductory statement.

(a) The Occupational Safety and Health Act of 1970 (29 U.S.C. 651, et seq.), hereinafter referred to as the Act, is a Federal statute of general application designed to regulate employment conditions relating to occupational safety and health and to achieve safer and healthier workplaces throughout the Nation. By terms of the Act, every person engaged in a business affecting commerce who has employees is required to furnish each of his employees employment and a place of employment free from recognized hazards that are causing or likely to cause death or serious physical harm, and, further, to comply with occupational safety and health standards promulgated under the Act. See Part 1975 of this chapter concerning coverage of the Act.

(b) The Act provides, among other things, for the adoption of occupational safety and health standards, research and development activities, inspections and investigations of workplaces, and recordkeeping requirements. Enforcement procedures initiated by the Department of Labor, review proceedings before an independent quasi-judicial agency (the Occupational Safety and Health Review Commission), and express judicial review are provided by the Act.

V38-118 JAN 29 73 XUM

In addition, States which desire to assume responsibility for development and enforcement of standards which are at least as effective as the Federal standards published in this chapter may submit plans for such development and enforcement of the Secretary of Labor.

(c) Employees and representatives of employees are afforded a wide range of substantive and procedural rights under the Act. Moreover, effective implementation of the Act and achievement of its goals depend in large part upon the active but orderly participation of employees, individually and through their representatives, at every level of safety and health activity.

(d) This part deals essentially with the rights of employees afforded under section 11(c) of the Act. Section 11(c) of the Act prohibits reprisals, in any form, against employees who exercise rights under the Act.

§ 1977.2 Purpose of this part.

The purpose of this part is to make available in one place interpretations of the various provisions of section 11(c) of the Act which will guide the Secretary of Labor in the performance of his duties thereunder unless and until otherwise directed by authoritative decisions of the courts, or concluding, upon reexamination of an interpretation, that it is incorrect.

§ 1977.3 General requirements of section 11(c) of the Act.

Section 11(c) provides in general that no person shall discharge or in any manner discriminate against any employee because the employee has: (a) Filed any complaint under or related to the Act; (b) Instituted or caused to be instituted any proceeding under or related to the Act; (c) Testified or is about to testify in any proceeding under the Act or related to the Act; or (d) Exercised on his own behalf or on behalf of others any right afforded by the Act. Any employee who believes that he has been discriminated against in violation of section 11(c) of the Act may, within 30 days after such violation occurs, lodge a complaint with the Secretary of Labor alleging such violation. The Secretary shall then cause appropriate investigation to be made. If, as a result of such investigation, the Secretary determines that the provisions of section 11(c) have been violated civil action may be instituted in any appropriate United States district court, to restrain violations of section 11(c)(1) and to obtain other appropriate relief, including rehiring or reinstatement of the employee to his former position with back pay. Section 11(c) further provides for notification of complainants by the Secretary of determinations made pursuant to their complaints.

§ 1977.4 Persons prohibited from discriminating.

Section 11(c) specifically states that "no person shall discharge or in any manner discriminate against any employee" because the employee has exercised rights under the Act. Section 3(4) of the Act defines "person" as "one or more individuals, partnerships, associations, corporations, business trusts, legal representatives, or any group of persons." Consequently, the prohibitions of section 11(c) are not limited to actions taken by employers against their own employees. A person may be chargeable with discriminatory action against an employee of another person. Section 11(c) would extend to such entities as organizations representing employees for collective bargaining purposes, employment agencies, or any other person in a position to discriminate against an employee. See, Meek v. United States, 136 F. 2d 679 (6th Cir., 1943); Bowe v. Judson C. Burns, 137 F. 2d 37 (3rd Cir., 1943).

§ 1977.5 Persons protected by section 11(c).

(a) All employees are afforded the full protection of section 11(c). For purposes of the Act, an employee is defined as "an employee of an employer who is employed in a business of his employer which affects commerce." The Act does not define the term "employ." However, the broad remedial nature of this legislation demonstrates a clear congressional intent that the existence of an employment relationship, for purposes of section 11(c), is to be based upon economic realities rather than upon common law doctrines and concepts. See, U.S. v. Silk, 331 U.S. 704 (1947); Rutherford Food Corporation v. McComb, 331 U.S. 722 (1947).

(b) For purposes of section 11(c), even an applicant for employment could be considered an employee. See, NLRB v. Lamar Creamery, 246 F. 2d 8 (5th Cir., 1957). Further, because section 11(c) speaks in terms of any employee, it is also clear that the employee need not be an employee of the discriminator. The principal consideration would be whether the person alleging discrimination was an "employee" at the time of engaging in protected activity.

(c) In view of the definitions of "employer" and "employee" contained in the Act, employees of a State or political subdivision thereof would not ordinarily be within the contemplated coverage of section 11(c).

§ 1977.6 Unprotected activities distinguished.

(a) Actions taken by an employer, or others, which adversely affect an employee may be predicated upon nondiscriminatory grounds. The proscriptions of section 11(c) apply when the adverse action occurs because the employee has engaged in protected activities. An employee's engagement in activities protected by the Act does not automatically render him immune from discharge or discipline for legitimate reasons, or from adverse action dictated by non-prohibited considerations. See, NLRB v. Dixie Motor Coach Corp., 128 F. 2d 201 (5th Cir., 1942).

(b) At the same time, to establish a violation of section 11(c), the employee's engagement in protected activity need not be the sole consideration behind discharge or other adverse action. If protected activity was a substantial reason for the action, or if the discharge or other adverse action would not have taken place "but for" engagement in protected activity, section 11(c) has been violated. See, Mitchell v. Goodyear Tire & Rubber Co., 278 F. 2d 562 (8th Cir., 1960); Goldberg v. Bama Manufacturing, 302 F. 2d 152 (5th Cir., 1962). Ultimately, the issue as to whether a discharge was because of protected activity will have to be determined on the basis of the facts in the particular case.

Specific Protections

§ 1977.9 Complaints under or related to the Act.

(a) Discharge of, or discrimination against, an employee because the employee has filed "any complaint • • • under or related to this Act • • •" is prohibited by section 11(c). An example of a complaint made "under" the Act would be an employee request for inspection pursuant to section 8(f). However, this would not be the only type of complaint protected by section 11(c). The range of complaints "related to" the Act is commensurate with the broad remedial purposes of this legislation and the sweeping scope of its application, which entails the full extent of the commerce power. (See Cong. Rec., vol. 116 p. P. 42206 Dec. 17, 1970).

(b) Complaints registered with other Federal agencies which have the authority to regulate or investigate occupational safety and health conditions are complaints "related to" this Act. Likewise, complaints made to State or local agencies regarding occupational safety and health conditions would be "related to" the Act. Such complaints, however, must relate to conditions at the workplace, as distinguished from complaints touching only upon general public safety and health.

(c) Further, the salutary principles of the Act would be seriously undermined if employees were discouraged from lodging complaints about occupational safety and health matters with their employers. (Section 2(1), (2), and (3)). Such complaints to employers, if made in good faith, therefore would be related to the Act, and an employee would be protected against discharge or discrimination caused by a complaint to the employer.

§ 1977.10 Proceedings under or related to the Act.

(a) Discharge of, or discrimination against, any employee because the employee has "instituted or caused to be instituted any proceeding under or related to this Act" is also prohibited by section 11(c). Examples of proceedings which could arise specifically under the Act would be inspections of worksites under section 8 of the Act, employee contest of abatement date under section 10(c) of the Act, employee initiation of proceedings for promulgation of an occupational safety and health standard under section 6(b) of the Act and part 1911 of this chapter, employee application for modification of revocation of a variance under section 6(d) of the Act and part 1905 of this chapter, employee judicial challenge to a standard under section 6(f) of the Act and employee appeal of an Occupational Safety and Health Review Commission order under section 11(a) of the Act. In determining whether a "proceeding" is "related to" the Act, the considerations discussed in § 1977.9 would also be applicable.

(b) An employee need not himself directly institute the proceedings. It is sufficient if he sets into motion activities of others which result in proceedings under or related to the Act.

§ 1977.11 Testimony.

Discharge of, or discrimination against, any employee because the employee "has testified or is about to testify" in proceedings under or related to the Act is also prohibited by section 11(c). This protection would of course not be limited to testimony in proceedings instituted or caused to be instituted by the employee, but would extend to any statements given in the course of judicial, quasi-judicial, and administrative proceedings, including inspections, investigations, and administrative rule making or adjudicative functions. If the employee is giving or is about to give testimony in any proceeding under or related to the Act, he would be protected against discrimination resulting from such testimony.

§ 1977.12 Exercise of any right afforded by the Act.

(a) In addition to protecting employees who file complaints, institute proceedings, or testify in proceedings under or related to the Act, section 11(c) also protects employees from discrimination occurring because of the exercise "of any right afforded by this Act." Certain rights are explicitly provided in the Act; for example, there is a right to participate as a party in enforcement proceedings (sec. 10). Certain other rights exist by necessary implication. For example, employees may request information from the Occupational Safety and Health Administration; such requests would constitute the exercise of a right afforded by the Act. Likewise, employees interviewed by agents of the Secretary in the course of inspections or investigations could not subsequently be discriminated against because of their cooperation.

(b) (1) On the other hand, review of the Act and examination of the legislative history discloses that, as a general matter, there is no right afforded by the Act which would entitle employees to walk off the job because of potential unsafe conditions at the workplace. Hazardous conditions which may be violative of the Act will ordinarily be corrected by the employer, once brought to his attention. If corrections are not accomplished, or if there is dispute about the existence of a hazard, the employee will normally have opportunity to request inspection of the workplace pursuant to section 8(f) of the Act, or to seek the assistance of other public agencies which have responsibility in the field of safety and health. Under such circumstances, therefore, an employer would not ordinarily be in violation of section 11(c) by taking action to discipline an employee for refusing to perform normal job activities because of alleged safety or health hazards.

(2) However, occasions might arise when an employee is confronted with a choice between performing assigned tasks or subjecting himself to serious injury or death arising from a hazardous condition at the workplace. If the employee, with no reasonable alternative, refuses in good faith to expose himself to the dangerous condition, he would be protected against subsequent discrimination. The condition causing the employee's apprehension of death or injury must be of such a nature that a reasonable person, under the circumstances then confronting the employee, would conclude that there is a real danger of death or serious injury and that there is insufficient time, due to the urgency of the situation, to eliminate the danger through resort to regular statutory enforcement channels. In addition, in such circumstances, the employee, where possible, must also have sought from his employer, and been unable to obtain, a correction of the dangerous condition.

Procedures

§ 1977.15 Filing of complaint for discrimination.

(a) *Who may file.* A complaint of section 11(c) discrimination may be filed by the employee himself, or by a representative authorized to do so on his behalf.

(b) *Nature of filing.* No particular form of complaint is required.

(c) *Place of filing.* Complaint should be filed with the Area Director (Occupational Safety and Health Administration) responsible for enforcement activities in the geographical area where the employee resides or was employed.

(d) *Time for filing.* (1) Section 11(c)(2) provides that an employee who believes that he has been discriminated against in violation of section 11(c)(1) "may, within 30 days after such violation occurs," file a complaint with the Secretary of Labor.

(2) A major purpose of the 30-day period in this provision is to allow the Secretary to decline to entertain complaints which have become stale. Accordingly, complaints not filed within 30 days of an alleged violation will ordinarily be presumed to be untimely.

(3) However, there may be circumstances which would justify tolling of the 30-day period on recognized equitable principles or because of strongly extenuating circumstances, e.g., where the employer has concealed, or misled the employee regarding the grounds for discharge or other adverse action; where the employee has, within the 30-day period, resorted in good faith to grievance-arbitration proceedings under a collective bargaining agreement or filed a complaint regarding the same general subject with another agency; where the discrimination is in the nature of a continuing violation. In the absence of circumstances justifying a tolling of the 30-day period, untimely complaints will not be processed.

§ 1977.16 Notification of Secretary of Labor's determination.

Section 11(c)(3) provides that the Secretary is to notify a complainant within 90 days of the complaint of his determination whether prohibited discrimination has occurred. This 90-day provision is considered directory in nature. While every effort will be made to notify complainants of the Secretary's determination within 90 days, there may be instances when it is not possible to meet the directory period set forth in section 11(c)(3).

§ 1977.17 Withdrawal of complaint.

Enforcement of the provisions of section 11(c) is not only a matter of protecting rights of individual employees, but also of public interest. Attempts by an employee to withdraw a previously filed complaint will not necessarily result in termination of the Secretary's investigation. The Secretary's jurisdiction cannot be foreclosed as a matter of law by unilateral action of the employee. However, a voluntary and uncoerced request from a complainant to withdraw his complaint will be given careful consideration and substantial weight as a matter of policy and sound enforcement procedure.

§ 1977.18 Arbitration or other agency proceedings.

(a) *General.* (1) An employee who files a complaint under section 11(c) of the Act may also pursue remedies under grievance arbitration proceedings in collective bargaining agreements. In addition, the complainant may concurrently resort to other agencies for relief, such as the National Labor Relations Board. The Secretary's jurisdiction to entertain section 11(c) complaints, to investigate, and to determine whether discrimination has occurred, is independent of the jurisdiction of other agencies or bodies. The Secretary may file action in U.S. district court regardless of the pendency of other proceedings.

(2) However, the Secretary also recognizes the national policy favoring voluntary resolution of disputes under procedures in collective bargaining agreements. See, e.g., Boy's Markets, Inc. v. Retail Clerks, 398 U.S. 235 (1970); Republic Steel Corp. v. Maddox, 379 U.S. 650 (1965); Carey v. Westinghouse Electric Co., 375 U.S. 261 (1964); Collier Insulated Wire, 192 NLRB No. 150 (1971). By the same token, due deference should be paid to the jurisdiction of other forums established to resolve disputes which may also be related to section 11(c) complaints.

(3) Where a complainant is in fact pursuing remedies other than those provided by section 11(c), postponement of the Secretary's determination and de-

V 38 - 18 - I
JAN 29 73
XUM

ferral to the results of such proceedings may be in order. See, Burlington Truck Lines, Inc., v. U.S., 371 U.S. 156 (1962).

(b) *Postponement of determination.* Postponement of determination would be justified where the rights asserted in other proceedings are substantially the same as rights under section 11(c) and those proceedings are not likely to violate the rights guaranteed by section 11(c). The factual issues in such proceedings must be substantially the same as those raised by section 11(c) complaint, and the forum hearing the matter must have the power to determine the ultimate issue of discrimination. See Rios v. Reynolds Metals Co., F.2d (5th Cir., 1972), 41 U.S.L.W. 1049 (Oct. 10, 1972); Newman v. Avco Corp., 451 F.2d 743 (6th Cir., 1971).

(c) *Deferral to outcome of other proceedings.* A determination to defer to the outcome of other proceedings initiated by a complainant must necessarily be made on a case-to-case basis, after careful scrutiny of all available information. Before deferring to the results of other proceedings, it must be clear that those proceedings dealt adequately with all factual issues, that the proceedings were fair, regular, and free of procedural infirmities, and that the outcome of the proceedings was not repugnant to the purpose and policy of the Act. In this regard, if such other actions initiated by a complainant are dismissed without adjudicatory hearing thereof, such dismissal will not ordinarily be regarded as determinative of the section 11(c) complaint.

SOME SPECIFIC SUBJECTS

§ 1977.21 Walkaround pay disputes.

(a) Complaints involving claims of discrimination based upon employer failure to pay employees who participate in section 8(e) Federal walkaround inspections of a workplace will require close scrutiny of the facts in each instance. However, as a general rule, such refusal to compensate for time so spent is not per se discriminatory. On the other hand, there may be situations in which a finding of discrimination would be warranted on the basis of specific facts in the proceeding. For example, an employer's past practice respecting payment for certain other safety and health activities on regular working time may result in a determination that the failure to compensate for walkaround is discriminatory. Such past practice must entail, however, activities which are closely analogous to walkaround inspection activities. The practice of compensating attendees at safety committee or other safety meetings is not generally to be regarded as evidence of closely analogous practices where such committees and meetings are purely educational and advisory in nature.

(b) It should be emphasized that an employer is in no way precluded by the Act from making voluntary agreements to pay employees for time spent by them while participating in walkaround inspections.

§ 1977.22 Employee refusal to comply with safety rules.

Employees who refuse to comply with occupational safety and health standards or valid safety rules implemented by the employer in furtherance of the Act are not exercising any rights afforded by the Act. Disciplinary measures taken by employers solely in response to employee refusal to comply with appropriate safety rules and regulations, will not ordinarily be regarded as discriminatory action prohibited by section 11(c). This situation should be distinguished from refusals to work, as discussed in § 1977.12.

§ 1977.23 State plans.

A State which is implementing its own occupational safety and health enforcement program pursuant to section 18 of the Act and Parts 1902 and 1952 of this chapter must have provisions as effective as those of section 11(c) to protect employees from discharge or discrimination. Such provisions do not divest either the Secretary of Labor or Federal district courts of jurisdiction over employee complaints of discrimination. However, the Secretary of Labor may refer complaints of employees adequately protected by State Plans' provisions to the appropriate state agency. The basic principles outlined in § 1977.18, supra will be observed as to deferrals to findings of state agencies.

Signed at Washington, D.C., this 19th day of January 1973.

RICHARD F. SCHUBERT,
Solicitor of Labor.

Title 32A—National Defense, Appendix

CHAPTER XI—OIL IMPORT APPEALS BOARD

OIAB—RULES AND PROCEDURES

On May 9, 1972, there was published in the FEDERAL REGISTER (37 FR 9347-9349) a notice and text of proposed rule making by the Oil Import Appeals Board, acting through the Office of Hearings and Appeals, Department of the Interior, proposing a revision of its rules and procedures found at Chapter XI of Title 32A, Code of Federal Regulations. On May 20, 1972, there was published in the FEDERAL REGISTER (37 FR 10405) a notice of editorial correction to the proposed revision.

Interested persons were invited to submit written comments, suggestions, or objections regarding the proposed revision within 30 days from the date of publication of the original notice of proposed rule making in the FEDERAL REGISTER. All comments received have been carefully considered by the Oil Import Appeals Board in adopting the revision to Chapter XI of Title 32A, Code of Federal Regulations, as set forth below.

Changes made in the final revision, other than minor editorial changes, follow:

Section 7 now provides that upon request and for good cause shown, the Oil Import Appeals Board may postpone as well as advance the date of a hearing on a petition.

Section 13 has been revised to clarify the time periods during which interested persons may file statements in support of or in opposition to a petition before and after a hearing on the petition. Also, section 13 now extends to comments submitted by the Director, Office of Oil and Gas, Department of the Interior, the prohibition that the Oil Import Appeals Board may not consider statements of interested persons on a petition unless copies have been furnished to the petitioner or his representative.

Section 15 is revised to require the Director, Office of Oil and Gas, Department of the Interior, to send to the petitioner, or his representative, a copy of any comments that he may submit to the Oil Import Appeals Board on a petition.

Effective date. This revision of the rules and procedures of the Oil Import Appeals Board shall be effective on January 29, 1973.

The revised text of chapter XI reads as follows:

Sec.
1 Purpose.
2 Establishment of Board.
3 Authority of the Board.
4 Representation before the Board.
5 Time and place to file petitions.
6 Form and content of petition.
7 Hearings on petitions.
8 Notice of hearing.
9 Unexcused absence of a petitioner.
10 Conduct of hearing.
11 Consolidation.
12 Briefs, memoranda of law, documentary evidence, and other information.
13 Statements by interested persons other than petitioner.
14 Private communications prohibited.
15 Participation by the Office of Oil and Gas.
16 In camera orders.
17 Decisions of the Board.
18 Reconsideration of decisions.
19 Reopening of proceedings.
20 Clerical mistakes.
21 Duty to inform the Board.
22 Record open to the public.

AUTHORITY: Proclamation No. 3279 of March 10, 1959, as amended, 24 FR 1781, 10133, 28 FR 4077, 35 FR 4321; sec. 232 of The Trade Expansion Act of 1962, 76 Stat. 877; and Oil Import Regulation 1, as revised, 28 FR 14316, and amended (Amendment 19, 35 FR 163, Amendment 23, 35 FR 12759, and Amendment 24, 35 FR 16976).

Section 1 Purpose.

These rules govern the procedures on petitions to the Oil Import Appeals Board, hereinafter referred to as the "Board." They shall be construed to secure the just, speedy, and inexpensive determination of every proceeding.

Sec. 2 Establishment of Board.

Pursuant to section 4 of Presidential Proclamation 3279, dated March 10, 1959 (24 FR 1781), as amended, hereinafter referred to as the "Proclamation," the Board was established by section 21 of Oil Import Regulation 1 (24 FR 1907), as revised and amended. Oil Import Regulation 1 is hereinafter referred to as the "Regulation." The Board is comprised of a representative each from the Departments of the Interior, Justice, and Commerce, designated respectively by the heads of such Departments. The Department of the Interior member serves as chairman.

Sec. 3 Authority of the Board.

(a) The Board considers petitions for relief by persons claiming to be affected by the regulation and may, within the limits of the maximum levels of imports established in section 2 of the proclamation:

(1) Reverse or modify on grounds of error actions taken by the Director, Office of Oil and Gas, on applications for allocations under the regulation;

(2) Modify any allocation made to any person under the regulation on the grounds of exceptional hardship;

(3) Grant allocations of crude oil and unfinished oils in special circumstances to persons with importing histories who do not otherwise qualify for allocations under the regulation;

(4) Grant allocations of finished products on the grounds of exceptional hardship to persons who do not otherwise qualify for allocations under the regulation; and

(5) Review the revocation or suspension of any allocation or license.

(b) Only petitions relating to matters covered by paragraph (a) of this section may be considered by the Board. Petitions requesting a change or disregard of the proclamation or the regulation may not be considered.

Sec. 4 Representation before the Board.

Subject to the provisions contained in Part 1 of Title 43, Code of Federal Regulations, a petitioner may appear in person, by counsel or other qualified representative, and participate fully in any proceeding before the Board held pursuant to these rules.

Sec. 5 Time and place to file petitions.

(a) A petition requesting the reversal or modification of an action of the Director, Office of Oil and Gas, with reference to an allocation or modification, or a grant of an allocation shall be filed with the Board not later than 30 calendar days after the beginning of the applicable allocation period or the date of the granting or denial of an allocation, whichever is later.

(b) A petition requesting review of the suspension or revocation of an allocation or license shall be filed with the Board not later than 30 calendar days after mailing of a notice of suspension or revocation by the Director, Office of Oil and Gas.

(c) The Board may consider a petition not filed within the time specified in paragraphs (a) and (b) of this section upon a showing of good cause.

(d) Petitions and related documents and exhibits shall be addressed to the Oil Import Appeals Board and filed with the Board (address: Oil Import Appeals Board, Office of Hearings and Appeals, 4015 Wilson Boulevard, Arlington, VA 22203).

Sec. 6 Form and content of petition.

A petition must be in writing, signed by the petitioner or his duly authorized representative or attorney, clearly marked as "petition," and filed in sextuplicate. Each petition shall be organized under headings, as follows: (a) The relief sought by the petitioner, expressed in barrels per day (b/d) and in total barrels (bbls.) during the applicable allocation period; (b) the pertinent provisions of the regulation under which the Board has authority to grant such relief; (c) the decision of the Director, Office of Oil and Gas involved in the petition, if any; (d) the relevant facts in support of the petition; and (e) the arguments in support of the petition.

Sec. 7 Hearings on petitions.

A petitioner may request a hearing before the Board on his petition by submitting an unqualified request therefor, in writing, with the filing of his petition. The Board in its discretion may grant a hearing. Where a hearing has not been requested by the petitioner, the Board may, in its discretion, schedule a hearing on the petition. Hearings will be scheduled in the discretion of the Board with due consideration to the regular order of filing of petitions and other pertinent factors. On request and for good cause shown, the Board may in its discretion advance or postpone a hearing. A party failing to request a hearing as provided in this section may be deemed to have submitted his case upon the Board record.

Sec. 8 Notice of hearing.

The petitioner shall be given at least 14 calendar days' notice of the time and place set for hearings, unless otherwise agreed. Such notice will apprise the petitioner of the requirements of section 12 for submission of briefs, memoranda of law, documentary evidence or other necessary information. In scheduling hearings the Board will give due regard to the desires of the petitioners and to the requirement for just and prompt disposition of petitions. Public notice of the scheduling of a hearing will also be posted in the office of the Board.

Sec. 9 Unexcused absence of a petitioner.

The unexcused absence of a petitioner at the time and place set for hearing will not be occasion for delay. In the event of such absence the hearing will proceed and the case will be regarded as submitted by the absent petitioner on the record before the Board. The Board shall advise the absent petitioner of the content of the proceedings and that he has 5 days from the receipt of such notice within which to show cause why the petition should not be decided on the record made.

Sec. 10 Conduct of hearing.

(a) Any member of the Board may conduct a hearing.

(b) Hearings shall be as informal as may be reasonable and appropriate in the circumstances and shall be public. Petitioner may offer at a hearing such relevant evidence as he deems appropriate, subject to the sound discretion of the presiding member in supervising the extent and manner of presentation of such evidence and subject to the requirements of section 12(b). In general, admissibility will hinge on relevancy and materiality. Arguments bearing on the policy embodied in the proclamation or in the regulation shall not be received. Letters or copies thereof, affidavits, or other evidence not ordinarily admissable under the generally accepted rules of evidence, may be admitted in the discretion of the presiding member. The weight to be attached to evidence presented in any particular form will be within the discretion of the Board, taking into consideration all the circumstances of the particular case. Stipulations of fact agreed upon by a petitioner and the Director of the Office of Oil and Gas, or his representative, may be regarded and used as evidence at the hearing. The petitioner and the Office of Oil and Gas may stipulate the testimony that would be given by a witness if the witness were present. The Board may in any case require evidence in addition to that offered by a petitioner.

(c) Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated, or the Board shall otherwise order. If the testimony of a witness is not given under oath, the Board shall call to the attention of the witness the provisions of title 18, United States Code, sections 287 and 1001, prescribing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof. The Board may, in its discretion, permit Government officials participating in the hearing to examine any witness.

(d) Hearings will be recorded verbatim and transcripts thereof shall be made, costs of transcripts to be borne by the requesting parties. Fees for those transcripts prepared from recordings by Office of Hearings and Appeals employees, will be at rates which cover the cost of manpower, machine use and materials, plus 25 percent, adjusted to the nearest 5 cents.

Sec. 11 Consolidation.

Upon good cause shown, or upon its own initiative, the Board may at the same time hear or decide two or more petitions, if it determines that such action is appropriate.

Sec. 12 Briefs, memoranda of law, documentary evidence, and other information.

(a) The Board may on its own initiative require the filing, either before or after hearing, of briefs, memoranda of law, documentary evidence, or any other information it considers necessary for the disposition of a petition.

(b) Any briefs, memoranda, documents, statistics, and other data and statements, but not including witnesses'

V 38 N 18 JAN 29 73 XUM

testimony, to be presented or used at a hearing, shall be filed in sextuplicate with the Board not later than 6 days, exclusive of Saturdays, Sundays, Federal legal holidays and other nonbusiness days, prior to the date of hearing.

Sec. 13 Statements by interested persons other than petitioner.

(a) Persons interested in opposing or supporting a petition, other than petitioner, may file in sextuplicate with the Board written statements on issues raised by the petition at any time prior to 7 calendar days before the scheduled date of the hearing on the petition. At the same time such statement is filed with the Board, a copy shall be sent to the petitioner or his representative by the interested person. The petitioner may file in sextuplicate with the Board a written reply within 7 calendar days after receiving such statements.

(b) Persons interested in opposing or supporting a petition other than petitioner, may file in sextuplicate with the Board written statements on issues raised by the hearing within 7 calendar days following said hearing, unless extension is granted by the Board for good cause. At the same time such a statement is filed with the Board, a copy shall be sent to the petitioner or his representative by the interested person. The petitioner may file in sextuplicate with the Board a written reply within 7 calendar days after receiving such statements, unless extension is granted by the Board for good cause.

(c) The Board will not consider statements made pursuant to paragraph (a) or (b) of this section or section 15, unless copies have been furnished to petitioners or their representatives in a timely fashion by the interested persons.

Sec. 14 Private communications prohibited.

Oral or written communications by petitioners, interested private parties, or their agents, concerning the facts or law of a petition, or policy of the Board, will not be considered by individual members of the Board, unless such communications are made part of the record before the Board.

Sec. 15 Participation by the Office of Oil and Gas.

A copy of each petition filed with the Board and a copy of each written statement on issues raised by a petition filed pursuant to section 13 will be forwarded promptly to the Director, Office of Oil and Gas, for purposes of information and for any comment which the Director may deems appropriate and wish to submit to the Board. Any comment submitted to the Board by the Director must be filed with the Board and sent to the petitioner or his representative. The Board, when possible, will advise the Director, at least 1 week in advance, of the time and place of any hearing which may be scheduled upon a petition and will request that the Director or his representative appear at the hearing and present information and arguments on behalf of the Office of Oil and Gas.

Sec. 16 In camera orders.

(a) Upon request by the petitioner the Board may order that oral testimony or written evidence which discloses trade secrets or privileged commercial or financial information be placed in camera. The order shall include: (1) A description of the documents and testimony covered by it, and (2) a concise statement of the reasons for granting in camera treatment.

(b) Documents and transcripts of testimony subject to in camera orders shall be segregated from the public record and filed in a sealed envelope, bearing the title and docket number of the proceedings, and the notation "In camera record under section 16." Subject to the provisions of paragraph (c) of this section, documents and transcripts subject to an in camera order will be made accessible only to the petitioner, his counsel, authorized Board personnel, members of the Board, and court personnel concerned with judicial review. The right of the Board and of reviewing courts to disclose in camera data to the extent necessary for the proper disposition of the proceeding is specifically reserved.

(c) Documents and transcripts of testimony subject to an in camera order shall be released to third parties only if required by law.

Sec. 17 Decisions of the Board.

(a) The Board will take such action on petitions as it deems appropriate. Decisions of the Board will be made in writing. All Board members will participate in the decisionmaking; however, concurrence of any two Board members shall be sufficient to constitute a decision of the Board. Decisions of the Board shall be final and not subject to administrative review.

(b) Each decision upon a petition to the Board will contain a concise statement of the reasons for the Board's action.

(c) A copy of the decision shall be furnished promptly to the petitioner or his representative. All decisions of the Board shall be available for inspection by the public.

Sec. 18 Reconsideration of decisions.

Not later than 30 calendar days after issuance of a decision of the Board, a petitioner may file with the Board a petition for reconsideration of such decision, setting forth the relief desired and the grounds therefor. Such petition must clearly state the issues which the petitioner had no opportunity to argue before the Board. The Board, within its discretion, may decide the matter on the petition, or it may schedule a public hearing thereon in accordance with section 8. It may specify any issues on which the Board desires to hear arguments.

Sec. 19 Reopening of proceedings.

(a) *Reopening prior to decision.* At any time prior to its decision, the Board may reopen the proceeding for the reception of further evidence.

(b) *Reopening after decision.* Whenever, during the applicable allocation period, a petitioner subject to a decision of the Board is of the opinion that material changes of fact or of law, which occurred after issuance of the decision, warrant that such decision be altered, modified, or set aside, such petitioner may file with the Board a petition requesting a reopening of the proceeding for that purpose. Such petition shall state the relief desired, the specific changes of fact or of law warranting a reopening of the proceeding, and shall include such evidence and arguments as will provide the basis for a Board decision on the petition. The Board, in its discretion, may decide the matter on the petition, or it may serve upon the petitioner a notice for a public hearing thereon. Said notice shall indicate the time and place of hearing, and it may specify any issues on which the Board desires to receive further evidence or hear arguments.

Sec. 20 Clerical mistakes.

The Board may at any time, without advance notice to the petitioner and without hearing, make such changes in a Board decision as are required to correct clerical or other errors arising from oversight or omission which have no adverse effect on petitioner.

Sec. 21 Duty to inform the Board.

The petitioner shall promptly notify the Board of any change in its eligibility (according to the criteria contained in paragraphs (a) and (g) of section 4) occurring prior to the end of the applicable allocation period.

Sec. 22 Record open to the public.

The petition, transcript of hearing, exhibits, written statements filed by interested parties, all papers filed with the Board, and matters of official notice or record, shall constitute the record for decision and shall be open to the public, subject to the provisions of section 16.

Dated: January 17, 1973.

STANLEY NEHMER,
Member.
GEORGE H. SCHUELLER,
Member.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 72-96RC]

PART 92—ANCHORAGE AND NAVIGATION REGULATIONS

St. Marys River, Mich.

This amendment more accurately defines three reference points of land (mentioned in 33 CFR 92.49, appearing on p. 23540 of the FEDERAL REGISTER of Nov. 4, 1972) along the St. Marys River that serve as bounds within which various vessel speed limits are enforced. The three reference points are Sweets Point, Point Aux Frenes, and Point Louise. This amendment designates a specific aid to navigation at each of these areas as the exact reference point to be used in determining where a speed limit commences or terminates.

The purpose of the amendment is to redefine the three reference points with sufficient precision to remove any uncertainties in the description of the actual locations.

Because this amendment is required to insure immediate, fair, and effective law enforcement action under 33 U.S.C. 474 for violations of 33 CFR 92.49, and because the amendment is minor in nature, notice and public procedure thereon have been determined to be both impracticable and unnecessary.

Accordingly, Part 92 of Title 33 of the Code of Federal Regulations is amended by revising § 92.49 (b) and (e) (3) to read as follows:

§ 92.49 Speed limits for vessels of 50 gross tons or over.

* * * * *

(b) Detour Reef Light to Point Aux Frenes Passing Range South Front Light: The speed limit between—

(1) Detour Reef Light and Sweets Point Light is 17 miles per hour; and

(2) Round Island Light and Point Aux Frenes Passing Range South Front Light is 14 miles per hour.

* * * * *

(e) Lake Nicolet Light 80 to Pointe Aux Pins Main Light: The speed limit between—

* * * * *

(3) The upper limit of the St. Marys Falls Canal and Pointe Aux Pins Main Light is 12 miles per hour.

* * * * *

(Secs. 1–3, 29 Stat. 54, as amended, sec. 6(b), 80 Stat. 937; 33 U.S.C. 474, 49 U.S.C. 1655(b); 49 CFR 1.46(b))

Effective date. This amendment becomes effective on January 26, 1973.

Dated: January 19, 1973.

T. R. SARGENT,
Vice Admiral, U.S. Coast Guard,
Vice Commandant.

[FR Doc.73-1652 Filed 1-26-73;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Captan

In response to a petition (PP 2E1215) submitted by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of November 23, 1972 (37 FR 24908), proposing establishment of a tolerance for residues of the fungicide captan (N-trichloromethylthio - 4-cyclohexene-1,2-dicarboximide) in or on the raw agricultural commodity taro at 0.25 part per million. No comments or requests for referral to an advisory committee were received.

It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), § 180.103 is amended by revising the introductory paragraph and by inserting a new paragraph after the paragraph "2 parts per million in or on beets * * *", as follows:

§ 180.103 Captan; tolerances for residues.

Tolerances for residues of the fungicide captan (N-trichloromethylthio-4-cyclohexene-1,2-dicarboximide) in or on the raw agricultural commodities from preharvest and postharvest uses or combinations of such uses are established as follows:

* * * * *

0.25 part per million in or on taro (corm).

* * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before February 28, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets SW., Waterside Mall, Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 29, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: January 22, 1973.

HENRY J. KORP,
Deputy Assistant Administrator
for Pesticides Programs.

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Diuron

A notice in response to a petition (PP 2E1263) submitted by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, was published by the Environmental Protection Agency in the FEDERAL REGISTER of November 29, 1972 (37 FR 25344), proposing establishment of a tolerance for residues of the herbicide diuron (3-(3,4-dichlorophenyl)-1,1-dimethylurea) in or on the raw agricultural commodity peaches at 0.1 part per million. No comments or requests for referral to an advisory committee were received.

It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), § 180.106 is amended by revising the paragraph "0.1 part per million * * *" as follows:

§ 180.106 Diuron; tolerances for residues.

* * * * *

0.1 part per million (negligible residue) in or on bananas, nuts, and peaches.

Any person who will be adversely affected by the foregoing order may at any time on or before February 28, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th and M Streets SW., Waterside Mall, Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearings. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 29, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: January 22, 1973.

HENRY J. KORP,
Deputy Assistant Administrator
for Pesticides Programs.

[FR Doc.73-1624 Filed 1-26-73;8:45 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

O,O-Dimethyl 2,2,2-Trichloro-1-Hydroxyethyl Phosphonate

A petition (PP 2F1242) was filed by Chemagro Corp., Post Office Box 4913, Kansas City, MO 64120, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for

V38-18 JAN 29 73 XUM

residues of the insecticide *O,O*-dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate in or on the raw agricultural commodities lima beans and vines at 12 parts per million and citrus fruit at 0.1 part per million. (For a related document, see this issue of the FEDERAL REGISTER, page 2681).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the tolerances are being established.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), § 180.198 is amended by revising the paragraphs "12 parts per million • • •" and "0.1 part per million • • •", as follows:

§ 180.198 *O,O*-Dimethyl 2,2,2-trichloro-1-hydroxyethyl phosphonate; tolerances for residues.

• • • • •

12 parts per million in or on alfalfa (fresh), barley (green fodder and straw), clover (fresh), flax straw, lima beans, lima bean vines, lima bean vine hay, oats (green fodder and straw), sugar beet tops, and wheat (green fodder and straw).

• • • • •

0.1 part per million (negligible residues) in or on artichokes, barley (grain), beans (dried), beets (garden), brussels sprouts, cabbage, carrots, cauliflower, citrus fruit, collards, corn fodder and forage, corn (kernels plus cob with husk removed), cottonseed, cowpeas, flaxseed, lettuce, meat, fat, and meat byproducts of cattle, oats (grain), peppers, pumpkins, safflower seed, snap beans, sugar beets, tomatoes, and wheat (grain).

• • • • •

Any person who will be adversely affected by the foregoing order may at any time on or before February 28, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets SW., Waterside Mall, Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 29, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: January 22, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PROCUREMENT ASSIGNMENTS

The following amendment to the GSA/Federal Supply Service Procurement Regulations is to provide instructions to FSS personnel on the criteria for making procurement assignments and on the procurement responsibilities of the National Buying Center and FSS regional buying activities.

PART 5A-5—SPECIAL AND DIRECTED SOURCES OF SUPPLY

Part 5A-5 is amended by the addition of new Subpart 5A-5.70, as follows:

Subpart 5A-5.70—Procurement Assignments

5A-5.7001 Scope.
5A-5.7002 General.
5A-5.7003 Criteria for making procurement assignments.
5A-5.7004 Changes in procurement assignments.
5A-5.7005 Central records for stock item assignments.
5A-5.7006 Current procurement assignments.

AUTHORITY: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 C.F.R. 5-1.101(c).

Subpart 5A-5.70—Procurement Assignments

§ 5A-5.7001 Scope.

This subpart sets forth the procurement assignments and related procurement responsibilities of the National Buying Center (NBC) and regional procuring activities.

§ 5A-5.7002 General.

Procurement Planning and Assignments Division is responsible for assignments of procurement responsibility to the National Buying Center and the regional offices. Future procurement assignments will be published in Subpart 5A-76.4 or on interim bases in numbered FSS Procurement Letters.

§ 5A-5.7003 Criteria for making procurement assignments.

Procurement assignments are made based on the following criteria:

(a) Experience in contracting for the commodity or service;

(b) Resource capability to absorb additional workload;

(c) Geographical location of sources of supply;

(d) Administrative costs of contracting; and

(e) Other factors relevant to specific commodities or services.

§ 5A-5.7004 Changes in procurement assignments.

To ensure an orderly transfer of functions when a commodity or service is assigned from one procuring activity to another, the office which is relieved of such procurement responsibility shall transmit the following information to the procuring activity to which the assignment is transferred:

(a) Any listing of prospective bidders not yet included in the current national bidders mailing lists;

(b) All solicitations and amendments thereto that cover the present contract period;

(c) GSA Form 419, Stock Item Purchase Description, where applicable;

(d) GSA Form 1584, Contract Summary, or Federal Supply Schedule covering the present contract period; and

(e) Any other available procurement information, such as related historic files and vendors' performance records.

§ 5A-5.7005 Central records for stock item assignments.

(a) *GSA Form 419, Stock Item Purchase Description.* FPN shall record assignments on GSA Form 419, Stock Item Purchase Description.

(b) *Master Data File (MDF).* Procurement assignments for stock items are also recorded on the MDF which is maintained at central office by FXC. This information appears as a two-digit code under the Method of Purchase (MOP) column.

§ 5A-5.7006 Current procurement assignments.

Procurement assignments for national or zonal purchases are listed in Subpart 5A-76.4. This listing includes assignments for stock items, Federal Supply Schedules, and other term contracts which are available for use beyond the boundaries of a particular CSA region.

PART 5A-76—EXHIBITS

The table of contents for Part 5A-76 is amended to add the following new Subpart 5A-76.4.

Subpart 5A-76.4—Procurement Assignments

Sec.
5A-76.401 Procurement assignments.
5A-76.402 Federal Supply Schedule assignments.
5A-76.403 Listing of community assignments by National Buying Center's branch/section.
5A-76.404 Service contracts assignments.

NOTE: The exhibits identified in this Subpart 5A-76.4 are filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

Effective date. These regulations are effective on January 15, 1973.

Dated: January 15, 1973.

M. S. MEEKER,
Commissioner, Federal Supply Service.

[FR Doc.73-1632 Filed 1-26-73;8:45 am]

Title 47—TELECOMMUNICATION

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19281; FCC 73-83]

PART 1—PRACTICE AND PROCEDURE

PART 15—RADIO FREQUENCY DEVICES

Class I TV Device Operations; Extension of Effective Date

In the matter of amendment of Part 15 of the Commission's rules to regulate the operation of a Class I TV device—a new restricted radiation device which produces an RF carrier modulated by a TV signal, Docket No. 19281; and amendment of Part 1 to provide a fee schedule for type approval of such devices.

1. Prior to adopting the Report and Order[1] in the subject docket, the Commission waived §§ 2.805 and 15.7 of our rules to permit several companies to legally market Class I TV devices. These devices were first tested at our laboratory and found to comply with the technical standards proposed[2] for such equipment.

2. The waivers granted to these manufacturers, to permit the sale and shipment of these devices, were to originally terminate on the effective date of the rules adopted in this proceeding. The rules adopted specify type approval (equipment to be submitted to the Commission for testing) as a prerequisite for marketing Class I TV devices. Therefore, the waivers were extended to March 1, 1973, in the Report and Order to provide the necessary time for the manufacturer to procure type approval for devices currently being marketed under waivers granted.

3. The Commission has received a Petition for Reconsideration from the Matsushita Electric Corporation of America, 200 Park Avenue, New York, N.Y. 10017, requesting a further extension of the termination date of the waiver of §§ 2.805 and 15.7, which permitted marketing of Class I TV devices and simultaneously requesting an extension of the effective date of § 15.407 of our rules. Section 15.407 requires a Class I TV device to be equipped with a receiver transfer switch having 60 dB isolation; this switch requirement was not included in the proposed rules for Class I TV devices. Matsushita states that unless their Petition for Reconsideration is granted it will "necessitate discontinuance of production and scrapping of considerable transfer switches which have not been designed to embody 60 dB isolation." The petitioner also claims that the March 1, 1973, termination date for waivers does not provide adequate time in which to produce a Class I TV device which complies with our Rules.

4. Matsushita requests that the effective date of § 15.407 and the termination date of the waiver be extended until July 1, 1973. The Commission finds that the schedule presented by Matsushita for development and design, type approval, and manufacturing procurement to support this request is reasonable and provides for an orderly incorporation of the receiver transfer switch as part of Class I TV devices. The Commission further finds that retaining the effective date of January 19, 1973, would work a hardship on the manufacturers of Class I TV devices and that extending this date for 6 months would be in the public interest. The effective date of the rules for Class I TV devices, Subpart H of Part 15, is hereby extended to July 1, 1973.

5. No action is required with respect to the waivers, since these waivers, by their terms, are valid until the final rules for Class I TV devices become effective, which is now July 1, 1973. The waivers are thus automatically extended by this action.

6. In view of the foregoing, *It is ordered,* That the above-described petition is granted and the effective date of the Rules adopted in the Report and Order in this proceeding be extended until July 1, 1973.

Adopted: January 18, 1973.

Released: January 19, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-1639 Filed 1-26-73;8:45 am]

[Docket No. 18930; FCC 73-63]

PART 73—RADIO BROADCAST SERVICES

Operator Requirements for AM and FM Broadcast Stations

Memorandum opinion and order. In the Matter of amendment of §§ 73.93, 73.265 and 73.565 of the Commission's rules concerning operator requirements for standard (AM) and FM broadcast stations, Docket No. 18930, RM-1576, RM-1627.

1. The Commission has before it a petition, filed July 7, 1972, by the National Association of Broadcasters (NAB), requesting reconsideration and amendment of certain of the rules adopted pursuant to the Report and Order in the above-entitled proceeding, which was released on June 7, 1972 (FCC 72-467) and published in the FEDERAL REGISTER on June 8, 1972 (volume 37, number 111, 37 F.R. 11538).

2. In particular, NAB takes exception to these rules in three respects: Each exception is separately set forth and discussed hereunder:

(1) Section 73.93(f)(5) establishes the technical requirements for the system employed to switch between directional, or between directional and nondirectional modes of operation when lesser grade operators perform this function. NAB objects to the requirement that: "The switching equipment shall be so arranged that the failure of any relay in the directional antenna system to activate properly will cause the emissions the station to terminate."

3. NAB argues that switching failure should not automatically result in a cessation of station operation, but, rather, that the consequences of the failure must be weighed against the licensee's obligation to continue to provide service to the public. It notes that previously, where station operation was only under the continuous surveillance of first class radiotelephone operators, the operator on duty would take immediate steps to correct the switching failure, and would shut the station down only in an instance in which on-air corrections could not be made feasibly, and the effects of continued operation with the radiation pattern not properly established were considered so serious as to require the station to cease operation forthwith. NAB cites the following example:

A situation may readily be envisioned in which a single market [station] exists which utilizes a very elementary directional antenna system. The failure of a relay in the directional antenna switching system and the resulting termination of transmissions in such situations must be considered in the light of the public service to that community. We suggest that there are many situations, circumstances and conditions which dictate the continuation of service even though there may be a technical malfunction in the transmission system. It is the NAB position that the licensee should make the judgment in determining the severity and impact of the failure and take whatever steps are deemed necessary.

4. NAB's arguments appear to be predicated on the assumption that, at the time of a switching failure, personnel will be presented at the station competent to decide upon and to take immediate action appropriate in the particular circumstances. This also was our intention, when, in the Notice of Proposed Rule Making in this matter, we proposed that while lesser grade operators might be permitted to perform routine duty assignments at stations with directional antennas, to require a first class radiotelephone operator to be on duty at the time when each station begins directional operation or changes directional patterns. This proposal was opposed generally as being impractical and burden-

[1] Docket 19281, Order adopted December 6, 1972 (37 FR 26601, Dec. 14, 1972).

[2] Docket 19281, Notice of Proposed Rule Making, adopted July 14, 1971 (36 FR 13793). Second Notice of Proposed Rule Making, adopted September 8, 1971 (36 FR 18656).

[3] Commissioner H. Rex Lee absent.

V38-18-I JAN 29 73 XUM

some, and it was abandoned. However, faced with an alternative in which operators without technical knowledge or training would be entrusted with the antenna switching function, we adopted § 73.93(f)(5), to establish the conditions and safeguards which we considered necessary under such circumstances.[1]

5. Because of the serious consequences which may result from improper switching of directional systems,[1] we believe that when such malfunctioning occurs and no one is present who is qualified to correct the condition, or to evaluate the seriousness of the malfunction, there is little alternative but to terminate operation. It is appropriate to note that, in such circumstances, even if facilities for automatic termination of operation were not required and provided, the lesser grade operator would be obligated to manually shut down the station, pursuant to the requirements of § 73.93(g) of the rules, which reads, in part:

> • • • The emissions of the station shall be terminated immediately whenever the transmitting system is observed operating beyond the posted parameters, or in any other manner inconsistent with the rules, and the above adjustments are ineffective in correcting the condition of improper operation, and a first class radiotelephone operator is not present.[2]

The incorporation of automatic circuitry in the system to achieve this result, however, relieves the lesser grade operator of a responsibility he may be loath to exercise.

6. In view of the above, we believe all of the requirements of § 73.93(f)(5) are necessary when antenna pattern switching is not supervised by a first class radiotelephone operator. Accordingly, we are unwilling to change these requirements.

(2) NAB believes that the partial proof of performance of the directional antenna, which a station employing lesser grade operators is required to make at yearly intervals (§ 73.93(e)(4)) is unnecessarily complicated and extensive from a technical standpoint, and the requirement imposes a hardship on some stations. It notes that when stations with directional antennas operate by remote control a yearly skeleton proof has been considered sufficient to verify the proper operation of the directional antenna, and it sees no reason why a more stringent requirement should be imposed when lesser grade duty operators are utilized. It suggests that Note 2 to § 73.93(e)(4) be amended to specify the same number of measurements on each radial as is required for the skeleton proof for remotely controlled stations.

7. Both the partial proof and the skeleton proof, which NAB would specify in its stead, require that field strength measurements be made at locations which were utilized for such measurements in the previous complete proof of performance. However, the partial proof not only includes measurements at many more of these points than does the skeleton proof ("at least 10" on each radial, as contrasted with "at least three") but also requires a graphical analysis of the measurements, pursuant to procedures prescribed in § 73.186 of the rules. An analysis of this nature determines the inverse field from the directional antenna in the direction of each radial, and permits verification that the radiation from the antenna in each direction approximates that established by the original proof. No such analysis is required in a skeleton proof, and, indeed, no meaningful analysis could be made with the limited measurement data which a skeleton proof makes available. Thus, while the partial proof can be expected to reveal any substantial distortion of the originally established radiation pattern, the skeleton proof serves little purpose other than to establish that the monitoring points specified in the station's authorization have not been degraded by changes in their immediate environment (certainly an important function, but one which does not permit a definitive evaluation of radiation pattern characteristics).

8. There are many cases in which there has been no occasion for the station licensee to reestablish the performance of his directional antenna subsequent to the original authorization. In some instances, many years have elapsed since this has been done. On the other hand, there are a number of factors which may adversely affect antenna performance, including the deterioration of antenna components with time, and the erection or modification of nearby structures which alter the environment in which the antenna operates.

9. We believe that if an operator with little technical training is to be entrusted with the day-to-day surveillance of a directional station, it should be only under circumstances where any deficiencies or anomalies in its operation have been brought under control. Thus, we adhere to the view that when a licensee engages to use such operators, a partial proof is necessary, and should subsequently be repeated periodically.

10. However, we recognize that the procurement of the many measurements required in such a proof may be arduous and time consuming, and the analysis of these measurements is a specialized procedure for which the licensee may need to engage the services of a consulting engineer—a substantial expense. Thus, we should not require the execution of a partial proof any more often than we consider vitally necessary to insure the continued satisfactory performance of the directional antenna.

11. In the light of these considerations, we are amending present § 73.93(e)(4)[3] so as to require that a partial proof be made every 3 years, the first of these proofs to be completed within 1 year of the date the engineer in charge is notified of the appointment of a chief operator (see § 73.93(h)), with skeleton proofs to be performed in each of the intervening years. We have added a new Note 3 at the end of § 73.93, defining the skeleton proof. We have also somewhat revised the wording of Note 2, describing a partial proof, in the interest of specificity.

(3) NAB seeks amendment of § 73.92(h)(3) (the standard broadcast rule) and § 73.265(d)(4) (the FM broadcast rule), which require the separate designation of an acting chief operator each time the designated chief operator is temporarily absent. § 73.565(d)(4) is the corresponding provision of the noncommercial educational FM broadcast rules, and, while not cited by NAB, presumably would be subject to the changes which NAB suggests.) NAB notes that while many licensees may wish to follow the course of action prescribed by this rule, others, who have more than one first class operator in regular employment, would prefer, if the rules so permitted, to designate, on a permanent basis, an assistant chief operator, who would automatically become acting chief operator during absences of the chief operator. NAB points out that the designation of an acting chief operator would obviate the necessity for notifying the Commission concerning each absence of the chief operator, and reduce the burdens imposed by the present rule, both on the Commission and the licensee.

12. We agree that this option should be made available to broadcast station licensees, and are adopting appropriate amendments to the rules for this purpose. The basic changes to accomplish this, however, have been made in §§ 73.93(h), 73.265(d)(1), and 73.565(d)(1), the rules governing the designation of the chief operator, rather than in the rules specifically cited by NAB.

13. In the above paragraphs we have disposed of the specific requests made by NAB for reconsideration of certain of the rules adopted as a result of the proceeding in Docket 18930. Insofar as NAB further requests expedited action in Dockets 18471 and 18455, which, it points out, concern matters which are interrelated, to some extent, with the subject matter of Docket 18930, this request is moot. Appropriate orders were adopted in Dockets 18471 and 18455 on January 10, 1973.

14. In the light of action taken in these proceedings, we find that certain amendments to § 73.93 should be made. Furthermore, our initial experience with the application of the amended radio operator rules, and informal comments and questions we have received, indicate that other minor amendments are desirable. We will, therefore, on our own motion, take this opportunity to deal with these matters. The nature of the changes we are making is not such as to require prior notice and comment prior to their adoption. These rule changes are discussed in the following paragraphs.

15. *Sections 73.93(b), 73.265(b), 73.565(b).* These rules, for the standard, FM, and noncommercial educational FM broadcast services, respectively, are similar in purpose, and are intended to preclude lesser grade operators from attempting technical procedures beyond their competence. Accordingly, each of the cited rules requires specified technical duties to be performed by a first class radiotelephone operator. An unintended result of the rules, as drafted, would be to preclude professional consulting engineers who do not hold operator licenses of the requisite grade from performing those engineering services for broadcast stations for which they customarily have been retained by station licensees. Accordingly, we are amending §§ 73.93(b) and 73.265(b) by the addition of the following:

> • • • or, during periods of operation when a first class radiotelephone operator is in charge of the transmitter, by or under the direction of a broadcast consultant regularly engaged in the practice of broadcast station engineering.

An amendment having the same effect is also made to § 73.565(b).

16. *Sections 73.93(c), 73.265(c), 73.565(c).* These similar rules are intended to specify the basic operator requirements for stations without directional antennas (standard broadcast only) and within specified power ceilings, which, even under previous rules, have been permitted to employ lesser grade duty operators. However, while the first class operator requirements are spelled out in the rules (second class operators are specified for certain categories of noncommercial educational FM stations), we inadvertently neglected to specify any requirement for lesser grade duty operators. Amendments to the above listed rules for the purpose of correcting this omission are adopted herein.

17. *Section 73.93(e)(3).* This rule, which requires a first class radiotelephone operator to observe the base currents and certain other parameters of a directional antenna system 5 days each week, and to enter the results of these observations in the maintenance log, is being deleted in toto. Its presence in the operator rules perhaps has generated more misunderstandings and inquiries than any other provision of these rules, because it presents inconsistencies, both apparent and real, with the logging requirements of §§ 73.113 and 73.114, and with conditions contained in the instruments of authorization of individual stations. This problem was before us when we amended the rules pursuant to decisions reached in the report and order in Docket 18455. While that proceeding primarily is concerned with the inspection and logging requirements for stations with directional antennas operated by remote control, the rules as adopted therein involved extensive revision of §§ 73.113 *Operating Log* and 73.114 *Maintenance Log*. When this revision was undertaken, the need to resolve the above-mentioned problem was kept in mind. In consequence, the substance of § 73.93(e)(3) has been incorporated in § 73.114 and made applicable to all stations with directional antennas which are not operated by remote control. Specifically, the once a day, 5 days a week schedule for the observations and log entries specified in § 73.93(e)(3) is established for all such stations, regardless of any provision in a station's instrument of authorization requiring more frequent action. Since this is the case, it is appropriate to delete the substance of § 73.93(e)(3) from the operator rules at this time.

18. The rule amendments adopted in Docket 18471 specify a schedule pursuant to which the various categories of stations with directional antennas will be required to install type approved antenna monitors. Note 1 in § 73.93 has been amended to specify an effective date for the implementation of (e)(2) consistent with that schedule.

19. We are continuing actively to pursue our examination of the regulations governing radio and television broadcasting, a project initiated pursuant to our public notice of April 6, 1972. As we study this matter further, and as more experience is gained in the application of the radio operator rules, as now amended, some additional modification and mitigation of those requirements of the rules intended to insure satisfactory station functioning with lesser grade operators may appear feasible. Under such circumstances, we will, on our own motion, take appropriate action.

20. The petition for reconsideration by the National Association of Broadcasters is granted to the extent discussed above, and as reflected in rule amendments which we now adopt. In all other respects it is denied.

21. In view of the foregoing, and pursuant to authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, *It is ordered*, That, effective April 27, 1973, §§ 73.93, 73.265, and 73.565 of the Commission's Rules and Regulations are amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: January 17, 1973.

Released: January 24, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

1. In § 73.93, paragraphs (b), (c), and (h), and the notes at the end of this section are amended to read as set forth below. Present paragraph (e)(3) is deleted, and subparagraph (4) is amended and redesignated as (3), and subparagraph (5) is redesignated as (4).

§ 73.93 Operator requirements.

• • • • • •

(b) With the exceptions set forth in paragraph (f) of this section, adjustments of the transmitting system, an inspection, maintenance, required equipment performance measurements, and required field strength measurements shall be performed only by a first-class radiotelephone operator, or, during periods of operation when a first-class radiotelephone operator is in charge of the transmitter, by or under the direction of a broadcast consultant regularly engaged in the practice of broadcast station engineering.

(c) A station using a non-directional antenna with nominal power of 10 kilowatts or less may employ first-class operators, second-class operators, or operators with third-class permits endorsed for broadcast station operation for routine operation of the transmitting system if the station has at least one first-class radiotelephone operator readily available at all times. This operator may be in full-time employment, or, as an alternative, the licensee may contract in writing for the services, on a part-time basis, of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of this Commission.

• • • • • •

(e) • • •

(3) Within 1 year of the date on which the Commission is notified, pursuant to § 73.93(h), of the designation of a chief operator, the station shall complete a partial proof of performance, as defined in Note 2 at the end of this section, and shall complete subsequent partial proofs of performance at 3-year intervals thereafter. A skeleton proof of performance, as defined in Note 3 at the end of this section, shall be completed during each year that a partial proof of performance is not required. Not less than 10, nor more than 14 months shall elapse between the completion dates of successive proofs of performance. The results of such proofs shall be prepared and filed as specified in paragraph (b) of § 73.47.

• • • • • •

(h) When lesser grade operators are used, in accordance with paragraph (d) or (e) of this section, for any period of operation with nominal power in excess of 10 kilowatts, or with a directional radiation pattern, the station licensee shall designate one first-class radiotelephone operator in full-time employment as the chief operator who, together with the licensee, shall be responsible for the technical operation of the station. The licensee also may designate another first-class radiotelephone operator as assistant chief operator, who shall assume all responsibilities of the chief operator during periods of his absence. The station licensee shall notify the engineer in charge of the radio district in which the station is located of the name(s) and license number(s) of the operator(s) so designated. Such notification shall be made within 3 days of the date of such designation. A copy of the notification shall be posted with the license(s) of the designated operator(s).

• • • • • •

(3) At such time as the regularly designated chief operator is unavailable or unable to act as chief operator (e.g., vacations, sickness), and an assistant chief operator has not been designated, or, if designated, for any reason is unable to assume the duties of the chief operator,

[1] Not only can a switching failure result in the production of serious interference to other stations, but the functioning of the transmitter may be severely disrupted.

[2] This rule has been carried forward, with some minor revision, from rules which for many years have governed the performance by lesser grade operators of duty assignments at aural broadcast stations.

[3] This appears as § 73.93(e)(3) in the amended rules.

V38-18 JAN 29 73 XUM

the licensee shall designate another first class radiotelephone operator as acting chief operator on a temporary basis. Within 3 days of the date such action is taken, the engineer in charge of the radio district in which the station is located shall be notified by the licensee by letter of the name and license number of the acting chief operator, and shall be notified by letter, again within 3 days of the date when the regularly designated chief operator returns to duty.

• • • • •

NOTE 1: The effectiveness of paragraph (e)(2) of this section is suspended until June 1, 1974.

NOTE 2: The partial proof of performance shall consist of at least 10 field strength measurements on each of the radials established in the latest complete adjustment of the directional antenna system. These measurements shall be made at locations, all within 2 to 10 miles from the antenna, which were utilized in such adjustments, and include on each radial, the point, if any, designated as a monitoring point in the station authorization. Measurements shall be analyzed in the manner prescribed in § 73.186 of the rules of this part.

NOTE 3: The skeleton proof of performance shall consist of field strength measurements, at least three on each of the radials established in the latest complete adjustment of the directional antenna system, made at measurement locations utilized in such adjustment, and include, on each radial, the point, if any, designated as a monitoring point in the station authorization.

2. In § 73.265, paragraphs (b), (c), and (d) (1) and (4) are amended to read as follows:

§ 73.265 Operator requirements.

• • • • •

(b) With the exceptions set forth in paragraph (e) of this section, adjustments of the transmitting system, and inspection, maintenance, and required equipment performance measurements shall be performed only by a first-class radiotelephone operator, or, during periods of operation when a first-class radiotelephone operator is in charge of the transmitter, by, or under the direction of a broadcast consultant who is regularly engaged in the practice of broadcast station engineering.

(c) A station with authorized transmitter output power of 25 kilowatts or less may employ first-class operators second-class operators, or operators with third-class permits endorsed for broadcast station operation for routine operation of the transmitting system if the station has at least one first-class radiotelephone operator readily available at all times. This operator may be in full-time employment, or, as an alternative, the licensee may contract in writing for the services, on a part-time basis, of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission.

(d) • • •

(1) The station licensee shall designate one first-class radiotelephone operator in full-time employment as the chief operator who, together with the licensee, shall be responsible for the technical operation of the station. The licensee may also designate another first-class radiotelephone operator as assistant chief operator, who shall assume all responsibilities of the chief operator during periods of his absence. The station licensee shall notify the engineer in charge of the radio district in which the station is located of the name(s) and license number(s) of the operator(s) so designated. Such notification shall be made within 3 days of the date of such designation. A copy of the notification shall be posted with the license(s) of the designated operator(s).

• • • • •

(4) At such times as the regularly designated chief operator is unavailable or unable to act as chief operator (e.g., vacations, sickness), and an assistant chief operator has not been designated, or, if designated, for any reason is unable to assume the duties of chief operator, the licensee shall designate another first-class radiotelephone operator as acting chief operator on a temporary basis. Within 3 days of the date such action is taken, the engineer in charge of the radio district in which the station is located shall be notified by the licensee by letter of the name and license number of the acting chief operator, and shall be notified by letter, again within 3 days of the date when the regularly designated chief operator returns to duty.

• • • • •

3. In § 73.565, paragraphs (b), (c), and (d) (1) and (4) are amended to read as follows:

§ 73.565 Operator requirements.

• • • • •

(b) With the exceptions set forth in paragraph (e) of this section, adjustments of the transmitting system, and inspection, maintenance, and required equipment performance measurements shall be performed only by an operator holding the class of license specified below, or during periods of operation when the transmitter is in the charge of an operator of the specified class, by or under the direction of a broadcast consultant regularly engaged in the practice of broadcast station engineering.

• • • • •

(c) A noncommercial educational FM station with authorized transmitter output power not in excess of 25 kilowatts may employ first-class operators, second-class operators or operators with third-class permits endorsed for broadcast station operation, for the routine operation of the transmitting system, if the station has at least one operator of a class specified for the station's power category in paragraph (b) of this section, readily available at all times. This operator may be in full-time employment, or, as an alternative, the licensee may contract in writing for the services, on a part-time basis, of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission.

(1) The station licensee shall designate one first-class radiotelephone operator in full-time employment as the chief operator who, together with the licensee, shall be responsible for the technical operation of the station. The licensee may also designate another first-class radiotelephone operator as assistant chief operator, who shall assume all responsibilities of the chief operator during periods of his absence. The station licensee shall notify the engineer in charge of the radio district in which the station is located of the name(s) and license number(s) of the operator(s) so designated. Such notification shall be made within 3 days of the date of such designation. A copy of the notification shall be posted with the license(s) of the designated operator(s).

• • • • •

(4) At such times as the regularly designated chief operator is unavailable or unable to act as chief operator (e.g., vacations, sickness), and an assistant chief operator has not been designated, or, if designated, for any reason is unable to assume the duties of chief operator, the licensee shall designate another first-class radiotelephone operator as acting chief operator on a temporary basis. Within 3 days of the date such action is taken, the engineer in charge of the radio district in which the station is located shall be notified by the licensee by letter of the name and license number of the acting chief operator, and shall be notified by letter, again within 3 days of the date when the regularly designated chief operator returns to duty.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1-66]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Revocation of Certain Delegations

The purpose of this amendment is to revoke the delegations to the Federal Aviation Administrator to carry out the civil administration of Wake Island under the agreement between the Secretary of Interior and the Secretary of Transportation of August 26, 1967, and to the Federal Highway and Federal Railroad Administrators to carry out the Act of February 23, 1905, as amended (33 Stat. 743, 49 U.S.C. 1201 et seq.), relating to medals for heroism, so far as it pertains to motor vehicles and railroads, respectively.

Since this amendment relates to departmental management, procedures, and practices, notice and public procedure thereon are unnecessary and it may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of Title 49, Code of Federal Regulations, is amended, effective December 18, 1973, as follows:

1. Section 1.47 is amended by revoking the delegation in paragraph (c), as follows:

§ 1.47 Delegations to Federal Aviation Administrator.

• • • • •

(c) [Revoked]

• • • • •

2. Section 1.48 is amended by revoking the delegation in paragraph (c), as follows:

§ 1.48 Delegations to Federal Highway Administrator.

• • • • •

(c) [Revoked]

• • • • •

3. Section 1.49 is amended by revoking the delegation in paragraph (e), as follows:

§ 1.49 Delegations to Federal Railroad Administrator.

• • • • •

(e) [Revoked]

• • • • •

(Sec. 9(e), Department of Transportation Act, 49 U.S.C. 1657(e))

Issued in Washington, D.C., on December 18, 1972.

JOHN A. VOLPE,
Secretary of Transportation.

[FR Doc.73-1604 Filed 1-26-73;8:45 am]

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 72-30; Notice 2]

PART 555—TEMPORARY EXEMPTION FROM MOTOR VEHICLE SAFETY STANDARDS

This notice amends Title 49 of the Code of Federal Regulations by adding a new Part 555, "Temporary Exemption from Motor Vehicle Safety Standards," effective January 29, 1973. A notice of proposed rule making on this subject was published December 1, 1972 (37 FR 25533), and opportunity afforded for comment.

On October 25, 1972, Public Law 92-548 was enacted, amending section 123 of the National Traffic and Motor Vehicle Safety Act of 1966 to provide four bases upon which a manufacturer of motor vehicles might apply for a temporary exemption from one or more Federal motor vehicle safety standards. The legislative intent is clearly expressed as to the information required to substantiate an application on each basis. A discussion follows of each basis, the required information and the principal issues raised in response to the proposal.

1. *Substantial economic hardship.* A manufacturer whose total motor vehicle production in his most recent year of manufacture did not exceed 10,000 may petition for relief on grounds that compliance would cause him substantial economic hardship and that he has, in good faith, attempted to comply with the standards. Hardship exemptions are granted for periods not to exceed 3 years. Section 123 of the Act and the proposed regulations require an applicant to include in his petition a complete financial statement showing the basis of the economic hardship and a complete description of his good faith effort to comply with the standards. Although it was not required by the Act, the NHTSA also proposed to require a description of the steps a manufacturer proposes to take during the exemption period to achieve full compliance and the estimated date by which full compliance is to be achieved.

Submissions on the issue of economic hardship were received from Senator Warren Magnuson, Chairman of the Senate Committee on Commerce, the Public Interest Research Group, the Center for Auto Safety, Freightliner Corp., and Lotus Cars, Ltd. Senator Magnuson and the Research Group have suggested that the NHTSA should adopt application guidelines modeled after those of the Environmental Protection Agency for requests for suspension of the effective date of motor vehicle emission standards. The Research Group has drafted a model application form using the EPA guidelines as a departure point. Senator Magnuson also suggested that cost data concerning the affected component should be required, as well as a chronological analysis by the petitioner of its efforts to comply with the standard following issuance of the notice of proposed rule making. Finally, he urged that a company be required to submit an analysis of the effects on its economic stability of the absence of an exemption. The Center for Auto Safety believes that all financial data should be presented in dollar figures. Lotus Cars, Ltd., suggested that, if a manufacturer has no plans to achieve conformity because the production run of a model is nearing its end, the regulations should specifically permit him to so state. Freightliner Corp. commented that hardship should be considered in relation to the total economic picture "including the purchaser" and the particular job a vehicle is intended to perform. It expressed fear that the legislation was not enacted with multistage manufacturers in mind. Freightliner appears to be concerned about hardship situations that may occur to manufacturers whose total annual volume exceeds 10,000 units and who are called upon to provide costly custom equipment.

In formulating the regulations for hardship applications the NHTSA has adopted many of the suggestions of Senator Magnuson and the Public Interest Research Group. Engineering and financial data that must be submitted with the application will include a list or description of each component that would have to be modified in order to achieve compliance, together with an itemization of the estimated cost to the petitioner to modify each such component if required to do so on an emergency basis, or at the end of 1-, 2-, and 3-year periods. The manufacturer will also include what it estimates as the price increase per vehicle to balance the total costs incurred were it to achieve compliance, and a statement of the anticipated effect of the price increase. Corporate balance sheets for the 3 fiscal years immediately preceding the application must be submitted, as well as a projected balance sheet for the fiscal year following any denial of the petition. The financial data must be in dollar figures, as the Center for Auto Safety suggested. The manufacturer would also be allowed to discuss other hardship factors that a denial would cause, such as loss of market. In its description of compliance efforts a manufacturer will be required to submit a chronological analysis showing the relationship of those efforts to the rule making history of the standard, and to discuss alternate means of compliance that may have been considered, and the reasons for the rejection of each. As proposed, a manufacturer must also describe the steps to be taken while the exemption is in effect to achieve full compliance, and the estimated date by which full compliance will be achieved.

The NHTSA did not adopt the format and informational content of the EPA guidelines for several reasons. There is a basic difference in the Clean Air Act and the Traffic Safety Act. Under the former, the public health is paramount. All motor vehicles must meet certain emission standards by the 1975 model year. A 1-year suspension is possible, but only upon technological grounds, and not for economic hardship. Suspensions are granted on the basis of fulfilling four criteria: (1) That it is essential to the public interest and public health of the United States, (2) That all good faith efforts have been made to meet the established standards, (3) That effective emission control technology is not available, or has not been available for a sufficient time to achieve compliance prior to the effective date of such standard and (4) That the study and investigation of the National Academy of Sciences and other available information has not indicated that technology or other alternatives are available to meet the emission standards. By the 1976 model year all vehicles will comply and no further suspension is possible. The proof to support an emission standard suspension thus differs substantially from that required for hardship. On the other hand, under the Traffic Safety Act, motor vehicle safety must be balanced with other factors of the public interest including the desirability of affording a continuing and wide choice of vehicles to meet differing needs, and encouraging the continuation of relatively small manufacturers. In some instances, the safety exemption sought may be limited in time and scope, and

V 38 - 18 JAN 29 73 XUM

extensively detailed information such as EPA requires may be unnecessary to document the request.

With reference to the comments by Freightliner, the NHTSA does take into account the vehicle purchaser, in that it is concerned with the effect of a denial upon the availability of vehicles and their retail prices. Moreover, throughout its existence this agency has been aware of the problems of custom-truck manufacturers and has tried to accommodate them, consistent with considerations of motor vehicle safety.

2. *Other bases for exemption.* A manufacturer may apply for an exemption for a period not to exceed 2 years and covering up to 2,500 vehicles for any 12-month period that the exemption is in effect on any one of three additional bases: That it would assist in the development or field evaluation of new motor vehicle safety features, that it would assist in the development or field evaluation of a low-emission vehicle, or that, in the absence of an exemption, it would be unable to sell a motor vehicle whose overall level of safety is equivalent to or exceeds the overall level of safety of non-exempted motor vehicles. To substantiate the development of safety features, it was proposed that the applicant establish the innovational nature of the safety feature and that it would provide a level of safety at least equivalent to the level of safety established in the standard from which exemption is sought. To substantiate the development of a low-emission vehicle, it was proposed that the applicant establish the emission feature of his vehicle and that an exemption would aid in its development as well as evidence that a temporary exemption would not unreasonably degrade the safety of the vehicle. Finally, to substantiate that failure to provide an exemption would prevent the sale of an otherwise safe vehicle, it was proposed that an applicant submit evidence that the vehicle could not otherwise be sold, and provide an analysis of how the vehicle provides an overall level of safety equal to or exceeding the overall level of safety of non-exempted vehicles.

The Public Interest Research Group again suggested that the proposal be amplified to provide guidelines similar to those of EPA, and supplied formats for each of the three bases. The NHTSA concurs with the Research Group to the extent that it has expanded the proposal so that the regulation includes some of the information and data suggested, but it has not adopted the format in detail, for the reasons previously discussed.

A manufacturer who wishes to develop or evaluate new safety features must document the innovational nature of the features. He must also submit an analysis establishing that the safety level provided by the feature equals or exceeds the level of safety established in the standard from which exemption is sought, including a description of how complying and noncomplying vehicles differ, the results of tests that demonstrate performance which meets or exceeds the safety levels of the standard, and substantiation that a temporary exemption would facilitate the development or field evaluation of the vehicle. The manufacturer is also required to indicate his intent at the end of the exemption period to conform to the standard, or to petition for rulemaking to amend the standard so that the feature might be incorporated into it.

Somewhat similar information is required of a manufacturer who wishes to develop or evaluate a low emission vehicle, although in this instance the NHTSA is also interested in a manufacturer's test results showing how far the vehicle deviates from the standard, as part of the manufacturer's showing that the exemption would not unreasonably degrade the safety of the vehicle.

A manufacturer who petitions on the basis that the overall level of safety is equivalent to or exceeds the overall level of non-exempted vehicles must describe how exempted and non-exempted vehicles differ, describe safety features that the vehicle offers as standard equipment that are not required by the Federal standards, and submit both comparative test results showing how far the vehicle deviates from the standard, and the results of any tests showing that the vehicle exceeds the minimum requirements of any Federal standard. The manufacturer must also state whether he intends to comply at the end of the exemption period. Petitions for renewal of an exemption under each of these three bases are required to state the number of exempted vehicles sold in the United States under the prior exemption.

3. *Miscellaneous comments.* The Public Interest Research Group and the Center for Auto Safety requested that § 555.7, Processing of petitions, be rewritten to include a provision for informal public hearings to be held at the discretion of the Administrator. Such a provision, in the opinion of the Research Group, "might well preclude protracted litigation by fully addressing issues in an informal public hearing." The requested provision has not been included in the final rule as it is considered unnecessary. Such a power is inherent in the Administrator's general powers and may be invoked in any appropriate occasions. It is not specifically required by the legislation, which deems notice and an opportunity to comment in writing a sufficient forum and means of assuring informed administrative action and of protecting the public interest.

The Center for Auto Safety requested that § 555.8, Termination of temporary exemptions, include a provision that the Administrator will entertain petitions for termination from interested persons. Although such a provision is not necessary since the agency would consider any information brought to its attention that is relevant to its regulatory functions, a section to this effect has been added for public information. It provides that petitions for termination of an exemption will be handled in accordance with the procedures of §§ 553.31 and 553.33 on petitions for rule making. The center also asked whether the civil penalty provisions of section 109 could apply in the event it was determined that an exemption had been granted on the basis of fraudulent information. The NHTSA believes that civil penalties could apply in this instance, through the application of sections 108, 109, and 112. In addition, the general fraud provisions of 18 U.S.C. 1001 provide both criminal and civil penalties for submission of false information.

Senator Magnuson, Lotus, and the Research Group commented that the temporary exemption labels (§ 555.9) should include the title of the standard as a matter of clearer public disclosure. The comments have merit and the labels, both windshield and certification, must state the title of any exempted standard. The Research Group has further commented that the NHTSA has ignored the provision of section 123(b) that written notification of the exemption be delivered to the dealer and first purchaser. The agency does not agree with the Research Group and believes that the windshield label constitutes written notification, fulfilling this discretionary requirement.

Finally, comments were addressed to the adequacy of § 555.10, Availability for public inspection. The NHTSA has adopted the Center for Auto Safety's comment that subsection (a) should be revised to provide availability of memoranda of all meetings held pursuant to § 555.7(a). However, the NHTSA has not agreed with the center's suggestion that the agency commit itself to make such memoranda available within a specified time limit "such as 5 working days". The agency will use its best efforts to place memoranda of this nature in the dockets as soon as practicable. The Center, Senator Magnuson, and the Research Group pointed out that section 123(b) of the Act authorizes the Secretary to withhold only information "not relevant to the application for exemption". This agency concurs and minor rewording of § 555.10(b) clarifies this. Senator Magnuson encourages the agency "as a general policy, to release information contained in applications for exemptions on the basis that all such information is revelant to the application or it would not have been included by the manufacturer". The NHTSA agrees with this general policy. It will carefully scrutinize requests for confidential treatment of information and liberally interpret the relevancy of that information to the petition.

In consideration of the foregoing, Title 49 Code of Federal Regulations is amended by adding Part 555, Temporary Exemption from Federal Motor Vehicle Safety Standards, as set forth below.

Effective date: January 29, 1973.

Issued on January 22, 1973.

DOUGLAS W. TOMS,
Administrator.

Sec.
555.1 Scope.
555.2 Purpose.
555.3 Application.

Sec.
555.4 Definitions.
555.5 Petition for exemption.
555.6 Basis for petition.
555.7 Processing of petitions.
555.8 Termination of temporary exemptions.
555.9 Temporary exemption labels.
555.10 Availability for public inspection.

AUTHORITY: Sec. 3, Public Law 92-548, 86 Stat. 1159; sec. 119, Public Law 89-563 (15 U.S.C. 1410, 1407), 80 Stat. 718, delegation of authority at 49 CFR 1.51.

§ 555.1 Scope.

This part establishes requirements for the temporary exemption, by the National Highway Traffic Safety Administration (NHTSA), of certain motor vehicles from compliance with one or more Federal motor vehicle safety standards in accordance with section 123 of the National Traffic and Motor Vehicle Safety Act of 1966, 15 U.S.C. 1410.

§ 555.2 Purpose.

The purpose of this part is to provide a means by which manufacturers of motor vehicles may obtain temporary exemptions from Federal motor vehicle safety standards on the basis of substantial economic hardship, facilitation of the development of new motor vehicle safety or low-emission engine features, or existence of an equivalent overall level of motor vehicle safety.

§ 555.3 Application.

This part applies to manufacturers of motor vehicles.

§ 555.4 Definitions.

"Administrator" means the National Highway Traffic Safety Administrator or his delegate.

"United States" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Canal Zone, and American Samoa.

§ 555.5 Petition for exemption.

(a) A manufacturer of motor vehicles may petition the NHTSA for a temporary exemption from any Federal motor vehicle safety standard or for a renewal of any exemption on the bases of substantial economic hardship, facilitation of the development of new motor vehicle safety or low-emission engine features, or the existence of an equivalent overall level of motor vehicle safety.

(b) Each petition filed under this part for an exemption or its renewal must—

(1) Be written in the English language;

(2) Be submitted in three copies to: Administrator, National Highway Traffic Safety Administration, Washington, D.C. 20590;

(3) State the full name and address of the applicant, the nature of its organization (individual, partnership, corporation, etc.) and the name of the State or country under the laws of which it is organized;

(4) State the number and title, and the text or substance of the standard or portion thereof from which the temporary exemption is sought, and the length of time desired for such exemption;

(5) Set forth the basis for the petition and the information required by § 555.6 (a), (b), (c), or (d) as appropriate; and

(6) Specify any part of the information and data submitted which petitioner requests be withheld from public disclosure and the reason for the request;

(c) The knowing and willful submission of false, fictitious or fraudulent information will subject the petitioner to the civil and criminal penalties of 18 U.S.C. 1001.

§ 555.6 Basis for petition.

(a) If the basis of the petition is substantial economic hardship the petitioner shall provide the following information.

(1) Engineering and financial information demonstrating in detail how compliance or failure to obtain an exemption would cause substantial economic hardship, including—

(i) A list or description of each item of motor vehicle equipment that would have to be modified in order to achieve compliance;

(ii) The itemized estimated cost to modify each such item of motor vehicle equipment if compliance were to be achieved—

(*a*) As soon as possible,

(*b*) At the end of a 1-year exemption period (if the petition is for 1 year or more),

(c) At the end of a 2-year exemption period (if the petition is for 2 years or more),

(*d*) At the end of a 3-year exemption period (if the petition is for 3 years),

(iii) The estimated price increase per vehicle to balance the total costs incurred pursuant to paragraph (a)(1)(ii) of this section and a statement of the anticipated effect of each such price increase;

(iv) Corporate balance sheets for the 3 fiscal years immediately preceding the filing of the application;

(v) Projected balance sheet for the fiscal year following a denial of the petition; and

(vi) A discussion of any other hardships (e.g. loss of market) that the petitioner desires the agency to consider.

(2) A description of its efforts to comply with the standards, including—

(i) A chronological analysis of such efforts showing its relationship to the rule making history of the standard from which exemption is sought;

(ii) A discussion of alternate means of compliance considered and the reasons for rejection of each;

(iii) A description of the steps to be taken, while the exemption is in effect, and the estimated date by which full compliance will be achieved either by design changes or termination of production of nonconforming vehicles; and

(iv) The total number of motor vehicles produced by or on behalf of the petitioner in the 12-month period prior to filing the petition, and the inclusive dates of the period. (Section 123 of the Act limits eligibility for exemption on the basis of economic hardship to manufacturers whose total motor vehicle production does not exceed 10,000.)

(b) If the basis of the petition is the development or field evaluation of new motor vehicle safety features, the petitioner shall provide the following information:

(1) A description of the safety features, and research, development, and testing documentation establishing the innovational nature of such features.

(2) An analysis establishing that the level of safety of the features is equivalent to or exceeds the level of safety established in the standard from which exemption is sought, including—

(i) A detailed description of how a motor vehicle equipped with the safety features differs from one that complies with the standard;

(ii) If applicant is presently manufacturing a vehicle conforming to the standard, the results of tests conducted to substantiate certification to the standard; and

(iii) The results of tests conducted on the safety features that demonstrate performance which meets or exceeds the requirements of the standard.

(3) Substantiation that a temporary exemption would facilitate the development or field evaluation of the vehicle.

(4) A statement whether, at the end of the exemption period, the manufacturer intends to conform to the standard, apply for a further exemption, or petition for rulemaking to amend the standard to incorporate the safety features.

(5) A statement that not more than 2,500 exempted vehicles will be sold in the United States in any 12-month period for which an exemption may be granted pursuant to this paragraph. A petition for renewal of such an exemption shall also include the total number of exempted vehicles sold in the United States under the existing exemption.

(c) If the basis of the petition is the development or field evaluation of a low-emission motor vehicle, the petitioner shall provide—

(1) Substantiation that the motor vehicle is a low-emission vehicle as defined by section 123(g) of the Act.

(2) Research, development, and testing documentation establishing that a temporary exemption would not unreasonably degrade the safety of the vehicle, including—

(i) A detailed description of how the motor vehicle equipped with the low-emission engine would, if exempted, differ from one that complies with the standard;

(ii) If applicant is presently manufacturing a vehicle conforming to the standard, the results of tests conducted to substantiate certification to the standard;

(iii) The results of any tests conducted on the vehicle that demonstrate its failure to meet the standard, expressed as comparative performance levels; and

(iv) Reasons why the failure to meet the standard does not unreasonably degrade the safety of the vehicle.

V 38-18 JAN 29 73 XUM

(3) Substantiation that a temporary exemption would facilitate the development or field evaluation of the vehicle.

(4) A statement whether, at the end of the exemption period, the manufacturer intends to conform with the standard.

(5) A statement that not more than 2,500 exempted vehicles will be sold in the United States in any 12-month period for which an exemption may be granted pursuant to this paragraph. A petition for renewal of an exemption shall also include the total number of exempted vehicles sold in the United States under the existing exemption.

(d) If the basis of the petition is that the petitioner is otherwise unable to sell a motor vehicle whose overall level of safety is equivalent to or exceeds the overall level of safety of nonexempted motor vehicles, the petitioner shall provide—

(1) A detailed analysis of how the vehicle provides an overall level of safety equivalent to or exceeding the overall safety of nonexempted vehicles, including—

(i) A detailed description of how the motor vehicle, if exempted, differs from one that conforms to the standard;

(ii) A detailed description of any safety features that the motor vehicle offers as standard equipment that are not required by the Federal motor vehicle safety standards;

(iii) The results of any tests conducted on the vehicle demonstrating that it fails to meet the standard, expressed as comparative performance levels;

(iv) The results of any tests conducted on the vehicle demonstrating that its overall level of safety exceeds that which is achieved by conformity to the standards.

(v) Other arguments that the overall level of safety of the vehicle equals or exceeds the level of safety of nonexempted vehicles.

(2) Substantiation that compliance would prevent the sale of the vehicle.

(3) A statement whether, at the end of the exemption period, the manufacturer intends to comply with the standard.

(4) A statement that not more than 2,500 exempted vehicles will be sold in the United States in any 12-month period for which an exemption may be granted pursuant to this paragraph. A petition for renewal of any exemption shall also include the total number of exempted vehicles sold in the United States under the existing exemption.

§ 555.7 Processing of petitions.

(a) The NHTSA publishes a notice of each petition in the FEDERAL REGISTER and affords an opportunity to comment.

(b) No public hearing, argument, or other formal proceeding is held directly on a petition filed under this part before its disposition under this section.

(c) Any interested person may, upon written request, appear informally before an appropriate official of the NHTSA to discuss a petition for exemption or the action taken in response to a petition.

(d) If the Administrator determines that the petition does not contain adequate justification, he denies it and notifies the petitioner in writing.

(e) If the Administrator determines that the petition contains adequate justification, he grants it, and notifies the petitioner in writing. He also publishes in the FEDERAL REGISTER a notice of the grant and the reasons for it.

§ 555.8 Termination of temporary exemptions.

(a) A temporary exemption from a standard granted on the basis of substantial economic hardship terminates according to its terms but not later than 3 years after the date of issuance unless terminated sooner pursuant to paragraph (c) of this section.

(b) A temporary exemption from a standard granted on a basis other than substantial economic hardship terminates according to its terms but not later than 2 years after the date of issuance unless terminated sooner pursuant to paragraph (c) of this section.

(c) Any interested person may petition for the termination of an exemption granted under this part. The petition should be submitted, and will be processed, in accordance with the procedures of §§ 553.31 and 553.33 of this chapter.

(d) The Administrator terminates a temporary exemption if he determines that—

(1) The temporary exemption is no longer consistent with the public interest and the objectives of the Act; or

(2) The temporary exemption was granted on the basis of false, fraudulent, or misleading representations or information.

§ 555.9 Temporary exemption labels.

A manufacturer of an exempted vehicle shall—

(a) Submit to the Administrator, within 30 days after receiving notification of the grant of an exemption, a sample of the certification label required by part 567 of this chapter and paragraph (c) of this section;

(b) Affix securely to the windshield or side window of each exempted vehicle a label in the English language containing the statement required by paragraph (c)(1) or (c)(2) of this section, and with the words "Shown above" omitted.

(c) Meet all applicable requirements of part 567 of this chapter, except that—

(1) Instead of the statement required by § 567.4(g)(5) of this chapter, the following statement shall appear:

This vehicle conforms to all applicable Federal motor vehicle safety standards in effect on the date of manufacture shown above except for standard Nos. (listing the standards by number and title for which an exemption has been granted). Exempted pursuant to NHTSA Exemption No. -------

(2) Instead of the statement required by § 567.5(a)(7) of this chapter, the following statement shall appear:

This vehicle conforms to all applicable Federal motor vehicle safety standards in effect in (month, year) except for standard Nos. (listing the standards by number and title for which an exemption has been granted). Exempted pursuant to NHTSA Exemption No. -------

§ 555.10 Availability for public inspection.

(a) Information relevant to a petition under this part, including the petition and supporting data, memoranda of informal meetings with the petitioner or any other interested person, and the grant or denial of the petition, is available for public inspection, except as specified in paragraph (b) of this section, in the Docket Section, Room 5221, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590. Copies of available information may be obtained, as provided in part 7 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 7).

(b) Information made available for inspection shall not include materials not relevant to the petition that are to be withheld from the public in accordance with sections 112 and 113 of the Act (15 U.S.C. 1401, 1402) and section 552(b) of title 5 of the United States Code.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 351—REDUCTION IN FORCE

Responsibility of Agency and Authority of Commission

Part 351 is amended by adding two new sections to Subpart B: one, to state the responsibility of the agencies to follow and apply the regulations in reduction in force; the other, to state the Commission's authority to examine any agency's preparations for reduction in force and to require appropriate corrective action.

Effective January 29, 1973, §§ 351.204 and 351.205 are added as set out below.

§ 351.204 Responsibility of agency.

Each agency covered by this part is responsible for following and applying the regulations in this part when the agency determines that a reduction in force is necessary.

§ 351.205 Authority of Commission.

The Civil Service Commission may examine an agency's preparations for reduction in force at any stage. When the Commission finds that an agency's preparations are contrary to the spirit and intent of these regulations or that they would result in violation of employee rights or equities, the Commission shall require appropriate corrective action.

(5 U.S.C. secs. 1302, 3502)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICES OF THE DEPARTMENT

Office of Communication

Departmental Delegations of Authority are revised to include the Office of Communication and amended to include the Director of Communication as a General Officer of the Department. Specific changes are described below:

1. Section 2.4, Subpart A, Part 2, Subtitle A of Title 7 of the Code of Federal Regulations is amended to include the Director of Communication as a General Officer of the Department as follows:

§ 2.4 General officers.

The work of the Department is under the supervision and control of the Secretary, who is assisted by the following General Officers: The Under Secretary, the Assistant Secretary for Marketing and Consumer Services, the Assistant Secretary for Rural Development and Conservation, the Assistant Secretary for International Affairs and Commodity Programs, the Assistant Secretary for Administration, the Director of Agricultural Economics, the Director of Science and Education, the General Counsel, the Inspector General, the Judicial Officer, and the Director of Communication.

2. Subpart D, Part 2, Subtitle A of Title 7 of the Code of Federal Regulations is revised to add a new § 2.32 as follows:

§ 2.32 Delegations of Authority to the Director of Communication.

The following delegations of authority are made by the Secretary of Agriculture to the Director of Communication:

(a) Advise the Secretary and his General Officers in the planning, development, and execution of Department policies and programs.

(b) Direct and coordinate the overall formulation and development of policies, programs, plans, procedures, standards, and organization structures and staffing patterns for the information activities of the Department and its agencies, both in Washington and in the field.

(c) Exercise final review and approval of all public information material prepared by the Department and its agencies and select the most effective method and audience for distributing this information.

(d) Determine policy for all Departmental communication activities and provide leadership and centralized operational direction for Department and agency information activities so that all material shall effectively support Departmental policies and programs.

(e) Represent the Department with the Joint Committee on Printing of the Congress, the Government Printing Office, and other Federal and State agencies on information matters.

(f) Cooperate with and secure the cooperation of commercial, industrial and other nongovernmental agencies and concerns regarding information work as required in the execution of the Department's programs.

(g) Plan and direct communication research and training for the Department and its agencies.

(h) Advise General Officers and Agency Heads on application of information policies to comply with provisions of the "Freedom of Information Act" (5 U.S.C. 552), and provide consultation to General Officers when there is a recommendation within the Department or its agencies to deny written requests for information under the Freedom of Information Act.

(i) Supervise and provide leadership and final clearance for the planning, production, and distribution of visual information material for the Department of Agriculture, and its agencies in Washington, D.C., and the field, and provide such information services as the Director of Communication may deem necessary.

(j) Organize and direct the activities of a public affairs office to include the personal press relations of the Secretary of Agriculture and other executive functions and services for the General Officers of the Department of Agriculture.

Effective date. This revision shall become effective on January 29, 1973.

Done at the city of Washington in the District of Columbia, this January 22, 1973.

EARL L. BUTZ,
Secretary of Agriculture.

[FR Doc.73-1650 Filed 1-26-73;8:45 am]

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 5]

PART 722—COTTON

Subpart—Base Acreage Allotments for 1971, 1972, and 1973 Crops of Upland Cotton

CLOSING DATES FOR TRANSFER, RELEASE, AND REAPPORTIONMENT

The purpose of this amendment is to exclude from this subpart the closing dates for release, requests for reapportionment, final date for reapportionment, and the closing dates for filing a record of transfer of cotton base acreage allotments. Such closing dates have been established in a new Part 731 of this chapter published in the FEDERAL REGISTER on December 21, 1972 (37 FR 28124). This amendment is issued pursuant to and in accordance with applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.).

Since the only purpose of this amendment is to delete provisions which are now set forth in Part 731 of this chapter, it is hereby found and determined that compliance with the notice, public procedure and 30-day effective date requirements of 5 U.S.C. 553 is unnecessary and contrary to the public interest. This amendment shall become effective January 29, 1973.

The subpart—Base Acreage Allotments for 1971, 1972, and 1973 Crops of Upland Cotton (36 FR 4853, 6733, 7509, 10772, 37 FR 3420, 24427) is amended as follows:

1. Section 722.408 is amended by revising paragraph (b)(7) to read as follows:

§ 722.408 Release and reapportionment of cotton base acreage allotment.

* * * * * *

(b) * * *

(7) *Closing dates.* The State committee shall establish applicable closing dates in accordance with Part 731 of this chapter.

2. Paragraph (b) of § 722.419 is revised to read as follows:

§ 722.419 Records of transfer.

* * * * * *

(b) *When records are to be filed.* Records of transfers may be filed during the period beginning on the date original notices of base acreage allotment are mailed to farm operators and ending on the date provided for in Part 731 of this chapter.

(Secs. 301, 344a, 350, 375, 52 Stat. 38, as amended, 79 Stat. 1197, as amended, 79 Stat. 1193, as amended, 52 Stat. 66, as amended; 7 U.S.C. 1301, 1344b, 1350, 1375)

Effective date: January 29, 1973.

Signed at Washington, D.C., on January 19, 1973.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.73-1610 Filed 1-26-73;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 570]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period January 28–February 3, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.870 Lemon Regulation 570.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and

V38-18 JAN 29 73 XUM

Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues to be good, though it is easing on size 235's. Average f.o.b. price was $5.20 per carton the week ended January 20, 1973, compared to $5.04 per carton the previous week. Track and rolling supplies at 124 cars were down 30 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereon in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 23, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period January 28, 1973, through February 3, 1973, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 24, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-1832 Filed 1-26-73;1:45 pm]

Proposed Rule Making

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR 103, 211, 223a, 235, 242, 299]

IMMIGRATION REGULATIONS

Refugee Travel Documents

Pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed issuance of the following rules pertaining to the issuance of travel documents to refugees in implementation of Article 28, United Nations Convention of July 28, 1951, and Protocol Relating to the Status of Refugees Between the United States and Other Governments entered into force with respect to the United States on November 1, 1968. This notice supersedes the notice of proposed rule making which was published in the FEDERAL REGISTER on February 19, 1970 (35 FR 3172), and in which there were set forth proposed rules pertaining to the issuance of travel documents to refugees.

To incorporate into the regulations provisions authorizing the issuance of travel documents to refugees under the Protocol Relating to the Status of Refugees, a new Part 223a is added. Proposed Part 223a specifies the eligibility requirements to apply for and to be issued a refugee travel document; designates the procedure for applying for issuance or extension of a refugee travel document and provides for the right to appeal from a decision denying an application; specifies the period of validity of a refugee travel document, the conditions under which the document shall be invalid, and the conditions under which it shall be surrendered. Proposed Part 223a also provides that every alien returning to the United States who presents a valid unexpired refugee travel document shall be permitted to come physically within the territory of the United States, requires that upon arrival he shall be examined as to his admissibility, and provides that exclusion proceedings shall be instituted against him only on certain specified grounds of inadmissibility and under certain specified conditions.

Numerous corollary amendments, some nonsubstantive in nature, are made as the result of the addition of Part 223a. The most significant ones are the amendment to § 103.7(b)(1) which provides for a $10 fee for filing an application for issuance or extension of a refugee travel document, and the amendment to § 242.1 which provides that deportation proceedings shall be instituted against a refugee described therein only on certain grounds of deportability and under certain conditions specified therein.

In accordance with section 553 of Title 5 of the United States Code (80 Stat. 383), interested persons may submit to the Commissioner of Immigration and Naturalization, Room 757, 119 D Street NE., Washington, DC 20536, written data, views, or arguments, in duplicate, relative to the proposed rules. Such representations may not be presented orally in any manner. All relevant material received before March 1, 1973, will be considered.

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

1. In § 103.1, paragraph (e) is amended by adding a new subparagraph (12a) to read as follows:

§ 103.1 Delegations of authority.

• • • • • •

(e) *Regional commissioners.* • • •

(12a) Decisions on applications for refugee travel documents, as provided in § 223a.4;

• • • • • •

2. In § 103.7(b), subparagraph (1) is amended by adding the following fee after the existing 12th fee and when taken with the introductory material, it will read as follows:

§ 103.7 Fees.

• • • • • •

(b) *Amounts of fees.* (1) The following fees and charges are prescribed:

• • • • • •

For filing applications for issuance or extension of refugee travel document ---------- $10.00

• • • • • •

PART 211—DOCUMENTARY REQUIREMENTS: IMMIGRANTS; WAIVERS

§ 211.1 [Amended]

1. Subparagraph (2) Reentry permit of paragraph (b) Aliens returning to an unrelinquished lawful permanent residence of § 211.1 Visas is amended by adding at the end thereof the following sentence: "A refugee travel document issued pursuant to Part 223a of this chapter to a lawful permanent resident shall be regarded as a reentry permit."

2. Section 211.3 is amended by adding the words "refugee travel document" after the words "reentry permit" wherever they appear in the heading and in the first sentence thereof. As amended, § 211.3 reads, in pertinent part, as follows:

§ 211.3 Expiration of immigrant visas, reentry permits, refugee travel documents, and Forms I–151.

An immigrant visa, reentry permit, refugee travel document, or Form I–151 shall be regarded as unexpired if the rightful holder embarked or enplaned before the expiration of his immigrant visa, reentry permit or refugee travel document or, with respect to Form I–151, before the first anniversary of the date on which he departed from the United States, provided that the vessel or aircraft on which he so embarked or enplaned arrives in the United States or foreign contiguous territory on a continuous voyage. • • •

PART 223a—REFUGEE TRAVEL DOCUMENT

Part 223a is added to read as follows:

Sec.
223a.1 Definition of refugee.
223a.2 Definition of refugee travel document.
223a.3 Eligibility.
223a.4 Application.
223a.5 Validity of refugee travel document.
223a.6 Return to the United States.
223a.7 Extension.
223a.8 Surrender of document.

AUTHORITY: Secs. 103, 211, 212, 235, 242; 8 U.S.C. 1103, 1181, 1182, 1225, 1252, and Protocol Relating to the Status of Refugees (TIAS 6577).

§ 223a.1 Definition of refugee.

For the purposes of this part, the term "refugee" shall be as defined in Art. 1 of the United Nations Convention of July 28, 1951, relating to the status of refugees (as modified by Article 1 of the Protocol Relating to the Status of Refugees of January 31, 1967), which provides in pertinent part as follows:

ARTICLE 1

DEFINITION OF THE TERM "REFUGEE"

A. For the purposes of the present Convention, the term "refugee" shall apply to any person who:

(1) Has been considered a refugee under the Arrangements of 12 May 1926 and 30 June 1928 or under the Conventions of 28 October 1933 and 10 February 1938, the Protocol of 14 September 1939 or the Constitution of the International Refugee Organization;

Decisions of non-eligibility taken by the International Refugee Organization during the period of its activities shall not prevent the status of refugee being accorded to persons who fulfil the conditions of paragraph 2 of this section;

(2) Owing to well-founded fear of being persecuted for reasons of race, religion, nationality, membership of a particular social group or political opinion, is outside the country of his nationality and is unable or, owing to such fear, is unwilling to avail himself of the protection of that country; or who, not having a nationality and being outside the country of his former habitual residence, is unable or, owing to such fear, is unwilling to return to it.

In the case of a person who has more than one nationality, the term "the country of his nationality" shall mean each of the countries of which he is a national, and a person shall not be deemed to be lacking the protection of the country of his nationality if, without any valid reason based on

V38-18 JAN 29 73 XUM

well-founded fear, he has not availed himself of the protection of one of the countries of which he is a national.

• • • • •

C. This Convention shall cease to apply to any person falling under the terms of section A if:

(1) He has voluntarily re-availed himself of the protection of the country of his nationality; or

(2) Having lost his nationality, he has voluntarily reacquired it; or

(3) He has acquired a new nationality, and enjoys the protection of the country of his new nationality; or

(4) He has voluntarily re-established himself in the country which he left or outside which he remained owing to fear of persecution; or

(5) He can no longer, because the circumstances in connexion with which he has been recognized as a refugee have ceased to exist, continue to refuse to avail himself of the protection of the country of his nationality:

Provided that this paragraph shall not apply to a refugee falling under section A(1) of this article who is able to invoke compelling reasons arising out of previous persecution for refusing to avail himself of the protection of the country of nationality;

(6) Being a person who has no nationality he is, because the circumstances in connexion with which he has been recognized as a refugee have ceased to exist, able to return to the country of his former habitual residence;

Provided that this paragraph shall not apply to a refugee falling under section A(1) of this article who is able to invoke compelling reasons arising out of previous persecution for refusing to return to the country of his former habitual residence.

D. This convention shall not apply to persons who are at present receiving from organs or agencies of the United Nations other than the United Nations High Commissioner for Refugees protection or assistance.

When such protection or assistance has ceased for any reason, without the position of such persons being definitively settled in accordance with the relevant resolutions adopted by the General Assembly of the United Nations, these persons shall ipso facto be entitled to the benefits of this convention.

E. This convention shall not apply to a person who is recognized by the competent authorities of the country in which he has taken residence as having the rights and obligations which are attached to the possession of the nationality of that country.

F. The provisions of this convention shall not apply to any person with respect to whom there are serious reasons for considering that:

(a) he has committed a crime against peace, a war crime, or a crime against humanity, as defined in the international instruments drawn up to make provision in respect of such crimes;

(b) he has committed a serious nonpolitical crime outside the country of refuge prior to his admission to that country as a refugee;

(c) he has been guilty of acts contrary to the purposes and principles of the United Nations.

§ 223a.2 Definition of refugee travel document.

As used in this chapter, the term "refugee travel document" means a document issued by the Service on Form I–571 in implementation of article 28 of the United Nations Convention of July 28, 1951 and in accordance with the provisions of this Part.

§ 223a.3 Eligibility.

Any alien in the United States may apply for a refugee travel document if he believes he is a refugee. A refugee travel document shall be issued to a refugee lawfully staying in the United States unless compelling reasons of national security or public order otherwise require. A refugee travel document may be issued, in the exercise of discretion, to a refugee unlawfully in the United States unless reasons of national security or public order otherwise require; sympathetic consideration shall be given to such an application unless the Service intends to expel or exclude the alien from the United States. For reasons of national security, a refugee travel document shall not be issued to an alien who intends to travel to, in, or through Cuba or communist portions of Korea or Viet Nam, unless the restriction with respect to any such place or places has been waived as provided in § 223a.5(b)(2).

§ 223a.4 Application.

Application for a refugee travel document shall be submitted on Form I–570 at least 45 days prior to the proposed date of departure from the United States. The application shall be submitted to the district director having jurisdiction over the applicant's place of residence and shall be accompanied by his Form I–94 or Form I–151. The applicant shall be notified of the decision on his application. If the application is approved, the refugee travel document shall be issued and the immigration status which may be accorded to the alien upon his return to the United States shall be specified therein. Unless the applicant is in the United States as a conditional entrant or lawful permanent resident, the status of "Parolee" shall be specified. If he is in the United States as a conditional entrant, that status shall be specified; if he is a lawful permanent resident, that status shall be specified. If the application is denied, the applicant shall be notified of the reasons therefor and of his right to appeal in accordance with the provisions of Part 103 of this chapter.

§ 223a.5 Validity of refugee travel document.

(a) *General.* A refugee travel document shall be valid for a period not to exceed 1 year from date of issuance and its validity may be extended for a period not to exceed 1 additional year. The document may be used for one or more applications for admission to the United States. It shall have no effect under the immigration laws except to show that during the period of its validity the lawful holder thereof may be accorded the status specified in the refugee travel document upon returning to the United States.

(b) *Invalidity*—(1) False application. A refugee travel document shall be invalid if the alien obtained it by making a material false representation or concealment in his application.

(2) *Area restrictions.* A refugee travel document shall be invalid if the alien during his absence abroad travels to, in, or through Cuba or communist portions of Korea or Viet Nam, unless the document bears an endorsement, or the alien presents a letter issued to him by the Department of State, stating that the restriction with respect to any such place or places has been waived. The waiver shall not be endorsed in the document unless the Secretary of State has granted the alien permission to travel to, in, or through any such place or places.

(3) *Exclusion or deportation proceedings.* A refugee travel document shall be invalid if the alien is ordered excluded as the result of proceedings instituted pursuant to § 235.6(c) of this chapter or ordered deported as the result of proceedings instituted pursuant to § 242.1(b–1) of this chapter.

§ 223a.6 Return to the United States.

(a) *General.* Every alien returning to the United States who presents a valid unexpired refugee travel document shall be permitted to come physically within the territory of the United States.

(b) *Inspection and immigration status.* Upon arrival, an alien who presents a valid unexpired refugee travel document shall be examined as to his admissibility under the Act, and under the United Nations Convention of July 28, 1951, and the protocol of January 31, 1967, except that any question of admissibility as a lawful permanent resident or as a conditional entrant shall be determined solely in accordance with the provisions of the Act. An alien who is not excludable as provided in paragraph (c) of this section shall be accorded the immigration status endorsed in his refugee travel document, except that in the case of an endorsement indicating status as a conditional entrant or as a lawful permanent resident the alien shall be paroled as a refugee if he has become inadmissible and it is inappropriate to preserve his status through the exercise of waivers. Also, in the case of an endorsement indicating that the alien may be accorded the status of a parolee upon return to the United States, if the alien has been approved under the Act for admission as a conditional entrant or as a lawful permanent resident he shall be admitted accordingly notwithstanding such endorsement.

(c) *Exclusion.* If an alien who presents a valid unexpired refugee travel document appears to the examining immigration officer to be excludable as provided in this paragraph, he shall be referred for proceedings under sections 236 and 237 of the Act. Section 235(c) of the Act shall not be applicable. Exclusion proceedings shall be instituted only if the alien is inadmissible under section 212(a)(9), (10), (12), (23), (27), (28), or (29) of the Act and it is alleged that on the basis of the acts for which he is inadmissible there are compelling reasons of national security or public order for his exclusion. An exclusion decision shall not be valid unless it upholds one or more of the above-mentioned grounds and includes and express determination that compelling reasons of national security or public order require exclusion.

§ 223a.7 Extension.

An application for extension of a refugee travel document shall be submitted on Form I–570, 60 to 90 days prior to the expiration of the document's validity. The application shall be submitted to the immigration office having jurisdiction over the appplicant's place of residence in the United States, or, if the applicant is temporarily sojourning abroad, he may submit the application to a United States immigration or consular officer as specified in § 223.2 of this chapter. An extension application mailed during the document's validity is considered as timely submitted, even though received by a Service or consular officer after the document's validity has expired. If the extension application is granted, the document shall be noted to show the extension and returned to the applicant; if denied, the applicant shall be notified of the decision, and the document returned to him if the remaining period of its validity permits its use for return to the United States. The application may be denied only for compelling reasons of public order or national security. No appeal shall lie from a decision denying an application for extension of a refugee travel document.

§ 223a.8 Surrender of document.

(a) *Expired document.* Upon expiration of the period of validity of a refugee travel document, it shall be surrendered to an immigration officer or to the issuing office of the Service. If an alien's expired refugee travel document has not been surrendered to the Service, no subsequent refugee travel document shall be issued to him unless he shall first surrender the expired document or satisfactorily account for his failure to do so. A refugee travel document shall also be surrenderd if the alien's immigration status has changed so that upon return to the United States he may not be accorded the status endorsed in the document.

(b) *Invalid document.* An invalid refugee travel document shall be surrendered to an immigration officer except that an alien traveling abroad shall be permitted to retain it until his return to the United States prior to its expiration date. A refugee travel document shall be surrendered provisionally upon notification within the United States that its validity is being investigated or upon notification of institution of exclusion or deportation proceedings, and it shall be returned to the alien if the outcome of the investigation is favorable to him or the final order issued under the instituted proceedings does not result in the document becoming invalid pursuant to § 223a.5(b)(3).

PART 235—INSPECTION OF PERSONS APPLYING FOR ADMISSION

Section 235.6 is amended by adding a new paragraph (c) to read as follows:

§ 235.6 Referral to special inquiry officer.

• • • • •

(c) *Refugees.* Exclusion proceedings shall be instituted against aliens who are refugees within the protection of article 32 of the United Nations Convention of July 28, 1951, and against aliens who are the holders of valid unexpired refugee travel documents only if they are inadmissible under section 212(a)(9), (10), (12), (23), (27), (28), or (29) of the Act, and it is alleged that on the basis of the acts for which they are inadmissible there are compelling reasons of national security or public order for their exclusion.

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

Section 242.1 is amended by adding a new paragraph (b–1) to read as follows:

§ 242.1 Order to show cause and notice of hearing.

• • • • •

(b–1) *Refugees.* Deportation proceedings shall be instituted against aliens who are refugees within the protection of Article 32 of the United Nations Convention of July 28, 1951, and against aliens who are the holders of valid unexpired refugee travel documents only if they are deportable under section 241(a)(1), (4), (6), (7), (11), (12), (14), (17), or (18) of the Act and it is alleged that on the basis of the acts for which they are deportable there are compelling reasons of national security or public order for their expulsion.

• • • • •

PART 299—IMMIGRATION FORMS

§ 299.1 [Amended]

The list of forms in § 299.1 *Prescribed forms* is amended by adding the following forms and references thereto in alphabetical and numerical sequence:

Form No.	*Title and description*
I–570	Application for Issuance or Extension of Refugee Travel Document.
I–571	Refugee Travel Document.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

Dated: January 23, 1973.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR PART 928]

HANDLING OF PAPAYAS GROWN IN HAWAII

Notice of Proposed Rule Making With Respect to Expenses, Rate of Assessment, and Carryover of Unexpended Funds

PREAMBLE

This proposal, if accepted, would fix the maximum amount of expenses, $182,330, that could be incurred by the Papaya Administrative Committee in the administration of the program. It would also establish the assessment for the same period of 6½ mills ($0.0065) per pound of papayas handled and provide for the transfer of unexpended assessment funds from the previous fiscal period to the program's reserve.

Consideration is being given to the following proposals submitted by the Papaya Administrative Committee, established under the marketing agreement, and Order No. 928 (7 CFR Part 928), regulating the handling of papayas grown in Hawaii, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(a) That expenses which are reasonable and likely to be incurred by the Papaya Administrative Committee, during the period January 1, 1973, through December 31, 1973, will amount to $182,330.

(b) That there be fixed, at 6½ mills ($0.0065) per pound of papayas, the rate of assessment payable by each handler in accordance with § 928.41 of the aforesaid marketing agreement and order during the fiscal year beginning January 1, 1973.

(c) That unexpended assessment funds in excess of expenses incurred during the initial fiscal period ended December 31, 1972, shall be carried over as a reserve in accordance with the applicable provisions of § 928.42 of the marketing agreement and order.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

All persons who desire to submit written data, views, or arguments, in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, on or before February 13, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: January 22, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[46 CFR Part 278]

FOREIGN-TO-FOREIGN COMMERCE

Notice of Proposed Rule Making

Notice is hereby given that the Maritime Subsidy Board, acting pursuant to section 204(b) of the Merchant Marine Act, 1936, as amended (the Act) (46 U.S.C. 1101), and for purposes of subsection 905(a) of the Act proposes to establish regulations that allow U.S.-flag operators of bulk vessels built with the aid of construction-differential subsidy to engage in trade between foreign ports

V 38 - 18 JAN 29 73 XUM

under time charters of no more than 5 years duration.

This notice supersedes and replaces the notice of proposed rule making dated March 23, 1972 (37 FR 5956–7 (1972)), concerning regulations on this subject, and all such previous notices.

Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably three copies) to the Secretray, Maritime Subsidy Board, Department of Commerce, Washington, DC 20035, by the close of business on February 26, 1973.

Therefore, notice is hereby given that the Maritime Subsidy Board proposes to add the following new Part 278 to Title 46, Chapter II, Code of Federal Regulations.

By order of the Maritime Subsidy Board.

Dated: January 22, 1973.

JAMES S. DAWSON, Jr.,
Secretary.

PART 278—FOREIGN-TO-FOREIGN COMMERCE

Sec.

278.0 Statutory provision; section 905(a), Merchant Marine Act, 1936, as amended.
278.1 Scope and purpose of section 905(a) of the Act, as amended, and of these regulations.
278.2 Assistant Secretary shall administer.
278.3 Definitions.
278.4 Application of this part to U.S. flag bulk vessels.
278.5 Operating agreements of greater than 5 years durations to be submitted for approval.
278.6 Operating agreements involving foreign-to-foreign commerce of greater than 5 years duration to be approved only in exceptional cases.
278.7 Exceptions to the restriction on operating agreements involving foreign-to-foreign commerce or greater than 5 years duration.
278.8 Penalties for violation of this part.
278.9 Reports and submissions under this part.

AUTHORITY: Section 905(a), Merchant Marine Act, 1936, as amended (46 U.S.C. 1244).

§ 278.0 Statutory provision; section 905(a), Merchant Marine Act, 1936, as amended.

SEC. 905(a)—*Definition of foreign commerce.* When used in this Act—

(a) The words "foreign commerce" or "foreign trade" mean commerce or trade between the United States, its territories or possessions, or the District of Columbia, and a foreign country, except that in the context of section 607 of this Act concerning capital construction funds and title V of this Act concerning construction-differential subsidy, the said words "foreign commerce" or "foreign trade" shall also include, in the case of liquid and dry bulk cargo carrying services, trading between foreign ports in accordance with normal commercial bulk shipping practices in such manner as will permit U.S.-flag bulk vessels freely to compete with foreign-flag bulk carrying vessels in their operation or in competing for charters, subject to rules and regulations promulgated by the Secretary of Commerce pursuant to section 204(b) of this Act.

§ 278.1 Scope and purpose of section 905(a) of the Act, as amended, and of these regulations.

(a) *Section 905(a) and the construction subsidy program.* The term "foreign commerce" as that term is used in Title V of the Merchant Marine Act, 1936, as amended, determines the trade in which a vessel must be engaged if the shipyard that builds the vessel is to receive the benefits of the construction-differential subsidy available under that title. In 1970 the definition of foreign commerce was amended to permit American dry and liquid bulk carriers to be built with the aid of construction-differential subsidy and thereafter compete for service between foreign ports. The definition was amended once again in 1972 to clarify the language previously adopted and to declare that bulk carriage between foreign ports is permissible by vessels built with subsidy under title V, subject to uniform regulations promulgated by the Secretary of Commerce. The Secretary of Commerce has delegated his authority to promulgate and administer these regulations to the Maritime Subsidy Board and the Assistant Secretary of Commerce for Maritime Affairs, respectively, by Department of Commerce organizational orders.

(b) *Scope of these regulations.* These regulations determine the extent to which U.S.-flag bulk vessels, on which construction-differential subsidy has been paid under title V, may engage in trade between foreign ports under section 905(a).

§ 278.2 Assistant Secretary shall administer.

The Assistant Secretary of Commerce for Maritime Affairs shall administer these regulations pursuant to Department of Commerce Organizational Order No. 10–8 (June 19, 1972), as amended, section 3.01(a); and Order No. 25–2 (Mar. 24, 1972), as amended, section 3.01.

§ 278.3 Definitions.

For the purpose of this part:

(a) *Agreement, operating agreement, charter.* "Agreement," "operating agreement," and "charter" have the same meaning, and are defined as any agreement between two or more parties which governs the service in which the vessel will operate, including any subcharter executed under the initial operating agreement between the owner and another party or parties.

(b) *Assistant Secretary.* "Assistant Secretary" means the Assistant Secretary of Commerce for Maritime Affairs.

(c) *Foreign-to-foreign commerce.* "Foreign-to-foreign commerce" is that portion of foreign commerce referred to in section 905(a), Merchant Marine Act, 1936, as amended, in which cargo is carried by U.S.-flag bulk vessels between foreign ports, provided that:

(1) The transshipment of cargo at any port will not affect the definition of its carriage as foreign-to-foreign commerce or U.S. foreign commerce if the cargo unloaded is subsequently reloaded, in the same form in which it was unloaded, for shipment to its ultimate destination;

(2) Carriage of crude petroleum from a foreign port to the Bahamas Islands for refinement there into petroleum products is hereby defined as carriage between a U.S. port and a foreign port; and

(3) Carriage of cargoes between a port of the U.S. Virgin Islands and any U.S. or foreign port is hereby defined as carriage between a U.S. port and a foreign port.

(d) *Statutory life.* "Statutory life" means the statutory life of a vessel under section 503, Merchant Marine Act, 1936, as amended, and Public Law 86–518, as amended by Public Law 88–225.

(e) *U.S. foreign commerce.* "U.S. foreign commerce" is that portion of foreign commerce referred to in section 905(a), Merchant Marine Act, 1936, as amended, in which cargo is carried by U.S.-flag bulk vessels between a U.S. port and any foreign port, and includes carriage to and from any offshore terminal facilities of the United States and any foreign port.

§ 278.4 Application of this part to U.S.-flag bulk vessels.

The provisions of this part shall apply to all U.S.-flag bulk vessels built with the aid of construction-differential subsidy. For the purpose of this part a bulk vessel is a vessel which is built to carry solid, liquid, or gaseous commodities not normally shipped in bags or rigid containers and which are normally contained in the vessel's storage spaces bounded by the ship's structure only.

§ 278.5 Operating agreements of greater than 5 years duration to be submitted for approval.

Every charter or other agreement which extends to more than 5 years duration and every agreement which may by its terms be extended to more than 5 years duration, which governs the operation of a vessel on which a construction-differential subsidy is or will be paid under Title V of the Merchant Marine Act, 1936, as amended, shall, at least 60 days prior to its execution by the parties, be submitted by the owner or operator of the vessel to the Assistant Secretary for his approval.

§ 278.6 No operating agreements involving foreign-to-foreign commerce of greater than 5 years duration to be approved.

No charter or other agreement which provides for the possibility of operations in foreign-to-foreign commerce by a vessel on which a construction-differential subsidy is or will be paid shall be approved by the Assistant Secretary if such agreement extends or may be extended by its terms to more than 5 years duration, except as provided in § 278.7.

§ 278.7 Exceptions to the restriction on operating agreements involving foreign-to-foreign commerce of more than 5 years duration.

(a) *General grounds for an exception to § 278.6.* Except as further provided by paragraph (b) of this section the Assistant Secretary may, prior to execution by the parties, approve an operating agreement which involves operations in foreign-to-foreign commerce and which extends or may extend to more than 5 years duration if he determines that such agreement is in the best interests of the United States, based on the following considerations:

(1) Each of the following factors during the duration of the proposed agreement and the remaining statutory life of the owner's vessel:

(i) Projected needs of U.S. foreign commerce for ships of that type,

(ii) Overall projected availability from the U.S. merchant marine of vessels of that type for use in U.S. foreign commerce, and,

(iii) Availability of the owner's vessel for such use;

(2) The amount and nature of operations by the vessel in U.S. foreign commerce concurrent with its operations in foreign-to-foreign commerce under the proposed agreement;

(3) Possible economic or national defense benefits accruing to the United States as a result of operations in foreign-to-foreign commerce under the proposed agreement;

(4) Possible needs of the United States to use the vessel for national defense purposes as provided by section 501(b) of the Merchant Marine Act, 1936, as amended;

(5) Availability to vessels trading in U.S. foreign commerce of port facilities of the United States with sufficient size, draft, and technical advancement to permit the safe, efficient, and commercially feasible operation of such vessels in U.S. foreign commerce;

(6) The time period exceeding 5 years duration for which the operating agreement is proposed to extend; and

(7) The extent that the agreement would allow the accrual of earnings from the agreement sufficient to amortize all or part of the indebtedness incurred from the vessel's construction and all or part of any original equity investment in the vessel: *Provided*, That the accrual of at least the minimum pro rata share of the indebtedness shall be required for the agreement's duration.

(b) *Operating agreements of more than 5 years duration involving dedicated foreign-to-foreign commerce.* (1) Dedicated foreign-to-foreign commerce is hereby defined as that foreign-to-foreign commerce, as defined in § 278.3 (c), in which the owner or any operator of the vessel uses the vessel or allows the vessel to be used only in a single bulk carriage project for the duration of such use, without interruption or availability of the vessel for any other bulk carriage service.

(2) The Assistant Secretary may, prior to execution by the parties, approve an operating agreement involving dedicated foreign-to-foreign commerce which extends or may extend to more than 5 years duration if he determines that such agreement will result in unique benefits to the maritime or other national policies of the United States, based on but not limited to the following:

(i) Each of the following factors during the duration of the proposed agreement and the remaining statutory life of the owner's vessel:

(a) Overall projected availability from the U.S. merchant marine of vessels of that type for use in U.S. foreign commerce,

(b) Availability of the owner's vessel for such use, and,

(c) Projected needs of U.S. foreign commerce for ships of that type;

(ii) The profitability of the proposed agreement to the parties and the owner of the vessel, projected over its duration, and other aspects of the agreement in comparison to the availability and terms of agreements involving operations in U.S. foreign commerce, agreements involving any foreign commerce of less than 5 years duration, and agreements involving foreign-to-foreign commerce under paragraph (a) of this section;

(iii) Possible economic or national defense benefits accruing to the United States as a result of operations in dedicated foreign-to-foreign commerce under such an agreement;

(iv) Possible needs of the United States to use the vessel for national defense purposes as provided by section 501 (b) of the Merchant Marine Act, 1936, as amended;

(v) Availability to vessels trading in U.S. foreign commerce of port facilities of the United States with sufficient size, draft, and technical advancement to permit the safe, efficient, and commercially feasible operation of such vessels in U.S. foreign commerce;

(vi) The time period exceeding 5 years duration for which the operating agreement is proposed to extend;

(vii) The extent that the agreement would allow the accrual of earnings from the agreement sufficient to amortize all or part of the indebtedness incurred from the vessel's construction and all or part of any original equity investment in the vessel: *Provided*, That the accrual of at least the minimum pro-rata share of the indebtedness shall be required for the agreement's duration; and

(viii) The likelihood that an extended operating agreement would contribute to the design or construction of vessels of unique new design or special capabilities which advance the development of the U.S. Merchant Marine.

§ 278.8 Penalties for violation of this part.

(a) *Proportionate payment of amounts representing construction-differential subsidy.* Any owner or operator of a vessel who executes an agreement or operates a vessel in violation of this part shall pay to the United States an amount equal to the construction-differential subsidy paid on the vessel under title V of the Merchant Marine Act, as amended, times the percentage of the vessel's statutory life represented by the time in excess of 5 years for which the agreement was executed.

(b) *Assistant Secretary may mitigate.* The Assistant Secretary may, in his discretion, remit or mitigate any penalty imposed under paragraph (a) of this section on such terms as he deems proper.

§ 278.9 Reports and submissions under this part.

(a) *Submissions required with each application for approval.* The owner shall submit, as part of any application for the approval of an operating agreement under § 278.7, the reasons why such application should be approved under the applicable portion of § 278.7, and factual information in support of such reasons. The Assistant Secretary may request such additional information from the owner or operator as he may require to act on the application.

(b) *Use of business records.* The Assistant Secretary may from time to time request that any owner or operator of a bulk vessel submit records of ship movements and bulk cargoes carried which relate to the considerations for approval of operating agreements under § 278.7.

(c) *Certification of compliance.* Within 15 days after December 31 of each calendar year every owner or operator of a bulk vessel shall certify that during the previous calendar year the vessel has been operated in compliance with these regulations and with the provisions of any operating agreement required by these regulations to which the vessel may be subject.

The provisions of this part shall be effective from and after ----------.

GROUNDFISH FISHERIES

Quarterly Quotas for Yellowtail Flounder

At its 22d Annual Meeting held in Washington, D.C., May 25 through June 2, 1972, the International Commission for the Northwest Atlantic Fisheries recommended that member governments adopt national allocation of regulated species in the Northwest Atlantic.

Among the regulated species, an annual allocation for the United States of 24,000 metric tons of yellowtail flounder was made for Subarea 5. This allocation is further subdivided into the area east and west of 69° west longitude. Allocation in the area east of 69° is 15,000 metric tons and for the area west of 69° is 9,000 metric tons. During the past 2

V38-18 JAN 29 73 XUM

years, the area allocations have been divided into quarterly quotas. Informal contact has been made with members of the fishing industry and, accordingly, a tentative quarterly quota has been made which can be adjusted at a later date.

Therefore, it is proposed to amend § 240.6(b) (1) and (2) to provide quarterly quotas for yellowtail flounder for 1973. Before final adoption of the proposed amendment, consideration will be given to any data, views, or arguments, pertaining thereto which are submitted in writing to the Director, National Marine Fisheries Service, Washington, D.C. 20235, on or before February 8, 1973.

The proposed amendment is issued under the authority contained in subsection (a) of section 7 of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1069; 16 U.S.C. 986) as modified by Reorganization Plan No. 4, effective October 3, 1970 (35 FR 15627).

The proposed amendment is described below:

1. Amend paragraph (b) and subparagraphs (1) and (2) of § 240.6 to read as follows:

§ 240.6 Catch limits.

• • • • •

(b) An annual limitation of 24,000 metric tons is placed on yellowtail flounder in 1973 taken by fishing vessels of contracting governments in Subarea 5.

(1) The annual catch (landings plus discards) of yellowtail flounder in Subarea 5 from the area west of 69°00′ W., shall not exceed 9,000 metric tons to be taken in quarterly increments as follows:

	Metric tons
January 1 to March 31	2,750
April 1 to June 30	1,500
July 1 to September 30	2,000
October 1 to December 31	2,750

(2) The annual catch (landings plus discards) of yellowtail flounder in Subarea 5 from the area east of 69°00′ W., shall not exceed 15,000 metric tons to be taken in quarterly increments as follows:

	Metric tons
January 1 to March 31	2,950
April 1 to June 30	3,850
July 1 to September 30	4,900
October 1 to December 31	3,300

• • • • •

Issued at Washington, D.C., and dated January 24, 1973.

PHILIP M. ROEDEL,
Director, National Marine Fisheries Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 72-EA-107]

BENDIX AIRCRAFT ENGINE MAGNETOS

Proposed Airworthiness Directives

The Federal Aviation Administration is considering amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Bendix (Scintilla) S20, S200, S600 and S1200 magnetos.

There have been failures of ignition coils and rotating magnets in these magnetos that could result in engine power loss or failure. Since this condition is likely to exist or develop in other magnetos of the same design, the proposed airworthiness directive would require identification of magnetos containing the ignition coils and rotating magnets and replacement of such coils and magnets on Bendix (Scintilla) S20, S200, S600, and S1200 magnetos.

Interested parties are invited to participate in the making of the proposed rule by submitting written data and views. Communications should identify the docket number and be submitted in duplicate to the Office of Regional Counsel, FAA, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430.

All communications received on or before February 28, 1973, will be considered before taking action upon the proposed rule. The proposals contained in this notice may be changed in light of comments received. All comments will be available in the Office of Regional Counsel for examination by interested parties.

In consideration of the foregoing, it is proposed to issue a new airworthiness directive as hereinafter set forth:

BENDIX ELECTRICAL COMPONENTS DIVISION: Applies to all Bendix Electrical Components Division of the Bendix Corp. (Bendix Scintilla) S20, S200, S600, and S1200 series magnetos except the following:

1. Magnetos identified with the Bendix Blue name plate (Bendix remanufactured magnetos) having serial No. 231001 or higher.

2. Magnetos identified with the Bendix Red name plate (new magnetos) having a serial number with the prefix "A" and No. 16058 or higher.

Compliance required as indicated after the effective date of this A.D. unless previously accomplished.

To prevent failure of these magnetos due to malfunction or failure of the ignition coil or rotating magnet, accomplish the following:

a. On magnetos having 1,800 or less hours in service since new or last overhaul on the effective date of this A.D., accomplish paragraph "d" before accumulation of 2,000 hours in service.

b. On magnetos having more than 1,800 hours in service since new or last overhaul, acomplish paragraph "d" within the next 200 hours service after the effective date of this A.D.

c. Magnetos whose time in service since new or last overhaul is unknown will be assumed to have a total of 1,800 hours minimum and thus fall within the requirements of paragraph (b).

d. Identify magnetos per instructions contained in Bendix Electrical Components Division Service Bulletin No. 560, dated August 1972 or later. Magnetos having ignition coils as described in paragraph A, or rotating magnets as described in paragraph B or shown in figure 2 of Bendix Electrical Components Division's Service Bulletin No. 560, dated August 1972 or later, must have these components removed and replaced with serviceable parts as listed in the applicable Bendix Electrical Components Division Service Parts List, numbered and dated as follows or subsequent:

Magneto model	Parts list designation	Parts list date
S4LN-20 series (ignition coil no. 10-160886 or subsequent).	L-227-9	December 1963.
S6LN-20 series (ignition coil no. 10-160886 or subsequent).	L-223-14	October 1963.
S-200 series (ignition coil no. 10-160887 or subsequent).	L-528-5	October 1963.
S-600 series (magnet rotor only).	L-552-3	December 1964.
S-1200 series	L-608-3	September 1971.

e. Upon completion of paragraph d, identify each magneto as follows:

S-20, S-200, and S-600 series magnetos—Metal stamp .010 deep maximum the letter "A" 3/16 inches high, midway and centered between the timing plug boss and the curved surface at the rear of distributor housing.

S-1200 series magnetos—Metal stamp .010 deep maximum the letter "A" 3/16 inches high, centered between the timing plug boss and data plate, adjacent to the magneto housing rib.

[Airspace Docket No. 72-SW-78]

VOR AIRWAYS

Proposed Alteration and Revocation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would modify several VOR Federal airways in the Houston, Tex., terminal area, and would revoke those not normally used. This action would significantly reduce chart clutter and provide controllers with greater flexibility in control of arriving and departing aircraft.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P. O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before February 28, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The FAA is considering the following changes:

1. In V-13:

a. Extend V-13 from Humble, Tex., to Palacios, Tex., thence via Palacios 223°M (241°T) and Corpus Christi, Tex., 030°M (038°T) radials to Corpus Christi.

b. Revoke V-13 from Houston, Tex., to Humble.

c. Revoke V-13E from Houston, to Daisetta, Tex.

d. Revoke V-13W from Humble, to Lufkin, Tex., via New Waverly, Tex., INT.

e. Realign V-13E from Humble, to Daisetta.

2. In V-15:

a. Realign V-15 in part from Houston, Tex., to Navasota, Tex., via Humble, Tex.

b. Revoke V-15 from Houston, to Navasota.

c. Revoke V-15E between Houston and Navasota.

3. In V-20:

a. Revoke V-20N between Corpus Christi, Tex., and Beaumont, Tex.

b. Revoke V-20S between Palacios, Tex., and Lake Charles, La.

4. In V-70: Revoke V-70N between Palacios, Tex., and Sabine Pass, Tex.

5. In V-76: Revoke V-76 from Houston, Tex., to Scholes, Tex.

6. In V-180: Revoke V-180 between San Antonio, Tex., and Scholes, Tex.

7. In V-198: Revoke V-198N between Eagle Lake, Tex., and Sabine Pass, Tex.

8. In V-222: Realign V-222 between Industry, Tex., and Humble, Tex., via INT Industry 093°M (101°T) and Humble 250°M (257°T) radials.

9. In V-477:

a. Revoke V-477 from Houston, Tex., to Humble, Tex.

b. Revoke V-477E between Humble, Tex., and Leona, Tex.

c. Revoke V-477W from Houston, to Navasota, Tex.

d. Designate V-477W from Humble, Tex., to Navasota.

10. In V-306: Designate V-306S from Navasoto, Tex., to Daisetta, Tex., via Humble, Tex.

The existing airway configuration in the Houston terminal area is concentrated and complex. Air Traffic Control is confronted with traffic congestion and control problems. Restructuring of the airways in this area should improve safety, lessen air traffic delays and improve the flow of arriving and departing traffic.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 19, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Parts 45, 46, 48]

TRAINING GRANTS AND FELLOWSHIPS

Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Environmental Protection Agency. The proposed regulations are designed to assist qualified applicants in applying for training grants and fellowships.

Section 103 of the Clean Air Act, as amended, 42 U.S.C. 1857b; sections 104, 109, 110, and 111 of the Federal Water Pollution Control Act, as amended; sections 204 and 210 of the Solid Waste Disposal Act, as amended, 42 U.S.C. 3253 and 3254d; section 23(a) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by Public Law 92-516; and the Public Health Service Act, as amended, 42 U.S.C. 241, 243, and 246 authorize the Environmental Protection Agency to make grants to qualified applicants for training programs to:

(a) Assist in planning, implementing, and improving environmental training programs;

(b) Increase the number of adequately trained pollution control and abatement personnel;

(c) Upgrade the level of training among State and local environmental control personnel; and

(d) Bring new people into the environmental control field.

Section 103 of the Clean Air Act as amended, 42 U.S.C. 1857b and sections 104(b)(5) and 104(g)(3)(B) of the Federal Pollution Control Act of 1972, authorizes the Environmental Protection Agency to make grants to qualified applicants for fellowships to encourage and promote the specialized training of individuals as practitioners in pollution abatement and control.

Publication of these proposed rules is a continuation of an effort to coordinate and conform grant award and administration policies, procedures, and terms for the various EPA grant programs, to improve administration of these grant programs and to furnish applicants, grantees, and the public, with a more explicit statement of grant award and administrative requirements. Newly enacted legislation and changes in program emphasis have resulted in the following major revisions in the training grant and fellowship regulations.

1. Student support for training grants will be changed from traineeship to scholarships (tuition and fees only);

2. Special stipends will be established to provide additional support where needed to attract students to specific progarms; and

3. A pilot fellowship program will be developed to promote attractiveness of State and local employment.

Prior to the adoption of the proposed regulations, consideration will be given to comments, suggestions, or objections, which may be submitted in writing to: Director, Grants Administration Division, Office of Planning and Management, Waterside Mall, Fourth and M Streets SW., Washington, DC 20460. All comments, suggestions, or objections received before February 28, 1973, will be considered.

WILLIAM D. RUCKELSHAUS,
Administrator.

JANUARY 23, 1973.

PART 45—TRAINING GRANTS

Sec.
45.100 Purpose of regulation.
45.101 Applicability and scope.
45.102 Authority.

45.135 Supplemental grant conditions.
45.140 Project period.
45.145 Allocation and allowability of costs.
45.150 Reports.
45.150-1 Interim progress report.
45.150-2 Final progress report.
45.150-3 Report of expenditures.
45.150-4 Equipment report.
45.155 Continuation grant.

§ 45.100 Purpose of regulation.

This part establishes and codifies policies and procedures governing the award of training grants by the Environmental Protection Agency.

§ 45.101 Applicability and scope.

This part establishes mandatory policies and procedures for all EPA training grants. The provisions of this part supplement the EPA general grant regulations and procedures (40 CFR Part 30). Accordingly, all EPA training grants are awarded subject to the EPA general grant regulations and procedures (40 CFR Part 30) and to the applicable provisions of this Part 45.

§ 45.102 Authority.

The Environmental Protection Agency is authorized to award training grants under the following statutes:

(a) Section 103 of the Clean Air Act, as amended; 42 U.S.C. 1857b.

(b) Sections 104, 109, 110, and 111 of the Federal Water Pollution Control Act, as amended.

(c) Public Health Service Act, as amended; 42 U.S.C. 241, 243, and 246.

(d) Sections 204 and 210 of the Solid Waste Disposal Act, as amended; 42 U.S.C. 3253 and 3254d.

(e) Section 23(a) of the Federal Insecticide, Fungicide, and Rodenticide Act as amended by Public Law 92-516.

§ 45.103 Objectives.

Grants awarded under this part are intended for occupational and professional training and to develop career-oriented personnel qualified to work in pollution abatement and control.

V38-18 JAN 29 73 XUM

Training grants will be awarded:

(a) To assist in planning, implementing, and improving environmental training programs;

(b) To increase the number of adequately trained pollution control and abatement personnel;

(c) To upgrade the level of training among State and local environmental control personnel; and

(d) To bring new people into the environmental control field.

§ 45.105 Definitions.

As used throughout this part, the words and terms defined in this section shall have the meanings set forth below.

§ 45.105–1 Professional training.

Training of individuals, at the post baccalaureate level, in subjects which pertain to pollution abatement and control.

§ 45.105–2 Scholarship.

Financial assistance to students enrolled in a training program, limited to tuition and fees only.

§ 45.105–3 Stipend.

Supplemental financial assistance to students who are recipients of scholarships.

§ 45.105–4 Technician training.

Training of individuals, at the post high school, junior college, and baccalaureate levels, in the practical technical details and special techniques of occupations in the environmental areas.

§ 45.115 Eligibility.

Training grants may be awarded to any responsible applicant as follows:

(a) *Clean Air Act.* (1) Section 103(b)(3): Air pollution control agencies, public and nonprofit private agencies, institutions, organizations, and individuals. No grant may be made under this Act to any private profitmaking organization.

(2) Section 103(b)(5): Personnel of air pollution control agencies and other qualified persons. No grant may be made under this Act to any profitmaking organization.

(b) *Federal Water Pollution Control Act.* (1) Section 104(b)(3): State water pollution control agencies, interstate agencies, other public or nonprofit private agencies, institutions, organizations, and individuals.

(2) Section 104(g)(3)(A): Public or private agencies and institutions, and individuals.

(3) Sections 104(g)(1) and 104(g)(3)(C): State and interstate agencies, municipalities, educational institutions, and other organizations and individuals.

(4) Sections 109, 110, and 111: Institution of higher education or combinations of such institutions.

(c) *Solid Waste Disposal Act.* Sections 204(b)(3) and 210(a): State or interstate agencies, municipalities, educational institutions, and other nonprofit organizations. No grant may be made under this Act to any private profitmaking organization.

(d) *Public Health Service Act.* Grants will be made only to a university, hospital, laboratory, other public and private institutions, and individuals. No grant may be made under this Act to any profit-making organization.

(e) *Federal Insecticide, Fungicide, and Rodenticide Act.* Section 23(a): States.

§ 45.125 Application requirements.

Applications shall be submitted in accordance with 40 CFR Part 30, Subpart B.

§ 45.130 Evaluation of applications.

Evaluations shall be conducted by EPA staff and outside consultants, as appropriate, with technical knowledge and experience relevant to the individual application. Such evaluations will determine the desirability, extent of funding, and relative merit of an application. Consideration will be given to the following criteria:

(a) Relevance of proposal to agency objectives, priorities, achievement of national goals and technical merit;

(b) Competency of the proposed staff in relation to the type of project involved;

(c) Feasibility of the proposal;

(d) Adequacy of applicant's resources available for the project;

(e) Amount of grant funds necessary for the completion of the project.

(f) In addition, grants awarded under section 104(g)(1) of the Federal Water Pollution Control Act, shall be subject to the following criteria:

(1) Assessment of need for training in a State or municipality based on such problems as violation of discharge permit conditions, and faulty or improper operation and/or maintenance of existing plants.

(2) Wastewater treatment works construction grant activities in the State.

§ 45.135 Supplemental grant conditions.

In addition to the EPA general grant conditions (Appendix A to Subchapter B of 40 CFR), each training grant shall be subject to the following conditions:

(a) The grantee shall not require the performance of personal services by individuals receiving training as a condition for assistance.

(b) Recipients of assistance under training grants shall be entitled to the normal student holidays observed by an academic institution, or the holiday and vacation schedule applicable to all trainees at a nonacademic institution.

(c) Recipients of assistance under training grants must be citizens of the United States, its territories, or possessions, or lawfully admitted to the United States for permanent residence.

(d) Generally training grants will provide for student support only through scholarships. Stipends are permitted when, in the judgment of the grantee, they are needed to attract qualified students provided that not more than $10,000 may be used for such stipends within a budget period and further provided that no stipend may be less than $1,000 or more than $3,000.

(e) Training grants awarded under section 111 of the Federal Water Pollution Control Act will be subject to the following condition: Grantees must obtain the following agreement in writing from persons awarded scholarships under section 111 for undergraduate study of the operation and maintenance of treatment works:

> I agree to enter and remain in an occupation involving the design, operation, or maintenance of waste treatment works for a period of 2 years after the satisfactory completion of my studies under this program. I understand that if I fail to perform this obligation I may be required to repay the amount of my scholarship.

The grantee agrees to take such action as may reasonably be required to enforce the foregoing agreement. Any sums received by the grantee shall be credited or paid to the United States in accordance with 40 CFR 30.603.

§ 45.140 Project period.

The project period for a training grant may not exceed 3 years.

§ 45.145 Allocation and allowability of costs.

(a) Allocation and allowability of costs will be determined in accordance with 40 CFR 30.701.

(b) Costs incurred for the purchase of land or the construction of buildings are not allowable.

§ 45.150 Reports.

§ 45.150–1 Interim progress report.

An application for continued support shall include a brief (less than five pages) progress report. This progress report must show the progress achieved and should explain special problems or delays.

§ 45.150–2 Final progress report.

A final progress report is required 30 days prior to conclusion of the project period. The report shall briefly document project activities during the entire project period and shall set forth the extent to which the project objectives have been achieved.

§ 45.150–3 Report of expenditures.

No later than 90 days following the end of each budget period the grantee must submit a report of project expenditures. Final report of expenditures must reflect cumulative project expenditures.

§ 45.150–4 Equipment report.

No later than 90 days following the end of the project period the grantee must submit a listing of all (a) excess personal property furnished by the Federal Government for the performance of the project and (b) equipment acquired with grant funds with an acquisition cost of $200 or more.

§ 45.155 Continuation grant.

To be eligible for a continuation grant within the approved project period, the grantee must:

(a) Have demonstrated satisfactory performance during all previous budget periods.

(b) Submit a continuation application including an interim progress report and an estimated report of expenditures.

PART 46—FELLOWSHIPS

Sec.
46.100 Purpose of regulation.
46.101 Applicability and scope.
46.102 Authority.
46.103 Objectives.
46.104 Type of fellowships.
46.105 Definitions.
46.105–1 Full-time fellow.
46.105–2 Part-time fellow.
46.110 Benefits.
46.115 Eligibility.

46.141 Fellowship agreement amendment.
46.145 Payment.
46.150 Publications and thesis.
46.155 Deviations.
46.165 Termination.

§ 46.100 Purpose of regulation.

This part establishes and codifies policies and procedures governing the award of fellowships by the Environmental Protection Agency.

§ 46.101 Applicability and scope.

This part establishes mandatory policies and procedures for all EPA fellowships.

§ 46.102 Authority.

The Environmental Protection Agency is authorized to grant fellowship awards under the following statutes:

(a) Section 103 of the Clean Air Act as amended; 42 U.S.C. 1857b.

(b) Section 104(b)(5) and 104(g)(3)(B) of the Federal Pollution Control Act, as amended.

§ 46.103 Objectives.

Fellowships awarded under this part are intended to encourage and promote the specialized training of individuals as practitioners in pollution abatement and control.

§ 46.104 Type of fellowships.

(a) Agency fellowships are awarded to present or prospective employees of a regional, State or local environmental pollution control or regulatory agency to provide training for and upgrading of personnel in the areas of pollution abatement and control.

(b) Special fellowships are awarded to individuals for study in specialty areas which are supportive of pollution abatement and control efforts, e.g. environmental law, land use, urban planning, transportation and environmental economics.

§ 46.105 Definitions.

§ 46.105–1 Full-time fellow.

An individual duly enrolled in an educational program directly relating to pollution abatement and control, and taking a minimum of 12 semester or quarter hours for credit or an academic workload otherwise defined by the institution as a full-time curriculum.

§ 46.105–2 Part-time fellow.

An individual duly enrolled in an educational program directly relating to pollution abatement and control, and taking not less than 3 credit hours per academic term. The follow need not be pursuing an advanced degree.

§ 46.110 Benefits.

(a) Recipients of assistance under this part shall be entitled to tuition and fees, an allowance for books and supplies up to a maximum of $250, and the normal student holidays observed by an academic institution.

(b) In addition, full-time fellows who are employees of regional, State or local environmental pollution control or regulatory agencies may receive a stipend in an amount not to exceed $6,500 from EPA: *Provided*, That such employing agency agrees to supplement such stipend in an amount negotiated by such employing agency and EPA. Part-time fellows may receive a small stipend when justified by extraordinary needs related to the purpose of the fellowship.

§ 46.115 Eligibility.

All applicants for fellowships under this part must be (a) citizens of the United States, its territories, or possessions, or lawfully admited to the United States for permanent residence, and (b) accepted by an accredited educational institution for full- or part-time enrollment for academic credit in an educational program which, for agency fellowships, directly relates to pollution abatement and control, and for special fellowships, directly relates to, or is supportive of, pollution abatement and control. Applicants for agency fellowships must be present or prospective employees of a regional, State, or local environmental pollution control or regulatory agency. Present employees must be recommmended for a fellowship by their employing agency. Prospective employees must have a written commitment from such an agency for employment upon completion of the fellowship.

§ 46.120 Application requirements.

All applications for EPA fellowships shall be submitted upon such forms as the Administrator shall prescribe and shall include copies of transcripts of undergraduate and graduate courses, as appropriate. The applicant must arrange for the submission of supporting documents which substantiate his eligibility under § 46.115. In addition, the applicant shall submit such further information as may be required. Instructions for filing are contained in the application kit.

§ 46.122 Evaluation of application.

Evaluation shall be conducted by EPA staff and such outside consultants as necessary, with technical knowledge and experience relevant to the individual application. Such evaluation will determine the desirability, extent of funding, and relative merit of an application. Consideration will be given to the following criteria:

(a) Appropriateness of the fellow's proposed course of study to the objectives and mission of the Agency.

(b) Evaluation of the applicant in terms of his potential for study, as evidenced by his academic record, letters of reference, training plans, and other available information.

§ 46.135 Award and duration of fellowship.

Generally, within 90 days after receipt of a completed application (excluding suspension periods for submission of supplemental information), the application will be (a) approved for fellowship award; (b) deferred due to lack of funding or other specified reason; or (c) disapproved. The applicant shall be promptly notified in writing of any deferral or disapproval. A disapproval of an application shall not preclude reapplication. The applicant shall not be notified of an approval or fellowship award prior to transmittal of the fellowship agreement for execution by the applicant pursuant to § 46.140. Generally, fellowships will not exceed 1 year.

§ 46.136 Activation date.

Study must be initiated pursuant to an approved fellowship within 6 months following the date of the award notice or the fellowship will be terminated.

§ 46.140 Fellowship agreement.

The fellowship agreement is the written agreement, and amendments thereto, between EPA and a fellowship applicant in which the terms and conditions governing the fellowship are stated and agreed to by both parties. Upon approval of a fellowship for award, the fellowship agreement will be transmitted by certified mail (return receipt requested) to the applicant for execution. The fellowship agreement must be executed by the applicant and returned to the Grants Officer within 3 weeks after receipt, or within any extension of such time that may be permitted by the Grants Officer. The fellowship shall constitute an obligation of Federal funds in the amount and for the purposes stated in the fellowship instrument only upon execution of the fellowship agreement by the parties thereto. No costs may be incurred prior to the execution of the fellowship agreement by the parties thereto.

§ 46.141 Fellowship agreement amendment.

A fellowship amendment shall be effected only by a written amendment to the fellowship agreement executed by the Grants Officer on behalf of the Government and by the fellow on his own behalf entered into after the effective date of the fellowship.

§ 46.145 Payment.

All payments will be initiated at the time of activation of the fellowship.

V 38 - 18 JAN 29 73 XUM

(a) Stipend allowance will be made directly to the fellow on a monthly basis.

(b) Institutional allowances will be made directly to the sponsoring institution.

§ 46.150 Publications and thesis.

If appropriate, all publications including a thesis developed as a result of support under the EPA fellowship shall be submitted to the Grants Officer. No prior approval by EPA is required for publication of a thesis. A copy of any thesis must be filed with the Grants Officer upon publication. Any such written publications shall acknowledge Federal grant assistance by including a statement substantially as follows:

This project has been financed in part with Federal funds from the Environmental Protection Agency under fellowship number ---------- The contents do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use.

§ 46.155 Deviations.

Procedures of 40 CFR 30.1001 of the EPA general grant regulations shall be applicable to fellowships.

§ 46.165 Termination.

Fellow must notify EPA in writing when he terminates or changes his status as a student as approved under the fellowship. An EPA fellowship may be terminated only for good cause, which shall include but not be limited to termination of studies by the fellow, or failure of the fellow to comply with the terms and conditions of the fellowship agreement: *Provided*, That a termination action may not be taken unless the fellow has received written notice of the bases for the proposed action and has been afforded an opportunity to confer with appropriate EPA officials concerning the proposed action. Any termination action may be appealed in accordance with the Disputes Article of the EPA General Grant Conditions (Appendix A to Subchapter B of Title 40 CFR).

PART 48—MANPOWER FORECASTING [RESERVED]

[FR Doc.73-1612 Filed 1-26-73;8:45 am]

[40 CFR Part 180]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Sodium and Potassium Arsenite; Proposed Tolerances

The U.S. Department of Agriculture submitted a petition (PP 0E0908) proposing establishment of tolerances for residues of the insecticide sodium arsenite (expressed as As_2O_3) in kidney and liver of cattle, goats, horses, and sheep at 2.7 parts per million and in meat, fat, and meat byproducts of the animals at 0.7 part per million; such residues resulting from dermal application of sodium arsenite solution to these animals.

Subsequently, the petitioner withdrew the request for tolerances pertaining to goats and sheep and requested that both sodium arsenite and potassium arsenite formulations be approved.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the tolerances are proposed.

2. The proposed tolerances are safe and will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), it is proposed that Part 180 be amended by adding the following two new sections to Subpart C:

§ 180.334 Potassium arsenite; tolerances for residues.

(a) Tolerances for residues of the insecticide potassium arsenite (expressed as As_2O_3) resulting from dermal application to animals under the supervision of the U.S. Department of Agriculture are established in or on raw agricultural commodities as follows:

2.7 parts per million in kidney and liver of cattle and horses.

0.7 part per million in meat, fat, and meat byproducts (except kidney and liver) of cattle and horses.

(b) The U.S. Department of Agriculture will issue a certificate to the owner of the animals showing the composition of the pesticide formulation and dates of treatment, and also specifying a minimum preslaughter interval of 14 days.

§ 180.335 Sodium arsenite; tolerances for residues.

(a) Tolerances for residues of the insecticide sodium arsenite (expressed as As_2O_3) resulting from dermal application to animals under the supervision of the U.S. Department of Agriculture are established in or on raw agricultural commodities as follows:

2.7 parts per million in kidney and liver of cattle and horses.

0.7 part per million in the meat, fat, and meat byproducts (except kidney and liver) of cattle and horses.

(b) The U.S. Department of Agriculture will issue a certificate to the owner of the animals showing the composition of the pesticide formulation and dates of treatment, and also specifying a minimum preslaughter interval of 14 days.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, on or before February 28, 1973, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, on or before February 28, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, Fourth and M Streets SW., Waterside Mall, Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: January 22, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19644]

FM BROADCAST STATION IN COLORADO SPRINGS, COLO.

Proposed Table of Assignments; Extension of Time for Comments

Order extending time for filing comments and reply comments. In the matter of amendment of § 73.202(b), *Table of Assignments, FM Broadcast Station.* (Colorado Springs, Colo.), Docket No. 19644, RM-1886.

1. On December 6, 1972, the Commission adopted a Notice of Proposed Rule Making in the above captioned proceeding. Publication in the FEDERAL REGISTER was given on December 15, 1972, 37 FR 26740. Comment and reply comment dates are presently designated as January 19, and January 29, 1973, respectively.

2. On January 17, 1973, Western Broadcasting Co., licensee of Station KPIK-FM, Colorado Springs, Colo., and proponent in this proceeding, filed a petition for extension of time in which to submit comments and reply comments to and including January 29, and February 12, 1973, respectively. Counsel states that consulting engineer for Western has been working on a preclusion study but will be unable to meet the present deadline date. Counsel for KYSN Broadcasting Co., the only other party herein, has advised Western's counsel that he has no objection to the grant of this requested extension.

3. We are of the view that the requested extension is warranted and would serve the public interest. *Accordingly, it is ordered*, That the time for filing comments and reply comments in docket 19644 (RM-1886), is extended to and including January 29, and February 12, 1973.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended and § 0.281(d)(8) of the Commission's rules.

Adopted: January 19, 1973.

Released: January 22, 1973.

[SEAL] HAROLD L. KASSENS,
Acting Chief, Broadcast Bureau.

VETERANS ADMINISTRATION

[38 CFR Part 36]

FLOOD INSURANCE REQUIREMENTS

Special Flood Hazard Areas

The Veterans Administration is considering amending § 36.4326, Title 38 of the Code of Federal Regulations to specifically require flood insurance coverage on properties securing a loan guaranteed by the Veterans Administration in a special flood hazard area, as designated by the Secretary of Housing and Urban Development. The proposed amendment is issued pursuant to the authority of section 210(c), Title 38, United States Code.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (232H), Veterans Administration Central Office, 810 Vermont Avenue NW., Washington, DC 20420. All relevant material received before February 26, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) during the mentioned 30-day period and for 10 days thereafter. Any person visiting central office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in Room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in central office and furnished the address and the above room number.

Notice is also given that it is proposed to make any regulation that is adopted effective 30 days after the date of approval by the Administrator.

It is proposed to amend § 36.4326, Title 38 of the Code of Federal Regulations to read as follows:

§ 36.4326 Hazard insurance.

The holder shall require insurance policies to be procured and maintained in an amount sufficient to protect the security against the risks or hazards to which it may be subjected to the extent customary in the locality. Flood insurance will be considered customary in the locality if the security is located in a special flood hazard area, as designated by the Secretary of Housing and Urban Development. The amount of flood insurance required will be equal to the outstanding loan balance of the mortgage or the maximum limit of coverage authorized for the particular type of security, or a sum designated by the Administrator, whichever is less. An exception to the flood insurance requirement may be made if it is determined by the Administrator in an individual case that the security, although situated in a special flood hazard area designated by the Secretary of Housing and Urban Development, is clearly not subject to flood damage because of its particular location, elevation, or construction. All moneys received under such policies covering payment of insured losses shall be applied to restoration of the security or to the loan balance.

Approved: January 22, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

DEPARTMENT OF COMMERCE

Maritime Administration

U.S. MERCHANT MARINE ACADEMY ADVISORY BOARD

Notice of Public Meeting

Notice is hereby given of a meeting of the U.S. Merchant Marine Academy Advisory Board (the Board) on January 31, 1973, at 9:30 a.m. in the Board Room of Wiley Hall U.S. Merchant Marine Academy, Kings Point, Long Island, New York.

The Advisory Board to the United States Merchant Marine Academy was established by the Secretary of Commerce under the authority of 46 U.S.C. 1126d to examine the course of instruction and the overall management of the U.S. Merchant Marine Academy (the Academy) and advise the Assistant Secretary of Commerce for Maritime Affairs with respect thereto.

The Board consists of not more than seven members appointed by the Secretary of Commerce, selected from segments of the Maritime industry, labor, educational institutions and other fields relating to the objectives of the Academy.

The purpose of the meeting is to discuss the Academic Evaluation Study, Departmental Evaluations, the Facilities Plan, the Admission Standards and FY-74 Budget and projections.

The names of the Board, Agenda and other information pertaining to the meeting may be obtained from Miss Kathleen A. Shetler, Special Assistant to the Assistant Secretary of Commerce for Maritime Affairs, Dept. of Commerce, Maritime Administration, 14th & E Streets, NW., Washington, D.C. 20235, Room 3731, Telephone No. Area Code 202/967-2852.

Signed at Washington, D.C., on January 24, 1973.

HOWARD F. CASEY,
Deputy Assistant Secretary for Maritime Affairs.

[FR Doc.73-1814 Filed 1-26-73;11:03 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institute of Education

GRANTS FOR RESEARCH IN EDUCATION

Notice of Educational Research Areas and Closing Dates

Notice is hereby given that, pursuant to section 405 of the General Education Provisions Act, the National Institute of Education will conduct field-initiated studies grants for research in education program in fiscal year 1973. The program will make awards in support of original research proposals offering benefit to education and will encourage research in selected disciplines. It will respond to educationally relevant research ideas from all eligible persons and organizations, as provided in proposed §§ 1403.2(a) and 1400.4(e) of 45 CFR.

General regulations for the National Institute of Education, which will be codified as subchapter A, chapter XIV of 45 CFR, have been published in proposed form in the FEDERAL REGISTER. (38 FR 1020 Jan. 8, 1973)

Proposed § 1400.4(b) of 45 CFR provides that the Director may issue and publish announcements directed toward the award of grants or contracts. In addition, proposed § 1400.2 provides that the regulations of chapter XIV, subchapter A will be supplemented by special substantive and procedural rules and policies. This notice is made in accordance with these provisions. The procedures and substantive rules contained herein are not proposed for codification in chapter XIV of 45 CFR because they are intended to apply only for fiscal year 1973.

It is anticipated that field-initiated studies projects will be funded primarily through grant awards. However, as provided in proposed § 1400.4(c), procurement contracts may be used in other than the small grants competition based upon criteria set forth in subpart 3-1.53 of title 41 of the Code of Federal Regulations.

A. The following six funding activities will be conducted under the field-initiated studies program in fiscal year 1973:

1. *Grants for Research in Education.* (a) This activity covers proposals for educationally relevant applied and basic research by competent, established investigators in all fields of study except the disciplines selected below.

(b) *Scope.* The range of eligible studies covers preexperimental, historical, and philosophical review and syntheses, pilot explorations, empirical research on processes and phenomena; and exploratory development to include empirical identification of a developmental need, feasibility testing of alternative versions or a prototype, and development of design specifications. Consideration will be given also to proposals for integrative reviews of a field or area to provide state-of-the-art analyses, investigations, or improved research methodologies, studies in psychometrics, as well as research on educational research and development management.

(c) The research should show promise of contributing toward one or more of the following goals:

(1) To expand and strengthen the foundations of scientific knowledge about the processes and conditions of education.

(2) To provide tested solutions to specific practical problems of American education.

(3) To provide a perspective and clarification of the goals and issues of American education.

2. *Grants for Research in Education—Small Grants.* This activity considers proposals for educationally relevant applied and basic research by investigators who have not had time to establish an extensive record of research productivity. Federal funds requirements must be limited to $10,000 or less.

3. *Anthropology.* A special program to encourage research in Anthropology relevant to American education.

4. *Economics.* A special program to encourage research in economics relevant to American education.

5. *Political Science.* A special program to encourage research in political science relevant to American education.

6. *Legal Research.* A special program to encourage research on legal issues of American education.

B. *Project Duration.* The duration of approved projects shall be limited to 3 years, with the exception of the small grants program whose project period shall be limited to eighteen months.

C. *Award Procedures.* 1. *Evaluation Criteria.* Evaluation of proposals will be based upon criteria published in the NIE proposed general provisions for grant research programs. Awards will be made by the Director. (45 CFR 1403.10)

2. *Panel Review.* All proposals will be reviewed by NIE staff, with the assistance of the following panels composed of expert nongovernmental consultants:

(a) Learning and instruction.
(b) Human development.
(c) Objectives, measurement, evaluation and research methodology.
(d) Social thought and processes.
(e) Organization and administration.
(f) Anthropology.
(g) Economics.
(h) Political science and legal research.
(i) Small grants.

Applicants are invited to designate the panel to which they wish their proposal assigned for review. In the absence of such designation, NIE staff will make the assignment.

3. *Grants for Research in Education and Small Grants.* Applications for these activities will be filed in accordance with 45 CFR 1403.4.

4. *Selected Disciplines.* (a) The application and review procedures for the four selected disciplines (anthropology, political science, economics and legal research) will consist of two steps:

(1) The applicant will submit a three- to five-page prospectus for initial review;

(2) Applicants submitting the most highly rated prospectuses will be invited to submit formal research proposals for evaluation.

(b) *Prospectus Format.* The prospectus should provide the following information:

(1) Name, address, telephone number, present position, institutional affiliation, and social security number;

(2) A statement describing the proposed research problem and its significance to the relevant discipline and to American education;

(3) A summary of the proposed research design;

(4) A proposed budget, showing direct costs and indirect costs for the entire project.

D. *Closing Dates.* 1. The postmark deadline for submission of proposals for grants for research in education and small grants activities is March 1, 1973.

2. The postmark deadline for submission of prospectuses in selected disciplines activities is February 17, 1973.

E. Further information may be obtained from:

Field Initiated Studies Program
National Institute of Education
Code 600
Washington, D.C. 20202

F. It is the general policy of the Institute to provide opportunity for interested parties to take part in its rule-making process. However, this notice is given without such opportunity based upon the Director's finding that public comment is impracticable in view of the time pressures which dictate publication of a final rule at this time. Such finding is premised on the following reasons:

1. It is not possible to publish a general notice of proposed rule making to be followed by a 30-day comment period and still afford present and prospective applicants sufficient time for preparation of a prospective or application, as appropriate between publication of a final rule and the applicable closing date; and

2. It is not feasible to delay the closing date in view of the large number of proposals anticipated for this program, the complexities of the proposal review process, the necessity for obligating funds by June 30, 1973, and the Director's desire to give each proposal full consideration.

(Sec. 405 of the General Education Provisions Act, as added by Sec. 301(a)(2) of P.L. 92-318, 85 Stat. 328, 20 U.S.C. 1221e)

Effective date. This notice is effective on January 29, 1973.

Dated: January 11, 1973.

THOMAS K. GLENNAN, JR.,
Director, National Institute of Education.

[FR Doc.73-1678 Filed 1-26-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

WASHINGTON NATIONAL AIRPORT AND DULLES INTERNATIONAL AIRPORT

Policy Regarding Roles

Notice is hereby given that the Federal Aviation Administration (FAA) intends to refine its policy concerning the present and future roles of Washington National Airport (DCA) and Dulles International Airport (IAD) in meeting the needs for air transportation in the Washington area.

Notwithstanding the unqualified language in section 553(b) (A) of title 5, United States Code, exempting the formulation of general statements of policy from all requirements for notice and opportunity for public participation, the FAA considers this to be an instance in which public participation will be especially helpful in formulating its policy. It is also in line with the Department of Transportation's policy of regular consultation with users of the National Airspace System, the aviation industry, State and local government agencies, and the general public regarding major changes in policy and planning. For these reasons, the FAA is inviting interested persons to express their views or comments on the subject.

The FAA believes it is desirable to refine and make explicit its policy on the role of DCA and IAD. In addition to providing an explicit policy, a clear statement of the relative roles of the airports should be useful to the traveling public, the airlines, the affected communities, and any succeeding owner of the airports.

This policy recognizes the existence of the Metropolitan Council of Government's planning effort known as the "Regional Air Facilities Plan." When the results of this study are available, probably in late 1974, they will be evaluated in regard to possible application to this policy.

A. *Current characteristics of the airports.* In examining the two airports as a unified transportation system, it is necessary to delineate the most significant physical and operational characteristics of each airport. A brief discussion of these follows:

1. *Washington National Airport (DCA).* DCA, located 4½ miles from downtown Washington, is currently the most utilized Washington airport. Nearly 10.4 million air carrier passengers used DCA during fiscal year 1972. Airside capacity of DCA is approximately 60 Instrument Flight Rule operations per hour, of which 40 have been allocated to air carrier operations and 20 to other aircraft operations. The air carrier allocation is fully utilized during most hours of the day. Present terminal capacity of DCA is estimated to be approximately 3,500 passengers per hour. The present capacity is occasionally approached during peak hours. Metro service will facilitate handling of passengers at the airport. To reduce the effects of noise in the surrounding residential areas during the night, jet air carrier flights are not scheduled at DCA between 10 p.m. and 7 a.m.

The two major access roads to DCA, Route No. 1 and the George Washington Parkway, are also major commuting routes and are operating at or near capacity during peak hours. Frequent congestion occurs within the internal traffic system at DCA.

The main terminal building at DCA was constructed in the early 1940's, and the north terminal building was added in 1958. Although some significant modernization has been accomplished recently by several air carriers, the aesthetic appearance and internal circulation systems are in need of improvement and modernization.

2. *Dulles International Airport (IAD).* IAD, designed by Eero Saarinen, is generally recognized as one of the most beautiful and efficient airports in the country. The airport is located 26 miles from downtown Washington. Since its opening in November 1962, passenger use of IAD has grown to a level of just over 2.2 million air carrier passengers in fiscal year 1972.

Airside capacity of IAD is approximately 100 Instrument Flight Rule Operations per hour. Current peak hour air carrier utilization is approximately 20 operations per hour. Terminal capacity of approximately 1,800 passengers per hour is currently approached only during the peak hours. In contrast to DCA where air terminal utilization is high throughout the day, off-peak usage of IAD typically falls far below 50 percent of capacity.

B. *Differentiation of roles of the two airports.* When IAD was opened in November 1962, it was designated as the International and long-haul airport for the Washington area, and DCA was defined as the area's short-haul airport. In 1966, to help accomplish these roles, non-stop flights from DCA were limited to a radius of 650 miles with the exception of seven "grandfather" cities (Minneapolis, St. Louis, Memphis, Tampa, Orlando, Miami, and West Palm Beach).

The rationale underlying the short-haul versus long-haul differentiation stems from the close proximity of DCA to the Washington, D.C., central business district, as opposed to the much more distant location of IAD.

For most Washington area origins and destinations, particularly those within the District of Columbia, the access time to and from IAD is greater than that to and from DCA. Conversely, the greater access time between IAD and the central business district imposes a relatively lesser burden on the long-haul traveler since ground travel time represents a smaller percentage of the total time involved in long-haul trips. These considerations were responsible for the FAA's initial adoption of the short-haul versus long-haul differentiation.

It has been several years since the policy regarding the role of the two Washington airports was first established. Significant technical, economic, and social changes have occurred in the interim which call for a reconsideration of this policy. These include, among other things: (a) Increasing community concern over the environmental impact of the airports in the local area; (b) recent indications that use of the new wide-bodied DC-10's and L-1011's at DCA might be desirable as a means of reducing noise and air pollution around the airports; and (c) anticipated increases in air travel to and from the

V 38 18 JAN 29 73 J
XUM

Washington area, which will require expansion and/or more efficient utilization of existing airport capacity in the Washington area.

C. *Policy objectives.* The FAA's review and consideration of possible changes to or refinements of its policy concerning the Washington area airports has been undertaken with the following basic objectives in mind:

1. To rationalize the role and use of the airports from an overall transportation viewpoint;

2. To achieve fuller utilization of existing and planned capacity at the airports;

3. To reduce unnecessary constraints on the use of equipment at the airports;

4. To insure that the gorwth, use, and role of the airports are compatible with the changing demands and expectations of the community, especially with respect to environmental quality.

DCA and IAD are currently owned and operated by the Federal Government. It is the FAA's policy that the Federal Government should cease to own and operate DCA and IAD.

D. *Proposed policy decisions.* To achieve the basic policy objectives stated above, an overall policy encompassing the following points is proposed for adoption:

1. DCA will be operated solely as a short-haul airport insofar as air carrier operations are concerned. To accomplish this, DCA will permit nonstop air carrier service only within a radius of 650 miles. One-stop service will be limited to an origin and destination radius of 1,000 miles. These restrictions will be totally implemented by January 1, 1974. This policy will increase the utilization of Dulles by shifting longer haul flights from DCA to IAD.

2. The FAA will not seek any significant expansion of DCA. The FAA will, however, propose to undertake a modernization program for DCA aimed primarily at improving airport access and egress (including roadways to and from the airport and at the terminal building), baggage handling, and overall esthetics.

3. Air carriers will not be permitted to operate a new aircraft type into DCA unless the new aircraft is quieter and results on an average day in less emissions on a per-passenger-seat basis than the aircraft it replaces and is to be used for service within the range of the short-haul provisions of this policy. On the other hand, there will not be any restriction at DCA on any type of aircraft that is more acceptable in these terms, except as may be dictated by safety considerations or the physical limitations of the airfield.

4. The limitation of 60 flights per hour, including 40 air carrier operations per hour, as prescribed in section 93.123 of the Federal Aviation Regulations, will continue at DCA. In order to remain within the passenger capacity of the airport, the upper limitation of 40 air carrier operations per hour will be reduced as necessary as new large aircraft are scheduled into DCA.

5. The air carriers will be expected to continue their agreement not to schedule jet service in or out of DCA from 10 p.m. to 7 a.m.

6. Regular customs and associated international flight services will not be provided at DCA.

E. *Explanation of proposed policy decisions.* Official FAA projections indicate that growth in commercial air travel in the Washington area is expected to increase significantly in the next decade, rising from an actual level of 12.6 million enplanements and deplanements in fiscal year 1972, to an estimated 16.7 million in fiscal year 1976. The FAA has carefully considered (a) the roles which each airport might be able to take in accommodating this projected growth, and (b) the most desirable way to allocate the future growth in light of various economic, environmental, and social considerations.

1. *The short-haul role of DCA.* With respect to the utilization and roles of DCA and IAD, there are several important considerations:

(a) Because IAD is located much further from major residential areas than is DCA, any adverse environmental impact on residential areas resulting from increased airport use will be less at IAD than at DCA.

(b) IAD was constructed with later expansion in mind, whereas DCA has already been expanded about as far as it can go without incurring major new expenditures.

(c) Air travelers, as a group, have demonstrated a clear preference for use of DCA rather than IAD. This is attributable in part to its closer proximity to most origins and destinations in the area, but also to the fact that more flights and better connecting service have been made available by the airlines at DCA.

(d) The distances and ground travel times between IAD and the Washington central business district are greater than the corresponding distances and times at most major U.S. airports, but are approximately equal to those at three of the largest U.S. airports (Chicago O'Hare, New York John F. Kennedy International, and Atlanta).

(e) The distinct ground travel time advantage of DCA will be reduced by the development of a high speed transportation link between Dulles and the Washington central business district sometime in the future.

Although nonstop flights to and from DCA are currently restricted to points within a 650-mile radius (with the exception of the seven grandfather cities previously mentioned), DCA has been used increasingly by some air carriers to provide "long-haul" service to points beyond the 650-mile radius. This is done by scheduling a stop within that radius and then proceeding to the long-haul destination. In many cases, this one-stop service to a point beyond a 650-mile radius of DCA is either the only service available between the Washington area and the points involved, or is superior to service between that point and IAD. This practice circumvents the purpose of the short haul policy applicable to DCA.

To assure that DCA's limited capacity is devoted to short-haul service, it will be necessary to eliminate (1) nonstop service to the seven grandfather cities, and (2) one-stop flights between DCA and points beyond a radius of 1,000 miles. The FAA proposes to accomplish this on a time-phased basis (to be announced later and to be completed by January 1, 1974). A major consequence of this action will be to shift medium and long-haul service to IAD and other area airports.

2. *Improvement of DCA.* Both the existing and the proposed new limitations at DCA are designed to reduce any adverse environmental impact which might result from future operations of DCA. Therefore, a principal element of the proposed policy is to avoid any significant expansion of capacity at DCA but, at the same time, to enhance the efficiency, convenience and comfort of the airport through improvements in airport access and egress, passenger and baggage handling, overall aesthetic appearance, and compatibility with the surrounding community.

3. *Removal of existing equipment restriction at DCA.* At the present time, the wide bodied jets (DC–10's and L–1011's) have not been introduced at DCA. Recent tests indicate they are significantly quieter than other jet airplanes now in service at DCA. Moreover, the operating expense per available seat-mile for these aircraft is less than for other jets now in service at that airport. There are inherent advantages in increased usage of larger aircraft, particularly in relation to the Air-Shuttle operations. Extra sections on the Shuttle amounted to a significant 4,531 during Fiscal Year 1972. If the 270-seat DC–10's or L–1011's were used on the regular Shuttle flights, a noticeable reduction in the number of extra sections would result. Any such decrease would be both environmentally and economically beneficial, particularly during peak hours. Similar benefits would, of course, occur at LaGuardia and Newark Airports.

These benefits warrant removing the existing equipment restrictions at DCA, subject to appropriate environmental and safety considerations. The existing equipment restrictions will be removed in phase with the imposition of the new distance restrictions. The continued relaxation of the present equipment restrictions will be contingent upon the continued maintenance of the new distance restrictions.

The FAA believes that implementation of this proposed policy will give the airlines greater flexibility in the use and scheduling of aircraft. The FAA will expect, however, that the airlines will operate in such a way that the existing hourly capacity of DCA will be utilized for the benefit and convenience of the traveling public and without creating undue peak hour congestion. Further operating restrictions will be implemented by the FAA if a problem should arise.

The FAA intends to monitor events closely at both airports as the proposed policy is being implemented and on a regular basis thereafter and will consider further changes in operating procedures as may be required. This policy will be reviewed in depth by the end of 1976, and a revised policy issued at that time, if warranted.

F. *Effective date and submission of comments.* It is proposed that this policy become effective June 1, 1973. Any interested person who wishes to express his views or comment with respect to this policy may do so by submitting them in writing to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC–24, 800 Independence Avenue SW., Washington, DC 20591. All communications received prior to March 30, 1973, will be considered by the Administrator in the formulation of a final policy.

A Draft Environmental Impact Statement on the expected consequences of this proposed policy has been prepared in compliance with the National Environmental Policy Act of 1969. A copy of the draft Environmental Impact Statement may be reviewed at the FAA, Office of Environmental Quality, 800 Independence Avenue SW., Washington, DC 20591. Following review of all comments on the proposed policy and the draft Environmental Impact Statement, a final Environmental Statement will be prepared and submitted to the Council of Environmental Quality and the final policy statement will be published in the FEDERAL REGISTER upon adoption by the Administrator.

This policy is proposed under the authority of section 1301 of title 7 of the District of Columbia Code; 1961 Edition, section 2 of the Act of June 29, 1940, as amended (72 Stat. 731), section 4 of the Act of September 7, 1950, as amended (72 Stat. 731), and section 6(C) of the Department of Transportation Act (49 U.S.C. 1655(c)) and § 1.47(a) of the Regulations of the Office of the Secretary of Transportation.

Issued in Washington, D.C., on January 24, 1973.

ROBERT F. BACON,
Director, Office of Aviation, Policy and Plans, Federal Aviation Administration.

Atomic Energy Commission

[Dockets Nos. 50–295, 50–304]

COMMONWEALTH EDISON CO.

Notice and Order Changing Date of Prehearing Conference

JANUARY 23, 1973.

Take notice that because of the officially scheduled National Day of Mourning in honor of former President Lyndon B. Johnson, it has become necessary to cancel the originally scheduled date for the prehearing conference in the above captioned case, which was originally scheduled for January 25, 1973, in Chicago, Ill., and to reschedule said prehearing conference for February 1, 1973. This prehearing conference will commence at 10 a.m. local time at the following address: Everett McKinley Dirksen Building, Court Room 2119, 21st floor, 219 South Dearborn Street, Chicago, IL 60604.

The subject matter of this newly scheduled prehearing conference will be the same as that set forth in the original Notice and Order for Prehearing Conference dated January 3, 1973.

All members of the public are entitled to attend the prehearing conference, as well as the evidentiary hearing itself.

It is so ordered.

Issued at Washington, D.C. this 23d day of January 1973.

For the Atomic Safety and Licensing Board.

THOMAS W. REILLY, Esq.,
Chairman.

[FR Doc.73–1665 Filed 1–26–73;8:45 am]

FEDERAL WATER POLLUTION CONTROL ACT AMENDMENTS OF 1972

Memorandum of Understanding Regarding Implementation of Certain Complementary Responsibilities

The Environmental Protection Agency (EPA) has authority under the Federal Water Pollution Control Act Amendments of 1972, Public Law 92–500 (FWPCA), over, among other things, certain discharges into navigable waters of pollutants from nuclear facilities and other activities requiring a license or permit from the Atomic Energy Commission (AEC). The AEC, under the National Environmental Policy Act of 1969 (NEPA), also has certain responsibility and authority to consider and take action with respect to environmental impact of discharges of pollutants. This responsibility and authority of AEC under NEPA is in turn affected by section 511 of the FWPCA. For the purpose of implementing NEPA and the FWPCA in a manner consistent with both acts and the public interest, EPA and AEC agree pursuant to their respective statutory authorities as follows:

1. AEC will exercise its responsibility and authority under NEPA as modified by section 511 of the FWPCA in accordance with the Interim Policy Statement appearing under 10 CFR Part 50 at 38 FR 2679 *supra*. This Statement of Policy requires, among other things, that AEC in its licensing actions accept decisions under specified sections of the FWPCA with respect to compliance with limitations or other requirements promulgated or imposed pursuant to the FWPCA. Where no decisions under these sections have been made, AEC will give due regard to EPA's views as expressed in comments on AEC draft environmental statements.

2. EPA will to the maximum extent practicable expedite the issuance of effluent limitations and the processing of applications for permits under section 402 of the FWPCA for nuclear facilities and other activities requiring an AEC license or permit which are subject to the requirements of 10 CFR Part 50, appendix D.

3. It seems certain that many licensing decisions by AEC will have to be made prior to the time that effluent limitations or other requirements have been established or discharge permits have been issued, as prescribed by the recent amendments to the FWPCA and that, conversely, many decisions with respect to establishment of effluent limitations or other requirements or issuance of discharge permits will be made after licenses for affected nuclear facilities or other activities have been issued by AEC. It is clear from the recent amendments to the FWPCA (section 304(b) and 306(b)) that Congress intended that EPA, in establishing effluent limitations and other requirements, give consideration not only to water quality, but also to such other factors as cost, the age of equipment and facilities involved, control techniques, process changes, nonwater quality environmental impact and energy requirements. These factors are also appropriate for consideration, to the extent authorized by the FWPCA and consistent with any applicable effluent limitations, in regard to issuance of discharge permits pursuant to section 402 of the FWPCA for facilities and activities previously licensed by AEC, as contemplated hereinabove.

4. Nothing in this memorandum is intended to restrict the statutory authority of either agency.

5. This Memorandum of Understanding shall take effect upon the signing by authorized representatives of the respective agencies and approval by the Council on Environmental Quality. The Memorandum of Understanding shall thereafter by published in the FEDERAL REGISTER.

For the United States Atomic Energy Commission.

L. MANNING MUNTZING,
Director of Regulation.

JANUARY 15, 1973.

For the United States Environmental Protection Agency.

JOHN R. QUARLES, JR.,
Assistant Administrator for Enforcement and General Counsel.

JANUARY 19, 1973.

Approved by the Council on Environmental Quality for the Council.

TIMOTHY ATKESON,
General Counsel.

JANUARY 22, 1973.

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on February 21, 1973, at 10 a.m. (local time) in Room

V38-18 JAN 29 73 XUM

1027, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before Administrative Law Judge Ross I. Newmann.

In order to facilitate the conduct of the conference, parties are instructed to submit to the administrative law judge and other parties (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Operating Rights will circulate its material on or before February 6, 1973, and the other parties on or before February 13, 1973. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Operating Rights.

Dated at Washington, D.C., January 23, 1973.

[SEAL] RALPH L. WISER,
Chief Administrative Law Judge.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN COSTA RICA

Entry or Withdrawal from Warehouse for Consumption

JANUARY 22, 1973.

On November 28, 1972, the U.S. Government requested the Government of Costa Rica to enter into consultations under Articles 3 and 6(c) of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concerning exports to the United States of cotton textile products in Category 51 produced or manufactured in Costa Rica. Public notice of this request was published in the FEDERAL REGISTER on December 7, 1972 (37 FR 26056). Since no solution has been mutually agreed upon, the U.S. Government, in furtherance of the objectives of, and under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textile done at Geneva on February 9, 1962, including Articles 3 and 6(c), which relate to nonparticipants, is establishing a restraint at the requested level of 17,747 dozen for the period beginning November 28, 1972, and extending through November 27, 1973. This restraint does not apply to cotton textile products in Category 51, produced or manufactured in Costa Rica and exported to the United States prior to November 28, 1972.

There is published below a letter of January 22, 1973, from the chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amount of cotton textile products in Category 51, produced or manufactured in Costa Rica, which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning November 28, 1972, be limited to 17,747 dozen.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

JANUARY 22, 1973.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, including Article 6(c) thereof relating to nonparticipants, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible, and for the 12-month period beginning November 28, 1972, and extending through November 27, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption, of cotton textile products in Category 51, produced or manufactured in Costa Rica, in excess of a level of restraint for the period of 17,747 dozen.[1]

Entries of cotton textile products in Category 51, produced or manufactured in Costa Rica and which have been exported to the United States from Costa Rica prior to November 28, 1972, shall not be subject to this directive.

Cotton textile products in Category 51 which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

A detailed description of Category 51 in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Costa Rica and with respect to imports of cotton textile products from Costa Rica have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

FEDERAL POWER COMMISSION

[Docket No. E-7942]

NANTAHALA POWER & LIGHT CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 19, 1973.

Take notice that Nanatahala Power & Light Co. (Nantahala) on December 29, 1972, tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by $35,325 based upon sales for the 12-month period ending December 31, 1971, to become effective February 1, 1973. The company cites rising costs and a low rate of return as reasons for the increase.

Copies of the filing were served on Nanatahala's jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street, NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 26, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1658 Filed 1-26-73;8:48 am]

PETROLEUM CORP.

[Docket No. CI73-472]

Notice of Application

JANUARY 22, 1973.

Take notice that on January 11, 1973, The Petroleum Corp. (Applicant), 3303 Lee Parkway, Dallas, TX 75219, filed in Docket No. CI73-472 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Co. from the Dublin-Ellenburger Field, Lea County, N. Mex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 2,000 Mcf of gas per day at 38 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment, for 1 year within the contemplation of § 2.70 of the Commission general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1606 Filed 1-26-73;8:45 am]

[Docket No. CI73-449]

TEXAS GULF, INC.

Notice of Application

JANUARY 22, 1973.

Take notice that on December 18, 1972, Texas Gulf, Inc. (Applicant), Room 1803, 811 Rusk Avenue, Houston, TX 77002, filed in Docket No. CI73-449 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Columbia Gas Transmission Corp. (Columbia) from block 146, West Cameron area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Columbia at an initial rate of 35 cents per Mcf at 15.025 p.s.i.a. subject to upward and downward B.t.u. adjustment. The basic contract for the subject sale, dated September 12, 1972, provides for price escalations of 2 cents per Mcf every 2 years and a contract term of 20 years.

Applicant asserts that the 35-cent initial rate is reasonable in today's interstate market, particularly in light of recently negotiated intrastate contracts in Louisiana and in other areas at higher rates, such as the sales reported at 52 cents and 73 cents per Mcf in Oklahoma and Ohio, respectively. Applicant believes that this sale will assist in assuring that Columbia will have adequate supplies of natural gas to meet the demands of its customers during the term of the instant contract.

In the alternative, if the optional pricing procedure is not available, Applicant requests that the subject sale be authorized under paragraph 12 of the Commission's notice of July 17, 1970, in Docket No. R-389A, initial rates for future sales of natural gas for all areas. In said notice the Commission said that it would consider applications by independent producers notwithstanding that the proposed price may be in excess of the area ceiling or guideline rates.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1607 Filed 1-26-73;8:45 am]

[Docket No. CI73-448]

TEXAS GULF, INC.

Notice of Application

JANUARY 22, 1973.

Take notice that on December 18, 1972, Texas Gulf, Inc. (Applicant), filed in Docket No. CI73-448 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continuation of sales for resale of natural gas in interstate commerce to Columbia Gulf Pipe Line Co. (Columbia), Michigan Wisconsin Pipe Line Co. (Michigan), and Natural Gas Pipeline Co. (Natural), from acreage in the Orange Grove Area, Terrebonne Parish, La.; Jeanerette (North) Field, St. Mary Parish, La.; and Block 144, West Cameron Area, offshore Louisiana, respectively, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant is holder of a small producer certificate in Docket No. CS71-383 and states that it has sold natural gas pursuant to three contracts involving the aforesaid sales under said certificate. Applicant further states that the current price for gas sold under the Orange Grove Area contract to Columbia is 21.1 cents per Mcf at 15.025 p.s.i.a. subject to downward B.t.u. adjustment, under the Jeanerette (North) Field contract to Michigan is 21.625 cents per Mcf at 15.025 p.s.i.a. subject to downward B.t.u. adjustment, and the Block 144 contract to Natural is 29.0 cents per Mcf at 15.025 p.s.i.a. including 1.0 cent per Mcf upward B.t.u. adjustment.

On December 12, 1972, in Docket No. 71-1560, et al. the U.S. Court of Appeals for the District of Columbia Circuit ordered that Commission Order No. 428, which promulgated small producer regulations, be set aside. As the certificate authority under which Applicant made the three sales described herein is now called into question. Applicant requests authorization to continue said sales under paragraph 12 of the Commission's

V 38 - 18 JAN 29 73 XUM

notice issued July 17, 1970, in Docket No. R-389A. In that notice the Commission said that it would consider applications by independent producers for sales of natural gas notwithstanding that the proposed price may be in excess of the area ceiling or guideline rates.

Applicant asserts that the contract rates for the subject sales are below current rates for substitute gas supplies and that any reduction in revenues from these sales would have the inevitable effect of lessening Applicant's ability to explore for and develop gas reserves at a time of severe gas shortage when that ability needs to be increasing.

Any person desiring to be heard or to make any protest with reference to said application should, on or before February 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.18 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1608 Filed 1-26-73;8:45 am]

FEDERAL RESERVE SYSTEM

FIRST STEUBEN BANCORP, INC.

Order Approving Acquisition of Bank

First Steuben Bancorp, Inc., Steubenville, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to The First National Bank of Hopedale, Hopedale, Ohio (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisiton of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls one bank, The First National Bank and Trust Company in Steubenville, Steubenville, Ohio (First National), with total deposits of $80.6 million, representing 0.3 percent of the total commercial deposits in Ohio.[1] Consummation of the proposal herein would increase its proportion of State deposits by only 0.02 percent and accordingly would not result in a significant increase in the concentration of banking resources in Ohio.

Bank ($5.8 million in deposits) is the only banking institution in the village of Hopedale (population 916), a rural community located in the southeastern portion of Ohio, 18 miles west of Steubenville. It is the second largest of three commercial banks in the Cadiz banking market (the relevant market) and controls 25.8 percent of area deposits. The largest competitor therein holds 59.7 percent of market deposits and is a subsidiary of the largest multibank holding company in the State. From the facts of record, it appears that consummation of the proposed transaction would have no present or future adverse competitive effect on the banks in the market, but rather, should stimulate additional competition among them.

Bank and First National essentially operate in separate banking markets[2] and the closest banking offices of the two are 8.5 miles apart. Although their adjoining service areas slightly overlap, it does not appear that a significant amount of existing competition would be eliminated by consummation of this proposal. Further, the restrictive branching laws in Ohio and the fact that Hopedale is not attractive as a de novo bank site preclude any potential for increased future competition between Applicant and Bank. On the basis of the foregoing, the Board concludes that the competitive considerations with respect to this transaction are consistent with approval of the application.

The financial condition and managerial resources of Applicant, its subsidiary bank, and Bank are considered upon consummation, are favorable. It to be satisfactory and prospects for all, appears that Bank has generally satisfied the needs of the community. Applicant proposes to expand the operations of Bank and to improve the quality of services now being rendered by offering trust services, larger loans, data processing services, and an improved student loan program. Accordingly, considerations relating to the convenience and needs of the community to be served are consistent with, and lend weight toward, approval of the application. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[3] effective January 18, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1633 Filed 1-26-73;8:45 am]

[1] Banking data are as of June 30, 1972.

[2] First National operates 7 offices, holding 26.9 percent of total deposits, in the Steubenville-Weirton banking market.

[3] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs. Temporary Reg. F-165]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a natural gas rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the interests of the executive agencies of the Federal Government before the Public Service Commission of Utah in a proceeding (Docket No. 6668) involving natural gas rates of the Mountain Fuel Supply Co.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Acting Administrator of General Services.

JANUARY 19, 1973.

DEPARTMENT OF THE TREASURY

Office of the Secretary

LOAN TO THE GOVERNMENT OF ISRAEL

Invitation To Bid

I. *Invitation to bid—classes of bidders.* The Secretary of the Treasury, acting for the Secretary of Defense by this notice and under the terms and conditions hereof invites bids on the interest rate on a $100 million loan to the Government of Israel. The loan is described in section II hereof. Bidding hereunder shall be subject to the "Regulations Governing the Sales of Treasury Bonds Through Competitive Bidding" (31 CFR 340) insofar as applicable.

The purpose of the loan is to provide private financing for the purchase by the Government of Israel of defense articles and services from U.S. sources under the Foreign Military Sales Act, as amended, Public Law 90-626, October 22, 1968, 82 Stat. 1326; 22 U.S.C. 2571-2793 and Executive Order 11501, December 22, 1969, 34 FR 20169.

Bids will be received only from incorporated banks, trust companies, recognized dealers in investment securities, and other financial institutions doing business in the United States. Bids must be submitted to the Federal Reserve Bank of New York in accordance with the provisions of the last section hereof.

II. *Description of loan agreement committee fee.* (a) The attached Model Loan Agreement contains all of the principal provisions of the loan except that after the award of bids it will be filled in to reflect that:

(1) The amount of the loan is $100 million;

(2) Each aggregate drawdown on the loan, except the last, will be at least $500,000;

(3) The initial drawdown is anticipated to be made on or before April 1, 1973;

(4) There will be a commitment period from the date of the execution of the loan agreement to and including March 31, 1974, or such earlier date as the entire commitment of the lender shall have been availed of;

(5) The principal of the loan will be repayable in 10 consecutive semiannual installments of $10 million, payable on January 31 and July 31 of each year commencing on January 31, 1974;

(6) Interest will be payable semiannually on January 31 and July 31 of each year commencing on July 31, 1973;

(7) Interest payable on and after January 31, 1974 will be paid with the principal.

(b) There will be a commitment fee, payable semiannually, of one-quarter of 1 percent (¼ of 1 percent) per annum on the daily average unused amount of the commitment commencing April 1, 1973, or the initial drawdown on the loan, whichever is earlier. The commitment fee will be calculated on a 365-day basis and actual days elapsed.

III. *U.S. Government guaranty of loan—guaranty fee.* The loan agreement provides that the obligation of the lender is to be conditioned upon the issuance by the United States of a guaranty of timely payment of principal and interest by the borrower. The guaranty will further provide that the United States agrees that any claim which it may now or hereafter have against any beneficiary for any reason whatsoever shall not affect in any way the right of any other beneficiary to receive full and prompt payment of any amount otherwise due under this guaranty.

In addition, the borrower covenants at section 5(b) of the loan agreement that:

> Any claim which it may now or hereafter have against any person, corporation, firm, or association or other entity (including without limitation, the United States, DOD, any bank, any assignee of any bank, and any supplier of the Defense items) in connection with any transaction, for any reason whatsoever, shall not affect the obligation of the borrower to make the payments required to be made to the undersigned under this loan agreement, or under the notes, and shall not be used or asserted as a defense to the payment of such obligation or as a setoff, counterclaim, or deduction against such payments.

The guaranty, which is authorized by the Foreign Military Sales Act, will be made by the Government of the United States acting through the Department of Defense. The Act provides that "any guaranties issued hereunder shall be backed by the full faith and credit of the United States".

The maximum liability of the Government of the United States under the guaranty will be $105 million, and that sum will be so stated in Article II of the attached guaranty agreement.

The aggregate guaranty fee will be $262,500, one-quarter of 1 percent (¼ of 1 percent) of the aforesaid maximum liability to be paid by the lender as a conduit of the borrower.

IV. *Tax exemptions.* (a) There will be no—

(1) Federal income tax resulting from section 7.1 of the loan agreement which will provide that the borrower shall pay to the lender the guaranty fee charged to the latter by the Department of Defense. (The lender will be acting merely as a conduit.)

(2) Federal stamp tax;

(3) Interest equalization tax; or

(4) Tax imposed by the Government of Israel.

V38-18 JAN 29 73 XUM

(b) The interest paid on the loan by the Government of Israel will constitute income from sources without the United States in the hands of the lender or any holder of the promissory notes or participations in the loan. Since the interest is foreign source income, there will be no U.S. withholding under any circumstances.

V. *The loan, promissory notes, participations—eligibility for purchase by national banks as collateral for treasury tax and loan accounts, etc.* (a) Because of the guaranty, the loan, the promissory notes and the participations are deemed to be fully and unconditionally guaranteed obligations of the United States backed by its full faith and credit. Accordingly, they will not be subject to the lending limits of national banks or to the limitations and restrictions concerning dealing in, underwriting and purchase of investment securities.

(b) Section 1.4 of the loan agreement authorizes the sale of participations to legal entities doing business in the United States. Such participations will be acceptable from special depositaries of public money at their face amount to secure deposits under Department of the Treasury Circular No. 92, current revision (31 CFR 203), provided that they adequately identify the loan and meet the following conditions:

(1) The participation certificate contains the following provisions: "Participant may assign or endorse over this participation certificate to the (Name of the Federal Reserve Bank or Branch of the territory in which the participant is located) in connection with a pledge of colateral security to protect a Treasury tax and loan account under Treasury regulations published at Title 31, Code of Federal Regulations, Part 203. In the event that this participation certificate is assigned to (Same bank or branch as above), it shall not be further assigned or subdivided without prior written notice to that bank and the prior written consent of this bank."

(2) The participation certificate is supported by the original or certified copies of the guaranty agreement relating to the basic loan and the necessary power of attorney and resolution in favor of the Reserve Bank as prescribed in 31 CFR 203.8(d).

(3) The guaranty agreement provides that the guaranty referred to therein is transferable to any participant or beneficiary.

VI. *Submission of bids—acceptance and opening of bids.* Each bid shall be submitted in triplicate on the letterhead of the bidder and shall specify a single annual rate of interest which shall apply on a 365-day basis only to the portions of the loan in use. The rate shall be expressed as a percent per annum not to exceed three decimals, for example, 5.125 percent. Each bidder may submit a bid for the entire amount of the loan or portions thereof in multiples of $5 million.

The bids must be enclosed and sealed in envelopes and must be received in the Securities Department of the Federal Reserve Bank of New York, 33 Liberty Street, New York, NY 10045, not later than 11 a.m., e.s.t., on February 9, 1973. By having submitted a bid, any bidder receiving an award will be deemed conclusively to have accepted all the provisions of the loan agreement and upon receipt of an award will be required to sign, at the aforesaid address, three copies of the agreement. The Government of the United States will thereafter, in Washington, D.C., promptly secure the signature of the borrower to three copies and return one of them to any such bidder.

Bids will be opened at the Federal Reserve Bank at 11 a.m., e.s.t., on February 9, 1973. In determining successful bids, those specifying the lowest rate of interest will be accepted to the extent required to attain the aggregate amount of the loan.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

JANUARY 26, 1973.

MODEL LOAN AGREEMENT

Loan agreement made and entered into the ____ day of _____, 19____, between the Government of _____ (hereinafter sometimes referred to as the "Borrower") and _____ (hereinafter sometimes referred to as the "Undersigned").

Whereas by public notice (which notice is incorporated in this agreement as if fully set forth herein) the Secretary of the Treasury has invited bids on a loan in the amount of $_____ to the Borrower at the lowest basis cost of money;

Whereas the Undersigned has submitted a bid for the hereinafter more fully described loan at an annual rate of ____ percent per annum, payable semiannually;

Now, therefore, in consideration of the premises and of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

SECTION 1. *Commitment.* 1.1 Subject to the terms and conditions of this Loan Agreement the Undersigned agrees to make loans to the Borrower at any time and from time to time from the date of this Loan Agreement to and including (or such earlier date as the entire loan offered herein by the Undersigned shall have been availed of), in an aggregate principal amount up to the amount of U.S. Dollars (U.S. $_____).

1.2 Each borrowing hereunder shall be made on such date (hereinafter referred to as a "Disbursement Date") as may be designated by the Borrower upon three (3) days' concurrent written notice from the Borrower to the Undersigned. The initial borrowing hereunder shall be made prior to _____, 19____. Except for the last borrowing, each such notice shall request a borrowing aggregating at least _____ (U.S. $_____). Each notice requesting disbursement (a) shall specify the amount of the loan to be made by the Undersigned on the Disbursement Date; (b) shall be delivered to the Undersigned at its address set forth in section 7.3 hereof; (c) shall specify the account of the Borrower at such Bank to which the proceeds of each loan are to be credited; and (d) shall have annexed thereto the documentation set forth in Exhibit A (Disbursement Procedures) annexed hereto.

1.3 The Borrower hereby agrees to pay to the Undersigned a commitment fee computed at the rate of one-quarter of one percent (¼ percent) per annum on the daily average unused amount of the Commitment from _____ to and including _____ (or such earlier date as the entire Commitment of the Undersigned shall have been availed of). Such commitment fee shall be calculated on a 365-day basis and actual days elapsed.

1.4 The Undersigned may sell participations in the loan to legal entities doing business in the United States.

1.5 At the time at which the Borrower shall send the notices required by section 1.2 above to the Undersigned it shall deliver thereto a promissory note (which shall be substantially in the form of Exhibit B annexed hereto (with the blanks appropriately filled in)) evidencing the obligation of the Borrower to repay the amount of the loan from the Undersigned with interest thereon as hereinafter set forth. Upon request by the Undersigned at any time, the Borrower shall deliver to the Undersigned, in place of any such promissory note, two or more separate promissory notes in such amounts, aggregating not more than the amount of the note such notes shall replace, as shall be specified by the Undersigned. The promissory notes hereinabove referred to are hereinafter referred to as the "Notes" and individually as a "Note".

SEC. 2. *Repayment.* 2.1 The Borrower hereby agrees:

(a) To pay interest on the outstanding balance of the principal of the loans made under this Loan Agreement on a fixed semiannual basis, such interest payments to begin _____, 19____, and thereafter on _____, 19____, and each _____ and _____ following, until the entire principal of the loans shall have been repaid; and

(b) To repay the principal of the loans made under this Loan Agreement in accordance with the Principal Repayment Schedule set forth in Exhibit C annexed hereto.

(i) If on any installment repayment date set forth in the Principal Repayment Schedule the Borrower shall not have availed itself of the Commitment of the Undersigned in an aggregate amount (less repayments previously made) equal to the aggregate installment of principal which is repayable on such date to the Undersigned, the Borrower shall, on such installment repayment date, repay to the Undersigned the full amount (less repayments previously made) to which it has availed itself of the Commitment of the Undersigned to such date, together with the interest accrued thereon. If at any time thereafter the Borrower shall avail itself of the Commitment of the Undersigned in an amount which would have been payable on a prior installment repayment date but for the provisions of the immediately preceding sentence, such amount, together with interest accrued thereon, shall be repayable on the next succeeding installment date of the Principal Repayment Schedule occurring after the disbursement of such amount and the said aggregate installment of principal repayable under the Principal Repayment Schedule to the Undersigned on that date shall be increased by such amount.

(ii) If by the date specified in paragraph 1.1 above, the Borrower shall not have availed itself of the entire amount of the Commitment, the installments of principal repayable to the Undersigned set forth in the Principal Repayment Schedule shall be reduced in the inverse order of the maturity thereof to the extent of the unused balance of the Commitment.

2.2 The Undersigned may sell or assign, at any time, in whole or in part, any one or more of the Notes and/or its rights to receive repayments.

2.3 Each Note shall be dated the Disbursement Date of the loan which such Note evidences and shall bear interest at a rate of _____ percent (_____%) per annum on the unpaid principal amount of such Note until such amount shall be paid in full. Such interest on each Note shall be payable with the principal as provided in 2.1. The Notes shall be completed by the Borrower in such a manner that repayment of such loans shall be made in the order of their disbursement, utilizing the Principal Repayment Schedule set forth in Exhibit C (as the same may be adjusted in accordance with sections 2.1(b)(i) and 2.1(b)(ii) hereof), and, in determining whether a particular loan is payable in one or more installments, utilizing a particular installment payment date only after the full utilization of the next preceding installment date.

2.4 The Borrower may, with the prior written consent of the Undersigned, which consent will not be unreasonably withheld, prepay any of the Notes held by the Undersigned, in whole or in part, on any repayment date, with accrued interest to the date of such prepayment on the amount prepaid.

2.5 Whenever any payments hereunder or under any Note shall be due on a Saturday, Sunday or public holiday under the laws of the District of Columbia, such payment may be made on the next succeeding business day, and such extension of time shall, in such case, be included in computing interest in connection with such payment, but excluded from the next interest period.

2.6 All payments by the Borrower to the Undersigned under this Loan Agreement and on the Notes, including without limitation payments of principal of, and interest on, the Notes and payment of any commitment fees or other fees or expenses hereunder, shall be payable to the Undersigned at the address set forth in section 7.3 hereof in U.S. dollars and in immediately available funds.

SEC. 3. *Representations and warranties.* The Undersigned has entered into this Loan Agreement and will make the loans provided for herein on the basis of the following representations and warranties of the Borrower.

3.1 The Borrower has full power, authority and legal right to incur the indebtedness contemplated in this Loan Agreement on the terms and conditions contained herein, and to execute, deliver and perform this Loan Agreement and the Notes;

3.2 The execution, delivery and performance of this Loan Agreement and the Notes will not violate any provisions of, and have been duly and validly authorized under, the laws of the Borrower, and all actions necessary to authorize the borrowings hereunder and the execution, delivery and performance of this Loan Agreement and the Notes have been duly taken; and

3.3 This Loan Agreement has been, and each of the Notes when issued will be, duly executed and delivered by persons thereunto duly authorized, and this Loan Agreement constitutes, and each of the Notes when issued will constitute, the valid, legally binding, direct and unconditional general obligation of the Borrower, enforceable in accordance with its respective terms.

SEC. 4. *Conditions of lending.* 4.1 The obligation of the Undersigned to make the initial loan to be made by it hereunder is subject to the condition precedent that, prior to the first Disbursement Date, it shall have received an opinion in the English language of the Legal Adviser to the Ministry of Defense of the Government of _____, dated the date of the initial Disbursement Date, to the same effect as sections 3.1, 3.2, and 3.3 hereof, and to the further effect that specified officials of the Borrower identified by name and title in such opinion are duly authorized to execute and deliver this Loan Agreement, the Notes and such other documents as may be required hereunder on behalf of the Borrower, to establish and draw upon an account of the Borrower at the Bank to which account the Undersigned shall disburse the proceeds of all borrowings hereunder, and to certify to such Bank on behalf of the Borrower the identity, names and titles of any other or additional officials of the Borrower who thereafter may be so authorized.

4.2 The obligation of the Undersigned to make the initial loan to be made by it hereunder is subject to the further conditions precedent that, prior to the first disbursement, it shall have received:

(a) The guaranty of the United States (the "Guaranty"), executed by DOD, guaranteeing it against all political and credit risks of nonpayment of the obligations of the Borrower to the Undersigned hereunder (including the entire amount of the principal loaned by the Undersigned hereunder and interest thereon at the rate determined as specified herein, but excluding any amounts owing for commitment fees or other fees or expenses), up to a maximum aggregate liability to the Undersigned under the Guaranty on the part of the United States of $_____ dollars (US$_____), pursuant to the Act; and

(b) An opinion of the General Counsel of DOD, to the effect that (i) DOD has full power, authority, and legal right to execute, deliver and perform the Guaranty, (ii) the Guaranty has been executed in accordance with and pursuant to the terms and provisions of the Act and DOD has not, in issuing the guaranty, exceeded the maximum amount of guaranties authorized to be issued under the Act, (iii) the Guaranty has been duly executed and delivered by a duly authorized representative of DOD, and (iv) the Guaranty constitutes the valid and legally binding obligation of the United States, enforceable in accordance with the terms thereof and backed by the full faith and credit of the United States.

4.3 The obligation of the Undersigned to make any loan to be made by it hereunder, including the initial loan, is subject to the further conditions precedent that:

(a) No event of default within the meaning of section 6 of this Loan Agreement, and no other default with respect to any of the Notes, shall have occurred;

(b) The Undersigned shall have received a Note or Notes payable to its order (or to the order of such other person or persons as the Undersigned may specify) in the amount of the particular loan, executed by the duly authorized representatives of the Borrower;

(c) The Undersigned shall have received the documentation specified in Exhibit A annexed hereto, executed by the duly authorized representatives of the Borrower; and

(d) All legal matters incident to the Guaranty and the transactions contemplated by this Loan Agreement shall be satisfactory to the counsel of the Undersigned.

SEC. 5. *Covenants.* The Borrower covenants and agrees that from and after the date of this Loan Agreement and so long as any amounts remain unpaid on account of the Notes or otherwise under this Loan Agreement:

(a) All payments on account of the principal of, and interest on, the Notes, commitment fees and other fees and expenses shall be made free and clear of, and without deduction for, any and all taxes, levies, imposts, duties, fees, charges, deductions, withholdings, restrictions, or conditions of any nature whatsoever now or hereafter imposed, levied, collected, or assessed with respect thereto by the Borrower of any central or local authority thereof or therein;

(b) Any claim which it may now or hereafter have against any person, corporation, firm, or association or other entity (including without limitation, the United States, DOD, any Bank, any assignee of any Bank, and any supplier of the Defense items) in connection with any transaction, for any reason whatsoever, shall not affect the obligation of the Borrower to make the payments required to be made to the Undersigned under this Loan Agreement, or under the Notes, and shall not be used or asserted as a defense to the payment of such obligation or as a setoff, counterclaim, or deduction against such payments;

(c) It will pay any and all stamp taxes and other taxes of similar character, if any, now or hereafter in effect, imposed with respect to this Loan Agreement or the Notes (including, without limitation, any U.S. Interest Equalization Tax or similar future tax), and will save the holder of any Note harmless from any and all losses or liabilities with respect to or resulting from any delay or omission to pay such taxes.

(d) Any legal action or proceeding against it by the Undersigned with respect to this Loan Agreement or the Notes may be brought in the Superior Court of the District of Columbia or in the U.S. District Court for the District of Columbia or in the Courts of the Borrower, as the Undersigned may elect, and by execution and delivery of this Loan Agreement, the Borrower submits to each such jurisdiction. In the case of the Superior Court of the District of Columbia or of the U.S. District Court for the District of Columbia, the Borrower consents to the service of process out of said Courts by mailing copies of such process by registered United States mail, postage paid, to it at its address set forth in section 7.3 hereof; and

(e) All loans made hereunder shall be utilized solely for the procurement of the Defense Items pursuant to Purchase Arrangements authorized by DOD.

SEC. 6. *Defaults.* Upon the occurrence of any of the following events or default:

(a) If the Borrower fails for a period of ten (10) days to make any payment of principal of, or interest on, any Note or of any commitment fee hereunder, when due; or

(b) If any representation or warranty made by the Borrower herein or in any certificate furnished by the Borrower pursuant hereto, proves to be at any time incorrect in any material respect; or

(c) If the Borrower defaults in the performance of any other term, convenant or agreement contained in this Loan Agreement, and such default shall continue unremedied for thirty (30) days after written notice thereof shall have been given to the Borrower by the Undersigned;

then, and in any such event, the holder of any Note may declare immediately due and payable the unpaid principal of, and accrued interest on, all Notes held by such holder and such amounts shall become immediately due and payable without protest, presentment, notice or other demand of any kind, all of which are hereby expressly waived by the Borrower, and the Undersigned may terminate its Commitment hereunder.

SEC. 7. *Miscellaneous.* 7.1 Upon the execution of this Loan Agreement, the Borrower shall pay to the Undersigned the aggregate sum of $_____ in payment of the fee charged by DOD with respect to the Guaranty.

7.2 No failure to exercise and no delay in exercising on the part of the Undersigned, any right, power, or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power, or privilege preclude any other or further exercise thereof, or the exercise of any other power or right. The rights and remedies herein provided are cumulative and not exclusive of any rights or remedies provided in this Loan Agreement.

7.3 Except as otherwise provided in this Loan Agreement, all notices, requests, or demands hereunder shall be deemed to have

V38-18 JAN 29 73 XUM

been given or made upon the mailing of the same by airmail, postage prepaid, or in the case of telegraphic notice, on delivery to the telegraph company, addressed in the case of the Borrower to the Director, Defense Mission, Government of Israel, with a copy to the Treasury Representative of the Government of Israel, both at 850 Third Avenue, New York, N.Y., 10022, and in the case of the Undersigned to or to such other addresses as any party may from time to time hereafter designate in writing to the other.

7.4 This Loan Agreement and the Notes shall be construed and interpreted in accordance with the laws of the District of Columbia, United States of America, unless prior to the execution of this Loan Agreement and the Notes the parties hereto have by written stipulation agreed that the laws of another jurisdiction of the United States shall be applied.

7.5 This Loan Agreement shall be binding upon and inure to the benefit of the Borrower and the Undersigned and their respective successors and assigns, except that the Borrower may not assign its rights hereunder without the prior written consent of the Undersigned. All agreements, covenants, representations, and warranties made herein shall survive the delivery of the Notes and the making of the loans hereunder.

7.6 This Loan Agreement may be executed in any number of counterparts, each of which when so executed and delivered shall be an original, but all the counterparts shall together constitute a single instrument. Exhibits A and B attached hereto are, by this reference, made a part of this Loan Agreement.

7.7 In case any one or more of the provisions contained in this Loan Agreement or in any of the Notes should be invalid, illegal, or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and therein shall not in any way be affected or impaired thereby.

In Witness whereof, the parties hereto have caused this Loan Agreement to be executed and sealed by their duly authorized officers and representatives on the day and year first above written.

DISBURSEMENT PROCEDURES

The following procedures and conditions shall be complied with prior to each disbursement to be made by the Undersigned to the Borrower:

1. The designated representative of the Government of ---------- shall execute and deliver each request for disbursement to the Undersigned at its address set forth in section 7.3 of the foregoing Loan Agreement.

2. Each request shall be accompanied by a copy of the written communication from DOD authorizing the Borrower to enter into the Purchase Arrangement(s) pursuant to which the disbursement is requested.

3. Each request also shall be accompanied by a certification of the Borrower as follows:

"The Government of ---------- confirms that the proceeds of this disbursement will be applied entirely to the payment of amounts that have become properly due pursuant to the Purchase Arrangement(s) authorized by the Department of Defense of the United States of America in the attached written communication. This disbursement is requested by the Government of ---------- pursuant to the terms of the Loan Agreement of ---------- between the Government of ---------- and the Undersigned, and confirms that the said Purchase Arrangement(s) (was/were) authorized by the Department of Defense of the United States of America pursuant to the aforesaid Loan Agreement. The Government of ---------- further confirms that the Borrower to which this certification is addressed is authorized to make this disbursement by crediting the amount thereof to Account Number ----, at such Bank, and that ----------, whose signature appears below, is (and, until further written notice, shall continue to be) authorized to draw upon such account on behalf of the Government of ----------.

"Signature of the representative of the Government of ---------- who is authorized to draw upon its account:

PROMISSORY NOTE

NEW YORK, N.Y. ----------
(Date)

US $----------

FOR VALUE RECEIVED, the Undersigned, the Government of ----------, hereby promises to pay to the order of ----------, or its assigns, the principal sum of ---------- United States dollars (US $----------) as follows:

----------	----------
(Amounts)	(Dates)

together with interest on any and all amounts remaining unpaid hereunder from time to time from the date hereof until this Note shall be paid in full, payable semiannually on ---------- and ---------- ---- of each year from the date hereof, commencing ----------, 197--, at the rate of ------ percent (------%), per annum. Such interest shall be calculated using a 365-day factor, both principal and interest to be payable in immediately available funds in lawful money of the United States of America at the office of the payee at ---------- ----------, or at the principal place of business of the assignee. All payments made on account of the principal amount hereunder shall be endorsed by the payee, or its assigns, on the reverse side of this Note.

Whenever any payment to be made shall be due on a Saturday, Sunday, or a public holiday under the laws of the District of Columbia, such payment shall be made on the next succeeding business day, and such extension of time shall in such case be included in computing interest in connection with such payment, but excluded from the next interest period.

This Note is one of the Notes referred to in the Loan Agreement dated ----------, 197--, between the Government of ---------- ---------- and ----------. It is entitled to the benefits of and may be prepaid on the terms and conditions specified in said Loan Agreement. Prepayments shall be applied to the installments hereof in the inverse order of their maturity.

All payments of principal of, and interest on, this Note are payable free and clear of, and without deduction for, any taxes, levies, imposts, duties, fees, charges, deductions, withholdings, restrictions or conditions of any nature whatsoever now or hereafter imposed, levied, collected or assessed with respect thereto by the Government ---------- ---------- or any central or local authority thereof or therein.

Upon the occurrence of any event of default specified in said Loan Agreement, the entire unpaid principal hereof and interest hereon to the date of payment may be declared to be forthwith due and payable as provided in said Loan Agreement. The Government of ---------- promises to pay all out-of-pocket costs and expenses (including the reasonable fees and out-of-pocket expenses of counsel) in connection with collection after default of this Note.

GUARANTY AGREEMENT

This guaranty agreement, made and entered into on the ---- day of ----------, 197--, (hereinafter called the "Guaranty"), between the ---------- organized and existing under the laws of the United States of America, (hereinafter called the "Lender(s)"), on the one part, and the Government of the "United States", acting through the Department of Defense of the United States (hereinafter called "DOD"), on the other part;

WITNESSETH:

Whereas, the Government of---------- ------ (hereinafter called the "Borrower") desires to purchase certain defense articles and defense services (hereinafter called "defense items") from United States sources; and

Whereas, the Lender(s) has entered into a Loan Agreement dated ----------, (hereinafter called the "Loan Agreement"), with the Borrower to provide for the extension of credit to the Borrower of up to U.S. ------ dollars; and

Whereas, the Lender(s) obligation under the Loan Agreement to make the initial loan thereunder is conditioned upon the issuance of a guaranty from the United States against all political and credit risks of nonpayment by the Borrower of its obligations under the Loan Agreement to pay the principal of and interest on all extensions of credit by the Lender(s) under the Loan Agreement; and

Whereas, it is intended that each loan under the Loan Agreement will be repaid by the Borrower in ------ substantially equally consecutive semi-annual installments on ---------- during the term thereof commencing on the first such date which occurs not less than ---- days after the date of such loan, together with interest on each installment payment at the interest rate set forth in the Notes; and

Whereas, the aforesaid credit will be available only to finance the purchase of defense items from United States sources; and

Whereas, the Loan Agreement will provide for the issuance by the Borrower to the Lender(s) of promissory notes evidencing the loans made by the Lender(s) from time to time under the Loan Agreement (herein called the "Notes"); and

Whereas, the Loan Agreement by the Lender(s) will facilitate and will be in furtherance of the purposes of the Foreign Military Sales Act, Public Law 90-629, as amended (hereinafter called the "Act").

Now, therefore, in consideration of the premises and of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

ARTICLE I

The United States, acting through DOD, in consideration of the fee specified in Article IV of this Guaranty Agreement, and except as otherwise specified in this Guaranty Agreement, hereby unconditionally and irrevocably guarantees, under the authority of section 24 of the Act, the due and punctual payment in U.S. dollars of all amounts payable by the Borrower as principal of all loans made by the Lender(s) under the Loan Agreement and as interest at the rate set forth in the Notes whether or not such obligations are evidenced by Notes. Any disbursement by the Lender(s) shall be considered for the purpose of this Guaranty, to be a loan made by the Lender(s) under the Loan Agreement if in fact the funds so disbursed are applied to the purchase of articles or services approved in writing by the Department of Defense for purchase by the Borrower under the Loan Agreement, or if such disbursement is made in accordance with the procedures to be specified in the Loan Agreement and the Lender(s) is in receipt of documents that on their face conform to such requirements and indicate that DOD has approved in writing the purchase by the Borrower for which the disbursement is requested.

This Guaranty is a guaranty of payment covering all political and credit risks of nonpayment, including any nonpayments arising out of any claim which the Borrower may now or hereafter have against any person, corporation, firm, or association, or other entity (including, without limitation, the United States, the Lender(s) and any supplier of Defense Items) in connection with any transaction, for any reason whatsoever. This Guaranty shall inure to the benefit of and shall be enforceable by the Lender(s), its respective successors by operation of law, or its respective endorsees, assignees, or transferees (the Lender(s) and any such successor by operation of law, endorsee, assignee, or transferee being hereinafter individually sometimes called a "Beneficiary" and collectively the "Beneficiaries"). All provisions of this Guaranty shall be severally applicable to any Beneficiary acting in its own right in connection with the Notes, the Loan Agreement or this Guaranty.

The United States hereby waives diligence, demand, protest, presentment, and any requirement that any Beneficiary of this Guaranty exhaust any right or power to take any action against the Borrower and any notice of any kind whatsoever other than the demand for payment required to be given to DOD hereunder in the event of default on a payment due under the Notes.

The United States further agrees that any claim which it may now hereafter have against any Beneficiary for any reason whatsoever shall not affect in any way the right of any other Beneficiary to receive full and prompt payment of any amount otherwise due under this Guaranty.

The full faith and credit of the United States is pledged to the performance of this Guaranty.

The United States represents and warrants that (a) it has full power, authority and legal right to execute, deliver and perform this Guaranty, (b) this Guaranty has been executed in accordance with and pursuant to the terms and provisions of the Act and DOD has not, in issuing this Guaranty, exceeded the maximum amount of guarantees authorized to be issued under the Act, (c) this Guaranty has been duly executed and delivered by a duly authorized representative of DOD, and (d) this Guaranty constitutes the valid and legally binding obligation of the United States, enforceable in accordance with the terms thereof.

ARTICLE II

Notwithstanding the provisions of Article I above, the maximum liability of DOD under this guaranty shall not exceed---------- ----------.

ARTICLE III

Payment by DOD in the event of a default in the payment of any Note, or any portion thereof, by the Borrower shall be made promptly to the Beneficiary in New York Federal Reserve Funds at the address specified by the Beneficiary (which in the case of the Lender(s) shall be its address set forth opposite its signature below) upon demand to DOD by the Beneficiary after such default has continued for more than 15 days. The amount payable under this Guaranty shall be the amount of any principal and interest then in default, together with interest at the rate then applicable to the defaulted note from the date of default to the date of payment by DOD. No interest shall be payable by DOD for any period following 30 days after default if the Beneficiary fails to make such demand within 30 days after default. DOD reserves the right to make payments due to a Beneficiary from the Borrower whether or not demand to DOD by the Beneficiary therefor has been made. Upon payment by DOD to a Beneficiary, such Beneficiary will assign to the United States, without recourse to or warranty by such Beneficiary, the corresponding amount of such Beneficiary's rights to such payment from the Borrower.

ARTICLE IV

DOD acknowledges receipt from the Lender(s) of payment of a guaranty fee of ------.

ARTICLE V

So long as this Guaranty Agreement is in effect and the United States is not in default hereunder, in the event of a default under the Loan Agreement or in the payment of any Note, or any portion thereof, by the Borrower

(a) The Lender(s) shall not accelerate or reschedule payment of the principal amount of or interest on any of the Notes except with the written approval of DOD; and

(b) Lender(s) shall, if so directed by DOD, invoke the default provisions of the Loan Agreement, and shall suspend any further disbursements to, or on behalf of the Borrower until the Lender(s) has been advised by DOD that it may resume payments under its Commitment.

ARTICLE VI

The Lender(s) will not agree to any material amendment of the Loan Agreement or consent to any material deviation from the provisions thereof without the prior written consent of DOD.

ARTICLE VII

Any Beneficiary's rights under this Guaranty may be assigned to any individual, corporation, partnership, or other association doing business in the United States of America. In the event of such assignment DOD shall be promptly notified.

ARTICLE VIII

Any notice, demand, request or the like on behalf of the United States hereunder will be effective for the purposes hereof if signed by the Director, or Deputy Director, Defense Security Assistance Agency, or their respective successors in office and delivered to the Lender(s) at its address set forth opposite its signature below. Any notice, demand, request or the like on behalf of any Beneficiary of this Guaranty will be effective for the purpose hereof if signed by an authorized official of any such Beneficiary and delivered to the Director, Defense Security Assistance Agency.

In witness whereof, the parties hereto have caused this Guaranty to be duly executed and sealed on the date first mentioned above.

[Notice 8]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 22, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of these applications must be filed with the field official named in the FEDERAL REGISTER publication, on or before February 12, 1973. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 14125 (Sub-No. 6 TA), filed January 9, 1973. Applicant: PIQUA TRANSFER & STORAGE CO., 524-530 Young Street, Piqua, OH 45356. Applicant's representative: David L. Pemberton, 50 W. Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Buildings, complete, knocked down, or in sections, and component parts, materials, supplies*

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

and fixtures used in the erection or assembly thereof, from the plantsite of Inland Homes, Division of Inland Systems, Inc., at Piqua, Ohio to points in Illinois, Indiana, Iowa, Kentucky, Michigan, New York, Pennsylvania, and West Virginia, for 180 days. Supporting shipper: Inland Homes, Division of Inland Systems, Inc., 1950 Covington Avenue, Piqua, OH 45356. Send protests to: Paul J. Lowry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 5514-B Federal Building, 550 Main Street, Cincinnati, OH 45202.

No. MC 34156 (Sub-No. 4 TA), filed January 8, 1973. Applicant: NIEDERT MOTOR SERVICE, INC., 1300 Oakwood Avenue, Des Plaines, IL 60018. Applicant's representative: Daniel Sullivan, 327 South LaSalle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *General commodities* (except commodities in bulk, household goods as defined by the Commission, classes A and B explosives and commodities requiring special equipment), between Chicago, Ill., and Lake, McHenry, Boone, Cook, DuPage, Kane, DeKalb, Will, Kendall, and La Salle Counties, Ill.; (2) *general commodities* (except commodities in bulk, household goods as defined by the Commission, classes A and B explosives and commodities requiring special equipment), between points in (1) above on the one hand, and, on the other, points in Illinois; and (3) *general commodities* (except commodities in bulk, household goods as defined by the Commission, classes A and B explosives and commodities requiring special equipment), from points in Cook, DuPage, and Lake Counties, Ill., to points in Lake and Porter Counties, Ind., for 180 days. NOTE: Applicant states that it will interline with approximately 115 carriers absolutely necessary to continue service. Supported by: There are approximately 14 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: William J. Gray, Jr., Area Supervisor, Bureau of Operations, Interstate Commerce Commission, 219 South Dearborn Street, Room 1086, Chicago, IL 60604.

No. MC 43246 (Sub-No. 16 TA), filed January 10, 1973. Applicant: BUSKE LINES, INC., 123 West Tylet Street, Litchfield, IL 62056. Applicant's representative: Harold W. Buske (same address as above). Authority sought to operate as a *contract carrier,* by motor vehicle, over irregular routes, transporting: *Canned chili, chili mix, chili hot dog sauce and canned evaporated milk,* from (1) Litchfield, Ill., to Seneca, Mo., and W. Seneca, Okla., and points in Arkansas, Kansas, Iowa, Texas, and Kentucky; and (2) from Seneca, Mo., and W. Seneca, Okla., to points in Arkansas, Kansas, Iowa, Texas, Kentucky, Oklahoma, and Missouri, for 180 days. Supporting shipper: Robert P. Ogle, Director of Sales, Litchfield Creamery Co., Litchfield, Ill. 62056. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 518 Leland Office Building, 527 East Capitol Avenue, Springfield, IL 62701.

No. MC 59570 (Sub-No. 36 TA), filed December 27, 1972. Applicant: HECHT BROTHERS, INC., 2075 Lakewood Road, Route 9, Toms River, NJ 08753. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Limestone,* natural, ground, in bulk, in dump and pneumatic vehicles, from Perth Amboy, N.J., to points in Pennsylvania, Delaware, Maryland, Connecticut, New York, and Rhode Island, for 180 days. Supporting shipper: Ocean Industries, Inc., Post Office Box 1130, 920 State Street, Perth Amboy, NJ 08862. Send protests to: Richard M. Regan, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 428 East Street, Room 204, Trenton, NJ 08608.

No. MC 109637 (Sub-No. 389 TA), filed January 8, 1973. Applicant: SOUTHERN TANK LINES, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Applicant's representative: John Nelson (same address as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquified petroleum gas,* in bulk, in tank vehicles, from Crossville, Ill., and points within five (5) miles thereof, to points in Kentucky, for 180 days. Supporting shipper: C. McIntosh, Warren Petroleum Co., a Division of Gulf Oil Corp., Post Office Box 1589, Tulsa, OK 74102. Send protests to: Ross A. Davis, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1518 Walnut Street, Room 1600, Philadelphia, PA 19102.

No. MC 117427 (Sub-No. 64 TA), filed January 11, 1973. Applicant: G. G. PARSONS TRUCKING CO., Post Office Box 1085, North Wilkesboro, NC 28659. Applicant's representative: Henry L. Moore (same address as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Rough lumber,* from Wilkesboro, N.C., to Sumter, S.C., for 180 days. Supporting shipper: Ray Shepherd Lumber Co., Box 941, North Wilkesboro, NC Send protests to: Frank H. Wait, Jr., Bureau of Operations, Interstate Commerce Commission, Suite 417, BSR Building, 316 E. Morehead Street, Charlotte, NC 28202.

[FR Doc.73-1642 Filed 1-26-73;8:45 am]

[No. MC-136519]

JOHN RICHARDS ET AL.

Denial of Application

At a session of the Interstate Commerce Commission, Operating Rights Board, held at its office in Washington, D.C., on the 22d day of December 1972.

It appearing, that by application filed March 7, 1972, as amended, John Richards, Beth Richards, and David Jones, a partnership, doing business as Trans-Way Co., of Moscow, Pa., seeks a permit authorizing operations, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of the commodities and between the points substantially as indicated below;

It further appearing, that on May 26, 1972, and May 31, 1972, George W. Brown, Inc., jointly for itself and as operator of both K. M. Transportation, Inc., and R. C. Motor Lines, Inc., Worster Motor Lines, Inc., respectively, filed protests to the application;

It further appearing, that by order entered July 11, 1972, protestants were directed to comply with the provisions of Rule 247(e)(3) of the Commission's rules of practice, and that September 21, 1972, was fixed as the date on or before which protestants might file verified statements in opposition to the application, which time was subsequently extended to October 20, 1972;

It further appearing, that protestants did not file verified statements in opposition to the application and, therefore, in accordance with Rule 46(b) of the Commission's general rules of practice, are deemed to be in default and to have waived any further hearing, and the proceeding may now be disposed of without other formal proceedings as to the defaulting parties;

It further appearing, that the application is now unopposed, has not involved the taking of testimony at a public hearing, or the submission of evidence by opposing parties in the form of affidavits, and the public interest will best be served by disposition of the matter without issuance of a report and recommended order;

It further appearing, that although named in the OP-OR-9 application form filed herein, Newark, N.Y., was omitted from the FEDERAL REGISTER publication as a point to be served in the base radial territory;

It further appearing, That the evidence of record demonstrates a need for such service, and the grant of authority will, therefore, be accordingly modified;

It further appearing, That although the shipper evidence refers to movements from and to points in Maryland and the District of Columbia, such points have been deleted from the application by amendment and that otherwise the evidence shows a need only for radial service between shipper's New York and Pennsylvania facilities on the one hand, and on the other, points in Connecticut;

It further appearing, That because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings of this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate pleading setting forth in detail the manner in which it has been so prejudiced;

It further appearing, That applicant is under common control with Trans-Way Co., a corporation, the holder of Permit No. MC-135182 (Sub-No. 1), and the said common management has not been subject to prior Commission approval;

It further appearing, that inasmuch as the evidence submitted in the form of verified statements in support of the application fails to disclose whether applicant is in compliance with the pertinent statutory requirements relative to common control or management, our grant of authority herein will be conditioned upon the person or persons engaging in such common control or management filing an application for approval thereof under section (5)(2) of the Interstate Commerce Act or filing an affidavit indicating why such approval is unnecessary;

And it further appearing, that the evidence submitted in the form of verified statements in support of the application amply warrants the grant of authority set forth below, which has been rephrased to conform to current Commission practice; therefore:

We find, that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of materials, supplies and products used in or produced by the food processing industry (except in bulk), between Erie and North East, Pa., and Westfield, Dunkirk, Buffalo, and Newark, N.Y., on the one hand, and, on the other, points in Connecticut, under a continuing contract with Welch Foods, Inc.; will be consistent with the public interest and the national transportation policy; that applicants is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder, that a permit authorizing such operations should be granted, (1) subject to the conditions that the person or persons who control the operations both of the applicant, the partnership, and Trans-Way Co., a corporation, shall first obtain approval of such control under the provisions of section 5(2) of the Act or if such approval is not needed, shall so inform the Commission by affidavit, and (2) subject to the further condition described below; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 218, and 221(c) of the Interstate Commerce Act, with the Commission's rules and regulations thereunder, with the requirements established in Contracts of Contract Carriers, 1 M.C.C. 628, and with the conditions outlined below within the time specified below, and the grant of the Commission's approval, if such approval is in fact necessary, an appropriate permit will be issued subject to the prior publication in the FEDERAL REGISTER of a notice of the authority actually granted herein;

It is further ordered, That unless the person or persons engaged in the common control or management of applicant and any other carrier operating in interstate or foreign commerce apply for approval thereof under section 5(2) of the Act, or submit an affidavit indicating why such approval is unnecessary, on or before April 23, 1973, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of said compliance time.

It is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 218, and 221(c) of the act withir 90 days after the aforementioned application under section 5(2) of the act shall have been approved or dismissed or determined to be unnecessary, the grant of authority made herein shall be considered as null and void and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

It is further ordered, That should the Commission determine that the aforementioned approval is necessary and withholds such approval, the grant of authority made herein shall be considered as null and void and the application shall stand denied in its entirety.

And it is further ordered, That this order shall be effective on January 23, 1973.

By the Commission, Operating Rights Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. MC 96612 (Sub-No. 12)]

SEA-LAND FREIGHT SERVICE, INC.

Order for Hearing

In regard Sea-Land Freight Service, Inc., Elizabeth, N.J.

It is ordered, That the above-entitled proceeding be, and it is hereby, referred to Joint Board No. 80 for hearing on the 6th day of March 1973 (3 days), at 9:30 a.m. U.S. standard time, at Olympia, Wash., and for the recommendation of an appropriate order thereon, accompanied by the reasons therefor. A tentative time allowance is shown for this hearing. Location of hearing room will be by subsequent notice.

Dated at Washington, D.C., this 12th day of January 1973.

By the Commission, Commissioner Murphy.

[SEAL] ROBERT L. OSWALD, *Secretary.*

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.

Coast Guard—Pollution prevention vessel and oil transfer facilities (partial effective date)..... 28250; 12-21-72

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

ECONOMIC STABILIZATION—Cost of Living Council amendments on mandatory price and pay rules in the food industry; effective 1-11-73 2762

PUBLIC INFORMATION—FCC issues policy statement on audio/visual coverage of Commission proceedings; applicable as of 1-30-73 2786

Title 3—The President

PROCLAMATION 4181

National Moment of Prayer and Thanksgiving

By the President of the United States of America

A Proclamation

A long and trying ordeal for America has ended. Our Nation has achieved its goal of peace with honor in Vietnam.

As a people with a deep and abiding faith, we know that no great work can be accomplished without the aid and inspiration of Almighty God. No time could be more fitting for grateful prayer and meditation than the opening moment of the peace we have achieved with His help.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, as requested by the Congress, do hereby designate 7:00 p.m., e.s.t., January 27, 1973 as a National Moment of Prayer and Thanksgiving, and the 24-hour period beginning then as a National Day of Prayer and Thanksgiving.

I urge all men and women of goodwill to join the prayerful hope that this moment marks not only the end of the war in Vietnam, but the beginning of a new era of world peace and understanding for all mankind. I authorize the flying of the American flag at the appointed hour, and I call on all the people of the United States to observe this moment with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-sixth day of January, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

[FR Doc.73-1835 Filed 1-26-73;2:45 pm]

V 38 - 19 JAN 30 73 XUM

PROCLAMATION 4182

International Clergy Week in the United States

By the President of the United States of America

A Proclamation

Mediators between God and man and healers among people, clergymen are the custodians of the sacred.

To be a clergyman is a lofty calling which often entails difficulty and continuing sacrifice. Clergy serve their fellow men in parishes, hospitals, war zones, classrooms, orphanages, prisons, soup kitchens. In developing countries they assist in forming cooperatives, running playgrounds, relieving the hungry, sick and homeless.

Clergymen of the world contribute vastly to the cohesion, stability and growth of civilization. They urge respect for law, minister to humanitarian needs, counsel the afflicted, exhort to a higher morality, preserve and transmit the religious traditions of the ages.

To encourage all Americans to pay tribute to the clergymen of the world, the Congress, by House Joint Resolution 163, has requested the President to proclaim the week commencing January 28, 1973, as International Clergy Week in the United States.

It is therefore in this spirit of appreciation for the world's clergy and in recognition of their singular contribution to the spiritual, social and cultural evolution of society, that I, Richard Nixon, President of the United States of America, proclaim the week beginning January 28, 1973, as International Clergy Week in the United States. I call upon all Americans to honor clergymen of all faiths, in this country and abroad, by appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of January in the year of our Lord, nineteen hundred seventy-three and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

[FR Doc.73-1945 Filed 1-29-73;12:05 pm]

V 38 - 19 JAN 30 73 XUM

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of the Interior

Section 213.3112 is amended to show that positions of Territorial Management Interns when filled on a temporary basis by persons selected by the Government of the Trust Territory of the Pacific Islands are excepted under Schedule A.

Effective on January 30, 1973, paragraph (h) is added to § 213.3112 as set out below.

§ 213.3112 Department of the Interior.

* * * * *

(h) *Office of the Deputy Assistant Secretary for Territorial Affairs.* (1) Positions of Territorial Management Interns, GS–5, when filled by persons selected by the Government of the Trust Territory of the Pacific Islands. No appointment may extend beyond 1 year.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73–1715 Filed 1–29–73;8:45 am]

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Orders 32, 50, 62, 64, and 65; Docket No. AO–313–A23, etc.]

MILK IN SOUTHERN ILLINOIS AND CERTAIN OTHER MARKETING AREAS

Order Amending Orders

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the respective marketing areas.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within each of the respective marketing areas, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending each of the specified orders, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the respective orders as hereby amended; and

(3) The issuance of the order amending each of the specified orders is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the respective marketing areas shall be in conformity to and in compliance with the terms and conditions of the aforesaid orders, as amended, and as hereby further amended, as follows:

PART 1032—MILK IN THE SOUTHERN ILLINOIS MARKETING AREA

1. Section 1032.60 is revised as follows:

§ 1032.60 Producer-handlers.

Sections 1032.40 through 1032.54, 1032.61 through 1032.90 and 1032.110 through 1032.122 shall not apply to a producer-handler.

2. In § 1032.62, paragraph (b)(5) is revised as follows:

§ 1032.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus five cents, or the Class II price, whichever is higher; and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

3. In § 1032.71, a new paragraph (c–1) is added to read as follows:

§ 1032.71 Computation of the uniform price.

* * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * *

4. In § 1032.84, paragraph (b)(2) is revised to read as follows:

V 38 - 19 JAN 30 73 XUM

§ 1032.84 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1032.70(f).

5. Immediately following § 1032.89, a new centerhead and new §§ 1032.110 through 1032.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1032.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1032.121 (b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1032.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1032.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1032.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group of participating producers, in total, pursuant to § 1032.113(c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1032.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives, but not less than five.

§ 1032.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1032.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1032.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1032.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1032.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1032.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1032.110 and 1032.117.

§ 1032.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select, from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1032.110 and 1032.117;

(c) Keep minutes, books, and records, and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1032.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1032.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1032.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1032.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1032.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1032.71(c–1): *Provided:* That, such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refund with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1032.71(c–1).

§ 1032.121 Duties of the market administrator.

Except as specified in § 1032.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1032.113(c);

(b) Set aside the amounts subtracted under § 1032.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1032.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1032.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1032.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1032.110 through 1032.122).

(d) Make necessary audits to establish that all agency funds are used only for authorized purposes.

§ 1032.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1032.83.

PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

1. Section 1050.60 is revised as follows:

§ 1050.60 Producer-handlers.

Sections 1050.40 through 1050.54, 1050.61 through 1050.90, and 1050.110 through 1050.122 shall not apply to a producer-handler.

2. In § 1050.62, paragraph (b)(5) is revised as follows:

§ 1050.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price), subtract its value at the weighted average price applicable at such location plus 5 cents, or the Class II price, whichever is higher; and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) less the value of such skim milk at the Class II price.

3. In § 1050.71, a new paragraph (c–1) is added to read as follows:

§ 1050.71 Computation of the uniform price.

* * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

4. In § 1050.84, paragraph (b)(2) is revised to read as follows:

§ 1050.84 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1050.70(f).

5. Immediately following § 1050.89, a new centerhead and new §§ 1050.110 through 1050.122 are added as follows:

V 38 - 19 JAN 30 73 XUM

ADVERTISING AND PROMOTION PROGRAM

§ 1050.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1050.121 (b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1050.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations as provided for under § 1050.113(b), is authorized one agency representative for each full 10 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 10 percent of the total participating producers that have elected not to combine pursuant to § 1050.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group of participating producers, in total, pursuant to § 1050.113(c), one Agency representative for each full 10 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 10 percent but not less than 1 percent of the total participating producers it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1050.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives, but not less than five.

§ 1050.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1050.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 10 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1050.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 10 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1050.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1050.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1050.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1050.110 and 1050.117.

§ 1050.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1050.110 and 1050.117;

(c) Keep minutes, books, and records, and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1050.117 Advertising, Research, Education and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1050.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1050.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1050.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1050.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1050.71(c-1). *Provided:* That, such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refund with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1050.71(c-1).

§ 1050.121 Duties of the market administrator.

Except as specified in § 1050.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1050.113(c);

(b) Set aside the amounts subtracted under § 1050.71(c-1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1050.71(c-1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1050.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1050.71(c-1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1050.110 through 1050.122).

(d) Make necessary audits to establish that all agency funds are used only for authorized purposes.

§ 1050.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1050.83.

PART 1062—MILK IN THE ST. LOUIS-OZARKS MARKETING AREA

1. In § 1062.60, paragraph (a) is revised as follows:

§ 1062.60 Exemptions.

(a) *Producer-handler.* Sections 1062.40 through 1062.46, 1062.50 through 1062.54, 1062.61, 1062.62, 1062.70 through 1062.72, 1062.80 through 1062.89 and 1062.110 through 1062.122 shall not apply to a producer-handler; and

* * * * *

2. In § 1062.62, paragraph (b)(5) is revised as follows:

§ 1062.62 Obligations of handlers operating a partially regulated distributing plant.

* * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

3. In § 1062.71, a new paragraph (c-1) is added as follows:

§ 1062.71 Computation of uniform prices.

* * * * *

(c-1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

§ 1062.84 [Amended]

4. In § 1062.84, *Payments to the producer-settlement fund,* paragraph (b)(2) is revised by inserting the words "plus 5 cents" following the initial words "The value at the weighted average price(s) applicable at the location of the plant(s) from which received * * *".

5. Immediately following § 1062.88, a new centerhead and new §§ 1062.110 through 1062.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1062.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1062.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred

V 38 - 19 JAN 30 73 XUM

in the performance of duties as members of the Agency.

§ 1062.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1062.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1062.113(b), and participating producers who are not members of cooperatives are authorized to select from such group of participating producers, in total, pursuant to § 1062.113(c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1062.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives, but not less than five.

§ 1062.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1062.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1062.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1062.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1062.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1062.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1062.110 and 1062.117.

§ 1062.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1062.110 and 1062.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1062.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1062.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1062.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1062.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1062.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1062.71(c-1): *Provided:* That, such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refund with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1062.71(c-1).

§ 1062.121 Duties of the market administrator.

Except as specified in § 1062.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1062.113(c);

(b) Set aside the amounts subtracted under § 1062.71(c-1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1062.71(c-1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1062.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1062.71 (c-1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1062.110 through 1062.122).

(d) Make necessary audits to establish that all agency funds are used only for authorized purposes.

§ 1062.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1062.83.

PART 1064—MILK IN THE GREATER KANSAS CITY MARKETING AREA

1. Section 1064.60 is revised as follows:

§ 1064.60 Exempt handlers.

Sections 1064.40 through 1064.46, 1064.50 through 1064.53, 1064.61, 1064.70, 1064.71, 1064.80 through 1064.88, and 1064.110 through 1064.122, shall not apply to a handler pursuant to § 1064.7(f), a producer-handler, or to a handler operating a plant from which less than an average of 600 pounds of Class I milk per day is distributed on routes in the marketing area.

2. In § 1064.61, paragraph (b)(5) is revised as follows:

§ 1064.61 Obligations of handler operating a partially regulated distributing plant.

* * * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

3. In § 1064.71, a new paragraph (c-1) is added to read as follows:

§ 1064.71 Computation of uniform price.

* * * * * * *

(c-1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

4. In § 1064.72 revise paragraphs (a) and (b) to read as follows:

§ 1064.72 Computation of uniform prices for base and excess milk.

* * * * * * *

(a) Subtract from the amount resulting from the computations made pursuant to paragraphs (a) through (d) of § 1064.71 an amount computed by multiplying the weighted average price plus 5 cents times the hundredweight of milk specified in § 1064.71(e)(2);

(b) Determine the value of excess milk by multiplying the hundredweight of producer milk determined to be excess milk in series beginning with Class III by the respective class prices minus 5 cents for milk of 3.5 percent butterfat content, and adding together the resulting amounts;

* * * * * * *

§ 1064.80 [Amended]

5. In § 1064.80, *Time and method of payment*, the phrase in paragraph (a) "at not less than the applicable uniform price(s) pursuant to § 1064.71 or § 1064.82" is changed to read "at not less than the applicable uniform price(s) pursuant to § 1064.71 or § 1064.72."

6. In § 1064.84, revise paragraph (a)(2)(ii) to read as follows:

§ 1064.84 Payments to the producer-settlement fund.

(a) * * *

(2) * * *

(ii) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the Class III price) with respect to other source milk for which a value is computed pursuant to § 1064.70(e).

7. Immediately following § 1064.88 a new centerhead and new §§ 1064.110 through 1064.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1064.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations in such form and with methods of operation specified in this part, which is authorized to expend funds

V 38 - 19 JAN 30 73 XUM

made available pursuant to § 1064.121 (b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1064.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1064.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1064.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group of participating producers, in total, pursuant to § 1064.113 (c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1064.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives but not less than five.

§ 1064.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1064.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1064.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1064.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1064.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1064.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1064.110 and 1064.117.

§ 1064.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1064.110 and 1064.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1064.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1064.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1064.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1064.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1064.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1064.71(c-1): *Provided*, That such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refund with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1064.71(c-1).

§ 1064.121 Duties of the market administrator.

Except as specified in § 1064.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1064.113(c);

(b) Set aside the amounts subtracted under § 1064.71(c-1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1064.71(c-1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1064.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1064.71(c-1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1064.110 through 1064.122).

(d) Make necessary audit to establish that all Agency funds are used only for authorized purposes.

§ 1064.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1064.83.

PART 1065—MILK IN THE NEBRASKA-WESTERN IOWA MARKETING AREA

1. Section 1065.60 is revised as follows:

§ 1065.60 Producer-handler.

Sections 1065.40 through 1065.46, 1065.50 through 1065.53, 1065.70 through 1065.73, 1065.80 through 1065.87, and 1065.110 through 1065.122 shall not apply to a producer-handler.

2. In § 1065.62, paragraph (b)(5) is revised as follows:

§ 1065.62 Obligations of handler operating a partially regulated distributing plant.

* * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class III price), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

3. In § 1065.71, a new paragraph (d-1) is added as follows:

§ 1065.71 Computation of uniform prices.

* * * * *

(d-1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * *

4. Section 1065.71a is revised to read as follows:

§ 1065.71a Computation of uniform prices for base milk and excess milk.

For each month in which a base plan is effective the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk of 3.5-percent butterfat content received from producers as follows:

(a) From the net amount computed pursuant to § 1065.71 (a) through (e) subtract the amounts specified in subparagraphs (1) through (5) of this paragraph:

(1) The amount computed by multiplying the hundredweight of milk specified in § 1065.71(f)(2) by the weighted average price plus 5 cents for all milk;

(2) The amount obtained by multiplying by the Class III price, less 5 cents, the total hundredweight of milk delivered by all producers who have no Class I base;

(3) The amount computed by multiplying the hundredweight of excess milk by the Class III price, less 5 cents, for 3.5-percent butterfat milk provided that the quantity of milk to which the Class III price, less 5 cents, is applied pursuant to this subparagraph plus the quantity pursuant to subparagraph (2) of this paragraph shall not exceed the quantity of producer milk in Class III;

(4) An amount computed by multiplying any remaining hundredweight of excess milk by the Class II price, less 5 cents, for 3.5-percent butterfat milk to the extent that producer milk in Class II is available for such assignment; and

(5) An amount computed by multiplying any remaining hundredweight of excess milk by the Class I price, less 5 cents, for 3.5-percent butterfat milk;

(b) Divide the net amount obtained in paragraph (a) of this section by the total hundredweight of base milk and subtract not less than 4 cents but less than 5 cents. This result shall be known

V 38 - 19 JAN 30 73 XUM

as the uniform base price per hundredweight of milk of 3.5-percent butterfat content; and

(c) Divide the amount obtained in paragraphs (a) (3), (4) and (5) of this section by the hundredweight of excess milk, and subtract any fractional part of 1 cent. This result shall be known as the uniform excess price per hundredweight of milk of 3.5-percent butterfat content.

§ 1065.80a [Amended]

5. In § 1065.80a, *Time and method of payment to producers and to cooperative associations*, paragraph (a) is revised by inserting the words "less 5 cents" (preceded and followed by commas), immediately following the words "at not less than the Class III price".

6. In § 1065.82, paragraph (b) (2) is revised as follows:

§ 1065.82 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class III price) with respect to other source milk for which a value is computed pursuant to § 1065.70(e).

7. A new centerhead and new §§ 1065.110 through 1065.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1065.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1065.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1065.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1065.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1065.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group of participating producers, in total, pursuant to § 1065.113(c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1065.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives, but not less than five.

§ 1065.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1065.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1065.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1065.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1065.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1065.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1065.110 and 1065.117.

§ 1065.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1065.110 and 1065.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1065.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1065.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1065.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1065.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1065.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1065.71(d-1). *Provided:* That, such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refunds with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1065.71(d-1).

§ 1065.121 Duties of the market administrator.

Except as specified in § 1065.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1065.113(c);

(b) Set aside the amounts subtracted under § 1065.71(d-1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1065.71(d-1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1065.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1065.71(d-1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1065.110 through 1065.122).

(d) Make necessary audits to establish that all agency funds are used only for authorized purposes.

§ 1065.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1065.81.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date. On January 30, 1973, with respect to marketings on and after April 1, 1973.

Signed at Washington, D.C., on January 23, 1973.

RICHARD E. LYNG,
Assistant Secretary.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

Prohibitions and Restrictions on Importation of Animals, Meat and Other Articles

On November 11, 1972, there was published in the FEDERAL REGISTER (37 FR 24041-24042), a notice of proposed rule making with respect to proposed prohibitions and restrictions on importation of animals, meat, and other articles under the regulations contained in Part 94, Title 9, Code of Federal Regulations. After due consideration of all relevant material, including that submitted in connection with such notice, and pursuant to sections 106 and 107 of the Act of May 23, 1957, section 306 of the Act of June 17, 1930, as amended, section 2 of the Act of February 2, 1903, as amended, and sections 2, 3, 4, and 11 of the Act of July 2, 1962 (7 U.S.C. 150ee,

V 38 - 19 JAN 30 73 XUM

150ff, 19 U.S.C. 1306, 21 U.S.C. 111, 134a, 134b, 134c, 134f), said Part 94 is hereby amended in the following respects:

1. In § 94.1, paragraph (a) and the introductory portion of paragraph (c) are amended to read:

§ 94.1 Designation of countries where rinderpest or foot-and-mouth disease exists; importation prohibited; exceptions.

(a) Notice is hereby given that, in accordance with section 306 of the Act of June 17, 1930, as amended (19 U.S.C. 1306), it has been determined, and official notice has been given to the Secretary of the Treasury that:

(1) Rinderpest or foot-and-mouth disease exists in all countries of the world, except those listed in paragraph (a)(2) of this section;

(2) The following countries are declared to be free of both rinderpest and foot-and-mouth disease: Australia, Bahama Islands, Bermuda, British Honduras (Belize), Canada, Channel Islands, Greenland, Guatemala, Haiti, Honduras, Iceland, Ireland, Jamaica, Japan, Costa Rica, Dominican Republic, El Salvador, Fiji, Mexico, New Zealand, Nicaragua, Northern Ireland, Norway, Panama, Panama Canal Zone, and Sweden.

. . . . . .

(c) Except as otherwise provided in this part, fresh, chilled, or frozen meat of ruminants or swine which originates in and is shipped from a country other than those designated in paragraph (a) of this section as infected with rinderpest or foot-and-mouth disease and which enters any port of such an infected country or otherwise transits such an infected country en route to the United States, may be imported into the United States insofar as the restrictions of this part are concerned, if:

. . . . . .

2. Section 94.5 is amended to read:

§ 94.5 Garbage.

Garbage aboard any aircraft, vessel, railroad car, or other means of conveyance that has been outside the territorial limits of the United States and Canada shall not be imported into the United States (including the territorial waters thereof) except in accordance with the following conditions: It shall not be unloaded from such means of conveyance in the United States unless such garbage is removed in tight receptacles under the supervision of an Animal and Plant Health Inspection Service inspector for sterilization in a facility approved by the Administrator, Animal and Plant Health Inspection Service, or for incineration, or other appropriate handling in such manner and under such supervision as may, upon request in specific cases, be approved by the Administrator, Animal and Plant Health Inspection Service, as adequate to prevent the introduction into or dissemination within the United States of livestock, poultry, and plant diseases and plant pests. Importation into the United States of any garbage derived in whole or in part from meat originating in any country designated in § 94.1 as infected with rinderpest or foot-and-mouth disease is prohibited by law (19 U.S.C. 1306).

3. Section 94.7 is amended to read:

§ 94.7 Disposal of animals, meat, and other articles ineligible for importation.

(a) Ruminants and swine, and fresh, chilled, or frozen meats, prohibited importation under § 94.1, which come into the United States by ocean vessel and are offered for entry and refused admission into this country shall be destroyed or otherwise disposed of as the Deputy Administrator, Veterinary Services, may direct pursuant to section 306 of the Act of June 17, 1930, as amended (19 U.S.C. 1306), unless they are exported by the consignee within 48 hours, and meanwhile are retained under such isolation and other safeguards as the Deputy Administrator, Veterinary Services, may require to prevent the introduction or dissemination of livestock or poultry diseases into the United States.

(b) Ruminants and swine, and fresh, chilled, or frozen meats, prohibited importation under § 94.1, which come into the United States aboard an airplane or railroad car and are offered for entry and refused admission into this country shall be destroyed or otherwise disposed of as the Deputy Administrator, Veterinary Services, may direct pursuant to section 306 of the Act of June 17, 1930, as amended (19 U.S.C. 1306), unless they are exported by the consignee within 24 hours and meanwhile are retained under such isolation and other safeguards as the Deputy Administrator, Veterinary Services, may require to prevent the introduction or dissemination of livestock or poultry diseases into the United States.

(c) Ruminants and swine, and fresh, chilled, or frozen meats, prohibited importation under § 94.1, which come into the United States by any means other than ocean vessel, airplane, or railroad car and are offered for entry and refused admission into this country shall be destroyed or otherwise disposed of as the Deputy Administrator, Veterinary Services, may direct pursuant to section 306 of the Act of June 17, 1930, as amended (19 U.S.C. 1306), unless they are exported by the consignee within 8 hours on the same means of conveyance and meanwhile are retained under such isolation and other safeguards as the Deputy Administrator, Veterinary Services, may require to prevent the introduction or dissemination of livestock or poultry diseases into the United States.

(d) Ruminants and swine, and fresh, chilled, or frozen meats, prohibited importation under § 94.1, which come into the United States by any means but are not offered for entry into this country; and other animals, meats, and other articles prohibited importation under other sections of this part which come into the United States by any means, whether they are offered for entry into this country or not, shall be immediately destroyed or otherwise disposed of as the Deputy Administrator, Veterinary Services, may direct at any time in accordance with section 2 of the Act of February 2, 1903, as amended, or section 2 of the Act of July 2, 1962 (21 U.S.C. 111, 134a).

§ 94.8 [Amended]

4. In § 94.8 the reference to Italy is deleted.

5. A new § 94.11 is added to read:

§ 94.11 Restrictions on importation of meat and other animal products from specified countries.

(a) Japan, Norway, and Sweden, which are declared in § 94.1 to be free of rinderpest and foot-and-mouth disease, supplement their national meat supply by the importation of fresh, chilled, or frozen meat of ruminants or swine from countries that are designated in § 94.1(a) to be infected with rinderpest or foot-and-mouth disease; or have a common land border with countries designated as infected with rinderpest or foot-and-mouth disease; or import ruminants or swine from countries designated as infected with rinderpest or foot-and-mouth disease under conditions less restrictive than would be acceptable for importation into the United States. Thus, even though this Department has declared such countries to be free of rinderpest and foot-and-mouth disease, the meat and other animal products produced in such free countries may be commingled with the fresh, chilled, or frozen meat of animals from an infected country, resulting in an undue risk of introducing rinderpest or foot-and-mouth disease into the United States. Therefore, meat of ruminants or swine, and other animal products, and ships stores, airplane meals, and baggage containing such meat or animal products originating in Japan, Norway, and Sweden, shall not be imported into the United States unless the following requirements in addition to other applicable requirements of this Chapter III are met. As used in this section the term "other animal product" means all parts of the carcass of any ruminant or swine, other than meat and articles regulated under Part 95 or 96 of this chapter.

(b) All meat or other animal product from such countries, whether in personal-use amounts or commercial lots (except that which has been fully cooked by a commercial method in a rigid can which was sealed promptly after filling and before such cooking and sealing so as to result in a fully sterilized product in a hermetically sealed can which is shelf stable without refrigeration) shall have been prepared only in an inspected establishment that is eligible to have its products imported into the United States under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) and the regulations in § 327.2, Chapter III of this title, issued thereunder, and shall be accompanied by a Department-approved meat inspection certificate prescribed in § 327.4 in Chapter III of this title, or similar certificate approved by the Deputy Administrator, Veterinary Services, as adequate to effectuate the purposes of this section, regardless of the purpose or amount of product in the shipment.

(c) Shipments of such meat or other animal product must be accompanied by an additional certificate signed by a full-time salaried veterinary official of the agency in the National Government having responsibility for the health of animals within that country, giving the name and official establishment number of the establishment where the animals involved were slaughtered and stating that:

(1) The slaughtering establishment is not permitted to receive animals that originated in, or have ever been in, or that have been aboard a means of conveyance at the time such means of conveyance called at or landed at a port in, a country listed in § 94.1(a) as a country infected with rinderpest or foot-and-mouth disease;

(2) The slaughtering establishment is not permitted to receive meat or other animal products derived from ruminants or swine which originated in such a rinderpest or foot-and-mouth disease infected country, or meat or other animal products from a rinderpest and foot-and-mouth disease free country transported through a rinderpest or foot-and-mouth disease infected country except in containers sealed with serially numbered seals of the National Government of the noninfected country of origin;

(3) The meat or other animal product covered by the certificate was derived from animals born and raised in a country listed in § 94.1(a)(2) as free of rinderpest and foot-and-mouth disease and the meat or other animal product has never been in any country in which rinderpest or foot-and-mouth disease existed;

(4) The meat or other animal product has been processed, stored, and transported to the means of conveyance that will bring the article to the United States in a manner to preclude its being commingled or otherwise in contact with meat or other animal products that do not comply with the conditions contained in this certificate.

(Sec. 2, 32 Stat. 792, as amended, sec. 306, 46 Stat. 689, as amended, secs. 106 and 107, 71 Stat. 33; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132; 7 U.S.C. 150ee, 150ff; 19 U.S.C. 1306; 21 U.S.C. 111, 134a, 134b, 134c, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendments shall become effective on January 30, 1973.

The amendments: (1) Remove Sweden from the designation as infected with foot-and-mouth disease; (2) clarify and simplify designation of countries infected with rinderpest or foot-and-mouth disease; (3) identify those countries found free of rinderpest and foot-and-mouth disease and those in this category which practice importation procedures that might constitute an undue risk of introduction of livestock disease into the United States if products from such countries were allowed into the United States, without special safeguards; (4) restrict importation of meat and other animal products, including ships stores, airplane meals, and baggage containing meat or animal products, and garbage into the United States from certain countries; (5) reduce time limitations for removal from the United States of animals, meat, and other articles ineligible for importation into the United States; and (6) delete Italy from the list of countries where African swine fever exists.

Insofar as the amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the spread of disease, they must be made effective immediately to be of maximum benefit to affected persons and avoid unnecessary interference with foreign commerce. Insofar as they impose restrictions, they are deemed essential to prevent the introduction and dissemination of certain diseases which pose a threat to the livestock and poultry industries of the United States, and they must be made effective without delay in order to accomplish this purpose. It does not appear that further public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 22d day of January 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER B—FEDERAL OPEN MARKET COMMITTEE

PART 270—OPEN MARKET OPERATIONS OF FEDERAL RESERVE BANKS

1. Effective February 1, 1973, Part 270 is revised to read as follows:

REGULATION RELATING TO OPEN MARKET OPERATIONS OF FEDERAL RESERVE BANKS

Sec.
270.1 Authority.
270.2 Definitions.
270.3 Governing principles.
270.4 Transactions in obligations.

AUTHORITY: Sec. 8, 48 Stat. 168, as amended; 12 U.S.C. 263.

§ 270.1 Authority.

This part is issued by the Federal Open Market Committee (the "Committee") pursuant to authority conferred upon it by sections 12A and 14 of the Federal Reserve Act (12 U.S.C. 263, 355).

§ 270.2 Definitions.

(a) The term "obligations" means Government securities, U.S. agency securities, bankers' acceptances, bills of exchange, cable transfers, bonds, notes, warrants, debentures, and other obligations that Federal Reserve banks are authorized by law to purchase and sell.

(b) The term "Government securities" means direct obligations of the United States (i.e., U.S. bonds, notes, certificates of indebtedness, and Treasury bills) and obligations fully guaranteed as to principal and interest by the United States.

(c) The term "U.S. agency securities" means obligations that are direct obligations of, or are fully guaranteed as to principal and interest by, any agency of the United States.

(d) The term "System Open Market Account" means the obligations acquired pursuant to authorizations and directives issued by the Committee and held on behalf of all Federal Reserve banks.

§ 270.3 Governing principles.

As required by section 12A of the Federal Reserve Act, the time, character, and volume of all purchases and sales of obligations in the open market by Federal Reserve banks are governed with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country.

§ 270.4 Transactions in obligations.

(a) Each Federal Reserve bank shall engage in open market operations under section 14 of the Federal Reserve Act only in accordance with this part and with the authorizations and directives issued by the Committee from time to time, and no Reserve bank shall decline to engage in open market operations as directed by the Committee.

(b) Transactions for the System Open Market Account shall be executed by a Federal Reserve bank selected by the Committee. The participations of the several Federal Reserve banks in such account and in the profits and losses on transactions for the account shall be allocated in accordance with principles determined by the Committee from time to time.

(c) In accordance with such limitations, terms, and conditions as are prescribed by law and in authorizations and directives issued by the Committee, the Reserve bank selected by the Committee is authorized and directed—

(1) To buy and sell Government securities and U.S. agency securities in the open market for the System Open Market Account, and to exchange maturing securities with the issuer;

(2) To buy and sell bankers' acceptances of the kinds made eligible for purchase under Part 202 of this chapter (Regulation B) in the open market for its own account;

(3) To buy Government securities, U.S. agency securities, and bankers' acceptances of the kinds described above, under agreements for repurchase of such obligations, in the open market for its own account; and

(4) To buy and sell foreign currencies in the form of cable transfers in the open market for the System Open Market Account and to maintain for such account reciprocal currency arrangements with foreign banks among those

V 38 - 19 JAN 30 73 XUM

designated by the Board of Governors of the Federal Reserve System under § 214.5 of this chapter (Regulation N).

(d) In accordance with such limitations, terms, and conditions as are prescribed by law and in authorizations and directives issued by the Committee, the Reserve bank selected by the Committee (or, if that bank is closed, any other Federal Reserve bank) is authorized and directed, for its own account or the System Open Market Account, to purchase directly from the United States such amounts of Government securities as may be necessary from time to time for the temporary accommodation of the Treasury Department.

(e) The Federal Reserve banks are authorized and directed to engage in such other operations as the Committee may from time to time determine to be reasonably necessary to the effective conduct of open market operations and the effectuation of open market policies.

2a. The purposes of this revision are to correct certain inaccuracies in the regulation of the Federal Open Market Committee relating to open market operations of the Federal Reserve banks, to take account of developments since the last revision of that regulation, and to describe more fully, for the information of the public, the nature of open market operations engaged in by the Federal Reserve banks pursuant to authorization or direction of the Federal Open Market Committee.

b. The provisions of section 553 of title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action, because the changes made by this revision are of a technical and clarifying nature or are designed to describe more fully the open market operations of the Federal Reserve banks, and because the Committee felt that following the procedures prescribed by such provisions would be unnecessary and would serve no useful purpose.

By order of the Federal Open Market Committee, January 16, 1973.

ROBERT C. HOLLAND,
Secretary.

[FR Doc.73-1662 Filed 1-29-73;8:45 am]

PART 271—RULES REGARDING AVAILABILITY OF INFORMATION

Miscellaneous Amendments

1. Effective February 1, 1973, Part 271 is amended in the following respects:

Section 271.1 is amended by changing the heading to read *Authority* instead of *Basis and scope.*

Paragraph (a) of § 271.2 is amended by inserting after the words "the Board of Governors of the Federal Reserve System" the following: "(the 'Board')".

Wherever the words "Board of Governors of the Federal Reserve System" appear in Part 271 after paragraph (a) of § 271.2, they are changed to read "Board".

Paragraph (a) of § 271.3 is amended by inserting the words "Title 5 of" immediately before the words "the United States Code".

The second sentence of paragraph (a) of § 271.5 is amended by adding after the words "and no information in the records of the Committee relating to the adoption of any such directive is made available for public inspection or copying before it is published in the FEDERAL REGISTER" the words "or is otherwise released to the public by the Committee."

2a. This action is taken pursuant to and in accordance with the provisions of section 552 of title 5 of the United States Code.

b. The purposes of these amendments are to correct a reference to the United States Code, to correct a technical inaccuracy with respect to the availability of records of the Committee to the public, and to make certain editorial changes.

c. The provisions of section 553 of title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action, because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

By order of the Federal Open Market Committee, January 16, 1973.

ROBERT C. HOLLAND,
Secretary.

[FR Doc.73-1663 Filed 1-29-73;8:45 am]

PART 272—RULES OF PROCEDURE

1. Effective February 1, 1973, Part 272 is revised to read as follows:

Sec.
272.1 Authority.
272.2 Functions of the Committee.
272.3 Meetings.
272.4 Committee actions.
272.5 Notice and public procedure.

AUTHORITY: 5 U.S.C. 552.

§ 272.1 Authority.

This part is issued by the Federal Open Market Committee (the Committee) pursuant to the requirement of section 552 of title 5 of the United States Code that every agency shall publish in the FEDERAL REGISTER its rules of procedure.

§ 272.2 Functions of the Committee.

The procedures followed by the Committee are designed to facilitate the effective performance of the Committee's statutory functions with respect to the regulation and direction of open market operations conducted by the Federal Reserve banks and with respect to certain direct transactions between the Reserve banks and the United States. In determining the policies to be followed in such operations, the Committee considers information regarding business and credit conditions and domestic and international economic and financial developments, and other pertinent information gathered and submitted by its staff and the staffs of the Board of Governors of the Federal Reserve System (the Board) and the Federal Reserve banks. Against the background of such information, the Committee takes actions from time-to-time to regulate and direct the open market operations of the Reserve banks. Such policy actions ordinarily are taken through the adoption and transmission to the Federal Reserve banks of regulations, authorizations, and directives.

§ 272.3 Meetings.

(a) *Place and frequency.* The Committee meets in Washington, D.C., at least four times each year and oftener if deemed necessary. Meetings are held upon the call of the Chairman of the Board or at the request of any three members of the Committee. Notices of calls by the Chairman of the Board to other members are given by the Secretary of the Committee in writing or by telegram. Requests of any three members for the calling of a meeting shall state the time therefor and shall be filed in writing or by telegram with the Secretary who shall forthwith notify all members of the Committee in writing or by telegram. When the Secretary has sent notices to all members of the Committee that a meeting has been requested by three members and of the time therefor, a meeting is deemed to have been called. If, in the judgment of the Chairman, circumstances require that a meeting be called at such short notice that one or more members cannot be present in Washington, such members may participate in the meeting by telephone conference arrangements.

(b) *Alternates.* Whenever any member of the Committee representing Federal Reserve banks shall find that he will be unable to attend a meeting of the Committee, he shall promptly notify his alternate and the Secretary of the Committee in writing or by telegram, and upon receipt of such notice the alternate shall advise the Secretary whether he will attend such meeting.

(c) *Quorum.* Seven members (including alternates present and acting in the absence of members) constitute a quorum for the transaction of business; but less than a quorum may adjourn from time to time until a quorum is in attendance.

(d) *Attendance at meetings.* Attendance at Committee meetings is restricted to members and alternate members of the Committee, the presidents of Federal Reserve banks who are not at the time members or alternates, staff officers of the Committee, the manager and special manager, and such other advisers as the Committee may invite from time-to-time.

(e) *Meeting agendas.* The Secretary, in consultation with the Chairman, prepares an agenda of matters to be discussed at each meeting and the Secretary transmits the agenda to the members of the Committee within a reasonable time in advance of such meeting. In general, the agendas include approval of minutes of actions and acceptance of memoranda of discussion for previous meetings; reports by the manager and special manager on open market operations since the previous meeting, and ratification by the Committee of such operations; reports by economists on, and Committee discussion of, the economic and financial situation and outlook; Committee discussion of monetary policy and action with respect thereto; and such other matters as may be considered necessary.

§ 272.4 Committee actions.

(a) *Actions at meetings.* Actions are taken at meetings of the Committee except as described below.

(b) *Actions between meetings.* Special circumstances may make it desirable in the public interest for Committee members to consider an action to modify an outstanding Committee authorization or directive at a time when it is not feasible to call a meeting. Whenever, in the judgment of the Chairman, such circumstances have arisen, the relevant information and recommendations for action are transmitted to the members by the Secretary, and the members communicate their votes to the Secretary. If the action is approved by a majority of the members, advice to that effect is promptly given by the Secretary to the members of the Committee and to the Reserve bank selected to execute transactions for the System Open Market Account. All communications of recommended actions and votes under this paragraph shall be in writing or by telegram; provided that, in exceptional cases when that is not feasible, such communications may be made orally, either in person or by telephone, and the Secretary shall cause a written record to be made without delay. An action taken between meetings has the force and effect of an action at a meeting; provided, however, that if a meeting is held before the execution of any operations pursuant to the action, the action is null and void unless it is ratified and confirmed by the Committee at such meeting.

(c) *Delegations of authority.* In special circumstances, the Committee may delegate authority to take an action, subject to such instructions or guidelines as the Committee deems proper. Such delegations of authority may be made to the Chairman; to a subcommittee consisting of the Chairman and the Vice Chairman of the Committee and the Vice Chairman of the Board (or in the absence of the Chairman or of the Vice Chairman of the Board the members of the Board designated by the Chairman as alternates, and in the absence of the Vice Chairman of the Committee his alternate); or to any other member or members of the Committee. An action taken pursuant to such a delegation of authority has the force and effect of an action taken by the Committee.

(d) *Effective date.* Committee action ordinarily is made effective as of the time it is taken because the nature of the subject matter and the action taken is such that the public interest and the proper discharge of the Committee's responsibilities so require. Occasionally, however, the Committee may specify that an action is to be effective at some different time.

§ 272.5 Notice and public procedure.

There ordinarily is no published notice of proposed action by the Committee or public procedure thereon, as described in section 553 of title 5 of the United States Code, because such notice and procedure are impracticable, unnecessary, or contrary to the public interest.

2a. This action is taken pursuant to and in accordance with the provisions of section 552 of title 5 of the United States Code.

b. The purposes of this revision are to bring the rules of procedure of the Federal Open Market Committee into accordance with current practices and to make them more informative to the public.

c. The provisions of section 553 of title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action, because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

By order of the Federal Open Market Committee, January 16, 1973.

ROBERT C. HOLLAND,
Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 72-NE-28]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 28079 of the FEDERAL REGISTER dated December 20, 1972, The Federal Aviation Administration published a notice of proposed rule making which would alter the Montpelier, Vt., Control Zone and Transition Area (37 FR 28079).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted effective 0901, G.m.t. March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Mass., on January 22, 1973.

FERRIS J. HOWLAND,
Director, New England Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Montpelier, Vt., control zone by deleting the words "within a 5-mile radius of the center" and inserting the words "within a 6-mile radius of the center" in lieu thereof.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Montpelier, Vt., 700-foot transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center, latitude 44°12'15" N., longitude 72°33'45" W., of Edward P. Knapp (Barre-Montpelier) State Airport, Barre-Montpelier, Vt.; within 6.5 miles west and 5 miles east of the Montpelier VOR 163° radial extending from the 10-mile radius zone to 11.5 miles south of the VOR; within 4.5 miles each side of the Mount Mansfield NDB (latitude 44°23'06" N., longitude 72°41'38" W.), 332° and 152° bearings from the NDB, extending from the 10-mile radius to 10.5 miles northwest of the NDB, excluding that portion within the Morrisville, Vt., transition area.

[FR Doc.73-1861 Filed 1-29-73;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-788; Amdt. 212-10]

PART 212—CHARTER TRIPS BY FOREIGN AIR CARRIERS

On-Route Charter Authority

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 21st day of November 1972.

In the On-Route Charter Authority of Foreign Air Carrier Permits Proceeding, Docket No. 22362,[1] the Board adopted the following amendments to Part 212 of its Economic Regulations, and amended the permits of all foreign air carriers authorized to engage in individually ticketed or individually waybilled foreign air transportation to be subject to such Part 212 amendments. As amended, Part 212 provides that the Board may require such foreign air carriers to obtain prior Board approval before performing on-route charter trips when the Board finds, with or without hearing, that the public interest so requires. The revised Part 212 is not self-executing, and, unless it is affirmatively invoked by the Board, foreign carriers will remain entirely free to conduct on-route charters without prior Board authorization. However, once the rule is invoked, the foreign carrier must apply to the Board for a "Statement of Authorization" before performing any on-route charter trip, which will be issued by the Board if it finds that the proposed charter trip meets the requirements of Part 212, that the applicant's government grants a similar privilege to U.S. air carriers, and that the charter trip is otherwise in the public interest.

Interested persons have been afforded an opportunity to participate in the

[1] Order 73-1-71.

V 38 I 19 JAN 30 73 XUM

formulation of the proposed amendments to Part 212 which were the subject of extensive examination and argument by the parties to the investigation.[2]

The promulgation of this rule, by itself, will impose no additional requirements on carriers subject thereto. Moreover, the purpose of the rule is to put the U.S. in a position to take such action with respect to on-route charters as may be required under the circumstances which may or may not arise in the immediate future. The Board finds, therefore, that good cause exists for immediate effectiveness of the rule.

Accordingly, the Board hereby amends Part 212 of the Economic Regulations (14 CFR Part 212), effective January 22, 1973, as follows:

1. Amend the table of contents to revise the title of §§ 212.2 and 212.4. As amended, the table of contents will read in pertinent part:

Sec.
212.2 Applicability and scope.
212.4 Limitation on the operation of charter trips.

2. Amend § 212.2 to read as follows:

§ 212.2 Applicability and scope.

(a) *Applicability.* This part establishes the terms, conditions, and limitations applicable to charter foreign air transportation, both "on-" and "off-route", performed pursuant to a foreign air carrier permit issued under section 402 of the Act authorizing direct foreign air transportation on an individually ticketed or individually waybilled basis. The limitations and regulations specified as applicable to charter trips shall be applicable to all charter trips irrespective of whether the authority to conduct such trips derives from the linear route authority described in the carrier's permit or from any additional authority conferred in such permit to engage in off-route charter trips. The terms, conditions, and limitations applicable to charter foreign air transportation performed pursuant to foreign air carrier permits authorizing the holder to engage in charter transportation only are governed by Part 214 of the Board's Economic Regulations.

(b) *Scope.* (1) On-route charter trips may be performed by all direct foreign air carriers who hold currently effective section 402 permits authorizing foreign air transportation on an individually ticketed or individually waybilled basis, subject to the terms, conditions, and limitations of this part. Unless a permit or the order authorizing issuance of the permit shall otherwise provide, there shall be attached to the exercise of the privileges to conduct on-route charters granted by any such permit such terms, conditions, and limitations as are set forth in this part or any amendment thereof, or as may from time to time be prescribed by the Board. Subject to the foregoing, foreign air carriers holding such permits may conduct on-route charter trips without prior authorization, unless and until the carrier is notified pursuant to § 212.4(b) of this part that prior Board authorization will thereafter be required.

(2) Off-route charter trips may be performed by foreign air carriers, subject to the limitations and regulations set forth in this part, by all direct foreign air carriers who hold currently effective foreign air carrier permits issued by the Board pursuant to section 402 of the Act authorizing such carriers to engage in charter trips in foreign air transportation without regard to the points named in such permits.

3. Amend § 212.4 by (1) revising the title of the section; (2) designating present § 212.4 as paragraph (a); and (3) adding a new paragraph (b). As amended, § 212.4 will read in part as follows:

§ 212.4 Limitation on the operation of charter trips.

* * * * *

(b) The Board, if it finds that the public interest so requires, may at any time, with or without hearing, notify a foreign air carrier subject to this part that it shall not perform on-route charter trips in the absence of prior Board authorization. The Board's notification shall be effective for such period or periods and with respect to such operations as the Board may specify in accordance with this paragraph. Effective not earlier than 30 days after the date of such notice, the foreign air carrier shall not perform any on-route charter trip falling within the specification of the notice, unless specific authority in the form of a Statement of Authorization to conduct such charter trip has been granted by the Board. Notification of the Board's proposed failure to approve either the whole or part of an application for a Statement of Authorization to conduct an on-route charter trip or trips, filed pursuant to the requirements of this subsection, provided that such application has been timely filed at least 30 days in advance of the proposed flight, will be submitted to the President of the United States at least 10 days prior to the date of the proposed flight. Any such failure to approve shall be subject to stay or disapproval by the President within 10 days after the date of the Board's notification.

4. Amend paragraph (b) of § 212.5 to read as follows:

§ 212.5 Statement of Authorization; application.

* * * * *

(b) Applications shall be filed with the Board at least 5 days in advance of the date of the commencement of the proposed flight: *Provided,* That applications for authority to conduct planeload cargo charters may be filed not less than 48 hours in advance of the proposed flight: *Provided further,* That an application for the performance of a charter transporting commercial traffic for another direct air carrier or direct foreign air carrier (as provided in § 212.8(a)(4–a)) shall be filed with the Board at least 45 days in advance of the date of the commencement of the proposed flights: *Provided further,* That applications, where required pursuant to § 212.4(b) to conduct on-route charters shall, unless otherwise specified by the Board, be filed not less than 30 days in advance of the proposed flight. Upon a showing that good cause exists for failure to adhere to the above requirements and that waiver of these requirements is in the public interest, applications later submitted may be considered by the Board.

* * * * *

(Secs. 204(a) and 402 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 757 (as amended); 49 U.S.C. 1324, 1372)

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc. 73-1761 Filed 1-29-73;8:45 am]

[2] The proposed amendments to Part 212 were attached to the Board's Order to Show Cause in this proceeding (Order 70-7-58, July 13, 1970). However, minor revisions have been made to the proposed amendments to reflect recent amendments to Part 212 made following issuance of the Board's Show Cause Order, and to include a provision for Presidential stay or disapproval.

SUBCHAPTER F—REGULATIONS UNDER SPECIFIC ACTS OF CONGRESS OTHER THAN THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

PART 295—REGULATIONS UNDER THE POISON PREVENTION PACKAGING ACT OF 1970

Child Protection Packaging Standards for Certain Liquid Kindling and/or Illuminating Preparations Containing Petroleum Distillates

In the FEDERAL REGISTER of April 14, 1972 (37 FR 7408), the Commissioner of Food and Drugs proposed child protection packaging standards for certain liquid kindling and/or illuminating preparations containing 10 percent or more of petroleum distillates and having a viscosity of less than 100 Saybolt universal seconds (S.U.S.) at 100° F.

Eight of the 17 comments received in response to the notice favor the standards as proposed. The principal issues raised in the remainder of the comments and the Commissioner's conclusions are as follows:

A. *Use by the elderly or handicapped.* A consumer expresses concern that handicapped persons (particularly those with arthritis) may be unable to use, or may have difficulty using, the special packaging. Section 4(a) of the Poison Prevention Packaging Act of 1970 acknowledges such a possibility and provides that substances subject to special packaging standards may also be packaged in noncomplying (conventional) packaging within prescribed limitations.

B. *Viscosity.* The American Petroleum Institute recommends that substances with a viscosity higher than 50 S.U.S. at 100° F. should not be subject to the standards because human experience and animal research do not support a higher viscosity level. The Institute claims that the establishment of the viscosity at a level of 50 S.U.S. will adequately protect the public by covering practically all petroleum distillates used for kindling and/or illuminating purposes without imposing an unnecessary burden on suppliers.

Although the aspiration danger from petroleum distillates generally decreases as viscosity increases, at least one fatality from chemical prenumonitis following the aspiration of a petroleum distillate product having a viscosity of over 50 S.U.S. has been reported. In addition to viscosity, the presence of additives in formulated petroleum distillate products may increase the hazard following aspiration. Accordingly, the Commissioner concludes that the viscosity level specification cannot safely be lowered to 50 S.U.S.

C. *Existing stocks of petroleum distillate preparations.* The American Academy of Pediatrics favors the proposal and recommends that distributors be required either to remove existing stocks of conventional packages from their shelves or to limit sales of conventional packages to buyers without young children. Section 9 of the act does not provide for application of the standards to substances packaged prior to the standards' effective date.

D. *Need for special packaging.* 1. Two manufacturers of substances and one packaging manufacturer comment that since the injury data in the proposal's preamble failed to mention cigarette lighter fluid as the source of any of the kindling and/or illuminating preparation injuries, it was probable that no injuries from cigarette lighter fluid had occurred.

The reports referred to in the preamble for the period of 1968–70 verify that cigarette lighter fluids are a definite cause of injury to children under 5 years of age. Cigarette lighter fluid accounted for a significant number of the 3,189 ingestions and 369 hospitalizations reported for this period as attributable to various kindling and/or illuminating products. Additionally, cigarette lighter fluids resulted in several of the reported deaths of children in this age group during the period 1967–71. In the nonfatal ingestion cases involving cigarette lighter fluids, symptoms included cyanosis, fever, and pneumonia.

2. A manufacturer of turret-type closures for cigarette lighter fluid cans and a manufacturer of cigarette lighter fluid comment that an average of 2 to 7 cubic centimeters of the preparation is dispensed per actuation from turret-type closures. Both question whether this quantity of the preparation could cause human injury or illness and whether turret-type closures have ever been involved in actual poisonings. Reports in the medical literature indicate that the ingestion of 7 cubic centimeters of cigarette lighter fluid by children under 5 years of age can cause serious illness or death. Furthermore, data from the National Clearinghouse for Poison Control Centers show incidents of cigarette lighter fluid ingestions involving brand name preparations known to be marketed with turret-type closures.

3. The American Petroleum Institute suggests that safety closures might not have prevented many of the injuries referred to in the proposal. The institute contends that many such ingestions may have resulted when children gained access to liquid kindling and/or illuminating preparations transferred from the original container to other containers such as open cans, beverage bottles, or cups.

Reports from the National Clearinghouse do not support this contention. Although many reports do not contain sufficiently detailed information, the majority of those indicating where the preparation was found state that the preparation was ingested by the child from its original container.

The available data clearly demonstrate the need for special packaging of these products. Accordingly, the finding required by section 3(a)(1) of the act is affirmed.

E. *Applicability.* Several industry comments indicate some confusion over which products are intended to be covered by these standards. The comments question applicability to such products as camping equipment fuel, gasoline for use in home power equipment, kerosene, and products dispensed by retail service stations in purchasers' containers. The standards are not intended to apply to products such as gasoline and kerosene dispensed by retail vendors in purchasers' containers but do apply to kindling and/or illuminating preparations which are prepackaged and intended for such purposes as cigarette lighter fuel, charcoal lighter fuel, camping equipment fuel, torch fuel, and fuel for both decorative and functional lanterns. The regulation has been clarified accordingly.

F. *Technically feasible, practicable, and appropriate.* Three manufacturers comment that the special packaging to be required is not technically feasible, practicable, and appropriate. One states that the date when closures for cans of charcoal lighter fluid will be available is indefinite and that to utilize an alternative method of packaging would create economic problems. Another comments that special packaging is not technically feasible for cigarette lighter fluids because no special packaging presently available has the narrow spout necessary for filling cigarette lighters. The latter and one other contend, regarding charcoal lighter fluid:

1. That no manufacturer of suitable special packaging has mass production capability.

2. That industry must make equipment changes in order to produce cans capable of accepting child-resistant closures.

3. That initial tests of compatibility between samples of available closures and charcoal lighter fluids have been unsatisfactory.

4. That time is required to complete necessary tests and evaluations regarding closures' ability to withstand the overall stresses of actual shipment, storage, and consumer use.

5. That not enough packaging manufacturers engaged in the making of closures for metal cans have developed prototype child-resistant closures.

V38-19 JAN 30 73 XUM

In reviewing these comments and similar responses to other proposals under the Poison Prevention Packaging Act of 1970, the Commissioner notes that he is asked to modify the section 3(a)(2) findings because the packaging industry does not have the immediate capacity to mass produce special packaging in volumes that would meet all demand. Under section 3(a)(2) of the act, the Commissioner must establish that special packaging complying with the standards to be proposed is technically feasible, practicable, and appropriate. To make this finding, the Commissioner is not required to establish that industry is able to commence mass producing when the finding is published. What is required for a finding of technical feasibility is a determination that the technology exists to produce the special packaging. Data submitted from at least 27 manufacturers of special packaging indicate that each firm has at least one design which meets or exceeds the effectiveness specifications of the standards when tested by the method set forth in 21 CFR 295.10. These packages include glass, plastic, and metal containers.

A finding of practicability requires that special packaging meeting the standards be susceptible to modern mass production and assembly line techniques, but does not require that special packaging be immediately available in mass production quantities. (The responsibility in this instance lies with the manufacturers of substances subject to regulation to stimulate this capacity through the placing of orders sufficiently in advance of the effective dates of standards.) The act does not provide that the practicability finding may not be made if testing expenses and capital expenditures for equipment changes are necessary. In passing the act, Congress indicated that industry must make the necessary changes to protect young children.

The appropriateness finding requires that packaging complying with the standards shall not be detrimental to the integrity of the substance nor interfere with the storage or use of the substance. In the past, metal cans with plastic closures have been satisfactorily used as packaging for the substances subject to these standards. On the basis of such past use and from information on the types of special packaging presently available, the Commisioner sees no reason to reverse his finding of appropriateness made in the proposal. Sufficient time to comply with the standards will be afforded in promulgating the effective date.

One package manufacturer has submitted a design of a safety closure for cigarette lighter fluids that provides for spout dispensing. This design incorporates the same child-resistant features found to meet the standards on other of their special packaging closures. Since this design has been found to provide a liquid seal and is susceptible to modern mass production and assembly line techniques, the Commissioner concludes that the special packaging to be required for cigarette lighter fuel is technically feasible, practicable, and appropriate.

Accordingly, the finding required by section 3(a)(2) of the act is affirmed.

G. *Effective date.* A manufacturer recommends that the effective date of this order be at least 1 year after the date of FEDERAL REGISTER promulgation to provide additional time for the development of suitable, economical special packaging. The American Academy of Pediatrics suggests that the effective date be 60 days after the date of FEDERAL REGISTER promulgation.

The Commissioner concludes (1) that a 60-day delayed effective date would not provide industry with adequate time to comply with the standards and (2) that available data on special packaging and the reasons given in the above comment requesting a 1-year delay do not warrant establishing more than a 270-day delayed effective date except as the standards apply to cigarette lighter fuel packaged with a spout-type dispenser, in which case the effective date shall be 1 year after promulgation.

Therefore, having evaluated the comments and other relevant material, the Commissioner concludes that the proposal, with changes, should be adopted as set forth below.

The amendment below adds a new subparagraph (7) on kindling and/or illuminating preparations to § 295.2(a). To give complete information on packaging requirements for kindling and/or illuminating preparations, applicable portions of existing §§ 295.2 and 295.3 are included herein as follows:

Section 295.2 Substances requiring "special packaging." • • • (b) *Sample packages.* (1) The manufacturer or packer of any of the substances listed under paragraph (a) of this section as substances requiring special packaging shall provide the Commissioner with a sample of each type of special packaging, as well as the labeling for each size product that will be packaged in special packaging and the labeling for any noncomplying package. Sample packages and labeling should be sent to the Food and Drug Administration, Attention: Bureau of Product Safety, 5600 Fishers Lane, Rockville, MD 20852.

(2) Sample packages should be submitted without contents when such contents are unnecessary for demonstrating the effectiveness of the packaging. • • •

Section 295.3 *Poison prevention packaging standards.* To protect children from serious personal injury or serious illness resulting from handling, using, or ingesting household substances, the Commissioner has determined that packaging designed and constructed to meet the following standards shall be regarded as "special packaging" within the meaning of section 2(4) of the act. Specific application of these standards to substances requiring special packaging is in accordance with § 295.2.

(a) *General requirements.* The special packaging must continue to function with the effectiveness specifications set forth in paragraph (b) of this section when in actual contact with the substance contained therein. This requirement may be satisfied by appropriate scientific evaluation of the compatibility of the substance with the special packaging to determine that the chemical and physical characteristics of the substance will not compromise or interfere with the proper functioning of the special packaging. The special packaging must also continue to function with the effectiveness specifications set forth in paragraph (b) of this section for the number of openings and closings customary for its size and contents. This requirement may be satisfied by appropriate technical evaluation based on physical wear and stress factors, force required for activation, and other such relevant factors which would establish that, for the duration of normal use, the effectiveness specifications of the packaging would not be expected to lessen.

(b) *Effectiveness specifications.* Special packaging which when tested by the method described in § 295.10, meets the following specifications:

(1) Child-resistant effectiveness of not less than 85 percent without a demonstration and not less than 80 percent after a demonstration of the proper means of opening such special packaging. In the case of unit packaging, child-resistant effectiveness of not less than 80 percent.

(2) Adult-use effectiveness of not less than 90 percent. • • •

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–1672; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to the Commissioner (21 CFR 2.120), a new subparagraph (7) is added to § 295.2(a) as follows:

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

• • • • • •

(7) *Kindling and/or illuminating preparations.* Prepackaged liquid kindling and/or illuminating preparations, such as cigarette lighter fuel, charcoal lighter fuel, camping equipment fuel, torch fuel, and fuel for decorative or functional lanterns, which contain 10 percent or more by weight of petroleum distillates and have a viscosity of less than 100 Saybolt universal seconds at 100° F., shall be packaged in accordance with the provisions of § 295.3 (a) and (b).

• • • • • •

Effective date. This order shall become effective September 27, 1973, except as it applies to cigarette lighter fuel packaged with a spout-type dispensing closure, for which the effective date shall be January 30, 1974.

(Secs. 2(4), 3, 5, 84 Stat. 1670–1672; 15 U.S.C. 1471(4), 1472, 1474)

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT-FEDERAL HOUSING COMMISSIONER [FEDERAL HOUSING ADMINISTRATION], DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-73-225]

PART 200—INTRODUCTION

Approval of Feasibility Letters or Conditional Commitments

The Department is amending §§ 200.84(b), 200.110, 200.111, 200.114, 200.116 and 200.118 of 24 CFR Part 200 in order to provide for concurrence indicated by signature on the part of the Regional Administrator with respect to the approval of feasibility letters, conditional commitments, or firm commitments to insure projects under section 236 of the National Housing Act for which feasibility letters or conditional commitments were issued after December 15, 1972.

Public procedure and postponement of the effective date is not required inasmuch as the change involves Department personnel and management. Therefore, this amendment shall be effective as of January 23, 1973.

Accordingly, the following proviso shall be added before the period at the end of 24 CFR 200.84(b), 200.110, 200.111, 200.114, 200.116, and 200.118: *Provided, however,* That the issuance of feasibility letters, conditional commitments, or final commitments to insure projects in accordance with section 236 shall require the concurrence, indicated by signature, on the part of the Regional Administrator as to projects for which feasibility letters or conditional commitments were issued after December 15, 1972.

(Sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d))

This amendment is effective as of January 23, 1973.

GEORGE ROMNEY,
Secretary of Housing and Urban Development.

[FR Doc.73-1789 Filed 1-26-73;10:19 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7246]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Consolidated Returns

Correction

In FR Doc. 72-22452, appearing at page 758, in the issue of Thursday, January 4, 1973, in the third column on page 758, the paragraph immediately after PAR. 3, now designated as PAR. 5, should read PAR. 4, and the first line of this PAR. 4, should read as follows: "Section 1.1502-32 as set forth".

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

SMALL PURCHASE PROCEDURE WHEN UTILIZING GSA FORM 2049, CONTRACTOR'S CERTIFICATE OF CONFORMANCE

The certificate-of-conformance procedure is designed to expedite payment for small purchases. It provides for payment for supplies based on the contractor's submission of an invoice to which is attached a certification.

PART 5A-3—PROCUREMENT BY NEGOTIATION

The table of contents for Part 5A-3 is amended to add the following new entry:

Sec.
5A-3.670 Small purchase procedure when utilizing GSA Form 2049, Contractor's Certificate of Conformance.

Subpart 5A-3.6—Small Purchases

Section 5A-3.670 is added as follows:

§ 5A-3.670 Small purchase procedure when utilizing GSA Form 2049, Contractor's Certificate of Conformance.

(a) *General.* (1) The small purchase procedure using GSA Form 2049, Contractor's Certificate of Conformance, provides for payment for supplies based on the contractor's submission of an invoice with an attached copy of a completed GSA Form 2049 certifying that the supplies have been delivered to the post office, common carrier, or point of first receipt by the Government, and that the contractor agrees to replace, repair, or correct supplies not received at destination, damaged in transit, or not conforming to purchase requirements.

(2) Blanket purchase arrangements may include provisions for using certificate-of-conformance-type shipments.

(b) *Conditions for use.* The certificate-of-conformance small-purchase procurement method should be used where appropriate and consistent with other considerations of the procurement and the following conditions:

(1) Value of individual direct-shipment orders shall be limited to $2,500 or less;

(2) Title to supplies will vest in the Government (i) upon delivery to the post office or common carrier for mailing or shipment to destination, or (ii) upon receipt by the Government when shipment is by means other than U.S. Mail or common carrier;

(3) Where the vendor is on the approved list of contractors authorized under the FSS quality approved manufacturer program; the purchase order shall state that notwithstanding the 90-day period contained in paragraph (c) under special provisions of GSA Form 2049, the vendor shall be obligated to replace, repair, correct, or reimburse the Government for supplies that are lost, not received, damaged, or that do not conform to purchase specifications, provided replacement instructions are furnished the contractor within 180 days from the date of shipment;

(4) The contractor (if not on the approved list of contractors authorized under the FSS quality approved manufacturer program) at his expense agrees without contest to replace, repair, or correct supplies not received at destination, damaged in transit, or not conforming to purchase requirements, provided replacement instructions are furnished the contractor within 90 days from the date of shipment; and

(5) The contactor will perform in accordance with the terms of the purchase order.

(c) *Preparation and execution.* (1) Purchase orders utilizing the certificate-of-conformance procurement method may be issued on any authorized purchase order form in accordance with Subparts 5-3.6 and 5A-3.6 except that calls against blanket purchase arrangements shall be issued in accordance with § 5A-3.606.

(2) Each purchase order utilizing this certificate-of-conformance procedure shall contain the following provision:

This purchase order is subject to and includes the terms and conditions of GSA Form 2049, Contractor's Certificate of Conformance, a copy of which is attached or available upon request to the contracting officer.

(3) Special data to be included in purchase orders or blanket purchase arrangements using certificate-of-conformance purchase order procedures are:

(i) A requirement to ship the supplies prepaid by common carrier or parcel post;

(ii) A requirement that when shipment is made by parcel post (U.S. Postal Service) or common carrier to (A) cite on invoice(s) and copies thereof the shipment date, name and address of carrier, and bill of lading number or other shipment document number or (B) attach copies of such documents to invoice as evidence of shipment. The invoice(s) shall also be prominently marked "Certificate of Conformance";

(iii) A requirement where delivery is by other than parcel post or common carrier to attach a receipted copy of the contractor's delivery document to the contractor's invoice(s) and invoice copies;

(iv) A requirement that each invoice under a purchase order utilizing the certificate-of-conformance procedure must be accompanied by GSA Form 2049, Contractor's Certificate of Conformance, completed and signed by the contractor; and

(v) A requirement to include the following statement on the consignee's copy of the contractor's invoice(s):

CONSIGNEE'S NOTIFICATION TO PROCUREMENT DIVISION OF NONRECEIPT, DAMAGE, OR NONCONFORMANCE

Consignee shall promptly notify the contracting officer, after purchase order delivery

V 38 I 19 JAN 30 73 XUM

date, of supplies not received, damaged in transit, or not conforming with purchase order specifications.

PART 5A–16—PROCUREMENT FORMS

The table of contents for Part 5A–16 is amended to add the following new entry:

Sec.
5A–16.950–2049 GSA Form 2049, Contractor's Certificate of Conformance.

NOTE: A copy of the form illustrated in § 5A–16.950–2049 is filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. These regulations are effective February 14, 1973.

Dated: January 15, 1973.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

[FR Doc.73–1696 Filed 1–29–73;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 4–2; Notice 6]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Warning Devices

The purpose of this notice is to respond further to petitions for reconsideration and amendment of Motor Vehicle Safety Standard No. 125, Warning Devices, § 571.125 of Title 49, Code of Federal Regulations. The standard was issued on March 1, 1972 (37 FR 5038). On June 22, 1972, a previous notice of amendments and reconsideration of the standard was published (37 FR 12323).

With respect to the configuration of the device Rowland Development Corp. stated that it manufactures a dual purpose fluorescent orange and red reflective material and requested that the separate width requirements for red reflex reflective material and orange fluorescent material affixed to the faces of the device be suspended when such material is used. The NHTSA has concluded that the use of such dual purpose material as an alternative to separate material is permissible if the material is capable of meeting the requirements of Standard 125. S5.1.1, S5.2.3, S5.5, and S6.2(a) are hereby modified accordingly, and the separate width requirements will not be applicable when dual purpose material is used.

Tri-Lite interpreted the standard as permitting the use of a flag as part of a "combination signal device" as long as the device did not violate S5.2.1(b), relating to obstruction of the reflective and fluorescent material. In a previous letter to Tri-Lite the NHTSA had stated that the standard would be interpreted to allow such additions. (Docket entry N4–4–2–10, July 18, 1972.) Upon further consideration, the agency has determined that permitting additions to the device will lessen its effectiveness by degrading the uniformity of its shape. Accordingly, the use of additional shapes or attachments will not be permitted, and a new S5.2.6 is added to that effect.

A number of petitions regarding the orange fluorescent material were received. Personnel from the National Bureau of Standards suggested that the requirements for the color of the orange fluorescent material be amended so as not to penalize colors that have the same hue but are stronger than the present maximum y and minimum x values. The NHTSA agrees with the suggestion and S5.3.2 has been amended accordingly.

Tri-Lite stated that the fluorescent material deteriorates over time and is therefore unreliable. It requested that the provision of orange fluorescent material on the device be made optional. The NHTSA recognizes that deterioration of fluorescence is a possibility; however, it is felt that the requirement of an opaque container and the improving technology of fluorescent materials should offset the possible problem. It is anticipated that the device will be used only infrequently, in emergencies, by most drivers. The request of Tri-Lite is therefore denied.

Rowland Corp. requested that the luminance requirement be expressed in terms relative to the amount of fluorescent material affixed to the device rather than the percentage figure of magnesium oxide presently required. The agency position is that a minimum level of luminance is necessary for identifiability, but that a somewhat lower limit for luminance of the orange material could be suitable if more material is used. Accordingly, S5.5 has been amended to lower the minimum relative luminance relative to magnesium oxide from 35 percent to 25 percent, and to require a minimum product of that relative luminance and width in inches of the device of 44. Dayglo Color Corp. requested that two sources of light for the luminance test, Source C and Source D–65, be permitted in addition to the xenon arc lamp specified in the standard. The NHTSA has concluded that the most consistent test results are provided when the material is diffusely irradiated with undispersed light from a high-pressure xenon arc lamp to simulate daytime conditions. As a general rule, alternative test procedures for a single property are inadvisable, and no sufficient justification for them has been shown here. Therefore the Dayglo request is denied.

In light of evidence that differing relative luminance values are obtained from different procedures used to measure it, a procedures paragraph (S6.3) for the luminance testing of the orange fluorescent material has been added to the standard. The procedure is adapted from the publication "Colorimetry," of the International Commission on Illumination (CIE Publication No. 15, E–1.3.1, 1971).

Two petitions dealt with the stability requirements. Rowland Development Corp. requested that the standard permit the manufacture of a triangle device constructed of flexible material which is secured at the outer corners of the triangle and is otherwise free to flex with the wind. Safety Triangles Co. requested that the device be permitted to tilt to a position up to 30° from the vertical rather than the presently allowed 10°. These requests were directed at permitting manufacturers to produce lighter and cheaper devices. The NHTSA has concluded that if the triangle is permitted to flex in the wind or tilt to a position up to 30° from the vertical, the attitude of the triangle is altered so that the shape of the equilateral triangle is distorted, thus detracting from one of the goals of the standard. The present performance requirements and the consequent cost factors have been found to be reasonable. These requests are accordingly denied.

With respect to reflectivity testing, Rowland stated that candlepower requirements for an observation angle of 0.2° were superfluous and not related to true highway situations, and requested their deletion. The NHTSA has determined in the formulation of the standard that the specified reflectivity requirements allow a maximum recognition and detection distance to oncoming traffic. Accordingly, the requirements for the 0.2° observation angle are retained.

In consideration of the foregoing, Motor Vehicle Safety Standard No. 125, Warning Devices, 49 CFR 571.125, is amended as follows:

1. S5.1.1 is amended to read:

S5.1.1 Reflex reflective material and fluorescent material that meet the requirements of this standard shall be affixed to both faces of the warning device. Alternatively, a dual purpose orange fluorescent and red reflective material that meets the requirements of this standard (hereafter referred to as "dual purpose material") may be affixed to both faces in place of the reflective and fluorescent materials.

2. S5.2.3 is amended to read:

S5.2.3 Each face of the triangular portion of the warning device shall have an outer border of red reflex reflective material of uniform width and not less than 0.75 and not more than 1.75 inches wide, and an inner border of orange fluorescent material of uniform width and not less than 1.25 and not more than 1.30 inches wide (figure 1). However, this requirement shall not apply if the dual purpose material is used.

3. A new S5.2.6 is added to read:

S5.2.6 The device shall consist entirely of the triangular portion and attachments necessary for its support and enclosure, without additional visible shapes or attachments.

4. S5.3.2 is amended to read:

S5.3.2 The color of the orange fluorescent material on the warning device shall have the following characteristics both before and after the warning device has been conditioned in accordance with S6.1: When expressed in terms of the International Commission on Illumination (CIE) 1931 colormetric system, the chromaticity coordinates of the fluorescent orange material shall lie within the region bounded by the spectrum locus and the lines defined by the following equations:

Boundary	*Equation*
Yellow	y=0.489x+0.170.
White	x+y=0.943.
Red	y=0.351.

5. S5.5 is amended to read:

S5.5 *Luminance.* When the orange fluorescent material on the warning device is tested in accordance with S6.3, both before and after the warning device has been conditioned in accordance with S6.1, it shall have a minimum relative luminance of 25 percent of a flat magnesium oxide surface and a minimum product of that relative luminance and width in inches of 44.

6. S6.2(a) is amended to read:

(a) Unless dual purpose material is used, prevent the orange fluorescent material from affecting the photometric measurement of the reflectivity of the red reflective material, either by separation or masking.

7. A new paragraph S6.3 is added:

S6.3 *Luminance Test.* Test the orange fluorescent material as follows:

(a) Unless dual purpose material is used, prevent the red reflective material from affecting the photometric measurement of the luminance of the orange fluorescent material.

(b) Using a 150-watt high-pressure xenon compact arc lamp as the light source, illuminate the material diffusely by an integrating sphere, the total area of whose ports does not exceed 10 percent of the internal reflecting sphere area.

(c) Measure the luminance of the material at a perpendicular viewing angle, with no ray of the viewing beam more than 5° from the perpendicular to the specimen.

(d) Repeat the procedure for a flat magnesium oxide surface, and compute the quotient (percentage) of the luminance of the material relative to that of the magnesium oxide surface.

Effective date: January 1, 1974.

(Secs. 103, 112, 119, Public Law 89–563, 80 Stat. 718, 15 U.S.C. 1392, 1401, 1407; delegation of authority at 49 CFR 1.51)

Issued on January 23, 1973.

DOUGLAS W. TOMS,
Administrator.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1118]

PART 1033—CAR SERVICE

Providence and Worcester Co. Authorized To Operate Over Tracks of Penn Central Transportation Co., and Penn Central Transportation Co. Authorized To Operate Over Tracks of Providence and Worcester Co.

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 11th day of January 1973.

It appearing, That the Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees (PC), in Finance Docket No. 26154, has been authorized to abandon operations over the line of the Providence and Worcester Co. (P. & W.) between Worcester, Massachusetts, and Providence, R.I.; that the P. & W. has concurrently been authorized to resume separate operation of its line between these points; that the Slatersville, R.I., branch of the PC will be severed of direct connections with the remainder of the PC by reason of abandonment of operations of the PC over the line of the P. & W.; that the P. & W. and the PC have agreed on a method of operations of the Slatersville branch of the PC by the P. & W. for account of the PC; that certain operations of the P. & W. over tracks of the PC and of the PC over tracks of the P. & W. are required to permit separate operations of the P. & W. in the manner ordered by the Commission; that continued operation of the P. & W. and of the Slatersville branch of the PC is necessary to provide uninterrupted railroad service to shippers served by these lines; that operation by the P. & W. over tracks of the PC and by the PC over tracks of the P. & W. is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and good cause exists for making this order effective upon less than 30 days' notice.

It is ordered, That:

§ 1033.1118 Service order 1118.

(a) Providence and Worcester Co. authorized to operate over tracks of Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., trustees; Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., trustees, authorized to operate over tracks of Providence and Worcester Co. The Providence and Worcester Co. (P. & W.) be, and it is hereby, authorized to operate over tracks of the Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., trustees, (PC) as described herein:

(1) The P. & W. is authorized to operate over the Norwich and Worcester wye of the PC and over PC tracks along Southbridge Street between Norwich and Worcester survey station 72 plus 46 and joint P. & W.—Norwich and Worcester survey station 2240 plus 99, all in Worcester, Mass.

(2) The P. & W. is authorized to operate over the Slatersville branch of the PC from a point of connection near Woonsocket, R.I., to the ends of the track at Woonsocket and at Slatersville, R.I., a distance of approximately 4.4 miles.

(3) The P. & W. is authorized to operate over the northwesterly most track of the PC between Boston Switch, Providence, R.I., and the point of interchange with the Moshassuck Valley Railroad in Northup Avenue Yard, Pawtucket, R.I.

(b) The PC be, and it is hereby, authorized to operate over tracks of the P. & W. in the southerly portion of South Worcester Yard, Worcester, Mass., between survey stations 2112 plus 08 and 22 plus 55.

(c) The P. & W. and the PC be, and they are hereby, authorized to operate jointly over tracks between Wilkes Barre pier and the junction of the Darlington and East Junction lines, all in the vicinity of East Providence, R.I.

(d) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(e) *Rates applicable.* Inasmuch as this operation by the P. & W. over tracks of the PC and by the PC over tracks of the P. & W. is deemed to be due to carrier's disability, the rates applicable to traffic moved over these lines shall be the rates applicable to traffic routed to, from, or via these lines which were formerly in effect on such traffic when routed via the PC, until tariffs naming rates and routes specifically applicable via the P. & W. become effective.

(f) *Effective date.* This order shall become effective at 11:59 p.m., February 2, 1973.

(g) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73–1755 Filed 1–29–73;8:45 am]

SUBCHAPTER C—ACCOUNTS, REPORTS AND RECORDS

[No. 32153 (Sub-No. 4)]

PART 1201—RAILROAD COMPANIES

Minimum Rule Applicable to Railroad Property Acquisitions, Additions and Betterments

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 8th day of January 1973.

On August 11, 1972, notice of proposed rule making was published in the FEDERAL

V38-19 JAN 30 73 XUM

REGISTER (37 FR 16206) advising all interested parties that the Commission had under consideration the revision of the minimum rule for the capitalization level applicable to railroad property acquisitions, additions, and betterments. After consideration of all relevant matters submitted by interested parties, the revisions proposed are hereby adopted as shown by the instructions attached to and made a part of this order.

Wherefore, and good cause appearing:

It is ordered, That Instructions for Property Accounts of Railroad Companies prescribed in Part 1201 of Chapter X, Subchapter C of Title 49 of the Code of Federal Regulations are amended as shown in Appendix A below.

It is further ordered, That these amendments are effective January 1, 1973.

And it is further ordered, That service of this order shall be made to all carriers by railroad which are affected thereby to all parties of record herein, and notice of the order shall be given the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy of the order with the Director, Office of the Federal Register.

(Sec. 20, 24 Stat. 386, as amended 49 USC 20)

The decision in this proceeding will have no impact upon the quality of the environment.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD,
Secretary.

APPENDIX A

No. 32153 (Sub-No. 4)

Statement of amended rules:

Part 1201, "Instructions for Property Accounts", instructions 2-2 and 2-9 are amended as follows:

Item No. 1. Instruction 2-2 *Minimum rule applicable to additions to property* is revised by replacing the references to "$500.00" in the first and third sentences, to read as "$1,500." As amended, instruction 2-2 reads:

2-2 Minimum rule applicable to additions to property. An exception to the rule in instruction 2-1 is that when the cost of acquisition of units of road property and of additions and betterments to existing units of road property (other than land or tracks) is less than $1,500 such cost shall be charged to operating expenses. The carrier shall not parcel expenditures under a general plan for the purpose of bringing the accounting for such expenditures within this minimum rule. An amount of less than $1,500 may be adopted for purposes of this rule provided the carrier first notifies the Commission of the amount it proposes to adopt and thereafter makes no change in the amount unless authorized to do so by the Commission. An amount so adopted shall be adhered to in reporting property changes for valuation purposes.

Item No. 2. Instruction 2-9 *Additions and retirements of other than units of property* is revised by replacing the reference to "$500" in the first sentence of paragraph (a), to read as "$1,500." As amended, paragraph (a) of instruction 2-9 reads:

2-9 Additions and retirements of other than units of property. (a) When an item of road or equipment property, other than a complete unit, is added to the plant and the addition is not a replacement, the cost thereof shall be accounted for in the same manner as an addition of a complete unit of property, subject to the $1,500 minimum rule applicable to road property. When an item of property other than a complete unit (minor item) is replaced, independent of the complete unit of which it is a part, the cost of replacement shall be treated as maintenance and charged to operating expenses; except that, when the replacement effects a substantial betterment through the application of superior parts, the primary aim of which is to make the property affected more useful, more efficient, of greater durability, or of greater capacity, the excess cost of new parts over the current cost of new parts of the kind replaced shall be charged to the appropriate primary property account. The cost of removing the old appliances and applying the improved parts shall be charged to operating expenses. (See instruction 2-8 (b) covering retirement of a minor item not replaced.)

[FR Doc.73-1756 Filed 1-29-73;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Imperial National Wildlife Refuge, Ariz. and Calif.

The following special regulation is issued and is effective January 30, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

IMPERIAL NATIONAL WILDLIFE REFUGE

Sport fishing and the taking of bullfrogs, crustaceans, and mollusks, on the Imperial National Wildlife Refuge, Ariz. and Calif., is permitted in all areas except in those areas closed to public entry. These open areas, comprising 8,100 acres, are delineated on maps available at refuge headquarters, Yuma, Ariz., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Sport fishing and the taking of bullfrogs, crustaceans, and mollusks, shall be in accordance with applicable State regulations subject to the following special conditions:

(1) The open seasons for the taking of bullfrogs, crustaceans, and mollusks, shall be in accordance with State regulations.

(2) The open season for sport fishing on the refuge extends from January 1 through December 31, 1973, inclusive, except for an area of approximately 165 acres in Martinez Lake, as posted, to be closed during the periods January 1 through February 28, 1973, inclusive, and October 1 through December 31, 1973, inclusive.

(3) The use of bow and arrow for the taking of carp, buffalo, mullet, suckers, and bullfrogs is permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

GERALD E. DUNCAN,
Acting Refuge Manager, Imperial National Wildlife Refuge, Yuma, Ariz.

JANUARY 22, 1973.

PART 82—NOTIFICATION OF LEGAL IDENTITY

Change in Effective Date

On Saturday, December 9, 1972, there was promulgated in the FEDERAL REGISTER (37 FR 26308-26310) a new Part 82, Title 30, Code of Federal Regulations requiring the operator of a coal mine to notify the appropriate Coal Mine Health and Safety District Manager for the district in which the coal mine is located of the legal identity of the operator and to report all changes in the legal identity as they occur. The effective date of Part 82 was established as February 1, 1973, and the operators are required to use Bureau of Mines Form 6-357 entitled, "Legal Identity Report" in reporting this information to the Bureau of Mines. In view of a delay in the printing of Form 6-357 and in order to provide a reasonable period of time within which these forms may be distributed by the District Managers after printing, the effective date is hereby amended and extended and Part 82 shall be effective on and after March 15, 1973.

JOHN B. RIGG,
Deputy Assistant Secretary of the Interior.

JANUARY 26, 1973.

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

Price and Pay Regulation of Food Industry

Part 130 is amended in Subpart F and in Subpart L to set forth the scope of mandatory price and pay rules in the food industry.

Subpart F is amended by revising § 130.51 to set forth a de minimis rule excepting from the mandatory rules of Subpart F the pay adjustments and price adjustments of those manufacturers, service organizations, wholesalers or retailers deriving less than 20 percent of their annual sales and revenues from sales of food and less than $50 million in annual sales and revenues from sales of food.

Subpart F is further amended by adding new §§ 130.57a, 130.57b, and 130.57c which prescribe the rules for determination of profit margin for firms in the food industry. The general rule is that profit margins of firms in the food industry are to be measured separately with respect to food sales to the extent possible. However, if food sales cannot be separately accounted for from nonfood sales, profit margins are to be measured with respect to combined food and nonfood sales. In these latter instances, nonfood sales are subject to the mandatory profit margin and reporting rules of Subpart F, but are not subject to the prenotification rules.

A new paragraph (b) is added to § 130.58 to define the pay adjustments for employees of firms in the food industry which are subject to mandatory pay controls under Subpart F. Such pay adjustments are controlled under the following circumstances:

(1) Pay adjustments are controlled for appropriate employee units in which 50 percent or more of the employees are engaged in food operations; and

(2) Pay adjustments are controlled for employees engaged in food operations in appropriate employee units in which 60 or more employees are engaged in food operations.

A new sentence is added to the definition of "annual sales or revenues" in Subpart L to make it clear that in determining the appropriate prenotification, reporting and recordkeeping status of a firm in the food industry, only gross receipts with respect to food sales are to be considered.

A definition of food is added to Subpart L defining "food" to be items produced or manufactured for human ingestion, but not including alcoholic beverages, tobacco products, or drugs. Restaurants, cafeterias, delicatessens, caterers, vending machines, and similar food service organizations are subject to the mandatory rules of Subpart F except the prenotification requirements.

Animal feeds are not considered food within the meaning of this definition. The major component of the value of animal feeds is raw agricultural products which remain exempt, and processed animal feeds are competitive with exempt raw agricultural products. Items with both animal and human consumption end uses are not considered "food" or subject to prenotification requirements until they enter into a processing stage where they are intended for use as or in a product for human ingestion. Firms that cannot separately account for costs of food and nonfood items must account for price increases for nonfood items at the time they submit for prenotification or otherwise increase prices as provided for by the regulations for food items.

Because the purpose of these regulations is to provide immediate guidance as to Cost of Living Council decisions, I find that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making these regulations effective in less than 30 days. Interested persons may submit comments regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, DC 20507.

These regulations are effective as of January 11, 1973.

DONALD RUMSFELD,
Director, Cost of Living Council.

(Economic Stabilization Act of 1970, Title II of Public Law 92-210, 85 Stat. 743 and Executive Order Number 11695)

1. Part 130 is amended in Subpart F by amending § 130.51 to read as follows:

§ 130.51 Scope.

This subpart establishes special mandatory rules applicable to price adjustments for sales of food by manufacturers, service organizations, wholesalers, and retailers unless exempted under the provisions of Subparts D or E of this part and pay adjustments affecting employees in the food industry unless exempted under the provisions of Subpart E of this part. This subpart does not apply to the price adjustments or pay adjustments of any manufacturer, service organization, wholesaler or retailer which both derives less than 20 percent of its annual sales or revenues from sales of food and less than $50 million of annual sales or revenues from sales of food.

§ 130.57 [Amended]

2. Part 130 is further amended in Subpart F by striking the period at the end of the first sentence of § 130.57 and adding the following: "* * * and except that the requirements for prenotification do not apply with respect to food service organizations or with respect to any item until it enters into a processing stage where it is intended for use as or in a product for human ingestion. * * *"

3. Part 130 is further amended in Subpart F by adding the following §§ 130.57a, 130.57b, and 130.57c after § 130.57:

§ 130.57a Profit margin measurement—general.

The general principle applicable to the determination of profit margin for purposes of this subpart is that to the extent possible, consistent with generally accepted accounting principles, profit margin on food sales should be separately determined from profit margin on nonfood sales. To the extent that nonfood sales are not or cannot be separated from food sales for purposes of profit margin determination, such nonfood sales are subject to the mandatory rules of this subpart, except that such nonfood sales are not subject to the requirement of prenotification.

§ 130.57b Profit margin measurement—wholesalers and retailers.

A wholesaler or retailer shall determine its profit margin in a manner consistent with its choice of application of customary initial percentage markups. If the level of control selected for application of customary initial percentage markup purposes encompasses food and nonfood items in a single category or the same categories, then profit margin shall be measured so as to include the nonfood sales which are controlled for customary initial percentage markup purposes together with food sales. A wholesaler or retailer which, for purposes of applying customary initial percentage markup, separately controls food and nonfood items shall determine its profit margin based upon food sales only, except that it may determine profit margin based upon combined food and nonfood sales when profit margin with respect to nonfood sales cannot feasibly be separately determined consistent with generally accepted accounting principles. To the extent that nonfood sales are included in determining profit margin, such nonfood sales are subject to the mandatory rules of this subpart.

§ 130.57c Profit margin measurement—manufacturers and service organizations.

A manufacturer or service organization shall determine its profit margin with respect to food sales separately to the extent possible consistent with generally accepted accounting principles. To the extent that nonfood sales are included in determining profit margin, such nonfood sales are subject to the mandatory rules of this subpart, except that such nonfood sales are not subject to the requirement of prenotification.

4. Part 130 is further amended in Subpart F by making present § 130.58 paragraph (a) of § 130.58 and by adding a new paragraph (b) as follows:

§ 130.58 Pay adjustments.

* * * * * * *

(b) For purposes of paragraph (a) of this section, "Pay adjustments affecting employees in the food industry" means pay adjustments by any manufacturer, service organization, wholesaler, or retailer subject to the mandatory controls of this Subpart F with respect to:

(1) Employees who are members of an appropriate employee unit in which 50 percent or more of the employees are engaged on a regular and continuing basis in food operations; and

(2) Employees engaged on a regular and continuing basis in food operations and who are members of an appropriate employee unit in which 60 or more of such employees are engaged in food operations.

§ 130.110 [Amended]

5. Part 130 is amended in Subpart L in § 130.110 by adding the following sentence to the definition of annual sales or revenues: "* * * For the purposes of Subpart F, "annual sales or revenues" means total gross receipts as determined above with respect to sales of food."

6. Part 130 is further amended in Subpart L in § 130.110 by adding alphabetically at the appropriate places the following new definitions:

V 38 I 19 JAN 30 73 XUM

"Food" means items produced or manufactured for human ingestion except alcoholic beverages, tobacco products, or drugs. An item is not food within the meaning of this definition until it enters into a processing stage where it is intended for use as or in a product for human ingestion.

"Food operations" means the growing, harvesting, manufacture, production, raising, packaging, storage, distribution, transportation, or sale of food or the rendering of administrative or support functions for such activities.

[FR Doc.73-1909 Filed 1-26-73;5:10 pm]

Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Parts 10, 16]

MIGRATORY BIRDS

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority contained in the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 703–711) it is proposed to amend Parts 10 and 16 of Title 50, Code of Federal Regulations.

On March 10, 1972, pursuant to the terms of Article IV of the Convention Between the United States of America and the United Mexican States for the Protection of Migratory Birds and Game Mammals (50 Stat. 1311) the common crow (*Corvus brachyrhynchos*) was one of the species included in the 32 families of birds added to the convention and brought under Federal protection.

Hunting crows for sport is recognized as a tradition enjoyed by many in the United States without detriment to the crow population. The convention provides that birds protected by it may be utilized for sport under adequate control. There is no reason to believe that hunting crows for sport under the limitation proposed will in any way be detrimental to the population or result in any appreciable decrease in their number.

PART 10—MIGRATORY BIRDS

It is determined that Subpart A of this Part 10 should be amended to provide for hunting seasons and add a new § 10.133 to Subpart L of this Part 10 to provide the conditions under which hunting seasons may be established.

Accordingly, it is proposed to amend § 10.1 to read:

§ 10.1 Scope of regulations.

(a) *In general.* The regulations contained in this part relate to the hunting of migratory game birds, and common crows (*Corvus brachyrhynchos*).

(b) *Procedural and substantive requirements.* Migratory game birds may be taken, possessed, transported, shipped, exported, or imported only in accordance with the restrictions, conditions, and requirements contained in this part. Common crows (*Corvus brachyrhynchos*) may be taken, possessed, transported, exported, or imported only in accordance with Subpart H of this part and the restrictions, conditions, and requirements prescribed in § 10.133.

* * * * *

It is proposed that the table of sections in Subpart L be amended to read:

Subpart L—Administrative and Miscellaneous Provisions

Sec.
10.131 Extension of seasons.
10.132 Native use in Alaska.
10.133 Hunting regulations for common crows.

AUTHORITY: Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 703–711).

It is proposed that a new § 10.133 be added to Subpart L to read:

§ 10.133 Hunting regulations for common crows.

(a) Common crows (*Corvus brachyrhynchos*) may be taken, possessed, transported, exported, or imported, only in accordance with such laws or regulations as may be prescribed by a State pursuant to this section.

(b) Except in the States of Hawaii and Alaska where no crows shall be taken, States may by statute or regulation prescribe a hunting season on the common crow (*Corvus brachyrhynchos*). Such State statutes or regulations may set forth the methods of taking, the bag and possession limits, the dates and duration of the hunting season, and such other regulations as may be deemed appropriate, subject to the following limitations for each State:

(1) Crows shall not be hunted from aircraft;

(2) The hunting season or seasons on crows shall not exceed a total of 124 days during a calendar year;

(3) Hunting shall not be permitted during the peak crow nesting period within a State; and

(4) Crows may only be taken by firearms, bow and arrow, and falconry.

PART 16—MIGRATORY BIRD PERMITS

It is proposed to amend § 16.22 of this subchapter by deleting horned owls and to provide that depredating birds killed pursuant to that section may be possessed, transported, and disposed of except by sale.

Accordingly, it is proposed that § 16.22 in the table of sections be amended to read:

Sec.
16.22 Depredating blackbirds, cowbirds, grackles, common crows, and magpies.

It is proposed that the introductory paragraph and paragraph (a) of § 16.22 be amended to read:

§ 16.22 Depredating blackbirds, cowbirds, grackles, common crows, and magpies.

A Federal permit shall not be required to control yellow-headed red-winged, bicolored red-winged, tri-colored red winged, and Brewer's blackbirds, cowbirds, all grackles, common crows, and magpies, when found committing or about to commit depredations upon ornamental or shade trees, agricultural crops, livestock, or wildlife, or when concentrated in such numbers and manner as to constitute a health hazard or other nuisance; *Provided:*

(a) That none of the birds killed pursuant to this section, nor their plumage, shall be sold or offered for sale, but may be possessed, transported, and otherwise disposed of or utilized.

* * * * *

Interested persons are invited to submit written comments, suggestions, or objections, concerning the proposed amendments, to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240. Comments received by March 23, 1973, will be considered.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

JANUARY 24, 1973.

[FR Doc.73-1686 Filed 1-29-73;8:45 am]

National Park Service

[36 CFR Part 4]

VEHICLES AND TRAFFIC SAFETY

Load, Weight, Length, and Width Limitations

Pursuant to the authority contained in the act of August 25, 1916 (39 Stat. 535, as amended, 16 U.S.C. 3), it is proposed to amend the regulations on vehicles and traffic safety at 36 CFR 4.11, by addition of paragraph (e).

The purpose of the proposal is to regulate the use of auxiliary, detachable, outside rear view mirrors on motor vehicles within areas of the National Park

V 38 - 19 JAN 30 73 XUM

System, to better ensure that pedestrians will not be hit by these objects.

It is the policy of the Department of the Interior, whenever applicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions or objections with respect to the proposed regulations to the Director, National Park Service, Washington, D.C., 20240, on or before March 1, 1973.

Section 4.11 of Title 36 is amended by adding a new paragraph (e) to read as follows:

§ 4.11 Load, weight, length, and width limitations.

* * * * *

(e) No motor vehicle shall be operated with a side mirror of auxiliary detachable type which extends more than 6 inches beyond the side fender line on either side of the motor vehicle, except when the motor vehicle is towing a second vehicle.

Dated: January 12, 1973.

JOSEPH C. AUMBERG, Jr.,
Acting Associate Director,
National Park Service.

[FR Doc.73-1679 Filed 1-29-73;8:45 am]

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 1427]

SEED COTTON

Proposed Determinations for 1973 Loan Program

The Secretary of Agriculture is preparing to make the following determinations and issue regulations with respect to a loan program for 1973-crop upland and American-Pima seed cotton:

(a) Whether such a loan program should be offered in 1973.

(b) Loan levels.

(c) Detailed operating provisions to carry out the program.

These determinations are to be made pursuant to section 5(a) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c).

(a) The cotton crop is now harvested over a short period of time (weather permitting). This results in delays to many producers in getting their cotton ginned, rushed ginning, and higher ginning costs to producers. Until cotton is ginned, baled, and stored in a warehouse, it is not eligible for loans under Commodity Credit Corporation's regular cotton loan programs.

This Department is not required to offer a seed cotton loan program. However, a seed cotton loan program was instituted by Commodity Credit Corporation for 1971-crop seed cotton; the program was renewed in 1972. Under these programs, recourse loans were made available on seed cotton in approved storage on or off the farm within a reasonable distance of an approved gin. These loans were designed to afford interim financing for the producers until such time as their cotton could be ginned and be available for sale or placing under the regular loan programs. Since these loans would make it possible for producers to store quantities of seed cotton for more orderly ginning at a later date, it was expected that the program would permit gins to operate over a longer period of time, resulting in reduced costs to producers and ginning of a higher quality cotton.

The 1971 and 1972 programs were limited to selective locations where past experience and conditions have shown that seed cotton can be stored. Participation in the 1971 and 1972 programs was limited, mainly because adverse weather during the harvesting season in some areas delayed harvesting. The program is being reviewed to determine whether it should be continued for 1973.

(b) Under previous seed cotton programs, loans were in amounts somewhat less than the estimated loan value of the lint cotton which would be ginned from the seed cotton placed under loan. Consideration is being given to the levels at which loans should be made available under the 1973 program.

(c) The seed cotton loan program regulations, containing the operating provisions for the 1972 program, were published in the FEDERAL REGISTER of June 13, 1972 (37 FR 11717) and June 21, 1972 (37 FR 12219). These regulations are being reviewed to determine whether similar regulations should be issued for the 1973 program.

Prior to making the foregoing determinations and issuing regulations, consideration will be given to any data, views, and recommendations which are submitted in writing to the Director, Cotton Division, ASCS, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received not later than March 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection from 8:15 a.m. to 4:45 p.m., Monday through Friday, in Room 4091, South Building, 14th and Independence Avenue SW., Washington, DC.

Signed at Washington, D.C., on January 23, 1973.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 1, 2, 21, 43, 73, 74, 76]

[Docket No. 19671, etc., FCC 73-73]

TRANSMISSION OF MOTION PICTURES FOR DISTRIBUTION TO HOTEL ROOMS

Notice of Inquiry and Proposed Rule Making; Memorandum Opinion and Orders

In the matter of various methods of transmitting program material to hotels and similar locations and use of the business radio service for the transmission of motion pictures or other program material to hotels or other similar points. Docket No. 19671.

Amendment of Part 76, Subpart G of the Commission rules and regulations pertaining to the cablecasting of programs for which a per-program or per-channel charge is made. Docket No. 19554.

Amendment of §§ 73.643(b)(2) and 74.1121(a)(2) of the Commission's rules and regulations pertaining to the showing of sports events on over-the-air subscription television or cablecasting. Docket No. 18893.

Amendment of Parts 1, 2, 21, and 43 of the Commission's rules and regulations to provide for licensing and regulation of common carrier radio stations in the multipoint distribution service. Docket No. 19493.

Sterling Manhattan Cable Television, Inc., Complainant v. New York Telephone Co., Defendant.

Petition for Consolidation filed by American Broadcasting Cos., Inc. Petition of National Association of Theatre Owners, Inc., to Impose a "Freeze" on the filing and grant of applications for the use of radio frequencies in connection with the operation of CATV pay-TV systems and/or channels and closed circuit pay-TV systems.

I. 1. The Commission has before it for consideration several proceedings which involve the transmission by wire or radio communication of motion pictures to hotel master antenna systems for distribution to hotel rooms. These include the furnishing of closed-circuit video transmission service by the New York Telephone Co. to Trans-World Communications (a division of Columbia Pictures Industries, Inc.), which is the subject of a complaint by Sterling Manhattan Cable Television, Inc.; applications of Columbia Pictures Industries, Inc. for microwave facilities in the Business Radio Service in several cities; recent grants to Midwest Corp. and others for construction permits in the Multipoint Distribution Service in three cities; and proposed rule making in Docket No. 19493 concerning use of the Multipoint Distribution Service. Although the distribution systems involved differ in technology and include both private and common carrier systems, they raise common questions of potential competition with commercial television broadcast transmissions and cable television, and potential "siphoning" of program material from free television, in addition to certain issues separately applicable to each method of program distribution. Furthermore, we also have pending other proceedings concerning the "siphoning" issue in the use of subscription television and cablecasting (see Dockets Nos. 18893, 19534).

2. In order to consider these common questions together, the Commission has decided to issue this notice of inquiry and notice of proposed rule making. The basic issue upon which we seek the comment of interested persons is whether, assuming that the various proposed new methods of supplying motion pictures or

other mass entertainment to hotels are otherwise in the public interest, they should nevertheless be restricted in order to prevent or limit the competitive effect upon television broadcast service or cable television service. In adopting rules for a subscription television service,[1] we determined that "free" television service to the public should be protected against the siphoning of certain program material for which the public now pays no direct charge. (See § 73.643 of the rules and regulations, 47 CFR 73.643.)[2] For the same reason, we imposed essentially the same restrictions upon programs cablecast for pay upon a per-channel or per-program basis by cable television systems. See § 74.1121, CATV, 23 F.C.C. 2d 825 (1970), now § 76.225 (37 FR 3288). In Docket No. 19554, Cablecasting Program Charges, 35 F.C.C. 2d 893 (1972), we requested further comments on the rules governing cablecasting, including the changes with respect to sports programs adopted in Docket No. 18893 for subscription television. The issues now before us are somewhat different, since the presently proposed modes of supplying motion pictures to hotels do not directly convert "free" channels of television broadcasting to pay use, as is the case with subscription television, and do not rely upon television broadcasting to supply basic program material, as is the case with cable television systems. Nevertheless, the questions remain of whether the newer modes will in fact affect the public's receipt of motion pictures or other program material on the other media and, if so, whether it is appropriate for the Commission to adopt similar, or different, restrictions for the new modes, modify the existing restrictions on pay cablecasting and subscription television, or take other remedial action. We are aware that the proposals now before us concern only the supplying of motion pictures to hotels, but the potential for a wider distribution of this and other material would appear to be present, as is the potential for a wider interconnection than now appears to be involved. We stress that this proceeding seeks data as to the trends in these new services and the possible impact of such trends on the public interest. Our action, therefore, may go beyond the hotel/motel aspects and include apartment buildings and similar predominantly non-transient locations.

3. It might have been feasible to consider the competition issue separately with respect to each matter before us involving the transmission of motion pictures to hotels by wire or radio. However, despite the technological differences among them, and the separate questions raised by each mode which apply only to it, we believe it preferable to treat the issue of competitive effect on an overall basis, since this issue is essentially the same with respect to each. Policy in this area should not be made on a piecemeal basis. We therefore request comment, with a view toward the adoption of final rules, on the question of whether we should limit the nature of material transmitted to hotel television receivers (or receivers in other institutions or private homes) by common carrier wire or radio, noncommon carrier wire or radio, or laser techniques, in order to prevent the loss of such material by television broadcast stations or cable television systems, or otherwise limit or prevent any such competitive effect upon these services as would be contrary to the public interest. In this regard, we seek information and views on the nature of existing and potential transmission methods, their impact on other services and the policy appropriate to their regulation. Is free competition or limited competition more in the public interest, taking due account of the nature of the respective services? If restrictions on free competition are desirable, what should they be—should they be similar to those now in effect for subscription television and pay cablecasting, or should they include more or less program material? Should they apply to transmissions to any television receivers, even if such transmissions are limited to hotels serving primarily transients, or should they take effect only where a larger or nontransient audience is involved? If the latter, at what point should they come into play? Should we consider relaxing the existing restrictions on pay cablecasting and subscription television rather than impose conditions upon the new services? Finally, should these forms of transmission be required to provide other services required of cable television systems? If so, what should be the form of the rule change (e.g. expanding the definition of a cable system to include hotel or apartment building systems)?

4. During the period we are considering the questions raised in this proceeding, we believe cable systems should be able to compete on an equal footing for the hotel/motel motion picture distribution business. By this we mean in competitive situations those cable systems desiring to transmit motion pictures to hotels or motels (i.e., accommodations used predominantly for transient occupancy) should not be required to adhere to our 2-10 year film restriction (i.e., § 76.225(a)(1) of our rules). Therefore in the aforementioned situation where a cable system is in competition with a noncable television program distribution system within the cable system's franchise area, we will waive upon appropriate request § 76.225(a)(1) of our rules with respect only to cable transmission to hotels/motels. A cable system may file for a waiver in the very early stages of a competitive situation, and in any event it and the hotel/motel entrepreneur may proceed with negotiations in such competitive situations with the assurance that a waiver will be forthcoming.[3]

5. Authority for the proposed rule making and inquiry instituted herein is contained in sections 2, 3, 4 (i) and (j), 201, 214, 301, 303, 307, 308, 309, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 152, 153, 154 (i) and (j), 201, 214, 301, 303, 307, 308, 309, and 403. In accordance with the provisions of section 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, replies, and other pleadings shall be filed. Written comments should be filed on or before May 21, 1973, and reply comments on or before July 23, 1973.

II. 6. We also have before us the petition of American Broadcasting Companies, Inc. (ABC), for consolidation of the rule making proceedings in Docket Nos. 19554, 18893, and 19493, the Sterling Manhattan Cable Television complaint and the applications of Columbia Pictures for microwave licenses, insofar as these matters relate to the "siphoning" of program material from free television.[4] Several parties have opposed this request. We agree with ABC, as indicated above, that there is a competitive impact issue common to the transmission methods other than subscription television and cablecasting which should be treated in one proceeding. However, we do not agree that all of the pending matters should be consolidated. We will proceed with them, and dispose of the ABC petition, in the manner set forth below.

7. Docket No. 19554, concerning the cablecasting of programs for which a per-channel or per-program charge is made, has been before us since June 1970. Throughout this proceeding we have indicated our desire to expedite its resolution. When we adopted our July 19, 1972 notice of proposed rule making and memorandum opinion and order, we said at page 8:

> We will make every effort to expedite resolution of this proceeding and expect to adhere to this proposed timetable.

Later, on September 27, 1972, when we extended the time for filing comments and reply comments for a period less than that requested, we said:

> In issuing the notice in this proceeding we indicated our intention to complete it expeditiously. Expedition was felt to be especially desirable because the existing rules were to be retained during the course of the proceeding although they had been subject to serious criticism on both procedural and other grounds.

We reiterate this view and believe that a consolidation of this proceeding with the

[1] Subscription Television, 15 F.C.C. 2d 466 (1968), affirmed National Association of Theatre Owners v. F.C.C., 420 F. 2d 194 (C.A.D.C., 1969), cert. den. 397 U.S. 922.

[2] In Docket No. 18893, Showing of Sports Events, 34 F.C.C. 2d 271 (1972), we revised those rules as they apply to over-the-air subscription television, with particular regard to sports events. Although we had requested comment on applying the changes to cablecasting, we left that subject for later and separate treatment. Petitions for reconsideration of Docket No. 18893 are pending, but not on this latter question, reconsideration having been denied as to the determination to take up the cablecasting limitations separately. (35 F.C.C. 2d 893 (1972).)

[3] We stress that our willingness to entertain the above waivers of the 2-10 year film restriction is a temporary measure designed to apply until the proceeding we are instituting today is finally resolved. This action is in no way indicative of any decision we might reach in Docket No. 19554.

[4] The Illinois Commerce Commission has also sought consolidation.

V 38 - 19 JAN 30 73 XUM

other captioned matters would cause an unnecessary delay. The issues surrounding pay cablecasting are sufficiently distinct to be handled separately, and we see no need to delay their resolution while we investigate the potential effect of the other methods of program transmission which are the subject of our inquiry. In our July 19, 1972 notice we restated the relevant questions and said we would take into consideration prior comments on these questions and any new comments relating to them. We also proposed to receive comments on four questions listed by ABC.[5] Since the particular questions relate to our pay cable policy, we feel it appropriate to decide them in Docket 19554. This will not deprive us of the flexibility to change these rules if necessary or to take notice of comments received on these questions and the effect of any decision made by us in this Docket upon the proceedings begun today.

8. Docket No. 18893 is virtually completed. The only matters left for decision are questions concerning clarification of amended § 73.643(b)(2) adopted in our report and order of March 23, 1972 (34 F.C.C. 2d 271). This being so, and because of the separate policy questions relevant to subscription television which, as we noted above, directly displaces traditional television broadcasting, we see no reason to order a consolidation of this docket with all the other captioned matters which would substantially delay a decision we can make very soon.

9. Docket No. 19493 involves a number of issues beyond those which are the subject of our notice and inquiry herein. However, it also involves basically similar competitive questions. Thus, in the notice of proposed rule making released on April 26, 1972, 34 F.C.C. 2d 719, at 722, we stated:

> The future development of this service is not entirely clear at this time. The various uses as projected by the applicants appear to be limited to instructional and business closed circuit television. While we do not anticipate that these facilities would be used to reach a mass market for closed circuit entertainment programming, a substantial entertainment market would appear to be possible. For example, an entrepreneur could arrange through the carrier to have programming (e.g., sports or movies) distributed for several hours a day or week to a number of hotels in a city, or in several cities if intercity connections were provided. While such arrangements would not be likely to reach the mass audiences anticipated in connection with subscription television or cablecasting, the audience could be substantial nonetheless. Therefore, we raise the question whether some anti-siphoning rules similar to those adopted in our report and order in Docket No. 18893, released March 29, 1972 (FCC 72-263), would be appropriate. We solicit comments on this question, including whether and to what degree this service is likely to develop into a device for serving substantial entertainment audiences. It is appropriate to note that other types of common carrier facilities, e.g., point-to-point microwave and cable, are also used for closed circuit television distribution. Therefore, it is possible that the Commission may want to consider the matter in a broader context than this proceeding.

Because we have already asked for comments on this subject, we will extract from Docket No. 19493 those comments which deal with it, and include them in the proceeding we are instituting today.

10. We are also today ruling upon the Sterling Manhattan Cable Television complaint against New York Telephone Co. in a separate document. The issues raised there are consolidated herein to the extent already indicated.

III. 11. In another action today, we have made a partial grant of applications filed by Columbia Pictures for microwave facilities in the Business Radio Service in the 12,200–12,700 MHz band. Our grants authorize Columbia Pictures to use private microwave to distribute motion pictures to hotels for viewing by the hotel guests and for distributing information about the movies available and the starting time of each feature. We have not granted Columbia Pictures proposals to use microwave radio channels for convention coverage and for transmission of paid advertisements associated with information about services, facilities, and attractions in the city. Further, we have conditioned our grants on the outcome of this proceeding because, although we concluded that the partial grants are consistent with existing rules, we believe a broad review of this type of use of Business microwave facilities is desirable.

12. Accordingly, we request comments on the following questions: (a) whether the microwave frequencies available in the Business Radio Service should be used for the transmission of motion pictures or other program material to hotels or to other reception points on a subscription basis; (b) if this service is to be authorized, what, if any, program transmission restrictions should be imposed, and what should be its relationship to cable television services; (c) more generally, comments are requested on whether Business microwave frequencies should be used for distribution by the licensee of his product for which a charge is made (such as motion pictures, music, etc.), or his services (such as computer service) to his customers; (d) whether private systems for convention coverage and transmission of information supported by advertising should be authorized; (e) assuming the services described in (a), (c), and (d) above are to be permitted, comments are requested on the impact of each on the spectrum space available in the Business Radio Service and on whether a new radio service, perhaps on frequencies above 12,700 MHz, should be established.

13. Resolution of these issues may result in amendment of the rules governing the use of the business radio service or new proposals for the creation of a new service. Authority for the proposed amendments is in sections 301, 303, 307, 308, 309, and 316 of the Communications Act of 1934, as amended, 47 U.S.C. 301, 303, 307, 308, 309, and 316. The time for filing comments on these issues is the same as that set forth above with respect to the general competitive impact issues.

IV. 14. In reaching its decisions in these matters, the Commission may take into account any relevant information before it in addition to the specific comments received. Responses will be available for public inspection during regular business hours in the Commission's public reference room at its headquarters in Washington, D.C.

15. In view of what has been set forth above, the petition of American Broadcasting Companies, Inc., and that of the Illinois Commerce Commission are granted to the extent indicated and otherwise are denied.

16. The petition of the Theatre Owners of America is also denied. Their request for a stay across-the-board of all grants of applications for the use of the spectrum in connection with pay cable or the provision of program material to hotels is unsupported by any showing warranting the grant of this drastic relief, either in terms of private or public injury or problems of spectrum scarcity.

Adopted: January 17, 1973.

Released: January 24, 1973.

[Docket No. R-464]

NATURAL GAS TARIFF CHANGES

Proposed Filing Requirements; Extension of Time for Filing Comments

JANUARY 19, 1973.

On January 17, 1973, the Independent Natural Gas Association of America filed a request for an extension of time to file comments concerning the "notice of proposed rule making" in Docket R-464 issued December 14, 1972, and published December 21, 1972, at 37 FR 28195, in the above matter.

Upon consideration, notice is hereby given that the time is extended to and including February 28, 1973, within which any interested person may submit data, views, and comments in writing, in the above matter.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1725 Filed 1-29-73;8:45 am]

---

[5] 1. What are the legal, technical, and economic differences between over-the-air subscription television and pay cablecasting?

2. Are there, as the Department of Justice suggests, means of protecting the viewing public by less restrictive means than the existing rules?

3. Are the rules appropriate for and how should they be administered with respect to access and leased channel cablecasting for which there is a per-program or per-channel charge and not subject to the control of a cable television operator?

4. Have there been significant and relevant changes in the motion picture industry that should be reflected in the rules?

[6] Commissioners Johnson, Reid, and Wiley concurring in the result.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 121]

[Docket No. 12534; Notice No. 73-3]

CIVIL AIRPLANE FLEET NOISE (FNL) REQUIREMENTS

Advance Notice of Proposed Rule Making

The Federal Aviation Administration is considering proposing the adoption of regulations that would prevent escalation of fleet noise levels (FNL); require a reduction in fleet noise levels on or before July 1, 1976; and require airplanes to comply with 14 CFR Part 36 (Noise Standards: Aircraft Type Certification)[1] on and after July 1, 1978. The proposal would apply to aircraft operated in interstate commerce under Part 121 of the Federal Aviation Regulations (14 CFR Part 121) by air carriers, supplemental air carriers, and commercial and air taxi operators operating turbojet engine powered airplanes with maximum weights of 75,000 pounds or greater.

This proposal would not apply to airplanes engaged in foreign air commerce. The United States believes that it is preferable that environmental problems affecting international civil aviation, like other aviation problems affecting more than one nation, be considered initially and hopefully resolved by the International Civil Aviation Organization (ICAO). ICAO is currently addressing the problem of aircraft noise, and has in fact scheduled its next meeting on the subject in March of this year. Issuance at this time of a proposal affecting airplanes in foreign air commerce could be construed by some in the international community as prejudging the issue or restricting U.S. participation in the ICAO work. An agreed international standard in this area would certainly reduce operational and enforcement problems and would put air carriers competing in foreign air commerce on a comparable footing. It is the intention of the United States to pursue this objective.

The proposal would also not apply to airplanes operated in overseas air commerce. The FAA specifically invites comments concerning whether these airplanes should be covered and, if so, on what basis.

To aid persons wishing to comment on the ANPRM, the terms "interstate air commerce", "overseas air commerce" and "foreign air commerce" are defined, respectively, as meaning the carriage by aircraft of persons or property for compensation or hire, or the carriage of mail by aircraft in commerce between respectively—

(a) A place in any State of the United States, or the District of Columbia, and a place in any other State of the United States, or the District of Columbia; or between places in the same State of the United States through the airspace over any place outside thereof; or between places in the same territory or possession of the United States, or the District of Columbia;

(b) A place in any State of the United States, or the District of Columbia, and any place in a territory or possession of the United States; or between a place in a territory or possession of the United States, and a place in any other territory or possession of the United States; and

(c) A place in the United States and any place outside thereof; whether such commerce moves wholly by aircraft or partly by aircraft and partly by other forms of transportation.

These definitions are derived from section 101(20) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1301(20)).

This advance notice of proposed rule making is being issued in accordance with the FAA's policy for the early institution of public proceedings in actions related to rule making. An "advance" notice is issued to invite early public participation in the identification and selection of a course or alternate courses of action with respect to a particular rule making problem.

Interested persons are invited to participate in this rule making action by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Rocket, AGC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before March 2, 1973, will be considered by the Administrator before taking action on the proposal. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

This advance notice is published after consideration of comments received in response to Advance Notice of Proposed Rule Making 70-44, "Civil Airplane Noise Reduction Retrofit Requirements" (Docket No. 10664), published in the FEDERAL REGISTER (35 FR 16980) on November 4, 1970.

The responses to the Civil Airplane Noise Reduction notice may be categorized in three basic groups: (1) City and State governmental authorities, citizen groups, and individual Congressmen and citizens; (2) foreign states and manufacturers; and (3) domestic industry groups and associations.

The first group almost unanimously supports the early implementation of retrofit[2] requirements; in geenral, however, the responses do not address the technological practicability or economic reasonableness of early implementation.

The members of the foreign group express the opinion that any retrofit requirements should be developed in the international forum because foreign operators may be required to comply with similar regulations. The FAA supports the concept that it is desirable to obtain uniformity of regulatory action through the ICAO procedure, and, as previously stated, is working in support of that international effort. Accordingly, this FNL proposal would supplement the establishment of international standards, while providing early relief to the public from aircraft noise generated by interstate operators.

The foreign group also expresses doubts that meaningful noise reductions can be obtained in an economical manner, particularly for aircraft whose engine noise source is dominated by the high velocity jet noise. The technical and economic reservations with respect to the high jet velocity noise source aircraft have, to a significant extent, been resolved since the issuance of the civil airplane noise reduction notice. Many pure jet (nonturbofan) aircraft have been retired because they are economically less desirable from an operational standpoint. In addition, recent technology programs being conducted indicate some potential for the development of jet noise suppression devices and, to this end, the fleet noise program now under consideration could provide flexibility in dealing with pure jet aircraft.

The domestic industry groups were divided on the qeustion of proceeding with an aircraft acoustic retrofit. The United Automobile Workers of America, the Air Line Pilots' Association, the American Association of Airport Executives, the Airport Operators' Council International, the National Association of State Aviation Officials, and the National Academy of Sciences all endorsed the early initiation of an aircraft acoustic retrofit requirement. Their position, essentially, is that existing studies are adequate to establish technical and economic feasibility and that noise reduction would be meaningful to airport neighbors.

The Aerospace Industries Association and the Air Transport Association express the opposing opinion that adequate information is not available to proceed with an acoustic retrofit program. Additionally, they argue that regulations should not be promulgated until the term "meaningful relief" is defined, until complete acoustical modifications are available for each airplane type, and until specific financing means are resolved. The FAA believes that, since the issuance of the civil airplane noise reduction notice, the technical problems leading to the definition of airworthy acoustical configurations which will meet the requirements of Part 36 are in the process of being resolved. It is believed that ongoing programs will lead to the development of airworthy Part 36 configurations in time to permit compliance with an FNL program without unreasonable burdens on the operators.[3] The requirements of the FNL program are believed to provide reasonable time for the modification of production lines to produce acoustic configurations for each airplane type as required by the operators, and to insure that the resulting reductions in fleet noise levels and individual airplane noise levels are meaningful.

[1] Part 36, applicable to subsonic transport category airplanes, and subsonic turbojet airplanes of all categories, establishes noise limits and methods to measure and evaluate aircraft noise. Compliance with the Part 36 requirements is necessary with respect to airplane types developed since December 1, 1969, before a type certificate may be issued for any airplane under the provisions of Part 21 (14 CFR Part 21).

[2] Retrofit, simply stated, is an aircraft or engine modification program designed to lessen noise emissions.

V 38 I 19 JAN 30 73 XUM

After considering these views, an FNL concept is being considered as an interim measure to relieve increasing airplane noise emissions until such time as all pertinent airplanes are subject to Part 36. Although the FNL concept, as fully explained below, is considered to be the most appropriate course to follow, within current technological capabilities, this does not imply a rejection of the retrofit program. Rather, the FNL concept is designed to permit an air carrier the alternative of modifying existing airplanes, replacing them with others having lower noise levels, or a combination of these actions. The time frames proposed for staging full compliance are designed to permit this flexibility. The FNL concept is not being considered as the exclusive solution to the noise level problem. Any person may propose alternative courses to or variants of the FNL and retrofit programs, and these will be considered by the Administrator in this proceeding. For this reason, an advance notice is being published, to inform all concerned that a solution is being sought to the overall noise level problem, and to afford an opportunity to be heard to any person desiring to coment. An environmental impact statement has not been prepared at this stage in the proceeding. Should further action be pursued, however, a statement will be promulgated at the appropriate time.

The FNL concept is discussed below, and is followed by a draft implementing regulation.

I. *Scope.* The FNL proposal would apply to all airplanes, with a maximum weight of 75,000 pounds or more, not operated in foreign or overseas air commerce. This would include airplane fleets operated by air carriers engaged in interstate air transportation under a certificate of public convenience and necessity or other appropriate economic authority issued by the Civil Aeronautics Board (CAB); the above-mentioned air carriers when engaged in interstate charter flights or other special service operations; supplemental air carriers and commercial operators engaged in the carriage of persons or property in interstate air commerce for compensation or hire; and certain air taxi operators.

II. *The Fleet Noise Level (FNL) concept and methodology.* Under the FNL concept, every airplane operating in interstate commerce would be required to comply with Part 36—"Noise Standards: Aircraft Type Certification" not later than July 1, 1978. Pending achievement of that objective, the FNL concept would immediately establish an upper limit on the cumulative noise levels of each fleet operator, and then would require a phased reduction of those levels so that, by July 1, 1976, at least 50 percent of the reduction required by July 1, 1978 would be achieved.

[3] Among those airplanes now in commercial domestic and foreign service and not subject to Part 36 certification are: DC-8, DC-9, Boeing 707, 727, and 747-100, Convair 880 and 990, and all turboprop aircraft. The BAC-111, operated in domestic service, also is not subject to Part 36 certification.

The FNL concept is based on the principle that the noise level of any given fleet is a function of the jet-engine noise of each airplane in that fleet and the total number of takeoffs and landings of each airplane in that fleet. The major elements of the FNL concept are: (1) Determining the noise levels for each airplane in the fleet, (2) determining the total number of operations (takeoffs and landings), for each airplane type for a representative 90-day period, (3) calculating a fleet noise level based on a mean logarithmic equation, and (4) establishing a precise limit on fleet noise levels.

The first element—determination of the takeoff and approach noise levels—would be calculated under the same takeoff and approach noise measurement terms and conditions as are used in Part 36 type certification. These terms and conditions have received wide review and will insure that the noise levels are of the same quality and have the same meaning as those that are determined during type certification. A sideline noise level measurement is not proposed, however, because the FAA believes that the calculation of the takeoff fleet noise level would not be altered significantly by including sideline noise levels. Also, in order to insure that the effects of takeoff and approach noise are discretely accounted for, no tradeoff between takeoffs and landings would be permitted. As in type certification, any weights less than maximum weight or design landing weight that are used in determining the takeoff and approach noise levels of an airplane for the purpose of determining FNL would be required to be established as operating limitations for the airplane. The noise level generated by each airplane would be required to be submitted within 30 days following the prescribed 90-day period.

The second element of the proposed regulation—the summary of total number of individual takeoffs and landings for any given 90-day period—would be required to be submitted every 90 days.

The third element—calculation method for determining fleet noise levels—is set forth as a draft proposal in Appendix G of Part 121, infra. The calculation is based on a mean logarithmic formula prescribed in section 2 of that appendix. The formula has been developed to combine the takeoff and landing summaries and the noise levels of each airplane within a fleet in an analytical process that reflects the contribution of these two factors to the noise level of each fleet (FNL).

The fourth element—the limiting fleet noise level (FNL) value, one for takeoff and one for approach—would be imposed as legal limitations on each fleet. These two limiting FNL values are derived, for each operator's fleet, under the prescribed mean logarithmic equation in Appendix G, using the 90-day summary of takeoffs and landings of each airplane in the fleet. The draft limiting FNL requirements are contained in proposed §§ 121.807 and 121.809 and are discussed below.

III. *Rules beginning ----------, 1973 (proposed § 121.807).* The purpose of this section would be immediately to "freeze," and prevent any further escalation of, the fleet noise levels that are now being generated and to achieve a positive FNL reduction on and after July 1, 1976. This would be done (1) by requiring each operator to submit the data and information necessary to establish the FNL's actually generated by him during a representative 90 consecutive days during the 12 months preceding the date of this notice, (2) by the Administrator's determination of the initial FNL's and, (3) by requiring that the initial FNL's not be exceeded (after a reasonable period for challenge). The challenge provisions would function as follows: The FNL data and information, submitted on or before ----------, 1973, would be converted into FNL's by the Administrator and published in the FEDERAL REGISTER. For operators for which no FNL can be established because of matters such as a strike or merger, the FAA would publish in the FEDERAL REGISTER an FNL equal to the average of all FNL's published or an FNL established by other means determined by the Administrator to be equitable and representative of that operator's experience. These values could be challenged by the operator within the 30 days following FEDERAL REGISTER publication. The values would be amended and republished if the Administrator agreed that the published FNL's were not equitable or representative. Initial published FNL values would become legal limits for each operator 60 days after their publication in the FEDERAL REGISTER unless challenged, in which case the Administrator's decision on the challenge would become legally binding 30 days after publication of that decision.

IV. *Rules beginning July 1, 1976 (proposed § 121.809).* On and after July 1, 1976, the FNL's originally established for each operator would be required to be reduced to a level that is halfway between the original level and the level that would exist if each airplane covered by this proposal was type certificated under Part 36 (a goal that would have to be fully achieved by the operator no later than July 1, 1978). Thus, if the operator's takeoff FNL established under proposed § 121.807 were 104, and it is determined (for any 90-day period following July 1, 1976) that, given the total number of takeoffs and landings within that period, the operator's takeoff FNL, computed as though each of the operator's airplanes complied with Part 36 (including Appendix C), would be 96, the operator would be limited to a takeoff FNL of 100 (that is, an FNL one-half way between 104 and 96). The operator would be subject to audit by the Administrator at any time to ensure that a takeoff FNL of 100 were not exceeded during any prescribed 90-day period. In addition, the provisions of § 121.807(d) requiring continuous submission of FNL data and information would continue to apply on and after July 1, 1976.

V. *Rules beginning July 1, 1978 (proposed § 121.811).* On July 1, 1978, the FNL concept would expire. In its place,

the regulation would require each operator to restrict all of his operations covered by this proposal to airplanes type certificated under Part 36, "including compliance with Appendix C of that Part". The quoted words would preclude argument that compliance with Part 36, for airplanes with older type certificates, could be accomplished through compliance with the provisions of Part 36 concerning early application dates (e.g., § 36.201).

The proposed rules are as follows:

Subpart X—Fleet Noise Levels

§ 121.801 Applicability.

This subpart governs the operation of turbojet engine powered airplanes with maximum weights of 75,000 pounds or more by operators when they are engaging in interstate air commerce. This subpart includes only those turbojet engine powered airplanes (one or more) that are in the operator's operating specifications or aircraft listing.

§ 121.803 Inspections by Administrator.

The operator shall permit the Administrator to make all inspections of records, data, and facilities necessary to ensure continuing compliance with this subpart, and all records and data shall be maintained in current status by the operator for this purpose.

§ 121.805 Relation to Part 36 of the Federal Aviation Regulations.

(a) All data and information submitted under this subpart for the purpose of determining takeoff or approach noise levels of individual airplane types shall be adequate to ensure compliance with §§ 36.3, 36.5, 36.101, 36.103, 36.1501, 36.1581, C36.1, C36.3, C36.7, and C36.9 of Part 36 of this chapter. All determinations of approach and takeoff noise levels of individual airplane types by the Administrator under this subpart will be made in accordance with those sections.

(b) Unless otherwise specified, all references in this subpart to provisions of Part 36 refer to Part 36 of this chapter as effective on December 1, 1969.

§ 121.806 Weight limits.

Any weights, less than maximum weight or design landing weight, that are used in determining the takeoff or approach noise, respectively, for any airplane under this subpart must be established as operating limitations for that airplane.

§ 121.807 Requirements beginning on ----------, 1973.

(a) On and after ----------, 1973, no person may operate an airplane covered by this subpart until he submits, and the Administrator accepts—

(1) All data and information necessary to determine the takeoff and approach noise levels of each airplane covered by this subpart and operated by him during a representative 90-day period during the 12 months preceding the issuance of this notice [date would be inserted in final rule]; and

(2) The total number of takeoffs and approaches conducted by him with each of the specified airplanes during that 90-day period.

(b) Using the data and information submitted under paragraph (a) of this section, the Administrator will determine—

(1) The takeoff and approach noise level of each airplane for which data and information are submitted; and

(2) The takeoff and approach FNL's, computed under Appendix G of this part, that were generated by that operator for the 90-day period described in paragraph (a)(1) of this section.

(c) The Administrator will publish in the FEDERAL REGISTER the takeoff and approach FNL's computed under paragraph (b)(2) of this section for each operator. For an operator for which a representative FNL cannot be established, the Administrator publishes in the FEDERAL REGISTER, under paragraph (c) of this section, an FNL equal to the average of all FNL's computed under paragraph (b)(2) of this section, or by other means determined by the Administrator to be equitable and representative of that operaor's experience. The operator may, within 30 days following that publication, challenge the published FNL's. If the Administrator finds that the published FNL's are equitable and representative, he will so notify the operator. On and after 60 days following the date of publication of the initial FNL's or, if challenged, on and after 30 days after receipt of the Administrator's disposition of that challenge, no operator may operate an airplane covered by this subpart that is not type certificated under Part 36 of this chapter (including compliance with Appendix C of that part) if he exceeds his original or amended, as the case may be, FNL's in any consecutive 90-day period prescribed in paragraph (d) of this section.

(d) No person may operate an airplane covered by this subpart unless—

(1) He has submitted by 30 days following ----------, 1973, all data and information necessary to determine the takeoff and approach noise levels of, and the number of takeoffs and approaches made by each airplane covered by this subpart during the 90 days preceding that date; and

(2) Thereafter, he has submitted by 30 days following each 90-day period subsequent to ----------, 1973, the data and information (as specified in paragraph (d)(1) of this section) for that period.

§ 121.809 Requirements beginning on July 1, 1976.

In addition to continuing compliance with § 121.807(d) of this part, and beginning on July 1, 1976, the takeoff and approach FNL's of an operator's fleet for the 90-day period prescribed in § 121.807(d), computed in accordance with Appendix G of this part, may not exceed one-half of the sum of the following—

(a) The taffeoff and approach FNL's, respectively, published in the FEDERAL REGISTER under § 121.807(c); and

(b) The takeoff and approach FNL's, respectively, computed under Appendix G of this part for the preceding 90 days, using the noise level limits of Part 36, Appendix C of this chapter, for each airplane operated during that period.

§ 121.811 Requirements beginning on July 1, 1978.

(a) On July 1, 1978, the requirements of §§ 121.807 and 121.809 expire.

(b) On and after July 1, 1978, no person may operate an aircraft covered by this subpart unless that aircraft is type certificated under Part 36 of this chapter, including compliance with Appendix C of that part.

Appendix G—Fleet Noise Levels

SEC. 1. *General.* This appendix shall be used in determining the takeoff Fleet Noise Level (FNL) and the approach FNL of an operator's fleet in compliance with Subpart X of this part.

SEC. 2. *Mean logarithmic equation.* The following mean logarithmic equation shall be used:

$$FNL = 10 \log_{10} \left[\frac{\sum_{j=1}^{j=n} N_j \text{ Antilog } L_j 10}{\sum_{j=1}^{j=n} N_j} \right]$$

Where:

FNL = Fleet Noise Level (EPNL—units of db).
N_j = The number of operations for the 90-day period (Airplane j).
L_j = The noise level of each airplane, determined as specified in § 121.805.

SEC. 3. *Method; Example.* Assume that fleet 90-day takeoff information is as follows:

Type	T.O. weight	90-day number of operations	Noise level (EPNdB)	
			Actual	Pt. 36, app. C
X	227,000	179	110	101
Y	113,000	211	101	96
Z	394,000	147	98	105

Step 1. From the above fleet table (takeoff) determine FNL for actual noise levels by airplane using the number of 90-day operations.

$$FNL\ (Actual) = 10 \log_{10} \left[\frac{\left(179 \text{ Antilog } \frac{110}{10}\right) + \left(211 \text{ Antilog } \frac{104}{10}\right) + \left(147 \text{ Antilog } \frac{98}{10}\right)}{537} \right]$$

V 38 I 19 JAN 30 73 XUM

FNL (Actual) = 106.5 EPNdB

Step 2. From the above fleet table (takeoff) determine FNL for Part 36, Appendix C, noise levels, for each airplane, using the number of 90-day operations:

$$\text{FNL (Limit)} = 10 \text{ Log}_{10}\left[\frac{\left(179 \text{ Antilog } \frac{101}{10}\right)+\left(211 \text{ Antilog } \frac{96}{10}\right)+\left(147 \text{ Antilog } \frac{105}{10}\right)}{537}\right]$$

FNL (Limit) = 101.6 EPNdB

Analysis:

1. Beginning on July 1, 1973, the example takeoff FNL for any consecutive 90-day period may not exceed that of Step 1 (106.5 EPNdB).

2. Beginning on July 1, 1976, the example takeoff FNL for any consecutive 90-day period may not exceed one-half the value of Step 1 plus Step 2:

$$\frac{1}{2}[106.5+101.6]=104.1 \text{ EPNdB}$$

Steps 1, 2, and 3 are repeated for determining FNL compliance on approach, using a similar fleet table appropriately listing approach (landing) weights and related existing and limit noise levels.

This advance notice of proposed rule making is issued under the authority of sections 307(c), 313(a), 601, and 611 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(c), 1354(a), 1421, and 1431); section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); title I of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and Executive Order 11514, March 5, 1970.

Issued in Washington, D.C., on January 24, 1973.

R. P. SKULLY,
Director,
Office of Environmental Quality

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules, that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and funtcions are examples of documents appearing in this section.

DEPARTMENT OF THE INTERIOR

Bonneville Power Administration

BONNEVILLE REGIONAL ADVISORY COUNCIL

Notice of Public Meeting

The Bonneville Regional Advisory Council will hold its annual meeting on February 20, 1973, at the Olympic Hotel, Seattle, Wash. The meeting will begin at 9 a.m. and will be open to interested members of the public. A registration period will be held prior to the meeting. There is no registration fee, but there will be a charge for the no-host luncheon.

The main purpose of the meeting will be to discuss the energy situation within the Pacific Northwest region served by the Bonneville Power Administration. Aspects of this topic to be covered include such items as energy conservation and the environment, the Pacific Northwest energy outlook, energy costs, and Pacific Northwest energy resources.

The Bonneville Regional Advisory Council serves to bring to the attention of its members matters pertinent to BPA programs. The Council does not pass formal resolutions as such but the annual meeting does serve as a general forum for the free exchange of ideas as to the best ways of utilizing the energy resources of the region.

Copies of the proceedings of the annual meeting will be furnished on request to the Executive Secretary, Bonneville Regional Advisory Council, Post Office Box 3621, Portland, OR 97208.

Dated: January 16, 1973.

DONALD PAUL HODEL,
Administrator.

Bureau of Land Management

CALIFORNIA

Notice of Termination of Proposed Withdrawal and Reservation of Lands

JANUARY 18, 1973.

Notice of an application Serial No. R 2832 for withdrawal and reservation of lands was published in the FEDERAL REGISTER, Volume 35, Document No. 132, page 11062, dated July 9, 1970. The applicant agency has canceled its application insofar as it affects the following described lands:

SAN BERNARDINO MERIDIAN

SAN BERNARDINO NATIONAL FOREST

Gold Hill Administrative Site

T. 7 N., R. 19 W.,
Sec. 7, SW¼SW¼SW¼.
T. 7 N., R. 20 W.,
Sec. 12, SE¼SE¼SE¼;
Sec. 13, NE¼NE¼NE¼.

Therefore, pursuant to the regulations contained in 43 CFR Part 2300, such lands at 10 a.m. on February 28, 1973, will be relieved of the segregative effect of the above-mentioned application.

WALTER F. HOLMES,
Chief, Branch of Lands and Minerals Operations.

National Park Service

THEODORE ROOSEVELT NATIONAL MEMORIAL PARK

Notice of Intention To Issue a Concession Permit

Pursuant to the provisions of section 5, of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on March 1, 1973, the Department of the Interior, through the Superintendent, Theodore Roosevelt National Memorial Park, proposes to issue a concession permit to Alvin Tescher, authorizing it to provide concession facilities and services for the public at Theodore Roosevelt National Memorial Park for a period of 5 years, January 1, 1973, through December 31, 1977.

The foregoing concessioner has performed its obligations under a prior permit to the satisfaction of the National Park Service and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before March 1, 1973.

Interested parties should contact the Superintendent, Theodore Roosevelt National Memorial Park, Medora, N. Dak. 58645 for information as to the requirements of the proposed permit.

JOHN O. LANCASTER,
Superintendent, Theodore Roosevelt.

PROPOSED ILLINOIS BEACH ACQUISITION

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed Illinois Beach Acquisition project. Notice of Availability of the draft environmental statement inviting comments for a 45-day period was announced in the FEDERAL REGISTER on June 9, 1972 (DES 72-63).

The environmental statement considers the acquisition of approximately 725 acres of land, located along 3 miles of Lake Michigan shoreline between Zion and the Illinois-Wisconsin line. The land to be acquired will be utilized for an expansion of Illinois Beach State Park and will be used primarily by the residents of metropolitan Chicago and Milwaukee.

Copies are available for inspection at the following locations:

Bureau of Outdoor Recreation, Lake Central Regional Office, 3853 Research Park Drive, Ann Harbor, MI 48104.

Bureau of Outdoor Recreation, Division of State Programs, Department of the Interior, Washington, D.C. 20240.

Illinois Clearinghouse, State Clearinghouse Coordinator, Office of the Governor, Springfield, Ill. 62706.

[INT DES 73-2]

PROPOSED LITTLE BLUE TRACE ACQUISITION

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the proposed Little Blue Trace Acquisition project and invites written comments within forty-five (45) days of this notice. Comments from interested members of the public should be addressed to Regional Director, Lake Central Region, Bureau of Outdoor Recreation, 3853 Research Park Drive, Ann Arbor, MI 48104.

The environmental statement considers the acquisition of approximately 1,384 acres of land along the Little Blue River in Jackson County, Mo. Acquisition will be by the Jackson County Park Department and will preserve a greenbelt along the river for public open space and recreation purposes, in addition to being a shaper of future urban growth in the Little Blue Valley. The project will serve the entire Kansas City metropolitan area.

Copies are available for inspection at the following locations:

Bureau of Outdoor Recreation, Lake Central Regional Office, 3853 Research Park Drive, Ann Arbor, MI 48104.

Bureau of Outdoor Recreation, Division of State Programs, Department of the Interior, Washington, D.C. 20240.

State Clearinghouse, Department of Community Affairs, 505 Missouri Boulevard, Jefferson City, MO 65101.

Mid-America Regional Council, Suite 366, 127 West 10th, Kansas City, MO 64105.

Copies may be obtained by writing the National Technical Information Service, Department of Commerce, Springfield, Va. 22151. Please refer to the statement number above.

Dated: January 19, 1973.

WILLIAM W. LYONS,
Deputy Assistant Secretary.

[INT DES 73-3]

PROPOSED POWER TRANSMISSION LINE, LAKE TAHOE STATE PARK, NEV.

Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Bureau of Outdoor Recreation of the Department of the Interior has prepared a draft environmental statement on the proposal by Sierra Pacific Power Co. to construct a 120 kv. power transmission line from Carson City, Nev. to Incline Village, Lake Tahoe, through Nevada's Lake Tahoe State Park, a federally assisted Land and Water Conservation Fund project. Written comments from the public are invited within forty-five (45) days of this notice and should be sent to the Regional Director, Bureau of Outdoor Recreation, 450 Golden Gate Avenue, Post Office Box 36062, San Francisco, CA 94102. The draft environmental statement considers the probable effects on environmental and park values of construction of a high voltage overhead transmission line from the Carson City area to the north shore of Lake Tahoe, a distance of 16 miles through primarily mountainous terrain.

Copies of the statement are available for inspection at the following locations:

Office of Communications, Department of the Interior, Room 7229, Washington, D.C., Telephone (202)343-9383.

Office of Information, Bureau of Outdoor Recreation, Room 4026, Washington, D.C., Telephone (202)343-5726.

Office of the Regional Director, Bureau of Outdoor Recreation, 450 Golden Gate Avenue, San Francisco, CA 94102.

State Clearinghouse, Chief, Budget Division, Department of Administration, Blasdel Building, Carson City, Nev. 89701.

Metropolitan Clearinghouse, Washoe County Regional Planning Commission, Post Office Box 1286, Reno, NV 89504.

Regional Clearinghouse, Tahoe Regional Planning Agency, Post Office Box 869, South Lake Tahoe, CA 95705.

Copies may be obtained by writing the National Technical Information Service, Department of Commerce, Springfield, Va. 22151. Please refer to the statement number above.

Dated: January 22, 1973.

WILLIAM W. LYONS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

BERGLAND HILL SKI COMPLEX DEVELOPMENT OTTAWA NATIONAL FOREST

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Bergland Hill Ski Complex Development, USDA-FS-FES(Adm) 73-18.

The environmental statement concerns an application from a private developer for a special use permit for the development of a ski complex on 280 acres of federally owned lands and 120 acres of privately owned lands (the applicant is the apparent owner of the private lands) at the Bergland Hill which is located in the western Upper Peninsula of Michigan, six miles north of Bergland in Ontonagon County.

This final environmental statement was filed with CEQ on January 17, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, D.C. 20250.

USDA, Forest Service, Eastern Region, 633 West Wisconsin Avenue, Milwaukee, WI 53203.

USDA, Forest Service, Ottawa National Forest, Ironwood, Mich. 49938.

A limited number of single copies are available upon request to the Forest Supervisor, Ottawa National Forest, Ironwood, Mich. 49938.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

January 23, 1973.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

SELECTION OF PROPOSED NEW STUDY AREAS FROM ROADLESS AND UNDEVELOPED AREAS WITHIN THE NATIONAL FORESTS

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for selection of proposed new study areas from roadless and undeveloped areas within the national forests, USDA-FS-DES(Adm.) 73-42.

The environmental statement concerns a proposed selection of 235 new study areas from an inventory of 1,448 areas of undeveloped national forest lands, such areas to be further evaluated as to the desirability of adding them to the National Wilderness Preservation System.

This draft environmental statement was filed with the CEQ on January 18, 1973.

Copies are available for inspection during regular working hours at the following locations:

1. Washington office:
USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, DC 20250.

2. Regional offices (Regional Forester, U.S. Forest Service):

Northern Region, Federal Building, Missoula, Mont. 59801.
Southwestern Region, 517 Gold Avenue SW., Albuquerque, NM 87101.
California Region, 630 Sansome Street, San Francisco, CA 94111.
Southern Region, 1720 Peachtree Road NW., Atlanta, GA 30309.
Alaska Region, Federal Office Building, Post Office Box 1628, Juneau, Alaska 99801.
Rocky Mountain Region, Denver Federal Center, Building 85, Denver, Colo. 80225.
Intermountain Region, 324-25th Street, Ogden, UT 84401.
Pacific Northwest Region, 319 Southwest Pine Street, Post Office Box 3623, Portland, OR 97208.
Eastern Region, 633 West Wisconsin Avenue, Milwaukee, WI 53203.

3. Forest supervisor offices.

Each of these offices will have a copy of the Draft Environmental Statement available for review. The addresses of these offices may be obtained from any of the Regional Offices listed above.

4. Institute of Tropical Forestry:
Director, Institute of Tropical Forestry, Post Office Box AQ, Pio Piedras, Puerto Rico 00928.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to John R. McGuire, Chief, Forest Service, U.S. Department of Agriculture, South Building, 12th and Independence Avenue SW., Washington, D.C. 20250. Comments must be received by April 18, 1973, in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

Packers and Stockyards Administration

PERKINS AUCTION ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

IA-246 Perkins Auction, Carson, Iowa.
IA-245 Jones Livestock Sales, Spencer, Iowa.
KS-198 Arkansas Valley Community Sale, Wichita, Kans.
OK-190 Oklahoma Auction Center, Chickasha, Okla.
TX-203 Algoa Livestock Commission Company, Inc., Algoa, Tex.
WI-130 Kettle Moraine Auctions, Inc., Waukesha, Wis.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, U.S. Department of Agriculture, Washington, D.C. 20250, on or before Tuesday, February 13, 1973.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 22d day of January 1973.

EDWARD L. THOMPSON,
Acting Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Soil Conservation Service

LOST CREEK WATERSHED PROJECT, MO.

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental statement for the Lost Creek Watershed Project, Newton County, Mo., USDA-SCS-ES-WS-72-26(F).

The environmental statement concerns a plan for watershed protection and flood prevention. The plan includes conservation land treatment measures, seven floodwater retarding reservoirs, three debris basins, and is associated with channel modification proposed by the U.S. Army, Corps of Engineers.

The final environmental statement was transmitted to CEQ on January 17, 1973.

Copies are available for inspection during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenues SW., Washington, D.C. 20250.

Soil Conservation Service, USDA, Parkade Plaza Shopping Center, Terrace Level, Post Office Box 459, Columbia, MO 65201.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please order by name and number of statement. The estimated cost is $4.25.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Dated: January 19, 1973.

WILLIAM D. DAVEY,
Deputy Administrator for Watersheds, Soil Conservation Service.

National Oceanic and Atmospheric Administration

[Docket No. B-551]

KAREN SUE, INC.

Notice of Loan Application

FEBRUARY 22, 1973.

Karen Sue, Inc., Ministerial Road, Wakefield, R.I. 02879, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wood vessel, about 76-foot in length, to engage in the fishery for flounders, whiting, cod, hake, scup, butterfish, squid, herring, lobsters, and crabs.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, on or before March 1, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will

V 38 I 19 JAN 30 73 XUM

or will not cause such economic hardship or injury.

JOSEPH W. SLAVIN,
Acting Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 9023; Docket No. FDC-D-568; NDA 9-023, etc.]

CERTAIN ANTIHYPERTENSIVE COMBINATIONS CONTAINING VERATRUM ALKALOIDS

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on the following drugs for oral use:

1. Hyperloid PV Tablets containing protoveratrines A and B and rauwolfia serpentina; Person & Covey, Inc., 616 Allen Avenue, Glendale, CA 91201 (NDA 10-397).

2. Mio-Pressin (No. 1 and No. 2) Capsules containing rauwolfia serpentina, protoveratrines A and B, and phenoxybenzamine hydrochloride; Smith Kline & French Laboratories, 1500 Spring Garden Street, Philadelphia, PA 19101 (NDA 9-521).

3. Protalba-R Tablets containing protoveratrine A and reserpine; the Dow Chemical Co., Post Office Box 1656, Indianapolis, IN 46206 (NDA 11-202).

4. Rauprote Tablets containing rauwolfia serpentina and protoveratrines A and B; the Vale Chemical Co., Inc., 1201 Liberty Street, Allentown, PA 18102 (NDA 9-862).

5. Rauvera Tablets containing alseroxylon and alkavervir; Dorsey Laboratories, Div. Sandoz-Wander, Inc., Northeast U.S. 6 and Interstate 80, Lincoln, Nebr. 68501 (NDA 9-066).

6. Rauveratrum Tablets containing rauwolfia serpentina and veratrum viride extract; Direct Laboratories 377 Genesee Street, Buffalo, NY 14204 (NDA 10-004).

7. Rauverid Tablets containing rauwolfia serpentina and veratrum viride extract; Cooper Laboratories, Inc. (formerly Tilden-Yates Laboratories, Inc.), Fairfield Road, Wayne, N.J. 07470 (NDA 10-059).

8. Rauvertrum Tablets containing rauwolfia serpentina and veratrum viride extract; Richlyn Laboratories, Inc., 3725 Castor Avenue, Philadelphia, PA 19124 (NDA 9-607).

9. Rauwiloid and Veriloid Tablets containing alseroxylon and alkavervir; Riker Laboratories, 19901 Nordhoff Street, Northridge, CA 91324 (NDA 9-023).

10. Rauwolfia and Veratrum Tablets containing rauwolfia serpentina and veratrum viride extract; S. F. Durst & Co., Inc., 5317 North Third Street, Philadelphia, PA 19120 (NDA 10-090).

11. Rauwolfia Serpentina-Veratrum Viride Tablets containing rauwolfia serpentina and veratrum viride extract; Vitamix Pharmaceuticals, Inc., 5051 Lancaster Avenue, Philadelphia, PA 19131 (NDA 9-616).

12. Rauwolverat Tablets containing rauwolfia serpentina and veratrum viride extract; Nysco Laboratories, Inc., 34-24 Vernon Boulevard, Long Island City, NY 11106 (NDA 9-488).

13. Salutensin Tablets containing protoveratrine A, reserpine, and hydroflumethiazide; Bristol Laboratories, Inc., Div. Bristol Meyers Co., Thompson Road, Post Office Box 657, Syracuse, NY 13201 (NDA 12-359).

14. Unitensen-R Tablets containing cryptenamine tannates and reserpine; Mallinckrodt Pharmaceuticals, Division, Mallinckrodt Chemical Works, 2d and Mallinckrodt Streets, St. Louis, Mo. 63160 (NDA 9-535).

15. Veralba R Tablets containing protoveratrines A and B and reserpine; the Dow Chemical Co. (NDA 9-369).

16. Verapene tablets containing Reserpine and protoveratrines A and B; Wampole Laboratories, 35 Commerce Road, Stamford, CT 06904 (NDA 9-586).

17. Veraserpine tablets containing Rauwolfia serpentina and Veratrum viride extract; Gold Leaf Pharmacal Co., 223 South Dean Street, Englewood, NJ 07631 (NDA 9-609).

18. Verolfia tablets containing Rauwolfia serpentina and Veratrum viride extract; Bowman, Inc., 119 Schroyer Avenue SW., Canton, OH 44702 (NDA 9-617).

19. Vertina tablets containing Rauwolfia serpentina and Veratrum viride extract; Paul B. Elder Co., 705 East Mulberry Street, Post Office Box 31, Bryan, OH 43506 (NDA 9-993).

20. Verwolfia tablets containing Veratrum viride and Rauwolfia serpentina; M. R. Thompson, Inc., 767 Fifth Avenue, New York, NY 10022 (NDA 9-399).

The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that each component of the combination drugs contributes to the total effect claimed for the drug, and that these fixed combination drugs will have the effect that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before March 1, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election on or before March 1, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 1, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1669 Filed 1-29-73;8:45 am]

[DESI 10761; Docket No. FDC-D-560; NDA 10-761]

DOW CHEMICAL CO.

Certain Antiseborrheic Drug Containing Cadmium Sulfide for Topical Use; Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

In a notice (DESI 10761) published in the FEDERAL REGISTER of June 22, 1971 (36 FR 11875), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Capsebon Suspension containing cadmium sulfide (NDA 10-761); formerly marketed by The Dow Chemical Co., Box 10, Zionsville, IN 46077. The notice stated that the drug was regarded as probably effective for its labeled indication. The drug has been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness has been submitted pursuant to the notice.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before March 1, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election on or before March 1, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 1, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after March 1, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[DESI 5691; Docket No. FDC-D-590; NDA 5-691, etc.]

CERTAIN DRUGS CONTAINING VERATRUM ALKALOIDS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the

V 38 I 19 JAN 30 73 XUM

National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs for oral use:

1. Protalba Tablets containing protoveratrine A. The Dow Chemical Co., Post Office Box 1656, Indianapolis, IN 46206 (NDA 10–948).

2. Protoveratrine A and B Maleate Tablets; Nysco Laboratories, Inc., 3424 Vernon Boulevard, Long Island City, NY 11106 (NDA 9–587).

3. Provell Maleate Tablets containing protoveratrine A and B Maleate; formerly marketed by Eli Lilly & Co., Post Office Box 618, Indianapolis, IN 46206 (NDA 8–886).

4. Unitensen Tablets containing cryptenamine tannates; Mallinckrodt Pharmaceuticals, Second and Mallinckrodt Streets, St. Louis, Mo. 63160 (NDA 9–217).

5. Veralba Tablets containing protoveratrines A and B; The Dow Chemical Co. (NDA 8–709).

6. Veriloid Tablets containing alkavervir; Riker Laboratories, 19901 Nordhoff Street, Northridge, CA 91324 (NDA 7–336).

7. Vertavis Tablets containing veratrum viride; Mallinckrodt Pharmaceuticals (NDA 5–691).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. A new drug application is required from any person marketing such drug without approval.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

1. These drugs are effective for use in the treatment of mild to moderate hypertension.

2. The drugs lack substantial evidence of effectiveness for all their other labeled indications.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* These preparations are in tablet form suitable for oral administration.

2. *Labeling conditions.* a. The labels bear the statement, "Caution: Federal law prohibited dispensing without prescription."

b. The drugs are labeled to comply with all requirements of the Act and regulations, and the labeling bears adequate information for safe and effective use of the drugs. The Indications are:

For treatment of mild to moderate hypertension. The efficacy-safety relationship in this preparation is such that the effective and toxic dose levels are often approximately the same.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 FR 11273), as follows:

a. For holders of "deemed approved" new drug applications (i.e., an application which became effective on the basis of safety prior to Oct. 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1) (i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new drug application, the submission of an abbreviated new drug application, as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

C. *Notice of opportunity for a hearing.* Notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto providing for indications lacking substantial evidence of effectiveness referred to in paragraph A.2 of this notice on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn.

On or before March 1, 1973, the applicant(s) and any other interested person may file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election on or before March 1, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s) which have not been supplemented to delete the indication(s) lacking substantial evidence of effectiveness.

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 1, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claim(s) involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order making findings and conclusions on such data and withdrawing approval of application(s) not supplemented to delete the claim(s) involved.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 5691, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original abbreviated new drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.
Request for Hearing (identify with Docket Number): Hearing Clerk (CC–20), Office of General Counsel, Room 6–88, Parklawn Building.
Requests for the Academy's report: Drug Efficacy Study Information Control (BD–66), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

Received requests for a hearing may be seen in the Office of the Hearing Clerk (address given above) during business hours, Monday through Friday.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, MD 20852.

The notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355), and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1668 Filed 1-29-73;8:45 am]

[DESI 16; Docket No. FDC–D–521; NDA 16]

RIKER LABORATORIES

Combination Drug Containing Ephedrine, Hydrochloride, Atropine Sulfate, and Pentobarbital for Oral Use; Notice of Withdrawal of Approval of New Drug Application

On November 15, 1972, there was published in the FEDERAL REGISTER (37 FR 24208) a notice of opportunity for hearing (DESI 16) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the following product. The basis of the proposed action was the lack of substantial evidence that the drug is effective as a fixed combination for its labeled claims.

NDA 16; Rinofeds Capsules containing ephedrine, hydrochloride, atropine sulfate, and pentobarbital; Riker Laboratories, Inc., subsidiary of 3M Co., 19901 Nordhoff Street, Northridge, CA 91324.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Md. 20852.

On December 11, 1972, Riker Laboratories elected not to avail itself of the opportunity for a hearing, stating that shipments of the drug have been discontinued. There have been no other responses to the notice.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355) and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds on the basis of new information before him with respect to said drug, evaluated together with the evidence available to him when the application was approved, that there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of the above new drug application and all amendments and supplements applying thereto, is withdrawn effective on January 30, 1973. Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1671 Filed 1-29-73;8:45 am]

[DESI 6566; Docket No. FDC–D–578; NDA 11–467, etc.]

WINTHROP LABORATORIES

Chlormezanone and Chlormezanone with Aspirin; Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

In a notice (DESI 6566) published in the FEDERAL REGISTER of June 25, 1970 (35 FR 10394) the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the drugs described below stating that the drugs were regarded as possibly effective and lacking substantial evidence of effectiveness for the various labeled indications. The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness of the drugs has been submitted pursuant to the notice.

NDA No.	Drug	NDA holder
11–467..	Trancopal Caplets, 100 mg. or 200 mg. chlormezanone per tablet.	Winthrop Laboratories, Division of Sterling Drug, Inc., 90 Park Ave., New York, NY 10016.
11–721..	Fenarol Tablets, 100 mg. or 200 mg. chlormezanone per tablet.	Winthrop Laboratories.
12–188..	Tranco-Gesic Tablets, 100 mg. chlormezanone and 300 mg. aspirin per tablet.	Do.
12–188..	Trancoprin Tablets, 50 mg. chlormezanone and 300 mg. aspirin per tablet.	Do.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before March 1, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing.

V 38-19 JAN 30 73 XUM

Failure of an applicant or any other interested person to file a written appearance of election on or before March 1, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before March 1, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new-drug applicant(s) or any other interested, person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after March 1, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new-drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present eveidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1672 Filed 1-29-73;8:45 am]

[DESI 8119]

CERTAIN ORAL AND PARENTERAL DRUGS CONTAINING HYDROGENATED ERGOT ALKALOIDS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Hydergine Injection (NDA 8–119) and Sublingual Tablets (NDA 9–087) containing dihydroergocornine methanesulfonate, dihydroergocristine methanesulfonate, and dihydroergokryptine methanesulfonate; Sandoz Pharmaceuticals, Division, Sandoz-Wander, Inc., Route 10, Hanover, N.J. 07936.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. EFFECTIVENESS CLASSIFICATION

1. The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

a. The injection is less than effective (possibly effective) for the treatment of hypertension and functional or organic peripheral vascular disease.

b. The sublingual tablets are less than effective (possibly effective) for the treatment of essential hypertension; functional or organic peripheral vascular disease; and cerebral arteriosclerosis and dizziness, mood changes, nocturnal cramps, and paresthesias in the aged.

2. The Administration also concludes that:

a. Both the injection and the sublingual tablets lack substantial evidence of effectiveness for the treatment of cerebral vascular accidents and loss of memory in the aged.

b. The injection lacks substantial evidence of effectiveness for the treatment of pheochromocytoma and hypertensive crises.

B. MARKETING STATUS

1. On or before April 2, 1973, the holder of any approved new drug application for a drug classified in paragraph A. above as lacking substantial evidence of effectiveness shall submit a supplement to his application, as needed, to provide for revised labeling which deletes those indications for which substantial evidence is lacking as described in paragraph (a)(2). Such a supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new drug regulations (21 CFR 130.9 (d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use on or before April 2, 1973. Failure to do so will cause the product to be subject to a proposal to withdraw approval of the new drug application.

2. If any identical, similar, or related product is on the market without an approved new drug application, its labeling shall be revised to delete those claims for which substantial evidence of effectiveness is lacking as described in paragraph (a)(2) above. Failure to delete such indications and to put the revised labeling into use on or before April 2, 1973, will cause the product to be subject to regulatory proceedings.

C. SUBMISSION OF DATA

Any data submitted in response to this notice to support indications for which a drug is classified as other than effective must be previously unsubmitted and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 FR 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for approval of claims of effectiveness, but such studies may be considered on their merits for corroborative support of efficacy and evidence of safety.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 8119, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Supplements (Identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Requests for the Academy's report: Drug Efficacy Study Information Control (BD–66), Bureau of Drugs.
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended; 21 U.S.C. 352, 355) and the Administrative Procedure Act (5 U.S.C. 554) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: January 17, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1619 Filed 1-29-73;8:45 am]

[Docket No. FDC-D-579; NADA 9-221V]

FORT DODGE LABORATORIES

Drug Product Containing Lidocaine Hydrochloride; Notice of Withdrawal of New Animal Drug Application

In the FEDERAL REGISTER of August 5, 1970 (35 FR 12493, DESI 9221V), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Xylocaine new animal drug application (NADA) No. 9–221V (a product which contains lidocaine hydrochloride); marketed by Fort Dodge Laboratories, Division of American Home Products Corp., Fort Dodge, IA 50501.

Fort Dodge Laboratories responded to the announcement by advising the Commissioner that said drug has been deleted from the market and requesting that approval of NADA No. 9–221V be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that approval of said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 9–221V, including all amendments and supplements thereto, is hereby withdrawn effective January 30, 1973.

Dated: January 17, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1620 Filed 1-29-73;8:45 am]

[Docket No. FDC-D-515]

E. R. SQUIBB & SONS, INC., AND RICHLYN LABORATORIES, INC.

Certain Drug Products Containing Potassium Penicillin G; Notice of Withdrawal of Approval of New Animal Drug Applications

In the FEDERAL REGISTER of October 17, 1972 (37 FR 21960), the Commissioner of Food and Drugs published a notice proposing to withdraw approval of the new animal drug applications (NADA's) for Penicillin Powder Veterinary NADA No. 65–294 and CO–PEN, Penicillin Powder; marketed by E. R. Squibb & Sons, Inc., Georges Road, New Brunswick, NJ 08903 and for Oral Buffered Penicillin Crystalline G Potassium U.S.P. and Penicillin G U.S.P.; marketed by Richlyn Laboratories, Inc., Castor Avenue at Kensington Avenue, Philadelphia, PA 19124.

Richlyn Laboratories, Inc. informed the Commissioner that they waived an opportunity for a hearing.

Neither E. R. Squibb & Sons, Inc., nor any other interested persons have filed a written appearance in response to the above-cited notice. This is construed as an election by said persons not to avail themselves of the opportunity for a hearing.

Therefore, based on the grounds set forth in said notice, the Commissioner concludes that approval of said new animal drug applications should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of the new animal drug applications for the above-named antibiotic containing new animal drugs, including all amendments and supplements thereto, is hereby withdrawn effective on January 30, 1973.

Dated: January 17, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

OVER-THE-COUNTER DRUG PRODUCTS CONTAINING DENTIFRICES AND DENTAL CARE AGENTS EXCEPT MOUTHWASHES AND ORAL ANTISEPTICS

Safety and Efficacy Review; Request for Data and Information

The FDA is undertaking a review of all over-the-counter (OTC) drug products currently marketed in the United States, to determine that these OTC products are safe and effective for their labeled indications. This review will utilize expert panels working with FDA personnel.

A notice outlining procedures for this review was published in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464).

To facilitate this review and a determination as to whether an OTC drug for human use is generally recognized as safe and effective and not misbranded under its recommended conditions of use, and to provide all interested persons an opportunity to present for the consideration of the reviewing experts the best data and information available to support the stated claims for all dosage forms for drugs containing dentifrices and dental care agents (except mouthwashes and oral antiseptics) including topical fluoride solutions, pastes and gels, toothache remedies, teething lotions, canker sore remedies, cold sore remedies, denture adhesives, denture irritation remedies, disclosing products, topical anesthetics, denture pads and denture relining materials, the administration invites submission of data, published and unpublished, and other information pertinent to all active ingredients utilized in such preparations.

FDA is aware that the following active ingredients are used in such products and has conducted a literature search on each of them:

Benzocaine.
Camphor.
Chloroform.
Choline Salicylate.
Dibasic Ammonium Phosphate.
Dicalcium Phosphate.
Erithrocin (FD&C Red No. 3).
Formaldehyde.
Hydrogen Fluoride.
Hydrogen Peroxide.
Potassium Iodide.
Powdered Karaya Gum.
Silver Nitrate.
Sodium Borate.
Sodium Fluoride.
Sodium Monofluorophosphate.
Sodium N-lauroyl Sarcosinate.
Stannous Fluoride.
Strontium Chloride.
Tannic Acid.

FDA's literature search covered the United Sates of America literature and other leading English language literature published since 1950 from the following sources:

Medlars (NLM and SUNY).
FDA Clinical Experience Abstracts.
Quarterly Cumulative Index Medicus.
Current List of Medical Literature.
Index Medicus.
JAMA Subject Index.
DeHaen Drugs in Use.
RINGDOC.
VETDOC.
International Pharmaceutical Abstracts.
Excerpta Medica.
Abstracts of World Medicine.
Biological Abstracts.
Chemical Abstracts.

The bibliography of the literature search is available to interested persons.

Interested persons are also invited to submit data on any other dentifrices or dental care agents, except mouthwashes and oral antiseptics.

To be considered, eight copies of the data and/or views must be submitted, preferably bound, indexed, and on standard size paper (approximately 8½ by 11 inches). All submissions must be in the format described below:

OTC DRUG REVIEW INFORMATION

I. Label(s) and all labeling (preferably mounted and filed with the other data—facsimile labeling is acceptable in lieu of actual container labeling).

II. A statement setting forth the quantities of active ingredients of the drug.

III. Animal safety data.

A. Individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

B. Combinations of the individual active components.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

C. Finished drug product.

1. Controlled studies.

2. Partially controlled or uncontrolled studies.

IV. Human safety data.

A. Individual active components.

1. Controlled studies.

V38-19 JAN 30 73 XUM

2. Partially controlled or uncontrolled studies.
3. Documented case reports.
4. Pertinent marketing experiences that may influence a determination as to the safety of each individual active component.
5. Pertinent medical and scientific literature.

B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports.
4. Pertinent marketing experiences that may influence a determination as to the safety of combinations of the individual active components.
5. Pertinent medical and scientific literature.

C. Finished drug product.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports.
4. Pertinent marketing experiences that may influence a determination as to the safety of the finished product.
5. Pertinent medical and scientific literature.

V. Efficacy data.
A. Individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports.
4. Pertinent marketing experiences that may influence a determination on the efficacy of each individual active component.
5. Pertinent medical and scientific literature.

B. Combinations of the individual active components.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports.
4. Pertinent marketing experiences that may influence a determination on the efficacy of combinations of the individual active components.
5. Pertinent medical and scientific literature.

C. Finished drug product.
1. Controlled studies.
2. Partially controlled or uncontrolled studies.
3. Documented case reports.
4. Pertinent marketing experiences that may influence a determination on the efficacy of the finished drug product.
5. Pertinent medical and scientific literature.

VI. A summary of the data and views setting forth the medical rationale and purpose (or lack thereof) for the drug and its ingredients and the scientific basis (or lack thereof) for the conclusion that the drug and its ingredients have been proven safe and effective for the intended use. If there is an absence of controlled studies in the material submitted, an explanation as to why such studies are not considered necessary must be included.

VII. If the submission is by a manufacturer, a statement signed by the person responsible for such submission, that to the best of his knowledge it includes unfavorable information, as well as any favorable information, known to him pertinent to an evaluation of the safety, effectiveness, and labeling of such a product. Thus, if any type of scientific data is submitted, a balanced submission of favorable and unfavorable data must be submitted. The same would be true of any other pertinent data or information submitted, such as consumer surveys or marketing results.

In order to avoid duplication, interested persons should not in their submissions include published literature listed in the FDA literature search. An abstract of all such literature will be provided to the panel. Upon request, the panel will be provided with the complete article. Interested persons may, of course, refer to such literature in their submissions by citation.

Submissions or requests for copies of the bibliography of the FDA literature search should be forwarded to:

Food and Drug Administration, Bureau of Drugs, OTC Drug Products Evaluation Staff (BD–109), 5600 Fishers Lane, Rockville, MD 20852.

Submission of data must be on or before April 2, 1973.

(Federal Food, Drug, and Cosmetic Act, sec. 701; 21 U.S.C. 371)

Dated: January 23, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–1707 Filed 1–29–73;8:45 am]

Health Services and Mental Health Administration

OCCUPATIONAL SAFETY AND HEALTH

Request for Information on Certain Chemical and Physical Agents

Section 20(a)(3) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(3)) provides that the Secretary of Health, Education, and Welfare, on the basis of information available to him, shall develop criteria dealing with toxic materials and harmful physical agents and substances which will describe exposure levels that are safe for various periods of employment. Section 22(c) of the Act authorizes the National Institute for Occupational Safety and Health to develop recommended occupational safety and health standards and to perform all functions of the Secretary of Health, Education, and Welfare, under sections 20 and 21 of the Act. The institute is currently collecting information and data on a number of chemical and physical agents including:

1. Acrolein.
2. Acrylonitrile.
3. Aluminum.
4. Ammonium nitrate.
5. Barotrauma (including decompression tables and standards for divers and tunnel workers).
6. Carbon disulfide.
7. Chlorobenzene.
8. 2,4-dinitrophenol
9. Ethyl benzene
10. Infrared radiation
11. Iron and iron compounds
12. Magnesite
13. Magnesium and magnesium compounds
14. Methyl 2-butyl ketone
15. Nickel carbonyl
16. Ozone
17. Phosphorus penta-chloride
18. Phosphorus penta-sulfide
19. Phosphorus trichloride
20. Tin and tin compounds
21. 1,1,2-trichloroethane
22. Vibration
23. Vinyl chloride

The information and data collected for each agent will be analyzed and evaluated relative to the nine areas listed below:

1. Establishment of safe occupational environment levels for such agents, including levels for acute and chronic exposure to airborne concentrations of the chemical substances, as well as safe work practices concerning direct contact with such substances or physical agents.

2. Establishment of biologic standards; i.e., the levels of such substances, metabolites, or other effects of exposure which may be present within man without his suffering ill effects, taking into consideration (a) the correlation of airborne concentrations of and extent of exposure to such substances with effects on specific biologic systems of man, such as the circulatory, respiratory, excretory, and nervous system, and (b) the analytical methods for determining the amount of the substance which may be present within man.

3. Engineering controls, including ventilation, physical factors, and housekeeping and sanitation procedures, with attention to the technological feasibility of such controls.

4. Specifications for the conditions under which personal protective devices should be required.

5. Methodology, including instrumentation, for air sampling and sample analysis of chemical substances and for quantitation of physical agents.

6. The need for medical examinations for workers exposed to such substances, the frequency of such examinations, and the specific diagnostic tests which should be used, and the rationale for their selection.

7. Work practices or procedures which may be instituted for control of the workplace environment in normal operations, and those which may be instituted when environmental levels are temporarily exceeded, or where peak concentrations of chemical substances in man are reached.

8. The types of records concerning occupational exposure to such agents that employers should be required to maintain.

9. Warning devices and labels which should be required for the prevention of occupational diseases and hazards caused by exposure to such agents.

Any person having information or data which is not readily available in "open scientific literature" in any of the nine areas listed, or in other areas which the person considers relevant to the establishment of a safe and healthful occupational environment involving the agents set forth above, is invited to submit such information, with accompanying documentation, to the Assistant Director for Research and Standards Development, National Institute for Occupational Safety and Health, Room 10–28, 5600 Fishers Lane, Rockville, MD 20852, within 60 days after publication of this notice.

All information received concerning any agent will be available for public inspection after the development of the respective research analysis report or criteria document.

Dated: January 23, 1973.

MARCUS M. KEY,
Director, National Institute for Occupational Safety and Health.

[FR Doc.73–1689 Filed 1–29–73;8:45 am]

NATIONAL ADVISORY COMMITTEES

Notice of Meetings

The Acting Administrator, Health Services and Mental Health Administration, announces the meeting dates and other required information for the following national advisory bodies scheduled to assemble the month of February 1973.

Committee name	Date, time, place	Type of meeting and/or contact person
Maternal and Child Health Service Research Grants Review Committee.	Feb. 1–2, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed. Contact Gloria Wackernah, Room 12A–11, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301—443–2190.

Purpose. The Committee is charged with the review of all research grant applications in the program areas administered by the Maternal and Child Health Service.

Agenda. The Committee will be performing review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 92–463, section 10(a)(2).

Committee name	Date, time, place	Type of meeting and/or contact person
National Advisory Council on Regional Medical Programs.	Feb. 7–8, 8:30 a.m., Conference Room G/H, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Partially open to the public. Closed for grant review. Contact Mr. Kenneth Baum, Room 11–19, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301—443–1514.

Purpose. The Council advises and assists the Secretary in the preparation of regulations for, and as to policy matters arising with respect to, the administration of this program. Reviews applications for grants under title IX, and recommends to the Secretary with respect to approval of applications for and the amounts of grants under this title.

Agenda. The Council will hear reports and other business discussed by the Director, Regional Medical Programs Service, regarding the administration of this program, and this portion of the meeting shall be open to the public. The remaining portion of the meeting will be for the review of grant applications, and will not be open to the public in accordance with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 92–463, section 10(a)(2).

Committee name	Date, time, place	Type of meeting and/or contact person
NIMH Communications Advisory Committee.	Feb. 7–8, 2 p.m., Conference Room 14–105, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open. Contact Mr. Edwin M. Long, Room 15–105, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301—443–3783.

Purpose. Advises, consults with, and makes recommendations to the Director, National Institute of Mental Health, on matters of general policy concerning the fields of mental health, scientific and public information, communications, and public health education.

Agenda. Agenda items will include a report on staff activities and consideration of special projects. The Committee will discuss the Child Mental Health Information Interchange, the Tenth Anniversary of Community Mental Health Centers, and the Future Role of the Committee.

Committee name	Date, time, place	Type of meeting and/or contact person
Research Scientist Development Review Committee.	Feb. 22–24, 9 a.m., Center for Advanced Study in the Behavioral Sciences, Palo Alto, Calif.	Closed. Contact Dr. Mary R. Haworth, Room 12–94, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301—443–4347.

Purpose. Reviews applications for the Research Scientist Development Awards for support of additional training or experience of behavioral scientists to develop their full capacities for careers devoted to research, and the Research Scientist Awards. Makes recommendations on these programs to the Division of Manpower and Training Programs, National Institute of Mental Health, and the National Advisory Mental Health Council.

Agenda. The Committee will be performing review of grant applications for Federal assistance and will not be open to the public, in accordance with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 92–463, section 10(a)(2).

Items for discussion are subject to change due to priorities as directed by the President of the United States, or the Secretary of Health, Education, and Welfare.

A roster of members may be obtained from the contact person listed above.

Dated: January 23, 1973.

ANDREW J. CARDINAL,
Acting Associate Administrator for Management, Health Services and Mental Health Administration.

[FR Doc.73–1690 Filed 1–29–73;8:45 am]

Office of the Secretary

HEALTH SERVICES AND MENTAL HEALTH ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part 3 (Health Services and Mental Health Administration) of the statement of organization, functions, and delegations of authority for the Department of Health, Education, and Welfare (33 FR 15953, October 30, 1968), as amended, is hereby amended with regard to section 3–20, organization and functions, as follows:

In Chapter 3A–00 (Office of the Administrator), section 3A17 entitled "Office of Information (3A17)" is being amended in order to change the name of the office, broaden its activities, and transfer to it the printing and distribution functions from the Office of Procurement and Materiel Management (3A1905). The above changes require a complete replacement of section 3A17, as follows:

Office of Communications and Public Affairs (3A17). Plans, directs, and coordinates the scientific communications, technical information, and health information/education activities of the Health Services and Mental Health Administration. Specifically: (1) Determines policies related to external and internal public affairs and communications activities; (2) plans and carries out all such activities for the guidance of communications and public affairs activities throughout the Administration; (3) identifies program areas and population groups requiring special emphasis in health education and provides guidance, assistance, and support to such special efforts; (4) coordinates all HSMHA scientific and technical information programs, including clearinghouses, libraries, and specialized information centers; (5) establishes operating procedures for the orderly and expeditious processing and dissemination of information/education materials; (6) performs a concept-review and evaluation function of all such materials (films, radio and television materials, publications, magazine articles, news features, exhibits, etc.) to ensure that information/education projects are supportive of program guidelines for major communications activities, and provides administrative management support to

V 38 - 19 JAN 30 73 XUM

central services; (7) determines, through the conduct or sponsorship of population sampling studies or otherwise, the needs for health information and education and the effectiveness of public information and education programs in meeting those needs; (8) provides central communications services for all HSMHA programs and regional representatives by assignment of immediate office staff or coordination of other HSMHA communications staff efforts; (9) directs and coordinates publications management and distribution and all printing and printing management services related to communications activities; and (10) develops and maintains a health services outreach program to keep the public aware of HSMHA programs through direct regional contact by use of publication display and exhibits and a headquarters Visitors Information Center.

Also in Chapter 3A-00 (Office of the Administrator), section 3A1905 entitled "Office of Procurement and Materiel Management (3A1905) is being amended to reflect the transfer of the printing and distribution functions to the Office of Communications and Public Affairs. Therefore, delete section 3A1905 and insert the following sidehead and succeeding paragraph:

Office of Procurement and Materiel Management (3A1905). (1) Establishes Administration objectives, policies, standards, and procedures for procurement and supply, contracting, specifications, cataloging, personal property, control, forms, and storage; (2) interprets regulatory issuances and provides guidance and technical assistance in these areas; (3) acquires equipment, supplies, and services; (4) coordinates plans for utilization of Administration procurement and materiel resources under national emergency conditions; (5) evaluates procurement and materiel management activities throughout the Administration; and (6) maintains liaison with the Office of the Secretary, the General Services Administration, and other agencies concerned with procurement and materiel management activities.

Dated: January 12, 1973.

S. H. CLARKE,
Acting Assistant Secretary for Administration and Management.

Social and Rehabilitation Service

NATIONAL ADVISORY COUNCIL ON SERVICES AND FACILITIES FOR THE DEVELOPMENTALLY DISABLED

Correction to Notice of Meeting

The National Advisory Council on Services and Facilities for the Developmentally Disabled created to advise the Secretary on regulations and evaluation of programs for Public Law 91-517 will hold a regular meeting on February 2 and 3, 1973, in the Plaza Room of the Holiday Inn, 1489 Jefferson Davis Highway, Arlington, VA. On February 2 the meeting will begin at 1:15 p.m. to 5 p.m., and reconvene at 8 p.m. to 10 p.m. On February 3 the meeting will begin at 9 a.m. and adjourn at 4 p.m. The agenda will include a report on the technical assistance project at University of North Carolina; a report on publication of proceedings from the recent National Conference, discussion of deinstitutionalization objective, review of legislation, discussion on the definition of developmental disability. Meeting will be open to the public. Additional information can be obtained by calling the Executive Secretary at 202—962-7355.

FRANCIS X. LYNCH,
Executive Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-333]

POWER AUTHORITY OF THE STATE OF NEW YORK AND NIAGARA MOHAWK POWER CORPORATION

Establishment of Atomic Safety and Licensing Board

On October 3, 1972, the Commission published in the FEDERAL REGISTER, 37 FR 20740, a "Notice of Hearing Pursuant to 10 CFR Part 50, Appendix D, Section B; Notice of Consideration of Issuance of Facility Operating License And Opportunity For Hearing" to consider the issuance of a facility operating license to the Power Authority of the State of New York and the Niagara Mohawk Corp. for the James A. FitzPatrick Nuclear Power Plant, Unit 1. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date, and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2 (rules of practice) and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Dr. Kenneth A. McCollom, Dr. Ernest O. Salo, and Daniel M. Head, Esq., Chairman. Dr. Thomas H. Pigford has been designated as a technically qualified alternate and John H. Brebbia, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. Daniel M. Head, Esq., Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.

2. Dr. Kenneth A. McCollom, Assistant Dean, College of Engineering, Oklahoma State University, Stillwater, Okla. 74074.

3. Dr. Ernest O. Salo, Professor, Fisheries Research Institute—WH-10, College of Fisheries, University of Washington, Seattle, Wash. 98195.

4. John H. Brebbia, Esq., Alternate Chairman, an attorney with Alston, Miller & Gaines, 1776 K Street NW., Washington, DC 20006.

5. Dr. Thomas H. Pigford, Alternate, Professor of Nuclear Engineering, University of California, Berkeley, Calif. 94720.

As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 23d day of January 1973.

JAMES R. YORE,
Executive Secretary, Atomic Safety and Licensing Board Panel.

[FR Doc.73-1666 Filed 1-29-73;8:45 am]

REGULATORY GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued three guides in its Regulatory Guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applicants for permits and licenses.

The guides are in Division 1, "Power Reactor Guides." Regulatory Guide 1.15, "Testing of Reinforcing Bars for Category I Concrete Structures," and Regulatory Guide 1.18, "Structural Acceptance Test for Concrete Primary Reactor Containments," are revisions of Safety Guides 15 and 18, respectively, and are being reissued in the new series. Regulatory Guide 1.34, "Control of Electroslag Weld Properties," is a new guide which describes an acceptable method of implementing Commission requirements with regard to the control of weld properties when fabricating electroslag welds for nuclear components made of ferritic or austenitic materials.

Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceeding Staff. Copies of issued guides may be obtained by request to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Regulatory Standards.

Other Division 1 Regulatory Guides currently being developed include the following:

Operating Status Indication for Nuclear Power Plant Safety Systems Availability of Electric Power Sources.
Preoperational Testing of Redundant Onsite Electric Power Sources to Verify Proper Load Group Assignments.
Qualification Tests of Continuous-Duty Motors Installed Inside the Containment of Nuclear Power Plants.
Requirements for Instrumentation to Assess Nuclear Power Plant Conditions During and Following an Accident for Water-Cooled Reactors.
Shared Emergency and Shutdown Power Systems at Multi-Unit Sites.
Physical Independence of Safety Related Electric Systems.
Isolating Low Pressure Systems Connected to the Reactor Coolant Pressure Boundary.
Assumptions for Evaluating a Control Rod Ejection Accident for Pressurized Water Reactors.
Assumptions Needed for Evaluating a Control Rod Drop Accident for Boiling Water Reactors.
Quality Assurance Requirements for Cleaning of Fluid Systems and Associated Components of Nuclear Power Plants.
Quality Assurance Requirements for Packaging, Shipping, Receiving, Storage, and Handling of Items for Nuclear Power Plants.
Housekeeping Requirements for Nuclear Power Plants.
Requirements for Collection, Storage, and Maintenance of Quality Assurance Records for Nuclear Power Plants.
Requirements for Assessing Ability of Material Underneath Nuclear Power Plant Foundations to Withstand Safe Shutdown Earthquake.
Design Basis Floods for Nuclear Power Plants.
Design Phase Quality Assurance Requirements for Nuclear Power Plants.
Qualification Tests of Electric Valve Operators for Use in Nuclear Power Plants.
Fire Protection Criteria for Nuclear Power Plants.
Protective Coatings for Nuclear Reactor Containment Facilities.
Quality Assurance for Protective Coatings Applied to Nuclear Power Plants.
Application of the Single Failure Criteria to Nuclear Power Generating Station Protective Systems.
Protection Against Pipe Whip Inside Containment.
Additional Material Requirements for Bolting.
Inservice Surveillance of Ungrouted Prestressing Tendons.
Inservice Surveillance of Grouted Prestressing Tendons.
Stainless Steel Overlay Welding.
Control of Electroslag Welding.
Design Loading Combinations for Fluid System Components.
Design Loading Combinations for Primary Metal Containment Systems.
Reactor Coolant Pressure Boundary Leak Detection System.
Requirements for Thermal Insulation Used with Stainless Steel.
Concrete Placement in Category I Structures.
Control of Sensitized Stainless Steel.
Design Spectra for Seismic Design of Nuclear Power Stations.
Seismic Input Motion to Uncoupled Structural Model.
Control of Preheat Temperature for Low Alloy Steel Welding.
Rules for Inservice Inspection of Class 3 and Class C Nuclear Power Plant Components.
Primary Reactor Containment (Concrete) Design and Analysis.

(5 U.S.C. 552(a))

Dated at Bethesda, Md., this 17th day of January 1973.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

Order Consolidating Applications

Correction

In FR Doc. 72-22134 appearing at page 28442 of the issue for Saturday, December 23, 1972, the three lines appearing immediately below the second paragraph should be transposed to appear immediately after the third line of the third paragraph.

[Docket No. 23287]

AIR FREIGHT FORWARDERS' CHARTERS INVESTIGATION

Postponement of Hearing

Notice is hereby given that the hearing in the above-entitled proceeding previously scheduled for April 17, 1973, in the notice to all parties, dated December 6, 1972, is hereby postponed to April 24, 1973, at 10 a.m. (local time), in Room 726, Universal Building, 1825 Connecticut Avenue NW., before the undersigned administrative law judge.

Dated at Washington, D.C., January 23, 1973.

[SEAL] RICHARD M. HARTSOCK,
Administrative Law Judge.

[FR Doc.73-1760 Filed 1-29-73;8:45 am]

[Docket No. 24905, etc.]

PURDUE AIRLINES, INC.

Fitness and Acquisition Investigation; Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding is assigned to be held on February 27, 1973, at 10 a.m. (local time) in Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before the undersigned.

For information concerning the issues and other details involved in this proceeding, interested persons are referred to Order 72-10-94, dated October 30, 1972, instituting this investigation, the prehearing conference report, served December 27, 1972, the supplemental prehearing conference report, served January 10, 1973, and other documents which are in the docket of this proceeding on file in the Docket section of the Civil Aeronautics Board.

Dated at Washington, D.C., January 24, 1973.

[SEAL] ROBERT L. PARK,
Associate Chief Administrative Law Judge.

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority 30—Region I Amdt. 3]

CHIEF, FINANCING DIVISION, REGIONAL OFFICE, ET AL.

Delegation of Authority To Conduct Program Activities in the Field Offices

Delegation of Authority No. 30-Region I (37 FR 17590), as amended (37 FR 26557, 38 FR 1319) is hereby further amended to include approval and certain other authority for strategic arms limitation economic injury loans. Parts I and II are revised to read as follows:

PART I—FINANCING PROGRAM

SECTION A. *Loan Approval Authority.*

* * * * *

3. *Displaced Business and Other Economic Injury Loans.* a. To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to the following amounts (SBA share):

(1) Chief, Financing Division, Regional Office	$350,000
(2) Assistant Chief, Financing Division, Regional Office	350,000

b. To approve or decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters up to the following amounts (SBA share):

(1) Supervisory Loan Officer, Financing Division, Regional Office	$50,000
(2) District Director, District Office	350,000
(3) Chief, Financing Division, District Office	350,000

SEC. B. *Other Financing Authority.* 1. a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health,

V 38 - 19 JAN 30 73 XUM

strategic arms limitation economic injury, and coal mine health and safety loan participation agreements with banks:

(1) Chief, Financing Division, Regional Office;

(2) Assistant Chief, Financing Division, Regional Office;

(3) Supervisory Loan Officer, Financing Division, Regional Office;

(4) District Director, District Office;

(5) Chief, Financing Division, District Office;

(6) Supervisory Loan Officer, Financing Division, District Office, if assigned.

• • • • •

3. To cancel, reinstate, modify, and amend authorizations:

a. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, strategic arms limitation economic injury, and coal mine

(1) District Director, District Office.

health and safety loans:

b. For fully undisbursed or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, strategic arms limitation economy injury, and coal mine health and safety loans:

(1) Chief, Financing Division, Regional Office;

(2) Assistant Chief, Financing Division, Regional Office;

(3) Supervisory Loan Officer, Financing Division, Regional Office;

(4) Chief, Financing Division, District Office;

(5) Supervisory Loan Officer, Financing Division, District Office, if assigned.

c. For business, economic opportunity disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational safety and health, and strategic arms limitation economic injury loans personally approved under delegated authority:

(1) Branch Manager, if assigned.

• • • • •

PART II—DISASTER PROGRAM

SECTION A. *Disaster Loan Authority.* 1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and (2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

(1) District Director, District Office;

(2) Disaster Branch Manager, as assigned;

(3) Chief and Assistant Chief, Financing Division, Regional Office;

(4) Supervisory Loan Officer, Regional Office;

(5) Chief, Financing Division, District Office.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of $50,000:

(1) District Director, District Office;

(2) Disaster Branch Manager, as assigned;

(3) Chief and Assistant Chief, Financing Division, Regional Office;

(4) Supervisory Loan Officer, Regional Office;

(5) Chief, Financing Division, District Office.

• • • • •

Effective date: January 15, 1973.

DAVID P. HEILNER,
Regional Director, Region I.

FEDERAL COMMUNICATIONS COMMISSION

ANSWERING DEVICES ADVISORY SUBCOMMITTEE

Notice of Public Meeting

JANUARY 23, 1973.

In accordance with Public Law 92-463, announcement is made of a public meeting of the Answering Devices Advisory Subcommittee, to be held Wednesday, February 14, 1973, and continuing through Friday, February 16, 1973. The subcommittee will meet at IBM Corp., 777 Grant Street, Room 301, Denver, CO at 10 a.m.

1. *Purpose.* The purpose of this subcommittee is to prepare recommended standards to permit the interconnection of customer provided and maintained answering equipment to the public switched network.

2. *Membership.* The subcommittee is chaired by Fred Warden and is composed of the following: Lyle D. Abbott, M. E. Hacker, Samuel R. Buxbaum, James B. Eppes, Charles Hernandez, Anthony G. Giacolo, Thomas J. Dunleavy, Peter J. Grant, Jim Owen, F. A. Foresta, Richard W. Horton, Jerry Klein, Leslie N. Wilder, K. R. Parker, R. B. Brunson, Clyde W. Sautters, F. G. Splitt, Peter F. Theis, Robert E. Morgan, Lloyd Smith, Shaun Delaney, Boyd King, Ron Matteson, Gustone Perrin, Preston R. Brown, James F. Holmes, Brendan McShane, Allan MacLeod, Denis E. Lowry, Robert W. Shirley, George A. Smith, B. Edelman, Rudy C. Stiefel, John R. Mineo, Earl C. Mansfield.

3. *Activities.* As at prior meetings, subcommittee members and observers present their suggestions and recommendations regarding the various technical criteria and standards that should be considered with respect to the interconnection of answering devices to the public telephone network.

4. *Agenda.* The agenda for the February 14–16, 1973, meeting will be as follows:

a. Review and finalization of Equipment Test Standard;

b. Discussion and scheduling of future work program;

c. Report on results of ballot on Technical Criteria;

d. The relationship of the Technical Criteria and the Equipment Test Standard to any equipment certification and enforcement program.

It is suggested that those desiring more specific information, contact the Domestic Rates Division on (202) 632-6457.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FCC 72-1181]

CERTAIN AGENCY PROCEEDINGS

Policy Regarding Audio/Visual Coverage

JANUARY 23, 1973.

The Commission has been requested by the Administrative Conference of the United States, in accordance with its Recommendation 32: Broadcast of Agency Proceedings, adopted June 8, 1972, to give consideration to the implementation of this recommendation, by establishing a policy in this area and to encourage audio/visual coverage of proceedings involving issues of broad public interest, subject to appropriate limitations and controls.

The Commission agrees with the Conference that there is a need to inform the public concerning administrative proceedings, particularly those of broad social or economic impact, and to encourage participation in and understanding of the administrative process. Although the Commission has not heretofore had a specific regulation or a formally adopted Commission policy governing the audio/visual coverage of adjudicatory and rule making proceedings, it has, by actual experience over a number of years, largely accomplished the objectives and purposes of Recommendation 32. However, in light of the ever-increasing interest by the public in Commission proceedings, it has been determined that a formal statement of Commission policy in this regard should be issued. Accordingly, the Commission adopts the following statement of general guidelines for presiding officers, the industry and the public concerning requests for audio and/or visual coverage of Commission proceedings:

A. *Governing policy.* 1. The Commission agrees in principle with the objectives and purposes of Recommendation 32: Broadcast of Agency Proceedings, adopted by the Administrative Conference of the United States.

2. Audio and/or visual (i.e. video or film) coverage of many Commission proceedings would be of interest to the public and would enhance public understanding of Commission proceedings. Such coverage should therefore be encouraged subject to appropriate controls and limitations.

3. Determinations as to whether audio and/or visual coverage of Commission proceedings should be allowed and, if so, the nature and extent of such coverage, shall be within the sound discretion of the presiding officer.

B. *Types of proceedings.* 1. Audio and/or visual coverage of the following types of proceedings is encouraged: (1) Notice and comment rule making proceedings, where an opportunity is afforded to make a public oral presentation: (2) on-the-record formal rule making proceedings; (3) investigatory proceedings where public oral presentations are made on the record to the Commission en banc or to a presiding officer, except as limited in paragraph 2 of this section; and (4) adjudicatory proceedings, except as limited in paragraph 2 of this section.

2. Audio and/or visual coverage should be excluded in adjudicatory and investigatory proceedings which involve primarily matters of past culpable conduct of an individual and which do not have a substantial and direct impact upon service to the public, if the person in question objects to such coverage.

C. *Prevention of disruption.* Audio and/or visual coverage of Commission proceedings shall be conducted with minimal intrusion upon the normal course of the proceeding. Requests for such coverage shall be made reasonably in advance of the commencement of the hearing or hearing session sought to be covered. The presiding officer may impose reasonable restrictions on the use of audio and/or visual equipment, so as to maintain the dignity and decorum of the proceeding, and to avoid undue interference with the proper conduct of the hearing. The presiding officer may, in the exercise of his discretion to allow, exclude or restrict coverage of the proceeding, take into consideration the distinctive characteristics of the medium of audio/visual coverage requested—i.e. video (live broadcast or tape-delayed); audio (live broadcast or tape recorded for later broadcast); audio or visual recording for broadcast in its entirety or in edited version; motion picture or still photo coverage; etc.

D. *Protection of witnesses.* In any adjudicatory or public investigatory proceeding, a witness shall have the right, by stating his request to the presiding officer at any point prior to or during his testimony, to exclude audio and/or visual coverage of his testimony.

E. *Rulings of presiding officers.* If a request for audio and/or visual coverage of a proceeding or a particular portion thereof is rejected or restricted by the presiding officer, the reasons therefor shall be stated on the record of the proceeding, either by a formal order issued by the presiding officer or by an oral ruling on the record. Appeals from such rulings will not be permitted.

The foregoing policy statement shall be applicable to all pending proceedings, as of January 30, 1973.

Action by the Commission December 20, 1972.[3]

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[Report 632]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

JANUARY 22, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the list below must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

APPENDIX

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

5213-C2-P-73—East Ascension Telephone Co. (KKT569), to replace transmitter, change antenna system, and relocate facilities operating on 152.78 MHz to 228 West Worthy Street, Gonzales, LA.

5260-C2-P-(4)-73—Southern Bell Telephone & Telegraph Co. (KIG846), to change antenna system and to relocate facility operating on 152.63 MHz and adding 152.54 and 152.81 MHz base and 157.80, 157.89, and 158.07 MHz test, to 712 Citrus Avenue, Fort Pierce, FL.

5283-C2-P-73—RCC of Virginia, Inc. (New), for a new two-way station to operate on 152.18 MHz at 281 Independence Boulevard, Virginia Beach, VA.

5281-C2-P-(4)-73—Industrial Communications (New), for a new two-way station to operate on 152.18 and 152.21 MHz base, 2165.2 MHz repeater at Kessler Peak, 6 miles southwest of Magna, Utah, and 2115.2 MHz control at 3 South 1000 West, Salt Lake City, UT.

5282-C2-P-73—Same as above (New), for a new one-way station to operate on 43.58 MHz at Kessler Peak, 6 miles southwest of Magna, Utah.

5278-C2-P-(5)-73—West Montana Mobile Telephone (KLF587), for additional facilities to operate on 152.18 MHz base, 459.100 MHz repeater at TV Mountain, 10 miles north of Missoula, Mont., 454.100 MHz control at 1260 West Broadway, Missoula, MT. Replacing transmitter, operating on 454.15 MHz control at 1260 West Broadway, Missoula, MT.

5279-C2-P-73—Marathon Mobile Phone (KTS248), to change antenna system and replace transmitter at 5996 Overseas Highway, Marathon (Monroe), FL.

5280-C2-P-73—Mobile Radiotelephone Corp. (KIY725), to change antenna system and additional facilities operating on 152.15 MHz on Highway No. 118, 2.1 miles east of Grifton, N.C

POINT-TO-POINT MICROWAVE RADIO SERVICE

5212-C1-P-73—CPI Microwave, Inc. (New), Dallas-Fort Worth Turnpike and Highway 157, Parkway Central, Tex. Latitude 32°45'44" N., longitude 97°06'08" W. C.P. for a new station on frequency 10,915.0H MHz toward Dallas, Tex.; frequency 10,955.0H MHz toward Fort Worth, Tex.

5214-C1-P-73—The Pacific Telephone & Telegraph Co. (KML54), 1455 Van Ness Avenue, Fresno, CA. Latitude 36°44'22" N., longitude 119°47'37" W. C.P. to add frequency 4170V MHz toward Red Top, Calif.

5215-C1-P-73—Same (KMU53), 1.1 miles northwest of Jackson, Calif. Latitude 38°21'42" N., longitude 120°47'09" W. C.P. to add frequency 4090H MHz toward Lodi, Calif.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

[3] Commissioners Burch (Chairman), Robert E. Lee, Johnson, H. Rex Lee, Reid and Hooks, with Commissioner Wiley concurring in part and dissenting in part and issuing a statement, filed as part of the original document, in which Chairman Burch and Commissioner Reid joined.

V38-19 JAN 30 73 XUM

POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

5276-C1-ML-73—Same (KEM30), modification of license to change polarization from V to H on frequencies 6177.5H, 6226.9H, 6286.2H, 6345.5H, and 6404.8H MHz toward Quinton, N.J.; change polarization from H to V on frequency 6424.5V MHz toward Quinton, N.J.

9531-C1-ML-72—West Texas Microwave Co. (KLU91), Davis Ranch, 8 miles west of Albany, Tex. Latitude 32°24'17" N., longitude 99°25'26" W. Modification of license to provide, via audio subcarrier, the radio signals of stations KIXL-FM and KNUS-FM, Dallas-Fort Worth, Tex., to its customer, Texas Cablevision, at Estes Ranch, Tex., for subsequent delivery, via CARS, to San Angelo, Tex.

8227-C1-ML-73—Pacific Northwest Bell Telephone Co. (KOC65), 819 Southwest Oak Street, Portland, OR. Latitude 45°31'22" N., longitude 122°40'42" W. Modification of license to change polarization from H to V on frequencies 3770V and 3850V MHz toward Sentinel Hill, Oreg.

Major Amendments

2002-C1-P-72—Video Microwave, Inc. (New), station at 2.4 miles north-northeast of Alanana, Fla. Change azimuth from 329°11' to 358°39' toward Tomoka, 4 miles northnortheast of Ormond, Fla. (formerly 8 miles east of Pierson, Fla.)

2003-C1-P-72—Same (New), change station name and location to Tomoka, 4 miles northnortheast of Ormond, Fla., at latitude 29°22'36" N., longitude 81°05'45" W. Drop frequency 5974.8V and to change frequencies from 6083.8V to 6004.5V, from 6034.2V to 6034.2H, from 5945.2V to 6123.1V toward Alamana, Fla., on azimuth 178°39'; to drop frequency 5974.8V and to change frequencies 6034.2V and 6152.8V to 6004.5V and 6083.8V toward Gopher Ridge, Fla., on azimuth 315°11'.

2004-C1-P-72—Same (New), station at .35 mile south of Gopher Ridge, Fla. Change frequency 6375.2H to 6226.9H, from 6256.5H to 6256.5V, from 6286.2V to 6286.2H and from 6315.9H to 6315.9V, from 6404.8V to 6345.5H and to drop 8197.2H on azimuth 135°01' toward Tomoka, Fla.; drop frequency 6197.2V and change frequencies from 6315.9H to 6315.9V and from 6375.2H to 6375.2V on azimuth 353°20' toward St. Augustine, Fla.

2005-C1-P-72—Same (New), change station location to 9.5 miles northwest of St. Augustine, Fla., at latitude 29°57'46" N., longitude 81°27'27" W. Drop frequency 5945.2H and to change 6004.5H to 5974.8V and to change from 6123.1H to 6093.5V on azimuth 173°19' toward Gopher Ridge, Fla., and drop frequency 5945.2V toward Jacksonville on azimuth 343°44'.

2006-C1-P-72—Same (New), station at 9117 Hogan Road, Jacksonville, Fla. Drop frequency 6226.9H and change from 6404.8H to 6256.5V on azimuth 163°40' toward St. Augustine; add frequency 6315.9V toward St. Augustine, Fla.

2014-C1-P-72—Same (New), station at .08 mile south-southeast of Shawano Plantations, Shawano Fields, Fla. Change frequency from 6152.8H to 6152.8V on azimuth 161°35' toward Cooper City, Fla. (formerly West Dixie Bend, Fla., 5.3 miles west of Cooper City).

2016-C1-P-72—Same (New), change name and station location to Cooper City, 5.3 miles west of Cooper City, Fla., at latitude 26°06'41" N., longitude 80°20'41" W. Change frequencies from 6226.9H, 6286.2H, 6345.5H, 6404.8H, 6256.5V, and 6375.2V to 10,735V, 10,895V, 10,975V, 10,775H, and 11,015H on azimuth 127°27' toward Hallandale, Fla.; drop frequency 6197.2H and change frequencies from 6286.2V to 6256.5H and from 6404.8V to 6315.9H on azimuth 341°39' toward Shawano Fields, Fla.

2017-C1-P-72—Same (New), station at 1.8 miles northwest of Hallandale Post Office, Hallandale, Fla. Drop frequency 5974.8H and change frequencies from 6093.5H to 11,625V and from 6152.8H to 11,545V on azimuth 307°32' toward Cooper City (formerly West Dixie Bend, Fla.). Delete points of communication at WLTV Studio on frequency 11,365H; at WCIX Studio on frequency 11,305H; and WKID Studio on frequency 11,545H.

2021-C1-P-72—Video Microwave, Inc. (New), station at 1.5 miles north of Kissimmee, Fla. Change frequency from 6286.2H to 6315.9H on azimuth 251°20' toward Polk City, Fla.

1409-C1-P-70—MCI New York West, Inc. (New), change station location to 8200 Ridge Avenue, Roxborough, PA. Latitude 40°03'33" N., longitude 75°14'20" W. Change points of communication to Boyertown, Pa., for frequency 6197.2V MHz.

141-C1-P-73—Same (WJL35), change station location to 2.9 miles west of Boyertown, Pa. Latitude 40°19'53" N., longitude 75°41'38" W. Change point of communication to Roxborough, Pa., on frequency 5945.2V MHz. (All other particulars same as reported on public notices dated September 29, 1969; October 12, 1970, and July 24, 1972.)

Major Amendments—Continued

1245-C1-P-73—General Telephone Company of the Northwest, Inc. (KPF69), Beaver Lookout, approximately 11.9 miles south-southwest of Coos Bay, Oreg. Frequency to passive reflector at Johnson Mountain should read 2122.0 MHz on azimuth 158°35'.

CORRECTION

7956-C1-P-72—South Central Bell Telephone Co. (New), correct to read: 4 miles northeast of Pegram, Tenn. Latitude 36°07'11" N., longitude 86°59'02" W. Adding frequency of 4130H MHz toward Nashville, Tenn., and Dickson, Tenn., on azimuth of 74°54' and 266°36' respectively. Also to change polarization of the following frequencies to read 3750V, 3830V, 3910V, 3990V, 4070V, 4150V, and 3730H toward Dickson, Tenn.

INFORMATIVE

It appears that the following applications may be mutually exclusive subject to the Commission's rules regarding ex parte presentations, by reasons of economic competition. Nebraska, Iowa, and South Dakota.

Nebraska Consolidated Communications Corp., Applications File Nos. 8288 through 8294-C1-P-72.

Mountain Microwave Corp., Applications File Nos. 9159 through 9168-C1-P-72.

MULTIPOINT DISTRIBUTION SERVICE

5285-C5-P-73—J. Stanton Keck doing business as Aero-Marc Co. (New), 1600 West Harrison Street, Olympia, WA. Latitude 47°02'47" N., longitude 122°55'09" W. C.P. for a new station on frequencies 2154.5V(Visual) and 2150.25V(Aural). (Primary Service Area: Olympia, Wash.)

[FR Doc.73-1638 Filed 1-26-73;8:45 am]

FEDERAL POWER COMMISSION

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON CONSERVATION OF ENERGY, TASK FORCE ON PRACTICES AND STANDARDS

Agenda of Meeting

To be held at the Federal Power Commission Offices, 441 G Street NW., Washington, DC, 9:30 a.m., February 2, 1973, Room 2043.

1. Meeting called to order by FPC Staff Representative.

2. Objectives and purposes of the meeting.

A. Introductory remarks by Chairman Charles A. Berg.

B. Concepts of Rate Making.

C Evaluation of Demand Studies.

D. Review of Cost Trends.

E. Summary of Areas of Agreement and Disagreement.

3. Adjournment (about 4:30 p.m.).

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 73-1726 Filed 1-29-73;8:45 am]

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON FINANCE, TASK FORCE ON FUTURE FINANCIAL REQUIREMENTS

Agenda of Meeting

To be held at the Harvard Graduate School of Business Administration, Soldiers Field Road, Boston, Mass., 10 a.m., February 2, 1973, Baker Library, Room 133.

1. Meeting called to order by FPC Coordinating Representative.

2. Objectives and purposes of meeting.

A. Review of Task Force objectives.

B. Discussion of Modeling Techniques and Data Problems.

C. Assignment of Task Force Member Responsibilities.

D. Discussion of Other Business.

E. Schedule Date of Next Meeting.

3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Task Force—which statements, if in written form, may be filed before or after the meeting, or if oral, at the time and in the manner permitted by the Task Force.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-143]

GREAT PLAINS LAND CO.

Notice of Further Extension of Time

JANUARY 18, 1973.

On January 15, 1973, Great Plains Land Co., filed a request for postponement of procedural dates as fixed by order issued December 13, 1972, and amended by notice issued December 27, 1972.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified as follows:

Service of testimony by Applicant: March 28, 1973.

Testimony and exhibits of Intervener: April 18, 1973.

Hearing: April 24, 1973.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7902]

ILLINOIS POWER CO.

Order Accepting Amendatory Agreement to Interconnection Agreement

JANUARY 19, 1973.

Illinois Power Co. and Indiana & Michigan Electric Co. presently exchange diversity energy pursuant to the terms of an interconnection agreement dated November 27, 1961. Illinois Power Co. filed, on December 8, 1972, an amendatory letter agreement, designated Illinois Power Co. Supplement No. 4 to Rate Schedule FPC No. 9, among the parties which proposes an increase in the energy charge for energy delivered during the diversity exchange period starting October 1, 1972, and ending September 15, 1973.

Under the amendatory agreement, Indiana & Michigan Electric Co. will supply diversity power in the amount of 225 mw. from October 1, 1972, to February 24, 1973 and Illinois Power Co. will supply such power in the amount of 200 mw. from June 10 to September 15, 1973. The energy charge for diversity exchange has been increased from 2.1 mills/kw.-hr. and 2.8 mills/kw.-hr. to 2.6 mills/kw.-hr. and 3.3 mills/kw.-hr., for off-peak and on-peak deliveries, respectively.

The Commission finds:

The increased energy charges are designed to recover increased fuel costs of both companies and the increase in rate does not exceed the increase in fuel costs of either company. The granting of the increased energy charges is reasonable and proper and in the public interest in carrying out the provisions of the Federal Power Act and should be approved and made effective.

The Commission orders:

(A) The Illinois Power Co. Amendatory Agreement increasing the rate for diversity energy exchanged with the Indiana & Michigan Electric Co., to become effective October 1, 1972, is hereby approved and accepted.

(B) This order is without prejudice to any finding or orders which have been made or may hereafter be made by the Commission and without prejudice to any claims or contentions which may be made by the Commission, its staff, Illinois Power, or any other party or person affected by this order in any proceeding now pending or hereafter instituted by or against Illinois Power or any other person or party.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

SUPERIOR OIL CO. ET AL.

Order To Show Cause

JANUARY 18, 1973.

Pursuant to the decision in Opinion No. 338[1] and the Statement of General

[1] Phillips Petroleum Co., Dockets Nos. G-1148, et al., 24 FPC 537 (1960).

JAN 30 73
XUM

Policy No. 61-1,[2] the Federal Power Commission announced that independent producer rates would be determined through area rate proceedings rather than individual producer investigations under section 5(a) of the Natural Gas Act.[3]

The Commission has determined that there is no basis for the continuation of these proceedings and that they should be terminated for the reasons set forth below. However, to avoid possible prejudice to any of the parties to these proceedings, the Commission has further determined that the parties to these proceedings should be given an opportunity to show cause why the section 5(a) investigations herein should not be terminated and the producer rates involved determined in an area rate proceeding or by any other pricing procedure adopted by the Commission. Other than the sales from offshore California,[4] all of the sales herein involved are from production areas for which area rates have been determined by the Commission.

Certain of the sales herein are no longer made or are made under approved Commission procedures.

Mrs. Louise Herrington's last reported sale was 43 Mcf in 1963.

The Trice Production Co. was declared bankrupt in 1970, and its properties are now operated by Olevm, Inc.

The Commission finds:

(1) It is in the public interest that the parties to these proceedings be given an opportunity to show cause why the proceedings should not be terminated and the producer rates determined in an area rate proceeding or by any other pricing procedure adopted by the Commission.

The Commission orders:

(A) The proceedings listed above are hereby terminated unless, within 90 days of the issuance of this order, any party to a proceeding shall show good cause by written protest[5] why that proceeding should not be terminated.

(B) Any party who is a party to more than one of the above proceedings and who desires to show cause in more than one proceeding shall file a separate protest for each proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-7525]

UNION ELECTRIC CO.

Notice of Filing of Proposed Rate Design for Sales at 161 kv. Power

JANUARY 23, 1973.

Take notice that Union Electric Co. (Union) on June 30, 1972, filed a letter in which it stated that "* * * the Commission ordered in Opinion No. 609 the inclusion of a high voltage discount for all service delivered at voltages above 34.5 kv. We believe that this discount fully adjusts the W-2 rate to eliminate any possibility of undue discrimination against customers receiving service at higher voltages that might have existed. Therefore, it is our opinion that no further modification of the rate is necessary."

Union's letter was in response to Opinion No. 609 which the Commission ordered: "As soon as possible, but no later than July 1, 1972, Union shall file a proposed rate design applicable to its sales at wholesale of 161 kv. power, together with comments on such proposed design from the Arkansas-Missouri Power Co., and any other party to this proceeding who may choose to file comments."

Union states that copies of its letter were sent to each party of record in this proceeding and no comments were received.

Any person desiring to be heard or to make protest with reference to said submittal by Union should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest or comment in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests and comments filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

UNITED GAS PIPE LINE CO. ET AL.

Order To Show Cause, Consolidating Proceedings, and Prescribing Hearing Dates

JANUARY 17, 1973.

On January 12, 1973, the Commission issued Opinion No. 647, Dockets Nos. RP71-29, RP71-120, which established, inter alia, a permanent curtailment plan for United Gas Pipe Line Co. Five priorities of service were established in that curtailment plan including Priorities 4 and 5, "Industrial requirements for boiler fuel use at * * * more than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements." We have indicated on numerous occasions that, as a general proposition, the use of natural gas for boiler fuel is inferior, particularly in the present gas supply shortage.[1] This proposition is equally applicable to United Gas Pipe Line Co. (United) which has been curtailing as much as 1.9 billion cubic feet a day during this winter season, representing more than one-third of its contractual commitments. Because of the adverse systemwide gas supply problem of United, we are of the opinion, based upon data on file with the Commission, that the prospects for United being able to sell gas for boiler-fuel use, without jeopardizing service to human needs customers, may be remote. There is a substantial question as to whether United's available gas supplies are being directed to uses which contravene the present and future public convenience and necessity. We therefore direct United, pursuant to § 1.6(d) of the Commission's rules of practice and procedure and under section 16 of the Natural Gas Act, to show cause why it should not abandon, under section 7(b) of the Natural Gas Act, all sales and the facilities to render such sales and service of natural gas in Priorities 4 and 5 of the permanent curtailment plan.

United has filed applications for abandonment pursuant to section 7(b) of the Natural Gas Act in Dockets Nos. CP73-117, CP73-168, CP73-169, CP73-170, CP73-171, CP73-179, and CP73-180. Certain of these abandonment applications involve expired contracts and other renegotiated rates under existing contracts. Each application involves an industrial customer, and the allegations are made that United's gas supply is depleted, that the gas is being used in an inferior manner, and that the customer has alternate fuel capability. While our predominant concern is with gas being utilized for boiler-fuel use where alternate fuel capabilities may fulfill such requirements, we recognize that certain of the abandonment applications may involve gas used for feedstock, process, or other needs. Accordingly, based upon the record developed in the hearings below, partial abandonments of service may be in the public interest.

Subject to the right of the parties to be heard on this question, we are of the opinion that whether or not a contract is in force or has expired, is immaterial to a section 7(b) determination. Once United has commenced service under a Commission certificate of public convenience and necessity,[2] service may not cease until the Commission has authorized the abandonment, irrespective of contractual obligations.[3] The converse is also true; if we order abandonment because the available supply of natural gas is depleted to the extent that the continuation of service is unwarranted, or because the present or future public convenience and necessity permits such abandonment, service may not lawfully

[4] Superior Oil Co. and Union Oil Co. each have one sale from the offshore California area. These sales are being made at an initial price of 27 cents per Mcf under temporary certificates.

[5] Section 1.10 of the Commission's Rules of Practice and Procedure (18 CFR § 1.10).

[1] See Order No. 467, Docket No. R-469 and Opinion No. 643, Arkansas-Louisiana Gas Co., issued Jan. 8, 1973. See also Opinions Nos. 614, 615, 621, 627, 636, and 640.

[2] Cf. F.P.C. v. Louisiana Power & Light Co., 406 U.S. 621 (1972).

[3] Sunray Mid-Continent Oil Co. v. F.P.C., 364 U.S. 137, 141-47, 157 (1960). Cf. Atlantic Refining Co. v. P.S.C. of N.Y., 360 U.S. 378, 389 (1959); United Gas Pipe Line Co. v. F.P.C., 350 F. 2d 689, 694, 697 (CA5, 1965), aff'd 385 U.S. 83, 86, 91 (1966); J. M. Huber Corp. v. F.P.C., 236 F. 2d 550, 558 (CA3, 1956), cert. denied, 352 U.S. 971 (1957).

continue even if a contractual obligation exists. An order of abandonment effects a discharge of contractual duties.

While we have the legal authority under section 7(b) to make individual ad hoc determinations of United's abandonment applications, the supply deficiencies on United's system, the particular patterns of end use manifested in the various United curtailment proceedings, and the potential for adverse impact on residential customers dependent on the United system supplies, require us to institute a broader proceeding than would otherwise be necessary. A failure to consider United's overall supply situation and the end use of its limited deliverable gas supply, could result in a "seriously inequitable system of gas distribution"[4] and an "unreasonable difference in service"[5] among all commonly situated customers in the particular class.[6] Accordingly, we order consolidation of the pending section 7(b) applications with the show-cause proceeding below.

Because we are concerned with the end use of United's limited gas supply and a determination of its most efficient allocation to assure reliable service to human needs customers, the pipeline purchasers from United, i.e., Mississippi River Transmission Corp., Natural Gas Pipeline Company of America, Southern Natural Gas Co., Texas Eastern Transmission Corp. and Texas Gas Transmission Corp., are herein named parties to the show-cause proceeding, for the limited purpose of obtaining evidence on the end use of United's system sales. We do not at this juncture[7] contemplate partial abandonments by these pipeline purchasers of United to their particular customers, but only to obtain the evidence necessary as it might effect a reduction in deliverable volumes by United to each of the above pipelines.

Pending final Commission resolution of the proceedings ordered below, the priorities of service prescribed in Opinion No. 647 shall govern and be in full force, including, where applicable, parties to this proceeding.

To the extent we ultimately authorize abandonments of service to customers under existing contracts for boiler-fuel use, United's contractual duties thereunder are discharged,[8] in the same manner as under an approved Commission curtailment plan filed pursuant to Order No. 431.

The Commission orders that:

(A) United Gas Pipe Line Co., is herein ordered to appear at a public hearing to show cause why abandonment should not be ordered for industrial requirements for boiler-fuel use at more than 1,500 Mcf per day where alternate fuel capabilities can meet such requirements.

(B) Mississippi River Transmission Corp., Natural Gas Pipeline Company of America, Southern Natural Gas Co., Texas Eastern Transmission Corp., and Texas Gas Transmission Corp. are herein named parties to this proceeding for the limited purpose of obtaining end-use data of the gas supplies purchased by each from United.

(C) Dockets Nos. CP73-117, CP73-168, CP73-169, CP73-170, CP73-171, CP73-179, and CP73-180 are consolidated and petitions to intervene timely filed therein are granted.

(D) A hearing shall be convened at 10 a.m. on March 5, 1973, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC, before a Presiding Administrative Law Judge.

(E) Answers to the show-cause order, under § 1.9(c) of the Commission's rules of practice and procedure, should be filed with the Presiding Administrative Law Judge, 30 days from the date of issuance of this order. Responses to the answers to the show-cause order will not be permitted.

(F) Respondent and the parties in (B) to this show-cause proceeding Docket No. CP73-189, and the applicant for abandonment in the aforementioned dockets shall file their testimony and evidence on March 19, 1973, including, but not limited to (1) complete identification (name, location, volumes delivered, and end usage) of each customer, whether direct or resale, of each consumer served in whole or in part by United's system supply sources, which consumers have industrial requirements for natural gas used as boiler-fuel at more than 1,500 Mcf per day, and complete information on the alternate fuel capabilities of each consumer, and (2) alternate fuel capabilities and end use of the gas of the customers to whom United proposes to abandon service in (C).

(G) Staff and intervenors shall file their evidence, including testimony and exhibits, on April 16, 1973.

(H) Rebuttal evidence shall be filed on April 30, 1973.

(I) Cross-examination shall commence on May 7, 1973.

(J) Petitions to intervene in the proceedings herein ordered should be filed with the Secretary of the Federal Power Commission on or before 30 days from the date of issuance of this order.

By the Commission.

[Docket No. CP73-176]

WISCONSIN POWER & LIGHT CO., AND NORTHERN NATURAL GAS CO.

Notice of Application

JANUARY 19, 1973.

Take notice that on January 2, 1973, Wisconsin Power & Light Co. (Applicant), Post Office Box 192, Madison, WI 53701, filed in Docket No. CP73-178 an application pursuant to section 7(a) of the Natural Gas Act for an order of the Commission directing Northern Natural Gas Co. (Respondent) to sell additional volumes of natural gas to Applicant for distribution and resale in Applicant's general service area, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has restricted service to new customers since June 10, 1970, pursuant to orders by the Public Service Commission of Wisconsin; Applicant also states that such orders were lifted on December 4, 1972. It is stated that Applicant will need 1,459.5 Mcf of gas, in addition to that gas already available from Respondent and that provided by Applicant's peak shaving facilities, in order to supply the gas requirements of customers who have made applications and are expected to make applications for gas service.

It is stated that Applicant purchases gas for its present operations from Michigan Wisconsin Pipe Line Co. and Respondent. It is further stated that Respondent presently has 2,208 Mcf of natural gas which has not been allocated and which is available to supply Applicant's requirements without impairing Respondent's ability to render adequate service to its present customers.

Applicant states that it will not be necessary for Respondent to construct additional facilities to supply Applicant with the additional gas, nor will Applicant have to construct additional facilities to sell and distribute this gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

V38-19 JAN 30 73 XUM

ALGONQUIN GAS TRANSMISSION CO.

[Docket No. RP73-74]

Notice of Proposed Changes in Rates and Charges

JANUARY 23, 1973.

Take notice that Algonquin Gas Transmission Co. (Algonquin) on January 15, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. The proposed rate changes would increase Algonquin's revenues from jurisdictional sales and services by approximately $3.1 million annually. Algonquin requests the Commission grant such permission as may be necessary to accept this filing. The proposed effective date for First Revised Sheet No. 3–A is February 14, 1973. In the event this Commission suspends the proposed tariff sheet, Algonquin requests the suspension be for no longer than 1 day.

In support of its filing, Algonquin states that the curtailment level contemplated in the Stipulation and Agreement submitted in settlement of Docket Nos. RP70–30 and RP72–110 and approved by Commission order issued September 7, 1972, has been reached and the proposed increased rates are to compensate for that curtailment. Further, Algonquin states that the purpose of this filing is to reestablish the agreed upon return to equity at the presently effective curtailment level.

The Company states that copies of this filing were served on Algonquin's jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 7, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7904]

ARIZONA PUBLIC SERVICE CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 22. 1973.

Take notice that Arizona Public Service Co. (Arizona) on June 7, 1972, tendered for filing proposed changes in its FPC Electric Rate Schedule No. 3, Supplement No. 8. The filing consists of the monthly billing adjustments from June 1971, through April 1972, under section 2 of the Memorandum Agreement dated August 8, 1969, between Arizona and the Salt River Project Agricultural Improvement and Power District. The proposed rate changes would increase Arizona's jurisdictional revenues from approximately $124 to $670 per month during the period. Arizona requests that § 35.11 of the Commission's regulations be waived for this filing and that the monthly adjustments become effective at the beginning of their respective months.

Further, Arizona requests reconsideration of the Commission's letter order dated October 10, 1969, requiring monthly filing of adjustments under the Supplement.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7948]

CENTRAL LOUISIANA ELECTRIC CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 19, 1973.

Take notice that Central Louisiana Electric Co. on January 2, 1973, tendered for filing proposed changes in its Rate Schedule REA–9, under which the company is supplying electric service to Southwest Louisiana Electric Membership Corp. (Southwest) at 16 points of delivery. The filing consists of an agreement with Southwest, incorporating a standard schedule applicable to service supplied to rural electric cooperatives for resale.

The company states that, under the agreement, the fuel cost adjustment provisions of the rate schedule will not apply prior to July 1974. Further, the company states that no new facilities are required to provide service to Southwest under the new agreement.

The company requests that the submittal be accepted for filing effective November 20, 1972, in order that Southwest can immediately receive benefits that will accrue from being billed under the new rate schedule.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–1731 Filed 1–29–73;8:45 am]

[Docket No. E–7925]

CINCINNATI GAS & ELECTRIC CO.

Notice of Proposed Changes In Rates and Charges

JANUARY 23, 1973.

Take notice that Cincinnati Gas & Electric Co. (C.G. & E.) on December 19, 1972, tendered for filing proposed changes in its FPC Rate Schedule No. 2, as well as five supplements to FPC No. 2. The proposed rate changes would increase C.G. & E.'s revenues from jurisdictional sales and service by $1,378,199.23, based on estimated sales volumes for the 12-month period ending February 28, 1973. The proposed effective date for the changes is March 1, 1973, and C.G. & E. accordingly requests the Commission to waive compliance with the pertinent notice requirements of the rules and regulations.

C.G. & E. states that the primary purpose of the changes, incorporated in an agreement with Union Light, Heat & Power Co., is to give effect to present and proposed operating conditions, to provide more fully for mutual benefits from the interconnection of C.G. & E.'s and Kentucky Co.'s systems, and to reflect

the current generating, operating, and transmission costs of C.G. & E.

C.G. & E. further states that no additional facilities need be installed or modified in order to carry out the proposed service under the new agreement. A copy of this filing was served on Kentucky Co.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 16, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–1733 Filed 1–29–73;8:45 am]

[Docket No. RP72–142]

CITIES SERVICE GAS CO.

Notice of Proposed Changes in FPC Gas Tariff

JANUARY 22, 1973.

Take notice that Cities Service Gas Co. (Cities) on January 2, 1973, tendered for filing proposed changes in its FPC Gas Tariff, second revised Volume No. 1. Pursuant to the PGA provision contained in its FPC Gas Tariff, the company proposes to increase its rates effective February 23, 1973, to reflect increased purchased gas costs.

The third revised sheet PGA–1 of Cities' tariff included in Appendix A of the filing reflects a rate increase of 1.48 cents per Mcf which includes proposed rate changes filed by Mobil Oil Corp. and Shell Oil Co. reflecting the minimum prices set forth in Order Nos. 93381 and 93382 issued by the Oklahoma Corporation Commission on October 5, 1972. This 1.48 cents per Mcf increase in rates will produce an increase in the company's jurisdictional revenues of $5,240,449 based on annual sales volumes for the 12 months ended November 22, 1972.

If the Commission for any reason does not accept the 1.48 cents per Mcf increase, Cities, in the alternative, tendered for filing the third revised sheet PGA–1 included in Appendix B reflecting an increase of 1.29 cents per Mcf which does not include the proposed rate changes of Mobil Oil Corp. and Shell Oil Co. The 1.29 cents per Mcf rate increase will produce an increase in the company's jurisdictional revenues of $4,567,689 based on annual sales volumes for the 12 months ended November 22, 1972.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CI73–469]

COASTAL STATES GAS PRODUCING CO. ET AL.

Notice of Application

JANUARY 18, 1973.

Take notice that on January 11, 1973, Coastal States Gas Producing Co. (Applicant), Post Office Drawer 521, Corpus Christi, TX 78403, filed in Docket No. CI73–469 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Arkansas Louisiana Gas Co. from the South Woodward Area, Woodward County, Okla., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 45,000 Mcf of gas per month at 35 cents per Mcf at 14.65 p.s.i.a. for 1 year within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73–174]

COLORADO INTERSTATE GAS CO.

Notice of Application

JANUARY 23, 1973.

Take notice that on January 2, 1973, Colorado Interstate Gas Co., a division of Colorado Interstate Corp. (Applicant), Post Office Box 1087, Colorado Springs, CO 80901, filed in Docket No. CP73–174 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of an additional 20.6 miles of 8-inch loop pipeline on the Trinidad sales lateral in Colorado and an additional compressor unit at the Sturgis Field Compressor Station in Oklahoma and an increase in the volume of natural gas Applicant is authorized to sell to the city of Trinidad, Colo., and to the Raton Natural Gas Co., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to increase firm peak day sales to the city of Trinidad by 390 Mcf of natural gas and to the Raton Natural Gas Co., by 300 Mcf natural gas. It is stated that these proposed increases in the sales of natural gas, coupled with the proposed construction and operation of 8-inch lateral pipeline, are required to meet the 1973 to 1974 peak day residential and commercial requirements of customers served from the Trinidad lateral. Applicant also states that the proposed loop will provide an excess capacity that can be expected to meet projected customer demands through 1977 to 1978.

Applicant also proposes to install and operate an 840-horsepower compressor unit at the existing Sturgis Field Compressor Station. It is stated that such a compressor unit, which will increase the total installed horsepower from 2,520 to 3,360, is necessary to maintain peak day deliveries to Applicant's transmission system while operating the Keyes Field gathering system at a reduced pressure of 320 p.s.i.a.

V38-19 JAN 30 73 XUM

Applicant states that the total cost of the facilities proposed herein is approximately $806,631 and will be financed from working funds on hand, funds from operations, short-term borrowing, or long-term financing.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71-18, etc.]

COLUMBIA TRANSMISSION CORP.

Notice of Proposed Changes in Rates and Charges

JANUARY 16, 1973.

Take notice that Columbia Gas Transmission Corp. (Columbia), on January 11, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1, to become effective on February 10, 1973. The proposed changes would increase jurisdictional rates in the amount of $1,968,226 annually based upon sales for the 12-month period ended October 31, 1972, and are submitted pursuant to Article V of Columbia's stipulation and agreement in Docket No. RP71-18 et al., as approved by Commission order issued October 19, 1972. That article permits Columbia to increase its jurisdictional rates to give effect to the inclusion in its rate base of advance payments for gas made by Columbia. The rate increase reflects an increase in advance payments for gas in the amount of $15,220,148, as of December 31, 1972, over the balance of payments reflected in the rates which became effective November 1, 1972. The filing also includes copies of all contracts under which advance payments were made subsequent to those payments reflected in the November 1 rates.

Copies of the filing have been mailed to all jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Columbia's proposed tariff sheets and rate filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-489]

FOREST OIL CORP.

Notice of Application

JANUARY 23, 1973.

Take notice that on January 18, 1973, Forest Oil Corp. (Applicant), 1300 National Bank of Commerce Building, San Antonio, Tex. 78205, filed in Docket No. CI73-489 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Columbia Gas Transmission Corp., from Blocks 267 and 268, Vermilion Area, South Addition, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 450,000 Mcf of gas per month for 1 year at 35 cents per Mcf at 15.025 p.s.i.a., within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CI73-491]

FOREST OIL CORP.

Notice of Application

JANUARY 23, 1973.

Take notice that on January 18, 1973, Forest Oil Corp. (Applicant), 1300 National Bank of Commerce Building, San Antonio, Tex. 78205, filed in Docket No. CI73-491 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Columbia Gas Transmission Corp. from Block 307, Eugene Island Area, South Addition, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 197,500 Mcf of gas per month for 1 year at 35 cents per Mcf at 15.025 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the

requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. E-7806]

ILLINOIS POWER CO.

Notice of Change of Procedural Date

JANUARY 19, 1973.

On January 15, 1973, Illinois Power Co. filed a motion for extension of time for parties to serve supporting evidence as established by the order issued December 29, 1972.

Upon consideration, notice is hereby given that an extension is granted to and including February 23, 1973, within which parties may file supporting evidence as required by the order issued December 29, 1972. The other procedural dates are modified accordingly:

Service of evidence by parties opposing—March 6, 1973.
Service of rebuttal evidence supporting—March 13, 1973.
Hearing and cross-examination—March 20, 1973.

[Docket No. RP73-23]

LAWRENCEBURG GAS TRANSMISSION CORP.

Notice of Proposed Changes in Rates and Charges

JANUARY 16, 1973.

Take notice that Lawrenceburg Gas Transmission Corp. (Lawrenceburg), on January 8, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1, to become effective on February 1, 1973. The proposed changes would increase Lawrenceburg's jurisdictional rates in the amount of $39,112 annually based on volumes for the 12-month period ended November 30, 1972.

Lawrenceburg states that the purpose of the proposed increase is to reflect a change in the cost of gas purchased from its supplier, Texas Gas Transmission Corp. (Texas Gas), pursuant to the provisions of Lawrenceburg's purchased gas adjustment (PGA) clause, which was filed with the Commission on August 31, 1972, in the above-captioned docket, and is pending approval by the Commission. Lawrenceburg states that Texas Gas' proposed increase is to become effective on February 1, 1973, and that it is imperative that Lawrenceburg be permitted to increase its rates simultaneously with those of Texas Gas in order to remain economically stable. Lawrenceburg requests a waiver of notice requirements under § 154.51 of the Commission's regulations under the Natural Gas Act in order to permit the proposed increased rates to become effective on February 1, 1973.

Copies of the filing were mailed to Lawrenceburg's two jurisdictional customers and to interested State commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 26, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Lawrenceburg's proposed tariff sheets and rate filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-169]

MESA PETROLEUM CO.

Findings and Order; Correction

JANUARY 16, 1973.

In the Findings and Order Issuing Temporary Certificate of Public Convenience and Necessity, Accepting FPC Gas Rate Schedule for Filing, Granting Interventions, Fixing Date of Hearing and Specifying Procedures, issued December 22, 1972, and published in the FEDERAL REGISTER January 3, 1973, 38 FR 83: Paragraph (F), last line, change: "FPC Gas Rate Schedule No. 1" to "FPC Gas Rate Schedule No. 45".

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1723 Filed 1-29-73;8:45 am]

[Docket No. RP71-87]

MISSISSIPPI RIVER TRANSMISSION CORP.

Notice of Proposed Changes in Rates and Charges

JANUARY 18, 1973.

Take notice that Mississippi River Transmission Corp. (MRT) on December 29, 1972, tendered for filing as part of its FPC gas tariff, first revised volume No. 1, copies of ninth revised sheet No. 3A.

MRT states that the purpose of this filing is to reflect recovery of the rate change filing of Trunkline Gas Co. (Trunkline), filed with the Commission on December 15, 1972. MRT says that Trunkline's filing, which is proposed to become effective February 1, 1973, reflects: (1) An increase of 0.10 cents per Mcf for advance payment tracking pursuant to the provisions of article V of Trunkline's stipulation and agreement in Docket No. RP72-23, et al., approved by Commission order of April 11, 1972; and (2) an increase of 1.29 cents per Mcf to recover pursuant to section 18 of the general terms and conditions of Trunkline's FPC gas tariff, original volume No. 1, gas cost increases being incurred by Trunkline.

MRT further states that Trunkline's filing was made with the Commission on December 15, 1972, to be effective February 1, 1973. In view of this, MRT contends that it is impossible for it to satisfy the 45 day notice period provided by § 17.1 of the general terms and conditions of its FPC gas tariff, and the Commission's regulations. Accordingly, Mississippi respectfully requests waiver of the notice requirements under § 154.38 of the Commission's regulations in order that ninth revised sheet No. 3A filed herewith may become effective February 1, 1973, the same date on which Trunkline's increase is proposed to be effective.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 26, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1738 Filed 1-29-73;8:45 am]

[Dockets Nos. CI73-450, CI73-451]

MOBIL OIL CORP. ET AL.

Notice of Applications and Request to Withdraw Petition to Amend

JANUARY 19, 1973.

Take notice that on December 21, 1972, Mobil Oil Corp. (Operator), et al.

V 38 I 19 JAN 30 73 XUM

(Mobil), 3 Greenway Plaza East, Suite 800, Houston, Tex. 77046, filed in Docket No. CI73–450 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a sale of natural gas to Shell Oil Co. (Shell) from the Provident City field, Lavaca County, Tex., and a request to withdraw its petition to amend in Docket No. G–14915 filed on July 20, 1972, and in Docket No. CI73–451 filed an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Texas Eastern Transmission Corp. (Texas Eastern) from the aforesaid field, all as more fully set forth in the applications and request for withdrawal which are on file with the Commission and open to public inspection.

Mobil requests authorization to abandon a sale of natural gas to Shell from the Provident City field, because the basic contract with Shell has terminated and to sell such gas to Texas Eastern under the terms of a new gas purchase contract dated November 25, 1971. Mobil states that Shell has been gathering this gas for processing and then delivering and selling the gas to Texas Eastern. Pursuant to a products purchase contract for the proposed sale to Texas Eastern, Shell will continue to gather Mobil's gas, have it processed and deliver it to Texas Eastern for Mobil's account. The subject gas has heretofore been sold pursuant to a certificate issued in Docket No. G–14915.

The new contract with Texas Eastern calls for an initial price of 28 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment; however, Mobil states that it would be willing to accept a certificate at an initial rate of 24 cents per Mcf, the applicable area rate. Mobil asserts that it is entitled to the "new gas rate" inasmuch as Mobil's original contract with Shell terminated and it has entered into a new contract with a pipeline, in the light of Commission opinion No. 639, issued December 12, 1972, in Docket No. R–371. Under the certificate issued in Docket No. G–14915, Mobil has been selling the subject gas to Shell at 19 cents per Mcf. On July 20, 1972, Mobil filed a petition to amend the order issuing a certificate in said docket by authorizing it to sell the subject gas to Texas Eastern. Mobil requests that the petition be withdrawn pursuant to a Commission staff suggestion that Mobil withdraw that petition and file abandonment and certificate applications in lieu thereof. Mobil asserts that since there has been no interruption in deliveries of natural gas to Texas Eastern, the net effect of the delay in filing the new applications will be to deprive Mobil of the just and reasonable rate prescribed in Commission opinion No. 595, because of procedural technicalities. Consequently Mobil believes that there are extenuating circumstances existing here which render it appropriate for the Commission to grant retrospective rate relief at least for the period commencing August 21, 1972, or as soon thereafter as the Commisison will permit.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73–183]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

JANUARY 22, 1973.

Take notice that on January 15, 1973, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP73–183 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continuation of the sale for resale and delivery of natural gas in interstate commerce to H. L. Hunt, et al., from the North Lansing Field, Harrison County, Tex., at the rate of 16.7835 cents per Mcf at 14.65 p.s.i.a. heretofore authorized in Docket No. G–17041 to be made pursuant to Amoco Production Co. FPC Gas Rate Schedule No. 308, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–1740 Filed 1–29–73;8:45 am]

[Docket No. CP73–167]

PANHANDLE EASTERN PIPE LINE CO.

Notice of Application

JANUARY 23, 1973.

Take notice that on December 26, 1972, Panhandle Eastern Pipe Line Co. (Applicant), Post Office Box 1642, Houston, TX 77001, filed in Docket No. CP73–167 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of 60.1 miles of pipeline, and 32,350 additional compressor horsepower and related facilities on Applicant's existing gas supply system west of the Haven, Kans., compression station, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the proposed horsepower and pipeline facilities will be located at existing compressor sites, and operated as adjuncts to gathering systems used to receive gas from some of Applicant's older reservoirs which have experienced declines in the level of natural gas pressure. Applicant also states that the facilities proposed herein will produce the necessary pressure reductions and capacity in these older reservoirs, thereby compensating for the natural decline in natural gas pressure and enabling Applicant to receive the gas committed to it. It is stated further that the construction and operation of the proposed facilities are needed to enable Applicant to deliver necessary gas supplies into its mainline system and to assist Applicant in balancing conditions of over- and under-production in certain fields subject to local proration laws and that some of the proposed facilities will tend to lessen the effect on the mainline system of any interim loss of supply of natural gas or equipment failure.

Applicant states that the estimated cost of the proposed facilities is $14,723,000 and will be financed initially from funds available to the company.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. RP73–7, RP73–57]

SOUTH TEXAS NATURAL GAS GATHERING CO.

Notice Establishing Procedural Dates

JANUARY 19, 1973.

On January 2, 1973, staff counsel filed a motion to suspend service and hearing dates in Docket No. RP73–7 pending disposition as established by order issued August 31, 1972, of the settlement filed in Docket No. CP67–349.

On January 10, 1973, the Commission issued an order in Dockets Nos. RI72–240 et al., Shell Oil Co. et al., which consolidated Dockets Nos. RP73–7 and RP73–57 for hearing and disposition.

On January 12, 1973, South Texas Natural Gas Gathering (South Texas) filed an answer to the motion of staff counsel to suspend service and hearing dates. South Texas proposes that the schedule for service of testimony and commencement of the hearing heretofore prescribed by the Commission in the order issued November 16, 1972, in Docket No. RP73–57 be made applicable in the consolidated proceeding.

On January 18, 1973, staff counsel filed an answer to the motion of South Texas and motion to extend and establish service and hearing dates.

Upon consideration, notice is hereby given that the procedural dates are fixed as follows:

Service of Staff testimony and exhibits—March 23, 1973.
Prehearing conference—April 3, 1973.
Service of intervenors testimony and exhibits—April 13, 1973.
Service of rebuttal by South Texas— April 27, 1973.
Hearing—May 8, 1973.

[Docket No. E–7939]

SOUTHWESTERN ELECTRIC POWER CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 23, 1973.

Take notice that Southwestern Electric Power Co. (Swepco), on November 2, 1972, tendered for filing copies of a letter agreement dated October 9, 1972, between Arkansas Power & Light Co. (A.P. & L.) and Swepco.

Swepco states that the agreement provides for A.P. & L. to purchase 150 mw. of capacity without reserves from Northeastern No. 2 generating unit of Public Service Company of Oklahoma (PSCO) during the period from December 1, 1972, to May 31, 1974.

Further, Swepco states that this agreement is a companion to the letter agreement between PSCO and Swepco under which PSCO will make the capacity and energy available for service and delivery to A.P. & L. Swepco avers that the rate for service under the agreement is the same rate Swepco pays PSCO except that Swepco has added a 10 cents per kw. charge.

Swepco also states that no construction is required to supply service under the agreement, and requests, because of A.P. & L.'s urgent need for this power and energy, that Swepco's submittal be accepted for filing effective December 1, 1972.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–1743 Filed 1–29–73;8:45 am]

[Docket No. CP73–182]

TENNESSEE GAS PIPELINE CO.

Notice of Application

JANUARY 18, 1973.

Take notice that on January 12, 1973, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Applicant), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP73–182 an application pursuant to section 7(c) of the Natural Gas Act authorizing the transportation of natural gas for exchange with Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the exchange of natural gas with Natural on December 15, 1972, within the contemplation of § 157.22 of the regulations under the Natural Gas Act (18 CFR 157.22) and that it proposes to continue said exchange for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant will receive up to 15,000 Mcf per day of Natural's gas from Exxon Corp. (Exxon) in the Tenerias Field, Willacy County, Tex., and deliver equivalent quantities of gas to Natural near Raymondville in Willacy County. In addition, Applicant proposes to deliver gas to Natural to be accepted on a best efforts basis, in excess of the gas delivered to Applicant for Natural's account by Exxon, in exchange for gas to be delivered by Natural to Applicant in Brooks County, Tex. Applicant states that the exchanges proposed herein will be on an Mcf-for-Mcf basis and that no new facilities need be constructed by Applicant.

Natural has filed in Docket No. CP73–177 an application for a certificate of public convenience and necessity authorizing the exchange of natural gas with Applicant. Exxon has filed in Docket No. CI73–410 an application for a certificate of public convenience and necessity authorizing the sale of natural gas to Natural.

It appears reasonable and consistent with the public interest in this case to

V38 I19 JAN 30 73 XUM

prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-482]

TEXACO INC.

Notice of Application

JANUARY 23, 1973.

Take notice that on January 16, 1973, Texaco Inc. (Applicant), Post Office Box 52332, Houston, TX 77052, filed in Docket No. CI73-482 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to be delivered by Amoco Production Co. at the outlet of the Old Ocean Field Gasoline Plant, in Brazoria County, Tex., to Natural Gas Pipeline Company of America, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on January 1, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for ten months from the expiration of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 3,000 Mcf of gas per day at 40 cents per Mcf at 14.65 p.s.i.a. subject to upward and downward B.t.u. adjustment. Estimated initial upward B.t.u. adjustment is 1 cent per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7929]

TOLEDO EDISON CO.

Extension of Time

JANUARY 22, 1973.

On January 22, 1973, counsel for the cities of Byron and Bowling Green, Ohio, requested an extension of time to February 5, 1973, in which to protest or file a petition to intervene in the above matter as set out in the notice of proposed changes in rates and charges issued January 11, 1973.

Upon consideration, notice is hereby given that the time is extended to and including February 5, 1973, within which protests or petitions to intervene may be filed in the above matter.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1724 Filed 1-29-73;8:45 am]

[Docket No. CI73-487]

UNION TEXAS PETROLEUM

Notice of Application

JANUARY 23, 1973.

Take notice that on January 17, 1973, Union Texas Petroleum, a division of Allied Chemical Corp. (Applicant), Post Office Box 2120, Houston, TX 77001, filed in Docket No. CI73-487 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the Orange Grove Field Area, Terrebonne Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 225,000 Mcf of gas per month for 1 year at 35 cents per Mcf at 15.025 p.s.i.a., subject to upward and downward B.t.u. adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required,

further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

NOTICE OF COMMITTEE MEETINGS

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, February 1, 1973.
Monday, February 5, 1973.
Thursday, February 8, 1973.
Monday, February 12, 1973.
Thursday, February 15, 1973.
Thursday, February 22, 1973.

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street NW., Washington, DC.

The committee's primary responsibility is to study the prevailing rate system and from time-to-time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Public Law 92-392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public under a determination to do so, made under the provisions of section 10(d) of Public Law 92-463.

However, members of the public who may wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5554, 1900 E Street NW., Washington, DC.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

JANUARY 24, 1973.

[FR Doc.73-1704 Filed 1-29-73;8:45 am]

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Rules of Organization

Effective February 1, 1973, the Rules of Organization of the Federal Open Market Committee are amended to read as follows:

RULES OF ORGANIZATION

Sec.
1. Authority.
2. Composition of Committee.
3. Chairman and Vice Chairman.
4. Staff.
5. Manager and Special Manager.

SECTION 1. *Authority.* These rules are issued by the Federal Open Market Committee (the Committee) pursuant to the requirement of section 552 of Title 5 of the United States Code that every agency shall publish in the FEDERAL REGISTER a description of its central and field organization.

SEC. 2. *Composition of Committee.*—(a) *Members.* The Committee consists of the seven members of the Board of Governors of the Federal Reserve System (the Board) and five representatives of the Federal Reserve Banks, each of whom is a President or a First Vice President of a Reserve Bank.

(b) *Reserve Bank representatives.* The representatives of the Federal Reserve Banks, and an alternate for each representative, are elected by the boards of directors of the Reserve Banks in accordance with section 12A of the Federal Reserve Act (12 U.S.C. 263) for terms of one year commencing on March 1 of each year. Prior to the first meeting of the Committee on or after March 1 of each year, each member of the Committee representing the Federal Reserve Banks shall cause a record of his election and of the election of his alternate to be forwarded to the Secretary of the Committee. If any question is raised as to the election or eligibility of a member or alternate, the Committee determines such question before such member or alternate participates in a meeting of the Committee. In the event a member is absent from a meeting of the Committee, his alternate, in attending the meeting, shall have the same status as the member for whom he is serving. If a member or alternate ceases to be a President or First Vice President of a Reserve Bank, a successor may be chosen in a special election by the boards of directors of the appropriate Reserve Bank or Banks and such successor serves until the next annual election.

(c) *Oath of office.* Each member of the Committee and each alternate take the same oath of office as that prescribed by statute to be taken by officers of the United States.

SEC. 3. *Chairman and Vice Chairman.* At its first meeting on or after March 1 of each year, the Committee elects a Chairman and a Vice Chairman from among its membership. The Chairman presides at all meetings of the Committee and performs such other duties as the Committee may require. The Vice Chairman performs the duties of the Chairman in the absence of the Chairman. In the absence of both the Chairman and the Vice Chairman of the Committee, the Vice Chairman of the Board acts as Chairman of the Committee; and, in the absence of the Chairman and the Vice Chairman of the Committee and the Vice Chairman of the Board, the member of the Board present with the longest service as a member of the Board acts as Chairman of the Committee.

SEC. 4. *Staff.*—(a) *Selection of staff officers.* At its first meeting on or after March 1 of each year, the Committee selects, from among the officers and employees of the Board and the Federal Reserve Banks, the following staff officers to serve until the first meeting on or after March 1 of the next following year: Secretary, Deputy Secretary, and one or more Assistant Secretaries; General Counsel and one or more Assistant General Counsel; and Economists, one or more of whom may be designated as Senior or Associate Economists or given titles reflecting their areas of particular specialization.

(b) *Secretary and Deputy and Assistant Secretaries.* The Secretary keeps minutes of actions and records of discussions at all meetings of the Committee; he maintains a complete record of the actions taken by the Committee upon all questions of policy relating to open market operaitons; and he records the votes taken in connection with the determination of open market policies and the reasons underlying each such action. He has custody of such minutes and records, and he performs such other duties as the Committee may require. In the absence of the Secretary of the Committee, the Deputy Secretary or an Assistant Secretary acts as Secretary pro tem.

(c) *Economists.* The Economists prepare for the use of the Committee and present to it such information regarding business and credit conditions and domestic and international economic and financial developments as will assist the Committee in the determination of open market policies, and they perform such other duties as the Committee may require.

(d) *General Counsel and Assistant General Counsel.* The General Counsel furnishes such legal advice as the Committee may require. In the absence of the General Counsel, an Assistant General Counsel acts as General Counsel pro tem.

(e) *Filling of vacancies.* At any meeting the Committee may fill any vacancy in the offices described in this section.

(f) *Other staff assistance.* The services of any officers and employees of the Board and the Federal Reserve Banks are made available and are utilized by the Committee as required.

SEC. 5. *Manager and Special Manager.* The Committee selects a Manager of the System Open Market Account and a Special Manager for Foreign Currency Operations for such Account, both of whom shall be satisfactory to the Federal Reserve Bank selected by the Committee to execute open market transactions for such Account, and both of whom serve at the pleasure of the Committee. The Manager and Special Manager keep the Committee informed on market conditions and on transactions they have made and render such reports as the Committee may specify.

By order of the Federal Open Market Committee, January 16, 1973.

ROBERT C. HOLLAND,
Secretary.

V 38 I 19 JAN 30 73 XUM

NATIONAL COMMISSION ON MATERIALS POLICY

REVIEW OF REPORTS BY THE COMMISSION

Notification of Meeting

JANUARY 26, 1973.

Pursuant to the requirements of the Federal Advisory Committee Act, notice is hereby given that there will be a meeting of the National Commission on Materials Policy on Wednesday, January 31, 1973, at 10 a.m. The meeting will be held in the Commission's offices, Room 3002, 2025 M Street NW., Washington, DC. The meeting will be held for the purpose of reviewing reports prepared for the Commission by staff members and by various persons and groups outside the government, and for the purpose of preparing the Commission's final report to the Congress and the President. The meeting will not be open to the public.

JAMES BOYD,
Executive Director.

[FR Doc.73-1833 Filed 1-26-73;3:45 pm]

POSTAL RATE COMMISSION

[Docket No. MC73-1]

MAIL CLASSIFICATION SCHEDULE

Notice of Request for a Recommended Decision on Establishment and Providing for Petitions for Leave to Intervene

JANUARY 26, 1973.

Take notice that on January 18, 1973, the U.S. Postal Service (the Posal Service) filed, in Docket No. MC73-1 a request for a recommended decision establishing a mail classification schedule, pursuant to section 3623 of the Postal Reorganization Act (the Act). Except for six mail classification changes summarized below, the Postal Service's proposed mail classification schedule is essentially the same as that presently in effect. In addition to these six changes the Postal Service also proposes to incorporate in its schedule certain "editorial and conforming changes in the relevant provisions of former title 39, United States Code, and selected portions of the Postal Service Manual."

The entire mail classification schedule proposed by the Postal Service, reflecting these classification changes and corollary rate increases in business reply mail and special-rate fourth-class mail, is attached hereto and is captioned, "U.S. Postal Service Domestic Mail Classification Schedule." The Postal Service asserts, in its request, that its proposed schedule conforms to the criteria in 39 U.S.C. 3623(c), and insofar as it involves new rates or rate changes, the criteria in 39 U.S.C. 3622(b).

The Postal Service estimates that the total cost-revenue consequences of its proposed schedule will be a net gain in revenues in Fiscal Year 1974 of $22.5 million.

The six mail classification changes proposed by the Postal Service concern the following types of mail, and, in brief summary form, are as follows:

(1) *Bulk-rate first-class mail.* A new subclassification is proposed which will offer a rate reduction of 0.5 cent per piece for mailings of at least 1,000 first-class or airmail pieces when the mailer meets certain mailing conditions, related principally to the presorting function. (See Attachment, §§ 100.3(d), 101.3(e).)[1]

(2) *Bulk-rate parcel post.* A new subclassification is proposed which will establish, as a supplement to the present mail schedule providing for 552 individual-piece parcel-post rates, a simplified rate chart to be used by volume mailers (500 or more parcels per day). (See Attachment, § 400.42.)[1]

(3) *Special-rate fourth class.* Three subclassifications are proposed providing a single piece rate and two levels of discount for bulk mailings. The single piece rate is to be increased to 22 cents for the first pound and 11 cents for each additional pound. A bulk mailing rate for sorting 2,000 or more pieces to 3-digit ZIP Code and State separations provides a 10 percent discount, and a bulk mailing rate for sorting 500 or more pieces to 5-digit ZIP Code separations provides a 15 percent discount. (See Attachment, § 400.5(b)(c)(d).)[1]

(4) *Printed matter now mailed as parcel post.* It is proposed that the definition of matter eligible for the fourth-class "catalog" rates be expanded to include other bound printed matter in addition to catalogs. (See Attachment, § 400.7.)[1]

(5) *Business reply mail.* The proposed schedule of fees provides that users of business reply mail would pay, in addition to postage, an increased charge on single transactions and a monthly charge and discount fees for volume users (see Attachment, section 102):[1]

Monthly volume	Monthly charge	Piece fee
Up to 25,000 pieces		5 cents.
25,001 to 50,000 pieces	$500	3 cents.
Over 50,000 pieces	1000	2 cents.

(6) *Surcharge for nonstandard-size mail.* Surcharges are proposed for mailable but nonstandard pieces. The proposed surcharges for such pieces are 5 cents for first-class and airmail not exceeding 1 ounce and 4 cents for single-piece third-class not exceeding 2 ounces. In addition, the Postal Service proposes to replace and extend the current prohibitions against matter which fails to satisfy minimal dimensional criteria. However, except in the case of prohibitions for business reply pieces, the proposed prohibitions or surcharges will not be effective prior to July 6, 1976. (See Attachment, §§ 100.3(a),[1] 300.2(d).)

If any person desires to be heard with reference to said request and to become a party to a proceeding or to participate as a party in any hearing on the request, that person should file a petition for leave to intervene. Petitions for leave to intervene must be filed with the Secretary, Postal Rate Commission, Washington, D.C. 20268 on or before February 26, 1973, and must be in accordance with section 20 of the Commission's rules of practice (39 CFR 3001.20). The Commission also calls attention to section 20(b) which provides that petitions for leave to intervene shall affirmatively state whether or not petitioner requests a hearing or, in lieu thereof, a conference; and further, whether or not the petitioner intends to participate actively in a hearing.

The request of the Postal Service for a recommended decision on establishing a mail classification schedule for postal service is on file with the Commission and available for public inspection.

JOSEPH A. FISHER,
Secretary.

PRESIDENT'S ADVISORY COUNCIL ON MANAGEMENT IMPROVEMENT

AGENDA FOR MEETING

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the President's Advisory Council on Management Improvement will be held at 10 a.m., February 2, and at 9 a.m., February 3, 1973, at 722 Jackson Place NW., Washington, DC.

The agenda of this regular bimonthly meeting of the Council will include discussions of productivity studies in Federal laboratories, health care systems, and some experiments being developed by the GAO, OMB, and CSC. Other topics to be reviewed include certain areas of personnel management, i.e., executive development, private sector techniques, and women in government. Management seminars planned by the Council will also be reviewed.

The meeting will be open to the public, except for two executive sessions which will be closed to discuss staff personnel matters which relate solely to internal rules and practices of the Council, and in accordance with the determination of the Director, Office of Management and Budget dated January 25, 1973. These closed sessions will be held from 10 to 11 a.m. on February 2, and from 11:00 to Noon on February 3.

Anyone wishing to participate should contact the office of the Executive Director, President's Advisory Council on Management Improvement, Room 10002, New Executive Office Building, Washington, D.C. 20503, telephone (202) 395-3973.

Dated: January 26, 1973.

JAMES E. MAHONEY,
Executive Director.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATION FOR RELIEF

JANUARY 24, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before February 13, 1973.

FSA No. 42607—*Joint Water-Rail Container Rates—American Mail Line, Ltd.* Filed by American Mail Line, Ltd. (No. 3), for itself and interested rail carriers. Rates on general commodities, from rail terminals at ports on the U. S. Atlantic and Gulf coast, to Saigon, Vietnam.

Grounds for relief—Water competition.

Tariff—American Mail Line, Ltd., Westbound Intermodal Tariff No. 2, I.C.C. No. 2, F.M.C. No. 23. Rates are published to become effective on February 20, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

MOTOR CARRIERS OF PROPERTY OR PASSENGERS

Filing of Applications

[Notice 7]

JANUARY 23, 1973.

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under sections 5 and 210a(b) of the Interstate Commerce Act, and certain other proceedings with respect thereto (49 CFR 1100.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11632. Authority sought for control by EASTERN FREIGHT WAYS, INC., Eastern and Moonachie Avenues, Carlstadt, N.J. 07072, of ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York, NY 10017, and for acquisition by DANIEL E. SHEVELL and MYRON P. SHEVELL, both of Carlstadt, N.J. 07072, of control through the acquisition by EASTERN FREIGHT WAYS, INC. Applicants' attorneys: Ralph E. Becker, J. Thomas Schneider, and Howard J. Feldman, 1819 H Street NW., Suite 950, Washington, DC 20006. Operating rights sought to be controlled: ASSOCIATED TRANSPORT, INC., operates as a *common carrier*, primarily over regular routes, between Atlanta, Ga., and Charleston, S.C., on the south, Nashville, Tenn., St. Louis, Mo., and Chicago, Ill., on the west, Detroit, Mich., Buffalo and Champlain, N.Y., and Portland, Maine, on the north, and Boston, Mass., on the east. ASSOCIATED controls SCHERER FREIGHT LINES, CO., which operates as a *common carrier* over regular and irregular routes in Illinois and Wisconsin extending generally between St. Louis, Mo., and Sheboygan, Wis. EASTERN FREIGHT WAYS, INC., is a *common carrier* operating primarily over regular routes in Delaware, District of Columbia, New Jersey, New York, Connecticut, Massachusetts, Maryland, Pennsylvania, Rhode Island, Vermont, and Virginia. Application has not been filed for temporary authority under section 210a(b).

NOTE: A proposed amendment to the application for a merger of the two carriers has been submitted by EASTERN FREIGHT WAYS, INC. ASSOCIATED TRANSPORT, INC., has not joined in.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 7]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 18, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 29392 (Sub-No. 19 TA), filed January 9, 1973. Applicant: LES JOHNSON CARTAGE CO., 611 South 28th Street, Milwaukee, WI 53246. Applicant's representative: Richard H. Prevette (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grinding mill shells*, from Milwaukee, Wis., to points in Marquette County, Mich., for 180 days. Supporting shipper: Nordberg Division, Rex Chainbelt, Inc., Post Office Box 383, Milwaukee, WI 53201 (Philip W. Harper, Transportation Manager). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, Room 807, 135 West Wells Street, Milwaukee, WI 53203.

No. MC 100623 (Sub-No. 40 TA), filed January 8, 1973. Applicant: HOURLY MESSENGERS, INC., doing business as H. M. PACKAGE DELIVERY SERVICE, 20th and Indiana Avenue, Philadelphia, Pa. 19132. Applicant's representative: Harold G. Hernly, 510 The Circle Building, 2030 North Adams Street, Arlington, VA 22201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Drugs, medical and pharmaceutical products*, between the facilities of Parke-Davis & Co. at Towson, Md., on the one hand, and, on the other, points in Adams, Berks, Bucks, Carbon, Chester, Cumberland, Delaware, Dauphin, Franklin, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Monroe, Montgomery, Northampton, Perry, Philadelphia, Schuylkill, and York Counties, Pa., points in Atlantic, Ocean, Cape May, Burlington, Camden, Cumberland, Gloucester, Hunterdon, Mercer, Salem, and Warren Counties, N.J., and points in New Castle County, Del. Restriction: No service shall be rendered in the transportation of any package or articles weighing more than fifty (50) pounds or exceeding 108 inches in length and girth combined, and each package or article shall be considered as a separate and distinct shipment. No service shall be provided in the transportation of packages or articles weighing in the aggregate more than three hundred (300) pounds from one consignor at one location to one consignee at one location on any one day, for 180 days.

Supporting shipper: Parke, Davis & Co., Post Office Box 1676, Baltimore, MD 21203. Send protests to: Ross A. Davis, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1518 Walnut Street, Room 1600, Philadelphia, PA 19102.

No. MC 107002 (Sub-No. 429 TA), filed January 3, 1973. Applicant: MILLER TRANSPORTERS, INC., Post Office Box 1123, U.S. Highway 80 West, Jackson, MS 39205. Applicant's representative: John J. Borth (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Jackson County, Miss., to points in Alabama, Arkansas, Florida, Louisiana, Missouri, and Tennessee on, east and south of U.S. Highways 27 and 70, for 90 days. Supporting shipper: Mississippi Chemical Corp., Post Office Box 388, Yazoo City, MS 39194. Send protests to: Alan C. Tarrant, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 212, 145 East Amite Building, Jackson, MS 39201.

No. MC 111729 (Sub-No. 368 TA) (correction), filed January 3, 1973, published in the FEDERAL REGISTER issue of January 12, 1973, corrected and republished in part as corrected this issue. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY 11040. Applicant's representative: John M. Delany (same address as above). NOTE: The purpose of this partial republication is to show the correct Sub-No. 368 TA, in lieu of Sub-No. 366 TA. The rest of the application remains the same.

No. MC 112520 (Sub-No. 267 TA), filed January 9, 1973. Applicant: McKENZIE TANK LINES, INC., New Quincy Road, Post Office Box 1200, Tallahassee, FL 32302. Applicant's representative: Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, FL 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Black liquor skimmings*, in bulk, in tank vehicles, from Jacksonville, Fla., to Clyattville, Ga.; and (2) *brine, saline solution, and sulfate*, in bulk, in tank vehicles, from Clyattville, Ga., to Jacksonville, Fla. for 180 days. Supporting shipper: Owens-Illinois, Inc., Clyattville, Ga. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

No. MC 114897 (Sub-No. 102 TA), filed January 10, 1973. Applicant: WHITFIELD TANK LINES, INC., 300–316 North Clark Road, Post Office Drawer 9897, El Paso, TX 79989. Applicant's representative: J. P. Rose (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Titanium tetrachloride*, in bulk, in tank vehicles, from Henderson, Nev., to Port Arthur and Beaumont, Tex.; and Baton Rouge, Lake Charles, and Plaquemine, La., for 180 days. Supporting shipper: Titanium Metals Corporation of America, Post Office Box 2128, Henderson, NV 89015. Send protests to: Haskell E. Ballard, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box H–4395 Herring Plaza, Amarillo, TX 79101.

No. MC 114897 (Sub-No. 103 TA), filed January 10, 1973. Applicant: WHITFIELD TANK LINES, INC., 300–316 North Clark Road, Post Office Drawer 9897, El Paso, TX 79989. Applicant's representative: J. P. Rose (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Titanium tetrachloride*, in bulk, in tank vehicles, from Henderson, Nev., to Texas City, Tex., for 150 days. Supporting shipper: Titanium Metals Corporation of America, Post Office Box 2128, Henderson, NV 89015. Send protests to: Haskell E. Ballard, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Box H–4395 Herring Plaza, Amarillo, TX 79101.

No. MC 118959 (Sub-No. 104 TA) (Correction), filed December 6, 1972, published in the FEDERAL REGISTER issue of January 16, 1973, corrected and republished as corrected this issue. Applicant: JERRY LIPPS, INC., 130 South Frederick, Cape Girardeau, MO 63701. Applicant's representative: Axelrod, Goodman, Steiner and Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products, plastic and plastic products*, products produced or distributed by manufacturers and converters of paper and paper products, plastic and plastic products; *materials and supplies* used in the manufacture and distribution of the aforegoing commodities (except commodities which because of size or weight require the use of special equipment and commodities in bulk), between the plantsites and facilities of the Mead Corp., at or near Chillicothe, Ohio; Schooleys, Ohio; and Kingsport and Gray, Tenn., on the one hand, and, on the other, points in Florida, for 180 days. Supporting shipper: The Mead Corp., Talbott Tower, Dayton, Ohio 45402. Send protests to: District Supervisor, J. P. Wertmann, Interstate Commerce Commission, Bureau of Operations, 210 North 12th Street, Room 1465, St. Louis, MO 63101. NOTE: The purpose of this republication is to include Gray, Tenn.

No. MC 124078 (Sub-No. 536 TA) (Correction), filed December 6, 1972, published in Notice Number 3, corrected and republished in part as corrected this issue. Applicant: SCHWERMAN TRUCKING CO., 611 South 28th Street, Milwaukee, WI 53215. Applicant's representative: Richard H. Prevette (same address as above). NOTE: The purpose of this partial republication is to set forth the correct Sub-No. 536 TA, in lieu of Sub-No. 535 TA. The rest of the application remains the same.

No. MC 129615 (Sub-No. 13 TA), filed December 5, 1972. Applicant: AMERICAN INTERNATIONAL DRIVE-AWAY, 2000 West 16th Street, Long Beach, CA 90813. Applicant's representative: E. D. Helmer (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor homes and campers*, by driveaway and truckaway service, between points in Collin and Hopkins Counties, Tex., and Snohomish County, Wash., on the one hand, and, on the other, points in the United States, for 180 days. Supporting shipper: Fleetwood Enterprises, Inc., 3125 Myers Street, Post Office Box 7638, Riverside, CA 92503. Send protests to: John E. Nance, Officer in Charge, Interstate Commerce Commission, Bureau of Operations, 300 North Los Angeles Street, Room 7708, Los Angeles, CA 90012.

No. MC 134040 (Sub-No. 4 TA), filed January 9, 1973. Applicant: ACME TRANSFER, INC., 2103 First Avenue North, Post Office Box 404, Fort Dodge, IA 50501. Applicant's representative: Marshall D. Becker, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Crushed motor vehicles*, from points in Iowa to Kansas City and St. Louis, Mo., Chicago and South Beloit, Ill., and their respective commercial zones, for 180 days. Supporting shipper: Turpin Auto Crushers, 615 Southeast 30th Street, Des Moines, IA 50317. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 138299 TA, filed January 8, 1973. Applicant: TRAILS TRUCKING, INC., 719 Union Street, Montebello, CA 90640. Applicant's representative: Ernest D. Salm, 8179 Havasu Circle, Buena Park, CA 90621. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglass products*, from Santa Clara, Calif., to points in Arizona, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, and to El Paso, Tex., for 180 days. Supporting shipper: Owens-Corning Fiberglas Corp., Santa Clara Plant, Post Office Box 89, Santa Clara, CA 95052. Send protests to: John E. Nance, Officer in Charge, Interstate Commerce Commission, Bureau of Operations, Room 7708 Federal Building, 300 Los Angeles Street, Los Angeles, CA 90012.

No. MC 138300 TA, filed January 10, 1973. Applicant: MIDWEST MAIL SERVICE, INC., Omaha, Nebr. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Storage batteries and battery acid*, in containers, between the warehouse facilities of General Battery Corp. in Omaha, Nebr., on the one hand, and, on the other, points in Colorado, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, North Dakota, South Dakota, and Wyoming, for 180 days. Supporting shipper: General Battery Corp., Post Office Box 1262, Reading, PA 19603. Send protests to: Carroll Russell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 711 Federal Office Building, 106 South 15th Street, Omaha, NE 68102.

By the Commission.

PACIFIC CREST NATIONAL SCENIC TRAIL

Route Selection

In accordance with section 7(a) of the National Trail System Act of October 2, 1968 (82 Stat. 919; 16 U.S.C. 1241–1249), notice is hereby given of selection of the official route of the Pacific Crest National Scenic Trail.

The Forest Service in selecting the route for the Trail gave full consideration to minimizing the adverse effects of the Trail on the affected landowners and their operations. The advice and assistance of the States, local governments, private organizations, and landowners and land users concerned was obtained. The selected route has been approved by the Advisory Council for the Pacific Crest National Scenic Trail.

To facilitate more precise identification of the selected route by affected governmental agencies, landowners and other interested parties, detailed maps are on file and available for public inspection at the headquarters of Federal and State units through which the selected route passes as indicated on the maps and narrative descriptions included in this notice. The detailed maps are available for review in the following locations:

CALIFORNIA

Angeles National Forest, 150 South Los Robles, Pasadena.
Cleveland National Forest, 3211 5th Avenue, San Diego.
Eldorado National Forest, 100 Forni Road, Placerville.
Inyo National Forest, 2957 Birch Street, Bishop.
Klamath National Forest, 1215 South Main, Yreka.
Lassen National Forest, 707 Nevada Street Susanville.
Plumas National Forest, 159 Lawrence Street, Quincy.
San Bernardino National Forest, 144 North Mountain View Avenue, San Bernardino.
Sequoia National Forest, 900 West Grand Avenue, Porterville.
Shasta-Trinity National Forest, 1615 Continental Street, Redding.
Sierra National Forest, 1130 O Street, Room 3211, Federal Building, Fresno.
Stanislaus National Forest, 175 South Fairview Lane, Sonora.
Tahoe National Forest, Highway 49 and Coyote Street, Nevada City.
Toiyabe National Forest, 111 North Virginia Street, Reno, Nev.
Devil's Postpile National Monument, Three Rivers.
King's Canyon National Park, Three Rivers.
Lassen Volcanic National Park, Mineral.
Sequoia National Park, Three Rivers.
Yosemite National Park, P.O. Box 577, Yosemite National Park.
Bureau of Land Management, Federal Office Building, 2800 Cottage Way, Sacramento.
Anza Borrego Desert State Park, Borrego Springs.
Castle Crags State Park, Castle Crag.
Harts Bar State Park, Star Route, Angelus Oaks.
McArthur-Burney Falls State Park, Route 1, Box 1260, Burney.
Mount San Jacinto State Park, P.O. Box 308, Idyllwild.

OREGON

Deschutes National Forest, 211 East Revere, Bend.
Mount Hood National Forest, 340 N.E. 122d Avenue, Portland.
Rogue River National Forest, Post Office and Federal Building, Medford.
Umpqua National Forest, Federal Office Building, Roseburg.
Willamette National Forest, 210 East 11th Avenue, Eugene.
Winema National Forest, Post Office Building, Klamath Falls.
Crater Lake National Park, Post Office Box 7, Crater Lake.
Bureau of Land Management, Federal Building, Medford.

WASHINGTON

Gifford Pinchot National Forest, 500 West 12th Street, Vancouver.
Mount Baker National Forest, Federal Office Building, Bellingham.
Okanogan National Forest, 219 2d Avenue South, Okanogan.
Snoqualmie National Forest, 1601 Second Avenue Building, Seattle.
Wenatchee National Forest, 3 South Wenatchee Avenue, Wenatchee.
Mount Rainier National Park, Longmire.
North Cascades National Park, Sedro Woolley.
State of Washington Department of Natural Resources, 4800 Capitol Boulevard, Olympia.

The selected route for the Pacific Crest National Scenic Trail, including a listing of private lands crossed is described in narrative form and depicted on maps as follows:

WASHINGTON

Beginning at Monument No. 78 on the Canadian border, the Pacific Crest Trail follows the Cascade Crest in a southerly direction through the Pasayten Wilderness, Okanogan National Forest, traversing Castle Pass, Hopkins Pass, Woody Pass, Holman Pass, Foggy Pass, and Windy Pass to Harts Pass, leaving the Pasayten Wilderness at Windy Pass. From Harts Pass the Trail goes throuh Glacier Pass, Methow Pass, Granite Pass, and Cutthroat Pass to Rainy Pass. At Rainy Pass the Trail crosses the North Cascades Highway No. 20, takes a westerly direction along the south side of the ridge toward Horsefly Pass, leaves national forest land and crosses into the North Cascade National Park one-quarter mile southwest of Horsefly Pass in the headwaters of Maple Creek. The Trail then follows along the Maple Creek drainage to its intersection with North Fork Bridge Creek, crosses North Fork Bridge Creek, thence traverses the north side of the Bridge Creek drainage to Goode Ridge, crosses the south end of Goode Ridge, crosses Park Creek and follows down the creek to near its confluence with the Stehekin River. The Trail then crosses the Stehekin River and follows up Flat Creek 2 miles, leaves the North Cascades National Park and enters the Glacier Peak Wilderness, Wenatchee National Forest. It follows Flat Creek to the mouth of the West Fork, crosses Flat Creek, continues up the Flat Creek Basin in a southwesterly direction, passes over Rim Rock Ridge east of Le Conte Glacier, and traverses the drainages of the West Fork Agnes, South Fork Agnes, and Spruce Creek to the Bannock Lakes. From Bannock Lakes the Trail follows the ridge into Suiattle Pass, where it enters the Mount Baker National Forest, then heads southwesterly down to a crossing of Miners Creek and along the south side of the creek to a crossing of Suiattle River. From the river the location heads westerly to a crossing of Vista Creek. It follows this drainage southwest, climbing to a saddle in the ridge between Vista and Dolly Creeks on the north exposure of Glacier Peak. From here it heads west through the headwaters of Dolly Creek and the East Fork of Milk Creek, then descends to cross Milk Creek. The location continues west, climbing to Mica Lake, then turns south through Fire Creek Pass to enter the White Chuck drainage on the west slopes of Glacier Peak.

The Trail continues in a southern direction crossing Pumice, Glacier, and Kennedy Creeks, then turns to cross Sitkum Creek and follows White Chuck River upstream. After crossing the river south of Baekos Creek it climbs to the White Chuck Cinder Cone then turns West to Red Pass. From here it heads southeast into the North Fork Sauk drainage to White Pass, the boundary between the Snoqualmie and Wenatchee National Forests. From White Pass the Trail follows the Cascade Crest to Indian Pass, traverses the east side of Kodak Peak and leaves the Glacier Peak Wilderness at Meander Meadows. The Trail follows the crest between the Snopualmie and Wenatchee National Forests through Dishpan Gap and Wards Pass. It passes below Lake Sally Ann and to the east of Skykomish Peak, to Cady Pass. From Cady Pass the Trail climbs to Saddle Gap, continues past Fortune Ponds, crosses a ridge and descends to Pear Lake and into Wenatchee Pass. From Wenatchee Pass the Trail climbs to Grizzly Peak. Thence it descends to the south end of Lake Janus and climbs to the pass south of Union Peak. From the pass the Trail passes to the west of Lake Valhalla and continues to Stevens Pass and U.S. Highway No. 2.

From Stevens Pass the Pacific Crest Trail proceeds in a southeasterly direction to Lake Susan Jane where it ascends to the ridge above Josephine Lake and generally follows the divide in a southwesterly direction to Trap Pass above Trap Lake. From Trap Pass the Trail descends to Glacier Lake, climbs around the west side of Surprise Mountain and then descends into the Deception Creek drainage, passes Deception Lakes, and ascends into Deception Pass. At Deception Pass the Trail crosses into the Wenatchee National Forest and traverses a southeast slope above Hyas Lake to Cathedral Rock, descends, passes Deep Lake and follows down Spinola Creek. The Trail then heads westerly contouring the south slope above Waptus Lake, and crosses Spade Creek and the Waptus River, thence, the Trail goes past Escondido Lake and over the ridge into Lemah Creek basin, on to Spectacle Lake and turns northwest along Chikamin Ridge. From the north end of Chikamin Ridge the Trail turns to pass below Joe Lake. The Trail then swings around the south of Alaska Mountain to Alaska Lake, ascends to the divide between the Wenatchee and the Snoqualmie National Forest south of Red Mountain and proceeds along the divide into Snoqualmie Pass.

At Snoqualmie Pass the Pacific Crest Trail crosses Interstate 90 and continuing in a southeasterly direction, crosses back and forth across the height of land, following the Wenatchee and Snoqualmie National Forests common boundary passes Olallie Meadow, Mirror Lake, Yakima Pass, Meadow Pass, and through Stampede Pass. Continuing along the height of land the Trail goes over Snowshoe Butte and Bearpaw Butte, through Sheets Pass and Tacoma Pass, and to Blowout Mountain. From here the Trail turns westerly into the Snoqualmie National Forest to Green's Pass and Pyramid Peak, resumes its southerly direction and continues along the divide, descending into Government Meadows and the historic Naches Pass. Continuing, the Trail follows the divide past Louisiana Saddle, Arch Rock, and Sourdough Gap into Chinook Pass.

Continuing south out of Chinook Pass, the Pacific Crest Trail enters Mount Rainier National Park above Dewey Lake. After descending to Dewey Lake, the Trail passes back and forth across the common boundary between the national forest and the park until it reaches the ridge above Two Lakes. Here it leaves the park and generally follows the ridge between the Gifford Pinchot and Snoqualmie National Forests. It descends along the east side of the ridge, passes between Crag and Buck Lakes, skirts the east end of Fish Lake and ascends to the ridge between Twin Sisters Lakes and Snow Lake. Here, crossing a part of the Gifford Pinchot National Forest, the Trail goes by Cowlitz Pass, descends to Buesch Lake and then ascends again to the ridge which divides the main drainages of the Cowlitz and the Bumping Rivers. Crossing back and forth over the Pacific Crest, the Trail skirts Sand Lake and crosses State Highway No. 12, just east of White Pass at Leech Lake. Two miles south of White Pass, the Trail enters the Goat Rocks Wilderness. It goes to the east of Hogback Mountain and above Shoe Lake, by Tieton Pass and westerly to Elk Pass. The Trail turns south along the barren ridge as it approaches Old Snowy Mountain, ascends the west side to the Dana Yelverton Shelter and continues past the Goat Rocks, along the east edge of Snowgrass Flat and into Cispus Pass. Crossing the divide at Cispus Pass, the Trail enters the Yakima Indian Reservation and parallels the reservation boundary for a mile, then crosses back into the Gifford Pinchot National Forest and parallels the divide on the west side, passing through the headwaters of several tributaries of the Cispus River, and to the Coleman Weedpatch where it leaves the Goat Rocks Wilderness. Continuing, the Trail traverses along the west side of the divide, passes Potato Hill, crosses Spring Creek and enters the Mt. Adams Wilderness.

The Trail traverses the west slopes of Mount Adams as it passes through the wilderness, for a distance of about 10 miles, and leaves the Mount Adams Wilderness near the southwest corner.

Thence in a westerly direction and crossing several forest roads, the Trail goes past Swampy Meadows, Dry Meadows, and Steamboat Lake, passes near several developed campgrounds, turns south along the crest of the Cascade Range through the Indian Heaven area, over Gifford Peak and east of Red Mountain to the Big Lava Bed. The Trail crosses Forest Road N60, skirts the west edge of the lava field and continues south to Big Huckleberry Mountain. From Big Huckleberry Mountain the Trail proceeds westerly, crossing the Panther Creek Division of the Wind River Experimental Forest, Panther Creek, Forest Road N605, and into Warren Gap. Thence, the Trail crosses the Wind River Highway, Wind River, Forest Road N511 and continues in a westerly direction, crosses Trout Creek, passes near the Wind River Research Natural Area, the Forest Service ranger station and tree nursery, and through the Trout Creek Division of the Wind River Experimental Forest. The Trail then turns in a southerly direction just south of Mowich Butte and proceeds to the south boundary of the Gifford Pinchot National Forest. Leaving the forest, the Trail crosses Rock Creek and continues in a southerly direction to the northeast corner of the Beacon Rock State Park, thence in an easterly direction, passes to the north of Kidney Lake, to the south of Hazel and Fern Lakes, and arrives at the north approach of the Bridge of the Gods. The Trail crosses the Columbia River on the Bridge of the Gods. Midway across the bridge it leaves the State of Washington and enters the State of Oregon.

The Pacific Crest Trail crosses private property in the following described sections in the State of Washington:

WILLAMETTE MERIDIAN

Township	Range	Section
3 North	6 East	25.
2 North	7 East	7, 8, 9, 14, 15, 16 and 17.
3 North	7 East	30 and 31.
4 North	7 East	23.
11 North	11 East	3.
12 North	11 East	34.
17 North	11 East	30.
19 North	11 East	13, 15, 21 and 27.
20 North	11 East	1, 11 and 13.
21 North	11 East	5, 17, 21, 23 and 25.
22 North	11 East	5, 17, 19 and 31.
19 North	12 East	11 and 15.
20 North	12 East	3, 23 and 35.
23 North	12 East	22.
26 North	13 East	11, 13, 23, 25 and 35.

OREGON

At the south end of the Bridge of the Gods is the community of Cascade Locka, elevation 100 feet. This is the lowest elevation on the Pacific Crest Trail between the Canadian border and the Mexican border. A quarter of a mile south of the Bridge of the Gods, the Trail enters the Mt. Hood National Forest and ascends the rugged south side of the Columbia Gorge and quickly attains an elevation of 4,000 feet on Benson Plateau. It continues south, past Chinidere Mountain and Wahtum Lake, traversing the slopes high above Eagle Creek, the West Fork of Hood River and Lost Lake. The Trail then descends gently into Lolo Pass, crosses Forest Road N12 and ascends Bald Mountain where it is joined by Timberline Trail on Mt. Hood. Traversing Mt. Hood, the Trail then descends into the Muddy Fork, passes beneath Ramona Falls, and crosses the main fork of the Sandy River. Two miles south of the Sandy River, the Trail enters Mt. Hood Wilderness near Paradise Park at an elevation of 6,000 feet. It descends and crosses Zigzag Canyon, leaves the Mt. Hood Wilderness, and turns easterly to regain 1,000 feet in elevation and crosses just north of Timberline Lodge and the Mt. Hood Ski Area. It continues south along the crest of the Cascade Mountain Range and goes through Barlow Pass, the site of the first pioneer wagon road to the Willamette Valley. The Trail follows the crest past Twin Lakes, across U.S. Highway 26 and on southward to Little Crater Meadows. After crossing Crater Creek it follows the east shoreline of Timothy Lake for about 3 miles and crosses Skyline Road S42 near Clackamas Lake. About 2 miles farther the Trail leaves the Mt. Hood National Forest and enters the Warm Springs Indian Reservation northwest of Buckskin Butte. It goes east of Summit Butte, crosses Warm Springs River, passes North Pinhead Butte, crosses Lemiti Creek and goes through Olallie Meadows, leaves the Warm Springs Indian Reservation west of Russ Lake, reenters Mt. Hood National Forest and goes on to Olallie Lake. Through this level area the crest is ill-defined and elusive. The Trail passes near the Olallie Lake summer resort and a Forest Service guard station. Continuing south, the Trail again regains the crest of the Cascade Range and follows the high gently sloping ridges to Breitenbush Lake, elevation 5,500 feet. Here it crosses a primitive forest road and a tributary of the Breitenbush River, then immediately enters Mt. Jefferson Wilderness and ascends gradually along the divide, crossing snowfields at Park Ridge, elevation 7,000 feet. Park Ridge presents a magnificent view of Jefferson Park with Mt. Jefferson looming in the background. At Park Ridge, the Trail leaves the Mt. Hood National Forest, enters the Willamette National Forest and descends sharply into Jefferson Park, past Russell, Scout, and Bays Lakes.

The Pacific Crest Trail traverses the lower slopes around the west side of 10,497-foot high, glacier enshrouded Mt. Jefferson crossing Milk Creek 2 miles below Milk Creek Glacier and passing above Pamelia Lake. Thence, it begins to ascend, passing between Coyote and Shale Lakes to the crest at the Cathedral Rocks. From here the divide is the boundary between the Deschutes and Willamette National Forests. Following the crest, the Trail skirts the west edge of North Cinder Peak, passes to the east of South Cinder Peak and intersects the Swallow Lake Trail that leads to the west. It continues, passing between Rockpile Lake and Rockpile Mountain and on to Minto Pass. It crosses the Minto Pass Trail and continues along the west slope to Porcupine Peak, then winds along the lower benches on the west slope of Three Fingered Jack and leaves the Mt. Jefferson Wilderness. One-half mile from the wilderness it crosses U.S. Highway 20 near Santiam Pass. Proceeding south beyond the pass the Trail winds through relatively flat terrain for 4 miles to the east side of Big Lake. Leaving Big Lake it enters the Mt. Washington Wilderness and skirts around the west and south sides of Mt. Washington. It crosses the crest south of Mt. Washington and enters the lava fields. Continuing south, passing to the east of Belknap Crater, the Trail traverses the lava area into McKenzie Pass near the location of Dee Wright Observatory. Here it leaves the Mt. Washington Wilderness, crosses State Highway 242 and enters Three Sisters Wilderness. In the wilderness, the Trail skirts the east edge of the lava field, passes near the Matthieu Lakes, through Scott Pass, goes just west of Yapoah Crater, through Opple Dildock Pass and to Sunshine Shelter near the headwaters of Glacier Creek. The Trail, after crossing Obsidian Creek at Obsidian Falls, gradually ascends the west slopes of the North Sister and the Middle Sister Peaks. It contours along the west slopes of South Sister Peak, crosses Separation Creek above Separation Meadow, skirts the west edge of Rock Mesa and ascends again to the crest at Wickiup Plains; it passes along the east edge of Sisters Mirror Lake, and continues following the crest to its intersection with Elk Lake Trail 1½ miles west of Elk Lake. Here, the Trail takes a westerly direction for about 2 miles, traverses the south edge of Island Meadow and enters the Mink Lake basin. Thence, it again turns in a southerly direction following along a chain of small mountain lakes to Mac Lake and ascends to the crest, crosses, and enters the Deschutes National Forest east of Packsaddle and Little Round Top Mountains to Stormy Lake, located east of Irish Mountain, turns to Brahma Lake and leaves the Three Sisters Wilderness just south of the lake. Thence it bears in a southwesterly direction, crossing Forest Road No. 2049 on the west side of Irish and Taylor Lakes.

From Taylor Lake the Trail crosses over the crest to the west slope, and passes along the west side of Charlton Butte. It intersects Forest Road No. 204 and traverses the west shore of Charlton Lake, then traverses the west side of the crest, east of Waldo Lake, for the next 8 miles, It passes just east of the Gold Lake Bog Research Natural Area, along the west edge of Douglas Horse Pasture, skirts the east shores of the Rosary Lakes, then abruptly turning to the west, it descends into the Odell Lake Basin. Crossing State Highway 58 between the lake and Willamette Pass, the Trail bears in a southwesterly direction passing over the railway tunnel, it proceeds to the summit of the Cascade Range at Pengra Pass and enters

V 38 N 19 JAN 30 73 XUM

the Diamond Peak Wilderness midway between the pass and Midnight Lake. Continuing along the east slope and generally paralleling the summit, the Trail passes above Yoran Lake, skirts the east slopes of Diamond Peak, and intersects the Fawn Lake Trail No. 44 in Mountain Creek. The Pacific Crest Trail takes over the Fawn Lake Trail as it ascends to the crest, whence it turns in a more southerly direction, descends from the crest onto the east slope and leaves the Diamond Peak Wilderness. Proceeding south, the Trail gradually descends into Emigrant Pass where it crosses Forest Road 211.

From the pass the Pacific Crest Trail contours along the east slope above Summit Lake, turning to a more easterly direction near the south end of the lake, it follows along the Cascade Divide passing to the west of Cowhorn Mountain where it leaves the Willamette National Forest. Generally staying on the crest of the divide between the Umoqua and Deschutes National Forests, the Trail continues in a southeasterly direction descending into Windigo Pass where it crosses Forest Road 2510. Proceeding generally in a southeasterly direction along the crest, the Trail passes to the west of Tolo Mountain, Mule Peak, and Miller Mountain. It then bears to the southwest, skirting the east shore of Maidu Lake, follows along the west side of the crest, ascends the northeast slopes of Tipsoo Peak, passes to the east of the peak, traverses along the upper mountain slopes passing Howlock Mountain and Sawtooth Ridge, crosses Thielsen Creek, ascends the west slopes of Mt. Thielsen (elevation 9,182), crosses the Diamond Lake-Mt. Thielsen Trail then gradually descends on a long aproach to Carter Lake National Park. The Trail crosses State Highway 138 2 miles north of the park boundary, entering Crater Lake National Park 200 feet east of Boundary Marker No. 55 at an elevation of 5,960 feet, approximately one-half mile east of the park's north entrance. The Trail crosses the Park's North Entrance Highway No. 209 a mile south of the north entrance, then crosses Pumice Desert and turns west just north of Red Cone. Here it intersects a primitive fire-way route which it follows past Red Cone Springs, across Bybee Creek, around the headwaters of Castle Creek and across the Watershed Divide between Castle Creek and Annie Creek drainages just north of Annie Springs. Continuing south, it crosses the Park's West Entrance Highway No. 62 then follows a fire-way route to Pumice Flat, skirts the west edge of Pumice Flat, and leaves Crater Lake National Park at the south boundary near Marker No. 122. From here, the Trail proceeds south generally along the height of land between the Rogue River and Winema National Forests. It passes on the west side of Goose Egg Butte, crosses the Oregon Desert, goes through the pass between Lone Wolf and Ruth Mountains, skirts the wast slopes of Ethel and Maude Mountains and after ascending to the crest of Big Bunchgrass, descends to Ranger Springs. From the springs the Trail turns in a southwesterly direction and descends into the Seven Lakes Basin, then climbs over Devils Peak (elevation 7,582), swings around the west side of Lucifer and Shale Buttes, then bears south passing to the west of Snow Lakes and Luther Mountain. From here it follows along the west edge of the Sky Lakes area on the Winema National Forest to the Wickiup Trail, thence to Fly Lake, passing west of Dwarf Lakes area, through relatively flat and gently rolling terrain, to a location where it intersects the Sky Lakes Trail that leads to the east. After passing to the east of Red Lake and Island Lake, the Trail turns west following the crest to the saddle north of Fourmile Lake, crosses to the east side of the divide, traverses the upper trainages on the north side of Fourmile Lake basin, crosses Blue Rock Trail No. 3737 and swings to the south. Proceeding south, the Trail passes to the east of Mount McLoughlin (elevation 9,495), traversing the northeast and east slopes, it intersects the Mt. McLoughlin Trail No. 3716 at Freye Lake. Continuing south along the southeast slopes for 3 miles, it leaves the Winema National Forest and enters the Rogue River National Forest at State Highway No. 140. Here it enters the north edge of a rugged lava flow. After crossing the lava field, a distance of 4 miles, it traverses the headwaters of Little Butte Creek, crosses the Dead Indian Highway No. 363 and bears south to Old Baldy Mountain. It skirts the east slopes of the mountain where it leaves the Rogue River National Forest and enters a Bureau of Land Management administered area.

From Old Baldy Mountain the Trail descends in a southwesterly direction, crosses the Keno Highway, and passes near the southeast end of Howard Prairie Lake. It then swings in a westerly direction, climbs up over the Wildcat Glades, and gradually descends as it crosses east of Hyatt Lake. Turning in a southerly direction, the Trail descends to Keene Creek drainage below Hyatt Lake, crosses Keene Creek and proceeds to Green Springs Summit where it crosses the Green Springs State Highway No. 66. Continuing south, it passes along Hobart Lake and Hobart Bluff, along the east side of Hobart Peak and on toward Soda Mountain. Turning southwest north of Soda Mountain, it follows the summit, passes Little Pilot Peak, Porcupine Mountain and Pilot Rock. Just west of Pilot Rock, it turns in a northwesterly direction and follows along the ridge to the airway beacon east of Siskiyou Pass. Continuing in a northwesterly direction to Siskiyou Pass, the Trail passes under Interstate 5, over the Mt. Ashland Road, then swings west crossing over the railway tunnel near Siskiyou and continues westerly on the north side and above the Mt. Ashland Road.

The Pacific Crest Trail leaves the Bureau of Land Management administered area and reenters the Rogue River National Forest 2 miles east of Mt. Ashland, crosses the Mt. Ashland Road, passes to the south side of the ridge, and into the Klamath National Forest. It passes below Mt. Ashland and around the headwaters of Grouse Creek past Siskiyou Peak and through Siskiyou Gap where it crosses to the north side and reenters the Rogue River National Forest. Traversing along the north slope, the Trail skirts around Red Mountain and passes through Wrangle Gap. Thence, it bears southwesterly along the summit, crossing back and forth over the common boundary of the Rogue River and the Klamath National Forests, to Sheep Camp Spring, through Jackson Gap and Observation Gap, around Kettle Lake and on the east side of Observation Peak. The Trail then proceeds on to Donomore Pass and crosses the Oregon-California State boundary 1½ miles east of Donomore Peak.

The Pacific Crest Trail crosses private property in the following described sections in the State of Oregon:

WILLAMETTE MERIDIAN

Township	Range	Section
2 North	7 East	12 and 13.
40 South	1 West	26, 32 and 34.
40 South	1 East	23, 24, 26 and 30.
40 South	2 East	19, 20, 28, 29, 33, 34 and 36.
41 South	2 East	2.
39 South	3 East	1, 12, 14, 22, 28, 29, 32 and 33.
40 South	3 East	3, 4, 9 and 30.
38 South	4 East	34.
8 South	8 East	25.
6 South	8½ East	1 and 2.
7 South	8½ East	12, 13, 23, 25, 26 and 36.
8 South	8½ East	1, 2, 11, 23 and 26.
6 South	9 East	7, 18, 19, 30 and 31.
7 South	9 East	6 and 7.

CALIFORNIA

The Pacific Crest Trail crosses southwesterly into the State of California generally following the boundary between the Klamath and Rogue River National Forests, goes by Donomore Meadows, crossing Donomore Creek, and crosses the ridge between Wards Fork Creek and West Fork of Beaver Creek, goes near Bearground Spring and passes by Big Rock to Mud Springs, and southerly to Alwx Hole. The Trail then swings westerly past Condrey Mountain to Reeves Ranch Springs.

From Reeves Ranch Springs, it follows the crest of the Siskiyou Mountains in a westerly direction, crosses to gap below White Mountain, and continues to Cook and Green Pass, before climbing to the saddle above Elk Lake. It then dips into Lily Pad Lake below Red Butte, swings southwest around Kangaroo Mountain and turns south leaving the Rogue River National Forest. It proceeds down Devils Ridge over Upper, Middle, and Lower Devils Mountain on the Klamath National Forest to the end of the ridge above the Klamath River. The Trail follows Portuguese Creek to the Klamath River Highway, State Route 96.

The Trail crosses the Klamath River on a trail bridge at the mouth of Portuguese Creek and continues southeasterly across the face of Evans Mountain to West Grider and Grider Creeks and then turns south up Grider and Cliff Valley Creeks to the boundary of Marble Mountain Wilderness near the saddle south of Huckleberry Mountain.

It then proceeds into the Marble Mountain Wilderness along Big Ridge, the main divide between the Scott River and the Klamath River, passing Bear Lake, Turk Lake, Kings Castle, Paradise Lake, Black Mountain, and Marble Valley. The location continues southeasterly along the divide passing above Sky High Valley, Red Rock Valley, Wooley Creek, Cliff Lake, Kidder Lake, Timothy Gulch, and into Shelly Meadow. It continues southeasterly along the ridge up Pointers Gulch, crosses Razor Ridge, passes through the headwaters of Big Creek, Mill Creek, North Russian Creek, and leaves the Marble Mountain Wilderness and crosses the Etna county road at Etna Summit.

The route proceeds southerly along the Scott-Salmon Divide above Ruffey Lake, Meeks Meadow, and Taylor Lake to Paynes Lake an continues through the Lipstick Lake-Music Creek saddle, the head of Music Creek, the Music-South Russian saddle below Statue Lake and up South Russian Creek along the main divide, below Russian Peak and Bingham Lake, to the Jackson Lake saddle at the head of South Russian Creek. From above Jackson Lake, it continues into the Jackson Creek-Trail Creek saddle, and proceeds southerly and southeasterly on the Trail Creek and Carter Meadow side of the main divide to the Carter Meadow Summit.

The Trail proceeds southwesterly along the main divide between the Scott and Salmon Rivers, goes through the Salmon-Trinity Alps Primitive Area for a short way passing under Hidden Lake and proceeds southerly to the divide where it leaves the Klamath National Forest and enters the Shasta-Trinity National Forest and the Salmon-Trinity Alps Primitive Area. From the boundary of the Primitive Area, it heads southerly into the North Fork of Coffee Creek where it turns to a generally northeast direction traversing the upper portions of Saloon Creek and Granite Creek drainages. The location passes around Eagle Peak, continues across the headwaters of Eagle Creek and proceeds to the saddle above Big Marshy Lake. Continuing, the Trail passes above Mosquito Lake, past Black Rock and leaves the Salmon-Trinity Alps Primitive Area in Miller Creek southwest of Scott Mountain Summit. The route continues to Scott Mountain Summit where it crosses State Highway 3 and swings southerly around Scott Mountain, passes for a short way through the Klamath National Forest then back into the head of Little Trinity River where it swings easterly through Robbers Meadow and above Bull Lake. The route turns northeasterly crossing Chilcoot Creek to Cement Bluff and crosses High Camp Creek. It then turns southwesterly to Deadfall Lakes and continues through the saddle between Toad Lake and Porcupine Lake. The Trail crosses over White Ridge and proceeds southward to Gunboot Lake. At the saddle above Upper Cliff Lake, it heads east along the ridge just south of Devils Pocket. Here the Trail swings northeast passing just above Little Castle Lake and heads southeast into Castle Crags, goes through a part of Castle Crags State Park, and crosses Interstate 5 by way of a pedestrian undercrossing near the town of Castle Crags.

The Pacific Crest Trail then ascends southeasterly to cross the summit of Girard Ridge, descends and crosses Squaw Valley Creek by a foot bridge and continues east to Traugh Creek, descends near Skunk Hill and crosses Lake McCloud Dam. It next ascends easterly to Grizzly Peak, then descends down the ridge to Pigeon Hill and south of Star City Meadow and continues on the ridge top to Mushroom Rock and Bartle Gap. The Trail turns southerly on the high ridge to Red Mountain and then descends southeasterly to cross Rock Creek. It descends gently across the forested flats to Screwdriver Creek where it joins the north rim of the Pit River drainage, crosses Rock Creek again and continues to Pit River and Lake Britton at Pit River Dam Number 3.

After crossing the dam at Lake Britton the Pacific Crest Trail passes through McArthur-Burney Falls State Park where it crosses State Highway 89, leaves the park and the Shasta National Forest, crosses State Highway 299 at Hat Creek, and continues southeast to the Lassen National Forest west of Sixmile Hill.

As the Trail enters the Lassen National Forest it turns east through Lava beds to the Hat Creek Rim, turns southward along the rim, goes past Hat Creek Rim Lookout to Smokey Cabin, crosses State Highway 44 and the Rim, passes through lava beds to Bunch Grass Meadow, circles west around Bridger Mountain, where it enters the Lassen Volcanic National Park near Badger Flat. The Trail proceeds easterly to Emigrant Lake, then southerly to Fairfield Peak, skirts the edge of Lower Twin Lake and Swan Lake, turns southwesterly down Grassy Swale to Corral Meadow, continues south across Flatiron Ridge and descends near Drakesbad to Warner Valley Campground. The route passes west of Terminal Geyser and leaves the Lassen Volcanic National Park near Little Willow Lake to again enter the Lassen National Forest. Crossing a fork of Willow Creek it then goes down the ridge to Domingo Springs Campground where it crosses the county road. It crosses the North Fork of the Feather River and proceeds west of North Stover Mountain, crosses State Highway 36 near Soldier Meadow and climbs to the main ridge between the North Fork of the Feather River and Deer Creek passing east and south of Butt Mountain. The Trail continues on the main ridge past Robbers Roost and crosses a forest road at Humboldt Summit. It then goes easterly, turns southerly, passes by Humbug Summit, Milkhouse Flat and Sunflower Flat to the head of Chips Creek, and turns east down Chips Creek to leave the Lassen National Forest and enter the Plumas National Forest. Continuing down Chips Creek the route crosses the North Fork of the Feather River and State Highway 70 at Belden.

The Pacific Crest Trail zig zags southeasterly, passing Three Lakes, Mt. Pleasant and Spanish Peak to Bucks Summit. Then it swings southwesterly by McFarland Creek and turns southeasterly to Lookout Rock and crosses the Middle Fork of the Feather River at Sherman Bar and continues up Onion Valley Creek and Dogwood Creek to Fowler Peak.

The Trail continues easterly passing Chimney Rock. At Pilot Peak, it turns southeasterly on Bunker Hill Ridge and passes north of Mt. Etna and Staffa Peak, drops into the West Branch Nelson Creek, following up the creek and climbs to the ridge between Beartrap and Gibralter Mountains. From Gibralter Mountain, the Trail meanders to the east back and forth from the Plumas National Forest to the Tahoe National Forest to The A Tree before continuing southeasterly to Spencer Lakes and the Lakes Basin. The Trail continues past Summit Lake, where it leaves the Plumas National Forest and enters the Tahoe National Forest, next passing Deer Lake, Packer Laker, and Tamarack Lakes. In the Tahoe National Forest the Trail wanders to the east passing Upper and Lower Sardine Lakes and at the campground turns south to cross the North Yuba River just east of Sierra City. The route passes the falls in Haypress Creek, follows up Milton Creek and crosses into the Yuba River drainage, passes along the ridge east of Jackson Meadow Reservoir, swings east to Bear Valley and drops to White Rock Creek. It crosses Paradise Valley, swings west around Basin Peak to Round Valley and Castle Pass and follows Andesite Ridge to Interstate 80, and then crosses Boreal Ridge to arrive at Donner Pass.

From Donner Pass the Pacific Crest Trail switch back to Donner Peak, skirts Mt. Judah, Mt. Lincoln, Anderson Peak and Tinker Knob, passes by Mountain Meadow Lake, goes east of Granite Chief Mountain and descends around Squaw Peak through Whiskey Creek to the Five Lakes area. The Trail climbs to the ridge west of Lake Tahoe and goes over Ward Peak, to the west of Twin Peaks, and circles south around Barker Peak to Barker Pass and Meadow and leaves the Tahoe National Forest and enters the Eldorado National Forest at Miller Creek, a tributary of the Rubicon River. The route proceeds southeasterly, passing west of Sourdough Hill and Lost Corner Mountain where it enters the Desolation Wilderness. It proceeds to the east of Middle Mountain and passes around Middle Velma Lake, Upper Velma Lake, Fontanlills Lake to Dicks Lake. It crosses Dicks Pass and continues west of Gilmore Lake, swings southwesterly to Susie Lake and Heather Lake and passes along the east shore of Lake Aloha. It then goes southeasterly past Haypress Meadow and leaves the Desolation Wilderness west of Upper Echo Lake, passes along the east side of Upper and Lower Echo Lake and crosses U.S. Highway 50 at Echo Summit. From Echo Summit the Pacific Crest Trail goes southwesterly to Benwood Meadow and Bryan Meadow, crosses the Upper Truckee River and continues to Carson Pass where it crosses State Highway 88. It follows the divide between the Eldorado National Forest and the Toiyabe National Forest and proceeds east of Winnemucca Lake, west of Lost Lakes, goes over The Nipple, goes by Hellhole Lake to Upper and Lower Sunset Lakes, turns northeasterly to Raymond Lake and then zigzags southerly across Pennsylvania Creek to the west of Upper Kinney Lake and to Ebbetts Pass where it crosses State Highway 4. From Ebbetts Pass the Pacific Crest Trail follows the divide between the Toiyabe and Stanislaus National Forests past Noble Lake under Tryon Peak, past Asa Lake, crosses the headwaters of Wolf Creek and passes to the east of Disaster Peak, west of Boulder Peak, through the headwaters of Boulder Creek crossing the ridge and dropping southeasterly into the East Fork of the Carson River approximately halfway up White Canyon. It continues up the bottom of White Canyon to the pass between White Canyon and Wolf Creek, passes Wolf Creek Lake and upper Wolf Creek, then turn southwesterly into Sonora Pass and crosses State Highway 108. The Trail stays on the east side of the ridge on a mostly southerly route by Leavitt Lake, climbs around Ski Lake, follows the ridge to a crossing of Kennedy Canyon and gains altitude south of Kennedy Canyon following West Walker River. It turns southeasterly and traverses east of Cinko Lake to Dorothy Lake Trail at Cascade Creek, turns southwesterly, passing Lake Harriet and Stella Lake and to Dorothy Lake Pass where it leaves the Toiyabe National Forest and enters Yosemite National Park.

In Yosemite National Park, the Pacific Crest Trail continues southwesterly west of Dorothy Lake and down Falls Creek passing to the east of Bigelow Peak through Grace Meadow and continuing on to Wilma Lake. It then turns southeasterly crossing over Bailey Ridge into Tilden Canyon Creek and proceeds over Macomb Ridge to Stubblefield Canyon and Kerrick Canyon where the Trail swings east up Rancheria Creek and climbs to Seavey Pass. From Seavey Pass the Trail heads southwesterly, passing close to Piute Mountain where it again swings southeasterly to Benson Lake and Murdock Lake and passes north of Volunteer Peak. It then climbs to Benson Pass and descends along Wilson Creek to Matterhorn Canyon, then climbs southerly to Miller Lake, drops into Virginia Canyon and proceeds southwesterly to Cold Canyon, passing east of Cold Mountain. At Glen Aulin, the Trail turns southeasterly and goes past Tuolumne Falls, Tuolumne Meadow and the ranger station where it crosses the Tioga Pass Highway. It continues up Lyell Canyon, crossing Ireland Creek and passing Potter Point, crosses Lyell Fork above Maclure Creek and ascends to Donohue Pass where it leaves Yosemite National Park and enters Minarets Wilderness on the Inyo National Forest.

In the Minarets Wilderness the Pacific Crest Trail crosses Rush Creek west of Waugh Lake and ascends to Island Pass, drops to Thousand Island Lake and swings easterly near Emerald Lake, Badger Lake and Summit Lake before heading southeasterly to the boundary south of San Joaquin Mountain where it leaves the Minarets Wilderness. Continuing in the Inyo National Forest the Trail goes to Agnew Meadows and turns southerly passing Starkweather Lake, Pumice Flat and Minaret Falls and passes over the northeastern portion of the Devils Postpile National Monument. It continues southeasterly to Rainbow Falls, crosses and continues up Boundary Creek before climbing out north around Red Cones, to enter the John Muir Wilderness at Crater Meadows.

Continuing in the wilderness the Trail crosses into the Sierra National Forest just south of Upper Crater Meadow. It crosses Deer Creek at Deer Meadows and turns easterly to Purple Lake, then resumes its southerly direction past Lake Virgina, Lake of the Lone Indian, and Warrior Lake and climbs to Silver Pass. It then drops down to Silver Pass Lake and follows Silver Pass Creek to Pocket Meadow and follows North Fork to Quail Meadow where it crosses Mono Creek. It passes to the east of Lake Thomas A. Edison, passes Kip Camp, follows up Bear Creek

V 38 - 19 JAN 30 73 XUM

crossing Hilgard Creek and, continuing by Rosemarie Meadow, passes Marshall Lake and then ascends through Selden Pass. It continues by Heart Lake, Sally Keyes Lakes, swings easterly up the Joaquin River and crosses Piute Creek where it leaves the Sierra National Forest and John Muir Wilderness and enters the Kings Canyon National Park.

In Kings Canyon National Park the Pacific Crest Trail goes southeasterly up the Joaquin River crossing the Goddard Canyon Bridge and, continuing up Evolution Creek by Evolution Meadow, McClure Meadow, Colby Meadow, and Evolution Lake, then turns southerly, passing west of Mt. Spencer and Sapphire Lake, Wanda Lake and other lakes in Evolution Basin, where is swings easterly, climbing to Muir Pass. It then drops past Helen Lake and follows down the Middle Fork of Kings River past Big Pete Meadow, Little Pete Meadow and through Le Conte Canyon to Grouse Meadow. It then swings easterly up Palisade Creek by Dear Meadow to Palisade Lakes. The Trail turns southerly climbing to Mather Pass and, passing through Upper Basin, crosses the South Fork of the Kings River and goes to Lake Marjorie where it ascends to Pinchot Pass west of Mt. Wynne. It turns easterly toward Mt. Perkins, then swings southwesterly passing west of Twin Lakes and Mt. Cedric Wright, follows down Woods Creek to the junction with the South Fork. At the crossing of Woods Creek, the route turns southwesterly and follows up the South Fork passing Baxter Creek and continuing to the lakes east of Fin Dome. It crosses between the Rae Lakes and heads southwesterly ascending over Glen Pass, goes west of Bullfrog Lake, follows Bubbs Creek through Vidette Meadow, west of Center Peak, and reaches the divide at Forester Pass where the trail leaves Kings Canyon National Park and enters Sequoia National Park.

In Sequoia National Park the Pacific Crest Trail passes to the east of Caltech Peak, goes by several mountain lakes and crosses Tyndall Creek, passes west of Tawny Point and goes over Bighorn Plateau, crosses Wright Creek and Wallace Creek and continues to Sandy Meadows. At this point Mount Whitney is about 4 miles to the east. The Trail crosses Whitney Creek, goes through Guyot Flat and swings southeasterly and crosses Rock Creek and climbs to Siberian Pass where it leaves Sequoia National Park and enters the Inyo National Forest.

In the Inyo National Forest the Trail traverses the south side of Cirque Peak to Chicken Spring Lake, and climbs to Cottonwood Pass. It then drops down to Poison Meadow and swings easterly over Trail Peak and goes to Mulkey Pass. At Dutch Meadow, it heads southerly, crosses the headwaters of Ash Creek, zigzags along the ridge between Kern River and Owens Valley crossing Death Canyon, to Buck Meadow west of Olancha Peak. Next, passing Big Brush Meadow and Little Brush Meadow, the Trail swings down Cow Canyon passing east of Anderson Point and it enters the Sequoia National Forest as it crosses the South Fork of the Kern River.

From the South Fork of the Kern River, the Pacific Crest Trail route continues in the Sequoia National Forest past Beck Meadows following Crag Creek to Clover Meadows and then along the South Fork of the Kern River, passes Kennedy Meadows, goes for a short way outside the Sequoia National Forest and then reenters, passes Rockhouse Basin where it leaves the Sequoia National Forest and enters a Bureau of Land Management unit. It then crosses Chimney Creek and continues southeasterly staying on the ridge above Spanish Needle Creek. It passes west of Owens Peak and crosses the head of Indian Wells Canyon, turns westerly by Morris Peak and crosses Highway 178 at Walker Pass and back into the Sequoia National Forest. The Trail passes north of Meivers Spring and east of Horse Spring. It then leaves the Sequoia National Forest at Bird Spring Pass and travels through a Bureau of Land Management unit along the ridge tops and goes between Pinyon Mountain and Gold Peak. Then it turns westerly into the Piute Mountains. It reenters the Sequoia National Forest passing Landers Meadow and turns southerly past Mace Meadow and Thornton Meadow and leaves the Sequoia National Forest and enters a Bureau of Land Management unit. It continues along the ridge tops past Weldon Peak, the head of Back Canyon and Indian Creek and goes east of Cache Peak and on to Tehachapi Pass where it crosses State Highway 58 at the Cameron Road Interchange leaving the Bureau of Land Management unit.

From State Highway 58 and Tehachapi Pass, the Pacific Crest Trail turns southwesterly through the El Tejon Ranch, follows Cameron Creek and Oak Creek and climbs into the Tehachapi Mountains, passing to the south of Double Mountain, switch backs into Cottonwood Creek, crosses Cottonwood Creek road and climbs to Liebre Twins. It continues southwesterly on the ridge between Little Oak Creek and El Paso Creek. Staying on the ridge, the Trail passes Marble Springs Canyon. It continues along the ridge of the Tehachapi Mountains between Beartrap Canyon and Sycamore Canyon to the head of Cottonwood Canyon. The Trail turns southeasterly down Cottonwood Canyon to the Kern County-Los Angeles County line. It then turns southerly to Quail Lake and the San Andreas Rift Zone and enters the Angeles National Forest to the east of Bald Mountain.

It then passes on the east side of West Liebre Lookout and winds along the ridge of the Liebre Mountains easterly by radio tower between Bear Canyon and Cow Spring Canyon. It goes above Pratt Canyon to North Fork and then goes over Sawmill Mountain, passing to the northeast of Burnt Peak. It crosses the upper Shake Canyon and stays on the ridge above Steiner Canyon and Abrams Canyon. It crosses Elizabeth Lake Canyon and stays on the ridge east of Grass Mountain. The Trail swings southwesterly around Grass Mountain and then continues east to the San Francisquito Station. From the San Francisquito Station, the Trail zigzags southeasterly past Green Valley and crosses Spunky Canyon, continues to Bouquet Canyon and then goes across Martindale Canyon and Mint Canyon and leaves the Angeles National Forest. The route heads southeasterly through private land, crossing Lettеau Canyon, goes by Summit, crosses Antelope Valley Freeway and crosses Kashmere Canyon before passing east of Parker Mountain where the Trail swings east across Soledad Canyon and again into the Angeles National Forest. It then proceeds southerly crossing Araastre Canyon and reaches Mt. Gleason where it turns easterly on the ridge, passing Bucket and Shack triangulation stations to Mill Creek Summit where it crosses Forest Highway 59. The Trail follows the ridge above Santiago Canyon, passes Sheep Camp Springs and goes around Pacifico Mountain on the north side, past Fountainhead Springs and Pinyon Flats to Three Points. Then it continues past Winston Springs to Winston Peak and follows Copper Canyon to Rattlesnake Springs. It drops into Cedar Springs and touches the San Gabriel Wilderness before passing along the south side of Mt. Williamson. It then turns through Islip Saddle, and continues to Winds Springs, Little Jimmy Camp and Big Cienaga Springs and passes northeasterly between Mt. Hawkins and Throop Peak, over Mt. Burnham and Mt. Baden-Powell, continues to Vincent Gap and Grassy Hollow, over Inspiration Point and along Blue Ridge to the boundary, where the Trail leaves the Angeles National Forest and enters the San Bernardino National Forest about 1 mile west of Wright Mountain. It then winds around the north side of Wright Mountain and goes down Blue Ridge, passes Gobblers Knob and continues along Upper Lytle Creek Ridge to Lost Lake. It turns northerly, runs below the crest and crosses under Interstate 15 through a concrete box culvert.

The Pacific Crest Trail then heads northerly to upper Crowder Canyon, then turns easterly to the main saddle southeast of Cleghorn Mountain. The Trail continues down Cleghorn Ridge, crosses State Highway 138 and parallels Summit Valley, runs along the south bank of the Mojave River and leaves the San Bernardino National Forest. It follows the Mojave River in Summit Valley for about 5 miles and reenters the San Bernardino National Forest northwest of The Pinnacle. The route continues up Deep Creek past Hot Spring and Willow Creek and west of Devils Hole to Little Bear Creek. It then turns easterly running along Holcomb Creek to Greenlead Creek. It continues easterly, north of Little Bear Peak, around the south side of Delamar Mountain, runs along the ridge separating Big Bear Lake and Holcomb Valley, and swings around the north side of Bertha Peak and into Van Dusen Canyon. From Van Dusen Canyon, the Trail runs northeasterly around the north side of Gold Mountain. It turns southeasterly along Nelson Ridge, crosses State Highway 18 and continues to Arrastre Creek in Balky Horse Canyon and over Onyx Summit, before it descends to Hart Bar State Park, and goes over Coon Creek Jumpoff and the headwaters of Heart Bar Creek. It leaves Hart Bar State Park at the head of the North Fork of Mission Creek, continues a short way down the creek and leaves the San Bernardino National Forest and enters a Bureau of Land Management Unit. It continues down North Fork of Mission Creek passing Forks Springs and Cat Claw Flat and across the Middle Fork Whitewater River and past Whitewater Fish Hatchery to Interstate 10 at Whitewater. It passes under Interstate 10, Southern Pacific Railroad and State Highway 111, and heads into the Snow Creek Drainage, where it again enters the San Bernardino National Forest and about a mile farther enters the San Jacinto Wilderness.

From Snow Creek, the Pacific Crest Trail zigzags in and out of the San Jacinto Wilderness and the Black Mountain Scenic Area, passes Castel Rock and enters the Mt. San Jacinto State Park. It passes through Mt. San Jacinto State Park, going west of San Jacinto Peak, through Little Round Valley and West of Marion Mountain, and swings into Strawberry Cienega where it leaves Mt. San Jacinto State Park. It reenters the San Jacinto Wilderness, passes through Tahquitz Valley, and goes through the saddle east of Red Tahquitz Peak. It continues down the height of land called Desert Divide Ridge, goes past Southwell Peak and Antsell Rock, leaves the Wilderness at Apachi Peak, passes Spitler Peak where it leaves the San Bernardino National Forest for a couple of miles, reenters the National Forest and continues over Palm View Peak, through Little Desert, past Pyramid Peak and Lion Peak, and continues to a saddle at the head of Penrod Canyon where it leaves the Desert Divide Ridge.

The Trail runs down the ridge separating Penrod Canyon and Bull Canyon and continues to a crossing of State Highway 74. It then runs southwesterly to the forest boundary and leaves the San Bernardino National Forest.

The Trail passes through Burnt Valley, crosses Hamilton Creek and enters a Bureau of Land Management Unit. It then runs along the top of Table Mountain, crosses

Nance Canyon, turns west up Tule Canyon for about 8 miles and leaves the Bureau of Land Management Unit. It enters Anza Borrego Desert State Park, traverses the east side of Combs Peak on Bucksnort Mountain and then enters the Cleveland National Forest.

The Trail continues, passing through the head of San Luis Rey River, down Aqua Caliente Creek, and leaves the Cleveland National Forest, and goes on to cross State Highway 79 at the bridge west of Warner Springs. It crosses State Highway 79 again near the Warner Union School. Continuing, it crosses San Ysidro Creek and Buena Vista Creek, climbs Volcano Mountain, passes Catfish Springs, Ferguson Flat and enters a Bureau of Land Management Unit as it descends into Banner Canyon, where it crosses State Highway 78. As it passes through this unit the Trail stays on the ridge west of Chariot Canyon, then for several miles zigzags in and out of Anza Borrego Desert State Park east of Cuyamaca Reservoir and finally traverses a ridge in the State Park east of Rattlesnake Valley and leaves the park and unit at the head of Cottonwood Canyon and enters the Cleveland National Forest.

The Trail turns east to Garnet Peak and follows the desert rim in a southeasterly direction on the eastern edge of the Laguna Recreation Area, passing by Monument Peak, Stephenson Peak, Desert View picnic area and Burnt Rancheria, crosses La Posta Creek, goes by Lower Morris Meadow, through Troy Flat, follows Fred Canyon to Kitchen Creek before crossing under Interstate 8 at Kitchen Creek. The Trail then parallels Cottonwood Creek for about 2 miles, passes between Morena Village and Morena Reservoir, leaving the Cleveland National Forest at Hauser Canyon and enters a Bureau of Land Management Unit.

It goes through the Hauser Mountains, crosses State Highway 94 west of Bell Valley and ends at the Mexican border about 2½ miles east of Tecate, approximately one-half mile east of Monument 243 on the Mexican border.

The Pacific Crest Trail crosses private property in the following described lands in the State of California.

- St. Lawrence Seaway Development Corp., 2–28–73 3016

federal register

Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Contents

THE PRESIDENT

PROCLAMATIONS

National Safe Boating Week, 1973 2955
Quantitative limitation on importation of certain meats into U.S 2951
Save Your Vision Week, 1973 2953

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4183

Quantitative Limitation on the Importation of Certain Meats into the United States

By the President of the United States of America

A Proclamation

WHEREAS section 2(a) of the act of August 22, 1964 (78 Stat. 594, 19 U.S.C. 1202 note) (hereinafter referred to as "the act"), declares that it is the policy of the Congress that the aggregate quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs)) of the Tariff Schedules of the United States (hereinafter referred to as "meat") which may be imported into the United States in any calendar year beginning after December 31, 1964, shall not exceed a quantity to be computed as prescribed in that section (hereafter referred to as "adjusted base quantity"); and

WHEREAS section 2(b) of the act provides that the Secretary of Agriculture for each calendar year after 1964 shall estimate and publish the adjusted base quantity for such calendar year and shall estimate and publish quarterly the aggregate quantity of meat which in the absence of the limitations under the act would be imported during such calendar year (hereafter referred to as "potential aggregate imports"); and

WHEREAS the Secretary of Agriculture, pursuant to sections 2(a) and (b) of the act, estimated the adjusted base quantity of meat for the calendar year 1973 to be 1,046.8 million pounds and estimated the potential aggregate imports of meat for 1973 to be 1,450 million pounds; and

WHEREAS the potential aggregate imports of meat for the calendar year 1973, as estimated by the Secretary of Agriculture, exceed 110 percent of the adjusted base quantity of meat for the calendar year 1973 estimated by the Secretary of Agriculture; and

WHEREAS no limitation under the act is in effect with respect to the calendar year 1973; and

WHEREAS section 2(c)(1) of the act requires the President in such circumstances to limit by proclamation the total quantity of meat which

V 38 - 20 JAN 31 73 XUM

may be entered, or withdrawn from warehouse, for consumption, during the calendar year, to the adjusted base quantity estimated for such calendar year by the Secretary of Agriculture pursuant to section 2(b)(1) of the act; and

WHEREAS section 2(d) of the act provides that the President may suspend the total quantity proclaimed pursuant to section 2(c) of the act if he determines and proclaims that such action is required by overriding economic or national security interests of the United States, giving special weight to the importance to the Nation of the economic well-being of the domestic livestock industry; and

WHEREAS section 2(d) of the act further provides that such suspension shall be for such period as the President determines and proclaims to be necessary to carry out the purposes of section 2(d);

NOW, THEREFORE, I, RICHARD NIXON, President of the United States, acting under and by virtue of the authority vested in me as President and pursuant to section 2 of the act, do hereby proclaim as follows:

(1) In conformity with and as required by section 2(c)(1) of the act, the total quantity of the articles specified in item 106.10 (relating to fresh, chilled, or frozen cattle meat) and item 106.20 (relating to fresh, chilled, or frozen meat of goats and sheep (except lambs)) of part 2B, schedule 1 of the Tariff Schedules of the United States which may be entered, or withdrawn from warehouse, for consumption during the calendar year 1973, is limited to 1,046.8 million pounds.

(2) It is hereby determined pursuant to section 2(d) of the act that the suspension of the limitation proclaimed in paragraph (1) is required by overriding economic interests of the United States, giving special weight to the importance to the Nation of the economic well-being of the domestic livestock industry.

(3) The limitation proclaimed in paragraph (1) is suspended during the calendar year 1973 unless because of changed circumstances it becomes necessary to take further action under the act. It is hereby determined necessary that such suspension shall be for such period in order to carry out the purposes of section 2(d) of the act.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-ninth day of January, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

PROCLAMATION 4184

Save Your Vision Week, 1973

By the President of the United States of America

A Proclamation

Like many precious possessions, eyesight is usually taken for granted until it is lost. Yet the preservation of vision—one of life's greatest blessings—need not be left to chance. There are steps all of us can take to help keep our eyes healthy for a lifetime of useful service.

Simple safety precautions can substantially reduce the number of accidents which cause loss of vision. Potential sources of eye injury in the home, at work, and at school can be sought out and eliminated.

However, most blindness in the United States is the result not of injury, but of disease. Proper attention to hygiene, good nutrition, and, most important, regular professional eye examinations can minimize the risk of visual disability.

Glaucoma, one of the most common eye diseases, can be detected through a simple and painless test and, if detected early, can usually be arrested and controlled.

Many elderly Americans are unnecessarily blind because of cataracts. It is tragic that unwarranted fear of cataract surgery—successful in 95 percent of the cases—keeps many of our older citizens from regaining their sight.

For visual loss that can now neither be prevented nor cured, research such as that conducted by the Federal Government through the National Eye Institute offers new hope.

To encourage greater awareness of the importance of preserving sight, the Congress, by a joint resolution approved December 30, 1963 (77 Stat. 629), requested the President to proclaim the first week in March of each year as Save Your Vision Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim the week of March 4, 1973, as Save Your Vision Week. I invite the Governors of the States and appropriate local government officials to issue similar proclamations, and I call upon the Nation's mass communications media to join in bringing to the attention of all Americans the importance of preventive vision care.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-ninth day of January, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

V 38 - 20 JAN 31 73 XUM

PROCLAMATION 4185

National Safe Boating Week, 1973

By the President of the United States of America

A Proclamation

As more and more Americans in all parts of our Nation turn to boating as a leisure time activity, we need to give increasing attention to the safety requirements of the millions who participate in this healthy, challenging outdoor sport.

Aware of this need, the Congress approved a joint resolution on June 4, 1958 (72 Stat. 179) requesting that the President proclaim an annual National Safe Boating week during the week including July 4th of each year.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning July 1, 1973, as National Safe Boating Week.

I urge all Americans who use our waterways to take advantage of the numerous boating safety courses offered by governmental and private organizations to help make their stay afloat as safe as it is enjoyable. These courses, sponsored by the United States Coast Guard, the Coast Guard Auxiliary, the United States Power Squadrons, the American Red Cross and various State agencies, provide the average citizen with the information needed for the safe operation of recreational boats. I particularly urge the novice and the occasional boatman, the one who operates a small boat on only a few weekends of the year, to consider his own and his family's safety and to be prepared for the unexpected by taking advantage of the sound safety information such courses offer.

I also invite the Governors of the States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa, and the Commissioner of the District of Columbia to provide for the observance of this week.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-ninth day of January, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

EXECUTIVE ORDER 11702

Relative to the Executive Office of the President

Under and by virtue of the authority vested in me by section 301 of title 3 of the United States Code and as President of the United States of America, it is hereby ordered as follows:

SECTION 1. The Office of Consumer Affairs, established by Executive Order No. 11583 of February 24, 1971, as amended by Executive Order No. 11595 of May 26, 1971, together with its functions, is hereby transferred from the Executive Office of the President to the Department of Health, Education, and Welfare. The Director of the Office of Consumer Affairs shall continue as the Special Assistant to the President for Consumer Affairs.

SEC. 2. In view of the establishment of the Council on Economic Policy, the Cabinet Committee on Economic Policy, together with its functions, is hereby abolished and Executive Order No. 11453 of January 24, 1969, is hereby revoked.

Richard Nixon

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 284, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 19–25, 1973. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 284 (38 FR 1728). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), and (ii) of § 907.584 (Navel Orange Regulation 284) (38 FR 1728), are hereby amended to read as follows:

§ 907.584 Navel Orange Regulation 284.

* * * * * *

(b) *Order.* (1) * * *

(i) District 1: 922,000 cartons;
(ii) District 2: 203,000 cartons.

* * * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 24, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-1818 Filed 1-30-73;8:45 am]

[Papaya Reg. 3, Amdt. 1]

PART 928—PAPAYAS GROWN IN HAWAII

Regulation by Grades and Sizes

This proposal would extend the currently effective grade and size requirements for Hawaiian papayas through December 31, 1973, which are as follows. For interstate shipments, Hawaii No. 1 with a 10-ounce minimum size. For intrastate shipments, Hawaii No. 2 with a 12-ounce minimum size, except Hawaii No. 1, and Hawaii Fancy, which have a 14- and 16-ounce minimum size, respectively.

Notice was published in the FEDERAL REGISTER issue of January 12, 1973 (38 FR 1395) that the Department was giving consideration to a proposal to amend § 928.303 (Papaya Regulation 3; 37 FR 28410) pursuant to the applicable provisions of the marketing agreement, and Order No. 928 (7 CFR 928) regulating the handling of papayas grown in Hawaii. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was submitted by the Papaya Administrative Committee, established pursuant to said marketing agreement and order. Interested persons were afforded opportunity to file written data, views, or arguments thereon. None were filed.

The proposal, as recommended by the committee, would amend § 928.303 (Papaya Regulation 3; 37 FR 28410) to continue the effective period of said regulation to include all papaya shipments during 1973. The recommended action is based upon an appraisal of the prevailing supply and market situation for papayas. It is deemed necessary in order to assure consumers of an appropriate supply of quality fruit during the balance of the 1973 season and is in keeping with the objective of maintaining grower returns at a level consistent with the public interest.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the recommendations and information submitted by the Papaya Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such papayas, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give further preliminary notice to engage in further

V 38 - 20 JAN 31 73 XUM

public rule making procedure and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of such papayas are currently in progress and this amendment should be applicable to all papaya shipments occurring on and after the effective date as specified herein in order to effectuate the declared policy of the act; (2) the effective period specified herein is the same as that specified in the notice, to which no exceptions were submitted; and (3) compliance with this regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. In § 928.303 (Papaya Regulation 3; 37 FR 28410) the provisions of paragraph (a) preceding subparagraph (1), will read as follows:

§ 928.303 Papaya Regulation 3.

(a) *Order.* During the period January 1, 1973, through December 31, 1973, no handler shall ship any container of papayas:

* * * * *

Dated January 24, 1973, to become effective February 1, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-1905 Filed 1-30-73;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order 65]

PART 1065—MILK IN THE NEBRASKA-WESTERN IOWA MARKETING AREA

Deferral of Effective Date of Certain Provisions

This order defers to March 1, 1973, the effective date of the following provisions of the order amending the order regulating the handling of milk in the Nebraska-Western Iowa marketing area issued December 15, 1972 (37 FR 28126) pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.):

The terms of the Class I base plan—§§ 1065.90 through 1065.98.

STATEMENT OF CONSIDERATION

An order amending the Nebraska-Western Iowa milk marketing order to provide a Class I base plan was issued by the Assistant Secretary, December 15, 1972 (37 FR 28126) to become effective February 1, 1973. As provided in the Agricultural Marketing Agreement Act, the purpose of such plan is "equitably to apportion the total value of milk purchased by all handlers among producers on the basis of their marketings of milk * * * during a representative period * * *".

The specified representative period in the order is comprised of the two years, 1971 and 1972.

It is implicit in the operation of the plan that a complete record of each producer's milk deliveries be obtained and used in the computation of his history of production. Difficulties in obtaining complete records for a substantial number of producers, primarily because their marketings during the representative period include milk deliveries to numerous unregulated manufacturing plants, have delayed computation of the histories of production. The scattered nature of the data and problems in ascertaining accurately the deliveries of each producer require extensive searching of records at such plants. In addition, the histories of production for these and other producers involve many instances of changes in production facilities or changes in partnership operations which affect the computation of production history bases.

It is hereby determined that the time needed to obtain complete records of producers' marketings during the representative period, or to ascertain whether such complete data are available, and to determine production history bases of all producers, prevents effectuation of the Class I base plan on February 1, 1973.

The two cooperative associations in the market (Mid-America Dairymen, Inc., and Associated Milk Producers, Inc.,) have been advised by the market administrator of the circumstances delaying the computation of production history bases. The Board of Directors of the Central States Division of Mid-America Dairymen, in a resolution, requests that in the event the Department determines that the Class I base plan cannot be made effective February 1, 1973, the effective date be delayed until March 1, 1973. The latter cooperative association represents a large majority of producers on the market.

It is therefore ordered, That the effective date with respect to the above designated order provisions is March 1, 1973.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Signed at Washington, D.C., on January 24, 1973.

CLAYTON YEUTTER,
Assistant Secretary.

[FR Doc.73-1819 Filed 1-30-73;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

[Docket No. 73-505]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

This amendment quarantines an additional portion of Southampton County in Virginia because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

Therefore, pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, paragraph (e)(10) relating to the State of Virginia is amended to read:

(e) * * *

(10) *Virginia.* That portion of Southampton County bounded by a line beginning at the junction of the Virginia-North Carolina State line and Secondary Road 701; thence, following Secondary Road 701 in a northerly direction to State Highway 195; thence, following State Highway 195 in a northeasterly direction to State Highway 35; thence, following State Highway 35 in a southerly direction to Secondary Road 670; thence, following Secondary Road 670 in a southeasterly direction to Secondary Road 743; thence, following Secondary Road 743 in a southeasterly direction to Secondary Road 716; thence, following Secondary Road 716 in a northeasterly, then northwesterly direction to Secondary Road 665; thence, following Secondary Road 665 in an easterly direction to Secondary Road 672; thence, following Secondary Road 672 in a northeasterly direction to Secondary Road 673; thence, following Secondary Road 673 in a northwesterly direction to Secondary Road 671; thence, following Secondary Road 671 in a northeasterly direction to Secondary Road 749; thence, following Secondary Road 749 in a northeasterly direction to Secondary Road 731; thence, following Secondary Road 731 in a southeasterly direction to Secondary Road 674; thence, following Secondary Road 674 in a northeasterly direction to Secondary Road 680; thence, following Secondary Road 680 in a southeasterly direction to Secondary Road 671; thence, following Secondary Road 671 in a northeasterly direction to U.S. Highway 258; thence, following U.S. Highway 258 in a northeasterly direction to U.S. Highway 258, U.S. Highway 58; thence, following U.S. Highway 258, U.S. Highway 58 in a northeasterly direction to the west bank of the Blackwater River; thence, following the west bank of the Blackwater River in a generally southeasterly direction to the Virginia-North Carolina State line; thence, following the Virginia-North Carolina State line in a westerly direction to its junction with Secondary Road 701.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 37 F.R. 28464, 28477)

Effective date. The foregoing amendment shall become effective January 24, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 24th day of January 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-1820 Filed 1-30-73;8:45 am]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS; INSPECTION AND OTHER REQUIREMENTS FOR CERTAIN MEANS OF CONVEYANCE AND SHIPPING CONTAINERS THEREON

Cattle From Mexico

On May 9, 1972, there was published in the FEDERAL REGISTER (37 FR 9328), a notice of proposed rule making with respect to an amendment of the regulations contained in Part 92, Title 9, Code of Federal Regulations, relating to the importation of cattle from Mexico. The purpose of the amendment is to require a negative tuberculin test for steers offered for entry into the United States from Mexico not more than 60 days before the date such animals are offered for entry, or in lieu thereof, to require a negative tuberculin test to be conducted at the time such animals are presented at the port of entry.

After due consideration of all relevant material, including that submitted in connection with such notice, and pursuant to the provisions of sections 6, 7, 8, and 10 of the Act of August 30, 1890, as amended, section 2 of the Act of February 2, 1903, as amended, and sections 2, 3, 4, 5, and 11 of the Act of July 2, 1962 (21 U.S.C. 102-105, 111, 134a, 134b, 134c, 134d, and 134f), the amendment is adopted as proposed, with the exception that tuberculin testing to be done at the port of entry may be done under the supervision of the port veterinarian instead of by him as proposed. This change from the proposal is made to expedite the movement of cattle through ports of entry into the United States from Mexico. Therefore, paragraph (b)(1) of § 92.35 is amended to read:

§ 92.35 Cattle from Mexico.

* * * * *

(b) *Tuberculosis.* (1) In addition to the provisions required in the certificate under paragraph (a) of this section, such certificate shall also show, with respect to all cattle from Mexico except cattle certified in accordance with § 92.40, that a review of the available herd history, including any tuberculin test results, traceback slaughter reports and post-mortem record, and any other available records or information do not indicate evidence of tuberculosis or exposure thereto during the preceding 60 days. The certificate shall also show, with respect to all cattle, except cattle certified in accordance with § 92.40 and steers, that the herd or herds from which the animals proceed have been tuberculin tested with negative results not more than 12 months nor less than 3 month before the date the animals are offered for entry into the United States and that the animals presented for entry, excepting only the natural increase in the herd, were included in the herd or herds of origin at the time of said herd test. The certificate shall further show, with respect to steers, that each animal has been tested with negative results by a salaried veterinarian of the National Government of Mexico not more than 60 days before the date the animals are offered for entry into the United States: *Provided,* That for steers not so tested and certified, the importer may elect to have the tuberculin test completed at the port of entry under the supervision of the port veterinarian. The said certificate shall give the date and place of inspection, the date and place and results of the tuberculin test if applicable, the name of the herd owner, the name of the consignor and consignee, and an individual description of each animal including breed, age, sex, and tattoo or ear tag number.

* * * * *

(Secs. 6, 7, 8, and 10, 26 Stat. 416, 417, as amended; sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, 5, and 11, 76 Stat. 129, 130, 132; 21 U.S.C. 102-105, 111, 134a, 134b, 134c, 134d, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective on March 1, 1973.

The change reflected herein from the proposal in the notice of rule making was made pursuant to comments from interested persons. It does not appear that public participation in rule making proceedings concerning the change would make additional information available to the Department. Therefore under the administrative procedure provisions in 5 U.S.C. 553 it is found upon good cause that such public proceedings are impracticable and unnecessary.

Done at Washington, D.C., this 26th day of January 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-1895 Filed 1-30-73;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 72-EA-124; Amdt. 39-1589]

PART 39—AIRWORTHINESS DIRECTIVES

Avco Lycoming Aircraft Engines

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend and revise AD 71-5-2. Experience since the issuance of the airworthiness directive establishes a basis for relieving the 25-hour repetitive inspection to a 50-hour inspection. It appears that where no evidence of shifting of the center main bearing exists the extended inspection period will not derogate air safety. In view of certain editorial changes as well as clarifying paragraphs, the AD will be revised to permit printing of the full context.

Since the foregoing is a relaxation of a rule, notice, and public procedure hereon are unnecessary and the amendment and revision may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] § 39.13 of Part 39 of the Federal Aviation Regulations is amended so as to amend and revise AD 71-5-2 as follows:

AVCO LYCOMING. Applies to all IO-360-A and -C series engines except S/N 7100-51A and subsequent and except all engines overhauled (also known as remanufactured) by Lycoming after January 26, 1970, except S/N 354-51, 1049-51A, 3003-51A, 3281-51A, 6526-51A.

To prevent shifting and possible failures of the crankcase main bearings, perform the following:

(a) Engines that have accumulated less than 500 hours in service since new or overhaul must have the lubrication system inspected for metal contaminants within the next 10 hours in service after the effective date of this AD and every 25 hours in service until 525 hours in service are accumulated, at which time compliance with (d) or (f) is required. Inspection of the lubrication system consists of visual examination for minute particles of metal suspended in the oil, examination of the engine oil suction screen for presence of metal particles and the inspection of the external full flow oil filter for metal particles by cutting it open so that the pleated element can be unfolded and examined.

(b) Engines that have accumulated 500 hours or more in service since new or overhaul must have the lubrication system inspected for metal contaminants within the next 10 hours in service after the effective

V 38 N 20 JA 31 73 XUM

date of this AD. Further, compliance with (d) or (f) is required within 25 hours in service after the effective date of this AD.

(c) Compliance with (d) or (f) is required if metal contaminants are detected during the above inspections.

(d) Remove No. 2 position cylinder and examine visually the position of the center main bearing for shifting in accordance with the inspection procedure of Avco Lycoming Service Bulletin No. 327B or equivalent inspection approved by Chief, Engineering and Manufacturing Branch, FAA, Eastern Region. Should shifting be detected, comply with paragraph (f). If the bearing has not shifted and no metal contaminants are detected after compliance with paragraph (a) or (b) the engine can be returned to service and the lubrication system must be inspected for contaminants every 50 hours in service thereafter.

(e) Unless already accomplished, compliance with paragraph (f) is required within 50 hours in service after the effective date of this AD on engines that have accumulated 1,150 hours or more in service since new or last overhaul.

(f) Modify the crankcase as described in Lycoming Service Instructions No. 1123A or repair the crankcase as described in Lycoming Service Instructions No. 1112C, whichever is applicable, and install straight crankcase bearing dowels per Lycoming Service Bulletin No. 326 or equivalent repair or alteration approved by Chief, Engineering and Manufacturing Branch, FAA, Eastern Region. Compliance with the provisions of this paragraph eliminates the inspection requirements of this AD.

NOTE: The inspection of the lubrication system required by this AD constitutes preventive maintenance.

This amendment is effective February 13, 1973.

(Secs. 313(a), 601, and 603 Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on January 22, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.73-1774 Filed 1-30-73;8:45 am]

[Docket No. 72-NE-29; Amdt. 39-1590]

PART 39—AIRWORTHINESS DIRECTIVES

Avco Lycoming Aircraft Engines

There have been reports of failures of the second stage gas producer cylinder retaining bolts on Avco Lycoming T5313A and T5313B turboshaft engines which could result in the shank sections becoming loose with a possible failure of the turbines. Since this condition is likely to exist or develop in other engines of the same type, an airworthiness directive is being issued to require replacement of the present second stage gas producer cylinder retaining bolts with new bolts (P/N MS9705-08) made from higher strength alloy.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

AVCO LYCOMING ENGINES. Applies to all Avco Lycoming T5313A and T5313B turboshaft engines. Compliance required as indicated.

To prevent hazards in flight due to failure of the second stage gas producer cylinder retaining bolts, accomplish the following:

(a) Within the next 100 hours time in service after the effective date of this airworthiness directive, remove all P/N MS9060-08 retaining bolts and replace with new P/N MS9705-08 retaining bolts in accordance with the instructions set forth in Avco Lycoming Service Bulletin, Product Support No. 0028, Revision 1, dated 30 October 1972, or later revision approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region.

(b) Equivalent methods of compliance must be approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region.

This amendment becomes effective February 13, 1973.

(Secs. 313(a), 601 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Mass., on January 22, 1973.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.73-1900 Filed 1-30-73;8:45 am]

[Airspace Docket No. 72-GL-56]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone

On page 23925 of the FEDERAL REGISTER dated November 10, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to designate a control zone at Ann Arbor, Mich.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 29, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on January 8, 1973.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.171 (38 FR 351), the following control zone is added:

ANN ARBOR, MICH.

Within a 5-mile radius of the Ann Arbor, Mich. Airport (latitude 42°13'22" N., longitude 83°44'40" W.); excluding that portion which overlies the Detroit, Mich., Willow Run Airport control zone. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

[FR Doc.73-1764 Filed 1-30-73;8:45 am]

[Airspace Docket No. 72-GL-68]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Cleveland, Ohio, control zone.

Since designation of the control zone at the Cleveland-Hopkins International Airport, Cleveland, Ohio, the instrument approach procedures have been revised. A review of these procedures and the zone indicate the control zone extensions are no longer required for protection of the procedures.

Since this change is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the change may be accomplished by final rule action.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth:

In § 71.171 (38 FR 351), the following control zone is amended to read:

CLEVELAND, OHIO (CLEVELAND-HOPKINS INTL. AIRPORT)

Within a 5-mile radius of the Cleveland-Hopkins International Airport (latitude 41°24'37" N., longitude 81°50'56" W.).

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on January 8, 1973.

HAROLD W. POGGEMEYER,
Acting Director,
Great Lakes Region.

[FR Doc.73-1765 Filed 1-30-73;8:45 am]

[Airspace Docket No. 72-GL-57]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On pages 23924 and 23925 of the FEDERAL REGISTER dated November 10, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Detroit, Mich.

Interested persons were given 30 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 29, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on January 8, 1973.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (38 FR 435), the following transition areas are deleted:

Port Huron, Mich. Detroit City, Mich.
Mount Clemens, Mich. Ann Arbor, Mich.
Pontiac, Mich.

In § 71.181 (38 FR 435), the following transition area is amended to read:

DETROIT, MICH.

That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 43°00'00" N., longitude 82°25'00" W., on the Canadian boundary to latitude 43°04'00" N., longitude 82°30'00" W., to latitude 42°53'00" N., longitude 83°00'00" W., to latitude 42°45'00" N., longitude 83°50'00" W., to latitude 42°30'00" N., longitude 83°50'00" W., to latitude 42°10'00" N., longitude 84°00'00" W., to latitude 42°00'00" N., longitude 83°30'00" W., thence east along the 42d parallel to the Canadian boundary, thence along the Canadian boundary to point of beginning.

[FR Doc.73-1766 Filed 1-30-73;8:45 am]

[Airspace Docket No. 72-RM-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On December 5, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 25854) stating that the Federal Aviation Administration was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the description of the Missoula, Mont., control zone and transition area.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. These amendments shall be effective 0901 G.m.t., March 29, 1973.

(Sec. 307(a) Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on January 12, 1973.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.171 (38 FR 351) the description of the Missoula, Mont. control zone is amended to read:

MISSOULA, MONT.

Within a 5-mile radius of Johnson-Bell Airport (latitude 46°54'54" N., longitude 114°05'14" W.); within 3 miles each side of the Missoula ILS localizer northwest course extending from the 5-mile radius zone to 2 miles northwest of the Kona COMLO; within 5 miles each side of the Missoula VORTAC 302° radial extending from the VORTAC to 11 miles northwest; within 2 miles each side of the Missoula VORTAC 170° radial extending from the 5-mile radius zone to 10.5 miles southeast of the VORTAC.

In § 71.181 (38 FR 435) the description of the Missoula, Mont. transition area, as amended (37 FR 24657), is further amended to read as follows:

MISSOULA, MONT.

That airspace extending upward from 700 feet above the surface within 8 miles southwest of the Missoula VORTAC 296° radial extending from the VORTAC to 21 miles northwest; within 8.5 miles southwest and 5.5 miles northeast of the Missoula VORTAC 311° radial extending from the VORTAC to 38 miles northwest; within 3 miles each side of the Missoula VORTAC 170° radial extending from the VORTAC to 19.5 miles southeast; and that airspace extending upward from 1,200 feet above the surface within a 13-mile radius of the Missoula VORTAC; within a 32-mile radius of the Missoula VORTAC extending clockwise from the Missoula 256° radial to the Missoula 357° radial; within 9.5 miles southwest to the Missoula VORTAC 298° radial extending from the VORTAC to 38 miles northwest; within a 23.5-mile radius of the Missoula VORTAC extending from the Missoula 072° radial clockwise to the Missoula 170° radial; within 5 miles west and 9.5 miles east of the Missoula VORTAC 170° radial extending from the 13-mile radius area to 30 miles southeast of the VORTAC.

[FR Doc.73-1768 Filed 1-30-73;8:45 am]

[Airspace Docket No. 72-NE-22]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 26532 of the FEDERAL REGISTER dated December 13, 1972, the Federal Aviation Administration published a notice of proposed rule making which would designate a Danbury, Conn., Control Zone and alter the Danbury, Conn., Transition Area (37 FR 26532).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

The effective hours of the new Danbury Control Zone were proposed in the notice to be from 0700 to 2300 hours local time. It has now been determined that the effective hours for the Control Zone will be from 0700 to 1900 hours local time. Since this modification from the notice is less restrictive and minor in nature, further notice and public procedure is considered unnecessary.

In view of the foregoing, the proposed regulations are hereby adopted effective 0901 G.m.t., March 29, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; 6(c), Department of Transportation Act, 49 U.S.C. 1655 (c))

Issued in Burlington, Mass., on January 17, 1973.

FERRIS J. HOWLAND,
Director, New England Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to designate a Danbury, Conn., control zone described as follows:

Within a 5-mile radius of the center 41°22'-15" N., 73°29'00" W., of the Danbury Airport, Danbury, Conn., and within 2 miles each side of the Carmel VORTAC 088° radial extending from the 5-mile radius area to the Carmel VORTAC. This control zone is effective from 0700 to 1900 hours local time daily or during the specific dates and times established in advance by a Notice to Airmen which thereafter will be continuously published in the Airmen's Information Manual.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Danbury, Conn., 700-foot transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 9-mile radius of the center 41°22'15" N., 73°29'00" W. of Danbury Airport, Danbury, Conn., extending clockwise from the 018° bearing from the center of the airport to the 288° bearing and within a 13-mile radius from the 288° bearing clockwise to the 018° bearing and within 3.5 miles each side of the Carmel VORTAC 218° radial extending from the 9-mile radius area to 11.5 miles southwest of the Carmel VORTAC, excluding that airspace which coincides with the Bridgeport, Conn., and White Plains, N.Y., 700-foot floor transition areas.

[FR Doc.73-1767 Filed 1-30-73;8:45 am]

[Docket No. 11437; Amdt. 91-110]

PART 91—GENERAL OPERATING AND FLIGHT RULES

Subpart D—Large and Turbine-Powered Multiengine Airplanes

The purpose of these amendments to § 91.217 of Part 91 of the Federal Aviation Regulations is to permit continued operation of certain airplanes after January 22, 1973, for which required inspection programs cannot be approved by that date.

Section 91.217, effective October 22, 1972, provides that no person may operate a large or turbine-powered multiengine airplane after January 22, 1973, unless that airplane is inspected in accordance with an inspection program selected under the provisions of that section. The section further provides that the required inspection program must meet one of five criteria set forth therein. The acceptability of programs under four of the five criteria may be determined without FAA assistance, and an owner or operator selecting such a program has merely to notify the FAA of his choice. For a program to be acceptable under

V 38 - 20 JAN 31 73 XUM

the fifth criterion, however, the section requires that it be approved by the FAA prior to its use. Due to the number of such programs that have been submitted to the FAA for approval action may not be possible on all such programs before January 22, 1973. Nevertheless, under present § 91.217 no person would be permitted to operate an airplane for which such action is pending, notwithstanding the fact that the owner or operator had complied with the rule. At the time the rule was adopted the FAA did not anticipate any difficulties in meeting the compliance time established. However, it now appears that the FAA will be unable to process all of the pending applications prior to January 22, 1973. Furthermore, the FAA has determined that such airplanes can continue to be operated without compromising safety, pending FAA action on the programs, provided they continue to be inspected in accordance with their present inspection programs. Accordingly, § 91.217 is being amended to provide that an airplane for which the owner or operator has submitted, on or before January 22, 1973, an inspection program requiring FAA approval, may be operated pending FAA action on the program, as long as the aircraft continues to be inspected in accordance with Subpart C of Part 91.

Since this amendment is an extension of the effective date of a new requirement and imposes no additional burden on any person, I find that notice and public procedure hereon are unnecessary and that good cause exists for making this amendment effective on less than 30 days' notice.

In consideration of the foregoing, § 91.217 of Part 91 of the Federal Aviation Regulations is amended, effective January 22, 1973, by amending paragraphs (a) and the lead-in statement of paragraph (b), and adding a new paragraph (f) to read as follows:

§ 91.217 Inspection program.

(a) No person may operate a large airplane, or a turbojet, or turbopropeller-powered multiengine airplane, unless the replacement times for life-limited parts specified in the aircraft data sheets or other documents approved by the Administrator are complied with, and after January 22, 1973, except as provided in paragraph (f) of this section, the airplane, including the airframe, engines, propellers, appliances, survival equipment, and emergency equipment is inspected in accordance with an inspection program selected under the provisions of this section.

(b) The registered owner or operator of each airplane governed by this subpart must select and after January 22, 1973, except as provided in paragraph (f) of this section, must use one of the following programs for the inspection of that airplane:

* * * * *

(f) An airplane for which a program, selected in accordance with paragraph (b) (5) of this section, has been submitted for FAA approval in accordance with paragraph (e) of this section on or before January 22, 1973, may be operated pending notification by the FAA of its approval or disapproval of the program as long as the airplane is inspected in accordance with the applicable provisions of Subpart C of this Part.

* * * * *

(Secs. 313(a) and 601, Federal Aviation Act of 1958, 49 U.S.C. 1354(a) and 1421; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 22, 1973.

J. H. SHAFFER,
Administrator.

[FR Doc.73-1769 Filed 1-30-73;8:45 am]

[Docket No. 12533, Amdt. 849]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAP's, effective March 15, 1973.

Ainsworth, Nebr.—Ainsworth Municipal Airport, VOR-A, Amdt. 2.
Augusta, Kans.—Augusta Municipal Airport, VOR/DME-A, Amdt. 1.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—REGULATIONS UNDER SPECIFIC ACTS OF CONGRESS OTHER THAN THE FOOD, DRUG, AND COSMETIC ACT

PART 132—REGISTRATION OF PRODUCERS OF DRUGS

PART 273—BIOLOGICAL PRODUCTS

Registration of Blood Banks and Other Firms Collecting, Manufacturing, Preparing, or Processing

A notice of proposed rule making concerning the registration of blood banks and other firms collecting, manufacturing, preparing, or processing human blood or blood products was published in the FEDERAL REGISTER of August 26, 1972 (37 FR 17419). Interested persons were invited to submit comments on the proposal within 60 days. In response, 104 comments were received from individuals, firms and organizations.

1. Many comments, although not objecting to the proposed registration of blood banks, strongly urged that such blood banks voluntarily participating in the inspection accreditation of the American Association of Blood Banks (AABB) be exempt from inspection by the Food and Drug Administration. These comments indicated that for the last 15 years, the AABB has operated a comprehensive inspectional program utilizing highly qualified inspectors, and that the Food and Drug Administration would simply be wasting public funds by duplicating such a program. Many of these comments made reference to programs operating under the Clinical Laboratories Improvement Act and the Social Security Act, for in both these cases provision is made for accepting inspections and accreditations by qualified organizations in lieu of governmental inspection.

The Food and Drug Administration recognizes the valuable contribution to blood banking made by the AABB. Nonetheless, the Commissioner of Food and Drugs concludes that the Food and Drug Administration should conduct its own inspection pursuant to section 510 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360), in addition to any inspection by private organizations. It is anticipated that there will be close cooperation between the FDA and the AABB and that a dual inspection system will substantially increase public protection.

2. Numerous comments questioned whether it was the intent of Congress to classify blood as a drug. An analysis of the section 201(g)(1) definition of drug in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321), reveals that blood and related blood products fall clearly within that definition. That section states "The term 'drug' means (A) articles recognized in the official United States Pharmacopeia * * *; and (B) articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals; * * *." Blood is covered by both parts of this definition. Human blood was first recognized in the United States Pharmacopeia (USP), XV Edition (Dec. 15, 1955), and has been included in each USP since that edition. Indications for use of blood products also fall directly within the broad therapeutic scope of the definition. While it is, of course, true that blood is human living tissue, it is incorrect to assume that it must be either a living human tissue or a drug. That human blood and blood products may be characterized as living human tissue for some purposes, and as biologics for purposes of regulation under the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) in no way alters the fact that blood is also a drug subject to regulation under applicable provisions of the Federal Food, Drug, and Cosmetic Act. Those federal courts which have had occasion to consider the issue have held without equivocation that human blood is a drug within the meaning of the Federal Food, Drug, and Cosmetic Act. For these reasons, the Commissioner finds that human blood and blood products are drugs within the meaning of the Federal Food, Drug, and Cosmetic Act, and subject to regulation pursuant to its provisions.

3. Several comments stated that all aspects of blood banking were within the practice of medicine, and therefore not subject to regulation by the Food and Drug Administration. These comments indicated that since Food and Drug Administration regulations issued pursuant to section 351 of the Public Health Service Act require that licensed blood banks be under the direction of a physician,

JAN 31 73 XUM

blood banking, from donor interrogation through the actual blood transfusion, constitutes the practice of medicine. The simple fact, however, that donor qualification and blood collection are performed under the direction of a physician does not mean that blood banking constitutes the practice of medicine. To the contrary, since the licensing of the first blood bank in 1946, the collection of blood from suitable donors, its processing, storage, and distribution for sale in interstate commerce has been considered the manufacture of a biologic drug, and has been regulated by the Division of Biologics Standards, National Institutes of Health (which was transferred on July 1, 1972 to the Food and Drug Administration where it is now the Bureau of Biologics (37 FR 12865)). The prescribing of blood, however, is considered the practice of medicine, and consequently has not been regulated by the Federal Government. It is therefore clear that Federal regulation of the manufacture, preparation, and processing of human blood and blood products in no sense regulates the practice of medicine.

4. Several comments indicated confusion or misunderstanding as to what blood bank activities will constitute manufacture, preparation, propagation, compounding, or processing requiring a blood bank to register. It is the Commissioner's intention that any facility, which by chemical, physical, biological, or other procedures makes human blood or blood products, be subject to registration and inspection. This includes the manipulation, sampling, testing, or utilization of control procedures, whether applied to the final product or to any part of the manufacturing process. It also includes repackaging or otherwise changing the container, wrapper, or labeling of any blood or blood products package in furtherance of distribution of the product from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer. It thus includes both processing and any other work that is performed on the human blood or blood products themselves, including such testing as grouping and typing as well as compatibility testing when performed in conjunction with a transfusion of blood or blood components. For purposes of determining eligibility for blood bank registration, blood components are defined as red blood cells, platelet concentrates, platelet poor blood, leukocyte poor blood, or leukocyte filtered blood, single donor plasma, cyroprecipitated antihemophilic, or any product which may be derived from whole blood or plasma by blood bank laboratory personnel.

To illustrate, if a blood bank processes all or even part of the blood which it collects, or prepares any blood component from blood or blood products received from other banks, it would be required to register. Furthermore, if a blood bank does not collect or process any blood, but receives its entire supply from other banks and then cross-matches and transfuses such whole blood or components without any further processing, it is also required to register. Registration is also required of blood banks or other establishments that collect or supply blood cells, serum, or plasma for the manufacture of a drug, or as a component in the manufacture of laboratory reagents and controls, including those establishments that supply outdated pooled plasma to manufacturers of fractionation products or laboratory control reagents. Finally, all establishments that manufacture plasma by plasmapheresis will be required to register, regardless of whether the plasma so manufactured is to be used for fractionation, unlicensed laboratory control reagents, licensed blood grouping and typing serums, hepatitis associated antibody, or any other diagnostic reagents made from plasma.

5. One comment stated that registration under section 510 of the Federal Food, Drug, and Cosmetic Act was being confused with licensing under section 351 of the Public Health Service Act. There should be no confusion if it is understood that:

a. The licensing procedure under section 351 of the Public Health Service Act involves the submission of a license application for both an establishment and a product detailing all phases of manufacture, and requires a prelicensing inspection as well as annual inspections thereafter. So long as a license meets the prescribed standards, the license remains in effect and the licensee may ship licensed biologics in interstate commerce.

b. Registration, on the other hand, involves the submission of a form containing ownership and location information on an annual basis and requires a biennial inspection, but does not permit the registrant to ship blood or other biological products out of the State in which they are registered.

6. Several comments indicated that no reasons were given in the initial FEDERAL REGISTER proposal as to why the Commissioner had decided to require the registration of intrastate blood banks, nor was there any indication as to what was expected to be accomplished by such a proposal. Many recent surveys of the blood banking system have indicated that that system has been unable to provide American consumers with sufficient quantities of high quality, safe human blood and blood products. These surveys have also indicated that one of the major problems associated with the blood banking system is that very little information is even available about the vast majority of manufacturers and distributors of this vitally needed lifesaving drug. It is clear that uniform national regulation may be required with respect to the manufacturing, processing, and distribution of blood and blood products, not only because blood is a commodity of national significance, but also because there has been little or no State regulatory activity in this area. The purpose of the blood bank registration proposal, therefore, is to provide a comprehensive survey of a large sector of the blood delivery system. This survey will provide useful information for implementing necessary programs and standards for improvement of the Nation's blood delivery system. Presently, there is no organization or agency, either public or private, that has accurate and up-to-date information concerning the amount of blood collected in this country, the number and location of collection facilities, or the volume of blood components that is transfused annually. This blood bank registration and inspection program should provide this kind of essential information, especially when utilized in conjunction with the Drug Listing Act of 1972 and the implementing regulations proposed in the FEDERAL REGISTER of December 12, 1972 (37 FR 26431).

7. Several comments inquired if registration was a prelude to licensing. As there currently is no statutory authority to license intrastate blood banking, the registration of such blood banking under section 510 of the Federal Food, Drug, and Cosmetic Act can in no sense be considered a prelude to licensing. Licensing is of course authorized under section 351 of the Public Health Service Act for the purpose of permitting shipment of biological products in interstate commerce, but many of the blood banks that will be required to register will have no reason to ship blood or blood products in interstate commerce, and therefore will not need or desire to be licensed. It should be noted in this connection, however, that intrastate blood banking, although not subject to licensure, is nevertheless subject to regulation under other provisions of the Public Health Service Act, and that the interstate controls under both acts impinge directly upon intrastate commerce.

8. One comment expressed concern that registration would make the collection of a unit of blood illegal in the case of an emergency. These comments, however, misconceive the intent and purpose of registration. The Food and Drug Administration does not desire to question the medical judgment of a physician prescribing treatment for a patient during a medical emergency, and registration will not operate to make blood collected during such circumstances illegal.

9. A question has been raised about the intent of § 273.237 (21 CFR 273.237) as it appeared in the August 26, 1972, proposal, in that it could have been interpreted to mean that all firms licensed under section 351 of the Public Health Service Act for any biologic product were exempt from the registration requirement. In light of the recently proposed implementing regulations for the Drug Listing Act of 1972, which would remove the exemption for all section 351 licensees, the Commissioner has determined that confusion will be minimized through the implementation of the registration requirement for all blood banks immediately, regardless of whether or not they are section 351 licensees. All blood banking facilities, without exception, are therefore required to register pursuant to the provisions of the new § 273.237.

10. At such time as 21 CFR Part 132 is revised to implement regulations for the Drug Listing Act of 1972, blood banking facilities registered pursuant to the new § 273.237 (21 CFR 273.237) will be expected to fully comply with the requirements of the revised Part 132.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 510, 701, 52 Stat. 1040–1042, as amended, 76 Stat. 794, as amended by 79 Stat. 231–232 and 84 Stat. 1282, 52 Stat. 1055–1056, as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 321, 360, 371), the Public Health Service Act (sec. 351, 58 Stat. 702 as amended; 42 U.S.C. 262), and the Administrative Procedure Act (secs. 4 and 10, 60 Stat. 238 and 243, as amended; 5 U.S.C. 553, 702, 703, 704), and under authority delegated to the Commissioner (21 CFR 2.120), 21 CFR Parts 132 and 273 are amended as follows:

1. In Part 132, paragraph (b) of § 132.51 is revised to read as follows:

§ 132.51 Exemptions for domestic establishments.

* * * * *

(b) Hospitals, clinics, and public health agencies which maintain establishments in conformance with any applicable local laws regulating the practices of pharmacy and medicine and which are regularly engaged in dispensing prescription drugs, other than human blood or blood products, upon prescription of practitioners licensed by law to administer such drug for patients under the care of such practitioners in the course of their professional practice.

* * * * *

2. In Part 273, the following new § 273.237 is added.

§ 273.237 Registration of blood banks and other firms collecting, manufacturing, preparing, or processing human blood or blood products.

(a) All owners or operators of establishments that engage in the collection, manufacturing, preparation, propagation, compounding, or processing of human blood or blood products are required to register, pursuant to section 510 of the Federal Food, Drug, and Cosmetic Act. Registration and listing of products shall comply with 21 CFR Part 132. Registration does not permit any blood bank or similar establishment to ship blood or blood products in interstate commerce.

(b) Forms for registration of an establishment are obtainable on request from the Bureau of Biologics (BI–7), Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852, or at any of the Food and Drug Administration district offices.

(c) The completed form should be mailed to Blood Bank Registration (BI–7), Bureau of Biologics, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Effective date. This order shall become effective April 3, 1973. All affected blood banks and other firms collecting, manufacturing, preparing, or processing human blood or blood products shall submit their registration form within that time.

(The Federal Food, Drug, and Cosmetic Act, secs. 201, 510, 701, 52 Stat. 1040–1042, as amended, 76 Stat. 794, as amended by 79 Stat. 231–232 and 84 Stat. 1282, 52 Stat. 1055–1056, as amended by 70 Stat. 948, 21 U.S.C. 321, 360, 371; the Public Health Service Act, sec. 351, 58 Stat. 702, as amended, 42 U.S.C. 262; and the Administrative Procedures Act; secs. 4 and 10, 60 Stat. 238 and 243, as amended, 5 U.S.C. 553, 702, 703, 704)

Dated: January 17, 1973.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

Title 24—Housing and Urban Development

CHAPTER III—GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

SUBCHAPTER A—INTRODUCTION

[Docket No. R–73–210]

PART 300—GENERAL

Power of Attorney

Paragraph (c) of § 300.11 is amended by bringing current the list of attorneys-in-fact authorized to act on behalf of the Association.

Notice and public procedure on this amendment are dispensed with because it does not adversely affect any existing rights and it is necessary to carry out the day to day business of the Association. Part 300 is amended as follows:

1. Section 300.11(c) is revised to read:

§ 300.11 Power of attorney.

* * * * *

(c) The persons appointed attorneys-in-fact by paragraph (a) of this section are:

(1) Federal National Mortgage Association, a Government-sponsored private corporation.

(2) Margaret M. Ake, of Los Angeles, Calif.

(3) Allan E. Arneson, of Los Angeles, Calif.

(4) Robert P. Atkinson, of Chicago, Ill.

(5) Walter T. Ausfeld, of Atlanta, Ga.

(6) Lawrence S. Banks, of Dallas, Tex.

(7) Frank L. Barczewski, of Los Angeles, Calif.

(8) Gordon C. Bell, of Dallas, Tex.

(9) Donald E. Berg, of Dallas, Tex.

(10) Norman Camber, of Los Angeles, Calif.

(11) Howard S. Carnes, of Atlanta, Ga.

(12) Russell B. Clifton, of Washington, D.C.

(13) W. D. Cornwell, of Atlanta, Ga.

(14) Thomas G. Dawson, of Dallas, Tex.

(15) John J. Deisher, of Philadelphia, Pa.

(16) Joseph R. Eldred, of Philadelphia, Pa.

(17) Ray M. Evans, Jr., of Dallas, Tex.

(18) Leon Fine, of Philadelphia, Pa.

(19) H. J. Flewharty, of Dallas, Tex.

(20) Norbert C. Greene, of Philadelphia, Pa.

(21) John J. Hagerty, of Philadelphia, Pa.

(22) Eugene J. Hansen, of Chicago, Ill.

(23) Charles W. Harvey, Jr., of Philadelphia, Pa.

(24) John R. Hayes, of Chicago, Ill.

(25) J. W. Hester, Jr., of Atlanta, Ga.

(26) Elwyn V. Hopkins, of Washington, D.C.

(27) George L. Huckabee, of Dallas, Tex.

(28) Fred J. Jankowski, of Chicago, Ill.

(29) Harry E. Johnson, of Washington, D.C.

(30) Hughes A. King, of Dallas, Tex.

(31) John F. Kurth, of Chicago, Ill.

(32) Louis Lane, of Los Angeles, Calif.

(33) C. James Larkin, of Los Angeles, Calif.

(34) Oliver J. McCarron, of Philadelphia, Pa.

(35) James A. McClellan, of Chicago, Ill.

(36) Hugh J. McConville, of Dallas, Tex.

(37) James L. McKnight, of Los Angeles, Calif.

(38) Frank E. Moll, of Los Angeles, Calif.

(39) Howard A. Morton, of Chicago, Ill.

(40) James D. Nelson, of Dallas, Tex.

(41) Vincent H. Nelson, of Atlanta, Ga.

(42) Philip R. Nichols, Jr., of Philadelphia, Pa.

(43) Albert D. Oltman, of Los Angeles, Calif.

(44) Sam Pampalone, of Chicago, Ill.

(45) Joseph T. F. Quinn, of Philadelphia, Pa.

(46) Norman M. Reid, of Los Angeles, Calif.

(47) Harry Rode, of Dallas, Tex.

(48) Edward N. Sambol, of Chicago, Ill.

(49) Richard Stern, of Chicago, Ill.

(50) Marvin F. Strattman, of Los Angeles, Calif.

(51) T. J. Swanson, Jr., of Atlanta, Ga.

(52) Keller D. Thormahlen, of Dallas, Tex.

(53) Jack Tuggle, of Los Angeles, Calif.

(54) Esther O. Walder, of Philadelphia, Pa.

(55) Walter B. Williams, of Atlanta, Ga.

Effective date. This amendment shall be effective on January 31, 1973.

WOODWARD KINGMAN,
President, Government National Mortgage Association.

[FR Doc.73–1817 Filed 1–30–73;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1915—SAFETY AND HEALTH REGULATIONS FOR SHIP REPAIRING

Deletion of Regulations Establishing Penalties and Requiring Notification of Accidents

Pursuant to authority in sections 6(b) and 8(g), of the Williams-Steiger Occupational Safety and Health Act of 1970 (OSHA) (29 U.S.C. 655, 657), section 41

V 38 N 31 20 JAN 73
XUM

of the Longshoremen's and Harbor Workers' Compensation Act (44 Stat. 1444, as amended; 33 U.S.C. 941), Secretary of Labor's Order No. 12–71 (36 FR 8754), and the regulations in 29 CFR 1911.5 (37 FR 8664), Part 1915 of Title 29 of the Code of Federal Regulations is hereby amended by the deletion of §§ 1915.3 and 1915.6 as set forth below.

The ship repairing standards in Part 1915 have been incorporated by reference under the Occupational Safety and Health Act (29 U.S.C. 651 et seq.). The incorporation is published in § 1910.13 of the aforementioned title. Section 1915.3 does not contain a standard. It describes a statutory penalty for violations of section 41 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 941). However, to avoid possible confusion to persons following the reference under the Occupational Safety and Health Act, § 1915.3 is hereby deleted. The deletion, of course, does not derogate from the statutory penalty.

Section 1915.6 requires an employer to follow special reporting procedures when an accident results in a fatality or serious injury. The same information must be reported under § 1904.8 of the aforementioned title, a rule issued under the Occupational Safety and Health Act which applies concurrently with § 1915.6. Under these circumstances, § 1915.6 is deleted as being unnecessary.

Notice and public procedure under 5 U.S.C. 553 concerning the deletion of § 1915.6 are found unnecessary because of the minor rulemaking involved. The deletion of § 1915.3 is essentially an editorial change.

Accordingly, the amendments to Part 1915 are as follows:

1. Section 1915.3 *Penalty* is deleted.

2. Section 1915.6 *Notification of accidents resulting in fatalities or serious injuries*, is deleted.

(Secs. 6(b), 8(g), 84 Stat. 1593, 1598 (29 U.S.C. 655, 657); Sec. 41, 44 Stat. 1444 (33 U.S.C. 941); Secretary of Labor's Order No. 12–71, 36 FR 8754)

Effective date. This amendment shall become effective January 29, 1973.

Signed at Washington, D.C. this 23d day of January 1973.

CHAIN ROBBINS,
Acting Assistant Secretary of Labor.

[FR Doc.73–1824 Filed 1–30–73;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 50—PUBLIC CONTRACTS, DEPARTMENT OF LABOR

PART 50–250—VETERANS' EMPLOYMENT EMPHASIS UNDER FEDERAL CONTRACTS

Part 50–250 of Title 41, Code of Federal Regulations, is hereby revised to implement the provisions of 38 U.S.C. section 2012 as enacted by the Veterans' Employment and Readjustment Act of 1972 (Public Law 92–540).

Executive Order No. 11598 promulgated on June 16, 1971 (36 FR 11711), was designed to facilitate the employment of returning veterans by requiring Federal agencies and Federal contractors and their subcontractors to list certain employment openings with the employment service system. Regulations implementing that Executive Order were promulgated on September 14, 1971 (36 FR 18398), and are published at 41 CFR Part 50–250. Affected Government agencies issued implementing regulations including those amending the Federal Procurement Regulations (37 FR 2769) and those amending the Armed Services Procurement Regulations (Defense Procurement Circular No. 95, November 29, 1971).

The above-mentioned Veterans' Employment and Readjustment Act of 1972 provides and makes effective on January 24, 1973, a veterans' employment emphasis under Federal contracts which is similar to that of Executive Order 11598 and directs the President to promulgate implementing regulations.

Executive Order No. 11701 (38 FR 2675), authorizes and directs the Secretary of Labor to issue regulations as may be necessary to carry out the provisions of section 2012 of title 38 of the United States Code, and that Order.

Notice of proposed rule making procedures would involve delay in compliance with the implementation requirements of Public Law 92–540. Accordingly, the revised regulations shall become effective January 24, 1973.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the provisions of 5 U.S.C. 553. See 29 CFR 2.7. In accordance with the spirit of the public policy set forth in the above-mentioned section, interested parties may submit written comments, suggestions, data, or arguments to the Manpower Administrator, U.S. Department of Labor, Washington, D.C., within 30 days of the publication of the regulations contained in this part. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal.

The Federal Procurement Regulations clause at 41 CFR 1–12.1102–3 and the Armed Services Procurement Regulations clause at ASPR 7–103.27 may be used by procuring agencies which are governed by those regulations until such time as those regulations are amended to conform with the revised 41 CFR Part 50–250.

41 CFR Part 50–250 is revised to read as follows:

Sec.

50–250.1 Purpose and scope.
50–250.2 Required clause in Federal contracts and subcontracts.
50–250.3 Veteran priority in referrals.
50–250.4 Obligations of executive departments and agencies.
50–250.5 Deviations.
50–250.6 Failure to comply—enforcement.
50–250.7 Manpower Administration Regional Offices.
50–250.8 Federal departments and agencies.

AUTHORITY: Section 503, 86 Stat. 1097, 38 U.S.C. section 2012; and E.O. 11701, 38 FR 2675.

§ 50–250.1 Purpose and scope.

This part contains the Department of Labor rules and regulations requiring listing of employment vacancies with the Federal-State Employment Service system by Federal contractors and subcontractors pursuant to section 503, title V of the Veterans' Employment and Readjustment Act of 1972 and Executive Order 11701, 38 FR 2675.

§ 50–250.2 Required clause in Federal contracts and subcontracts.

In every contract for $2,500 or more, for the procurement of personal property and nonpersonal services (including construction) for the United States made and entered into by any department or agency of the Federal Government or any federally owned corporation and every subcontract entered into by the prime contractor in carrying out such contract, the contracting officer shall include, either directly or by reference, the following contract clause in (a) all invitations for bids and requests for proposals, and (b) all contracts, including contracts resulting from unsolicited proposals. The contract clauses prescribed by the Federal Procurement Regulations and by the Armed Services Procurement Regulations may be used instead of the clause set forth herein. The contract clause is as follows:

LISTING OF EMPLOYMENT OPENINGS

(This clause is applicable pursuant to 41 CFR 50–250 if this contract is for $2,500 or more.)

(a) The contractor, to provide special emphasis to the employment of qualified disabled veterans and veterans of the Vietnam era, agrees that all suitable employment openings of the contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by this contract and including those occurring at an establishment of the contractor other than the one wherein the contract is being performed but excluding those of independently operated corporate affiliates, shall be offered for listing at an appropriate local office of the State employment service system wherein the opening occurs and to provide such reports to such local office regarding employment openings and hires as may be required: *Provided*, That if the contract is for less than $10,000 or if it is with a State or local government the reports set forth in paragraphs (c) and (d) of this clause are not required.

(b) Listing of employment openings with the employment service system pursuant to this clause shall be made at least concurrently with the use of any other recruitment service or effort and shall involve the normal obligations which attach to the placing of a bona fide job order, including the acceptance of referrals of veterans and nonveterans. The listing of employment openings does not require the hiring of any particular job applicant or from any particular group of job applicants, and nothing herein is intended to relieve the Contractor from any requirements in any Executive Orders or regulations regarding nondiscrimination in employment.

(c) The reports required by paragraph (a) of this clause shall include, but not be limited to, periodic reports which shall be filed at least quarterly with the appropriate local office or, where the contractor has more than one establishment in a State, with the central office of that State employment service. Such reports shall indicate for each establishment (1) the number of individuals who were hired during the reporting period, (2) the number of those hired who were disabled veterans, and (3) the number who were nondisabled veterans of the Vietnam era. The contractor shall submit a report within 30 days after the end of each reporting period wherein any performance is made on this contract. The contractor shall maintain copies of the reports submitted until the expiration of 1 year after final payment under the contract, during which time they shall be made available, upon request, for examination by any authorized representatives of the contracting officer or of the Secretary of Labor.

(d) Whenever the contractor becomes contractually bound to the listing provisions of this clause, he shall advise the employment service system in each State wherein he has establishments of the name and location of each such establishment in the State. As long as the contractor is contractually bound to these provisions and has so advised the State system there is no need to advise the State system of subsequent contracts. The contractor may advise the State systems when it is no longer bound by this contract clause.

(e) This clause does not apply to the listing of employment openings which occur and are filled outside of the 50 States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

(f) This clause does not apply to openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. This exclusion does not apply to a particular opening once an employer decides to consider applicants outside of his own organization or employer-union arrangement for that opening.

(g) As used in this clause:

(1) "All suitable employment openings" includes, but is not limited to, openings which occur in the following job categories: production and nonproduction; plant and office; laborers and mechanics; supervisory and nonsupervisory; technical; and executive, administrative, and professional openings which are compensated on a salary basis of less than $18,000 per year. This term includes full-time employment, temporary employment of more than 3 days' duration, and part-time employment. It does not include openings which the contractor proposes to fill from within his own organization or to fill pursuant to a customary and traditional employer-union hiring arrangement. Under the most compelling circumstances an employment opening may not be suitable for listing, including such situations where the needs of the Government cannot reasonably be otherwise supplied, where listing would be contrary to national security, or where the requirement of listing would otherwise not be for the best interest of the Government.

(2) "Appropriate office of the State employment service system" means the local office of the Federal-State national system of public employment offices with assigned responsibility for serving the area where the employment opening is to be filled, including the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

(3) "Openings which the contractor proposes to fill from within his own organization" means employment openings for which no consideration will be given to persons outside the contractor's organization (including any affiliates, subsidiaries, and the parent companies) and includes any openings which the contractor proposes to fill from regularly established "recall" or "rehire" lists.

(4) "Openings which the contractor proposes • • • to fill pursuant to a customary and traditional employer-union hiring arrangement" means employment openings for which no consideration will be given to persons outside of a special hiring arrangement, including openings which the contractor proposes to fill from union halls, which is part of the customary and traditional hiring relationship which exists between the contractor and representatives of his employees.

(5) "Disabled veteran" means a person entitled to disability compensation under laws administered by the Veterans' Administration for disability rated at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in line of duty.

(6) "Veteran of the Vietnam era" means a person (i) who (I) served on active duty for a period of more than 180 days, any part of which occurred after August 5, 1964, and was discharged or released therefrom with other than a dishonorable discharge, or (II) was discharged or released from active duty for service-connected disability if any part of such duty was performed after August 5, 1964, and (2) who was so discharged or released within the 48 months preceding his application for employment covered under this part.

(h) The contractor agrees to place this clause (excluding this paragraph (h)) in any subcontract of $2,500 or more directly under this contract. This clause shall apply to any subcontract entered into by the contractor in carrying out any contract for the procurement of personal property and nonpersonal services (including construction) for the United States.

§ 50–250.3 Veteran priority in referrals.

The local offices of the Federal-State employment service shall give priority in referral to disabled veterans and veterans of the Vietnam era to such employment openings listed by contractors and subcontractors pursuant to this part.

§ 50–250.4 Obligation of executive departments and agencies.

Executive departments and agencies shall issue amendments or additions to their procurement rules and regulations as may be necessary to conform those rules and regulations to the requirements of the Vietnam Era Veterans' Readjustment Assistance Act of 1972, Executive Order 11701, and these regulations. Such amendments or additions shall be issued in consultation with the Secretary of Labor. Requests for consultation may be made to the Assistant Secretary for Manpower, U.S. Department of Labor, Washington, D.C. 20210.

§ 50–250.5 Deviations.

Under the most compelling circumstances, deviation from the provisions of this part may be made, subject to the approval of the Secretary of Labor. Requests for any such deviations shall be addressed to the Secretary of Labor, U.S. Department of Labor, 14th Street and Constitution Avenue NW., Washington, D.C. 20210, or to the Regional Manpower Administrator of the U.S. Department of Labor of the region wherein the contract is to be signed, and shall set forth the reasons for the request.

§ 50–250.6 Failure to comply—enforcement.

(a) Upon receipt of notice of failure of a contractor or subcontractor to comply with the provisions of this Part, the cognizant Government agency or agencies shall take such action as may be appropriate in consonance with the default provision of the contracts concerned.

(b) If any disabled veteran or veteran of the Vietnam era believes any contractor or subcontractor has failed or refuses to comply with the provisions of his contract with the United States relating to giving special emphasis in employment to veterans, such veteran may file a complaint with the veterans' employment representative at a local State employment service office who will attempt to informally resolve the complaint and then refer the complaint with a report on the attempt to resolve the matter to the State office of the Veterans' Employment Service of the Department of Labor. Such complaint shall then be promptly referred through the Regional Manpower Administration to the Secretary of Labor who shall investigate such complaint and shall take such action thereon as the facts and circumstances warrant consistent with the terms of such contract and the laws and regulations applicable thereto.

§ 50–250.7 Manpower Administration Regional Offices.

Following are the addresses of the regional offices of the Manpower Administration of the Department of Labor, together with a list of the States and territories in each region. The addresses of the State and local offices of the various State employment services can be obtained at the office of the appropriate Regional Manpower Administrator.

Region I—Room 1703, J. F. Kennedy Federal Building, Government Center, Boston, Mass. 02203. (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.) Region II—Room 716, 341 Ninth Avenue, New York, NY 10001. (New York, New Jersey, Puerto Rico, and the Virgin Islands.) Region III—Post Office Box 8796, Philadelphia, Pa. 19101. (5000 Wissahickon Avenue, do not use street address for mailing purposes). (Delaware, Maryland, Pennsylvania, Virginia, and West Virginia.) Region IV—Room 405, 1371 Peachtree Street NE., Atlanta, GA 30309. (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.) Region V—Room 2402, Federal Office Building, 219 South Dearborn Street, Chicago, IL 60604. (Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.) Region VI—7th Floor, Federal Center, 1100 Commerce Street, Dallas, TX 75201. (Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.) Region VII—Room 3000, Federal Building, 911 Walnut Street, Kansas City, MO 64106. (Iowa, Kansas, Missouri, and Nebraska.) Region VIII—Room 16015, Federal Office Building, 1961 Stout Street, Denver, CO 80208. (Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming.) Region IX—Room 10064, Federal Building, 450 Golden Gate Avenue, San Francisco, CA 94102. (Arizona, California, Guam, Hawaii, and Nevada.) Region X—Arcade Plaza, 1321 Second Avenue, Seattle, WA 98101. (Alaska, Idaho, Oregon, and Washington.) District of Columbia—Room 341, 555 Pennsylvania

V 38 N 20 JAN 31 73 XUM

Avenue NW., Washington, DC 20212. (District of Columbia.)

§ 50–250.8 Federal departments and agencies.

Federal executive departments and agencies in order to implement the Federal executive policy of assistance to Veterans in obtaining employment, shall list all of their employment openings, for which they have direct-hire authority or which are in the service excepted, with the appropriate office of the Federal-State Employment Service. They shall also furnish to the Secretary of Labor such reports and information as he may require in carrying out his responsibilities under the Veterans' Employment and Readjustment Act of 1972, and Executive Order 11701.

The effective date of this revision is January 24, 1973.

Signed at Washington, D.C. this 24th day of January 1972.

J. D. HODGSON,
Secretary of Labor.

CHAPTER 60—OFFICE OF FEDERAL CONTRACT COMPLIANCE, EQUAL EMPLOYMENT OPPORTUNITY, DEPARTMENT OF LABOR

PART 60–2—AFFIRMATIVE ACTION PROGRAMS

Agency Action

On August 31, 1972, notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 17765) with regard to amending § 60–2.2 of Chapter 60 of Title 41 of the Code of Federal Regulations. Interested persons were given 30 days in which to submit written comments, suggestions, or objections.

Having considered all relevant material submitted, I have decided to, and do hereby amend § 60–2.2 of Chapter 60 of Title 41 of the Code of Federal Regulations as follows:

§ 60–2.2 Agency action.

(a) (1) Any contractor required by § 60–1.40 of this chapter to develop an affirmative action program at each of his establishments who has not complied fully with that section is not in compliance with Executive Order 11246, as amended (30 FR 12319). Until such programs are developed and found to be acceptable in accordance with the standards and guidelines set forth in §§ 60–2.10 through 60–2.32, the contractor is unable to comply with the employment opportunity clause. An affirmative action plan shall be deemed to have been accepted by the Government at the time appropriate compliance agency has accepted such plan unless within 45 days thereafter the Office of Federal Contract Compliance has disapproved such plan.

(2) The appropriate compliance agency shall notify the contractor and the Office of Federal Contract Compliance when it has accepted an affirmative action plan.

(b) If, in determining such contractor's responsibility for an award of a contract it comes to the contracting officer's attention, through sources within his agency or through the Office of Federal Contract Compliance or other Government agencies, that the contractor has not developed an acceptable affirmative action program at each of his establishments or has substantially deviated from such an approved affirmative action program, the contracting officer shall notify the Director and declare the contractor-bidder nonresponsible unless he can otherwise affirmatively determine that the contractor is able to comply with his equal employment obligations or, unless upon review, it is determined by the Director that substantial issues of law or fact exist as to the contractor's responsibility to the extent that a hearing is, in his sole judgment, required prior to a determination that the contractor is nonresponsible: *Provided*, That during any preaward conferences every effort shall be made through the processes of conciliation, mediation and persuasion to develop an acceptable affirmative action program meeting the standards and guidelines set forth in §§ 60–2.10 through 60–2.32 so that, in the performance of his contract, the contractor is able to meet his equal employment obligations in accordance with the equal opportunity clause and applicable rules, regulations, and orders: *Provided further*, That when the contractor-bidder is declared nonresponsible more than once for inability to comply with the equal employment opportunity clause a notice setting a timely hearing date shall be issued concurrently with the second nonresponsibility determination in accordance with the provisions of § 60–1.26 proposing to declare such contractor-bidder ineligible for future contracts and subcontracts.

(c) Immediately upon finding that a contractor has no affirmative action program or has deviated substantially from an approved affirmative action program or that his program is not acceptable, the contracting officer, the compliance agency representative or the representative of the Office of Federal Contract Compliance, whichever has made such a finding, shall notify officials of the appropriate compliance agency and the Office of Federal Contract Compliance of such fact. The compliance agency shall issue a notice to the contractor giving him 30 days to show cause why enforcement proceedings under section 209(b) of Executive Order 11246, as amended, should not be instituted.

(1) If the contractor fails to show good cause for his failure or fails to remedy that failure by developing and implementing an acceptable affirmative action program within 30 days, the compliance agency, upon the approval of the Director, shall immediately issue a notice of proposed cancellation or termination of existing contracts or subcontracts and debarment from future contracts and subcontracts pursuant to § 60–1.26 (b) of this chapter, giving the contractor 14 days to request a hearing. If a request for hearing has not been received within 14 days from such notice, such contractor will be declared ineligible for future contracts and current contracts will be terminated for default.

(2) During the "show cause" period of 30 days every effort shall be made by the compliance agency through conciliation, mediation, and persuasion to resolve the deficiencies which led to the determination of nonresponsibility. If satisfactory adjustments designed to bring the contractor into compliance are not concluded, the compliance agency, with the prior approval of the Director, shall promptly commence formal proceedings leading to the cancellation or termination of existing contracts or subcontracts and debarment from future contracts and subcontracts under § 60–1.26(b) of this chapter.

(d) During the "show cause" period and formal proceedings, each contracting agency must continue to determine the contractor's responsibility in considering whether or not to award a new or additional contract.

Effective date. This amendment shall be effective January 31, 1973.

Signed at Washington, D.C., this 23d day of January 1973.

J. D. HODGSON,
Secretary of Labor.

[FR Doc.73–1829 Filed 1–30–73;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 18397; FCC 73–80]

PART 76—CABLE TELEVISION SERVICES

Memorandum opinion and order. In the matter of amendment of Part 74, Subpart K,[1] of the Commission's rules and regulations relative to community antenna television systems; and inquiry into the development of communications technology and services to formulate regulatory policy and rule making and/or legislative proposals, Docket No. 18397.

1. On June 24, 1970, we adopted the Second Report and Order in Docket No. 18397, 23 FCC 2d 816, in which we adopted § 74.1131—now § 76.501—of our cable television rules. Petitions for reconsideration and other pleadings have been filed, and we now address the objections.

2. Petitions and informal requests for reconsideration of the second report were received, during the regular filing period, from—

American Broadcasting Co. (ABC);
Central California Communications Corp. (CCCC);
Carter Publications, Inc.;
Columbus Cablevision, Inc.;
Fetzer Broadcasting Co.;
Gill Industries;
Gross Telecasting, Inc.;
Hazard Television Co., Inc.;
King Broadcasting Co.;
Liberty Television, Inc.;
McClatchy Newspapers;
Midcontinent Broadcasting Co.;
Monroe Cablevision, Inc.;
Morris, Lloyd P.;
National Association of Broadcasters (NAB);
National Association of Educational Broadcasters (NAEB);
National Broadcasting Co., Inc. (NBC);
Newhouse Broadcasting Corp.;
Post Co.;
Stauffer Publications, Inc., and Tribune Publishing Co., filing jointly (Stauffer);
Susquehanna Broadcasting Corp.;
Triangle Broadcasting Corp.; and
Vincennes University.

[1] Redesignated as Part 76, in issue of February 12, 1972; 37 FR 3252.

Subsequently, late-tendered pleadings were received from Connecticut Television, Inc. (CTI), and Broadcast-Plaza, Inc. (BPI), and supplementary pleadings were tendered by Columbus, Fetzer, Liberty, NAB, NAEB, Newhouse, and Stauffer. All of these are accepted for filing, and, in addition we have considered, in this context, a related rule making petition by Roanoke Telecasting Corp.

SUMMARY OF PLEADINGS

3. The respondents variously request that the Commission: (1) Rescind § 76.501 entirely, or with particular respect to television networks or stations (all stations, or UHF or educational stations), either permanently or pending further study; [2] (2) postpone the effective date of the rule; (3) rescind or modify the divestiture requirements, or lengthen the 3-year divestiture period, or articulate standards for case-by-case waiver of the rule; or (4) with respect to station-system cross-relationships, substitute some other measure (geographic, economic, audience size et al.) of co-location for the present predicted-Grade-B-contour standard; or (5) expressly preempt the subject of cross-ownership, to prevent States and local governments from adopting standards more stringent than those adopted by the Commission.

4. Full rescission of § 76.501 is urged by CCCC, Columbus, Fetzer, Gill, Monroe, NAB, and Newhouse. Monroe and Newhouse contend that, as a matter of law (section 4 of the Administrative Procedure Act, 5 U.S.C. 553(c)) and policy, the record on which the Commission relied in adopting § 76.501 was inadequate, in that the rule is justified in the second report primarily on the basis of theories and speculations unsupported by facts, and that the facts cited in that document are irrelevant. Specifically, Newhouse contends that the statement therein that 46 percent of the cable systems started in 1966 were "owned by radio or television stations" is irrelevant because it (i) doesn't indicate what percentage was owned by television stations, and (ii) indicates no trend toward domination of cable by broadcasters when considered together with the fact that, as of the date of issuance of the second report, fewer than 400,000 cable subscribers were served by systems within the Grade B contours of co-owned television stations. Moreover, Newhouse argues, the Commission, having made no determination as to what constitutes adequate communications media competition, cannot properly evaluate the need for remedial, or even preventative, action.

5. NAB cites the "Selden Report" ("Mass Communications in the United States," filed in Docket No. 18110 in January 1972, 6 months after adoption of the second report herein) as proof that "there is a very large diversity of media available to the public, in virtually every market regardless of size," to such extent that (apart from unique situations which could be dealt with on an ad hoc basis) "co-located cable television cross-ownership could not and would not significantly affect it." Newhouse and Fetzer cite data regarding some specific cable localities as evidence that adequate media competition exists.

6. Newhouse contends that, if broadcasters are excluded from cable system operation, other large corporations will move in without the broadcasters' record of public service, and it suggests that certain multiple-system operators favor § 76.501 because it "enabl[es] them to increase their share of the CATV market by eliminating a strong source of competition for local markets." In response to the argument that cable-broadcast cross-ownerships of the sorts dealt with in § 76.501 would encourage subordination of local-interest cablecasting to more profitable broadcast operations, Newhouse cites the voluntary importation of non-Newhouse TV broadcast signals by a Newhouse system within the Grade B contour of a co-owned television station.

7. Cross-ownership doesn't conflict with the Commission's "many voices" objective, Newhouse contends, since: (1) a cable system brings so many additional "voices" to the television set that any offsetting effects of local-cross ownership become insignificant; (2) a cable system conducting origination cablecasting will presumably focus on very local news and public service programing, something a TV broadcaster cannot do, and so station and system programing will not reinforce each other but rather concentrate on different subjects; and (3) cable systems can be (and, Gill notes, under the 1972 cable rules, in many cases are) required to provide access channels for programing not under the system operator's control. Newhouse, Columbus, and NAB assert that the Commission's primary basis for adoption of § 76.501 was the expectation that cable systems would originate cablecast programing to a significant extent in compliance with the program-origination rule (now § 76.201(a)), and claim that that basis has been invalidated by the Commission's stay-of-implementation of the program-origination requirement.[3]

[2] Or let UHF stations hold noncontrolling interests in co-located cable systems.

[3] The stay was ordered by the Commission after the U.S. Court of Appeals, Eighth Circuit, declared the program-origination requirement null and void. Midwest Video Corp. v. U.S., 441 F. 2d 1322 (1971). Subsequently, the Supreme Court reversed that Eighth Circuit decision (406 U.S. 649 (1972)), but the Commission has not yet acted to terminate the stay.

8. The Commission's contention, in footnote 2 of the second report, that "diversification rules would be desirable even if CATV operations were limited to carriage of broadcast signals and common carrier activities, in view of the limited number of broadcast and newspaper media in all communities, and the potential importance of cable facilities in providing many communications services," is dispute by Newhouse and Columbus on the ground that it "represents an arbitrary assumption of antitrust jurisdiction using patently wrong antitrust theories," since (1) cable and broadcasting are different industries in separate markets, and (2) there is an ample supply of media voices. Moreover, Newhouse argues, the future shape of cable television cannot be foreseen with certainty, and regulatory policies should not be based upon speculative prediction.

9. NAB contends that, as a result of our adoption of the Cable Television Report and Order in Docket No. 18397 (37 FR 3251, February 12, 1972), enough is now known about the future shape of cable to warrant rescission of § 76.501. Specifically, NAB says, under the new rules: (1) The TV broadcast signal carriage by cable systems is now predetermined more than ever by detailed rules, and hence the cable operator is, for the most part, unable to favor a co-owned local television station (or disadvantage a competing local TV station) by his distant-signal-carriage choices; and (2) the emphasis is now on access rather than origination cablecasting (with the cable operator rewired in the top 100 markets to provide at least three access channels beyond his programing control).

10. Newhouse contends that the provisions of § 76.501 lie beyond the Commission's statutory authority. It argues that nothing in the Communications Act prohibits a broadcast licensee from engaging in any proper type of business; cites a judicial decision for the proposition that the Commission lacks statutory authority to adopt a rule barring newspaper publishers from broadcast station ownership; and from that infers that the § 76.501 ban on television-cable cross-ownership also exceeds the Commission's statutory authority. Newhouse further argues that the Commission's power to regulate cable is limited to that reasonably ancillary to regulation of broadcasting, and questions whether cable system ownership may be included under that rubric.

11. Rescission of § 76.501(a)(1), regarding cross ownership et al. of cable systems with national television networks, is urged by two of the three national TV broadcast networks, ABC and NBC. In support of this request, they argue that: (1) Absent evidence of illegality or wrongdoing, adoption of the network cross-ownership ban is unfair to the networks and contrary to legal tradition in that (i) without good cause it bars an industry from experimenting with or adopting a new technology in developments related to its normal function of program distribution, and (ii) it

38-20 JAN 31 73 XUM

is unheard of in American law (under such circumstances) to impose per se disqualifications from future business interests and require divestiture of a business lawfully acquired or engaged in (NBC). (2) The Commission's Notice • • • in Docket No. 18397 did not inform parties that the question of network ownership of cable systems would be decided, and thus the rulemaking "notice" requirements in the Administrative Procedure Act have not been met; although some respondents to the notice commented on the network question, only 1 month (April 3 to May 12, 1969) was allowed for reply comment; and the question of TV broadcast network cross-ownership with cable systems is a major one which warrants full investigation and full opportunity for comment (ABC). (3) The Commission's fear that television network ownership of cable systems might inhibit cable development is contradicted by the fact that the television industry itself was developed to a large degree by radio broadcast licensees and networks, and newspaper and theater owners (ABC, NBC). And (4) the prohibition against network ownership of cable systems is premature, and could hamper cable growth, since (i) only a few cable subscribers are served by network-owned systems (ABC, NBC); (ii) cable television is at too early a stage of development, and its expansion and innovation needs and risks are too great for the Commission to deny ownership to those whose natural interest and communications innovation history may be the greatest; (iii) exclusion of TV network investment in cable systems will be without any justification if cable systems become essentially common carriers as a result of the Commission's rulemaking decisions designed to promote program diversity; and (iv) there is no problem of overconcentration of network ownership in cable television now, and there will be time enough to deal with the problem, if it is one, when the Commission knows what the role of cable is to be (ABC).

12. Rescission of § 76.501(a)(2), regarding cross-ownership et al. of cable systems with co-located television broadcast stations, is urged specifically by BPI, Carter, Columbus, CTI, Gill, McClatchy, and Midcontinent; and implicitly by Fetzer, Hazard, Liberty, and Monroe. Monroe objects to the local station-system cross-ownership ban on the ground that it prevents station licensees, who receive no compensation from cable systems for television broadcast carriage, from at least getting indirect compensation via ownership of cable systems in their own areas. Monroe further contends that the station-system cross-ownership ban reverses the Commission position expressed in Docket No. 15415; that the Commission's rationale for that reversal (i.e., that its previous view had not taken local cablecasting and other potential nonbroadcast communications services by cable systems) since, during the pendency of Docket No. 15415, the Commission could not have been unaware of these potentialities; and that the Commission's attempt, via § 76.501(a)(2), to foster competition between cable systems and co-located TV stations, is inconsistent with its claim of jurisdiction over cable on the ground that cable regulation is necessary to protect TV stations from cable system competition.

13. CTI contends that the station-system cross-ownership ban is insufficiently supported in the record because it is based not on allegations or evidence of any existing pattern of abuse, but rather on unjustified fear of potential anticompetitive abuse and unwarranted expectations that cable would play a pivotal role as an opinion molder; Liberty notes that the second report contains no findings regarding the degree of local cross-ownership in the United States; and Gill notes that no showing was made of any abuses in system operators' control of origination cablecast channels. McClatchy states that, as of January 1, 1970, fewer than 150 operating cable systems, serving 380,000 subscribers (6 percent of the number of systems, and 8.4 percent of the number of subscribers, at that time) were owned by parties with an interest in a co-located system, and that these 380,000 subscribers constituted only 0.6 percent of the then 62,213,900 TV homes in the United States; and concludes, in the light of these figures, that the alleged problem is de minimis. CTI contends that the station-system local-cross-ownership ban reflects a mere mechanical transference of existing broadcast principles to the emerging cable industry (as evidenced, it says, by the across-the-board application of the ban to UHF and VHF stations, commercial and noncommercial stations, and majority and minority interests, all without regard to the number and kinds of communications media serving a particular area). Such "mechanical transference" is inappropriate, CTI says, because of the "fundamental technical and competitive distinctions between broadcasting and cable communications."

14. Such alleged "mechanical transference" is particularly inappropriate, CTI argues, in the light of developments subsequent to the issuance of the second report. In particular, CTI contends, it is becoming increasingly unlikely that cable operators will play a significant role in the influencing of opinion. Rather, it asserts, there is a growing probability that cable operators will have little control over their systems' nonbroadcast programing, and that even major systems may not be required to originate cablecast programing at all. This last point raises an important threshold question, CTI says, in that the Commission's adoption of § 76.501 was strongly influenced by the expectation that most major cable systems would be under a regulatory obligation to act as significant programing media. Monroe asserts that, in any event, cable operators have no interest in opinion influencing, and that their cable origination would affect public opinion mainly by providing access to multiple voices in the community. Gill comments that a cable system's ability to influence its subscribers' opinions is restricted by, inter alia, the existence of competing media, the limited amount of cable origination (as a result of cost considerations), and the application of "political broadcast" and "fairness doctrine" rules to origination cablecasting. BPI urges the Commission to permit TV broadcasters to take part in the development of co-located systems, both because doing so would be consistent with the Commission's desire to foster cable growth in the Nation's largest market areas and because it would benefit viewers for television broadcasters who know their own areas' needs and interests, and who know how to do programing, to have a role in local cable development.

15. Exemption of UHF television stations from the scope of § 76.501(a)(2) is favored by CTI and Roanoke [4] and opposed by BPI. In support of an exemption for UHF stations, CTI states that: (1) Over the years, the Commission and Congress have adopted several measures to foster UHF in view of the technical and competitive disparities between UHF and VHF television, and the courts have regularly viewed such actions as valid exercises of Commission and congressional discretion; (2) but UHF and VHF are still far from competitive equals and there is continuing a need to foster UHF development; and (3) exemption of UHF television stations from the purview of § 76.501(a)(2) would materially foster the development of UHF television and would be fully consistent with regulatory policies previously adopted for that purpose. (As alternatives, if necessary, to full exemption of UHF stations from the local-cross-ownership ban, CTI urges that § 76.501(a)(2) be amended to permit a financially marginal UHF station to hold a minority interest in a co-located cable system, and to provide that UHF station-cable system cross-ownerships shall be dealt with on a case-by-case basis.) Roanoke urges the Commission to allow UHF stations to have ownership interests in co-located cable systems on the grounds that (4) a UHF station with an ownership interest in a co-located cable system can supply it with program origination facilities and expertise, and, (5) if the cable system is successful, it can bring added revenues to a financially straitened UHF station which has an interest in it.

16. BPI, on the other hand, contends that a special exemption for UHF stations would be unsound because: (1) It would confer an undue competitive advantage upon certain UHF stations (e.g., profitable network-affiliated stations in such top-50 markets as Hartford-New Haven, which is served by only two VHF stations); (2) even in the case of marginal UHF stations, it is not clear that cable system local cross-ownership would

[4] Also, in July 1972, the All-Channel Television Society filed a rulemaking petition requesting amendment of § 76.501 to permit a UHF station to hold an ownership interest in a co-located cable system.

improve the UHF station's financial condition or public service comparability; indeed it is equally likely that the cable system adjunct would be a drain on the UHF station's resources; (3) an exemption predicated on the plight of struggling UHF stations would in no way further the Commission's cable television objectives, and should therefore not be allowed. BPI argues that: (i) The case for relaxing the cross-ownership ban rests largely on the contribution that broadcasters can make to the development of cable in their service areas; (ii) judged in that light, a rule which would permit the class of TV stations with the least to contribute to enter cable business locally, but which would preclude entry by those TV licensees with the most to contribute, is hardly calculated to maximize the benefits of cable service to the public; (iii) to the extent that UHF stations are in a position to provide such assistance to cable television in an ownership capacity, they stand on no different footing than profitable VHF stations, and there is no reason why such UHF stations should be accorded preferential treatment.

17. Exemption of educational television stations from the scope of § 76.501(a)(2) is urged by NAEB, Vincennes University,[5] and an individual educator, Mr. Lloyd P. Morris, of Elmwood Park, Ill. Their arguments are analogous in many respects to those contained in comments on the subject filed in response to the Notice of Proposed Rule Making and of Inquiry in Docket No. 18891 (35 FR 11042, July 9, 1970), pursuant to footnote 1 of that document. NAEB asserts, first, that the original notice • • • in Docket No. 18397 did not discuss the need for or desirability of a prohibition against educational television station-cable system local cross-ownerships, and that the second report sets forth no reasons for such a prohibition. However, NAEB continues, it is clear that the thrust of the Commission's comments and attention, with respect to TV station-cable system, concerned commercial stations. Second, NAEB cites the Commission's acknowledgement (in footnote 1 of our notice • • • in Docket No. 18891) that cross-ownership with a cable system may be financially beneficial to an ETV station. These financial opportunities alone warrant deletion of the present ETV-cable local cross-ownership ban, NAEB urges, because "most of the difficulties confronting educational television stations are directly traceable to the lack of adequate funding • • •" In response to the Commission's observation that other potential sources of funds are available to ETV stations, NAEB replies that the operation of a local cable system would (i) be directly available to a local ETV station, (ii) be based on its own industry and initiative, and (iii) avoid the "oftentimes tortuous delays involved in securing funds from more traditional sources." Third, NAEB argues, ETV stations, as owners of cable systems, would make good use of cable's potentialities for educational and public service programing, in that: (i) They would make full use of the cable's broadband and two-way capabilities; (ii) they could coordinate the programing activities of the ETV station and the cable system so that (a) imported signals would not have an adverse effect on the ETV station's offerings, and (b) distant ETV signals could supplement local ETV station offerings but harmful duplication would be avoided; and (iii) ETV stations have good knowledge of local tastes, needs, and desires by virtue of their deep and broad-ranged roots in the community. Fourth, Vincennes notes that the Commission used a "multiple voices" argument in support of its adoption of both § 76.501(a)(2) and recent amendments to the broadcast multiple-ownership rules (in the first report and order in Docket No. 18110, 22 FCC 2d 306, released Apr. 6, 1970), but that it specifically excluded ETV stations from the applicability of the Docket No. 18110 amendments. (Also, some of the comments filed in Docket No. 18891 argue that the "multiple voices" argument does not properly apply to ETV stations because, in the typical case, ETV station governing boards memberships have been deliberately chosen to represent a broad range of community interests.)

18. A stay of implementation of § 76.501 is urged by Gill, Hazard, NAB, and Triangle. Gill, Hazard, and Triangle contend that it is unfair to single out TV broadcast-cable cross-ownership for early disposition because the Commission cannot logically isolate the questions pertaining to such cross-ownerships from the questions pertaining to cross-ownerships of cable systems with other mass-communications-media entities. The NAB urged deferral of the effective date of section 76.501 until the true nature of cable is clarified and until pertinent questions raised in the Commission's broadcast-multiple-ownership docket (No. 18110) are clarified.

19. Rescission or modification of the divestiture requirement: Most of the petitioners urge (1) rescission of the divestiture requirement of § 76.501, either (i) totally, or insofar as that requirement applies to (ii) networks or (iii) television stations; (2) extension of the present 3-year divestiture grace period; or (3) enunciation of appropriate standards for (i) general exceptions to, or (ii) case-by-case waivers of, the divestiture requirement.

20.—*Rescission:* NAB, urging total rescission of the divestiture requirement, cites a series of Commission actions which, in NAB's view, encouraged a number of broadcasters to enter the cable television field in the mistaken belief that subsequent divestiture would not be required. In the light of that history, NAB believes, the imposition of a divestiture requirement constitutes "a lack of elemental fairness." NBC criticizes the divestiture requirement, insofar as it applies to the networks, as unfair, invalid, and contrary to the public interest in view of an absence of findings of wrongdoing, illegality, or monopoly, and failure to consider the networks' contributions to cable television during cable's experimental period.

21.—*Re co-located television stations:* Several of the petitioners (CCCC, Carter, Columbus, CTI, Fetzer, Gill, Liberty, McClatchy, Midcontinent, Newhouse, NAB, Post, and Stauffer) urge rescission of the divestiture requirement insofar as it applies to co-located television broadcast stations. In support of such rescission it is argued that (i) procedural requirements have been violated; (ii) Commission precedent has been ignored; (iii) the divestiture requirement is injurious to present owners; (iv) the record is insufficient to justify the requirement; (v) mandatory divestiture is an extreme and unlawfully harsh remedy; (vi) it is discriminatorily ill-timed; and (vii) this timing forces cable operators to make "gambling" decisions regarding divestitures.

22. The procedural requirements of section 316(a) of the Communications Act were violated in the adoption of the mandatory-divestiture requirement, according to Columbus, McClatchy, Midcontinent, and Newhouse. They argue that: (1) The Commission asserts, in paragraphs 17 and 18 of the Second Report, that, in banning certain cross-ownerships with cable systems, it is exercising a licensing function with respect to cable; but (2) section 316(a) prohibits modification of "Any station license • • • by the Commission • • • until the holder of the license • • • [has] been given reasonable opportunity to show cause why such order of modification should not issue, and section 316(b) provides that the burdens of proof and of proceeding with the introduction of evidence are on the Commission; and yet (3) cable operators with interests in co-located television stations have been afforded an opportunity for a public hearing. Although (4) it is conceded that the Commission through rule making change the operating requirements of existing licensees (California Citizens Association v. United States, 375 F. 2d 43 (9th Cir. 1967), (5) that does not mean that the Commission may use the rule making to negate the provisions of section 316(a) (id., p. 51), e.g., by the adoption of a rule which is (as in the case of the mandatory-divestiture provisions of § 76.501) individual in impact and condemnatory in purpose—(6) The divestiture provision modifies the existing license of certain television stations by conditioning the continuance of that license upon their divestiture of co-located cross-owned cable systems—(7) The individual-impact character of this is heightened by the fact that only 400,000 homes, fewer than 0.07 percent of all TV homes, are served by cable systems within the predicted grade B contours of co-owned TV stations.

23. The divestiture requirement is contrary to Commission precedent, argue Columbus, Fetzer, McClatchy, Newhouse,

[5] Licensee of ETV Station WVUT, Vincennes, Ind., and operator of cable systems at Vincennes and Washington, Ind., and Bridgeport and Lawrenceville, Ill.

V38-20 JAN 31 73 XUM

and Stauffer; and (Fetzer adds) it is particularly harsh treatment of broadcasters who had been led to expect otherwise, acted in reasonable reliance thereon, and are now threatened as a result with great financial loss.

24. NAB urges the Commission to "grandfather" local cross-ownerships in being prior to the adoption of § 76.501 on the ground that the economic losses and uncertainties resulting from the divestiture requirement are of a far higher magnitude than damage caused by a prospective application of the rule. Several of the petitioners (CCCC, Carter, Columbus, Gill, Newhouse, and Post) cite the impact of the divestiture requirement on their own business operations as examples of the injury broadcasters with local cable interests. They refer to the long leadtime between capital investment and fully profitable operation, and the unlikelihood of recovering their investments in disposing of cable systems which have not matured to the point of fully demonstrating their potential profitability. They express little confidence in the Commission's hope that broadcasters will be able to negotiate exchanges of cable systems with broadcasters in other areas.

25. Petitioners contending that the evidence in the record is insufficient to warrant mandatory divestiture of cross-relationships between co-located cable systems and television systems state essentially the following: (1) The record includes no evidence of abuses of existing such cross-ownerships; nor is there any evidence of anticompetitive effects of existing cross-ownership situations, or of a reduction in the number of opinion-influencing voices available to people in communities served by cable systems within the grade A or B contour of a jointly owned television station. Moreover, cable systems will have "access" channels over which diverse opinions may be expressed without the control of cable operator (Columbus, McClatchy, Midcontinent, Newhouse). (2) The Commission adopted the cross-ownership ban on the basis of its "expertise" and in the light of its new requirement of program origination (id.). However, "expertise" is not an adequate basis for requiring divestiture of investments made in reliance upon previous Commission policies (Midcontinent); and the Commission's hope that it may foster program origination by means of the divestiture requirement is purely speculative since (i) most cable systems (whether station-owned or not) do not engage in program origination, and (ii) the program-origination rule provides no standard as to the types and amount of origination required (Fetzer). (3) The lack of record evidence supporting divestiture is all the more glaring when compared with the Commission's approach in adopting rules restricting broadcast-ownership combinations: (i) The broadcast duopoly policy gradually developed case by case. (ii) The chain-broadcast rules were adopted following a 6-year process, including extensive hearings before a five-member special committee (Columbus, McClatchy, Midcontinent, Newhouse). (iii) In the present proceeding, the Commission did not give affected parties a reasonable opportunity to supply data, unlike broadcast Docket No. 18110, in which the Commission gave parties 6 months additional time for filing of comments (Stauffer). (4) The Commission made no effort to demonstrate that the alleged problem is not de minimis. It fails to ascertain and show (i) the extent of broadcast-cable cross-ownership, and (ii) the impact of the Second Report within grade B contours of cross-owned stations (it has given no indication whether the new cross-ownership prohibition will affect 10 percent or 90 percent of the cable systems and/or subscribers in the United States). In contrast, in Docket No. 18110, the Commission published an exhaustive abstract, "Newspaper-Broadcast Joint Interests as of November 1, 1969". (Id.) (5) In fact, the available data (see paragraph 13 supra) indicates that the "problem" is, at most, deminimis (id.).

26. But, even assuming the existence of a problem, several petitioners argue, mandatory divestiture is a harsh remedy which is unwarranted where, as here, lesser remedies would do. In Timken Roller Bearing Co. v. United States, 341 U.S. 593, 603 (1951), they note, the U.S. Supreme Court ruled that "divestiture • • • is not to be used • • • without regard to the type of violation or whether other effective remedies, less harsh, are available". How, they ask, can the Commission impose mandatory divestiture upon cable operators who are innocent of misconduct in light of the Supreme Court's indication in Timken that it would not require divestiture in most cases in which actual wrongdoing was shown? They suggest, as less drastic measures sufficient to serve the Commission's purposes: (1) Application of the broadcast "fairness doctrine" and "political election" rules to cablecasting; (2) mandatory operation of a "common-carrier" cablecast channel; and (3) reliance upon prospective application of the cross-ownership ban, since future sales of stations and systems would gradually eliminate "grandfathered" cross-ownerships. (CCCC, Columbus, Fetzer, McClatchy, Midcontinent, Newhouse, and Stauffer.)

27. Finally, petitioners contend that the divestiture requirement is discriminatorily ill-timed in that (i) the Commission "prematurely" ordered a breakup of the "most insignificant" of the media combinations, cable-broadcast, just after postponing action on other cross-ownership proposals in Docket No. 18110 to permit further study (McClatchy and Midcontinent); and (ii) it is inconsistent and unfair to require the licensee of a TV station in a community to dispose of his interest in a cable system there while permitting the owner of a newspaper and AM and FM stations in that community to acquire a cable system there (Gill). Gill also argues that this nonsimultaneity of Commission action on the various cable cross-ownership questions unreasonably compels an entrepreneur with cable, TV, and AM and FM radio interests in the same area to gamble in deciding whether to divest himself of his TV station or the cable system—in that subsequent Commission rule making decisions may force him to divest himself of more of these interests than he would have had to if he could have anticipated those later decisions.

28.—*Modification of the divestiture requirement:* CCCC notes that the Commission has mentioned the possibility of divestiture-requirement waivers, but has not generally articulated its criteria for grant of such waivers; and it urges the Commission to reduce the time and expense involved in the waiver process by public announcement of specified waiver criteria. Gill urges a stay of the divestiture requirement in view of the little time remaining of the originally specified 3-year divestiture period, and the Commission's inaction to date on petitions for reconsideration. Without such a stay, Gill argues, "a cross-owner must soon determine which of his properties he will divest, and diligently seek a buyer, notwithstanding his lack of firm knowledge as to whether divestiture will be required after the Commission's reconsideration." If a specified divestiture period is deemed necessary, Gill says, it should be of 5 years' duration beginning when the Commission has resolved all of the communications media cross-ownership questions—5 years duration to avoid needless injury to present owners and to be consistent with Commission decisions in other, comparable situations, and the delayed starting time for reasons indicated in paragraph 27 supra. In addition, Gill urges that a cable operator be allowed to complete development of his cable facility pursuant to his pre-July 1970 plan even if that involves franchises acquired after July 1, 1970, because failure to do so will prevent numerous communities islanded within a cable facility's general service area from obtaining cable service for some time and will needlessly depress the resale value of the cable system, and because, "So long as it is understood that expanded portions of the system are to be divested along with the rest, there is no reason why the operator should not be permitted to • • • construct and operate newly franchised segments of his system until such time as the whole system is sold."

29. Cross-interest: The Commission is requested by CTI,[8] King, and Post to permit television station licensees to have a minority interest in colocated cable systems, on the grounds that prohibition of such cross-relationships is unprecedented and unnecessary to achieve the Commission's purposes (Post, King), that it denies a source of revenue that financially marginal stations may need in order to continue their broadcast service (CTI), and that it deprives cable systems of investment funds from television licensees who may wish to assist a cable capable of increasing their station's audience. If the Commission's aim is arm's-length competition, King asks, would it not suffice to limit the "any interest" ban to the primary area and omit the secondary area?

[8] With particular reference to financially marginal UHF stations.

30. Replacement or modification of the "predicted Grade B contour" measure of colocation is urged by BPI, Carter, CTI, King, Liberty, McClatchy, and Midcontinent. In King's view, the Grade B contour marks off a forbidden area which is much too large, and thus may deprive "outlying communities" within that contour of needed cable service even though in such places the cable system and the central-city TV station are not rival outlets.[7] King recommends the substitution of either a smaller, fixed-mileage area (e.g., the 35-mile zone recommended by McClatchy and Midcontinent) or, where pertinent, the U.S. Census Bureau-determined Standard Metropolitan Statistical Area (SMSA) in which the station operates. King argues that a cable system within a small outlying community is not a local rival to a central-city station because the station cannot be a "local outlet" there whereas the system will find it advantageous to focus, in its cablecasting, on the needs and interests of its own community. Moreover, King notes that, in communities more than 35 miles from the center of the station's market, distant-signal importation (a form of competition far more formidable than cablecasting) would not seriously affect even marginal UHF and small-market stations. Midcontinent contends that outlying communities within a cross-owned station's grade B contour are unlikely to be particularly influenced by that station's current affairs programing because such communities (i) typically receive many "overlapping stations," and (ii) in any event are small-townish in outlook, unlike the orientation of a big-city TV station.

31. King further contends that advertising solicitation by cablecasters would not cause any problems for the central-city station, since local firms in TV stations' secondary zones can't afford TV broadcast advertising, although they can be a good advertising source for cablecasters. Also, King argues, ownership of cable systems within its service areas does not give a TV station a competitive advantage over other TV stations in the same market since (1) systems are required by Commission rules to carry the signals of all same-market stations and to give them equal rights with respect to channel position, program nonduplication, etc.; and (2) the Commission's control over TV licensees who operate cable systems is more effective than its control over nonbroadcaster operators of cable systems.

32. Midcontinent and McClatchy challenge the Commission's assertion, in the Second Report, that use of the predicted grade B contour as the colocation boundary line contributes to administrative certainty, by citation of the Commission's statements, in paragraph 48 of the notice • • • in Docket No. 18397, that (i) the predicted grade B contour varies from station to station and may extend as far as 60 miles from the station's transmitter and (ii) a fixed-mileage standard would be administratively convenient and would provide certainty to those affected since air-mile distance from a specified point could be readily calculated without reference to contour maps in the Commission's offices or the necessity of an evidentiary hearing to resolve disputes.

33. King[8] contends that a standard resulting in a smaller colocation area than that marked off by the predicted grade B contour would be consistent with recent Commission actions in other proceedings. King notes that in the broadcast one-to-a-market proceedings, the Commission adopted as its area-demarcation standard not the grade B but the grade A contour. Moreover, King continues, in that proceeding the Commission noted that UHF stations and many FM stations still needed association with other local media to facilitate their growth, and thus built cross-ownership exceptions into the rule regarding such facilities in overlap situations. Particularly in secondary areas, King contends, cable is in an even less advanced state than UHF and FM, and should receive similar treatment. King also states that the Commission recently adopted a specific-waiver provision permitting telephone common carriers to provide cable television service to communities that would not otherwise obtain it. It argues that a broadcaster also has a special motivation to provide cable service to remote communities, can do so more economically than other potential owners, and can cablecast programing at less cost than a telephone company can (and is therefore more likely to).[9]

34. CTI suggests[10] that the cross-ownership limitation, if deemed necessary, be limited to those counties in which a station has a net weekly circulation of at least 70 percent (i.e., those areas in which "the broadcaster may at least arguably be in a position to influence opinion to a significant degree"). BPI, citing its own situation, considers it unreasonable to bar television station ownership of a cable system in a county in which Commission-endorsed data indicates that the station is not "significantly viewed". Liberty suggests three other alternatives which, alone or together, would in its opinion strike a balance between the goals of (i) insuring substantial program diversity, and (ii) fostering development of cable (as an essentially passive reception facility (in sparsely settled areas. Specifically, Liberty recommends (1) limitation of the station-system cross-ownership with systems which have more than 2,500 subscribers within the station's community of license, SMSA, or Area of Dominant Influence (ADI), and (ii) providing that the total number of subscribers to systems which are cross-owned with a TV station and within its grade B contour shall not exceed 15 percent of that station's NWC, or (3) exemption of systems with fewer than 2,500 subscribers from the cross-ownership ban.[11] On behalf of these three proposals, Liberty states: Re (1), that the top 100 markets contain the vast majority of TV homes, are the source of most TV revenue, and hold the real promise for program origination by cable systems; that below-top-100 markets offer little opportunity for large systems with potential for significant program origination, but do need cable systems to fill over-the-air signal reception gaps; and that ultimately, cross-ownership of TV stations and cable systems in small markets may be necessary to maintain the viability of local over-the-air TV broadcast facilities there; re (2), that the proposed 15 percent limitation would prevent a broadcaster from obtaining a subscriber base sufficient to raise a question of undue concentration of control; and, re (3), that TV station cross-ownerships with co-located systems with fewer than 2,500 subscribers (i) pose no problems with respect to programing diversity since such systems normally cannot engage in program origination anyway, and (ii) pose no threat of undue concentration of control.

35. Preemption: BPI urges that, if the TV station-cable system local cross-ownership prohibition is rescinded or substantially modified, the Commission preclude State and local authorities from imposing more restrictive cross-ownership limitations than ours.

Discussion of Pleadings

36. As indicated in the foregoing paragraphs, the respondents favoring rescission of the cross-ownership et al. provisions in § 76.501—either totally or

[7] King concedes that there may be outlying communities, in the station's secondary area, which are large enough to support cable systems truly competitive with a cross-owned central-city TV station, but suggests that special rules could be devised to deal with such situations.

[8] Citing 22 FCC 2d 306, 312 (paragraph 22), and 318–19 (paragraphs 45, 47, and 48) (1970).

[9] King contends that this telephone company-cable system cross-ownership exception relies on waiver rather than a general rule for reasons that do not apply in the context of section 76.501; i.e., (i) the difficulty of establishing a rational border-delineation standard, and (ii) charges of competitive abuse.

[10] With particular reference to UHF television stations.

[11] In a recently tendered supplementary pleading, Liberty substituted the following alternatives: (1) Restrict the general ban on cross-ownership of colocated TV stations and cable systems to the top 100 markets; in smaller markets, limit the ban to systems with 10,000 or more subscribers (in order not to discourage at least limited cable origination); or (2) (i) prohibit TV station-cable system cross-ownership within the community of license; (ii) authorize cross-ownership of smaller systems (i.e., with fewer than 10,000 subscribers) outside of the community of license; but (iii) provide that in no event shall the total number of subscribers of the cross-owned systems within the station's predicted grade B contour exceed 25 percent of the net weekly circulation of the cross-owned TV station; or (3) exempt systems with few than 7,500 subscribers from the cross-ownership ban.

VOL 38 NO 20 JAN 31 73 XUM

insofar as they apply in particular to national broadcast television networks, or to colocated television stations (all, or commercial UHF, or noncommercial educational)—argue variously that: the record relied upon by the Commission was insufficient; additional facts submitted by the respondents negate the Commission's conclusions; the Commission lacks statutory authority to impose such restrictions; inadequate notice of proposed rule making was given to network cross-owners; adoption of the rule reverses the Commission's previous position expressed in Docket No. 15415; and (6) developments subsequent to the adoption of § 76.501 have washed away its foundations.

37. The question of notice of proposed rule making regarding cross-ownership of cable systems with networks diminishes against the circumstances that: (1) In view of the introduction of the question of notice, we have reviewed ABC's and NBC's substantive arguments regarding network-cable cross-ownership, contained in their petitions for reconsideration, in the same manner, according them the same weight, as if their submissions had been received before the second report was issued; and that (ii) with respect to the relation of this procedural question to the divestiture provisions applicable to networks, the three-year divestiture grace period specified in the second report does not expire until this coming August, and we have in any event (in view of the considerable passage of time between the issuance of the second report and this memorandum opinion and order) decided to extend the grace period even further in order to avoid hardship to existing cross-owners.

38. Although we have given thoughtful consideration to the petitioners' other contentions, we remain persuaded that the provisions of § 76.501 prohibiting ownership, operation, control, or interest of a cable television system with a national broadcast television network or a colocated television broadcast or translator station, and requiring divestiture of such prohibited cross-relationships by a date certain, are in the public interest and should continue in force.

39. Our adoption of these provisions—designed to foster diversification of control of the channels of mass communication—was guided by two principal goals, both of which have long been established as basic legislative policies. One of these goals is increased competition in the economic marketplace; the other is increased competition in the marketplace of ideas.

40. We did not choose to wait until cable reached maturity before acting to achieve these goals. Having grappled over the years with the problems of cross-media control of radio and television stations, by national broadcast networks, and by newspapers and other broadcast stations in the same communities and market areas, we had become increasingly persuaded, first, that cross-media control is generally undesirable (although temporary exceptions are sometimes warranted); second, that the evidence of previously developed electronic mass media indicated that, in the absence of regulatory prohibition, considerable cross-media control of cable television could be expected, and that tendencies in that direction had already begun; and, third, that cross-media control of cable would become increasingly difficult to halt and reverse as cable grew if its growth were not accompanied by early imposed regulations designed to foster diversification of control.

41. Some of the data leading to the second conclusion were summarized in paragraphs 9 and 10 of the second report. That was not intended to demonstrate that abuses of cable system ownership were taking place to any significant degree, or that broadcasters' control of cable facilities had already advanced to major proportions. What it did demonstrate was that the major broadcast television networks were already such dominant influences in the television field that any further expansion of their ownership or control into the new and growing cable television industry was per se undesirable, and that such network involvement in cable should be stopped and turned around before it became entrenched; and that about 30 percent of the cable systems in existence in December 1968, were broadcaster-controlled.[12] Newhouse in its petition for reconsideration indicates that, as of the date of issuance of the second report, approximately 400,000 cable subscribers—close to 10 percent of the total number of cable subscribers at that time—were served by systems within the predicted grade B contours of television stations under common ownership with those systems.

42. CTI characterizes our adoption of cable cross-ownership rules as a "mechanical transfer" of broadcast concepts to cable notwithstanding "fundamental technical and competitive distinctions between • • • [them]." Whatever distinctions may exist between TV stations and cable systems, it is nonetheless true that actions taken by cable system operators—to carry or not carry certain distant stations, to offer program origination or not, to move speedily or at the slowest pace permitted to develop access channel facilities and encourage their use—all can affect the audiences and earnings of colocated television stations. In the light of this fact, we remain persuaded that cable systems are more likely to grow, in size and service to their subscribers, if they are not under common control with colocated television stations. We have not been shown that cable growth will be significantly retarded by the unavailability, under our rules, of financial investment by colocated stations.

43. We do not agree with the contention that new developments have washed away the case for cable-broadcast cross-ownership restrictions. Our adoption of the Cable Television Report and Order was designed to encourage the growth of cable; to the extent that our efforts in that regard are successful, the time available to us for early preventative action with respect to cross-control of cable and other media is foreshortened. The assurance we are offered that cable will ultimately become essentially a "common carrier" of mass communications may or may not be correct, but in either event fails to come to grip with the short run, during which origination cablecasting can be expected to play a significant role in attracting, and affecting, cable subscribers.

44. Our reasons for not exempting UHF television stations from the general applicability of § 76.501 are well summarized in paragraph 16 supra, and do not require repetition here. Our reasons for not exempting educational television stations are essentially the same as those previously indicated by us in footnote 1 of the Notice of Proposed Rule Making and of Inquiry in Docket No. 18891 (35 FR 11042 July 9, 1970), released concurrently with the second report; the arguments in favor of exemption set forth in paragraph 17 supra do not extend significantly beyond those of which we were aware at the time of issuance of the second report, and the Notice • • • in Docket No. 18891; and in certain particulars—notably NAEB's assertion that ETV cross-owners could coordinate the programing activities of the ETV station and the cable system so that imported signals would not have an adverse effect on the ETV station's offerings—are uncomfortable reminders of some of the disadvantages of cable cross-ownership with local commercial television.

45. The question of our jurisdiction to adopt rules concerning diversification of ownership of cable television systems is adequately treated in paragraph 17 of the second report, and requires no further elaboration at this juncture.

46. In the preceding paragraphs, we have (in response to a number of petitions for reconsideration in this matter) set forth our basic present position with respect to the cable cross-ownership provisions in section 76.501 of our rules.

47. Having done so, we must also express our recognition that a requirement of mandatory divestiture of existing such cross-ownerships is more severe in its impact on affected broadcasters—and hence requires greater justification—than a rule prohibiting only the subsequent creation of such cross-relationships. We are well aware of the Supreme Court's admonition, in Timken Roller Bearing Co. v. U.S., 341 U.S. 593, 603 (1951), that "divestiture • • • is not to be used • • • whe[re] other effective remedies, less harsh, are available."

48. Moreover, it must be conceded that in at least one respect, the need for a prohibition against cross ownership et al. of colocated stations and systems—and for mandatory divestiture—has abated somewhat as a result of the Commission's recent adoption of § 76.251 of the rules (in the Cable Television Report and Order in Docket No. 18397, 36 FCC 2d 143, released Feb. 3, 1972). That section provides that all cable television systems operating in major market areas—where approximately 70 percent of the American people reside—must, by March 31, 1977, maintain public-access, education-access, and local-government-access nonbroadcast channels, and promptly expand their facilities as needed to meet demand for leased-access nonbroadcast channels; and that "Each such system shall exercise no control over program content on any of th[ese] channels • • •" Although this recent development is not sufficient to alter our basic view regarding the provisions of § 76.501, it does suggest that there may be several more station-system local-cross-ownership situations than we had previously anticipated in which the balance of relevant considerations now weighs in favor of a waiver of the mandatory-divestiture requirement.

49. In paragraph 13 of the Second Report and Order in Docket No. 18397 (issued in July 970), we stated that "we would consider waivers on an ad hoc basis where it is clearly established that a cross-ownership ban would not result in greater diversity, and in footnote 6 we added that "There may, for example, be some sparsely inhabited area where no one is willing to apply for an available broadcast channel except a local CATV operator interested in providing CATV-originated programing to a wider area."

50. It now appears to us that those statements may have actually had the effect of inhibiting, rather than encouraging, the submission of justifiable requests for waiver of the divestiture requirement: there may well be a number of other grounds and circumstances which, if properly argued and substantiated by petitioners, would result in the grant of specific waivers.

51. Accordingly, we invite the filing—within 120 days after the issuance of this memorandum opinion and order—of petitions for waiver of the mandatory-divestiture requirement (fully supported by pertinent facts, views, arguments, and data) from all cross owners et al. of colocated television stations and cable systems who believe that grandfathering would be appropriate in their case. Upon the receipt of a number of such petitions, they will be carefully reviewed by the Commission to enable us to pick out, on a rational and consistent basis, those situations in which the issuance of a waiver (or other appropriate relief) would both serve the underlying objectives of § 76.501 and avoid unnecessary hardship. Where such a waiver is granted, the petitioner's interests in the affected station and cable television facility may not subsequently be transferred to a new joint holder without prior approval of the Commission, upon a showing by the petitioner that such transfer(s) would serve the public interest.

52. It would be premature for the Commission at this time to specify the grounds for waiver which it will find acceptable, or to list the evidence necessary to support such grounds. We will certainly be interested in such aspects as (1) the extent (if any) of financial loss the cross-owner would suffer as a result of mandatory divestiture; (2) the impact of the station-system cross-relationship upon economic competition and diversity of control of media of expression in the service areas of the stations and systems in question; and (3) the quality of service which the system has been providing (in terms of broadcast signal carriage, cablecast programing by the system and others, system technical quality and reliability, etc.), and the extent to which it has been enhanced, or impaired, by the cross-relationship. But this itemization is intended only to be suggestive, and the Commission does not at all assume that it exhausts the possibilities.

53. We recognize, of course, that this process will further extend the period of uncertainty which has existed during the 2-year pendency of the petitions for reconsideration of the Second Report and Order in Docket No. 18397, and accordingly we have also decided to generally extend the grace period for divestiture of prohibited cross ownerships et al. until August 10, 1975.

Accordingly, it is ordered, that the petitions for reconsideration filed in response to the Second Report and Order in Docket No. 18397 are denied in all respects except that indicated below.

In view of the foregoing, and pursuant to authority contained in sections 4(i), 5, and 303(r) of the Communications Act of 1934, as amended, *It is further ordered,* That effective March 2, 1973, § 76.501(b) of the Commission's rules is amended to substitute "August 10, 1975", for "August 10, 1973."

It is further ordered, That the proceeding in Docket No. 18397 is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: January 17, 1973.

Released: January 31, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[13]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-1863 Filed 1-30-73;8:45 am]

[12] By Mar. 30, 1972, according to Television Factbook (1972-73 ed., p. 75-a), broadcasters held ownership interests in some 37.9 percent of the 2,839 cable system operations.

[13] Commissioner Robert E. Lee, dissenting, issued a statement filed as part of the original document; Commissioner Hooks, dissenting, issued a statement to be distributed at a later date. Commissioners Reid and Wiley concurred and issued statements, filed as part of the original doctrine.

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—OFFICE OF PIPELINE SAFETY

[Amdt. 195-5; Docket No. OPS-22]

PART 195—TRANSPORTATION OF LIQUIDS BY PIPELINE

Change of Authority Regarding Safety of Liquid Pipelines

The purpose of these amendments to Part 195 of Title 49 of the Code of Federal Regulations is to reflect changes resulting from Public Law 92-401 which on August 22, 1972, amended section 6(f)(3)(A) of the Department of Transportation Act (49 U.S.C. 1655(f)(3)(A)), in effect, to delete the authority of the Federal Railroad Administrator to carry out the liquid pipeline safety functions under 18 U.S.C. 831-835 and to place it with the Secretary of Transportation.

The Secretary of Transportation on November 7, 1972, delegated the authority with respect to safety of liquid pipelines to the Assistant Secretary for Safety and Consumer Affairs (37 FR 24674, Nov. 18, 1972) and on November 7, 1972, the Assistant Secretary redelegated that authority to the Director, Office of Pipeline Safety (37 FR 24901, Nov. 23, 1972). With the redelegation to the Director, Office of Pipeline Safety, the authority to regulate the safety of liquid pipelines is now vested in the same office that has the authority for the safety of gas piplines. These amendments, accordingly, revise Part 195 to make it consistent with the change in authority.

In substance, this rulemaking action deletes all references to the Administrator, Federal Railroad Administration and adds the definition and necessary references to the Secretary of Transportation. In addition, changes to Subpart B of Part 195, to the extent possible, provide for the administrative handling of accident reports by the Director, Office of Pipeline Safety.

Since these amendments are based on a change in law and reflect changes in departmental organization and delegation of powers and duties made in response thereto which have already become effective, notice and public procedure thereon are impractical and unnecessary and good cause exists for making them effective on less than 30 days notice.

In consideration of the foregoing, Part 195 of Title 49 of the Code of Federal Regulations is amended, effective immediately, as follows:

1. Section 195.2 is amended by deleting the term "Administrator" and the associated definition in its entirety.

2. Section 195.2 is amended by adding the following definition immediately after the definition for "Pipeline system" or "pipeline":

§ 195.2 Definitions.

• • • • • •

"Secretary" means the Secretary of Transportation or any person to whom he has delegated authority in the matter concerned.

• • • • • •

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 72-31; Notice 2]

PART 580—ODOMETER DISCLOSURE REQUIREMENTS

The purpose of this notice is to establish a regulation that will require a person who transfers ownership in a motor vehicle to give his buyer a written disclosure of the mileage the vehicle has traveled. The regulation carries out the directive of section 408(a) of the Motor Vehicle Information and Cost Savings Act, Public Law 92–513, 86 Stat. 947, and completes the provisions of the Act under Title IV, Odometer Requirements.

The regulation was first proposed in a notice published in the FEDERAL REGISTER on December 2, 1972 (37 FR 25727). As a result of numerous comments on the proposal, the regulation as issued today differs in some respects from its initial form.

As stated in the proposal, the agency's goals were to link the disclosure statement as closely as possible to the documents required for transfer of ownership, so that buyers and sellers would know of the need for disclosure, and to do so in a manner that would not introduce an additional document into motor vehicle transactions. The agency therefore proposed the use of the certificate of title as the document for odometer disclosure.

Upon review of the comments, it became evident that in most jurisdictions it would not be feasible to use the title certificate to convey odometer information. The main drawback to its use lies in the prevalence of State laws providing that if a vehicle is subject to a lien, the title is held by the lienholder. As a result, it appears that in a majority of cases private parties selling motor vehicles do not have possession of a certificate of title, and convey their interest by other means.

In those States that permit the owner of a vehicle subject to a lien to retain the title, the lienholder will be unable to make the odometer disclosure on the title if he attempts to sell the vehicle after repossession. In many States, furthermore, the title certificate is not large enough to contain an adequate odometer disclosure, and the existing data processing and filing equipment would not accommodate an enlarged certificate.

There appears to have been some apprehension that the Federal Government intended to compel the States to amend their certificates of title. The Act does not, however, confer any authority over the States in this regard. Even if the regulation were to require transferor disclosure on the title, the States could decline to provide a form for disclosure on the title. This voluntary aspect of the States' participation is a further impediment to the use of the title certificate.

After review of the problems created by the use of the certificate of title, the agency has decided that the purposes of the Act are better served by prescribing a separate form as the disclosure document in most cases. Section 580.4 has been amended accordingly. To avoid the need for duplicate State and Federal disclosures in States having odometer disclosure laws or regulations, the section permits the State form to be used in satisfaction of the Federal requirement, so long as it contains equivalent information and refers to the existence of a Federal remedy.

It should be noted that although the certificate of title is no longer required to be used for disclosure, it can still be used as the disclosure document if it contains the required information and if it is held by the transferor and given by him to the transferee. The basic concept is that the disclosure must be made as part of the transfer, and not at some later time.

In addition to the changes from the proposal represented by the change from the certificate of title to a separate form, there are other differences from the proposal in the regulation. For purposes of convenience, the following discussion treats the amended sections in sequence.

In § 580.3, the proposed definition of transferor might in some jurisdictions include a person who creates a security interest in a vehicle. This type of transaction was not intended to be regulated, and the definitions have been amended accordingly.

In § 580.4, in addition to the changes discussed above, other modifications have been made. In response to a comment suggesting that the disclosure would be made after the purchaser had become committed to buying the vehicle, the order of § 580.4(a) has been rearranged to specify that the odometer disclosure is to be made before the other transfer documents are executed.

The items listed under § 580.4(a) have been increased to allow for additional identification of the vehicle and owner that would be necessary on a separate disclosure document. If the disclosure is a part of another document, however, § 580.4(a)(1) provides that items (2) through (4) need not be repeated if found elsewhere in the document. A number of comments noted that the items under (a) might often be redundant.

A new paragraph (b) has been inserted in § 580.4 to require a reference to the sanctions provided by the Act. No specific form is required, but the inclusion of such a statement is considered essential to notify the transferee of the reason why he is being given the odometer information.

The former paragraph (b) of § 580.4 has been renumbered as (c), and the alternative methods for odometer disclosure discussed above are found as paragraphs (d) and (e).

A new section, § 580.5, has been added in response to a number of comments that objected to the application of the requirements to categories of vehicles for which the odometer is not used as a guide to value. Buses and large trucks, for example, are routinely driven hundreds of thousands of miles, and their maintenance records have traditionally been relied on by buyers as the principal guide to their condition. The NHTSA is in agreement with the position taken by Freightliner, White, and the National Association of Motor Bus Operators, and has therefore created an exemption for larger vehicles. The exemption applies to vehicles having gross vehicle weight ratings of more than 16,000 pounds.

A second category of exempt vehicles has been created for antique vehicles, whose value is a function of their age, condition, and scarcity, and for which the odometer mileage is irrelevant. A third exempt category consists of vehicles that are not self-propelled, such as trailers, most of which are not equipped with odometers.

Several vehicle manufacturers stated that the proposal would require them to give disclosure statements to their distributors and dealers, and that such a requirement would be both burdensome and pointless. Upon consideration of the nature of manufacturer-dealer transactions, it has been decided to exempt transfers of new vehicles that occur prior to the first sale of the vehicle for purposes other than resale.

The odometer disclosure form set forth in § 580.6 has been reworded to make it clearer. Space for additional information about the vehicle and owner has been included so that the vehicle will be readily identifiable if the disclosure statement becomes separated from the other transfer documents. In accordance with the instructions of the Act, the transferor is directed to state that the mileage is unknown if he knows that the actual milage differs from the mileage shown on the odometer. Although several comments suggested that the true mileage, if known, should be stated, such a statement is not provided for in the Act and would not afford the buyer with reliable information about the vehicle.

The effective date proposed in the notice was to have been 6 months after issuance. Two States, perhaps under the impression that they were required to change their forms, requested an additional 6 months. Other comments, notably that of the National Automobile Dealers Association, urged an immediate effective date in order to make the disclosure requirements coincide with the effectiveness of the other parts of Title IV of the Act. Upon consideration of the important contribution the disclosure requirements make to the effectiveness of the Act's other provisions, it has been decided that an effective date earlier than 6 months after issuance is advisable.

Accordingly, the regulation is to become effective March 1, 1973. Although it is likely that most private persons will remain unaware of the disclosure requirements for some time after March 1, 1973, a person who does not know of the requirement will not have "intent to defraud" under section 409(a) of the Act and will therefore not be subject to liability solely because he has failed to make the required statement. The persons most immediately affected by the disclosure requirements are commercial enterprises such as dealers and wholesalers, and of these the largest group, represented by NADA, has already indicated its desire for an early effective date. The earlier effective date is therefore considered appropriate.

In consideration of the foregoing, a new Part 580, Odometer Disclosure Requirements, is added to Title 49, Code of Federal Regulations, to read as set forth below.

Issued on January 23, 1973.

DOUGLAS W. TOMS,
Administrator.

Sec.
580.1 Scope.
580.2 Purpose.
580.3 Definitions.
580.4 Disclosure of odometer information.
580.5 Exemptions.
580.6 Disclosure form.

AUTHORITY: Sec. 408(a), Motor Vehicle Information and Cost Savings Act, Public Law 92–513, 86 Stat. 947, 49 CFR 1.51.

§ 580.1 Scope.

This part prescribes rules requiring the transferor of a motor vehicle to make written disclosure to the transferee concerning the odometer mileage and its accuracy, as directed by section 408(a) of the Motor Vehicle Information and Cost Savings Act, Public Law 92–513.

§ 580.2 Purpose.

The purpose of this part is to provide each purchaser of a motor vehicle with odometer information to assist him in determining the vehicle's condition and value.

§ 580.3 Definitions.

All terms defined in sections 2 and 402 of the Act are used in their statutory meaning. Other terms used in this part are defined as follows:

"Transferor" means any person who transfers his ownership in a motor vehicle by sale, gift, or any means other than by creation of a security interest.

"Transferee" means any person to whom the ownership in a motor vehicle is transferred by purchase, gift, or any means other than by creation of a security interest.

§ 580.4 Disclosure of odometer information.

Except as provided in § 580.5—

(a) Before executing any transfer of ownership document, each transferor of a motor vehicle shall furnish to the transferee a written statement signed by the transferor, containing the following information:

(1) The odometer reading at the time of transfer; and, unless provided elsewhere on a transfer document integal with the odometer disclosure;

(2) The date of the transfer;

(3) The transferor's name and current address; and

(4) The identity of the vehicle, including its make, model, and body type, its vehicle identification number, and its last plate number.

(b) In addition to the information provided under paragraph (a) of this section, the statement shall refer to the Motor Vehicle Information and Cost Savings Act and shall state that incorrect information may result in civil liability under it.

(c) In addition to the information provided under paragraph(a) of this section, if the transferor knows that the odometer reading differs from the number of miles the vehicle has actually traveled, and that the difference is greater than that caused by odometer calibration error, he shall include a statement that the actual mileage is unknown.

(d) If a document provided under the laws or regulations of the State in which the transfer occurs contains the statements required by paragraphs (a), (b), and (c) of this section, the transferor may make the disclosure required by this section either by executing the State document or by executing the disclosure form specified in § 580.6.

(e) If there is no State document as described in paragraph (d) of this section, the transferor shall make the disclosure required by this section by executing the disclosure form specified in § 580.6.

§ 580.5 Exemptions.

Notwithstanding the requirements of § 580.4—

(a) A transferor of any of the following motor vehicles need not disclose the vehicle's odometer mileage:

(1) A vehicle having a gross vehicle weight rating, as defined in § 570.3 of this chapter, of more than 16,000 pounds;

(2) A vehicle that is not self-propelled; or

(3) A vehicle that is 25 years old or older.

(b) A transferor of a new vehicle prior to its first transfer for purposes other than resale need not disclose the vehicle's odometer mileage.

§ 580.6 Disclosure form.

ODOMETER MILEAGE STATEMENT

(Federal regulations require you to state the odometer mileage upon transfer of ownership. An inaccurate statement may make you liable for damages to your transferee, pursuant to section 409(a) of the Motor Vehicle Information and Cost Savings Act of 1972, Public Law 92–513.)

I, _____, state that the odometer mileage indicated on the vehicle described below is _____ miles.

(Check the following statement, if applicable:)

☐ I further state that the actual mileage differs from the odometer reading for reasons other than odometer calibration error and that the actual mileage is unknown.

Make	Body Type	Year	Model
Vehicle Identification Number		Last Plate Number

[Docket No. 69-20; Notice 6]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Accelerator Control Systems

The purpose of this notice is to respond to petitions for rulemaking to amend and petitions for reconsideration of Motor Vehicle Safety Standard No. 124 (49 CFR 571.124).

On September 23, 1972 (37 FR 20033), Motor Vehicle Safety Standard No. 124 was published specifying time requirements for the return of a vehicle's throttle to the idle position. Pursuant to 49 CFR 553.35, petitions for reconsideration were filed by Japan Automobile Manufacturers Association, Inc. (JAMA) and Volkswagen of America, Inc. Additionally, pursuant to 49 CFR 553.31, a petition for rulemaking to amend the standard was filed by the Ford Motor Co.

Favorable consideration has been granted to some of the requests and accordingly, the standard is being amended in some minor respects. The Administrator has declined to grant requested relief from other requirements of the standard.

Volkswagen requested that the test requirements for cold temperatures be clarified, in order to determine whether it is possible to use supplementary starting devices and to "pump" the accelerator control pedal during and after the presoak and prior to the test. The advantages of using supplementary devices and warmup procedures are recognized, but in many instances, the driving public either does not adhere to the manufacturer's recommended warmup procedures or uses other procedures. The intent of the standard is to afford the driving public as broad a coverage of the rule as is possible, by simulating as closely as possible actual conditions. Accordingly, for purposes of testing compliance the engine may be started by the use of any supplementary starting devices and procedures except those which would induce the vehicle into motion by the application of an external force.

Volkswagen also asked the NHTSA to define the speed at which the accelerator pedal is "to be released" to mark the beginning of the test determining the return of the throttle to idle position. The agency's intent is to provide protection in the variety of situations that may be encountered on the road. The vehicle, therefore, must be capable of meeting the requirements no matter how rapidly or slowly the driver's foot is lifted from the pedal. The actuating force actually is not "removed" from the pedal until the foot is no longer in contact with it, so the measured time period for throttle return does not begin until the instant when the foot leaves the pedal.

Further, Volkswagen asked the NHTSA to define a "running engine." Volkswagen stated that during cold testing an engine could start, run for approximately 6 seconds, and then stall. Volkswagen theorized that it would be possible to have an accelerator system fail the test requirements during this 6-second interval, although the engine would be incapable of causing a safety problem. The phrase "engine running" defines a condition without which throttle return to idle position has no significance. The intent of the standard is to prevent any safety problems caused by faulty throttle return over a broad range of operating circumstances and temperature conditions. The condition of a running engine, regardless of torque produced, is a clearly definable point at which a safety problem could begin to occur. Therefore, the vehicle must be capable of meeting the requirements whenever the engine is rotating without the application of any external force.

JAMA requested that the time requirements for maximum return to idle position when tested in temperatures between 0° and −40° F. be applied "only when there is no failure of the source of energy and no disconnection or severance of components." JAMA stated that in order for a system to meet the time requirements of the rule during the cold testing, the "required pedal effort would be increased to an extent that would not be acceptable to the ordinary driver." In its earlier comments to Notice 3 (37 FR 7097), JAMA stated that if each energy source was independently required to return the throttle to idle within the specified time requirements, increased pedal forces would be necessary. In response to this comment and to allow a manufacturer design freedom, the standard was amended by Notice 5 (37 FR 20033), to specify that independent capability of energy sources to return the throttle to idle position was not required. The amendment also gave an additional time allowance for return to idle position for vehicles tested or conditioned in cold temperatures. Based on these factors and on the comments received from other manufacturers, this agency's position is that the standard provides enough latitude for a manufacturer to feasibly meet the pedal force requirements and the time requirements for return to idle, even if there is a failure of one source of energy or a severance or disconnection occurs. The petition is therefore denied.

Ford pointed out that under the requirements section, S5.1 states that, "There shall be at least two sources of energy" and that this seemed at variance with the intent expressed in the preamble to Notice 5 that energy sources do not have to be contained in the accelerator control system. To further clarify the intent expressed in Notice 5, the phrase in S.5 "The vehicle shall be equipped with a driver-operated accelerator control system that meets the following requirements" is changed to "The vehicle shall meet the following requirements * * *."

Ford also asked for a clarification of the word "failure" in S5.1. Ford stated that the word was ambiguous in that it would allow for abnormal operating conditions outside the scope of the standard's intent to assure safety under conditions of a single failure due to a severance or disconnection in the system. To clarify the standard's intent, the phrase in S5.1 which states that, "In the event of failure of one source of energy the remaining source or sources shall be capable of returning the throttle" is changed to "In the event of failure of one source of energy by a single severance or disconnection, the throttle shall return * * *."

Further, in the first sentence of S5.2 the word "becomes" is changed to "is" and the phrase "at a single point" is added to the end of the sentence to clarify this meaning.

In consideration of the foregoing, 49 CFR 571.124, Motor Vehicle Safety Standard No. 124, is revised to read as set forth below.

Effective Date: September 1, 1973.

(Secs. 103, 119, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegation of authority at 49 CFR 1.51)

Issued on January 24, 1973.

DOUGLAS W. TOMS,
Administrator.

§ 571.124 Standard No. 124; accelerator control systems. (Effective Sept. 1, 1973)

S1. *Scope.* This standard establishes requirements for the return of a vehicle's throttle to the idle position when the driver removes the actuating force from the accelerator control, or in the event of a severance or disconnection in the accelerator control system.

S2. *Purpose.* The purpose of this standard is to reduce deaths and injuries resulting from engine overspeed caused by malfunctions in the accelerator control system.

S3. *Application.* This standard applies to passenger cars, multi-purpose passenger vehicles, trucks, and buses.

S4. *Definitions.*

S4.1 "Driver-operated accelerator control system" means all vehicle components, except the fuel metering device, that regulate engine speed in direct response to movement of the driver-operated control and that return the throttle to the idle position upon release of the actuating force.

"Fuel metering device" means the carburetor, or in the case of certain engines the fuel injector, fuel distributor or fuel injection pump.

"Throttle" means the component of the fuel metering device that connects to the driver-operated accelerator control system and that by input from the driver-operated accelerator control system controls the engine speed.

"Idle position" means the position of the throttle at which it first comes in contact with an engine idle speed control appropriate for existing conditions according to the manufacturers' recommendations. These conditions include, but are not limited to, engine speed adjustments for cold engine, air conditioning, and emission control, and the use of throttle setting devices.

"Ambient temperature" means the surrounding air temperature, at a distance such that it is not significantly affected by heat from the vehicle under test.

S4.2 In the case of vehicles powered by electric motors, the words "throttle" and "idle" refer to the motor speed controller and motor shutdown, respectively.

S5. *Requirements.* The vehicle shall meet the following requirements when the engine is running under any load condition, and at any ambient temperature between −40° F. and +125° F. after 12 hours of conditioning at any temperature within that range.

S5.1 There shall be at least two sources of energy capable of returning the throttle to the idle position within the time limit specified by S5.3 from any accelerator position or speed whenever the driver removes the opposing actuating force. In the event of failure of one source of energy by a single severance or disconnection, the throttle shall return to the idle position within the time limits specified by S5.3, from any accelerator position or speed whenever the driver removes the opposing actuating force.

S5.2 The throttle shall return to the idle position from any accelerator position or any speed of which the engine is capable whenever any one component of the accelerator control system is disconnected or severed at a single point. The return to idle shall occur within the time limit specified by S5.3, measured either from the time of severance or disconnection or from the first removal of the opposing actuating force by the driver.

S5.3 Except as provided below, maximum time to return to idle position shall be 1 second for vehicles of 10,000 pounds or less GVWR, and 2 seconds for vehicles of more than 10,000 pounds GVWR. Maximum time to return to idle position shall be 3 seconds for any vehicle that is exposed to ambient air at 0° to −40° F. during the test or for any portion of the 12-hour conditioning period.

[Docket No. 71-13; Notice 3]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Motor Vehicle Brake Fluids

This notice amends Motor Vehicle Safety Standard No. 116, Motor Vehicle Brake Fluids, 49 CFR 571.116, to establish container labeling requirements for those fluids that are currently unregulated by the standard. The requirements are effective July 1, 1973.

The amendment is based upon a notice published March 22, 1972 (37 FR 5825). The NHTSA proposed labeling requirements for "central hydraulic system oil" and "silicone-based brake fluid," similar to requirements already in existence for conventional hydraulic brake fluids. The packager would be required to place his name on the container. His name could appear in code form. The packager would also be required to provide the complete name and mailing address of the distributor, a serial number identifying the packaged lot and date of packaging of the fluid, description of the contents, and certain safety warnings.

The comments received generally supported the proposal, and Standard No. 116 is being amended accordingly. The term "central hydraulic system oil" has not been adopted as some central hydraulic systems are designed for use of DOT brake fluids. Instead, the term "hydraulic system mineral oil" is adopted. It is defined as "a mineral-oil-based fluid designed primarily for use in motor vehicle brake systems in which none of the components contacting the fluid are SBR, EPDM, Neoprene, or natural rubber." Paragraphs S3, S5, S5.1, S5.2.1, S5.2.2.1, and S5.2.2.2 are being amended in a manner that more clearly evidences the NHTSA's intent that Standard No. 116 applies to all fluid used as brake fluids, but that silicone-based brake fluids and hydraulic system mineral oil are currently excepted from performance, container, and labeling requirements applicable to DOT fluids. A new S5.2.2.3 specifies the labeling requirements for packagers of silicone-based brake fluids and hydraulic system mineral oil, and these generally parallel those required of packagers of DOT fluids. Packagers of hydraulic system mineral oil must furnish the additional warning that the fluid is not compatible with the rubber components of brake systems designed for use with DOT brake fluids.

The amendment also differs from the proposal in reflecting the revision of Standard No. 116 of August 29, 1972 (37 FR 17474), that allows information to be placed on a container "in any location except on a removable part such as a lid." Minor changes have been made in the text of the warning on fluid storage so that it is identical with the warning required for DOT fluids.

In consideration of the foregoing, 49 CFR § 571.116, Motor Vehicle Safety Standard No. 116, is amended as follows:

1. S3 is amended to read:

S3 *Application.* This standard applies to all fluid for use in hydraulic brake systems of motor vehicles. In addition, S5.3 applies to passenger cars, multipurpose passenger vehicles, trucks, buses, trailers, and motorcycles.

2. S4 is amended by adding the following definition in proper alphabetical sequence:

" 'Hydraulic system mineral oil' means a mineral-oil-based fluid designed primarily for use in motor vehicle brake systems in which none of the components contacting the fluid are SBR, EPDM, neoprene, or natural rubber."

3. S5 is amended by adding the following sentence at the end thereof: "Paragraphs S5.1 and S5.2.1 do not apply to silicone-based brake fluid or hydraulic system mineral oil."

4. S5.1 is amended to read: "When tested in accordance with S6, motor vehicle brake fluids other than silicone-based brake fluid and hydraulic system mineral oil shall meet the following requirements."

5. The first sentence of S5.2.1 is amended to read: "Each DOT 3 and DOT 4 brake fluid container with a capacity of 6 fluid ounces or more shall be provided with a resealable closure that has an inner seal impervious to the packaged brake fluid."

6. S5.2.2.1 is amended to read: "Each manufacturer of a brake fluid other than silicone-based brake fluid or hydraulic system mineral oil shall furnish to each packager, distributor, or dealer to whom he delivers brake fluid the following information: * * *"

7. S5.2.2.2 is amended to read: "Each packager of a brake fluid other than silicone-based brake fluid or hydraulic system mineral oil shall furnish the following information clearly and indelibly marked on each brake fluid container, in any location except on a removable part such as a lid. (a) * * *"

8. A new S5.2.2.3 is adopted to read:

S5.2.2.3 On and after July 1, 1973, each packager of silicone-based brake fluid or hydraulic system mineral oil shall furnish the following information clearly and indelibly marked on each brake fluid container in any location except on a removable part such as a lid.

(a) The name of the packager of the brake fluid, which may be in code form.

(b) The name and complete mailing address of the distributor.

(c) A serial number identifying the packaged lot and date of packaging.

(d) Designation of the contents as "SILICONE-BASED BRAKE FLUID" or "HYDRAULIC SYSTEM MINERAL OIL", as applicable, in capital letters at least one-eighth inch high.

(e) The following safety warnings in capital and lower case letters as indicated:

1. Follow Vehicle Manufacturer's Recommendations When Adding Brake Fluid.

2. (For hydraulic system mineral oil only.) This brake fluid is Not Compatible with the rubber components of brake systems designed for use with DOT brake fluids.

3. Keep Brake Fluid Clean. Contamination with dirt or other materials may result in brake failure or costly repairs.

4. Caution: Store Brake Fluid Only in its Original Container. Keep Container Clean and Tightly Closed. Do Not Refill Containers or Use Other Liquids. (The last sentence is not required for containers with a capacity in excess of 5 gallons.)

9. S5.3 is amended to read:

S5.3 *Motor vehicle requirement.* Each passenger car, multipurpose passenger vehicle, truck, bus, trailer, and motorcycle that has a hydraulic brake system shall be equipped with brake fluid that has been manufactured and packaged in conformity with the requirements of this standard.

Effective date: July 1, 1973. Because these amendments relate to labeling requirements that do not entail product redesign, an effective date less than 180 days after the issue date is found to be in the public interest.

[Docket No. 1-8; Notice 9]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Retreaded Pneumatic Tires

This notice revokes high speed and endurance requirements in Motor Vehicle Safety Standard No. 117, "Retreaded Pneumatic Tires," in accordance with an order of the U.S. Court of Appeals for the Seventh Circuit in H & H Tire Company v. Volpe, No. 71-1935, Seventh Circuit, December 5, 1972. It also specifies effective dates for provisions of the standard subject to a stay that was entered by the court on December 31, 1971, and removed by its order.

In a notice published March 23, 1972 (37 FR 9590), the NHTSA indicated that it did not believe retreaders should be required to maintain a state of constant preparation, so as to be able to conform to the standard immediately following the lifting of the stay by the reviewing court. The NHTSA took this position although the stay had been imposed only 24 hours before the standard was to become effective, and retreaders should have by that time taken all necessary steps to achieve compliance. The notice accordingly specified that those requirements of the standard dealing with matters other than labeling would become effective approximately 30 days after the stay imposed by the court had been lifted. Requirements dealing with affixed labels (S6.3.1) were to become effective in 90 days, and requirements for permanent labeling (S6.3.2) in 1 year.

When these dates were projected, however, the NHTSA had assumed a decision would be rendered by the court in a short time. That assumption proved incorrect, and the NHTSA has determined that more leadtime than that specified on March 23, 1972, should be allowed. This leadtime will allow retreaders to use up their already acquired inventory of casings, and to obtain labels to conform to the affixed labeling requirements.

This notice provides, therefore, that provisions of the standard except those dealing with permanent labeling are effective 120 days from the day of publication. The permanent labeling requirements of the standard are effective 1 year from the day of publication. The NHTSA is of the opinion that 120 days is sufficient under the circumstances for retreaders to take whatever remaining steps are necessary to achieve conformity with these requirements.

In light of the above, Motor Vehicle Safety Standard No. 117, "Retreaded Pneumatic Tires," 49 CFR 571.117, is amended as follows:

1. Paragraphs (e) and (f) of paragraph S5.1.1 are revoked.

2. Paragraph S5.1.3 is revised to read as follows:

S5.1.3 Each retreaded tire shall be capable of meeting the requirements of S5.1.1 and S5.1.2 when mounted on any rim in accordance with those sections. [The remaining sentences are deleted.]

3. Paragraph S6.2 is revised to read as follows:

S6.2 From June 1, 1973, to July 31, 1973, a manufacturer may certify compliance by affixing to the tread of the tire, in such a manner that it is not easily removable, a label that states in letters not less than three thirty-seconds of an inch high:

This retreaded tire was manufactured after June 1, 1973, and conforms to all applicable Federal motor vehicle safety standards.

4. Paragraph S6.3.1 is revised to read as follows:

S6.3.1 Each retreaded pneumatic tire manufactured on or after June 1, 1973, shall be labeled • • •

• • • • •

5. Paragraph S6.3.2 is revised to read as follows:

S6.3.2 Each retreaded pneumatic tire manufactured on or after February 1, 1974, shall be labeled • • •

Effective date: June 1, 1973, except for the provisions of paragraph S6.3.2, which are effective on February 1, 1974. The requirements of this standard were originally issued April 17, 1971, to become effective January 1, 1972. The standard in its present form was published March 23, 1972, but did not take effect due to a stay imposed on December 31, 1971. Accordingly, adequate leadtime has already been provided for any long-range steps necessary for compliance. The public was notified of expected effective dates by the notice of March 23, 1972.

It is therefore found, for good cause shown, that an effective date less than 180 days from the date of publication of this notice is in the public interest.

(Secs. 103, 112, 113, 114, 119, 201, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1401, 1402, 1403, 1407, 1421; delegation of authority at 49 CFR 1.51)

Issued on January 24, 1973.

DOUGLAS W. TOMS,
Administrator.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Havasu National Wildlife Refuge, Ariz. and Calif.

The following special regulation is issued and is effective on January 31, 1973.

§ 28.28 Special regulations; public access, use, and recreation; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

HAVASU NATIONAL WILDLIFE REFUGE

Havasu National Wildlife Refuge, Needles, Calif., is open to public access, use, and recreation, subject to the provisions of Title 50, Code of Federal Regulations, all applicable Federal and State laws and regulations, and the following special conditions:

(1) Water skiing is permitted in the channelized segment of the Colorado River, as designated by signs, from 1.7 miles south of Topock, Ariz., to the north boundary of the refuge; and on that portion of Lake Havasu, as designated by signs, lying south of the Island.

(2) Camping and picnicking are permitted. Camping is permitted only in the following areas and is restricted to tent and boat camping:

a. Avocet Beach.

b. The shoreline from Topock Bridge south to the buoy at the north end of Topock Gorge.

c. The shoreline below the buoy at the south end of Topock Gorge except Castle Rock and Mesquite Boat ramp.

Also, recreational vehicle and tent camping is permitted at Five-Mile Landing and Catfish Paradise concessions for a nominal fee. All camping is limited to stays of no longer than 7 days.

(3) Boating is permitted in all waters of the refuge except where restricted by appropriate signs. Wakeless speed only is permitted east of the buoys on the Bill Williams River.

(4) Vehicle access is permitted on all refuge roads except where restricted by appropriate signs.

(5) Swimming, wading, scuba diving and skin diving are permitted except where restricted by signs.

(6) Fires may be built in areas where camping is allowed.

(7) Litter facilities are provided only for recreational users who are swimming, boating, picnicking, fishing, hunting or camping.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation of wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1973.

ROBERT A. KARGES,
Refuge Manager, Havasu National Wildlife Refuge, Needles, California.

JANUARY 19, 1973.

[FR Doc.73-1879 Filed 1-30-73;8:45 am]

PART 33—SPORT FISHING

Havasu National Wildlife Refuge, Ariz. and Calif.

The following special regulation is issued and is effective on January 31, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ARIZONA AND CALIFORNIA

HAVASU NATIONAL WILDLIFE REFUGE

Sport fishing on the Havasu National Wildlife Refuge, Arizona and California, is permitted on waters designated as open to fishing. These waters, comprising 12,388 acres, are delineated on maps available at refuge headquarters, Needles, Calif., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from January 1 through December 31, 1973, inclusive, except that the closed area, as posted, in Topock Marsh is closed to fishing from January 1 through January 31, 1973, and from October 1, 1973, through January 31, 1974, inclusive.

(2) The possession of trotlines on the refuge is prohibited. A trotline is any hook and line arrangement that, when used, constitutes a violation of the "angling" laws of either Arizona or California.

(3) The taking of fish with bow and arrow is prohibited.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through January 31, 1974.

ROBERT A. KARGES,
Refuge Manager, Havasu National Wildlife Refuge, Needles, Calif.

JANUARY 19, 1973.

[FR Doc.73-1880 Filed 1-30-73;8:45 am]

PART 33—SPORT FISHING

Tishomingo National Wildlife Refuge, Okla.

The following special regulation is issued and is effective on January 31, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

OKLAHOMA

TISHOMINGO NATIONAL WILDLIFE REFUGE

Sport fishing on the Tishomingo National Wildlife Refuge, Tishomingo, Okla., is permitted only on the area designated by signs as open to fishing. These open areas, comprising 10,000 acres, are delineated on maps available at refuge headquarters, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Sport fishing shall be in accordance with all applicable State regulations subject to the following condition:

(1) The open seasons for sport fishing on the refuge extend from January 1 through December 31, 1973, inclusive, on the waters of Lake Texoma east of the north-south center line of Secs. 19, 30, and 31, T. 4 S., R. 7 E., and in Rock Creek, Polecat Creek, Bell Creek, Big Sandy Creek, Dick's Pond, and Goose Pen Pond; and from April 1 through September 30, 1973, inclusive, for waters of Lake Texoma west of the north-south center line of Secs. 19, 30, and 31, T. 4 S., R. 7 E.

(2) The open season for sport fishing on the Tishomingo Management Unit extends from March 1, 1973, through September 30, 1973, inclusive. Fishing with trotlines in Lost Lake, Bobcat Gulch, and McAdams Pond is prohibited during open season.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

ERNEST S. JEMISON,
Refuge Manager, Tishomingo, National Wildlife Refuge, Tishomingo, Oklahoma.

DECEMBER 15, 1972.

[FR Doc.73-1881 Filed 1-30-73;8:45 am]

Title 6—Economic Stabilization

CHAPTER IV—INTERNAL REVENUE SERVICE

PART 401—PROCEDURAL RULES RELATING TO ECONOMIC STABILIZATION MATTERS

Termination of Economic Stabilization Functions of Office of Chief Counsel for the Internal Revenue Service

Part 401 of Chapter IV of Title 6 of the Code of Federal Regulations prescribes and explains, among other things, the procedures used by the Office of the Chief Counsel for the Internal Revenue Service in administering the President's Economic Stabilization Program as it existed prior to the issuance of Executive Order 11695, 38 FR 1473 (1973). Due to the issuance of Executive Order 11695 (relating to the establishment of Phase III of such program), such Part 401 is hereby revoked to the extent that it relates to the performance of functions mentioned or described in such part by the Office of the Chief Counsel for the Internal Revenue Service.

Effective date. This revocation is effective as of January 31, 1973.

LEE H. HENKEL, Jr.,
Chief Counsel, Internal Revenue Service.

[FR Doc.73-1999 Filed 1-30-73;8:45 am]

Title 10—Atomic Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 140—FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

Indemnity Locations

On May 6, 1972, the Atomic Energy Commission published in the FEDERAL REGISTER (37 FR 9227) a proposed amendment to 10 CFR Part 140, Financial Protection Requirements and Indemnity Agreements, which would specify how the Commission will determine the geographical boundaries of indemnity locations in indemnity agreements for the preoperational storage of fuel at the site of a power reactor under construction, and the geographical boundaries of indemnity locations where a nuclear reactor is operating and an additional power reactor is under construction nearby on a contiguous site by the same licensee.

Interested persons were invited to submit written comments and suggestions for consideration in connection with the proposed amendment within 60 days after publication of the notice of proposed rule making in the FEDERAL REGISTER. After consideration of the comments received, the Commission has adopted the proposed amendment with certain changes.

The principal point in three of the comments, submitted by utilities, was that the proposed amendment would increase their insurance costs from nuclear property pools during construction. However, since the nuclear liability insurers are presently using the broader site concept for new policies, utilities have already found it necessary to purchase nuclear property insurance for the construction site whereas in the past they had been able to purchase "builder's risk" insurance at lower premiums. This amendment reflects such use of the broad concept by both nuclear liability insurers and nuclear property insurers. As stated in connection with the proposed rule published in the FEDERAL REGISTER on May 6, 1972, this amendment may not be susceptible of application to all circumstances (e.g., where conventional builder's risk policies, subject to a nuclear exclusion, remain in effect at some units, construction of which was commenced when such coverage was still available). Where the Commission on application of any affected person or on its own initiative determines that a departure from this proposed method would be authorized by law and otherwise in the public interest, it may establish a different indemnity location in individual cases.

The Commission believes that the amendment, by widening the geographical boundaries of the indemnity location to include the entire construction area of nuclear power reactors, will assure that indemnity funds in the highly unlikely event of a nuclear incident, will be available to the general public and will not be diluted in compensation of possible property losses at the site of the reactor under construction.

In order to eliminate the ambiguity of the phrase "the entire construction area of the nuclear power reactor" as used in the proposed amendment, the words "as determined by the Commission" have been added. A sentence to the effect that such area will not necessarily be coextensive with the indemnity location which will be established at the time an operating license is issued for additional

38 120 JAN 31 73 XUM

nuclear power reactors has also been included.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendment of 10 CFR Part 140 is published as a document subject to codification, to be effective on March 2, 1973.

A new § 140.96 Appendix F is added to read as follows:

§ 140.96 Appendix F—Indemnity locations.

(a) *Geographical boundaries of indemnity locations.* (1) In every indemnity agreement between the Commission and a licensee which affords indemnity protection for the preoperational storage of fuel at the site of a nuclear power reactor under construction, the geographical boundaries of the indemnity location will include the entire construction area of the nuclear power reactor, as determined by the Commission. Such area will not necessarily be coextensive with the indemnity location which will be established at the time an operating license is issued for such additional nuclear power reactors.

(2) In every indemnity agreement between the Commission and a licensee which affords indemnity protection for an existing nuclear power reactor, the geographical boundaries of the indemnity location shall include the entire construction area of any additional nuclear power reactor as determined by the Commission, built as part of the same power station by the same licensee. Such area will not necessarily be coextensive with the indemnity location which will be established at the time an operating license is issued for such additional nuclear power reactors.

(3) This section is effective May 1, 1973, as to construction permits issued prior to March 2, 1973, and, as to construction permits issued on or after March 2, 1973, the provisions of this section will apply no later than such time as a construction permit is issued authorizing construction of any additional nuclear power reactor.

(Secs. 161, 170, 68 Stat. 948, 71 Stat. 576; 42 U.S.C. 2201, 2210)

Dated at Germantown, Md., this 26th day of January 1973.

For the Atomic Energy Commission.

[SEAL] PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.73-1974 Filed 1-30-73;8:45 am]

Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Notice of Proposed Rule Making

Correction

In FR Doc. 72-21786 appearing at page 28060 of the issue for Wednesday, December 20, 1972, the following section heading should appear immediately after the authority citation which follows § 145.4(d):

§ 145.5 Undeliverable packages.

DEPARTMENT OF LABOR

Office of Federal Contract Compliance

[41 CFR Part 60-1]

ACCESS TO RECORDS AND SITE OF EMPLOYMENT

Notice of Proposed Rule Making

Notice is hereby given that pursuant to Executive Order 11246 (30 FR 12319), as amended by Executive Order 11375 (32 FR 14303), the Department of Labor proposes to revise 41 CFR 60-1.43. The purpose of the revision is to clarify 41 CFR 60-1.43 to assure that contractors are fully cognizant of their obligations under existing OFCC policy and practice to allow access to their premises for the purpose of on-site compliance reviews. This revision is not intended to enlarge contractors' obligations under the Executive order and its implementing rules and regulations. The revised 41 CFR 60-1.43 reads as follows:

§ 60-1.43 Access to records and site of employment.

Each prime contractor and subcontractor shall permit access during normal business hours to his premises for the purposes of conducting on-site compliance reviews and inspecting and copying such books, records, and accounts as may be relevant to the matter under investigation and pertinent to compliance with the Order, and the rules and regulations promulgated pursuant thereto, by the agency, or the Director. Information obtained in this manner shall be used only in connection with the administration of the Order, the administration of the Civil Rights Act of 1964, and in furtherance of the purposes of the Order and that Act.

Interested persons are invited to submit written comments, views or objections regarding the proposal to Mr. Philip J. Davis, Acting Director, OFCC, U.S. Dept. of Labor, 14th Street and Constitution Avenue NW., Washington, D.C. 20210, on or before March 2, 1973.

Signed at Washington, D.C., this 24th day of January 1973.

J. D. HODGSON,
Secretary of Labor.

R. J. GRUNEWALD,
Assistant Secretary for Employment Standards.

PHILIP J. DAVIS,
Acting Director,
Office of Federal Contract Compliance.

[FR Doc.73-1827 Filed 1-30-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Parts 23, 91]

[Docket No. 10162; Notice 73-1]

CRASHWORTHINESS FOR SMALL AIRPLANES

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 23 of the Federal Aviation Regulations to require on all small civil airplanes for which applications for type certificates under Part 23 are filed after the effective date of the proposed amendment, the installation of shoulder harnesses and that cabin and flight crew compartment interiors be designed to protect occupants from injury caused by contact with interior objects. In addition, the FAA is considering amending Part 91 to require the installation of shoulder harnesses on all small civil airplanes manufactured after 1 year from the effective date of the proposed amendment, and on small civil airplanes manufactured prior to that date if they have structural provisions for the attachment of shoulder harnesses, and to require occupants of seats equipped with shoulder harnesses to use the shoulder harnesses during takeoff and landing.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before April 30, 1973, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket, for examination by interested persons.

Section 23.785(g) of the Federal Aviation Regulations, as amended August 1, 1969, Amendment 23-7, requires small civil airplanes for which applications for type certificates under Part 23 are filed after September 14, 1969, to provide each occupant with protection from head injury either (1) by a safety belt and shoulder harness that will prevent the head from contacting any injurious object, or; (2) by a safety belt plus an energy absorbing rest that will support the arms, shoulders, head, and spine, or; (3) by a safety belt plus the elimination of any injurious object within striking radius of the head.

Subsequent to the adoption of Amendment 23-7 the FAA has continued its review of the very complex area of occupant restraint and crashworthiness of small airplanes. The FAA has also received suggestions concerning areas in which the protection of occupants from injury in a crash or emergency landing might be improved, including recommendations by the National Transportation Safety Board (NTSB). In addition, Mr. Ralph Nader filed a petition with the FAA requesting the institution of rulemaking to improve the crashworthiness of small aircraft. In disposing of that petition the FAA advised that it was in the process of developing proposals concerning shoulder harness and occupant restraints and the improvement of the design of cabin interiors which would be included in a notice of proposed rule making. This notice takes into account the recommendations made by the NTSB and by Mr. Nader concerning requirements for shoulder harnesses and cabin interior design.

After evaluating the data and recommendations received and upon consideration of the type certification requirements for small airplanes, the FAA believes that additional crash protection is needed for occupants of small airplanes type certificated under Part 23, and proposes herein to amend § 23.785(g) to require that each occupant of those airplanes be protected from head injury when he experiences the inertia forces prescribed in § 23.561(b)(2) in a forward facing seat (0° to 18° angle with

38 FR 3173 JAN 30 XUM

visions for the attachment of shoulder designate a transition area at Mackinac

the vertical plane containing the airplane centerline) or in a sideward facing seat (more than 18°) by a safety belt and shoulder harness. In addition, a sideward facing seat that is angled toward the rear of the airplane would be required to have an energy absorbing rest that would support the arms, shoulders, head, and spine. A rearward facing seat (0° to 18°) would be required to have a safety belt and an energy absorbing rest, but not a shoulder harness since the seat would prevent an occupant from pitching forward in the event of a crash. Furthermore, the FAA believes that, in order to provide the intended crash impact protection for flight crewmembers, each flight crewmember's shoulder harness should be fastened at all times. Therefore, it is proposed to add a new § 23.785(h) that would require that shoulder harness installations at flight crewmember stations permit a crewmember, when seated at his station, with his safety belt and shoulder harness fastened, to perform all functions necesary for flight operations.

In addition, the FAA believes that there should be provisions to prevent shoulder harnesses and safety belts, when not in use, from interfering with the operation of the airplane or with rapid egress under emergency conditions. Accordingly, it is proposed to add a new § 23.785(i) that would require that a means be provided to secure safety belts and shoulder harnesses when not in use.

While the proposed shoulder harness requirements should reduce the probability of occupant injury in small airplanes, the FAA believes that further protection should be provided in the area surrounding each seat within striking distance of the occupant's head, torso, and flailing arms and legs. Therefore, it is proposed to add a new § 23.785(j) that would require that this area (including interior walls, the instrument panel, control wheels, pedals, and seats) be free of sharp edges, protuberances, and hard areas.

Section 23.1307 is being amended editorially to delete the requirement for a safety belt for each occupant as redundant because § 23.785 presently requires a safety belt for each occupant.

The foregoing proposed amendments would be applicable only to small civil airplanes for which applications for type certification under Part 23 are filed after the effective date of the amendments. However, the FAA believes that, to the extent feasible and reasonable, small civil airplanes already in service should also be equipped with shoulder harnesses. Many small civil airplanes presently in service have structural provisions (tiedown points) for the attachment of shoulder harnesses and the installation of shoulder harnesses in these airplanes should not present any significant problem. However, there are a number of small civil airplanes now in service that cannot readily be fitted with shoulder harnesses since the necessary attachment points were not included in the design of the airplane.

The FAA believes, further, that it would be feasible and not unreasonably burdensome, for small civil airplane manufacturers to provide shoulder harness attachment points on airplanes being constructed under existing type certificates so that airplanes manufactured after the effective date of this amendment could be equipped with shoulder harnesses. The date of manufacture of an airplane, for purposes of the proposed rules, would be the date the inspection acceptance records reflect that the airplane is complete and meets the FAA approved type design data. Accordingly, it is proposed to amend §§ 91.33 and 91.39 to prohibit, after 1 year after the effective date of this proposed amendment, the operation of such small civil airplanes with standard category and restricted category U.S. airworthiness certificates unless they have an approved shoulder harness installed (for each occupant except an occupant of a rearward facing seat specified in § 23.785 (g)(2)) that is designed to protect the occupant from injury when the occupant experiences the ultimate inertia forces specified in § 23.561(b)(2). This regulation would not apply to airplanes that were manufactured prior to 1 year after the effective date of any final rule based on this proposed amendment and that do not have structural provisions for the attachment of shoulder harnesses. The proposal would require that a placard be installed on those airplanes stating that shoulder harnesses are not required in order to assure that this information is available to the pilots of these airplanes. It is also proposed to amend §§ 91.7 and 91.14 to require each occupant of a seat equipped with a shoulder harness to fasten his shoulder harness during takeoff and landing, and in the case of a flight crewmember, at all times while he is at his station.

The FAA has also received suggestions from Mr. Nader and the NTSB concerning other areas in which the protection of occupants from injury in a crash or emergency landing might be improved. In this connection it was suggested that the regulations be amended to require higher impact "g" force levels than are now prescribed, to require that the cockpit or cabin structure remain intact under those impact forces, to require the dynamic testing of seats, and to require further means to reduce potential ignition sources associated with accidents. Although the FAA's basic research and development programs and the data and recommendations submitted by those interested persons indicate possible future courses of action with regard to upgrading the crashworthiness of small airplanes in those areas, the information presently available is not sufficient to support rule-making action. The FAA is continuing its investigations in those areas and appropriate rule-making action will be initiated when sufficient data is available to provide a basis for rulemaking.

In consideration of the foregoing, it is proposed to amend Parts 23 and 91 of the Federal Aviation Regulations as follows:

1. Section 23.785 would be amended by amending the title and paragraphs (b) and (g) and by adding new paragraphs (h), (i), and (j) to read as follows:

§ 23.785 Seats, berths, safety belts, and harnesses.

• • • • •

(b) Each seat, berth, safety belt, and harness must be approved.

• • • • •

(g) Each occupant must be protected from head injury when he experiences the inertia forces prescribed in § 23.561 (b)(2) in—

(1) A forward facing seat (0° to 18° angle with the vertical plane containing the airplane centerline) by a safety belt and shoulder harness that is designed to prevent the head from contacting any injurious object.

(2) A rearward facing seat (0° to 18° angle with the vertical plane containing the airplane centerline) by a safety belt and an energy absorbing rest that is designed to support the arms, shoulders, head, and spine.

(3) A sideward facing seat (more than and 18° angle with the vertical plane containing the airplane centerline) by a safety belt and shoulder harness that will prevent the head from contacting any injurious object. In addition, sideward facing seats that are angled toward the rear of the airplane must have an energy absorbing rest that is designed to support the arms, shoulders, head, and spine.

(h) The shoulder harness installation at each flight crewmember station must permit the crewmember, when seated and with his safety belt and shoulder harness fastened, to perform all functions necessary for flight operations.

(i) There must be a means to secure each safety belt and shoulder harness, when not in use, so as to prevent interference with the operation of the airplane and with rapid egress in an emergency.

(j) The cabin area surrounding each seat, including the structure, interior walls, instrument panel, control wheel, pedals, and seats, within striking distance of the occupant's head, torso, arms, and legs (with the safety belt fastened), must be free of potentially injurious objects, sharp edges, protuberances, and hard surfaces. If energy absorbing design or devices are used to meet this requirement, they must protect the occupant from injury when the occupant experiences the ultimate inertia forces prescribed in § 23.561(b)(2).

2. Section 23.1307 would be amended by deleting present paragraph (a) and redesignating present paragraph (b) as follows:

§ 23.1307 Miscellaneous equipment.

The following equipment is required miscellaneous equipment:

(a) A master switch arrangement.
(b) An adequate source of electrical energy.
(c) Electrical protective devices.

3. Section 91.7 would be amended by amending paragraph (b) and adding a new paragraph (c) to read as follows:

§ 91.7 Flight crewmembers at stations.

• • • • •

(b) Keep his safety belt fastened while at his station.

(c) After 1 year after the effective date of this amendment) in a U.S. registered small civil airplane, if the seat at his station is equipped with a shoulder harness, keep the shoulder harness fastened while at his station.

4. Section 91.14 would be amended by amending the title and by amending paragraphs (a) and (b) to read as follows:

§ 91.14 Fastening of safety belts and shoulder harnesses.

(a) Unless otherwise authorized by the Administrator—

(1) No pilot may take off or land a U.S. registered aircraft (except an airship) unless the pilot in command of that aircraft ensures that—

(i) Each person on board that aircraft has been instructed in the proper use of occupant restraint provisions.

(ii) Each person on board that aircraft has been notified to fasten his safety belt.

(iii) Each person on board that aircraft occupying a seat equipped with a shoulder harness has been notified to fasten his shoulder harness.

(iv) At each unoccupied seat, the safety belt and shoulder harness, if installed, are secured so as not to interfere with the operation of the aircraft and with rapid egress of occupants in an emergency.

(2) During the takeoff and landing of U.S. registered civil aircraft (except airships), each person on board that aircraft must occupy a seat or berth with a safety belt properly secured about him. However, a person who has not reached his second birthday may be held by an adult who is occupying a seat or berth, and a person on board for the purpose of engaging in sport parachuting may use the floor of the aircraft as a seat.

(3) During the takeoff and landing of a U.S. registered civil aircraft (except an airship), each person on board that aircraft occupying a seat equipped with a shoulder harness must properly secure the shoulder harness about him.

(b) This section does not apply to operations conducted under Parts 121, 123, or 127 of this chapter. Paragraphs (a)(2) and (a)(3) of this section do not apply to persons subject to § 91.7.

5. Section 91.33 would be amended by adding a new paragraph (b)(13) to read as follows:

§ 91.33 Powered civil aircraft with standard category U.S. airworthiness certificates; instrument and equipment requirements.

• • • • •

(b) • • •

(13) For small civil airplanes, except those manufactured prior to (1 year after the effective date of this amendment) that do not have structural provisions for the attachment of shoulder harnesses but have a placard installed that states "shoulder harnesses not required", after (1 year after the effective date of this amendment), approved shoulder harnesses that are designed to protect each occupant (except occupants of rearward facing seats described in § 23.785(g)(2)) from head injury when the occupant experiences the ultimate inertia forces specified in § 23.561(b)(2). For purposes of this section, the date of manufacture of an airplane is the date the inspection acceptance records reflect that the airplane is complete and meets the FAA approved type design data. The shoulder harness installation at each flight crewmember station must permit the crewmember, when seated and with his safety belt and shoulder harness fastened, to perform all functions necessary for flight operations.

6. Section 91.39 would be amended by adding a new paragraph (f) to read as follows:

§ 91.39 Restricted category civil aircraft; operating limitations.

• • • • •

(f) Except as to airplanes manufactured prior to (1 year after the effective date of this amendment) that do not have structural provision for the attachment of shoulder harnesses but have a placard installed that states "shoulder harnesses not required", after (1 year after the effective date of this amendment), no person may operate a small restricted category civil airplane unless approved shoulder harnesses are installed that are designed to protect each occupant (except occupants of rearward facing seats described in § 23.785(g)(2)), from head injury when the occupant experiences the ultimate inertia forces specified in § 23.561(b)(2). For purposes of this section, the date of manufacture of an airplane is the date the inspection acceptance records reflect that the airplane is complete and meets the FAA approved type design data. The shoulder harness installation at each flight crewmember station must permit the crewmember, when seated and with his safety belt and shoulder harness fastened, to perform all functions necessary for flight operations.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 18, 1973.

C. R. MELUGIN, JR.,
Acting Director,
Flight Standards Service.

[14 CFR Part 71]

[Airspace Docket No. 72-GL-81]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Mackinac Island, Mich.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received on or before March 2, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

A new public use instrument approach procedure has been developed for the Mackinac Island Airport, Mackinac Island, Mich. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Mackinac Island, Mich. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

MACKINAC ISLAND, MICH.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Mackinac Island Airport (latitude 45°51'55" N., longitude 84°38'20" W.).

(Sec. 307(a) Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on January 8, 1973.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[FR Doc.73-1771 Filed 1-30-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-GL-84]

TRANSITION AREAS

Proposed Deletion and Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the State of Michigan, Alpena, Bellaire, Charlevoix, Grayling, Luddington, Menominee, Oscoda, Roscommon,

V 38 N 20 JA 31 73 XUM

Traverse City, Escanaba, Gaylord, Marquette, Iron Mountain, and Pellston, Mich., transition areas, and deleting the Lake City, Mich., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received on or before March 2, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

The Minneapolis Center has a requirement for additional control area near Traverse City, Alpena, and Pellston, Mich., to radar vector and properly control the flow of traffic in this area. This action will consolidate 10 airspace citations for the transition area into one.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is amended to read:

MICHIGAN

That airspace extending upward from 1,200 feet above the surface within the boundary of the State of Michigan south of parallel 45°45'.

In § 71.181 (38 FR 435), the following transition areas are amended by deleting reference to that airspace extending upward from 1,200 feet above the surface:

Alpena, Mich.	Menominee, Mich.
Bellaire, Mich.	Oscoda, Mich.
Charlevoix, Mich.	Roscommon, Mich.
Grayling, Mich.	Traverse City, Mich.
Luddington, Mich.	

In § 71.181 (38 FR 435), the following transition area is deleted: Lake City, Mich.

In § 71.181 (38 FR 435), the following transition areas are amended as indicated:

Escanaba, Mich.—add "excluding the portion south of parallel 45°45'."

Gaylord, Mich.—delete all after "(latitude 45°00'50" N., longitude 84°41'45" W.)."

Marquette, Mich.—add "and the portion south of parallel 45°45'."

Iron Mountain, Mich.—add "excluding the portion south of parallel 45°45'."

Pellston, Mich.—change to read as follows:

That airspace extending upward from 700 feet above the surface within an 11-mile radius of Emmet County Airport (latitude 45°34'09" N., longitude 84°47'45" W.) and within 5 miles each side of the Pellston VORTAC 238° radial, extending from the 11-mile radius area to 22 miles southwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within a 19-mile radius of the Pellston VORTAC north of parallel 45°45' excluding the portion overlying the Sault Ste. Marie, Mich. transition area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on January 8, 1973.

H. W. POGGEMEYER,
Acting Director,
Great Lakes Region.

[FR Doc.73-1772 Filed 1-30-73;8:45 am]

[14 CFR Part 73]

[Airspace Docket No. 72-SO-120]

ESTABLISHMENT OF RESTRICTED AREA

Notice of Proposed Rule Making

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would establish a restricted area, R-5315, in the vicinity of Cape Hatteras, N.C.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received on or before March 2, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would include the following restricted area in Part 73 of the Federal Aviation Regulations:

R-5315 CAPE HATTERAS, N.C.

Boundaries: Beginning at Lat. 35°31'00" N., Long. 76°00'00" W.; to Lat. 35°14'00" N., Long. 75°38'00" W.; to Lat. 34°54'00" N., Long. 76°16'00" W.; to Lat. 35°04'30" N., Long. 76°04'30" W.; to Lat. 35°18'15" N., Long. 76°16'40" W.; to Lat. 35°20'00" N., Long. 76°23'00" W.; to point of beginning.

Designated altitudes. From 4,000 feet MSL to but not including FL 180.

Time of designation. Continuous.

Controlling agency. Federal Aviation Administration, Washington, D.C., ARTC Center.

Using agency. Commander Naval Air Force, U.S. Atlantic Fleet, NAS Norfolk, Va.

The proposed restricted area would be used by the Department of the Navy to help satisfy its continuing urgent requirement to provide pilots with controlled training in air combat maneuvering at supersonic speeds. The restricted designation would be necessary because the type of training to be conducted would constitute a hazardous situation for nonparticipating aircraft. Monitoring devices would be installed to supervise and direct aircraft engagements and to evaluate individual pilot performance; however, the devices would not be able to ensure safety to other aircraft. High-speed maneuvers during engagements could produce sonic booms in the area. An Environmental Impact Study which is being conducted under the the auspices of the using agency would be completed prior to issuing the final rule.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 23, 1973.

H. B. HELSTROM,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.73-1773 Filed 1-30-73;8:45 am]

[14 CFR Part 135]

[Docket No. 12531; Notice 73-2]

LIMITED IFR AIR TAXI OPERATIONS

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 135 of the Federal Aviation Regulations to make those sections dealing with limited IFR operations (§§ 135.75, 135.99, and 135.145) consistent with each other, with Terminal Instrument Procedures (TERPS), and with safe operating practices.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20590. All communications received on or before March 30, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments in the rules docket for examination by interested persons.

Subject to certain conditions, § 135.75 authorizes single pilot flight, with an IFR departure, IFR en route flight, and an IFR approach. Paragraph (b) thereof permits a pilot in command of an airplane carrying passengers to take off from the departure airport without a second in command pilot and in IFR conditions, if weather reports and forecasts indicate that the weather en route will permit flight under VFR or VFR over-the-top beginning at a point no more than 15 miles from the departure airport. However, paragraph (b)(1) of § 135.75 currently provides that after taking off, the pilot may continue to fly in IFR conditions to a point no more than 15 miles from the departure airport. Accordingly, under the present rule if a pilot finds he is still in IFR conditions when 15 miles from the departure airport, he must return to the departure airport and land in IFR conditions. This requires the pilot to reverse his course against the flow of IFR traffic and may disrupt the orderly and safe flow of outgoing and incoming traffic.

The FAA believes it would be a safer procedure in such circumstances to permit the pilot to continue flight in IFR conditions rather than risk disruption of the traffic flow. Accordingly, this proposal would delete the 15 miles limitation presently prescribed in § 135.75(b)(1).

Section 135.75(b)(2) allows the single pilot to make an IFR approach and land at the destination airport in IFR conditions if the approach is made with the use of radar, or if weather conditions allow flight and he flies clear of clouds until reaching the prescribed initial approach altitude over the final approach facility. The proposed amendment would allow IFR approach and landing if weather reports and forecasts indicate that the weather at the destination airport and within 15 miles of it allow flight clear of clouds until over that airport. The FAA believes this amendment would contribute to the efficient handling of traffic by ATC in the terminal area, and that these restrictions may be removed without compromising safety.

Section 135.99(a)(2) authorizes air taxi flights carrying passengers under VFR over-the-top conditions when weather reports and forecasts indicate that the weather at the destination airport allows an IFR approach and landing with flight clear of clouds until reaching the prescribed initial approach altitude over the final approach facility, unless the approach is made with the use of radar as provided in § 91.116(f).

Subparagraph (a)(2) would be amended by deleting "the prescribed initial approach altitude over the final approach facility", and the reference to the alternate approach under radar, and stating instead that over-the-top flight is authorized if the weather reports and forecasts indicate that the weather at the destination airport allows an IFR approach and landing in IFR conditions, with flight clear of clouds until over the destination airport.

This change would remove the language which is inconsistent with the terminology in TERPS, and allow greater flexibility and reliability in limited IFR air taxi operations.

Subject to certain conditions, subparagraphs (i) and (iv) of § 135.145(b)(2) authorize IFR takeoff and IFR en route flight to a point no more than 15 miles from the departure airport, and an IFR approach and landing at the destination airport in IFR conditions. These authorizations are valid if weather reports and forecasts indicate that weather along the planned route allows flight under VFR under a ceiling (if a ceiling exists) and is forecast to remain so at every point ahead on the route until at least 1 hour after the estimated time of arrival at the point.

Section 135.145(b)(2) would be amended to remove the restrictions on IFR takeoff and IFR landing, and otherwise be amended for consistency with § 135.75.

To summarize, these proposals would continue to allow IFR takeoffs and approaches through local IFR weather conditions without compliance with the two-pilot requirement or multiengine performance requirements when the probability is high that the flight will otherwise be conducted under VFR conditions. The proposed amendment would permit the continuation of limited IFR flights rather than require a return to the point of departure, or diversion to an alternate when the flight has reached a point at which the pilot cannot proceed in accordance with the regulations because existing conditions at that point are not consistent with weather reports and forecasts available at departure. Removal of the special restrictions on destination conditions will mean that flight planning can be more certain and air traffic control can be more efficient, because the flight need not be interrupted by weather conditions which may vary after commencement of the flight.

In consideration of the foregoing, it is proposed to amend Part 135 of the Federal Aviation Regulations as follows:

1. By amending § 135.75 to read as follows:

§ 135.75 Exception to second in command requirement: unforecast and limited IFR conditions.

Unless two pilots are required by this chapter for operations under VFR, the pilot in command of an airplane carrying passengers may operate an airplane without a second in command in IFR conditions encountered during en route operations if those IFR weather conditions were not forecast or reported at the time of takeoff; and that pilot may operate in IFR conditions during departures and approaches, if—

(a) Weather reports and forecasts at the time of takeoff indicate that—

(1) IFR weather conditions (if any) at the departure airport are local and do not extend more than 15 miles from the departure airport;

(2) Weather en route allows flight under VFR conditions under the ceiling (if any) to a point within 15 miles of the destination airport; and

(3) Weather at the destination airport and within 15 miles of it allows flight clear of clouds until over that airport; or

(b) Weather reports and forecasts at the time of takeoff indicate that—

(1) IFR weather conditions (if any) at the departure airport allow VFR over-the-top flight from a point within 15 miles of the departure airport;

(2) Weather en route allows VFR over-the-top flight at the planned flight altitude until over the destination airport, or weather en route allows a return to VFR from any point en route at least 15 miles from the destination; and

(3) Weather at the destination airport and within 15 miles of it allows flight clear of clouds until over that airport.

2. By amending the introductory statement in § 135.99 to read as follows and § 135.99(a)(2) to read as follows:

§ 135.99 VFR over-the-top carrying passengers: operating limitations.

No person may operate an aircraft carrying passengers VFR over-the-top when the pilot in command is subject to the VFR over-the-top limitations of § 135.123, unless:

(a) * * *

* * * * * *

(2) Allows an IFR approach and landing with flight clear of clouds until over the destination airport.

* * * * * *

3. By amending § 135.145(b)(2) to read as follows:

§ 135.145 Performance requirements: aircraft operated over-the-top or in IFR conditions.

* * * * * *

(b) * * *

(2) A person may operate an airplane in VFR conditions over-the-top, and in IFR conditions encountered during en route operations if those IFR weather conditions were not forecast or reported at the time of takeoff, and a person may operate an airplane in IFR conditions during departures and approaches, if weather reports and forecasts at the time of takeoff indicate that—

(i) IFR weather conditions (if any) at the departure airport are local and do not extend more than 15 miles from the departure airport;

(ii) Weather en route allows flight under VFR conditions under the ceiling (if any) to a point within 15 miles of the destination airport; and

(iii) Weather at the destination airport and within 15 miles of it allows flight clear of clouds until over that airport.

(Secs. 307(c), 313(a), 601(a), and 604(a) Federal Aviation Act of 1958, 49 U.S.C. 1348(c), 1354(a), 1421(a), and 1424(a); sec. 6(c) Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 18, 1973.

C. R. MELUGIN, JR.,

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1048]

[Ex Parte No. MC–37 (Sub-No. 23]

CLEVELAND, OHIO

Redefining Limits of Commercial Zone

JANUARY 26, 1973.

Petitioners: City of Mentor, Ohio, and the Mentor, Ohio, Chamber of Commerce.

Petitioner's representatives: Bruce E. Mitchell, 1600 First Federal Building, Atlanta, Ga. 30303.

By joint petition filed January 8, 1973, the above-named petitioners request that the Commission institute a rule making proceeding for the purpose of redefining the limits of the Cleveland, Ohio, commercial zone, which were most recently defined on March 23, 1948, in *Commercial Zones and Terminal Areas*, 48 M.C.C. 95, 97 (49 CFR 1048.22), as modified by order of September 6, 1972. Petitioners seek amendment of 49 CFR 1048.22 so as to include that portion of Lake County, Ohio, described as follows: "From the intersection of Ohio State Highway 2 and western boundary of Mentor, Ohio, over State Highway 2 to the eastern city line of Mentor, Ohio, thence southward on the eastern city line of Mentor, Ohio, to the junction Interstate Highway 90; thence over Interstate Highway 90 to the southwestern city line of Mentor, Ohio;

Thence northward over the city line of Mentor, Ohio, to junction State Highway 2. For reason of ease of interpretation the Commission may see fit, based on evidence deduced in the proceeding, to consider inclusion of all of the city of Mentor, Ohio, within the involved commercial zone. No oral hearing is contemplated at this time, but anyone wishing to make representations in favor, or against, the relief sought in the petition may do so by the submission of written data, views or arguments. An original and fifteen copies of each data, views, or arguments shall be filed with the Commission on or before March 16, 1973. A copy of each representation should be served upon petitioner's representative. Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours. Notice to the general public of the matter herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

PRECLEARANCE OPERATIONS

Reimbursable Excess Costs

JANUARY 24, 1973.

Notice is hereby given that pursuant to § 24.18(d), Customs regulations (19 CFR 24.18(d)), the bi-weekly reimbursable excess costs for each preclearance installation are determined to be as set forth below and will be effective with the period beginning February 4, 1973.

Installation	*Bi-weekly excess cost*
Montreal, Canada	$3,270
Toronto, Canada	7,717
Kindley Field, Bermuda	1,570
Nassau, Bahama Islands	3,504
Vancouver, Canada	1,073
Winnipeg, Canada	459

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

VITAMIN B–12

Approval of Tariff Classification

In a letter of August 16, 1971, H. Reisman Corp., an American wholesaler of vitamin B–12, through its attorneys, protested the Bureau ruling, abstracted as Treasury Decision 66–88(52), which classified vitamin B–12 made without the use of benzenoid precursors under the provision for synthetic vitamins in Item 437.82. Tariff Schedules of the United States (TSUS).

The complainant was informed that its complaint was considered, but on the basis of the evidence of record, the Bureau was satisfied that vitamin B–12 produced in the manner described was correctly classifiable in Item 437.82, TSUS.

In accordance with the provisions of section 516(c), Tariff Act of 1930, as amended, notice is hereby given that the named domestic wholesaler has given the notice contemplated by statute that he desires to contest the classification of vitamin B–12 made without the use of benzenoid sources. However, under section 516(d), Tariff Act of 1930, as amended, the practice of classifying vitamin B–12 made without the use of benzenoid precursors under Item 437.82, TSUS, will be continued so long as no decision of the U.S. Customs Court or the U.S. Court of Customs and Patent Appeals not in harmony with this decision is published.

[SEAL] EDWIN F. RAINS, *Acting Commissioner of Customs.*

Approved: January 22, 1973.

ELECTRONIC CERAMIC PACKAGES AND PARTS THEREOF FROM JAPAN

Tentative Discontinuance of Antidumping Investigation

Information was received on May 16, 1972, that electronic ceramic packages and parts thereof from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping proceeding notice" which was published in the FEDERAL REGISTER of June 20, 1972, on page 12164.

I hereby announce a tentative discontinuance of the antidumping investigation on electronic ceramic packages and parts thereof from Japan.

Statement of reasons on which this notice of tentative discontinuance of antidumping investigation is based: The investigation revealed that the proper basis of comparison for fair value purposes is between exporter's sales price and the adjusted home market price of such or similar merchandise.

Exporter's sales price was calculated by deducting from the f.o.b. Japan or f.o.b. San Francisco price, as appropriate, an amount equal to the expenses incurred by or for the account of the exporter in the United States in selling identical or substantially identical merchandise. Further deductions were made, where applicable, for air freight, insurance, U.S. Customs duty, Customs brokerage, handling, and selling commissions.

Adjusted home market price for such or similar merchandise was based upon the delivered to customer's plant price at which a preponderance of the merchandise was sold. For one particular size package for which there was no clear preponderance of merchandise sold at the same price, the adjusted home market price was based on the weighted average of delivered to customer's plant prices. From the preponderant or weighted-average prices, deductions were made for inland freight charges. Adjustments were made, as applicable, for selling expenses, differences in credit costs, differences in quantities, and differences in the merchandise.

Comparison between exporter's sales price and adjusted home market price revealed some instances where exporter's sales price was lower than the adjusted home market price of such or similar merchandise. However, these were determined to be minimal in terms of the volume of export sales involved.

In addition, formal assurances were received from the sole manufacturer investigated that it would make no future sales of electronic ceramic packages and parts thereof at less than fair value within the meaning of the Act. That manufacturer is believed to have accounted for all of the electronic ceramic packages and parts thereof imported from Japan during the period of the investigation.

The facts recited above constitute evidence warranting the discontinuance of the investigation.

Interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20229, in time to be received by his office not later than February 12, 1973. Such requests must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than March 2, 1973.

Unless persuasive evidence or argument to the contrary is presented pursuant to the preceding paragraphs, a final notice will be published discontinuing the investigation.

This notice of tentative discontinuance of the antidumping investigation is published pursuant to § 153.15(b) of the Customs regulations (19 CFR 153.15(b)).

[SEAL] EDWARD L. MORGAN, *Assistant Secretary of the Treasury.*

Bureau of Land Management

[Serial No. A 1102]

ARIZONA

Partial Termination of Classification of Public Lands for Multiple Use Management

JANUARY 23, 1973.

Arizona State Office, 3022 Federal Building, Phoenix, Ariz. 85025.

By notice published at 32 FR 14716, Tuesday, October 24, 1967, the public lands described below were classified, along with other lands, for multiple-use management. Publication of this notice had the effect of segregating the lands from appropriation under the agricultural land laws (43 U.S.C., parts 7 and 9 and 25 U.S.C. 334); from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171); and State Exchange (43 U.S.C. 315g(c)).

Pursuant to the authority delegated by BLM Order No. 701 dated July 23, 1964 (29 FR 10526), as amended, the notice of classification A 1102 and its segregative effect is hereby terminated as to the lands listed below.

ARIZONA

GILA AND SALT RIVER MERIDIAN

IDAHO

Boise Meridian

T. 5 N., R. 12 E. (Unsurveyed—Protraction Diagram No. 96),
Secs. 3, 4, 5, 8, 9, 10, 16, 17, those parts in Leggit Creek drainage.
T. 5 N., R. 14 E. (Unsurveyed—Protraction Diagram No. 96),
Secs. 1, 2, 3, and 4 inclusive, those parts north of the divide between Salmon River and Big Smokey Creek, except that part of Sec. 4 west of the head of Frenchman Creek in NE¼NE¼.
T. 5 N., R. 15 E. (Unsurveyed—Protraction Diagram No. 95),
Sec. 1, that part north of a diagonal line extending from a prominent point approximately 1,800 feet southwest of Titus Lake in Sec. 18, T. 6 N., R. 15 E., to the confluence of Buccal Gulch and Baker Creek in Sec. 9, T. 5 N., R. 16 E.
T. 5 N., R. 16 E. (Unsurveyed—Protraction Diagram No. 95),
Secs. 1 to 5 inclusive;
Secs. 6 to 14 inclusive, except those parts south of a diagonal line extending from a prominent point approximately 1,800 feet southwest of Titus Lake in Sec. 18, T. 6 N., R. 15 E., to the confluence of Buccal Gulch and Baker Creek in Sec. 9, T. 5 N., R. 16 E.; thence east to the toe of the slope east of Baker Creek; thence generally along said toe of the slope in an easterly direction to the toe of the slope south of Big Wood River; thence easterly generally along the toe of the slope south of Big Wood River to the east township line of T. 5 N., R. 16 E.
T. 5 N., R. 17 E. (Unsurveyed—Protraction Diagram No. 94,
Secs. 3 to 10 inclusive, except those parts south and east of a line beginning at a point where the west township line of T. 5 N., R. 17 E., crosses the toe of the slope south of Big Wood River; thence generally along said toe of the slope to Corner No. 2 of tract 37; thence northeasterly along the north property line to Corner No. 3 of HES 124; thence northerly approximately ¼ mile to the toe of the slope east of the North Fork Big Wood River; thence northerly generally along said toe of the slope to the north township line of T. 5 N., R. 17 E.
T. 6 N., R. 11 E.,
Secs. 1 to 6 and 8 to 27 inclusive, except those parts of Secs. 5, 6, 8, 17 to 23, 26 and 27 inclusive, lying south and west of a line beginning at the point where the divide between Browns Creek and Little Queens River intersects the north line of said township; thence southerly along said divide approximately ¾ mile to a point in SE¼SE¼, Sec. 6; thence easterly down a ridge to a point on the old Little Queens River Trail, said point being approximately ¼ mile south of Scott Creek; thence southerly down said trail to the junction with the old main Queens River Trail in Sec. 20; thence easterly along the old trail along a south branch of Queens River to the east section line of Sec. 21; thence southeasterly across said south branch and up the ridge southwest of the south branch of Queens River to the old trial on the divide between said River and the Middle Fork Boise River at the head of Joe Daley Creek; thence southerly along said trail down Joe Daley Creek to its intersection with south line of Sec. 26; thence east along the section lines to the SE corner of Sec. 25, T. 6 N., R. 11 E.
T. 6 N., R. 12 E. (Unsurveyed—Protraction Diagram No. 96),
Secs. 1 to 23, 26 to 30, and 32 to 34 inclusive, except those parts of Secs. 29 to 32 southwest and those parts of Secs. 1, 11, 12, 14, 23, 26, 27, 33, and 34 southeast of a line beginning at the SE corner of Sec. 25, T. 6 N., R. 11 E.; thence east approximately 1½ miles to the divide between Grays Creek and Leggit Creek; thence southerly along said divide to the south township line of T. 6 N., R. 12 E.; thence east along said line to its intersection with the divide between Middle Fork Boise River and South Fork Boise and Salmon Rivers; thence northeasterly along said divide to its intersection with the divide north of Alturas Lake Creek in Sec. 1; thence northeasterly along the Alturas Lake Creek divide to the east township line of T. 6 N., R. 12 E.
T. 6 N., R. 13 E. (Unsurveyed—Protraction Diagram No. 96),
Secs. 1, 12, 13, and 24, those parts east of a line beginning at the SE corner of Sec. 31, T. 7 N., R. 14 E.; thence south to the south line of Sec. 24; thence east along said south line to the east township line of T. 6 N., R. 13 E.; Sec. 6, that part northwest of the divide north of Alturas Lake Creek.
T. 6 N., R. 14 E. (Unsurveyed—Protraction Diagram No. 96),
Secs. 1 to 28 and 33 to 36 inclusive, except those parts of 13, 14, 23, 26, 35, and 36 southeasterly and those parts of Secs. 28 and 33 inclusive west of a line beginning at the SW corner of Sec. 19; thence east along the section lines to the intersection with the road west of Frenchman Creek; thence southerly along said road approximately 1⅛ miles to the forks of Frenchman Creek in Sec. 33; thence southerly up the east fork of said creek to the south township line of T. 6 N., R. 14 E.; thence east along said township line to its intersection with the divide between Salmon River and South Fork Boise River; thence northeasterly along said divide approximately ¼ mile to the trail at the head of the Salmon River; thence northerly approximately 1 mile from said point down the Salmon River to the toe of the slope on the east side of said Salmon River; thence northerly along said toe of the slope to a point in the SE¼ of Sec. 11, said point being west of a ridge located north of an unnamed stream west of Titus Lake; thence southeasterly up said ridge to east line of T. 6 N., R. 14 E.
T. 6 N., R. 15 E. (Unsurveyed—Protraction Diagram No. 95),
Secs. 1 to 28 and 34 to 36 inclusive, except those parts of Secs. 18 to 21, 27, 28, and 34 to 36 inclusive, southwest of a line beginning at the intersection of the ridge west of Titus Lake with the west township line of T. 6 N., R. 15 E., in Sec. 18; thence easterly up said ridge to the saddle west of Titus Lake; thence southwesterly along the ridge to a prominent point southwest of Titus Lake (elevation 9,971); thence southeasterly on a direct line ending at the confluence of Buccal Gulch and Baker Creek in Sec. 9, T. 5 N., R. 16 E.
T. 6 N., R. 16 E. (Unsurveyed—Protraction Diagram No. 95),
Secs. 1 to 36 inclusive.

T. 6 N., R. 17 E. (Unsurveyed—Protraction Diagram No. 94),
Secs. 1 to 23 and 27 to 34 inclusive, except those parts of Secs. 1, 2, 12 to 14, 22, 23, 27, and 34 inclusive, generally east of a line beginning on the south township line in Sec. 34 at the point of intersection with the toe of the slope east of North Fork Wood River; thence in a northerly direction along said toe of the slope to the East Fork of the North Fork Wood River approximately in the center of Sec. 22; thence northeasterly up said East Fork of the North Fork Wood River to the east township line of T. 6 N., R. 16 E.; thence north along said township line to its intersection with the divide between Big Wood River and Big Lost River; thence northwesterly along said divide to its intersection with the north township line of T. 6 N., R. 17 E.
T. 6 N., R. 18 E. (Unsurveyed—Protraction Diagram No. 94),
Secs. 6 and 7, those parts west of a line beginning at the point of intersection of the East Fork of the North Fork Wood River and the west township line of T. 6 N., R. 18 E.; thence east up said East Fork to the divide between said East Fork of the North Fork Wood River and Trail Creek; thence northwesterly along said divide to its intersection with the divide between North Fork Wood River and Big Lost River; thence northwesterly along said divide to its intersection with the west township line of T. 6 N., R. 18 E.
T. 7 N., R. 10 E.,
Secs. 1, 2, 11, and 12, those parts north and east of the old Queens River Trail beginning in the NE¼NE¼, Sec. 2; thence southerly along said trail down Johnson Creek to a point in SE¼NE¼, Sec. 11; thence easterly from said point following the trail along a ridge north of Grouse Creek to the east of township line of T. 7 N., R. 10 E., in Sec. 12.
T. 7 N., R. 11 E. (Unsurveyed—Protraction Diagram No. 87),
Sec. 1 to 5 inclusive;
Sec. 8, that part north and east of old Queens River Trail;
Secs. 9 to 15 inclusive;
Secs. 16 and 17, those parts east of the old Queens River Trail;
Sec. 20, that part east of a line beginning at the intersection of the old Queens River Trail and the north section line; thence southerly along said trail to its intersection with the divide between Black Warrior Creek and Queens River; thence southerly down said divide to the south section line of Sec. 20;
Secs. 21 to 28 inclusive;
Secs. 29 and 32, those parts east of the divide between Black Warrior Creek and Queens River;
Secs. 33 to 36 inclusive.
T. 7 N., R. 12 E. (Unsurveyed—Protraction Diagram No. 87),
Secs. 1 to 36 inclusive.

Soil Conservation Service

WATERSHED PLANNING

Notice of Authorization

This provides a notice of the authorization dated January 26, 1973, to concerned State conservationists of the Soil Conservation Service for providing planning assistance to specified local organizations on the indicated watersheds. The State conservationist now may proceed with the investigations and surveys, as may be necessary, to develop watershed work plans under authority of the Watershed Protection and Flood Prevention Act (Public Law 83-566).

Environmental statements will be prepared, pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, concurrently with the preparation of the proposed watershed work plans. Environmental statements will be made available to the general public, filed with the Council on Environmental Quality, and the notice of availability published in the FEDERAL REGISTER.

Persons interested in any of these projects may contact the local organizations or the concerned State conservationist as indicated below:

Hawaii: Honokaa Watershed; 12,600 acres; Hawaii County; Sponsors—Mauna Kea Soil and Water Conservation District, and the County of Hawaii; Mr. Fred A. Haughton, Jr., State Conservationist, Soil Conservation Service, 440 Alexander Young Building, Honolulu, Hawaii 96813.
Michigan: Rogue River Watershed; 155,760 acres; Newaygo and Kent Counties; Sponsors—Newaygo County Soil Conservation District, West Kent Soil Conservation District, Newaygo County Drain Commissioner, and Kent County Drain Commissioner; Mr. Arthur H. Cratty, State Conservationist, Soil Conservation Service, 1405 South Harrison Road, East Lansing, MI 48823.
Montana: Whitefish Lake Watershed; 104,200 acres; Flathead County; Sponsors—City of Whitefish, Flathead County Commissioners, and Flathead Conservation District; Mr. A. B. Linford, State Conservationist, Soil Conservation Service, Federal Building, Post Office Box 970, Bozeman, MT 59715.
Nebraska: Maple Creek Watershed; 250,000 acres; Colfax, Cuming, Dodge, Platte, and Stanton Counties; Sponsor—Lower Elkhorn Natural Resources District; Mr. Keith F. Myers, State Conservationist, Soil Conservation Service, 134 South 12th Street, Room 604, Lincoln, NE 68508.
Texas: Upper San Marcos River Watershed; 70,030 acres; Comal and Hays Counties; Sponsors—Comal, Hays, Guadalupe Soil and Water Conservation District, City of San Marcos, Hays County Commissioners Court, Upper San Marcos Reclamation and Flood Control District; Mr. Edward E. Thomas, State Conservationist, Soil Conservation Service, 16-20 South Main Street, Post Office Box 648, Temple, TX 76501.

KENNETH E. GRANT,
Administrator,
Soil Conservation Service.

JANUARY 26, 1973.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-329]

BLACKSHIPS, INC.

Application for Operating-Differential Subsidy

Notice is hereby given that application has been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date.) Inasmuch as the below listed applicant, and/or related persons or firms, employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicant has requested permission involving the domestic intercoastal or coastwise services described below:

Name of applicant. Blackships, Inc.

Description of domestic service and vessels. The applicant, Blackships, Inc., acting by and through Gulf Oil Corp., requests permission to continue operation of the following listed vessels in domestic intercoastal or coastwise service, as well as permission for all other vessels owned and/or operated by Gulf Oil and other related companies to continue operation in domestic intercoastal or coastwise service.

Gulf Deer	Gulf Knight
Gulf Lion	Gulf Crest
Gulf Tiger	Gulf Pride
Gulf King	Gulf Solar
Gulf Queen	Gulf Oil
Gulf Prince	

Written permission is now required by the applicant, Blackships, Inc., notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in the application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on February 7, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., February 9, 1973, in Room 4896, Department of Commerce

Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

Dated: January 26, 1972.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric Administration

MARINE FISHERIES ADVISORY COMMITTEE

Notice of Public Meeting

Pursuant to section 10(a)(2) of Public Law 92-463, notice is hereby given of the meeting of the Marine Fisheries Advisory Committee on Tuesday, Wednesday, and Thursday, February 6, 7, and 8, 1973. The meeting will commence at 9 a.m. on February 6 and at 8:30 a.m. on February 7 and 8, at the Department of Commerce Building, 14th Street between E and Constitution Avenue NW., Washington, D.C., in Room 6802.

The items for discussion at the meeting will include the following:

FEBRUARY 6, 1973

9 a.m.: Workshop on NACOA Report (1); Workshop will continue through the day.

FEBRUARY 7, 1973

8:30 a.m.: Introductions and Announcements (1).
8:45 a.m.: Discussion, Comments and Recommendations on NACOA Report (2).
9 a.m.: NMFS Marketing Program—Progress Report (3).
10 a.m.: NMFS Sportfisheries Programs (4).
1:30 p.m.: Law of the Sea Progress Report (5).
2 p.m.: Coastal Zone Program (6).
3 p.m.: Marine Mammals Program (7).
4 p.m.: Response to Committee Requests at last meeting (8).
a. State-Federal Fisheries Management Program—Definition of Good Fisheries Management.
b. NOAA Marine Advisory Services—Progress Report.
c. Potential Use of Dogfish Shark.
d. California Fisheries Problems.
e. Cooperative Programs with U.S. Coast Guard—Progress Report.
f. Other items suggested by Committee Members.

FEBRUARY 8, 1973

8:30 a.m.: Great Lakes Fishery Problems (1).
9:30 a.m.: NMFS Financial Assistance Program—Progress Report (2).
11:00 a.m.: Budget consideration affecting NOAA fisheries related activities recommended by MAFAC at past meetings (3).

The meeting will be open to the public on February 6 and 7 and will be open to the public on February 8 from 8:30 a.m. to 11 a.m. The meeting will be closed to the public from 11 a.m. to 1 p.m. on February 8 to discuss agenda item No. 3 which is concerned with matters listed in 5 U.S.C. 552(b) and has been closed to the public as authorized by section 10(d) of Public Law 92-463 by a determination of the Assistant Secretary of Commerce for Administration dated January 24, 1973.

Dated: January 26, 1973.

ROBERT M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

GOVERNMENT-OWNED INVENTIONS

Notice of Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA Patent Licensing Regulations.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Va. 22151, at the prices cited. Requests for copies of patent applications must include the PAT-APPL number and the title. Inquiries and requests for licensing information should be directed to the address cited on the first page of each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231, at $0.50 each. Inquiries and requests for licensing information should be directed to the "assignee" as indicated on the copy of the patent.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[FAP 3B2866]

BORDEN CHEMICAL, DIVISION BORDEN, INC.

Notice of Filing of Petition for Food Additives

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 3B2866) has been filed by Borden Chemical, Division Borden, Inc., Post Office Box 9524, Philadelphia, PA 19124, proposing that § 121.2520 *Adhesives* (21 CFR 121.2520) be amended in paragraph (c) to provide for the safe use of bis-(sodium 2-sulfoethyl) maleate as a stabilizing monomer in copolymers used in food-packaging adhesives.

Dated: January 22, 1973.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

[FR Doc.73-1778 Filed 1-30-73;8:45 am]

[DESI 3205]

CALCIUM PANTOTHENATE, ORAL

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has considered a report from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Panthiion Tablets containing 10 mg. calcium pantothenate per tablet; Eli Lilly & Co., Post Office Box 618, Indianapolis, Ind. 46206 (NDA 3-205).

As presently constituted this article provides a level of pantothenic acid which is regarded as a dietary supplement. Therefore, the article is considered by the Food and Drug Administration

V38-20 JAN 31 73 XUM

to be a food and should be labeled as required for such products.

Though not provided for in the new drug application that had been submitted and approved for this product, physician-directed labeling containing therapeutic indications for the article was available in 1966 when the product was submitted by the NDA holder for Academy review. The conclusions of the Food and Drug Administration, taking into consideration the Academy's report as well as other available evidence, is that calcium pantothenate lacks substantial evidence of effectiveness when offered as a drug for treatment of burning foot syndrome due to pantothenic acid deficiency and for implied claims related to conditions characterized by weakness, fatigue, dizziness, psychoses, mood changes, unsteady gait, torpor, or stressful situations. Any such article which purports or is recommended to be useful in these conditions is subject to regulatory proceedings.

All identical, related, or similar products offered or intended for drug use and not the subject of an approved new drug application, are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, MD 20852.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 3205, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–66), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: January 23, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1776 Filed 1-30-73;8:45 am]

[FAP 3B2867]

CIBA-GEIGY CORP.

Notice of Filing of Petition for Food Additives

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 3B2867) has been filed by Ciba-Geigy Corp., Ardsley, NY 10502, proposing that § 121.2520 *Adhesives* (21 CFR 121.2520) be amended to provide for the safe use of thiodiethylene-bis(3,5, di-*tert*-butyl-4-hydroxyhydrocinnamate) as an antioxidant and/or stabilizer for thermoplastic and thermo-setting polymers used as adhesives for food-packaging materials.

Dated: January 23, 1973.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

[FR Doc.73-1777 Filed 1-30-73;8:45 am]

COLOR ADDITIVES

Metallic Salts and Vegetable Substances in Hair Dye

This notice clarifies the status of metallic salts and vegetable substances when used as color components in hair dye.

Cosmetic product components consisting of metallic salts or vegetable substances capable of imparting color are "color additives" within the meaning of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 321(t). Except for investigational use by experts, 21 U.S.C. 376 (a)(2), (f), 21 CFR 8.33, in the absence of an applicable permanent or provisional color additive listing promulgated by the Food and Drug Administration, such metallic salts or vegetable substances, when used as components of a cosmetic, are deemed "unsafe" for the purposes of 21 U.S.C. 361(e), 21 U.S.C. 376(a), section 203, title II, Public Law 86–618 (July 12, 1960).

21 U.S.C. 361(e) provides that a cosmetic shall be deemed to be adulterated "[i]f it is not a hair dye and it is, or it bears or contains, a color additive which is unsafe within the meaning of" 21 U.S.C. 376(a). The United States Court of Appeals for the Second Circuit has ruled that despite use of the introductory words "if it is not a hair dye," Congress did not mean to exempt non-coal-tar color additives used in hair dyes from the requirement of listing. Toilet Goods Assoc. v. Finch, 419 F.2d 21, 30 (C.A. 2, 1969).

Metallic salts and vegetable substances are not coal-tar derivatives. Thus, except for investigational use by experts, in the absence of a listing permitting use, any hair dye which contains a metallic salt or vegetable substance as a coloring component is an adulterated cosmetic. 21 U.S.C. 361(e).

Furthermore, any hair dye, including a coal-tar hair dye, which bears or contains a poisonous or deleterious metallic salt or vegetable substance which may render it injurious to users under the conditions of use prescribed in the labeling thereof, or under such conditions of use as are customary or usual, must be deemed adulterated (21 U.S.C. 361(a)). The exemption in 21 U.S.C. 361(a) does not apply to coloring ingredients which are not derived from coal-tar, such as metallic salts or vegetable substances (21 CFR 8.1(u)). TGA v. Finch, supra, 419 F. 2d at 29–30.

The Commissioner of Food and Drugs hereby gives notice that, on or before July 30, 1973, any person who desires to use as a coloring component in hair dye any metallic salt or vegetable substance not presently listed for such use, shall submit a petition proposing appropriate permanent listings.

After July 30, 1973, any marketed hair dye containing a metallic salt or vegetable substance for which there is no applicable listing or pending petition for listing will be liable to regulatory action. The Food and Drug Administration is provisionally listing metallic salts and vegetable substances used for these purposes on an interim basis. Only those color additives for which petitions are filed by July 30, 1973, will be retained on the provisional list at that time.

The FEDERAL REGISTER notice of December 10, 1963 (28 FR 13374) captioned "Color Additives; Metallic-Salt and Vegetable Hair Colors," which was based on regulations which have now been amended, is hereby rescinded.

Dated: January 29, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Services and Mental Health Administration

COMPREHENSIVE HEALTH PLANNING TRAINING AND STUDIES REVIEW COMMITTEE

Notice of Meeting

The Acting Administrator, Health Services and Mental Health Administration, announces the meeting date and other required information for the following National Advisory body scheduled to assemble the month of February 1973.

Committee name	Date, time, place	Type of meeting and/or contact person
Comprehensive Health Planning Training and Studies Review Committee.	Feb. 5-7, 9 a.m., Ramada Inn, Bethesda, Md.	Closed. Contact Frank Juska, Room 7-31, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD Code 301—443-2390.

Purpose. The committee is charged with the review of grant applications with respect to the development of improved or more effective comprehensive health planning through training and education. Provides advice and assistance on programing goals and policies relating to comprehensive health planning training, studies and demonstrations.

Agenda. The committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 92-463, section 10(a)(2).

Items for discussion are subject to change due to priorities as directed by the President of the United States, or the Secretary of Health, Education, and Welfare.

A roster of members may be obtained from the contact person listed above.

Dated: January 23, 1973.

ANDREW J. CARDINAL,
Acting Associate Administrator for Management Health Services and Mental Health Administration.

NATIONAL ADVISORY COUNCIL ON EDUCATION PROFESSIONS DEVELOPMENT

Notice of Public Meeting

Notice is hereby given, pursuant to Section 10(a)(2), Public Law 92–463, that the next meeting of the National Advisory Council on Education Professions Development will be held on February 1, 1973, 9 a.m. to 5 p.m., and February 2, 1973, 8:30 a.m. to 12 noon, local time, at the Dupont Plaza Hotel, Dupont Circle, NW., Washington, D.C.

The National Advisory Council on Education Professions Development is established under section 502 of the Education Professions Development Act (Public Law 90–35). The Council is charged with the review of the Education Professions Development Act and of all other Federal programs for the training and development of educational personnel.

The meeting of the Council shall be open to the public. The proposed agenda includes discussion of training of personnel in early childhood and vocational education; policies concerning evaluation of educational endeavors; and current status of educational personnel training programs. Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of Committee Management, located in Room 4158, F.O.B. 6, 400 Maryland Avenue SW., Washington, DC.

Signed at Washington, D.C. on January 26, 1973.

[Docket No. 50-411]

GULF OIL CORP.

Notice of Application for and Consideration of Issuance of Facility Export License

Please take notice that Gulf Oil Corp., San Diego, Calif., has submitted to the Atomic Energy Commission an application for a license to authorize the export of a pool-type research reactor to the Institute of Nuclear Technologies, Romanian State Committee for Nuclear Energy, Pietesti, Romania, and that the issuance of such license is under consideration by the Atomic Energy Commission.

No license authorizing the proposed reactor export will be issued until the Atomic Energy Commission determines that such export is within the scope of and consistent with the terms of an applicable agreement for cooperation arranged pursuant to section 123 of the Atomic Energy Act of 1954, as amended (Act), nor until the Atomic Energy Commission has found that:

(a) The application complies with the requirements of the Act, and the Atomic Energy Commission's regulations set forth in Title 10, Chapter 1, Code of Federal Regulations, and

(b) The reactor proposed to be exported is a utilization facility as defined in said Act and regulations.

In its review of applications solely to authorize the export of production or utilization facilities, the Atomic Energy Commission does not evaluate the health and safety characteristics of the facility to be exported.

On or before February 15, 1973, a request for a hearing is filed with the Atomic Energy Commission by the applicant, or a petition for leave to intervene is filed by any person whose interest may be affected by the proceeding, the Director of Regulation may, upon the determinations and findings noted above, cause to be issued to Gulf Oil Corp., a facility export license and may cause to be published in the FEDERAL REGISTER a notice of issuance of the license. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in the notice, the Atomic Energy Commission will issue a notice of hearing or an appropriate order.

A copy of the application is on file in the Atomic Energy Commission's Public Document Room located at 1717 H Street NW., Washington, DC.

Dated at Bethesda, Md., this 19th day of January 1973.

For the Atomic Energy Commission.

S. H. SMILEY,
Deputy Director for Fuels and Materials, Directorate of Licensing.

[Docket No. 50-367]

NORTHERN INDIANA PUBLIC SERVICE CO.

Notice and Order for Prehearing Conference

JANUARY 23, 1973.

Take notice, that in accordance with our order of January 12, 1973, denying joint intervenors' motion for additional time on contentions, a prehearing conference will be held in the subject proceeding on March 9, 1973, at 10 a.m., local time, in Room 2010, Federal Office Building No. 7, 726 Jackson Place NW. (17th Street Entrance), Washington, DC 20506.

The primary purposes of the prehearing conference are:

1. To rule on any contentions which may be filed by joint intervenors on or before February 12, 1973, in accordance with the provisions of a stipulation executed by three of the parties on October 31, 1972;

2. To determine the extent or scope of the burdens of proof for each of the parties;

3. To fix firm dates for conclusion of the discovery process and the start of further evidentiary hearings; and

4. To take whatever other steps are necessary to expedite this proceeding.

Issued at Washington, D.C., this 23d day of January 1973.

It is so ordered.

TEXAS A. & M. UNIVERSITY

Notice of Issuance of Facility License Amendment

No request for a hearing or petition for leave to intervene having been filed following publication of the notice of proposed action in the FEDERAL REGISTER on December 15, 1972 (37 FR 26749), the Atomic Energy Commission (the Commission) has issued Amendment No. 10 to Facility License No. R-23 to the Texas A. & M. University as proposed in that notice. The amendment authorizes the university to operate its modified AGN-201 nuclear reactor located on its campus in College Station, Tex., at increased power levels of up to 5 watts (thermal) (from 100 milliwatts) and redesignates the reactor as Model AGN-201M, in accordance with the university's application dated September 27, 1972.

The Commission has found that the application for the amendment to the facility license complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations published in 10 CFR Ch. I. The Commission has made the findings required by the Act and the Commission's regulations, which are set forth in the license amendment, and has concluded that the issuance of the license amendment will not be inimical to the common defense and security or to the health and safety of the public.

A copy of the license amendment and safety evaluation dated December 13, 1972, are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC, or may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 18th day of January 1973.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Operating Reactors, Directorate of Licensing.

WASHINGTON PUBLIC POWER SUPPLY SYSTEM

Assignment of Members of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787 (a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for this proceeding:

Alan S. Rosenthal, Chairman.
Dr. John H. Buck, Member.
Michael C. Farrar, Member.

Dated: January 24, 1973.

WILLIAM L. WOODARD,
Executive Secretary, Atomic Safety and Licensing Appeal Panel.

[FR Doc.73-1810 Filed 1-30-73;8:45 am]

[Dockets Nos. 50-390, 50-391]

WATTS BAR NUCLEAR PLANT

Notice of Issuance of Construction Permits

Notice is hereby given that, pursuant to the initial decision of the Atomic Safety and Licensing Board dated December 19, 1972, the Deputy Director for Reactor Projects, Directorate of Licensing, has issued Construction Permits Nos. CPPR-91 and CPPR-92 to the Tennessee Valley Authority for construction of two pressurized water nuclear reactors on the applicant's site in Rhea County, Tenn. The site is located on the west bank of the Tennessee River, approximately 50 miles northeast of Chatanooga. The proposed reactors, designated as the Watts Bar Nuclear Plant, Units 1 and 2, have a rated thermal output of 3,411 megawatts each.

Copies of the initial decision and construction permits are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, and at the Dayton Public Library, First Avenue, Dayton, Tenn. 37321. Copies of the construction permits may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 23d day of January 1973.

For the Atomic Energy Commission.

R. C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 24812; Order 73-1-74]

AMERICAN AIRLINES, INC.

Order Denying Application for an Order To Show Cause and Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of January 1973.

On October 6, 1972, American Airlines, Inc. (American), filed an application to delete Douglas, Ariz., from its certificate of public convenience and necessity for route 4. In addition, American filed a motion requesting expeditious action on its application and, alternatively, requesting the Board to issue an order to show cause why its application in Docket 24812 should not be granted. American is presently authorized to suspend service temporarily at Douglas subject to a substitute service agreement with Cochise Airlines (Cochise).[1]

Answers in opposition to American's application and motion were filed by the Cities of Douglas, Sierra Vista, Bisbee, the State of Arizona and Cochise County and the Bisbee-Douglas Airport Commission alleging, inter alia, that the Douglas area is entitled to a hearing on the matters raised by American's deletion application.

Upon consideration of the pleadings and all the relevant facts, we have decided to deny American's request for a show cause order, and set for hearing American's application to delete Douglas. The community opposes American's application and we believe that under all the circumstances it is appropriate to consider on an evidentiary record all the matters raised by American's application.

Accordingly, it is ordered, That:

1. The motion of American Airlines, Inc., for an order to show cause, be and it hereby is denied;

2. The application of American Airlines, Inc., in Docket 24812, be and it hereby is set for hearing at a time and place to be hereafter designated; and

3. A copy of this order shall be served upon American Airlines, Inc., Cochise Airlines, the Mayors of the cities of Douglas, Bisbee, Sierra Vista, and Tucson, Ariz., Governor, State of Arizona, Arizona Corporation Commission, Arizona Department of Aeronautics, Douglas-Bisbee International Airport, Board of Supervisors of Cochise County, Bisbee-Douglas Airport Commission, and the U.S. Postal Service.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 24488; Order 72-12-64]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Youth and Student Fares in Foreign Air Transportation

Correction

In FR Doc. 72-21824 appearing on page 28092 of the issue for Wednesday, December 20, 1972, in the 13th line of the 2d column, the figure "14" should read "24."

[Docket No. 24691]

SUPERIOR AIRWAYS LTD.

Postponement of Prehearing Conference and Hearing

In regard to Foreign Air Carrier Permit to engage in charter foreign air transportation between Canada and the United States.

Notice is hereby given that the prehearing conference now scheduled for January 30, 1973 (38 FR 1141, January 9, 1973), is hereby postponed to February 13, 1973, at 11 a.m. (local time) in room 503, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before the undersigned Administrative Law Judge.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before February 12, 1973.

[1] By Order 70-8-113, dated Aug. 28, 1970, American's temporary suspension at Douglas was continued until July 1, 1973, unless sooner terminated by the Board. In addition, the Board approved an air taxi service replacement agreement in which Apache Airlines would provide a substitute service at Douglas for American. By order 71-9-111, dated Sept. 28, 1971, Cochise was substituted as the replacement carrier. The Cochise agreement will expire on Oct. 1, 1973. See Order 72-9-115, Sept. 29, 1972.

V38-20 JAN 31 73 XUM

Dated at Washington, D.C., January 24, 1973.

[SEAL] JOSEPH L. FITZMAURICE,
Administrative Law Judge.

ENVIRONMENTAL PROTECTION AGENCY

PESTICIDE CONTROL ACT IMPLEMENTATION PLAN

Procedures; Plan for Solicitation of Public Comment

On January 9, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 1142) an Implementation Plan for the Pesticide Control Act of 1972. That document set forth the Agency's general plan for implementing the Act, informed the public as to the dates when the different sections became or become effective, and invited preliminary views as to form and content of the regulations. This notice is supplementary to the document published January 9, 1973. It explains in detail the procedures to be followed by the Agency in supplementing those major sections of the Act which become fully effective in from 1 to 4 years, and solicits comment from interested persons on specific questions and issues.

Notice is hereby given that the Environmental Protection Agency Task Force on Implementation of Public Law 92-516 (FEPCA), has designated six subgroups to consider in detail procedures for the implementation of sections 3, 4, 5, 7, 8, and 24 of the Act. The parent Task Force has outlined specific policy issues and questions to be considered by each subgroup. Initially, the responsibility of the subgroups is to suggest implementation procedures, and to make recommendations as to the content of regulations, to be promulgated later, within the times established by the legislation.

The subgroups are charged to explore the broadest possible range of opinion and interest. To that end, comments and suggestions from all interested parties are invited, on the issues outlined below, or on any other related questions. Comments should be directed to Lowell E. Miller, Chairman of EPA Task Force on Implementation of FEPCA, Office of Pesticides Programs, Environmental Protection Agency, Washington, D.C. 20460. Comments are requested as soon as possible, but on or before March 2, 1973.

Proposed regulations, when developed by the Task Force, will be published in the FEDERAL REGISTER, for public comment. However, the Environmental Protection Agency is seeking maximum input from interested parties before formal proposal of regulations.

A listing of the subgroups, their membership, and the issue areas suggested for consideration, follows:

I. SUBGROUP ON REGISTRATION OF PESTICIDES

Secs. 3, 24 (Regulations due within 2 years).

A. MEMBERSHIP

Harold Alford, Chairperson—Office of Pesticides Programs.
Henry S. Bussey—Office of Pesticides Programs—Registration Division.
Theodore Breton—Office of Planning and Evaluation.
Errett Deck—Consultant.

B. ISSUES AND QUESTIONS TO BE CONSIDERED BY SUBGROUP

1. Procedures for registration of products under new FIFRA, including procedures covering subject matters of section 3(c)(1)-3(c)(6) and internal procedures for processing applications.
2. Procedure for reregistration and classification of products previously registered under 1947 FIFRA.
3. Procedures for registration of intrastate products.
4. Procedures for making registration data available under section 3(c)(2).
5. Procedures for identifying the costs involved in producing test data and identifying such other information as might be pertinent to determining "reasonable compensation" for the purpose of section 3(c)(1)(D), and the accounting procedures registrants must follow in order to identify the "compensation" for "producing the test data."
6. To what extent, if any, may States have "duplicatory" registration programs? (Sec. 24)
7. Section 24(c)—State registration of pesticides to meet "special local needs."

(a) How broadly should we construe this section? What is meant by "special local needs?"

(b) What kind of a program should be established for certification of States? What standards for certification? What procedures for State registrations?

8. Section 23(a)—Cooperative Agreements. Does section 23(a) contemplate cooperative agreements with respect to State registration activities? (The answer to this question will depend upon interpretation of word "enforcement".) If so, what type of delegations should be made and cooperative agreements entered into?

II. SUBGROUP ON CLASSIFICATION OF PESTICIDES

Section 8—(Regulations due within 2 years).

A. MEMBERSHIP

William Preston, Chairperson—Office of Pesticides Programs—Criteria and Evaluation Division.
Homer Fairchild—Office of Pesticides Programs.
Farley Fischer—Office of Toxic Substances.

B. ISSUES AND QUESTIONS TO BE CONSIDERED BY SUBGROUP

1. Criteria for classification of pesticides for "general use" or for "restricted use?" section 3(d)(1). The first classification division is between "general" and "restricted" use—what are the guidelines for this first classification?
2. What categories of "restricted use" pesticides should be established? section 3(d)(1)(C)
3. What special requirements should be made for the packaging and labeling of restricted use pesticides?
4. Advice to Subgroup No. 1 on classification under new FIFRA of previously registered products.

III. SUBGROUP ON USE OF RESTRICTED USE PESTICIDES; CERTIFIED APPLICATORS

Sections 4, 23—(Regulations due within 1 year).

A. MEMBERSHIP

James White, Chairperson—Office of Pesticides Programs—Operations Division.
Robert Evans—Office of Pesticides Programs—Operations Division.
Ivan Dodson—Region VIII.
W. Richard Hager—Office of Intergovernmental Relations.

B. ISSUES AND QUESTIONS TO BE CONSIDERED BY SUBGROUP

1. May there be Federal certification of applicators in the event a State plan is not submitted or approved? Should there be a Federal certification program? Does the Federal Government undertake to train State personnel if a State has no present capabilities or does not want to undertake to develop them?
2. What should be general standards prescribed by Administrator? Section 4(a) How broad should standards be? Applicability to Federal/State employees. Question of reciprocity.
3. Detailed procedures for submission, review, approval, or disapproval of State plans.
4. To what extent should EPA assist States in developing and administering State programs for training and certifications of applicators? Section 23(a)(2)

What would be acceptable facilities and capabilities for training? What categories of skills and experience need to be spelled out in the standards? What would be acceptable skills? Would State training fees be allowed? How do we relate to present standards in those States which have them?

5. To what extent should EPA enter into contracts with Federal or State agencies for the purpose of encouraging the training of certified applicators (Section 23(b))? What kinds of assistance other than contracts will the Federal Government offer States? How are we going to handle requests for contracts assistance?
6. If no grant money is available in fiscal year 1974, how should EPA propose to assist States to implement cooperative enforcement programs?
7. What modification of the interagency agreement with USDA/ES needs to be entered into for informing farmers and others of accepted uses and other regulations? What is to be the Regional role? How do we insure uniformity of distribution of information through cooperative State Extension Service?

IV SUBGROUP ON EXPERIMENTAL USE PERMITS

Sec. 5—(Regulations due within 1 year.)

A. Although experimental use permits are directly related to registration, it is believed that a separate subgroup should be established to give policy guidance and draft proposed regulations and standards under section 5.

MEMBERSHIP

Charles Smith, Chairperson—Office of Pesticides Programs—Registration Division.
David Bowen—Office of Pesticides Programs—Registration Division.
Pat Critchlow—Office of Pesticides Programs—Registration Division.
Sam Colamaria—Region I.

B. ISSUES AND QUESTIONS TO BE CONSIDERED BY SUBGROUP

1. Draft proposed regulations for implementation of sections 5(a)-(e).
2. Propose standards for authorization of States to issue experimental use permits.

What should be scope of State experimental use permits program? What terms and conditions should Administrator prescribe with respect to authorizing States to conduct program? What should be the standards for State experimental use permits programs?

V. SUBGROUP ON REGISTRATION OF ESTABLISHMENTS

Section 7 (Regulations due within 1 year)

A. MEMBERSHIP

Suzanne Howe, Chairperson—Office of General Enforcement.
John Wicklund—Region VII.
Alvin Chock—Office of Pesticides Programs—Registration Division.

B. ISSUES AND QUESTIONS TO BE CONSIDERED BY SUBGROUP

1. Procedures for registration of establishments, including—
(a) Approximation of the number of establishments to be registered.
(b) Revocation of registration.
(c) Time at which establishment registration number must be on label.
2. Development of a system for handling information submitted by producers, including definition of "current production."
3. Extent of State participation in establishment registration process and access to information submitted.

VI SUBGROUP ON BOOKS AND RECORDS

Section 8 (Regulations due within 1 year).

A. MEMBERSHIP

Anthony Dellavecchia, Chairperson—Office of General Enforcement.
Roy Clark—Region IV.
William Luneburg—Region I.

B. ISSUES AND QUESTIONS TO BE CONSIDERED BY SUBGROUP

1. Scope of the information required to be maintained by producers, including records to be maintained by exporters.
2. Policy on inspecting books and records.
3. Extent of State involvement in the inspection of books and records, including a policy with respect to negotiating cooperative enforcement agreements with States.

Dated: January 24, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19544]

PUBLIC COAST RADIOTELEGRAPH STATIONS

Partial Extension of Time for Comments

Order. In the matter of inquiry into problems of public coast radiotelegraph stations, Docket No. 19544.

1. By letter dated January 5, 1973, the Communications Workers of America (CWA) requests an extension of time for a period of 90 days from the presently scheduled January 25, 1973, deadline in which to file reply comments in the above-captioned inquiry.[1]

2. Respondent alleges that it has not had sufficient time to complete its filing due to delays in the receipt of the comments of RCA Global Communications, Inc. and a copy of a 1970 cost allocation study cited in the ITT World Communications Inc. filing.

3. We cannot find that the Communications Workers of America has made a sufficient showing of good cause to justify the entire extension of time sought. However, we do believe that a partial grant of the CWA request is warranted.

4. *Accordingly, it is ordered,* Pursuant to § 0.303(c) of the Commission's rules pertaining to delegations of authority, that the request of Communications Workers of America is granted in part; and

(A) The time in which to file reply comments in Docket No. 19544 is extended until March 12, 1973; and

(B) Except to the extent granted above, the request of Communications Workers of America is denied.

Adopted: January 18, 1973.

Released: January 22, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
BERNARD STRASSBURG,
Chief, Common Carrier Bureau.

FEDERAL MARITIME COMMISSION

PACIFIC COAST AUSTRALASIAN TARIFF BUREAU

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before February 20, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. A. H. Eber, Secretary, Pacific Coast Australasian Tariff Bureau, 635 Sacramento Street, San Francisco, CA 94111.

Agreement No. 50–24 modifies Article IX of the Pacific Coast Australasian Tariff Bureau's (PCATB) basic agreement to reflect an increase of the non-returnable admission fee assessed new members from $1,000 to $5,000.

By order of the Federal Maritime Commission.

Dated: January 23, 1973.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CI73–503]

AMERADA HESS CORP.

Notice of Application

JANUARY 26, 1973.

Take notice that on January 22, 1973, Amerada Hess Corp. (Applicant), Post Office Box 2040, Tulsa, OK 74102, filed in Docket No. CI73–503 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corp. from the Leleux Field, Vermilion Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 121,600 Mcf of gas per month at 35 cents per Mcf at 15.025 p.s.i.a. for 1 year within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 16, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–1837 Filed 1–30–73;8:45 am]

[Docket No. CI73–502]

AMERICAN LIBERTY OIL CO.

Notice of Application

JANUARY 26, 1973.

Take notice that on January 22, 1973, American Liberty Oil Co. (Applicant), 4100 First National Bank Building, Dallas, Tex. 75202, filed in Docket No. CI73–502 an application pursuant to section 7 (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Co. from acreage in Eddy County, N. Mex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has commenced the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act and that it proposes to continue said sale for 10 months from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 5,000 Mcf of gas per day at 40.0 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7905]

ARIZONA PUBLIC SERVICE CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 24, 1973.

Take notice that Arizona Public Service Co. (Arizona) on June 7, 1972, tendered for filing proposed changes in its FPC Electric Rate Schedule No. 32, Supplement No. 5. The filing consists of the monthly billing adjustments from June 1971, through April 1972, under section VII of Service Schedule E to the Power Coordination Agreement dated December 31, 1962, between Arizona and Tucson Gas & Electric Co. The proposed rate changes would affect Arizona's jurisdictional revenues from a decrease of approximately $130 to an increase of approximately $14,126 per month during the period. Arizona requests that § 35.11 of the Commission's regulations be waived for this filing and that the monthly adjustments become effective at the beginning of their respective months.

Further, Arizona requests reconsideration of the Commission's letter order dated June 27, 1969, requiring monthly filing of adjustments under the Supplement.

Any person desiring to be heard or to protest said application should file a petion to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. G–8934, G–10008]

EL PASO NATURAL GAS CO.

Notice of Extension of Time

JANUARY 24, 1973.

On January 19, 1973, El Paso Natural Gas Co. filed a motion for extension of time to file evidence and for continuance of hearing date as established by the order issued January 9, 1973, in the above matter. The motion states that the Commission staff counsel has no objection to this motion.

Upon consideration, notice is hereby given that the time is extended to and including February 12, 1973, within which El Paso shall file its evidence. Accordingly, the hearing date is postponed to February 28, 1973, at 10 a.m.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–1849 Filed 1–30–73;8:45 am]

[Docket No. CI73–490]

FOREST OIL CORP.

Notice of Application

JANUARY 23, 1973.

Take notice that on January 18, 1973, Forest Oil Corp. (Applicant), 1300 National Bank of Commerce Building, San Antonio, Tex. 78205, filed in Docket No. CI73–490 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Columbia Gas Transmission Corp. from the Block 314, Eugene Island Area, South Addition, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 150,000 Mcf of gas per month for 1 year at 35 cents per Mcf at 15.025 p.s.i.a. within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7977]

IOWA PUBLIC SERVICE CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 24, 1973.

Take notice that Iowa Public Service Co. (IPS) on January 15, 1973, tendered for filing proposed changes in its FPC Rate Schedule No. 13 in order to add a new service schedule entitled "Replacement Service". The proposed rate schedule supplement is described in the company's transmittal letter as follows:

Energy purchased under the Replacement Service Schedule is energy made available by the Bureau of Reclamation for specified amounts and periods of time as replacement power energy for retirement or temporary shutdown of fuel burning generating units of Iowa Public Service Co. The rate for such replacement service energy is an amount equal to 85 percent of the saving to Iowa Public Service Co. in the cost of fuel due to reduce operations in its generating stations, plus 50 percent of all other savings realized as the result of such purchase. The Bureau of Reclamation has similar schedules in effect with other utilities with whom it is interconnected. Iowa Public Service Co. has no comparable rate schedule.

It is estimated that Iowa Public Service Co. will purchase 3,000 MWH in January 1973; 3,000 in February, 1973; and 2,000 in the remaining months in 1973, under this schedule.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the

38 FR 3107 JAN 31 1973 XUM

refund credits to its ... gas by the parties hereto, after reasonable ... order temporarily modifying Panhandle Eastern Pipe Line Co.'s (Panhandle) op-

Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 9, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants partics to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1846 Filed 1-30-73;8:45 am]

[Dockets Nos. RP71-107 (Phase II), RP72-127]

NORTHERN NATURAL GAS CO.

Notice of Filing of Proposed Stipulation and Agreement

JANUARY 24, 1973.

Take notice that on January 18, 1973, Northern Natural Gas Co. (Northern) filed a proposed stipulation and agreement in settlement of the proceedings in the above-styled dockets, with certain specific issues to be reserved for decision by the Administrative Law Judge.

On April 26, 1971, Northern filed revised tariff sheets providing increased rates of $18,323,823 annually to its jurisdictional customers over the then pending Docket No. RP70-43 filed rates. By order issued August 3, 1971, the Commission approved a settlement which resulted in rates below those initially filed by Northern in Docket No. RP70-43. As a result of the August 3, 1971, order in Docket No. RP70-43, Northern filed substitute lower rates in the Docket No. RP71-107 proceeding. The difference in annual revenues between the Commission approved Docket No. RP70-43 settlement rates and the Docket No. RP71-107 substitute rates is $22,758,944. Such last mentioned rates have been collected, subject to refund, since November 14, 1971. Subsequently, on May 19, 1972, Northern filed in Docket No. RP72-127 revised tariff sheets providing an increase in annual jurisdictional revenues of $36,003,942 for jurisdictional zone sales above the revenues based on the Docket No. RP71-107 filed rates and additionally providing an increase of $292,738 over the revenues at the then effective contract rates for jurisdictional field sales. The proposed Stipulation and Agreement provides a total increase of approximately $38,732,000 in annual jurisdictional revenues, above the revenues based on the RP70-43 approved rates, for zone sales in both Dockets Nos. RP71-107 and RP72-127. No reduction would be made for jurisdictional field sales.

The proposed stipulation and agreement also provides, inter alia, for the inclusion of Alberta, Canada, and Montana gas prepayments and the related carrying charges and certain other gas acquisition projects in Northern's rate base; a provision for an annual rate adjustment to reflect changes in costs of research and development expenditures; an increase in depreciation rates; provision for cost of service treatment for Northern's gas acquisition and exploration efforts in the Hugoton-Anadarko Area; the disposition of the demand charge and group billing issues; and, the reservation of certain interest capitalized issues for decision by the Administrative Law Judge and the Commission.

In addition, the issue raised by Northern's continued use of liberalized depreciation with normalization for accounting and rate purposes with respect to eligible pre-1970 property and post-1969 nonexpansion property is reserved in Docket Nos. RP71-107 (Phase II) and RP72-127 for further determination.

The proposed stipulation and agreement is on file with the Commission and is available for public inspection. Comments with respect to the proposed stipulation and agreement may be filed with the Commission on or before February 7, 1973. Any replies thereto may be filed on or before February 21, 1973.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1850 Filed 1-30-73;8:45 am]

[Docket No. RP73-63]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Order Establishing Date for Prehearing Conference and Granting Petitions To Intervene

JANUARY 22, 1973.

On September 17, 1972, Natural Gas Pipeline Company of America (Natural) filed in Docket No. RP73-63 for authorization pursuant to the provisions of section 16 of the Natural Gas Act and § 1.7 of the Commission's rules of practice and procedure to (1) price gas produced from leases acquired by Natural prior to October 7, 1969, at the applicable area rate for gas of comparable quality and vintage instead of the cost of service basis, (2) permit and require Natural to expend monies from a revolving exploration fund, and (3) authorize Natural to adjust the base average purchased gas cost under the Purchased Gas Adjustment Clause (PGA) in Natural's FPC Gas Tariff in order to reflect the change to area rates. Natural requests modification of its PGA provision by eliminating the words: "Cost of company-owned pipeline production from leases acquired after October 7, 1969", and substituting therefore: "company-owned production at area rates."

Notice of Natural's application in Docket No. RP73-63 was issued on December 1, 1972, and was published in the FEDERAL REGISTER on December 7, 1972 (37 FR 26059). December 11, 1972, was set as the last date to file protests or petitions to intervene in the proceeding. Timely petitions to intervene were filed by the following parties:

Associated Natural Gas Co.
Central Illinois Light Co.
Northern Illinois Gas Co.
North Shore Gas Co.
The Peoples Gas, Light & Coke Co.
Iowa-Illinois Gas & Electric Co., Mississippi River Transmission Corp., Illinois Power Co., and Northern Indiana Public Service Co. filed late petitions to intervene. No protest, objection or petition to intervene in opposition to the proposal was filed by any party.

We find that each of the above-named petitioners, including those who filed late, has sufficient interest in these proceedings to warrant intervention, and we shall grant the same.

Natural's estimated cost of produced gas, based on cost of service, for a period of 12 years is $9,788,169 or 2.55 cents per Mcf. Natural estimates cost of produced gas at area rates of $55,797,080, a difference of $46,008,911 or 11.96 cents per Mcf. (It is noted that Natural's estimated area rates in the Hugoton-Anadarko Area at 14.5 cents per Mcf from July 1, 1973, to June 30, 1985, did not consider the expiration of the moratorium on July 1, 1977.) In estimating cost of service for the period July 1, 1973, to June 30, 1985, Natural used a Federal income tax rate of 48 percent, a 22 percent statutory depletion allowance, and a rate of return of 9.17 percent. Natural states that it will maintain appropriate accounts and file annual reports with the Commission describing the results of its financial transactions in the detail desired.

With respect to the "revolving exploration fund", Natural proposes a 12-year period for two reasons: (a) The ability of the existing wells to produce will be diminished at the close of this period; and (b) a definite termination date for authority in order to demonstrate clear compliance with the investment conditions to be attached to said authority. Natural states that any gas reserves found as a consequence from the revolving exploration fund will be dedicated to service for Natural's customers.

Natural states that separate and apart from the program it proposes herein, it will continue to devote substantial sums to exploratory efforts within and without the continental United States. Since 1968, Natural has made advance payments of approximately $95 million under existing agreements. Also, Natural is involved in development of synthetic gas supplies calling for an additional $10 million.[1] However, the gas reserves owned by or dedicated to Natural have declined from 14.9 Tcf as of December 31, 1969, to 12.5 Tcf as of December 31, 1971. Natural has curtailed firm deliveries by approximately 253 Bcf since June 1970.

In the proposal as filed Natural has failed to supply the information that the Commission needs to determine the amount of gas reserves that Natural will dedicate. Natural has expressed its proposed exploration fund in dollar amounts only, and makes no estimate of reserves to be found. Natural's filing does not contain a goal for reserves to be found; therefore, if the situation arises, there would be no basis for Natural to make refund credits to it[illegible] gas not found as a result of the exploratory effort. Additionally, we note that Natural proposes to add moneys to the revolving fund based on the net income after tax deductions from sales of gas from reserves discovered as a result of the exploration efforts. However, the amount to be added to the revolving fund is not expressed in terms of an amount certain per Mcf or barrel of oil. Natural avers that its proposal would provide a substantial continuing commitment of funds toward greater exploration and a more effective use of these funds. These would be obtained through the imposition of a refund condition as we provided for in our Opinion No. 626 where we conditionally approved a proposal made by Panhandle Eastern Pipe Line Co. (Docket No. CP71-237, et al., 9 FPC 72).

We do not believe that Natural's proposal as filed can be approved but that the issues herein should be set for formal hearing and a prehearing conference should be held in connection therewith. This order will so provide.

The Commission finds:

(1) It is necessary and in the public interest that the proceedings be set for hearing, and that a prehearing conference be held in connection with the issues presented herein.

(2) It is desirable and in the public interest to allow the intervening petitioners to intervene in this proceeding in order that they may participate in the facts and the law from which the merit and validity of their allegations and interests may be determined, now what further action may be required under the circumstances in the application of the Natural Gas Act.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held concerning the issues presented herein.

(B) In order to resolve the questions involved in this proceeding and to expedite the hearing provided for in ordering paragraph A, supra, a prehearing conference shall be held in accordance with § 1.18(c) of the rules of practice and procedure, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington DC 20426, commencing February 8, 1973, at 10 a.m., e.s.t.

(C) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall convene the prehearing conference in this proceeding.

(D) After convening the prehearing conference provided for herein, the Presiding Administrative Law Judge may recess the same to provide the parties an opportunity for the submission and consideration of facts, or stipulation of facts, at issue in this proceeding.

(E) The Administrative Law Judge may in his discretion grant recesses from time to time if he deems submission of the issues upon stipulated facts to be possible. If no stipulation can be reached by the parties hereto, after reasonable time and provision has been made for the same, the procedural dates for service of prepared testimony and exhibits, and for hearings on the issues herein shall be fixed by the Administrative Law Judge.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1851 Filed 1-30-73;8:45 am]

[Docket No. E-7964]

NORTHERN STATES POWER CO.

Notice of Filing Initial Rate Schedule

JANUARY 24, 1973.

Take notice that Northern States Power Co. (Northern) on April 10, 1972, tendered for filing a proposed Participation Power Agreement between Northern and Minnesota Power & Light Co. (Minnesota). The proposed rate is described in the company's transmittal letter as follows:

Northern States Power Co. agrees to sell to Minnesota Power & Light Co. 15 mw. of power for the period May 1, 1972, through April 30, 1973, and 58 mw. of power for the period June 1, 1972, through May 31, 1973.

The transactions contained in the Agreement are dependent upon the Participation Power Agreement, dated February 23, 1972, by which Northern States agrees to purchase 115 mw. of Participation Power from Union Electric Co. for the period June 1, 1972, through April 30, 1973, filed with the Commission by Union Electric on March 10, 1972, and the Power Agreement, dated December 14, 1971, by which Northern States agrees to purchase 130 mw. of power from Union Electric Co. for the period June 1, 1972, through May 31, 1973, filed with the Commission by Union Electric on March 2, 1972.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 31, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1845 Filed 1-30-73;8:45 am]

[Docket No. RP71-119]

PANHANDLE EASTERN PIPE LINE CO.

Notice of Petition of Missouri Public Service Co. for Extraordinary Relief

JANUARY 26, 1973.

Take notice that on January 17, 1973, Missouri Public Service Co. (M.P.S.) filed a petition with the Commission seeking extraordinary relief in the form of an order temporarily modifying Panhandle Eastern Pipe Line Co.'s (Panhandle) operating provisions as specified in the interim curtailment plan heretofore approved by the Commission.[1]

M.P.S. is a public utility company which purchases natural gas from Panhandle for resale in order to provide natural gas service to a number of communities in Missouri. The City of Marceline, Mo., is a community to which it sells gas on an interruptible basis for use in Marceline's small electric generating plant. M.P.S. provides Marceline's entire electric requirements. M.P.S. completely interrupted service to Marceline on November 14, 1972, and will not resume service until such time as sufficient gas supplies are available from Panhandle.

M.P.S. in its petition alleges that Marceline is a community of about 2,800 people and that its electric generating plant is isolated and that it has no interconnection with any other utility.

M.P.S. further alleges that the Marceline's electric power plant was basically constructed to utilize natural gas as a prime fuel; however, it has this winter due to the interruption of natural gas service utilized only fuel oil. The plant consumes approximately 3,500 gallons of fuel oil a day and Marceline is experiencing difficulty obtaining adequate fuel oil supplies to keep it in operation.[2]

Marceline has an allocation from its prime supplier of 200,000 gallons for that annual period between November 1, 1972, to October 31, 1973. By January 2, 1973, Marceline had already taken delivery of 140,000 of the aforementioned gallons and expects to fully utilize the entire allocation from its principal supplier by January 25, 1973, including an allowance of 10 percent overrun. Marceline has further hopes of obtaining a small supplemental supply of approximately 30,000 gallons from other sources. However, Marceline will be forced to shut down in February unless it is able to acquire additional fuel oil or natural gas from other sources to serve its power plant.

M.P.S. in its petition notes that in addition to the obvious direct impact that such an electric shutdown will have on residential customers such other human needs customers as a local hospital, rest homes, public housing developments for senior citizens, schools and a number of businesses would be deprived of essential electric service. It also contends that without electric power, it would not be able to operate its water and sewage systems.

M.P.S. further contends that Marceline has contacted every local fuel oil distributor and several dealers in other States in an effort to obtain fuel oil to meet its requirements. Other than the 30,000 gallons of fuel oil previously noted herein its efforts have proven unsuccessful. Marceline has also contacted the Office of Emergency Preparedness and

[1] Natural does not state the amount of money for exploration and development it is now spending.

[1] Order approving Panhandle's interim curtailment plan in this proceeding was issued on June 20, 1972.

[2] It has storage capacity for 34,000 gallons of fuel oil.

VOL 38 - 20 JAN 31 73 XUM

other Government agencies in order to seek help in its efforts to obtain additional supplies; however, these attempts have not as yet proven successful.

M.P.S. alleges that Marceline has undertaken reasonable steps to reduce fuel oil consumption, including the turning off of street lights and requesting that its citizens reduce the usage of electricity whenever possible. M.P.S. contends that even after taking such measures to conserve its fuel oil Marceline will be required to terminate electric service to its citizens unless additional fuel oil or natural gas can be obtained.

Marceline has requested M.P.S. to supply it with the natural gas needed to run its electric plant from the allotment of gas that it receives from Panhandle. M.P.S. in its petition pointed out that it is unable to accede to this request unless additional supplies of natural gas are made available to it by Panhandle. It contends that if it were to undertake to deliver the volumes of gas required by Marceline to operate its powerplant from its existing allotment from Panhandle, it would be required to reduce service to its firm customers, including high priority residential and small commercial consumers.

M.P.S., in order to meet Marceline's requirements, would require an average of 400 Mcf per day of natural gas from Panhandle over and above the allocation to it under the interim curtailment plan. Marceline evidently will seek an intertie with another electric utility which hopefully would make any similar requests unnecessary in the future. In the light of the aforementioned facts M.P.S. requests that the Commission issue and order requiring Panhandle to deliver to M.P.S., without penalty, an additional 400 Mcf per day over and above the curtailment volume allotted to it by Panhandle in order to deliver the needed volumes to the city of Marceline. It requests that such volumes be made available to meet Marceline's powerplant requirements until that city is either able to obtain sufficient fuel oil supplies or can interconnect its electric system with another power company which can assure it firm and reliable electric service.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 5, 15, and 16 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein or if the Commission on its own review of the matter finds that a grant of the request is required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7968]

PUBLIC SERVICE COMPANY OF INDIANA

Notice of Cancellation and Replacement of Service Agreement

JANUARY 24, 1973.

Take notice that Public Service Company of Indiana (PSI) on October 26, 1971, tendered for filing copies of a service agreement dated May 17, 1971, between the town of Rockville, Ind., and PSI. PSI stated that this new agreement is to cancel and to replace the service agreement between the town of Rockville and PSI, dated June 4, 1968; such agreement was filed with and approved by the Federal Power Commission under Public Service Company of Indiana, Inc., FPC Electric Tariff—Original Volume No. 1.

PSI stated that above-described agreement provides, as shown on Revised Exhibit A, that the town of Rockville will be served and metered at two delivery points, the second delivery point being the substation location at which the company serves Parke County Rural Electric Membership Corp.

PSI requested that the Commission waive compliance with the notice requirements of § 35.3 of the Commission's regulations and permit this filing to become effective on September 2, 1971, the date on which service commenced under the above-described agreement.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. RI73-191, RI73-193]

GRAMPIAN CO., LTD., ET AL.

Order Providing for Hearing and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JANUARY 23, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Each respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

[3] Increase to "new" gas rate.

Not used.
*The pressure base is 14.65 p.s.i.a.

The question presented here with respect to Grampian Co., Ltd., and Ruth Phillips Bisiker's unilateral increases filed after the expiration of their contracts is whether the subject gas is entitled to the flowing gas rate of 19 cents or the new gas rate of 24 cents established in Opinion No. 595, Docket Nos. AR64-2, et al., issued May 6, 1971.

Grampian and Bisiker contend that the gas being delivered to Transco is that portion of reserves in excess of that which the were required to maintain by the expired contracts and should therefore be considered "new" gas within the terms of Opinion No. 595. The proposed increases should be suspended for 1 day from the expiration of the statutory notice period, pending determination as to whether the gas involved herein is entitled to the new or old gas price.

The producers' proposed increased rates and charges may exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

SKELLY OIL CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JANUARY 18, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

FEDERAL RESERVE SYSTEM

CENTRAL MORTGAGE CO., INC.

Acquisition of Banks and Merger of a Bank Holding Company

Central Mortgage Co., Inc., Springfield, Mo., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 50 percent or more of the voting shares of (1) Farmers State Bank of Stover, Stover, Mo., and (2) Jackson County State Bank, Kansas City, Mo. Applicant has also applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to merge with Harmon Oil Co., Inc., Warrensburg, Mo., a registered one-bank holding company, and thereby to acquire 50.225 percent of the voting shares of Barton County State Bank, Lamar, Mo., and 4.9 percent of the voting shares of Jackson County State Bank, Kansas City, Mo. Applicant presently owns 4.9 percent of the voting shares of Jackson County State Bank. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Central Mortgage Co., Inc., is also engaged in the following nonbank activities: (1) Mortgage company operations; (2) insurance agency activities in conjunction with the mortgage company operations; and (3) certain farming activities. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbank activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

In its applications, Central Mortgage Co., Inc., states its intention to separately incorporate its farming activities referred to above and to spin off the shares of the farming enterprise to its present shareholders prior to the proposed section 3(a)(3) acquisitions. In connection with its stated intention, applicant has requested a determination under section 2(g)(3) of the Bank Holding Company Act (12 U.S.C. 1841(g)(3)) that it will not in fact be capable of controlling the farming corporation by virtue of applicant and that corporation having a common director. A separate notice with respect to the requested section 2(g)(3) determination will be published.

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 19, 1973.

Board of Governors of the Federal Reserve System, January 22, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1873 Filed 1-30-73;8:45 am]

FIRST FLORIDA BANCORPORATION

Order Approving Acquisition of Bank

First Florida Bancorporation, Tampa, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Ormond Beach First National Bank, Ormond Beach, Fla. (Bank).

Notice of the application affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the seventh largest banking organization and bank holding company in Florida on the basis of commercial bank deposits, controls 25 banks with aggregate deposits of $514 million, representing 3.2 percent of total deposits held by all banks in the State. (All banking data are as of December 31, 1971, adjusted to reflect bank holding company formations and acquisitions approved by the Board through November 30, 1972.) Approval of this proposal to acquire Bank ($39.4 million in deposits) would increase applicant's control of commercial bank deposits in Florida by 0.2 percentage point, and applicant's rank as the State's seventh largest banking organization would not change.

Bank is the third largest of 13 banks operating in the Daytona Beach banking market, which includes the coastal area of Volusia County extending from Ormond Beach southward to New Smyrna Beach and westward to encompass all of Daytona Beach, and controls 15.5 percent of the market's total deposits. As of December 31, 1969, Bank controlled 17.7 percent of market deposits. Also competing with Bank are banking subsidiaries of the second, third, fourth, and fifth largest bank holding companies in the State, which control about 64.3 percent of market deposits. Consummation of this proposal would represent applicant's initial entry into the market and would result in increased competition in the area since it would eliminate the present affiliation between Bank and Volusia County National Bank, a potential competing bank. In addition, Bank under applicant's control would be in a better position to compete with the banking offices of the four bank holding companies in the market. Applicant's closest subsidiary banking office is located 55 miles southwest of Bank, and no significant existing competition would be eliminated by consummation of the proposal, nor does it appear that meaningful potential competition would be foreclosed because of Florida's restrictive branching laws and the distances involved. Furthermore, it does not appear likely that applicant will enter the market de novo as the Daytona Beach market appears to be well served with population and deposits per bank substantially less than the State averages. On the basis of the record before it, the Board concludes that consummation of the proposed acquisition would not adversely affect competition in any relevant area.

The financial and managerial resources of applicant are generally satisfactory and prospects for the group appear favorable. Applicant proposes to improve the present financial and managerial conditions of Bank by providing additional capital to Bank and by furnishing such managerial assistance as Bank requires. Accordingly, banking factors lend weight to approval of the application. Major banking needs of the relevant area are presently being served, and no new services are proposed by applicant. However, applicant proposes to strengthen Bank's competitive position by enabling Bank to improve its existing services. Considerations relating to the convenience and needs of the area to be served are therefore consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before February 22, 1973 or (b) later than April 23, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 23, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1875 Filed 1-30-73;8:45 am]

FIRST RAILROAD & BANKING COMPANY OF GEORGIA

Determination Regarding "Grandfather" Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of First Railroad & Banking Company of Georgia, Augusta, Ga., and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414 and 25204). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. First Railroad & Banking Company of Georgia, Augusta, Ga. (Registrant), became a bank holding company on December 31, 1970, as a result of the 1970 amendments to the Act, by virtue of Registrant's ownership of more than 99 percent of the outstanding voting shares of Georgia Railroad Bank & Trust Company, Augusta, Ga. (Bank) (assets of $192 million, as of December 31, 1970). Registrant was organized in 1953 to acquire Georgia Railroad & Banking Company, Augusta, Ga. (Georgia Railroad) and, upon acquisition of Georgia Railroad in 1954, gained control of Bank, almost all of whose shares were owned by Georgia Railroad. Bank had total deposits of about $186 million (as of June 30, 1972), representing about 2 percent of total deposits in commercial banks in Georgia. Based on deposits within the Augusta market as of June 30, 1972, Bank is the largest banking institution in the market with about 44 percent of deposits there. Bank's management, financial condition, and prospects appear to be satisfactory and the Board has found no evidence of any unsound banking practices.

Registrant (consolidated assets of about $217 million as of December 31, 1971) engages directly in acquiring, and holding for development, property contiguous to its railroad yards in Augusta and has been engaged in this activity continuously since before June 30, 1968. In addition, Registrant has three nonbanking subsidiaries, which are engaged in nonbanking activities that appear eligible for grandfather benefits, namely, Georgia Railroad, First Georgia Development Corporation, Atlanta, Ga. (Development Corporation), and First Georgia Building Corporation, Augusta, Ga. (Building Corporation).

Georgia Railroad (incorporated in 1833) conducted both a banking and railroad business until 1881 when the railroad properties, together with controlling stock interests in two railroads, were leased. Thereupon, Georgia Railroad became a nonoperating carrier with a banking division which in 1892 was incorporated as Bank. Continuously since 1881, Georgia Railroad has been a nonoperating carrier and lessor of the properties and securities which it owns. Development Corporation (80 percent of voting shares of which are held by Registrant) was formed in 1964 to develop the real property of Georgia Railroad that was no longer required for railroad purposes. The real estate activities of Registrant and its subsidiaries have been confined to acquiring and holding for development property contiguou· to its railroad yards in Augusta, to owning and leasing railroad property, and to promoting development (as distinguished from engaging in development) of its property no longer required for railroad purposes. Building Corporation (a wholly owned subsidiary of Registrant formed in 1966) provides service personnel for Bank's buildings. The activities of Building Corporation appear to be exempt under the provisions of section 4(c)(1) of the Bank Holding Company Act and, on that basis, no grandfather privileges under the proviso in section 4(a)(2) of the Act are needed to enable Registrant to continue such activities.

In addition, Registrant has minority interests entitled to grandfather benefits in three other corporations: CSRA Capital Corp., Augusta, Ga. (acquired in 1962); Strawberry Hill, Inc., Augusta, Ga. (acquired in May 1968); and State Real Estate Investment Trust, Greenwood, S.C. (acquired in 1964). CSRA Corp. is a small business investment company (11.9 percent of whose shares are owned by Bank) and Registrant's investment appears to be exempt under the provisions of section 4(c)(5) of the Act and § 225.4(c) of Regulation Y, and, on that basis, no grandfather privileges are needed to enable Registrant to continue such investment. Strawberry Hill, Inc. (about 14 percent of which was acquired by Registrant in May 1968), was formed as a community project to develop a tract of land adjacent to Fort Gordon, Ga., to provide adequate housing for military personnel. When the project is completed, Strawberry Hill Corp. is expected to be dissolved. Finally, through Georgia Railroad, Registrant holds about 13 percent of shares of State Real Estate Investment Trust, a small, closely held real estate investment trust. Neither Georgia Railroad nor Registrant has any role in the management of the Trust and the shares are held solely as an investment. There appears to be no reason to require Registrant to terminate its investments in Strawberry Hill or in State Real Estate Investment Trust.

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its subsidiaries, do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest, nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered interests. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant is not necessary in order to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. However, this determination is not authority to enter into any activity that was not engaged in on June 30, 1968, and continuously thereafter, or any activity that is not the subject of this determination. Nor is this determination authority for Registrant to engage in land development, or to engage in the general real estate business, or to acquire additional shares of any company if the Registrant's holdings in said company will exceed 5 percent of the outstanding voting shares of such company.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils designated in the Act. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party may be consummated without prior approval of the Board. Further, the provision of any credit, properly, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review by the Board of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant or any

MEMPHIS TRUST CO.

Determination Regarding "Grandfather" Privileges Under Bank Holding Company Act

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of Memphis Trust Co., Memphis, Tenn., and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414 and 25204). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. Memphis Trust Co., Memphis, Tenn. (Registrant) became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, by virtue of Registrant's ownership of 100 percent of the outstanding voting shares of Memphis Bank & Trust Co., Memphis, Tenn. (Bank) (assets of approximately $62 million, as of Dec. 31, 1970). Registrant's total consolidated assets amounted to less than $85 million on December 31, 1971. Registrant also owns 22 percent of the voting shares of Farmers and Merchants Bank, Bruce, Miss. and 24.8 percent of the First National Bank, Southaven, Miss.[1] Bank, control of which was acquired by Registrant in February 1952, had total deposits of approximately $68 million as of December 31, 1971, representing about 3 percent of the total deposits in the seven commercial banks in Memphis. Each of five of said seven banks is affiliated with a bank holding company. Bank ranks fourth among the 14 banking organizations in the Memphis banking market. Bank's management, financial condition, and prospects are regarded as generally satisfactory.

Registrant was engaged on June 30, 1968, and has been engaged continuously thereafter, in the following activities: the acquisition and leasing of real property for use by the holding company and its subsidiaries, the sale of commercial paper to finance holding company operations, the investment of 5 percent or less in the shares of various corporations, the operation of an industrial loan company, the financing of dealer inventories, buying installment notes from businesses, extending short-term credit to businesses, making first and second mortgage real estate loans, and leasing personal property. Income from all these sources amounts to about 7 percent of Registrant's total operating income. In addition, Registrant has four nonbanking subsidiaries,[2] namely, Memphis Trust Insurance Agency, Memphis, Tenn. (assets of $100,000),[3] acquired in 1960, Memphis Bank Building Corp., Memphis, Tenn. (assets of about $2 million), acquired in 1960, Central Guardian Life Insurance Co., Memphis, Tenn. (assets of less than $2 million), acquired in 1960, and Guardian Data Service & Supply Co., Memphis, Tenn. (assets of $200,000), acquired in 1966. Through its subsidiaries, Registrant engages in writing all forms of life insurance, operation of a general insurance agency and brokerage business, providing bookkeeping and accounting services, selling, leasing, and distributing office furniture and equipment, providing data processing and printing services, holding real estate for present and future banking locations, and providing maintenance and construction services for the Registrant and its subsidiaries.

To the extent that Registrant engages in activities to serve the holding company or its subsidiaries such as the purchase of property for use by the Registrant or its subsidiaries or the selling of commercial paper to provide financing for the holding company system, such activities appear to warrant an exemption under section 4(c)(1)(C) of the Act.[4] Bank wholly owns Memphis Bank Building Corp., which holds real estate and provides maintenance and construction services for the holding company. This activity appears to be entitled to a section 4(c)(1)(C) exemption. The investment in shares of a company to a level of 5 percent or less is also exempt under the Act.[5]

The remaining direct nonbanking activities of Registrant appear to be limited in scope. As indicated earlier, Registrant's income from all its direct activities accounts for about 7 percent of Registrant's total income which, for the year 1971, was reported to be $814,000.

Applicant claims that the major portion of insurance written and placed by its subsidiaries engaged in insurance activities is through, or in connection with, the other activities of the holding company or its subsidiaries. Approximately 250 insurance companies and 150 insurance agencies have offices in the Memphis area. Registrant's subsidiary that is engaged in selling and leasing office supplies and furniture and providing data processing and printing services competes with more than 40 data processing firms, 50 office supply and equipment companies and 125 printing firms serving the Memphis area.

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its subsidiaries do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered interests. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant is not necessary in order to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. However, this determination is not authority to enter into any activity that was not engaged in on June 30, 1968, and continuously thereafter, or any activity that is not the subject of this determination. Nor is this determination authority for Registrant to acquire additional shares in any company if the Registrant's holdings in said company will exceed 5 percent of the outstanding shares of such company.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils designated in the Act. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service, by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review by the Board of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By determination of the Board of Governors,[6] effective January 23, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1874 Filed 1-30-73;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

[1] An interlock of directors between this bank and Registrant as well as an interlock of directors between Registrant and Financial Development Co., a registered bank holding company owning more than 50 percent of the shares of the Southaven Bank, is being reviewed by the Board. Registrant contends that it owns no shares of Financial Development Co. and that the company is in no way subject to control or a controlling influence by Registrant. Registrant disclaims control of each of the banks in which Registrant owns a minority interest.

[2] During 1971, two of Registrant's nonbanking subsidiaries, namely, Alabama Industrial Bank, Birmingham, Ala. (acquired in 1967), and Guardian Discount Co., Columbus, Ga. (acquired in 1957), were merged with a third nonbanking subsidiary, Trust Company of Tennessee, Memphis, Tenn., which company in turn merged with Memphis Trust Co. As a result of these transactions, a substantial portion of the consumer loan and finance business previously conducted by the merged companies was liquidated and the remaining activities are direct activities of Registrant.

[3] Asset figures for Registrant's subsidiaries are as of Dec. 31, 1971.

[4] Section 4(c)(1)(C) of the Act enables a holding company to acquire (without Board approval) "(1) shares of any company engaged • • • solely in • • • (C) furnishing services to or performing services for such bank holding company or its banking subsidiaries; • • •".

[5] Section 4(c)(6) enables a holding company to acquire (without Board approval) "shares of any company which do not include more than 5 percent of the outstanding voting shares of any company."

[6] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Bucher. Absent and not voting: Governor Sheehan.

PAN AMERICAN BANCSHARES, INC.

Proposed Acquisition of Atico Financial Corp.

Pan American Bancshares, Inc., Miami, Fla., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Atico Financial Corp., Miami, Fla. Notice of the application was published on November 15, 1972, in the Miami Review and Daily Record, a newspaper circulated in Miami, Fla.

In addition to foreign activities which are subject to Board approval under section 4(c)(13) of the Bank Holding Company Act (12 U.S.C. 1843(c)(13)) in accordance with the procedures set forth in § 225.4(f) of Regulation Y, applicant states that the proposed subsidiary and its subsidiaries would engage in the activity of acting as investment adviser to Atico Mortgage Investments, a publicly owned real estate investment trust. Such activity has been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b). In addition, applicant states that the proposed subsidiary and its subsidiaries would engage in the activity of inspecting the progress of real estate construction projects and disbursing progress payments principally in connection with loans originated or serviced by bank or nonbank subsidiaries of applicant. Such activity may be permissible for bank holding companies pursuant to section 4(c)(1)(C) of the Bank Holding Company Act (12 U.S.C. 18(c)(1)(C)) or § 225.4(a) of Regulation Y, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Applicant further states that the proposed subsidiary and its subsidiaries would engage in the activity of acting as insurance agent as permissible under § 225.4(a)(9)(i), (ii) of Regulation Y. Among the types of insurance the proposed subsidiary would sell are (a) insurance for applicant and its subsidiaries, and (b) the issuance of homeowner's coverage in connection with real estate mortgage loans made through Atico Mortgage Corp., a mortgage banking company wholly owned by a subsidiary of applicant. Under certain circumstances specified in the Board's interpretation (12 CFR 225.128) of § 225.4(a)(9) of Regulation Y, such activities may be permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 19, 1973.

Board of Governors of the Federal Reserve System, January 22, 1973.

PATAGONIA CORP.

Proposed Acquisition of Western American Mortgage Co. and Western American Insurance Agency

Patagonia Corp., Tucson, Ariz., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire all of the voting shares of Western American Mortgage Co. and Western American Insurance Agency, both in Phoenix, Ariz. Notice of the applications was published on November 18, 1972, in The Arizona Republic and The Tucson Daily Citizen, newspapers circulated, respectively, in Phoenix and Tucson, Ariz.

Applicant states that the proposed subsidiaries would engage in the following activities: Western American Mortgage Co. would engage in originating residential mortgages and mortgages on commercial real estate for sale to permanent investors; servicing of mortgages for permanent investors; and interim lending for land development and construction financing where the loan will be sold to a permanent investor. Western American Insurance Agency would engage in the sale of fire and casualty insurance on the improvements covered by loans originated by Western American Mortgage Co. and of credit life and health and accident insurance to those mortgagors to the extent of the balance of the credit extended; sale of insurance to Western American Mortgage Co., its subsidiaries and employees; and sale of insurance sold as a matter of convenience to the purchaser. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the

VOL 38 NO 20 JAN 31 1973 XUM

public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 19, 1973.

Board of Governors of the Federal Reserve System, January 22, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

REDWOOD BANCORP

Order Approving Acquisition of National Mortgage Co.

Redwood Bancorp, San Rafael, Calif., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of National Mortgage Co., Salt Lake City, Utah, a company that engages in the activity of mortgage banking and acting as agent for the sale of credit life, accident and health insurance and property insurance directly related to extensions of credit. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(1) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 25257). The time for filing comments and views has expired and none has been timely received.

Applicant was incorporated in 1972 for the purpose of acquiring Redwood Bank (deposits of $48.6 million)[1], San Rafael, Calif. Applicant now owns all the outstanding shares of Redwood Bank (Bank), with the exception of the directors' qualifying shares. Bank operates five offices in the San Francisco Bay area and ranks fifth among the 10 banks serving Marin County, its principal market, where it holds 7.6 percent of the total commercial deposits. Its share of Statewide deposits amounts to but 0.1 percent. Bank is engaged in mortgage lending throughout the nine counties of the San Francisco Bay area, where it competes with a large number of lenders. In the first 9 months of 1972, Bank originated approximately $11.7 million in mortgage loans, or 0.2 percent of the total mortgage recordings in the bay area counties. As of September 29, 1972, Bank's outstanding mortgage loans approximated $9.7 million, of which $722,000 were held for resale to institutional investors.

National Mortgage Co. (Company) is a small family-owned business engaged in the origination and servicing of mortgage loans through offices located in Salt Lake City, Utah; Tucson, Ariz.; and Idaho Falls, Idaho. During its most recent fiscal year, Company's Tucson office originated $10.1 million in mortgage loans, while its Salt Lake office originated $2.1 million. Company's Idaho Falls office services mortgage loans but has not originated any new loans in the past 3 years. Company is not a major competitor in any of the mortgage loan markets in which it competes. It ranks twentieth among mortgage lenders in both the Salt Lake City and Pima County, Ariz., markets.

Since Applicant and Company do not compete in the same mortgage loan markets, the proposed acquisition would eliminate no direct competition. Moreover, the two institutions are not likely to compete in the future due to their small size and the intervening distances. The Board therefore concludes that consummation of the proposed acquisition would have no adverse effects on mortgage lending in any of the local markets. Due to the limited nature of its insurance activities, it does not appear that Company's engagement in such activities would have any significant effect on either existing or potential competition.

It is anticipated that the proposed acquisition would enable Applicant to provide capital and managerial skill to Company which would expand Company's range of services and also permit it to compete for significantly larger mortgage loans. The Board concludes that these public benefits are a positive factor in terms of public needs and convenience.

Based upon the foregoing and other considerations reflected in the record, the Board has determined than the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(a) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective January 18, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1876 Filed 1-30-73;8:45 am]

[1] Deposit data are as of June 30, 1970.

[2] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

SOUTHEASTERN BANCORP, INC.

Formation of One-Bank Holding Company

Southeastern Bancorp, Inc., New Bedford, Mass., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares of Southeastern Bank and Trust Co., New Bedford, Mass. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Boston. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than February 12, 1973.

Board of Governors of the Federal Reserve System, January 23, 1973.

TYNAN SMITH,
Secretary of the Board.

FEDERAL TRADE COMMISSION

[Doc. F 3-71]

CHILDREN'S SLEEPWEAR

Policy and Interpretation Relative to Items in Inventory or as to Recordkeeping Requirements

The Standard for the Flammability of Children's Sleepwear [Doc FF 3-71] was published in the FEDERAL REGISTER on July 29, 1971, at 36 FR 14062 et seq. The Notice of Standard provided at 36 FR 14063 that "Items in inventory or with the trade on the effective date of the Standard are exempt. All concerned parties shall be required to maintain records that these items offered for sale after the effective date of the Standard are eligible for the exemption."

The Children's Sleepwear Standard was amended on July 21, 1972, at 37 FR 14624 et seq. to incorporate a sleepwear sampling plan therein and to make certain nonsubstantive technical corrections as to the test equipment. The effective date remained the same. In issuance of such amendment the Notice of Amendment specified at 37 FR 14625 that "It is emphasized that the only substantive change made to the standard involves the amendment necessary to include the sampling plan."

The Notice of Amendment did not repeat the language in the original 1971 Notice of Standard relative to items in inventory or as to recordkeeping requirements.

Questions have arisen under this standard as to the application of the standard to goods manufactured outside the United States prior to the effective date of the standard on July 29, 1972, as to whether a person claiming the exemption specified in the standard must maintain records showing eligibility for exemption from the standard.

In the Commission's view, the provisions of the July 29, 1971, Notice of Standard as to exemption of items of children's sleepwear in inventory or with the trade on the effective date of the standard and as to the necessity of maintenance of records to show eligibility for such exemption are in full force and effect.

By direction of the Commission dated January 24, 1973.

[SEAL] CHARLES A. TOBIN,
Secretary.

FOREIGN-TRADE ZONES BOARD

[Order 92]

TOLEDO, OHIO

Notice of Contiguous Expansion of Trade Zone

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. sections 81a–81u), and the Foreign-Trade Zones Board Regulations (15 CFR Part 400), the Foreign-Trade Zones Board (the Board) has adopted the following order:

Whereas, the Toledo-Lucas County Port Authority Grantee of Foreign-Trade Zone No. 8, was issued a grant for the establishment, operation, and maintenance of Foreign-Trade Zone No. 8, Toledo, Ohio, on October 11, 1960 (Board Order No. 51);

Whereas, said Grantee filed with the Board on October 6, 1972, an application requesting authority to contiguously expand the area of Foreign-Trade Zone No. 8 to include a warehouse building which covers approximately 69,900 square feet;

Whereas, notice of said application was published in the FEDERAL REGISTER on October 14, 1972 (37 FR 21878) and opportunity has been afforded all interested parties to submit their views;

Whereas, an Examiners Committee has investigated the application in accordance with the Regulations and recommends approval thereof;

Whereas, the requested expansion of the zone area is necessary to accommodate new and existing zone users and for more efficient operation of the zone; and

Whereas, the Board has found that the requirements of the Foreign-Trade Zones Act, as amended, and the Regulations are satisfied and that approval of the application is in the public interest;

Now, therefore, the Foreign-Trade Zones Board hereby orders:

That the Grantee is authorized to contiguously expand the boundary of Foreign-Trade Zone No. 8, Toledo, Ohio, in conformity with Exhibits 1–13 of the application filed with the Board on October 6, 1972. The authority given in this order is subject to local approval of the District Director of Customs and the District Army Engineer regarding compliance with their requirements relating to foreign-trade zones. The Grantee shall prenotify the Board's Executive Secretary for clearance concerning any proposal to use the expanded zone area for manufacturing operations prior to their commencement.

Signed at Washington, D.C., this 22d day of January 1973.

PETER G. PETERSON,
Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Attest: JOHN J. DAPONTE, Jr.,
Executive Secretary.

NATIONAL SCIENCE FOUNDATION

COMMITTEE MANAGEMENT

Notice of Determination

The National Science Foundation, established by Public Law 81-507 as an independent agency of the Federal Government, utilizes advice and recommendations of advisory committees in carrying out its functions and activities.

The Federal Advisory Committee Act, Public Law 92-463, which became effective January 5, 1973, sets forth standards and procedures for the formation, use, conduct, management, and accessibility to the public of committees established to advise and assist the Federal Government. Section 10 of the Act specifies that each advisory committee meeting shall be open to the public, except any advisory committee meeting which the President, or the head of the agency to which the committee reports, determines is concerned with matters listed in the Freedom of Information Act, section 552(b) of title 5, United States Code.

It is established Foundation policy in administering the Freedom of Information Act to make fullest possible disclosure of records to the public, limited only by obligations of confidentiality and administrative necessity. Consistent with this policy the Foundation will open to the public as many advisory committee meetings as possible.

However, Foundation advisory committees, while engaged in the review, discussion, and evaluation of grant or contract proposals and projects, or in the evaluation of grantee and contractor performance should not be required to hold open meetings. The Foundation has historically assured the privacy of certain types of information submitted in confidence to the Foundation by prospective grantees and contractors in support of proposals and projects. This information may include such matters as details relating to the type or design of work to be performed, adequacy of the applicant's facilities, competence of the proposed grantee's or contractor's staff, proposed budget, commercial or financial information and other material which would not otherwise be disclosed. Such information is furnished to the Foundation with reliance that it will be treated on a privileged or confidential basis and not disclosed to the public. Opening to the public the deliberations of committees reviewing and evaluating these proposals and projects as part of the selection process for awards would obviously involve disclosure of this information.

Moreover, to operate most effectively, the review and evaluation process requires that members of committees considering such matters be free to engage in full and frank discussion and to provide unhampered advice and recommendations regarding the merits of specific scientific proposals and projects. If the process were not to continue on a confidential basis, potential grantees and contractors would not furnish information in such detail as is essential for complete and effective review. In addition, if the proceedings of these committees were open to public participation, the Foundation would be unable to secure open and candid advice as to the awarding of grants, contracts, fellowships and other arrangements.

Pending grant and contract proposals, and detailed records of deliberations of the committees reviewing them are presently exempt from mandatory disclosure under the Freedom of Information Act (5 U.S.C. 552).

In the interest of meeting the Foundation's obligations of confidentiality of matters submitted as part of grant and contract proposals and encouraging candid expression of opinion concerning the merits of grant and contract proposals and the evaluation of grantee and contractor performance, so essential to the review process:

It is hereby determined in accordance with the provisions of section 10(d) of the Federal Advisory Committee Act:

(1) Advisory committee meetings devoted to consideration of grant and contract proposals and projects are concerned with matters listed in section 552(b) of title 5, United States Code; and

(2) The public interest requires that such matters not be disclosed so that the Foundation may continue to receive information and advice necessary to appropriate decisions with respect to grant and contract matters.

Therefore, until December 31, 1973, meetings or portions thereof of all Foundation advisory committees devoted solely to review, discussion, and evaluation of grant or contract proposals, and projects or performance by grantees and contractors shall not be open to the public.

Each such committee shall issue a report at least annually setting forth a summary of its activities and such related matters as would be informative to the public consistent with the policy of section 552(b) of title 5, United States Code. The Foundation official having cognizance for each respective committee shall be responsible for the preparation of the committee report.

All other advisory committee meetings shall be open to the public unless the Director or his designee determines otherwise in accordance with section 10(d) of the Act.

Dated: January 15, 1973.

H. GUYFORD STEVER,
Director.

V38 N31 JAN 31 73 XUM

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

ADVISORY BOARD

Notice of Meeting

Notice is hereby given pursuant to the Federal Advisory Committee Act, section 10(a)(2), dated October 6, 1972, that a meeting of the Advisory Board of the Saint Lawrence Seaway Development Corporation will be held in Department of Transportation Conference Rooms A, B, C, 8th Floor, Federal Building, 800 Independence Avenue, Washington, DC on February 28, 1973.

Established under Public Law 358 (68 Stat. 92), approved on May 13, 1954, the Advisory Board consists of five members who advise the Administrator regarding Corporation programs and policies as they relate to the overall effective operation and development of the St. Lawrence Seaway.

The meeting will be open to the public from 9 a.m. to 12 noon with the following agenda:

(1) Opening remarks by the Administrator;
(2) Review of Seaway Operations—1972 Season;
(3) Vessel Traffic Control Program;
(4) Development Programs:
(a) winter navigation
(b) icebreaker deployment
(5) Great Lakes shipping matters.

The meeting will be closed to the public from 2 p.m. to 6 p.m. in accordance with the Administrator's determination dated January 22, 1973.

The agenda items are as follows:
(1) Review of the Tariff of Tolls;
(2) International matters;
(3) Legal and legislative review.

Because of limited space, attendance at the open session is set at 60 persons. Reservations and further information may be obtained from Mr. Robert Kraft, Special Assistant to the Administrator, Office of the Administrator, Saint Lawrence Seaway Development Corporation, Room 812, Building 10–A, 800 Independence Avenue, Washington, DC 20590 or by calling 202—426–3574.

Issued on January 24, 1973.

[SEAL] D. W. OBERLIN,
Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500–1]

ACCURATE CALCULATOR CORP.

Order Suspending Trading

JANUARY 24, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.01 par value, and all other securities of Accurate Calculator Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from January 25, 1973 through February 3, 1973.

CONSOLIDATED NATURAL GAS CO.

Proposal by Holding Company To Act as Surety

JANUARY 24, 1973.

Notice is hereby given that Consolidated Natural Gas Co. (Consolidated), 30 Rockfeller Plaza, New York, N.Y. 10020, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 12(b) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

On September 22, 1972, Hope Natural Gas Co., a Division of Consolidated's wholly owned public-utility subsidiary company, Consolidated Gas Supply Corp. (Supply Corporation) filed revisions in its rate schedules with the Public Service Commission of West Virginia providing for increased rates and charges approximating $7,200,000 per year for furnishing natural gas service in the State of West Virginia. By action of the State commission, the effectiveness of the new rates was suspended until February 19, 1973. The new rates may now become effective upon the filing by Supply Corporation of a bond in the amount of $7,200,000 with satisfactory surety, for the due and proper payment of any refunds to customers which the State commission may order. The State commission has indicated that Consolidated may act as surety on such bond. Consolidated proposes, without fee or other consideration, to act as surety on the bond of Supply Corporation to save the cost of securing an outside corporate surety.

The fees and expenses incurred by Supply Corporation in connection with the proposed transaction are estimated at $2,250, including charges of $200 for the services of Consolidated Natural Gas Service Co., Inc., Consolidated's wholly owned service company. The declaration states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 14, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, DC 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

SIGMA TRUST SHARES AND WILLIAM L. KINGMAN

Filing of Application

JANUARY 24, 1973.

Notice is hereby given that Sigma Trust Shares (Fund), 10 Post Office Square, Boston, MA 02110, and William L. Kingman (Kingman), as Trustee for Charles F. Eaton Unitrust for Mary A. Alley Hospital (Alley Hospital Trust) and as Trustee for Charles F. Eaton Unitrust for The Middlesex School (Middlesex School Trust) (hereinafter referred to collectively as "Applicants"), c/o Franklin Management Co., 10 Post Office Square, Boston MA 02110, have filed an application pursuant to section 17(b) of the Investment Company Act of 1940 (Act) for an order exempting from section 17(a) of the Act a transaction whereby Kingman, as trustee for the Alley Hospital Trust and Middlesex School Trust, will sell to the Fund and then repurchase from the Fund an aggregate of $12,000 face amount of 7½ percent debentures of H. P. Hood & Sons, Inc., due February 1, 2001 (the "Debentures"). The sale will be at a net price of $82 per Debenture, and the repurchase at $83.50 per Debenture. All interested persons are referred to the application on file with the Commission for a statement of Applicants' representations which are summarized below.

The Fund, a trust created under the laws of Massachusetts, is registered as an open-end, diversified, management investment company under the Act. Kingman is a member of the Board of Trustees of the Fund, and the sole trustee for two charitable unitrusts, the Alley Hospital Trust and the Middlesex School Trust. Kingman has no beneficial interest, direct or indirect, in either trust.

On December 31, 1971, the Fund owned $80,000 face amount of Debentures, which have not been registered with the Commission, and for which registration is not presently contemplated. As of December 31, 1971, the Debentures were evaluated by Paine, Webber, Jackson & Curtis at $82 per $100 face amount. This evaluation was ratified by the Trustees of the Fund at their regular quarterly meeting of January 25, 1972.

On January 8, 1972, Kingman purchased from the Fund $9,000 face amount of Debentures for the Alley Hospital Trust. The purchase price of $7,380 was at the value established for purposes of the Fund's December 31, 1971 financial statements ($82 per Debenture) and ratified by the Trustees of the Fund on January 25, 1972.

On February 7, 1972, Kingman purchased from the Fund $3,000 face amount of Debentures for the Middlesex School Trust. The purchase price of $2,460 was also at the value ratified by the Fund's Trustees on January 25, 1972. Mr. Kingman thus purchased the Alley Hospital Trust and Middlesex School Trust for which he acted as sole trustee, an aggregate of $12,000 face amount of Debentures from the Fund for $9,840.

Section 17(a) of the Act provides, among other things, that it shall be unlawful for any affiliated person of a registered investment company, acting as principal, knowingly to purchase from such registered investment company any security or other property (except securities of which the seller is the issuer), unless an application regarding such transaction has been granted by the Commission.

Although Kingman, as trustee, was an affiliated person of the Fund at the time of these transactions, neither the Fund nor Kingman applied for an exemption from the provisions of section 17(a) since they believed that Kingman was not acting as "principal" as that term is used in section 17(a).

In order to avoid any question which might be raised as to the propriety of the two transactions which have taken place, Kingman now proposes to sell the Debentures back to the Fund at a net price of $82 per Debenture, and further proposes immediately to repurchase said Debentures from the Fund at the appraised value most recently established on September 30, 1972, by Paine, Webber, Jackson & Curtis ($83.50 per Debenture), and ratified by the Trustees of the Fund on October 17, 1972.

There will be no charges or fees associated with the sale and repurchase other than applicable state transfer fees which will be paid by the seller in each of the transactions and legal fees to be borne by each party. The proposed transactions were approved by the Fund's Board of Trustees on October 17, 1972 (Kingman abstaining).

Applicants believe that the issuance of an exemptive order in connection with this proposed sale and purchase is appropriate in the public interest because the terms of the proposed transaction are reasonable and fair to the Fund and

1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of

protections and obligations; protection of employees against discharge or dis-

Kingman and do not involve any overreaching on the part of the Fund or Kingman for the reasons that:

(a) As restricted securities with little or no market, the Debentures are not considered an appropriate investment for the Fund by its Trustees.

(b) The proposed sale of the Debentures at the appraised value most recently established by Paine, Webber, Jackson & Curtis and ratified by the Trustees of the Fund is reasonable and fair to both parties.

(c) Kingman has no beneficial interest in either of the two charitable trusts for which he acts as trustee.

(d) The proposed transactions offer both parties an opportunity to confirm a transaction whereby Kingman acquired for the two charitable trusts and the Fund disposed of a substantial part of the Fund's holdings of Debentures at a price which was advantageous to both parties.

(e) The proposed transactions enable the parties to confirm a transaction which was negotiated at arms length between two separate distinct persons, and only involved a violation of the Act by reason of the misinterpretation of the term "principal."

The Fund represents that the prior sale was and that the proposed purchase and sale will be consistent with its policy as recited in its registration statement and reports filed under the Act and both Applicants believe that the transactions are consistent with the general purposes of the Act.

Notice is further given that any interested person may, not later than February 20, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.73-1889 Filed 1-30-73;8:45 am]

SMALL BUSINESS ADMINISTRATION

GULF INVESTMENT CORP.

Notice of Application for a License To Operate as a Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to § 107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1972)) under the name of Gulf Investment Corp. (GIC), 115 East Van Buren Street, Harlingen, TX 78550, for a license to operate in Texas as a small business investment company under the provisions of the Small Business Investment Act of 1958, as amended (the Act), and the rules and regulations promulgated thereunder.

The proposed officers, directors and shareholders are as follows:

Dial M. Dunkin, Chairman of the Board, 1009 East Parkwood, Harlingen, TX 78550.
Rollins M. Koppel, President, Director, 1616 Sam Houston, Harlingen, TX 78550.
Robert B. Dunkin, Vice President, Director, 410 Retama, Harlingen, TX 78550.
Griffth R. Tees, Jr., Secretary, Treasurer, Director, 602 East Arroyo Drive, Harlingen, TX 78550.
Robert A. McAllen, Director, Route 1, Box 190, Weslaco, TX 78596.
Edward H. Starr, Jr., Director, 1802 East Washington Street, Harlingen, TX 78550.

There will be two (2) classes of stock, namely common stock (1,800,000 shares authorized) and preferred stock (200,000 shares authorized). The voting power for the election of directors for the corporation and for all other purposes shall be vested exclusively in the holders of the common stock, and except as otherwise provided by law, the holders of the shares of preferred stock shall not have any voting power. The company proposes to commence operation with a capitalization of $210,000 consisting of 210,000 shares of common stock. The proposed beneficial owners of the 210,000 shares of common stock are as follows:

Name	Number	Percent
Cameron Life Insurance Co. [1]	75,000	35.7
Rollins M. Koppel—Attorney—Harlingen	50,000	23.7
Mr. and Mrs. Alan Golden—(brother-in-law and sister of Koppel)	5,000	2.4
Mr. and Mrs. Charles Davis—(brother-in-law and sister of Koppel)	5,000	2.4
Jack Skaggs—Attorney—Harlingen	25,000	11.9
Albert Wolf—Harlingen	25,000	11.9
John Tucker—Doctor—San Benito	10,000	4.8
Hidalgo Bank & Trust Co.—Mercedes	10,000	4.8
Dan Miller—Brownsville	5,000	2.4

[1] Cameron Life Insurance is owned by Mr. Dial M. Dunkin, proposed Director and Chairman of the Board.

Applicant proposes to conduct its operations in the State of Texas and in other areas within the United States of America and its territories and possessions as may from time to time be approved by the SBA as its operating territory. Matters involved in SBA's consideration of the application include the general business reputation and character of the management, and the probability of successful operations of the new company in accordance with the Act and regulations.

Notice is further given that any interested person may, not later than 15 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed licensing of this company. Any such communications should be addressed to: Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published by the proposed Licensee in a newspaper of general circulation in Harlingen, Tex.

Dated: January 18, 1973.

DAVID A. WOLLARD,
Associate Administrator for Operations and Investment.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V-73-7]

CRANSTON PRINT WORKS CO.

Notice of Application for Variance

Notice is hereby given that Cranston Print Works Co., Fletcher, N.C. 28732, has made application pursuant to section 6(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for temporary variances from the standards prescribed in 29 CFR 1910.219 (e) and (f), pertaining to belt, rope, and chain drives, and to gears, sprockets, and chains, and in 29 CFR Part 1910.262(dd) (1) and (2), pertaining to nip guards and crown wheel and roller nip protection.

The applicant states that the addresses of the printing facilities that are directly affected by this application are as follows:

Cranston Print Works Co., Webster Division, Webster, Mass. 01570.
Cranston Print Works Co., Fletcher Division, Fletcher, N.C. 28732.

The applicant certifies that a summary of the application has been posted on a bulletin board in each printing machine area, and that a complete copy of the application has been sent to the personnel office at each plant and to the employee representatives at the following locations:

Webster Local 1751, Textile Workers Union of America, AFL–CIO, Webster, Mass.
Local 1355 T.W.U.A., AFL–CIO, Post Office Box 184, Skyland, NC 28776.
Machine Printers and Engravers Association, 172 Taunton Avenue, East Providence, RI 02914.

The applicant represents that due to the unusual design and construction of its roller type printing machines and due to the particular type of operations in which these machines are used, no protective devices which would guard these machines to the extent demanded by these regulations have ever been developed. Thus, the applicant is requesting a variance until February 15, 1973, for its Fletcher Division, and a variance until May 31, 1973, for its Webster Division, in order to have more time to develop effective guarding systems for the printing machines at each plant.

The following steps have been taken to provide temporary protection pending development of effective guarding systems.

1. Some fitting gears were provided with steel plates bolted to their outer edge and extending radially to a line beyond the line of engagement of the teeth of the fitting gear with the teeth of the star gear. This is alleged to provide protection against side entry into the nips;

2. The outer surfaces of all the fitting gears are painted bright red in order to call attention to the fact that there is a hazard and that caution should be exercised in working around the gears;

3. A "New Employee Safety Orientation" sheet is attached to every new employee's timecard. He takes this to his supervisor, who then discusses with him the various aspects of safety in the Print Room and in the operation of the print fitting gears.

The applicant further states that it has tried other means of protection which have either proved much less effective and/or interfered with the operation of the machines. Finally, the applicant states that it has contacted machinery manufacturing companies in its effort to develop a more effective means of protection.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, Room 500, 400 First Street NW., Washington, DC 20210, and at the following regional and area offices: U.S. Department of Labor, Occupational Safety and Health Administration, 1375 Peachtree Street NE., Suite 587, Atlanta, GA 30309; Occupational Safety and Health Administration, 1361 East Morehead Street, Charlotte, NC 28204; OSHA, JFK Federal Building, Room E–308, Boston, Mass. 02203; and OSHA, Custom House Building, State Street, Boston, Mass. 02109.

Interested persons are invited to submit written data, views, and arguments regarding the application for variances prior to March 2, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of any of the variances may request a hearing on the application prior to March 2, 1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing should be in quadruplicate, and shall be addressed to the Office of Standards at the above address.

Signed at Washington, D.C., this 26th day of January 1973.

CHAIN ROBBINS,
Acting Assistant Secretary of Labor.

[FR Doc.73-1898 Filed 1-30-73;8:45 am]

WISCONSIN DEVELOPMENTAL PLAN

Notice of Submission of Plan and Availability for Public Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667 and § 1902.11 of Title 29, Code of Federal Regulations, notice is hereby given that an Occupational Safety and Health Plan for the State of Wisconsin has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary has preliminarily reviewed the plan, and hereby gives notice that the question of approval of the plan is in issue before him.

The plan identifies the Department of Industry, Labor, and Human Relations as the State agency designated by the Governor of the State to administer the plan. It defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2 (c)(1). It provides a description of personnel employed under a merit system; the coverage of employees of political subdivisions; procedures for the prompt restraint or elimination of imminent danger situations; and procedures for the development and promulgation of standards, including standards for protection of employees against new and unforeseen hazards. Under the authority of existing legislation the Department of Industry, Labor, and Human Relations has full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State with the exception of domestic services and agriculture.

As stated in the plan, existing legislation further provides the State with the authority through the adoption of administrative rules to bring the plan into conformity with the requirements of 29 CFR Part 1902 in areas such as procedures for variances and the protection of employees from hazards; insuring inspections in response to complaints; giving employer and employee representatives an opportunity to accompany inspectors in order to aid inspections; notification of employees or their representatives when no compliance action is taken as a result of alleged violations, including informal review; notification of employees of their protections and obligations; protection of employees against discharge or discrimination in terms and conditions of employment; adequate safeguards to protect trade secrets, and provision for prompt notice to employers and employees of alleged violations of standards and abatement requirements. The plan includes draft legislation to be considered by the Wisconsin Legislature during its 1973 session. Under the proposed legislation the State will revise its existing system of sanctions against employers for violations of standards; amend present procedures for employer right of review and employee participation in review proceedings; and authorize coverage of agriculture.

Included in the plan is a statement of the Governor's support for the proposed legislation and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the constitution and laws of Wisconsin. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902.

2. *Location of plan for inspection and copying.* A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street NW., Washington, DC 20210; Regional Administrator, Occupational Safety and Health Administration, Department of Labor, 300 South Wacker Drive, Room 1201, Chicago, IL 60606; and the Department of Industry, Labor, and Human Relations, Division of Industrial Safety and Buildings, 201 East Washington Avenue, Madison, WI 53702. Copies of the plan may be obtained at the expense of the person(s) requesting the copies.

3. *Public participation.* Interested persons are hereby given until February 28, 1973, in which to submit to the Assistant Secretary written data, views, and arguments concerning the plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Occupational Safety and Health Administration, Railway Labor Building, Room 305, U.S. Department of Labor, Washington, D.C. 20210. The written comments will be available for public inspection and copying, at the expense of the person(s) requesting such copies, at the above address.

Any interested person(s) may request an informal hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereto are filed by February 28, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues involved.

The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the plan.

V 38 N 20 JAN 31 73
XUM

Signed at Washington, D.C., this 23d day of January 1973.

CHAIN ROBBINS,
Acting Assistant Secretary of Labor.

FOURTH SECTION APPLICATION FOR RELIEF

JANUARY 26, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with § 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before February 15, 1973.

FSA No. 42608—*Joint water-rail container rates—Orient Overseas Line, Inc.* Filed by Orient Overseas Line, Inc. (No. 1), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, and Taiwan, on the one hand, and rail carriers terminals on the U.S. Atlantic and Gulf coasts, on the other.

Grounds for relief—Water competition.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 26, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before March 2, 1973.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-42487 (Deviation No. 98), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, CA 94015, filed January 16, 1973. Carrier's representative: V. R. Oldenburg, Post Office Box 5138, Chicago, IL 60680. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Indianapolis, Ind., over Interstate Highway 70 to junction U.S. Highway 63 at or near Columbia, Mo., thence over U.S. Highway 63 to Macon, Mo., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Kansas City, Kans., over U.S. Highway 69 to junction U.S. Highway 36, thence over U.S. Highway 36 via Monroe City, Mo., to Indianapolis, Ind., and return over the same route.

No. MC-42487 (Deviation No. 99), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, CA 94015, filed January 16, 1973. Carrier's representative: V. R. Oldenburg, Post Office Box 5138, Chicago, IL 60680. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Birmingham, Ala., over Interstate Highway 59 to junction Interstate Highway 24, thence over Interstate Highway 24 to Chattanooga, Tenn., thence over U.S. Highway 27 to junction Tennessee Highway 61, near Little Emory, Tenn., thence over Tennessee Highway 61 to junction U.S. Highway 25W, at or near Clinton, Tenn., thence over U.S. Highway 25W to junction Interstate Highway 75, near Lake City, Tenn., thence over Interstate Highway 75 to Lexington, Ky., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from Birmingham, Ala., over U.S. Highway 31 to Ardmore, Tenn., thence over Tennessee Highway 110 to Fayetteville, Tenn., thence over U.S. Highway 231 to Murfreesboro, Tenn., thence over U.S. Highway 41 to Nashville, Tenn., thence over U.S. Highway 31W to Elizabethtown, Ky., thence over U.S. Highway 62 to Lexington, Ky., and return over the same route.

No. MC-59957 (Deviation No. 13), MOTOR FREIGHT EXPRESS, Post Office Box 1029, York, PA 17405, filed January 16, 1973. Carrier's representative: Walter M. F. Neugebauer, same address as applicant. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Port Matilda, Pa., over U.S. Highway 322 to Woodland, Pa., thence over Pennsylvania Highway 970 to junction Interstate Highway 80, thence over Interstate Highway 80 to Youngstown, Ohio, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Youngstown, Ohio, over U.S. Highway 422 to Portersville, Pa., thence over U.S. Highway 19 to Pittsburgh, Pa., and (2) from Port Matilda, Pa., over U.S. Highway 220 to Hollidaysburg, Pa., thence over U.S. Highway 22 to Pittsburgh, Pa., and return over the same routes.

No. MC-59957 (Deviation No. 14), MOTOR FREIGHT EXPRESS, Post Office Box 1029, York, PA 17405, filed January 16, 1973. Carrier's representative: Walter M. F. Neugebauer, same address as applicant. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cleveland, Ohio, over Ohio Highway 14 to junction Ohio Highway 82 at or near Twinsburg, Ohio, thence over Ohio Highway 82 to Warren, Ohio, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: Between Cleveland, Ohio, and Warren, Ohio, over U.S. Highway 422.

No. MC-89723 (Deviation No. 24), MISSCURI PACIFIC TRUCK LINES, INC., 210 North 13th Street, St. Louis, MO 63103, filed January 17, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Henderson, Tex., over U.S. Highway 259 to junction U.S. Highway 59 (north of Nacogdoches), thence over U.S. Highway 59 to Houston, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Longview, Tex., over U.S. Highway 259 to Henderson, Tex., thence over U.S. Highway 79 to Round Rock, Tex., thence over U.S. Highway 81 to Laredo, Tex., and (2) from Palestine, Tex., over U.S. Highway 287 to Crockett, Tex., thence over Texas Highway 19 to Huntsville, Tex., thence over U.S. Highway 75 to Houston, Tex., and return over the same routes.

By the Commission.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 26, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before March 2, 1973.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-44770 (Deviation No. 1), ZEPHYR LINES, INCORPORATED, 1114 Currie Avenue, Minneapolis, MN 55403, filed November 6, 1972, as amended January 16, 1973. Carrier's representative: Joseph J. Dudley, West 1260 First National Bank Building, St. Paul, Minn. 55101. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From Minneapolis, Minn., over Interstate Highway 94 to St. Paul, Minn., thence over Interstate Highway 35E to junction Minnesota Highway 36, thence over Minnesota Highway 36 to the St. Croix River, thence across the St. Croix River to junction Wisconsin Highway 64, (2) from St. Paul, Minn., over Interstate Highway 35E to junction Interstate Highway 694, thence east over Interstate Highway 694 to junction U.S. Highway 61, thence over U.S. Highway 61 to Forest Lake, Minn., (3) from Minneapolis, Minn., over U.S. Highway 12 to junction Interstate Highway 494, thence over Interstate Highway 494 to junction Minnesota Highway 5, thence over Minnesota Highway 5 to Gaylord, Minn., and (4) from Minneapolis, Minn., over Interstate Highway 35W to junction Minnesota Highway 62, thence over Minnesota Highway 62 to junction U.S. Highway 212.

Thence over U.S. Highway 212 to junction Minnesota Highway 5, thence over Minnesota Highway 5 to Gaylord, Minn., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows:

(1) From Minneapolis, Minn., over Minnesota Highway 212 to the St. Croix River, thence across the St. Croix River to junction Wisconsin Highway 64, thence over Wisconsin Highway 64 to junction U.S. Highway 63, thence over U.S. Highway 63 to Ashland, Wis., (2) from St. Paul, Minn., over U.S. Highway 61 to Forest Lake, Minn., thence over U.S. Highway 8 to junction Wisconsin Highway 35, thence over Wisconsin Highway 35 to Webster, Wis., and (3) from Minneapolis, Minn., over Minnesota Highway 7 to junction Minnesota Highway 41, thence over Minnesota Highway 41 to junction Minnesota Highway 5, thence over Minnesota Highway 5 to Gaylord, Minn., thence over Minnesota Highway 19 to Marshall, Minn., thence over Minnesota Highway 68 to Canby, Minn., and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 8]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JANUARY 26, 1973.

The following publications[1] are governed by the new § 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

APPLICATIONS ASSIGNED FOR ORAL HEARING

MOTOR CARRIERS OF PROPERTY

No. MC 128944 (Sub-No. 12) (clarification), filed July 10, 1972, published FEDERAL REGISTER, issue of August 17, 1972, and republished as clarified this issue. Applicant: RELIABLE TRUCK LINES, INC., 402 Maplewood Avenue, Nashville,

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality on the human environment resulting from approval of its application.

TN 37210. Applicant's representative: James Clarence Evans, 1800 Third National Bank Building, Nashville, TN 37210. Applicant's representative: James Clarence Evans, 1800 Third National

places in Massachusetts, between Boston, Mass., and points and places within 12

No. MC 2202 (Sub-No. 429 TA), filed

La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common*

Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043. Authority sought

ERAL REGISTER. One copy of such protests must be served on the applicant, or

38 120 JAN 31 73 XUM

TN 37210. Applicant's representative: James Clarence Evans, 1800 Third National Bank Building, Nashville, Tenn. 37219. NOTE: The application as originally published, sought authority over 4 specified regular routes: 1. between Atlanta, Ga., and Tupelo, Miss.; 2. between Guin, Ala., and Tupelo, Miss.; 3. between Birmingham, Ala., and all points within 15 miles thereof, and Tupelo, Miss., and 4. between Tuscumbia, Ala., and Tupelo, Miss. The original publication failed to set forth that applicant seeks to serve all intermediate points on specified routes in the State of Mississippi, and the off-route point of plantsite of Blue Bell, Inc., located about 3 miles north of Tupelo, Miss. The rest of the application remains as previously published, except application has been restrictively amended to delete therefrom any reference to off-route points in the Mississippi counties of Tishomingo, Alcorn, and Prentiss.

HEARING: Remains as assigned before Joint Board No. 340, on the 12th day of February 1973 (1 week), at 9:30 a.m., U.S. standard time, at the Natchez Trace Inn, 3400 West Main Street, at Tupelo, MS, and on the 20th day of February 1973 (1 week), at 9:30 a.m., U.S. standard time, at the Guest House Motor Inn, 18th Street at 10th Avenue, Birmingham, Ala.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1100.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-11618. (Amendment) (O'DONNELL'S EXPRESS—Purchase (Portion)—E. J. SCANNELL, INC.), published in the August 16, 1972, issue of the FEDERAL REGISTER on page 16582. By amendment filed January 17, 1973. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Boston, and Haverhill, Mass., between Boston, and Lowell, Mass., between Boston, and Attleboro, Mass., between Boston, and Blackstone, Mass., between Boston, and Beverly, Mass., between Boston, and New Bedford, Mass., between Boston, and Webster, Mass., between Providence, and Woonsocket, R.I., between Providence, and Bristol, R.I., between Providence, and Westerly, R.I., between Lowell, Mass., and Providence, R.I., between Lawrence, Mass., and Woonsocket, R.I., between Boston, Mass., and Westerly, R.I., between New Bedford, Mass., and Providence, R.I., between Boston, Mass., and Providence, R.I., between Haverhill, Mass., and Putnam, Conn., between New Bedford, Mass., and New London, Conn.; *general commodities*, with exceptions, over irregular routes, between Boston, Mass., on the one hand, and, on the other, points and places in Massachusetts, between Boston, Mass., and points and places within 12 miles of Boston, on the one hand, and, on the other, points and places in Connecticut and Rhode Island.

NOTICE

M V R HOLDING CORPORATION; BERNARD J. O'TOOLE AND MARY A. O'TOOLE of 290 Armistice Boulevard, Pawtucket, RI 02861, represented by Mr. Neal Holland, Sherburne, Powers & Needham, 225 Franklin Street, Boston, MA 02110, seeks by the application in Finance Docket No. 27260, to purchase the stock and acquire control of the Moshassuck Valley Railroad Co. Applicants' will continue to operate the 1.9 miles of the main line between Pawtucket and Lincoln, R.I. In the opinion of the applicants' this proposal will have no ascertainable effect on the quality of the human environment. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

By the Commission.

[Notice No. 9]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 23, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Sub-No. 429 TA) filed January 10, 1973. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Post Office Box 471, Akron, Ohio 44309. Applicant's representative: James W. Conner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving the facilities of the Tappan Co. at or near Oberlin, Ohio as an off-route point, for 180 days. NOTE: Applicant states it will tack with lead certificate MC 2202 and all subs thereto and will effect interchange at all points served. Supporting shipper: Tappan, Air Conditioning Division, 206 Woodford Avenue, Elyria, Ohio 44035. Send protests to: Franklin D. Ball, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, Ohio 44199.

No. MC 29886 (Sub-No. 290 TA) filed January 11, 1973. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, IN 46621. Applicant's representative: Charles Pieroni (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Truck tractors* in initial truckaway service; from the plantsite of Daybrook-Ottawa Division Gulf & Western Metals Forming Co., in Bowling Green, Ohio to points in the United States (except Alaska and Hawaii) for 180 days. Supporting shipper: Daybrook-Ottawa Division Gulf & Western Metals Forming Co., 1175 North Main Street, Bowling Green, Ohio 43402. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, 345 West Wayne Street, Room 204, Fort Wayne, IN 46802.

No. MC 26296 (Sub-No. 69 TA) filed January 11, 1973. Applicant: POPELKA TRUCKING CO., doing business as THE WAGGONERS, Post Office Box 990, Livingston, MT 59047. Applicant's representative: Wayne Waggoner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Forest products*, from points in Mineral County, Mont., to points in California and Nevada, for 180 days. Supporting shipper: Superior Wood Treat Products, Post Office Box 493, Superior, MT 59872. Send protests to: Paul J. Labane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 251 U.S. Post Office Building, Billings, Mont. 59101.

No. MC 112801 (Sub-No. 140 TA) filed January 11, 1973. Applicant: TRANSPORT SERVICE CO. (a corporation), Post Office Box 50272, 5100 West 41st Street, Chicago, IL 60650. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Residual fuel oil*, from Kansas City, Kans., to Lincoln, Nebr., for 180 days. Supporting shipper: Richard Gillis, regional production manager, Archer Daniels Midland Co., Lincoln, Nebr. Send protests to: Robert G. Anderson, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, IL 60604.

No. MC 113908 (Sub-No. 252 TA) filed January 11, 1973. Applicant: ERICKSON TRANSPORT CORPORATION, Post Office Box 3180, Glenstone Station, 2105 East Dale Street, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Beverage spirits, alcoholic liquors and neutral spirits*, in bulk, in tank vehicles, from Auburndale and Lake Alfred, Fla., to points in Connecticut, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, New Jersey, Ohio, and Pennsylvania. NOTE: (Applicant does not intend to transport (1) Brandy and wine, from Lake Alfred, Fla., to points in Illinois, Indiana, Michigan, Minnesota, New Jersey, and Ohio; (2) brandy and wine and rum, from Lake Alfred, Fla., to points in Pennsylvania; (3) brandy and rum, from Lake Alfred, Fla., to Baltimore, Gwynnbrook, and Relay, Md.; (4) alcoholic liquors, from Auburndale, Lake Alfred, and Winterhaven, Fla., to Peoria, Ill., and Schaefferstown, Pa.; (5) alcoholic liquors (rum), from Lake Alfred, Fla., to Cincinnati, Ohio; and (6) beverage spirits, from Lake Alfred, Fla., to Linden, N.J.), for 180 days. Supporting shipper: Jacquin-Florida Distilling Co., Auburndale, Fla. Send protests to: John V. Barry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 600 Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 116763 (Sub-No. 234 TA), filed January 8, 1973. Applicant: CARL SUBLER TRUCKING, INC., Route 92, Box 215, Auburndale, FL 33823. Applicant's representative: H. M. Richters, North West Street, Versailles, Ohio 45380. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food and foodstuffs*, except frozen and commodities in bulk, from the plantsite of the J. M. Smucker Co. at Memphis, Tenn., to points in Iowa and Nebraska, for 180 days. Supporting shipper: The J. M. Smucker Co., Orrville, Ohio 44667. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514-B Federal Building, 550 Main Street, Cincinnati, OH 45202.

No. MC 127239 (Sub-No. 12 TA), filed January 11, 1973. Applicant: UNIVERSAL BOW TRANSPORT, INC., Post Office Box 276, Concord Industrial Park (business address), Concord, NH 03301. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Packaging and paperboard cartons*, knocked down, from Lumberton, N.C., to points in the United States (except Alaska and Hawaii); (2) *paperboard*, from Demopolis, Ala., and Silsbee, Tex., to Lumberton, N.C.; and (3) *wax* (except in bulk), from Beaumont, Tex., and Cicero, Ill., to Lumberton, N.C., restricted to a transportation service to be performed under a continuing contract with Universal Packaging Corp. of Bow, N.H., for 180 days. Supporting shipper: Universal Packaging Corp., Post Office Box 176, Concord, NH 03301. Send protests to: District Supervisor Ross J. Seymour, Bureau of Operations, Interstate Commerce Commission, Concord, N.H. 03301.

No. MC 129350 (Sub-No. 24 TA), filed January 10, 1973. Applicant: CHARLES E. WOLFER, doing business as EVERGREEN EXPRESS, 410 North 10th Street, 59101, Post Office Box 212, Billings, MT 59103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tires, tubes*, from Dayton, Ohio, to Butte, Helena, and Missoula, Mont., *with return or rejected and returnable tires and tubes*, from Butte, Missoula, and Helena, Mont., to Dayton, Ohio, for 180 days. NOTE: Applicant does intend to join with service as proposed in this application to be joined with service now rendered under MC 129350 Sub-No. 4. Supporting shipper: B. L. M. Tires, Inc., Post Office Box 12, Billings, MT 59103. Send protests to: Paul J. Labane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 251, U.S. Post Office Building, Billings, Mont. 59101.

By the Commission.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, such as: dog foods, expanded, milk replacer, from Mankato, Minn., to Fresno, Calif., for 180 days. Supporting shipper: Hubbard Milling Co., 424 North Front Street, Mankato, MN 56001. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building, and U.S. Courthouse, 110 South 4th Street, Minneapolis, MN 55401.

No. MC 138305 TA, filed January 11, 1973. Applicant: SUN TRUCKING, INC., Building T106, Big Pasco Industrial Park, Pasco, Wash. 99302. Applicant's representative: Hovis, Cockrill & Roy, 316 North Third Street, Post Office Box 437, Yakima, WA 98907. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Tobacco products*, from Lewiston, Idaho, to Toppenish, Wash., for 180 days. NOTE: Applicant states that it does intend to tack with the authority in MC 138305. Supporting shipper: The Confederated Bands and Tribes of the Yakima Indian Nation, Yakima Indian Reservation, Yakima, Wash. Send protests to: L. D. Boone, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 6049 Federal Office Building, Seattle, Wash. 98104.

No. MC 138313 TA, filed January 15, 1973. Applicant: MACK E. BURGESS, doing business as BUILDERS TRANSPORT, Post Office Box 2805, 409 14th Street SW., 59404, Great Falls, MT 59403. Applicant's representative: Howard C. Burton, Post Office Box 2265, Great Falls, MT 59403. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lignite coal and treated lignite*, in bags or in bulk, from the plantsite of American Colloid Co. at Gascoyne, N. Dak., to points in Montana, with the *return of rejected or contaminated shipments*, for 180 days. Supporting shipper: American Colloid Co., 5100 Suffield Court, Skokie, Ill. Send protests to: Paul J. Labane, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 251, U.S. Post Office Building, Billings, Mont. 59101.

No. MC 138315 TA, filed January 12, 1973. Applicant: IRVIN WALTER TRUITT, doing business as TRUITT'S EXPRESS, 308 East Umstead Street, Durham, NC 27707. Applicant's representative: Irvin Walter Truitt (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Laboratory equipment, office supplies*, including but not limited to glassware, chemicals, and animal food, between Research Triangle Park, Durham, N.C., and Rockville and Bethesda, Md., for 180 days. Supporting shipper: National Institute of Environment Health Sciences, Department of Health, Education, and Welfare, Post Office Box 12233, Research Triangle Park, NC 27709. Send protests to: Archie W. Andrews, District Supervior, Interstate Commerce Commission, Bureau of Operations, Post Office Box 26896, Raleigh, NC 27611.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JANUARY 26, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by § 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

North Carolina Docket No. T-681 (Sub-No. 38) (Correction), filed December 8, 1972, published in the FEDERAL REGISTER issue of January 17, 1973, and republished as corrected, this issue. Applicant: HELMS MOTOR EXPRESS, INC., Post Office Drawer 700, Albemarle, NC. Applicant's representative: J. Ruffin Bailey, Post Office Box 2246, Raleigh, NC. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities* (except those requiring special equipment), over the following regular routes: (A) From the junction of U.S. Highway 74 and North Carolina Highway 381 near Hamlet, N.C., over North Carolina Highway 381 to Gibson, N.C.; thence over North Carolina Highway 79 to Laurinburg, N.C., and return over the same route serving all intermediate points. (B) From Laurinburg, N.C., over U.S. Highway 501 to Rowland, N.C.; thence over U.S. Highway 301 to Lumberton, N.C., and return over the same route serving all intermediate points. (C) Between Maxton, N.C., and Raemon, N.C., over North Carolina Highway 130 serving all intermediate points. (D) Between Rowland, N.C., and Whiteville, N.C., over North Carolina Highway 130 serving all intermediate points. (E) From the junction of North Carolina Highway 130 and North Carolina Highway 904 over North Carolina Highway 904 to Fair Bluff, N.C., thence over U.S. Highway 76 to Chadbourn, N.C., and return over the same route serving all intermediate points and serving Cerro Gordo, N.C., as an off-route point. (F) From Fair Bluff, N.C., over North Carolina Highway 904 to Tabor City, N.C., thence over U.S. Highway 701 to its junction with North Carolina Highway 130 and return over the same route serving all intermediate points. (G) Between Chadbourn, N.C., and Tabor City, N.C., over North Carolina Highway 410 serving all intermediate points. (H) Between Lumberton, N.C., and Fairmont, N.C., over North Carolina Highway 41 serving all intermediate points. Both intrastate and interstate authority sought. NOTE: The purpose of this republication is to correctly reflect the authority sought. The previous publication inadvertently omitted routes C, D, E, F, G, and H. *HEARING:* February 15, 1973, at the hearing room, North Carolina Utilities Commission, Ruffin Building, 1 West Morgan Street, Raleigh, NC, at 10 a.m. Requests for procedural information should be addressed to the North Carolina Utilities Commission, Post Office Box 991, Raleigh, NC 27602, and should not be directed to the Interstate Commerce Commission.

New York Docket No. T-9108, filed December 26, 1972. Applicant: SYRACUSE PICKUP & DELIVERY, INC., 559 East Brighton Avenue, Syracuse, NY 12310. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *undeveloped film, general interoffice paperwork and pharmaceutical products* (nonnarcotic), between Syracuse and Auburn, Cortland, Vestal, Fulton, Elmira, Massena, Oneida, Endwell, Johnstown, Oswego, Batavia, Potsdam, Oneonta, Ogdensburg, Horseheads, Ithaca, Rochester, Watertown, and New Hartford, N.Y. Both intrastate and interstate authority sought.

HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the New York State Department of Transportation, 1220 Washington Avenue, State Campus, Albany, NY 12226, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 7]

APPLICATIONS BY MOTOR CARRIERS OF PROPERTY OR PASSENGERS

JANUARY 23, 1973.

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5 and 210a(b) of the Interstate Commerce Act, and certain other proceedings with respect thereto (49 CFR 1100.240).

MOTOR CARRIERS OF PROPERTY

No. MCF-11632. Authority sought for control by EASTERN FREIGHT WAYS, INC., Eastern and Moonachie Avenues, Carlstadt, N.J. 07072, of ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York, NY 10017, and for acquisition by DANIEL E. SHEVELL AND MYRON P. SHEVELL, both of Carlstadt, N.J. 07072, of control through the acquisition by EASTERN FREIGHT WAYS, INC. Applicants' attorneys: Ralph E. Becker, J. Thomas Schneider, and Howard J. Feldman, 1819 H Street NW., Suite 950, Washington, DC 20006. Operating rights sought to be controlled: ASSOCIATED TRANSPORT, INC., operates as a *common carrier*, primarily over regular routes, between Atlanta, Ga., and Charleston, S.C., on the south, Nashville, Tenn., St. Louis, Mo., and Chicago, Ill., on the west, Detroit, Mich., Buffalo, N.Y., and Champlain, N.Y., and Portland, Maine, on the north, and Boston, Mass., on the east. ASSOCIATED controls SCHERER FREIGHT LINES, CO., which operates as a *common carrier* over regular and irregular routes in Illinois and Wisconsin extending generally between St. Louis, Mo., and Sheboygan, Wis. Eastern Freight Ways, Inc., is a common carrier operating primarily over regular routes in Delaware, District of

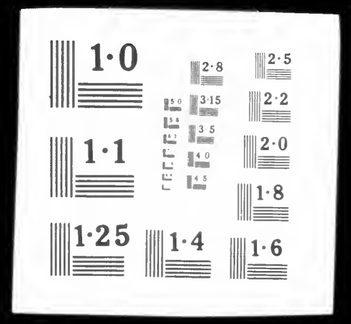
CODE OF FEDERAL REGULATIONS



Revised as of January 1, 1973)

Title 1—General Provisions---------- $.55

[A Cumulative checklist of CFR issuances for 1973 appears in the first issue of the Federal Register each month under Title 1]

**Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402**

RESOLUTION CHART

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and 100 20 = 5.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and 7.9 x 5 = 39.5 lines per millimeter recorded satisfactorily. 10.0 x 5 = 50 lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
